	<p>The adviser for the TRP and CMF is SCM and the subadviser is Cornerstone Select Advisors, LLC. (CSA) CRD #144044 CSA and SCM are affiliated. Referral fees can be paid to broker dealers or other advisory firms for referring clients to the portfolios.</p> <p>1)Cornerstone Managed Fund (CMF)</p> <p>Adviser utilizes its Cornerstone Managed Fund Program strategy to create three strategies at various mutual funds. Based on client's answers to a suitability questionnaire, clients are placed in one of three portfolios. Each portfolio holds a different percentage of bond or stock funds or sub accounts as the case may be:</p> <table> <tr> <td>Aggressive</td><td>90% Stock; 10% Bonds</td></tr> <tr> <td>Moderate</td><td>60% Stock; 40% Bonds</td></tr> <tr> <td>Conservative</td><td>25% Stock; 75% Bonds</td></tr> </table> <p>The percentages of the portfolio invested in stock mutual funds increases with the increase in client risk tolerance and time horizon. The funds in each segment of a portfolio (bond and stock) are selected using Adviser's asset allocation methodology which selects the funds which have the best potential for superior risk adjusted returns. The manager employs an asset allocation model specific to the customer's financial objectives. The strategy is designed to use the funds that provide the best solution for each customer. Funds will be reviewed for each specific asset class and graded to measure the effectiveness of its ability to meet the customers goal. The holdings of the funds used will be aggregated to show overlap within the holdings and measured to provide the highest level of correlation to the proper benchmark. The portfolio will be monitored and, benchmark assessments will be made each six months to assure the goals are being met. Funds failing to meet the standards will be removed and replaced with managers that will. If a change is required the manager will complete an analysis to maintain and assure the customer's investment objective is being properly followed. Adviser reserves the right to change the percentage invested in the bond and stock portfolios in each profile.</p> <p>2)Cornerstone Total Return Portfolio (TRP)</p> <ol style="list-style-type: none"> Domestic Equity Foreign Stock Portfolio (FSP) using primarily American Depository Receipts (ADR's) <p>The manager employs a Top-Down value based metric. Security selection is identified by analysis of cash flow, invested capital, and peer group derived capital charge to provide a value of "economic profit" measure. Securities are then selected by evaluating the current economic conditions and the propensity of the selection to produce positive returns to the portfolio. Part II - 12(A) 1 & 2	<p>Advisory Clients with an SCM Asset Management Account will receive a quarterly performance report generated by Pershing, LLC. More frequent reviews may be requested in writing. The performance reports are in addition to brokerage statements which are generated at least quarterly.</p> <p><u>AssetMark Investment Services</u>: SCM does not take independent discretionary authority over client accounts. SCM does, however, offer clients participation in "AssetMark Investment Services", an asset allocation program more fully described in the AssetMark Schedule H, provided separately. Model portfolios composed by a group of independent investment strategists are offered under the program with the different models designed to satisfy a gradient of risk/return assumptions. The independent investment strategists have no direct relationship with SCM or client, make no analysis of the client's circumstances or objectives, and do not tailor the models to any specific client's need.</p> <p>SCM assists the client in selecting the model portfolio that best suits the client's objectives. The client then specifically directs the account to be invested in accordance with the chosen model portfolio. When the client selects the model portfolio, the client further directs that the account be automatically adjusted to reflect any adjustment in the model portfolio by the investment strategist. This client authorization would result in the purchase and sale of certain mutual funds or ETFs (or transfers between variable annuity sub-accounts) without further authorization by the client at such time as the investment strategist changes the composition of the selected model portfolio. The client receives confirmation of all transactions in the account and is free to terminate their participation in the program and retain or dispose of any assets in the account at any time. SCM has no authority to cause any purchase or sale of securities in any client account, or change the model portfolio or to direct the account to be invested in any manner other than as previously authorized by the client.</p> <p><u>SCM Asset Management Account</u>: Advisory Client will grant investment adviser representative discretionary authority to purchase and or sell shares of selected no-load mutual funds and mutual funds offered at NAV. In addition, discretionary authority is granted by Advisory Client to manage other securities, including, but not limited to stocks, bonds, options (limited to purchasing puts and calls and writing covered calls) and eligible variable annuities.</p>
Part II - 13(A) 1	<p><u>Additional Compensation</u> Associated persons of Advisor may receive 12b-1 distribution fees in connection with placement of client funds. Advisor may receive additional compensation for referrals if Client transacts business with certain advisors. In such cases, the Client shall be informed of any fees received, which may be in addition to any financial planning, consulting and investment advisory fee(s) paid by the Client.</p>
Part II - 13(B)	<p>In accordance with the SEC Regulation 275.206, the Adviser pays a referral fee at a negotiated rate to registered broker/dealers, investment advisers or sales representatives in accordance with the terms of a written Solicitor Agreement and after execution of a written referral fee disclosure statement by each client in respect of such persons. Applicant's referral agreement is in compliance with the</p>
