Item of Form (identify)	Answer
	<p>identification of a target rate of return needed to achieve the client's long term goals, taking into account the clients constraints and assumptions made in the plan. If the client does not complete an investment plan and an arbitrary target rate of return is chosen, the likely result is either the assumption of needless risk with a target too high or not attaining long term goals with a target too low.</p> <p>For each of the financial planning areas covered by the plan the client will be given a list of recommended actions that the client should take in order to achieve their financial goals. If the client requests assistance in implementing any of those actions then Lassus Wherley will provide assistance where it feels it can add value. However, the client agrees and understands that they alone are responsible for taking the recommended actions, with the exception of investment advisory services. The client understands that Lassus Wherley is neither directly nor indirectly responsible for the implementation of any of the action steps, again with the exception of investment advisory services.</p> <p>Included in the fee will be an offer every three years to update sections of the financial plan if needed.</p> <p><b>Investment Advisory</b> service can be provided for any type of account including but not limited to 401(k) accounts, Deferred Compensation, Trust, IRA's, and Brokerage accounts. This service provides for the individual management of the account including the placing of orders, quarterly investment reports and meetings as required.</p> <p>Lassus Wherley recommends that the client hire it to manage the client's entire investment portfolio to strive to obtain the client's target rate of return and therefore achieve the client's long term goals and objectives. Lassus Wherley will devise a portfolio designed to achieve the client's goals, implement investment recommendations and conduct ongoing reviews of the investments. If the client chooses not to have Lassus Wherley provide investment advisory services for all of their investable assets then the client may assume unnecessary risks or not have enough wealth to achieve their goals. Note that a conflict of interest exists here since fees paid to Lassus Wherley for investment advisory services are based on total assets under management.</p> <p>Lassus Wherley will invest the client's investment portfolio in accordance with their long term goals and objectives. If a client's circumstances should change, or if there are any restrictions the client wishes to put in place, it is the responsibility of the client to let us know as soon as possible so that we can review the portfolio and make changes as appropriate.</p> <p><b>Financial Planning and Investment Advisory services can be unbundled outside of the Wealth Management framework.</b></p> <p>Fees for <b>Financial Planning</b> service outside the Wealth Management framework are based on the following hourly rates unless otherwise agreed to in writing:</p>

Clients sign a limited power of attorney or other trading authorization as may be required by the custodian/broker-dealer to effect trades on their behalf. Lassus Wherley, in consultation with the client, is responsible for selecting the custodian/broker-dealer that will best fit the client's situation.</p> <p>For the economic benefit of its clients, Lassus Wherley negotiates reduced commission schedules and lower transaction fees with the custodians/broker-dealers. Schwab Institutional provides Lassus Wherley with access to its institutional trading and operations services, which are typically not available to Schwab retail investors. **NOTES TO BALANCE SHEETS**  
**MARCH 31, 2010 AND 2009**

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Nature of Business** – Lassus Wherley & Associates, P.C. (the "Company"), is a certified public accounting firm which specializes in fee-only financial planning and asset management in addition to tax and family office services. The Company has an office in Bonita Springs, Florida but operates primarily in the New Jersey metropolitan area.

**Organization** – The Company, which was originally chartered as a business corporation doing fee-only financial planning in 1985, reorganized as a Professional Corporation in October 1992 for the purpose of providing professional accounting services. The Company operates on a fiscal period from April 1st to March 31st.

**Use of Estimates** – The preparation of a financial statement in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statement. Actual results could differ from those estimates.

**Cash Equivalents** – The Company considers all highly liquid debt securities with original maturities of three months or less to be cash equivalents.

**Accounts Receivable** – Accounts receivable are stated at cost less an allowance for doubtful accounts. On a periodic basis, the Company evaluates the individual collectability of its accounts receivable and provides an allowance for doubtful accounts for those accounts which the Company believes are uncollectible. Accounts are considered past due if they remain unpaid for more the 30 days. Accounts receivable are written off against the allowance account when all reasonable collection efforts have been unsuccessful.

**Deferred Revenue** – The Company's policy is to recognize revenues when the services provided to clients have been substantially completed. Cash received in advance of performing services is deferred and shown as deferred revenue.

**Property and Equipment** – Property and equipment are carried at cost. Depreciation is calculated using the straight-line method over the estimated useful life of the property.

**Intangible Assets** – Software licenses are amortized on a straight-line-basis over their estimated useful lives of three years. Goodwill is not amortized.

**Income Taxes** – The Company has elected S Corporation status for both state and federal purposes and as such does not pay taxes as an entity but instead passes through items to the stockholders. A corporate level tax is incurred in New Jersey.
