Advisory Business

Form ADV Part 2A, Item 4

Description of Services and Fees

We are Bobby Leon Eubank, doing business as Eubank, Hutson & Associates, a registered investment adviser based in Plano, Texas. We are organized as a sole proprietorship under the laws of the State of Texas. We have been providing investment advisory services since 1987. Bobby L. Eubank is our principal owner. Currently, we offer the following investment advisory services, which are personalized to each individual client:

- **Financial Planning Services**
- **Portfolio Management Services**

The following paragraphs describe our services and fees. Please refer to the description of each investment advisory service listed below for information on how we tailor our advisory services to your individual needs. As used in this brochure, the words “we”, “our” and “us” refer to Eubank, Hutson and Associates and the words “you”, “your” and “client” refer to you as either a client or prospective client of our firm. Also, you may see the term Associated Person or Investment Adviser Representative throughout this brochure. As used in this brochure, our Associated Persons or Investment Adviser Representatives are our firm’s officers, employees, and all individuals providing investment advice on behalf of our firm.

Financial Planning Services

We offer broad-based, modular, and consultative financial planning services. Financial planning will typically involve providing a variety of advisory services to clients regarding the management of their financial resources based upon an analysis of their individual needs. If you retain our firm for financial planning services, we will meet with you to gather information about your financial circumstances and objectives. The information normally covers present and anticipated assets and liabilities, including insurance, savings, investments and anticipated retirement or other employee benefits. Once we specify those long-term objectives (both financial and non-financial), we will develop shorter-term, targeted objectives. Once we review and analyze the information you provide to our firm, we will deliver a written plan to you, designed to help you achieve your stated financial goals and objectives. The financial plan will contain general recommendations such as, that you obtain insurance or revise existing coverage, establish an individual retirement account, increase or decrease funds in savings accounts or invest in securities, and in some cases, we may develop tax or estate plans for you or refer you to an accountant or attorney for their services.

Financial plans are based on your financial situation at the time we present the plan to you, and on the financial information you provide to our firm. You must promptly notify our firm if your financial situation, goals, objectives, or needs change. You are under no obligation to act on our financial planning recommendations. Should you choose to act on any of our recommendations, you are not obligated to implement the financial plan through any of our other investment advisory services. Moreover, you may act on our recommendations by placing securities transactions with any brokerage firm.

We also offer pension consulting services to employee benefit plans and their fiduciaries based upon the needs of the plan and the services requested by the plan sponsor or named fiduciary. In general, these services may include an existing plan review and analysis, plan-level advice regarding fund selection and investment options, education services to plan participants, investment performance monitoring, and/or ongoing consulting. These pension consulting services will generally be non-discretionary and advisory in nature. The ultimate decision to act on behalf of the plan shall remain with the plan sponsor or other named fiduciary.

In addition, we may provide additional types of pension consulting services to plans on an individually negotiated basis. All services, whether discussed above or customized for the plan based upon requirements from the plan fiduciaries (which may include additional plan-level or participant-level services) shall be detailed in a written agreement and be consistent with the parameters set forth in the plan documents. Our advisory fees for these customized services will be negotiated with the plan sponsor or named fiduciary on a case-by-case basis.

Our firm performs financial planning services on either a fixed fee or hourly basis.

- **Fixed Fee:** We charge a fixed fee for financial planning services, which generally ranges between \$500 and \$3,000. The fee is negotiable depending upon the complexity and scope of the plan, your financial situation, and your objectives. An estimate of the total time/cost will be determined at the start of the advisory relationship. In limited circumstances, the cost/time could potentially exceed the initial estimate. In such cases, we will notify you in advance and request that you approve the additional fee. If the fixed fee option is chosen, you will be required to pay the entire estimated fee upon signing the financial planning agreement.
- **Hourly Fee:** We charge an hourly fee of \$175 for limited financial planning services, which is negotiable depending on the scope and complexity of the plan, your situation, and your financial objectives. A written financial plan is not included at this level. An estimate of the total time/cost will be determined at the start of the advisory relationship. In limited circumstances, the cost/time could potentially exceed the initial estimate. In such cases, we will notify you and request that you approve the additional fee. Fees are due upon completion of services rendered.

If you engage our firm for portfolio management services, we may, at our sole discretion, offset or waive the cost of financial planning services. You will not pay an additional charge for regular financial planning services; it will be included in the fee you pay for portfolio management services. Extraordinary research or analysis may cost extra and will be negotiated on an individual basis in advance. In no circumstances will we require prepayment of a fee more than six months in advance and in excess of \$1,200.

You may terminate the financial planning agreement within five days from the date of acceptance without penalty. After the five-day period, either you or our firm may cancel the financial planning agreement by providing written notice to the other party. You will incur a pro rata charge for services rendered prior to the termination of the agreement. If you have pre-paid advisory fees that we have not yet earned, you will receive a prorated refund of those fees.

Portfolio Management Services

We offer discretionary portfolio management services. Our investment advice is tailored to meet our clients' needs and investment objectives. If you retain our firm for portfolio management services, we will meet with you to determine your investment objectives, risk tolerance, and other relevant information (the "suitability information") at the beginning of our advisory relationship. We will use the suitability information we gather to develop a strategy that enables our firm to give you continuous and focused investment advice and/or to make investments on your behalf. As part of our portfolio management services, we may customize an investment portfolio for you in accordance with your risk tolerance and investing objectives. Once we construct an investment portfolio for you, we will monitor your portfolio's performance on an ongoing basis, and will rebalance the portfolio as required by changes in market conditions and in your financial circumstances.

If you participate in our discretionary portfolio management services, we require you to grant our firm discretionary authority to manage your account. Discretionary authorization will allow our firm to determine the specific securities and amount to be purchased or sold for your account, the broker/dealer to be used, and the commission rates to be paid without your approval prior to each transaction. Discretionary authority is typically granted by the investment advisory agreement you sign with our firm, a power of attorney, or trading authorization forms. You may limit our discretionary authority (for example, limiting the types of securities that can be purchased for your account) by providing our firm with your restrictions and guidelines in writing.

Our fee for portfolio management services is based on a percentage of your assets we manage and is set forth in the following fee schedule*:

<u>Assets Under Management</u>	<u>Annual Fee**</u>
Accounts less than \$100,000	1.50%
Accounts greater than \$100,000	
First \$250,000	1.25%
Next \$250,000	1.15%
Next \$500,000	1.00%
Over \$1,000,000	0.85%

**Older client relationships may be subject to fee schedules different from that stated above.*

***Our minimum annual fee is \$1,000.*

Our annual portfolio management fee is billed and payable quarterly in advance based on the value of your account on the last day of the previous quarter. If the portfolio management agreement is executed at any time other than the first day of a calendar quarter, our fees will apply on a pro rata basis, which means that the advisory fee is payable in proportion to the number of days in the quarter for which you are a client. Our advisory fee is negotiable, depending on individual client circumstances.

At our discretion, we may combine the account values of family members living in the same household to determine the applicable advisory fee. For example, we may combine account values for you and your minor children, joint accounts with your spouse, and other types of related accounts. Combining account values may increase the asset total, which may result in your paying a reduced advisory fee based on the available breakpoints in our fee schedule stated above.

We will deduct our fee directly from your account through the qualified custodian holding your funds and securities. We will deduct our advisory fee only when you have given our firm written authorization permitting the fees to be paid directly from your account. Further, the qualified custodian will deliver an account statement to you at least quarterly. These account statements will show all disbursements from your account. You should review all statements for accuracy. We will also receive a duplicate copy of your account statements.

You may terminate the portfolio management agreement within five day from the date of acceptance without penalty. After the five-day period, either you or the firm may terminate the portfolio management agreement upon 30-days' written notice to our firm. You will incur a pro rata charge for services rendered prior to the termination of the portfolio management agreement, which means you will incur advisory fees only in proportion to the number of days in the quarter for which you are a client. If you have pre-paid advisory fees that we have not yet earned, you will receive a prorated refund of those fees.

Types of Investments

We primarily offer advice on equity securities, warrants, corporate debt securities, certificates of deposit, municipal securities, mutual funds, variable annuities, variable life insurance, US Government securities, options contracts on securities, and interest in partnerships investing in real estate, oil and gas interests.

Additionally, we may advise you on any type of investment that we deem appropriate based on your stated goals and objectives. We may also provide advice on any type of investment held in your portfolio at the inception of our advisory relationship.

You may request that we refrain from investing in particular securities or certain types of securities. You must provide these restrictions to our firm in writing.

Assets Under Management

As of March 17, 2011, we manage \$91,649,334 in client assets on a discretionary basis.

Fees and Compensation

Form ADV Part 2A, Item 5

Please refer to the “Advisory Business” section in this brochure for information on our advisory fees, fee deduction arrangements, and refund policy according to each service we offer.

Additional Fees and Expenses

As part of our investment advisory services to you, we may invest, or recommend that you invest, in mutual funds and exchange traded funds. The fees that you pay to our firm for investment advisory services are separate and distinct from the fees and expenses charged by mutual funds or exchange traded funds (described in each fund's prospectus) to their shareholders. These fees will generally include a management fee and other fund expenses. You will also incur transaction charges and/or brokerage fees when purchasing or selling securities. These charges and fees are typically imposed by the broker-dealer or custodian through whom your account transactions are executed. We do not share in any portion of the brokerage fees/transaction charges imposed by the broker-dealer or custodian. To fully understand the total cost you will incur, you should review all the fees charged by mutual funds, exchange traded funds, our firm, and others. For information on our brokerage practices, please refer to the “Brokerage Practices” section of this brochure.

Compensation for the Sale Investment Products

Dena Rushing, an employee of our firm, is an independent insurance agent. We may recommend that you use Ms. Rushing for insurance needs if appropriate and suitable for you. Our advisory services and fees are separate and distinct from the commission-based compensation Ms. Rushing earns for the sale of insurance products. This referral arrangement may present a conflict of interest because we may have an incentive to recommend Ms. Rushing's services to you based on her affiliation with our firm. While we believe that premiums charged by the companies Ms. Rushing represents for insurance products are competitive, such fees may be higher than fees charged by other insurance firms providing the same or similar services. You are under no obligation to use Ms. Rushing's services for insurance and may obtain comparable services and/or lower fees through other firms.

Performance-Based Fees and Side-By-Side Management

Form ADV Part 2A, Item 6

We do not accept performance-based fees or participate in side-by-side management. Side-by-side management refers to the practice of managing accounts that are charged performance-based fees while at the same time managing accounts that are not charged performance-based fees. Performance-based fees are fees that are based on a share of capital gains or capital appreciation of a client's account. Our fees are calculated as described in the “Advisory Business” section above, and are not charged on the basis of a share of capital gains upon, or capital appreciation of, the funds in your advisory account.

Types of Clients

Form ADV Part 2A, Item 7

We offer investment advisory services to individuals, pension and profit sharing plans, trusts, estates, charitable organizations, corporations, and other business entities.

In general, we require a minimum of \$250,000 to open and maintain an advisory account. Our minimum annual fee for portfolio management services is \$1,000. At our discretion, we may waive these minimums. For example, we may waive the minimum if you appear to have significant potential for increasing your assets under our management. We may also combine account values for you and your minor children, joint accounts with your spouse, and other types of related accounts to meet the stated minimum.

Methods of Analysis, Investment Strategies and Risk of Loss

Form ADV Part 2A, Item 8

Our Methods of Analysis and Investment Strategies

We may use one or more of the following methods of analysis or investment strategies when providing investment advice to you:

- **Fundamental Analysis** – involves analyzing individual companies and their industry groups, such as a company's financial statements, details regarding the company's product line, the experience and expertise of the company's management, and the outlook for the company's industry. The resulting data is used to measure the true value of the company's stock compared to the current market value. The risk of fundamental analysis is that information obtained may be incorrect and the analysis may not provide an accurate estimate of earnings, which may be the basis for a stock's value. If securities prices adjust rapidly to new information, utilizing fundamental analysis may not result in favorable performance.
- **Technical Analysis** – involves studying past price patterns and trends in the financial markets to predict the direction of both the overall market and specific stocks. The risk of market timing based on technical analysis is that charts may not accurately predict future price movements. Current prices of securities may reflect all information known about the security and day to day changes in market prices of securities may follow random patterns and may not be predictable with any reliable degree of accuracy.
- **Long Term Purchases** – securities purchased with the expectation that the value of those securities will grow over a relatively long period of time, generally greater than one year.
- **Short Term Purchases** – securities purchased with the expectation that they will be sold within a relatively short period of time, generally less than one year, to take advantage of the securities' short-term price fluctuations.
- **Option Writing** – a securities transaction that involves selling an option. An option is the right, but not the obligation, to buy or sell a particular security at a specified price before the expiration date of the option. When an investor sells an option, they must deliver to the buyer a specified number of shares if the buyer exercises the option. The seller pays the buyer a premium (the market price of the option at a particular time) in exchange for writing the option. Options are complex investments and can be very risky, especially if the investor does not own the underlying stock. In certain situations, an investor's risk can be unlimited.

Our investment strategies and advice may vary depending upon each client's specific financial situation. As such, we determine investments and allocations based upon your predefined objectives, risk tolerance, time horizon, financial horizon, financial information, liquidity needs, and other various suitability factors. Your restrictions and guidelines may affect the composition of your portfolio.

The risk of market timing based on technical analysis is that charts may not accurately predict future price movements. Current prices of securities may reflect all information known about the security and day to day changes in market prices of securities may follow random patterns and may not be predictable with any reliable degree of accuracy. The risk of fundamental analysis is that information obtained may be incorrect and the analysis may not provide an accurate estimate of earnings, which may be the basis for a stock's value. If securities prices adjust rapidly to new information, utilizing fundamental analysis may not result in favorable performance.

Long term purchases may also be affected by unforeseen long term changes in the company in which you are invested or in the overall market. Short term trading generally involves a greater degree of risk than long term trading due to market volatility over a short period of time.

We may use option writing in limited circumstances when we determine that it is suitable given your stated investment objectives and tolerance for risk; however, engaging in these types of transactions are not a fundamental part of our overall investment strategy.

Our strategies and investments may have unique and significant tax implications. However, unless we specifically agree otherwise, and in writing, tax efficiency is not our primary consideration in the management of your assets. Regardless of your account size or any other factors, we strongly recommend that you continuously consult with a tax professional prior to and throughout the investing of your assets.

Moreover, as a result of revised IRS regulations, custodians and broker-dealers will begin reporting the cost basis of equities acquired in client accounts on or after January 1, 2011. Your custodian will default to the FIFO accounting method for calculating the cost basis of your investments. You are responsible for contacting your tax advisor to determine if this accounting method is the right choice for you. If your tax advisor believes another accounting method is more advantageous, please provide written notice to our firm immediately and we will alert your account custodian of your individually selected accounting method. Please note that decisions about cost basis accounting methods will need to be made before trades settle, as the cost basis method cannot be changed after settlement.

Risk of Loss

Investing in securities involves risk of loss that you should be prepared to bear. We do not represent or guarantee that our services or methods of analysis can or will predict future results, successfully identify market tops or bottoms, or insulate clients from losses due to market corrections or declines. We cannot offer any guarantees or promises that your financial goals and objectives will be met. Past performance is in no way an indication of future performance.

Recommendation of Particular Types of Securities

As disclosed under the "Advisory Business" section in this Brochure, we recommend all types of securities and we do not necessarily recommend one particular type of security over another since each client has different needs and different tolerance for risk. Each type of security has its own unique set of risks associated with it and it would not be possible to list here all of the specific risks of every type of investment. Even within the same type of investment, risks can vary widely. However, in very general terms, the higher the anticipated return of an investment, the higher the risk of loss associated with it.

Disciplinary Information

Form ADV Part 2A, Item 9

Neither our firm nor any of our associated persons has any reportable disciplinary information.

Other Financial Industry Activities and Affiliations

Form ADV Part 2A, Item 10

Dena Rushing, an employee of our firm, is an independent insurance agent. We may recommend that you use

Ms. Rushing for insurance needs if appropriate and suitable for you. Our advisory services and fees are separate and distinct from the commission-based compensation Ms. Rushing earns for the sale of insurance products. This referral arrangement may present a conflict of interest because we may have an incentive to recommend Ms. Rushing's services to you based on her affiliation with our firm. While we believe that premiums charged by the companies Ms. Rushing represents for insurance products are competitive, such fees may be higher than fees charged by other insurance firms providing the same or similar services. You are under no obligation to use Ms. Rushing's services for insurance and may obtain comparable services and/or lower fees through other firms.

Mr. Eubank, Owner and Chief Compliance Officer of our firm, is also the Managing Member of CJCB Holding LLC. Compensation received by Mr. Eubank, and/or certain business related transactions are directed through this entity.

Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Form ADV Part 2A, Item 11

Description of Our Code of Ethics

We strive to comply with applicable laws and regulations governing our practices. Therefore, our Code of Ethics includes guidelines for professional standards of conduct for our Associated Persons. Our goal is to protect your interests at all times and to demonstrate our commitment to our fiduciary duties of honesty, good faith, and fair dealing with you. All of our Associated Persons are expected to adhere strictly to these guidelines. Our Code of Ethics also requires that certain persons associated with our firm submit reports of their personal account holdings and transactions to a qualified representative of our firm who will review these reports on a periodic basis. Persons associated with our firm are also required to report any violations of our Code of Ethics. Additionally, we maintain and enforce written policies reasonably designed to prevent the misuse or dissemination of material, non-public information about you or your account holdings by persons associated with our firm.

Our Code of Ethics is available to you upon request. You may obtain a copy of our Code of Ethics by contacting Bobby L. Eubank, Owner and Chief Compliance Officer at 972-473-2244.

Participation or Interest in Client Transactions

Neither our firm nor any of our Associated Persons has any material financial interest in client transactions beyond the provision of investment advisory services as disclosed in this brochure.

Personal Trading Practices

Our firm or persons associated with our firm may buy or sell the same securities that we recommend to you or securities in which you are already invested. A conflict of interest exists in such cases because we have the ability to trade ahead of you and potentially receive more favorable prices than you will receive. To eliminate this conflict of interest, it is our policy that neither our Associated Persons nor we shall have priority over your account in the purchase or sale of securities.

Brokerage Practices

Form ADV Part 2A, Item 12

We recommend the brokerage and custodial services of TD Ameritrade Institutional, a division of TD Ameritrade, Inc. ("TD Ameritrade"), a securities broker-dealer and a member of the Financial Industry Regulatory Authority, the Securities Investor Protection Corporation, and the National Futures Association. We believe that TD Ameritrade provides quality execution services for your account at competitive prices. Price is not the sole factor we consider in evaluating best execution. We also consider the quality of the brokerage services provided by TD Ameritrade, including the value of research provided, the firm's reputation, execution capabilities, commission rates, and responsiveness to our clients and our firm. In recognition of the value of research services and additional brokerage products and services we receive from TD Ameritrade, you may pay higher commissions and/or trading costs than those that may be available elsewhere.

We participate in the TD Ameritrade Institutional program through which we receive some benefits from TD Ameritrade. There is no direct link between our participation in the program and the investment advice we provide to you, although we do receive economic benefits through our participation in the program that are typically not available to TD Ameritrade retail investors. These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate Client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving adviser participants; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to Client accounts); the ability to have advisory fees deducted directly from Client accounts; access to an electronic communications network for Client order entry and account information; access to mutual funds with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management products or services provided to our firm by third party vendors. TD Ameritrade may also have paid for business consulting and professional services received by our associated persons. Some of the products and services made available by TD Ameritrade through the program may benefit our firm and/or associated persons but may not benefit you or your accounts. These products or services may assist our firm in managing and administering Client accounts, including accounts not maintained at TD Ameritrade. Other services made available by TD Ameritrade are intended to help us manage and further develop our business enterprise. The benefits we receive through participation in the program do not depend on the amount of brokerage transactions directed to TD Ameritrade. As part of our fiduciary duty to clients, we endeavor at all times to put the interests of our clients first. You should be aware; however, that the receipt of economic benefits by our firm or our associated persons itself creates a conflict of interest and may indirectly influence our choice of TD Ameritrade for custody and brokerage services.

The products and services we receive from TD Ameritrade will generally be used in servicing all of our clients' accounts. Our use of these products and services will not be limited to the accounts that paid commissions to the broker-dealer for such products and services.

Brokerage for Client Referrals

We do not receive client referrals from broker-dealers in exchange for cash or other compensation, such as brokerage services or research.

Directed Brokerage

In limited circumstances, and at our discretion, some clients may instruct our firm to use one or more particular brokers for the transactions in their accounts. If you choose to direct our firm to use a particular broker, you should understand that this might prevent our firm from aggregating trades with other client accounts or from effectively negotiating brokerage commissions on your behalf. This practice may also prevent our firm from obtaining favorable net price and execution. Thus, when directing brokerage business, you should consider whether the commission expenses, execution, clearance, and settlement capabilities that you will obtain through your broker are adequately favorable in comparison to those that we would otherwise obtain for you.

Block Trades

We combine multiple orders for shares of the same securities purchased for advisory accounts we manage (this practice is commonly referred to as "block trading") whenever possible. We will then distribute a portion of the shares to participating accounts in a fair and equitable manner. The distribution of the shares purchased is typically proportionate to the size of the account, but it is not based on account performance or the amount or structure of management fees. Subject to our discretion regarding factual and market conditions, when we combine orders, each participating account pays an average price per share for all transactions and pays a proportionate share of all transaction costs. Accounts owned by our firm or persons associated with our firm may participate in block trading with your accounts; however, they will not be given preferential treatment.

Review of Accounts

Form ADV Part 2A, Item 13

Bobby L. Eubank, Owner/Chief Compliance Officer and Keith Hutson, Manager of our firm will monitor your accounts on a periodic basis and will conduct account reviews at least every six months, or at your request, to ensure the advisory services provided to you and/or that the portfolio mix are consistent with your stated investment needs and objectives. Additional reviews may be conducted based on various circumstances, including, but not limited to:

- contributions and withdrawals,
- year-end tax planning,
- market moving events,
- security specific events, and/or,
- changes in your risk/return objectives.

If you engaged our firm for financial planning services, we may offer an update to your financial plan annually.

You will receive trade confirmations, monthly or quarterly statements, and year-end tax statements from your account custodian(s).

Client Referrals and Other Compensation

Form ADV Part 2A, Item 14

Please refer to the "Brokerage Practices" section above for disclosures on research and other benefits we may receive resulting from our relationship with TD AMERITRADE.

As disclosed under the "Fees and Compensation" section in this brochure, persons providing investment advice on behalf of our firm are also licensed insurance agents. For information on the conflicts of interest this presents, and how we address these conflicts, please refer to the "Fees and Compensation" section.

Associated persons of our firm may attend conferences offered by various vendors and/or wholesalers at not cost to them or the firm. This indirect form of compensation may create a conflict of interest where an associated person may have an incentive to recommend products and services to you based in part on the benefits received by the sponsoring vendor or wholesaler. However, you are not obligated to purchase any products and services recommended by persons affiliated with our firm.

We do not compensate any outside individual or firm (solicitors) for client referrals.

Custody

Form ADV Part 2A, Item 15

We directly debit your account(s) for the payment of our advisory fees. This ability to deduct our advisory fees from your accounts causes our firm to exercise limited custody over your funds or securities. We do not have physical custody of any of your funds and/or securities. Your funds and securities will be held with a bank, broker-dealer, or other independent, qualified custodian. You will receive account statements from the independent, qualified custodian(s) holding your funds and securities at least quarterly. The account statements from your custodian(s) will indicate the amount of our advisory fees deducted from your account(s) each billing period. You should carefully review account statements for accuracy.

If you have a question regarding your account statement or if you did not receive a statement from your custodian, please contact Bobby L. Eubank, Owner and Chief Compliance Officer at 972-473-2244.

Investment Discretion

Form ADV Part 2A, Item 16

Before we can buy or sell securities on your behalf, you must first sign our discretionary management agreement and/or trading authorization forms. You may grant our firm discretion over the selection and amount of securities to be purchased or sold for your account(s), the broker/dealer to be chosen, and the commission rates to be paid without obtaining your consent or approval prior to each transaction. You may specify investment objectives, guidelines, and/or impose certain conditions or investment parameters for your account(s). For example, you may specify that the investment in any particular stock or industry should not exceed specified percentages of the value of the portfolio and/or restrictions or prohibitions of transactions in the securities of a specific industry or security. Please refer to the "Advisory Business" section in this brochure for more information on our discretionary management services.

Voting Client Securities

Form ADV Part 2A, Item 17

We will not vote proxies on behalf of your advisory accounts. At your request, we may offer you advice regarding corporate actions and the exercise of your proxy voting rights. If you own shares of common stock or mutual funds, you are responsible for exercising your right to vote as a shareholder.

In most cases, you will receive proxy materials directly from the account custodian. However, in the event we were to receive any written or electronic proxy materials, we would forward them directly to you by mail, unless you have authorized our firm to contact you by electronic mail, in which case, we would forward any electronic solicitation to vote proxies.

Financial Information

Form ADV Part 2A, Item 18

We are not required to provide financial information to our clients because we do not:

- require the prepayment of more than \$1,200 in fees and six or more months in advance, or
- take custody of client funds or securities, or
- have a financial condition that is reasonably likely to impair our ability to meet our commitments to you.

Additional Information

Your Privacy

We view protecting your private information as a top priority. Pursuant to applicable privacy requirements, we have instituted policies and procedures to ensure that we keep your personal information private and secure.

We do not disclose any nonpublic personal information about you to any nonaffiliated third parties, except as permitted by law. In the course of servicing your account, we may share some information with our service providers, such as transfer agents, custodians, broker-dealers, accountants, consultants, and attorneys.

We restrict internal access to nonpublic personal information about you to employees, who need that information in order to provide products or services to you. We maintain physical and procedural safeguards that comply with regulatory standards to guard your nonpublic personal information and to ensure our integrity and confidentiality. We will not sell information about you or your accounts to anyone. We do not share your information unless it is required to process a transaction, at your request, or required by law.

You will receive a copy of our privacy notice prior to or at the time you sign an advisory agreement with our firm. Thereafter, we will deliver a copy of the current privacy policy notice to you on an annual basis. Please contact Bobby L. Eubank, Owner and Chief Compliance Officer at 972-473-2244, if you have any questions regarding this policy.

Class Action Lawsuits

We do not determine if securities held by you are the subject of a class action lawsuit, nor do we initiate or participate in litigation to recover damages on your behalf for injuries as a result of actions, misconduct, or negligence by issuers of securities held by you.

Should we receive written or electronic notice of a class action lawsuit, settlement or verdict affecting securities owned by you, we will forward all notices, proof of claim forms and other materials to you by mail, unless you have authorized our firm to contact you by electronic mail, in which case, we would forward the information electronically.

Trade Errors

In the event a trading error occurs in your account, our policy is to restore your account to the position it should have been in had the trading error not occurred. Depending on the circumstances, corrective actions may include canceling the trade, adjusting an allocation, and/or reimbursing the account. If a trade error results in a profit, you will keep the profit.
