.26 Pegging for d-Quotes and e-Quotes.

(i) An e-Quote, other than a tick-sensitive e-Quote, may be set to provide that it will be available for execution at the National best bid ("NBB") (for an e-Quote that represents a buy order) or at the National best offer ("NBO") (for an e-Quote that represents a sell order) as the National best bid or offer ("NBBO") changes, so long as the NBBO is at or within the e-Quote's limit price.

(ii) - (vi) No change.

(vii) Pegging e-Quotes and d-Quotes peg only to other non-pegging interest within the pegging range selected by the Floor broker. Such non-pegging interest may be available on the Exchange or may be a protected bid or offer on an away market.

(viii) – (ix) No change.

(x) As long as the NBB is at or within the pegging price range selected by the Floor broker with respect to a buy-side e-Quote or d-Quote, or the NBO is within the price range selected by the Floor broker with respect to a sell-side e-Quote or d-Quote, the pegging e-Quote or d-Quote will join such NBB or NBO as it is autoquoted.

(A) A pegging e-Quote or d-Quote to buy (sell) will not peg to an NBB (NBO) that is locking or crossing the Exchange best offer (bid), but shall instead join the next available best-priced non-pegging interest that would not lock or cross the Exchange best offer (bid).

(B) If the NBB (NBO) is not within the pegging price range selected by the Floor broker, then a pegging e-Quote or d-Quote to buy (sell) shall join the next

available best-priced non-pegging interest within the price range selected by the Floor broker.

(xi) - (xii) No change.

(xiii) A Floor broker may establish a minimum [and/or maximum] size of same-side volume to which his or her e-Quote or d-Quote will peg. [Other pegging e-Quote or d-Quote volume will not be considered in determining whether the volume parameters set by the Floor broker have been met.]
