## Firm Description

WEALTH CARE LLC was founded in 2002.

WEALTH CARE LLC provides personalized confidential financial planning and investment management to individuals, pension and profit sharing plans, trusts, estates, charitable organizations and small businesses. Advice is provided through consultation with the client and may include: determination of financial objectives, identification of financial problems, cash flow management, tax planning, insurance review, investment management, education funding, retirement planning, and estate planning.

WEALTH CARE LLC is strictly a fee-only financial planning and investment management firm. The firm does not sell annuities, insurance, stocks, bonds, mutual funds, limited partnerships, or other commissioned products. The firm is not affiliated with entities that sell financial products or securities. No commissions in any form are accepted. No finder's fees are accepted.

Investment advice is an integral part of financial planning. In addition, WEALTH CARE LLC advises clients regarding cash flow, college planning, retirement planning, tax planning and estate planning.

Investment advice is provided, with the client making the final decision on investment selection. WEALTH CARE LLC does not act as a custodian of client assets. The client always maintains asset control. WEALTH CARE LLC places trades for clients under a limited power of attorney.

A written evaluation of each client's initial situation is usually provided to the client depending on the mutually agreed upon scope of engagement. Periodic reviews are also communicated to provide reminders of the specific courses of action that need to be taken. More frequent reviews occur but are not necessarily communicated to the client unless immediate changes are recommended.

Other professionals (e.g., lawyers, accountants, insurance agents, etc.) are engaged directly by the client on an as-needed basis. Conflicts of interest will be disclosed to the client in the unlikely event they should occur.

The initial meeting, which may be by telephone at 321-543-1099, is free of charge and is considered an exploratory interview to determine the extent to which financial planning and investment management may be beneficial to the client.

---

## Principal Owners

STEVEN PODNOS is a 100% stockholder.

---

### **Types of Advisory Services**

WEALTH CARE LLC provides investment supervisory services, also known as asset management services; manages investment advisory accounts not involving investment supervisory services; furnishes investment advice through consultations; issues periodicals about securities by subscription; issues special reports about securities; and issues, charts, graphs, formulas, or other devices which clients may use to evaluate securities.

On more than an occasional basis, WEALTH CARE LLC furnishes advice to clients on matters not involving securities, such as financial planning matters, taxation issues, and trust services that often include estate planning.

As of SEPTEMBER 2, 2010, WEALTH CARE LLC manages approximately \$110,000,000 in assets for approximately 80 clients.

---

### **Tailored Relationships**

The goals and objectives for each client are documented in our client relationship management system. Investment policy statements are created that reflect the stated goals and objective. Clients may impose restrictions on investing in certain securities or types of securities.

Agreements may not be assigned without client consent.

---

### **Types of Agreements**

The following agreements define the typical client relationships.

---

#### **Financial Planning Agreement**

When mutually desired, a financial plan is designed to help the client with important aspects of financial planning with ongoing investment management after the financial plan is completed.

The financial plan may include, but is not limited to: a net worth statement; a cash flow statement; a review of investment accounts, including reviewing asset allocation and providing repositioning recommendations; strategic tax planning; a review of retirement accounts and plans including recommendations; a review of insurance policies and recommendations for changes, if necessary; one or more retirement scenarios; estate planning review and recommendations; and education planning with funding recommendations.

Detailed investment advice and specific recommendations are provided as part of a financial plan. Implementation of the recommendations is at the discretion of the client.

The fee for a financial plan is predicated upon the facts known at the start of the engagement. The fee is *mutually agreed upon at the initiation of the relationship*. Since financial planning is a discovery process, situations occur wherein the client is unaware of certain financial exposures or predicaments.

In most cases, if the client has the minimum level of assets under management, there is no additional charges for meetings and other access to Wealth Care LLC.

---

### **Advisory Service Agreement**

Most clients choose to have WEALTH CARE LLC manage their assets in order to obtain ongoing in-depth advice and life planning. All aspects of the client's financial affairs may be reviewed, including those of their children. Realistic and measurable goals are set and objectives to reach those goals are defined. As goals and objectives change over time, suggestions are made and implemented on an ongoing basis.

The scope of work and fee for an Advisory Service Agreement is provided to the client in writing prior to the start of the relationship. An Advisory Service Agreement includes: cash flow management; insurance review; investment management (including performance reporting); education planning; retirement planning; estate planning; and tax preparation, as well as the implementation of recommendations within each area.

The annual Advisory Service Agreement fee is based on a percentage of the investable assets according to the following schedule:

0.75% on the first \$1,000,000;

0.50% on the next \$1,000,000 (from 1,000,001 to 2,000,000); and

0.25% on the assets above \$2,000,000.

The minimum annual fee is \$ 3850. Current client relationships may exist where the fees are higher or lower than the fee schedule above.

Although the Advisory Service Agreement is an ongoing agreement and constant adjustments are required, the length of service to the client is at the client's discretion. The client or the investment manager may terminate an Agreement by written notice to the other party. At termination, fees will be billed on a pro rata basis for the portion of the quarter completed. The portfolio value at the completion of the prior full billing quarter is used as the basis for the fee computation, adjusted for the number of days during the billing quarter prior to termination.

---

### **Retainer Agreement**

In some circumstances, a *Retainer Agreement* is executed in lieu of an *Advisory Service Agreement* when it is more appropriate to work on a fixed-fee basis. The annual fee for a *Retainer Agreement* is \$3850.

---

### **Asset Management**

Assets are invested primarily in no-load mutual funds and exchange-traded funds, usually through discount brokers or fund companies. Fund companies charge each fund shareholder an investment management fee that is

disclosed in the fund prospectus. Discount brokerages may charge a transaction fee for the purchase of some funds.

Stocks and bonds may be purchased or sold through a brokerage account when appropriate. The brokerage firm charges a fee for stock and bond trades. WEALTH CARE LLC does not receive any compensation, in any form from fund companies or any other source except directly from the client.

Investments may also include: equities (stocks), warrants, corporate debt securities, commercial paper, certificates of deposit, municipal securities, investment company securities (variable life insurance, variable annuities, and mutual funds shares), U. S. government securities, options contracts, futures contracts, and interests in partnerships.

Initial public offerings (IPOs) are not available through WEALTH CARE LLC.

---

### **Termination of Agreement**

A Client may terminate any of the aforementioned agreements at any time by notifying WEALTH CARE LLC in writing and paying the rate for the time spent on the investment advisory engagement prior to notification of termination. If the client made an advance payment, WEALTH CARE LLC will refund any unearned portion of the advance payment.

WEALTH CARE LLC may terminate any of the aforementioned agreements at any time by notifying the client in writing. If the client made an advance payment, WEALTH CARE LLC will refund any unearned portion of the advance payment.

## **Fees and Compensation**

---

### **Description**

WEALTH CARE LLC bases its fees on a percentage of assets under management or mutually agreed annual fixed fees. Some *Retainer Agreements* may be priced based on the complexity of work, especially when asset management is not the most significant part of the relationship.

Financial plans may be priced according to the degree of complexity associated with the client's situation.

---

### **Fee Billing**

Investment management fees are billed quarterly, in *arrears*, meaning that we invoice you *after* the three-month billing period has *ended*. Payment in full is expected upon invoice presentation. Fees are usually deducted from a designated client account to facilitate billing. The client must consent in advance to direct debiting of their investment account.

---

### **Other Fees**

Custodians may charge transaction fees on purchases or sales of certain mutual funds and exchange-traded funds. These transaction charges are usually small and incidental to the purchase or sale of a security. The selection of the security is more important than the nominal fee that the custodian charges to buy or sell the security.

WEALTH CARE LLC, in its sole discretion, may waive its minimum fee and/or charge a lesser investment advisory fee based upon certain criteria (e.g., historical relationship, type of assets, anticipated future earning capacity, anticipated future additional assets, dollar amounts of assets to be managed, related accounts, account composition, negotiations with clients, etc.).

New Advisory Service Agreement fees are calculated on a formula basis and adjusted for complexity of individual situations. *The formula is based on gross income, gross assets and other financial considerations.*

---

### **Expense Ratios**

Mutual funds generally charge a management fee for their services as investment managers. The management fee is called an expense ratio. For example, an expense ratio of 0.50 means that the mutual fund company charges 0.5% for their services. These fees are in addition to the fees paid by you to WEALTH CARE LLC.

Performance figures quoted by mutual fund companies in various publications are after their fees have been deducted.

---

### **Past Due Accounts and Termination of Agreement**

WEALTH CARE LLC reserves the right to stop work on any account that is more than 30 days overdue. In addition, WEALTH CARE LLC reserves the right to terminate any financial planning engagement where a client has willfully concealed or has refused to provide pertinent information about financial situations when necessary and appropriate, in WEALTH CARE LLC's judgment, to providing proper financial advice.

## **Performance-Based Fees**

---

### **Sharing of Capital Gains**

Fees are not based on a share of the capital gains or capital appreciation of managed securities.

WEALTH CARE LLC does not use a performance-based fee structure because of the potential conflict of interest. Performance-based compensation may create an incentive for the adviser to recommend an investment that may carry a higher degree of risk to the client.

## Types of Clients

---

### Description

WEALTH CARE LLC generally provides investment advice to individuals, pension and profit sharing plans, trusts, estates, charitable organizations, and/or business entities.

Client relationships vary in scope and length of service.

---

### Account Minimums

The minimum account size is \$ 1,000,000 of assets under management, which equates to an annual fee of \$ 7500.

WEALTH CARE LLC has the discretion to waive the account minimum. Accounts of less than \$ 1,000,000 may be set up when the client and the advisor anticipate the client will add additional funds to the accounts bringing the total to \$ 1,000,000 within a reasonable time. Other exceptions will apply to employees of WEALTH CARE LLC and their relatives, or relatives of existing clients.

Clients receiving ongoing asset management services will be assessed a \$ 3850 minimum annual fee unless an different amount is mutually agreed on. Clients with assets below the minimum account size may pay a higher percentage rate on their annual fees than the fees paid by clients with greater assets under management.

## Methods of Analysis, Investment Strategies and Risk of Loss

---

### Methods of Analysis

Security analysis methods may include charting, fundamental analysis, technical analysis, and cyclical analysis.

The main sources of information include financial newspapers and magazines, inspections of corporate activities, research materials prepared by others, corporate rating services, timing services, annual reports, prospectuses, filings with the Securities and Exchange Commission, and company press releases.

Other sources of information that WEALTH CARE LLC may use include Morningstar Principia mutual fund information, Morningstar Principia stock information, and the World Wide Web.

---

### Investment Strategies

The primary investment strategy used on client accounts is strategic asset allocation utilizing a core and satellite approach. This means that we use passively-managed index and exchange-traded funds as the core investments, and then add actively-managed funds where there are greater

opportunities to make a difference. Portfolios are globally diversified to control the risk associated with traditional markets.

The investment strategy for a specific client is based upon the objectives stated by the client during consultations. The client may change these objectives at any time. Most clients execute a questionnaire that documents their objectives and their approximate risk tolerance. Most, but not all clients will receive an Investment Policy Statement for review.

---

## **Risk of Loss**

All investment programs have certain risks that are borne by the investor. Our investment approach constantly keeps the risk of loss in mind. Investors face the following investment risks:

- **Interest-rate Risk:** Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on existing bonds become less attractive, causing their market values to decline.
- **Market Risk:** The price of a security, bond, or mutual fund may drop in reaction to tangible and intangible events and conditions. This type of risk is caused by external factors independent of a security's particular underlying circumstances. For example, political, economic and social conditions may trigger market events.
- **Inflation Risk:** When any type of inflation is present, a dollar today will not buy as much as a dollar next year, because purchasing power is eroding at the rate of inflation.
- **Currency Risk:** Overseas investments are subject to fluctuations in the value of the dollar against the currency of the investment's originating country. This is also referred to as exchange rate risk.
- **Reinvestment Risk:** This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e. interest rate). This primarily relates to fixed income securities.
- **Business Risk:** These risks are associated with a particular industry or a particular company within an industry. For example, oil-drilling companies depend on finding oil and then refining it, a lengthy process, before they can generate a profit. They carry a higher risk of profitability than an electric company, which generates its income from a steady stream of customers who buy electricity no matter what the economic environment is like.
- **Liquidity Risk:** Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are interested in a standardized product. For example, Treasury Bills are highly liquid, while real estate properties are not.

- **Financial Risk:** Excessive borrowing to finance a business' operations increases the risk of profitability, because the company must meet the terms of its obligations in good times and bad. During periods of financial stress, the inability to meet loan obligations may result in bankruptcy and/or a declining market value.

## **Disciplinary Information**

The personal trading reviews ensure that the personal trading of employees does not affect the markets, and that clients of the firm receive preferential treatment. Since most employee trades are small mutual fund trades or exchange-traded fund trades, the trades do not affect the securities markets.

## Brokerage Practices

---

### Selecting Brokerage Firms

---

### Periodic Reviews

---

### Review Triggers

Other conditions that may trigger a review are changes in the tax laws, new investment information, and changes in a client's own situation.

---

### Regular Reports

Account reviewers are members of the firm's Investment Committee. They are instructed to consider the client's current security positions and the likelihood that the performance of each security will contribute to the investment objectives of the client.

LLC uses Morningstar to independently review and report on all client account activities at the custodian Fidelity Investments.

---

### **Net Worth Statements**

Clients are frequently provided account statements that are generated from our client relationship management system.

## **Investment Discretion**

---

### **Discretionary Authority for Trading**

WEALTH CARE LLC accepts discretionary authority to manage securities accounts on behalf of clients. WEALTH CARE LLC has the authority to

determine, without obtaining specific client consent, the securities to be bought or sold, and the amount of the securities to be bought or sold.

The client approves the custodian to be used and the commission rates paid to the custodian. WEALTH CARE LLC does not receive any portion of the transaction fees or commissions paid by the client to the custodian on certain trades.

Discretionary trading authority facilitates placing trades in your accounts on your behalf.

---

**Limited Power of Attorney**

A limited power of attorney is a trading authorization for this purpose. You sign a limited power of attorney so that we may execute the trades that you have approved.

## **Voting Client Securities**

---

**Proxy Votes**

WEALTH CARE LLC does not vote proxies on securities. Clients are expected to vote their own proxies.

When assistance on voting proxies is requested, WEALTH CARE LLC will provide recommendations to the Client. If a conflict of interest exists, it will be disclosed to the Client.

## **Financial Information**

---

**Financial Condition**

WEALTH CARE LLC does not have any financial impairment that will preclude the firm from meeting contractual commitments to clients.

A balance sheet is not required to be provided because WEALTH CARE LLC does not serve as a custodian for client funds or securities, and does not require prepayment of fees of more than \$1,200 per client, and six months or more in advance.

## **Business Continuity Plan**

---

**General**

WEALTH CARE LLC has a Business Continuity Plan in place that provides detailed steps to mitigate and recover from the loss of office space, communications, services or key people.
