Part II, #1D (Continued)	<p>Fees</p> <p>Lucerne Capital is paid annual fees for portfolio management of the Funds (the "Management Fees"), which are calculated and paid as a percentage of the net asset value of the investors' interest in the Funds. Management Fees for the Funds and separate accounts range between 0% and 2% annually based on assets under management. This annual fee is generally charged monthly in advance on a prorated basis. Lucerne Capital also receives management fees for its sub-advisory services, which typically range between 1% and 2% of assets under management, charged monthly or quarterly. In addition, the Funds and the separate sub-advisory accounts pay Lucerne Capital performance-based compensation ("Performance Fees"). For all Funds and separate accounts, the Performance Fees are calculated based on a percentage of the net profits of the Funds/accounts at the end of each fiscal year, and are typically 20% of the allocable share of net profits above the "High Water Mark". In addition, to the extent that the balance of the account appreciation is less than the High Water Mark, there is a Loss Carryforward allocation which must be fulfilled by Lucerne Capital before Lucerne Capital Management, LLC is entitled to a performance-based fee.</p> <p>In measuring an investor's net profits for the calculation of Performance Fees, Lucerne Capital will typically include both realized and unrealized gains and losses during the relevant period. The calculation and payment of the Performance Fees applicable to a particular interest in a Fund is described in detail in the respective offering documents for such interest.</p> <p>The Performance Fee may create an incentive for Lucerne Capital to cause the Funds and Separate Investment Supervisory Service Accounts to make investments which may be riskier or more speculative than those which would be made under a different fee arrangement. The Investment Advisers Act of 1940 and certain state laws restrict the payment of performance-based fees, such as the Performance Fees, to investment advisers registered under such act. However, SEC Rule 205-3 permits the payment of performance-based compensation to registered investment advisers provided that the clients (including investors in investment vehicles such as the Funds) meet certain financial qualifications.</p> <p>The offerings of interests in the Funds are structured to comply with this rule and accordingly the Funds will only accept subscriptions from investors who meet the qualifications set forth in Rule 205-3. Investors in the Funds are requested to refer to the applicable Fund Private Placement Memorandum for complete information on the services offered, and corresponding fees charged, by Lucerne Capital.</p> <p>General Information on Fees</p> <p><u>Negotiability of Fees:</u> In certain circumstances, Lucerne Capital's fees may be negotiable. In certain circumstances, Lucerne Capital reserves the right to waive management fees and performance fees.</p> <p><u>Fee Calculation:</u> Except as described above, the fee is not charged on the basis of a share of capital gains upon or capital appreciation of the funds or any portion of the funds of an advisory client (Section 205(a)(1) of the Investment Advisers Act of 1940, as amended).</p>

Lucerne Capital will endeavor to select those brokers or dealers which will provide the best execution at competitive commission rates.</p> <p>Subject to the requirement to obtain best execution of brokerage transactions, transactions for the Funds may be allocated to brokers on the basis of and in consideration of such brokers' provision or payment of the costs of investment research and analysis, administrative and operational services and support, bookkeeping and recordkeeping services, trading terminals or other office equipment and other trading services and products (sometimes referred to as "soft dollar" services and products) that are of benefit to the Funds and Lucerne Capital. Accordingly, the commission rates charged by brokers in the foregoing circumstances may be higher than those charged by other brokers who may not offer such services. Lucerne Capital may therefore use a broker who provides soft dollar services and products even though a lower commission may be charged by a broker who does not offer the same level of products and services.
