[^2]:    Data are the value of all sales of equities and options listed on an exchange or subject to last-sale reporting. Also reported are the value of such options that were exercised, the value of single-stock futures that were delivered, and the number of round turn contracts in single-stock futures traded on an exchange. Specifically excluded are options and futures on indexes.
    ${ }^{1}$ This is the number of round turn contracts, or one purchase and one sale of a contract for future delivery. Security futures began trading in November 2002.
