OTHER COMPENSATION RECEIVED BY OUR FIRM OR ITS ADVISORY AGENTS:

Weaver Wealth Management is also a licensed insurance agency appointed by various life, health and disability insurance companies. We may sell insurance products to our clients in need of insurance. Insurance services are separate and distinct from the investment management, financial planning and other services provided.

Our advisory agents are also registered representatives of Weaver Tidwell Capital, LLC, member FINRA/SIPC, an affiliated broker dealer firm. In this capacity, our advisory agents may sell securities through Weaver Tidwell Capital, LLC (WTC) and WTC may receive normal and customary commissions, 12b1 fees and other compensation as a result of such purchases and sales. This presents a conflict of interest to the extent that the advisory agent recommends that you invest in a security which results in a commission being paid to our affiliated broker dealer firm.

Our advisory agents may also be tax and accounting specialists for Weaver and Tidwell, LLP, a certified public accounting firm and the limited partner of Weaver Wealth Management. Weaver and Tidwell, LLP provides a full range of tax compliance and planning services to both businesses and individuals.

You have the option to purchase investment products that we recommend through other brokers or agents that are not affiliated with us.

Item 6 Performance-Based Fees and Side-By-Side Management

We do not charge performance based fees nor do we provide side by side management services.

Item 7 Types of Clients

Client Base:

Our customer base consists of individuals, trusts, estates, charitable organizations, pension and profit sharing plans, corporations and other business entities. These are the types of clients that we service, but we may not have all these types as current clients.

Conditions for Account Management:

We have a minimum annual compensation requirement of \$5,000 dollars for our investment management services. We will aggregate related accounts in the same household to meet annual compensation minimums.

We may make exception to these minimums from time to time based on individual factors such as length of time the account has been known, overall composition of the account, multiple accounts held with us, etc. This exception is in our sole discretion.

We reserve the right to negotiate the financial planning and consulting fees.

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis & Investment Strategies:

We work with you to devise an investment strategy to meet your financial objectives. This includes:

- discussion regarding your objectives
- review of existing holdings
- ongoing analysis of funds
- advice on best direction for new investments
- updates of specific changes within the market or to particular funds
- periodic monitoring of recommended investments and yearly review

The flexibility of our strategies gives us the ability to best manage investment risks in any investment market.

We use Fundamental security analysis methods. We may use other sources of information that may include, but are not limited to, other professionals in the area of financial planning as well as information obtained through presentations given by professional associations and other sources.

Fundamental Analysis involves using real data to evaluate a security's value. We perform fundamental analysis on a securities value by looking at economic factors, such as interest rates and the overall state of the economy, information about issuers, potential changes in credit ratings, revenues, earnings, future growth, return on equity, profit margins and other data to determine underlying value and potential for future growth.

We may also use investment managers that utilize technical security analysis to determine whether to rotate in and out of certain asset classes or specific securities.

Our security analysis information is based on a number of sources including financial newspapers, periodicals, commercially available investment services, issuer prepared information, security rating services, general market and financial information, due diligence reviews and specific investment analysis that our clients may request.

Risk of Loss:

The advice offered by our Firm to clients is determined by the areas of expertise of the agent providing the service and the client's stated objective. Our clients are advised to notify our Firm promptly if there are ever any changes in your financial situation or investment objective or if you wish to impose any reasonable restrictions upon our management services. If you wish to impose any reasonable restrictions upon our management services, you will need to advise us in writing of any restrictions.

We do not represent, warrant, or imply that the services or methods of analysis employed by us can or will predict future results, successfully identify market tops or bottoms, or insulate clients from losses due to market corrections or declines. All securities trading, whether in stocks, options, or other investment vehicles, is speculative in nature and involves substantial risk of loss that clients should be prepared to bear. Past performance is not necessarily indicative of future results. Clients should make every effort to understand the risks involved.

The Principle Risks of Investing include, but are not limited to:

General Risks: Your investments with us are not a deposit of a bank and are not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Accordingly, you may lose

money by investing with us. When you sell your investments, they may be worth less than what you paid for them because the value of investments will fluctuate reflecting day-to-day changes in market conditions, interest rates and a number of other factors.

Allocation Risk: Our allocation of investments among different asset classes, such as equity or fixed-income assets classes, may have a more significant effect on your returns when one of these classes is performing more poorly than others.

Market Risk: Stock and bond markets often trade in random price patterns, and prices can fall over sustained periods of time. The value of the investments we make for you will fluctuate as the financial markets fluctuate. This could result in your account value(s) declining over short or long term periods of time.

Focused and Concentrated Portfolio Risks: Based upon your investment objectives, needs and requests, we may invest your assets in a smaller number of securities than other broadly diversified investment strategies. This approach is often referred to as “focused, concentrated, or non-diversified”. Accordingly, the money we manage for you may have more volatility and is often considered to have more risk than a strategy that invests in a greater number of securities because changes in the value of a single security may have a more significant effect, either negative or positive, on your overall portfolio value. To the extent we invest your assets in fewer securities, or we invest in non-diversified funds that take a focused or concentrated approach, your assets are subject to greater risk of loss if any of those securities become permanently impaired.

Equity Risk: Your investments will be subjected to the risk that stock prices may fall over short or extended periods of time. Historically, the equity markets have moved in cycles, and the value of equity securities in your portfolio may fluctuate drastically from day to day. Individual companies may report poor results or be negatively affected by industry and/or economic trends and developments. The prices of securities issued by such companies may suffer a decline in response. These factors will contribute to the volatility and risk of your assets.

Special Situation Risk: We may invest your assets in special situations. Investments in special situations may involve greater risks when compared to other strategies due to a variety of factors.

Expected changes may not occur, or transactions may take longer than originally anticipated, resulting in lower returns than contemplated at the time of investment. Additionally, failure to anticipate changes in the circumstances affecting these types of investments may result in permanent loss of capital, where we may be unable to recoup some or all of its investment.

Foreign Securities Risk: We have the ability to invest in foreign securities, and, from time to time, a significant percentage of your assets may be composed of foreign investments. Foreign investments involve greater risk in comparison to domestic investments because foreign companies/securities: may have different auditing, accounting, and financial reporting standards; may not be subject to the same degree of regulation as U.S. companies, and may have less publicly available information than U.S. companies; and are often denominated in a currency other than the U.S. dollar.

Currency Risk: Your investments may be subject to currency risk. Currency fluctuations and changes in the exchange rates between foreign currencies and the U.S. dollar could negatively affect the value of your investments in foreign securities.

Interest Rate Risk: Your investments are subject to interest rate risk. Interest rate risk is the risk that the value of a security will decline because of a change in general interest rates. Investments subject to interest rate risk will usually decrease in value when interest rates rise. For example, fixed-income securities with long maturities typically experience a more pronounced change in value when interest rates change.

Credit Risk: Your investments are subject to credit risk. An investments credit quality depends on its ability to pay interest on and repay its debt and other obligations.

Small- to Medium-Capitalization Risk: We may invest your assets in small to medium sized companies. Shares of small to medium sized companies may have more volatile share prices. Furthermore, the securities of small to medium companies often have less market liquidity and their share prices can react with more volatility to changes in the general marketplace.

High-Yield Security Risk: We may invest your assets in High-Yield, lower rated securities. Investments in fixed-income securities that are rated below Investment grade can be subject to greater risk of loss of principal and interest than investments in higher-rated fixed-income securities. The market for high yield securities may be less liquid than the market for higher-rated securities. High yield securities are also generally considered to be subject to greater market risk than higher-rated securities. The capacity of issuers of high yield securities to pay interest and repay principal is more likely to weaken than is that of issuers of higher-rated securities in times of deteriorating economic conditions or rising interest rates.

Prepayment Risk: Your investments may be subject to prepayment risk. Prepayment risk occurs when the issuer of a security can repay principal prior to the security's maturity. Securities subject to prepayment can offer less potential for gains during a declining interest rate environment and similar or greater potential for loss in a rising interest rate environment. In addition, the potential impact of prepayment features on the price of a security can be difficult to predict and result in greater volatility.

Inflation Risk: This is the risk that the value of your assets or income you're your investments will be less in the future as inflation decreases the value of your money. As inflation increases, the value (purchasing power) of your assets can decline. This risk increases as we invest a greater portion of your assets in fixed-income securities with longer maturities.

Liquidity Risk: Liquidity risk exists when particular investments are difficult to purchase or sell, possibly preventing us from selling out of these illiquid securities at an advantageous price.

Item 9 Disciplinary Information

Our Firm does not have any material facts about legal or disciplinary events that are material to your evaluation of the integrity of our firm or its advisory agents to disclose.

Your confidence and trust placed in our Firm and its advisory agents is something we value and endeavor to protect and we want to ask any questions that you may have on the disclosures presented.

Item 10 Other Financial Industry Activities and Affiliations

Broker/Dealer Relationship:

Our advisory agents are also registered representatives of Weaver Tidwell Capital, LLC, member FINRA/SIPC, an affiliated broker dealer firm. In this capacity, our advisory agents may sell securities through Weaver Tidwell Capital, LLC (WTC) and WTC may normal and customary commissions, 12b1 fees and other compensation as a result of such purchases and sales. This presents a conflict of interest to the extent that the advisory agent recommends that you invest in a security which results in a commission being paid to our affiliated broker dealer firm.

Insurance Company Relationship:

Weaver Wealth Management is also a licensed insurance agency appointed by various life, health and disability insurance companies. We may sell insurance products to our clients in need of insurance. Insurance services are separate and distinct from the from the investment management, financial planning and other services provided.

Our Firm and its associated persons may enter into agreement with various insurance companies to offer

insurance products to you. Such products may include, but not limited to, life, health, fixed annuity, disability, variable life and variable annuity products. Our firm may receive commissions for the sale of insurance products through them. Management fees are not charged on the sale of annuities. Commission payout schedules may be higher or lower than those commission payout schedules negotiated by other insurance agents with the same insurance companies.

Third Party Sub-Advisory Relationships:

We may have various third party Sub-advisory relationships. We currently have a relationship with:
Appleton Partners, Inc. 45 Milk Street, Boston, MA 02109, 617-338-0700

Lunt Capital Management, 215 South State Street, Suite 100, Salt Lake City, UT 84111, 801-503-3035
Capstone Asset Management Company, 5847 San Felipe, Suite 4100, Houston, TX 77057, 800-262-6631

Tax and Accounting Firm Relationships:

Our advisory agents may also be tax and accounting specialists for Weaver and Tidwell, LLP, a certified public account firm and the limited partner of Weaver Wealth Management. Weaver and Tidwell, LLP provides a full range of tax compliance and planning services to both businesses and individuals.

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Code of Ethics:

We have adopted a Code of Ethics Policy to prohibit conflicts of interest from personal trading by our advisory personnel and have established standards of conduct expected of our advisory personnel. We have set forth in the Code of Ethics Policy statements of general principles, required course of conduct, reporting obligations, and review and enforcement of the Code of Ethics Policy. We will provide a copy of the Code of Ethics Policy to our clients or prospective client's upon written request.

Participation or Interest in Client Transactions / Personal Trading:

Our advisory agents are also registered securities representatives of Weaver Tidwell Capital, LLC, (Member FINRA/SIPC), a registered broker-dealer firm. Weaver Tidwell Capital, LLC will receive commissions, 12b1 fees and other compensation in connection with security transactions effected for the accounts the advisory agents manage for our firm. Therefore there is a financial incentive to use Weaver Tidwell Capital, LLC to effect security transactions for your accounts.

Our advisory agents will buy or sell for themselves securities that they also recommend to you. These investment products will be bought and sold on the same basis as you buy them. We will transact your transactions and business before their own when similar securities are being bought or sold. In all instances, the positions would be so small as to have no impact on the pricing or performance of the security. We will do everything possible to mitigate these conflicts. Records of all advisory associate's proprietary trading activities are reviewed and kept by us. We and our advisory agents will act in a fiduciary manner, understand the prohibitions against the use of any insider information and will always act in your best interest.

Item 12 Brokerage Practices

Brokerage Selection:

We recommend the brokers or dealers to handle securities transactions. We utilize several unaffiliated broker/dealers including Schwab & Co, Inc, First Southwest Company, Fidelity Brokerage Services, LLC, Raymond James Financial, all members of FINRA/SIPC, as the broker-dealer for the execution of securities transactions. Custody of your accounts for both securities and funds will be maintained at one

of these qualified custodians.

Factors which we consider when recommending broker dealers include their respective financial strength, reputation, execution, pricing, research and service. We understand and acknowledge that at all times we owe a fiduciary duty to you to obtain best execution for your transactions. Since we use a custodian, we may be unable to select broker dealers on a best execution basis. We may also be unable to comingle or batch orders for identical securities across accounts managed by us. This may result in less favorable net prices on the purchase and sale of securities than if we were to select broker dealers on a best execution basis.

We believe that our relationship with various broker dealers helps us to execute securities transactions for you in such a manner that your total cost in each transaction is as favorable as possible under prevailing market conditions. However, we may not obtain best execution at all times. The commissions and/or transactional fees charged to you may be higher or lower than those charged by another broker-dealer. It is our policy to select brokers on the basis of the best combination of cost and execution capability. We may develop other broker-dealer arrangements with other unaffiliated broker-dealer firm's at our discretion.

Additional Compensation Received by our Firm:

Load and no-load mutual funds may pay annual distribution charges, sometimes referred to as 12(b)-1 fees. 12(b)-1 fees come from fund assets, therefore, indirectly from your assets. 12(b)-1 fees may be initially paid to us. The receipt of such fees could represent an incentive for advisory agents to recommend funds with 12(b)-1 fees over funds that have no fees or lower fees. As a result, there is a potential conflict of interest.

Brokerage for Client Referrals:

Neither our Firm nor our Advisory Agents receive client referrals from a broker dealer or other third party when recommending to you a broker-dealer for the execution of securities transactions.

Directed Brokerage:

If you want to direct us to use a particular broker dealer to handle security transactions, then you are responsible for the custodian fee arrangement. You should understand that this might prevent us from effectively negotiating brokerage compensation or obtaining the most favorable net price and execution. When directing brokerage business, you should consider whether the commission expenses, execution, clearance and settlement capabilities that you will obtain through another broker dealer are adequately favorable in comparison to those that our Firm would otherwise obtain for you using Weaver Wealth Management. We do evaluate periodically the execution performance of the brokers-dealers. We encourage you to discuss available alternatives with our advisory agents.

Neither this Firm nor our advisory agents receive any products, research or services other than those disclosed.

Trade Aggregation:

We provide investment management services to various clients. We may, in our sole discretion, aggregate purchases or sales of any security, instrument or obligation effected for various client accounts with purchases or sales, as the case may be, of the same security, instrument or obligation effected on the same day for the accounts of one or more of our other clients. Although such concurrent aggregations potentially could be either advantageous or disadvantageous to any one or more particular accounts, they will be effected only when we believe that to do so will be in the best interest of the affected accounts. When transactions are so aggregated, (a) the actual prices applicable to the aggregated transaction will be averaged, and each client account participating in the aggregated transaction will be deemed to have purchased or sold its share of the security, instrument or obligation involved at that average price and (b) all transaction costs incurred in effecting the aggregated transaction, except to the extent that certain broker-dealers that also furnish custody services may impose minimum transaction charges applicable to

some of the participating accounts. When such concurrent aggregation occurs, the objective will be to allocate executions in a manner that is deemed equitable to the accounts involved.

Item 13 Review of Accounts

Twenty five percent of all accounts will be reviewed at least annually. Reggie Sandoval, Chief Compliance Officer and Investment Operations Manager, will direct qualified advisor representatives and/or employees to perform such reviews. These reviews will consist of comparing account activity to the personal information collected of the account information such as financial conditions, investment objectives, risk tolerance as well as trading frequency, and instructions received from the applicant.

At the conclusion of each business day, the designated supervisor will review the following documents related to client trades as applicable: daily blotters, new account applications and order tickets. The designated supervisor will verify: accurate and proper recordation, investment objectives, proper investment selection per the guidelines/statement, and trading in the client's account. Special or in depth reviews of an account would take place should there be any questions or concerns from a client regarding activity or fees, issues with the advisory agents or the designated reviewer detecting problematic activity.

Statements, confirmations and/or performance reports are furnished monthly or quarterly from various financial services institutions/firms with which you transact business. These firms may include, and are not limited to, brokerages, investment companies, insurance companies, trust companies, other registered investment advisors, banks and credit unions. You will receive account statements from these entities and not our Firm. The monthly account statements from the custodian indicate activity, previous portfolio balances, current portfolio balances, and account summary.

Item 14 Client Referrals and Other Compensation

Client Referrals: We do not have any arrangements to compensate another for client referrals.

Other Compensation:

No other compensation is received other than what is already disclosed.

Item 15 Custody

Your funds and securities will be maintained with a “qualified custodian” as required under Rule 206(4)-2 under the Advisers Act and we will not take physical possession of any client funds or securities. Custody of client accounts for both securities and funds will be maintained at Schwab & Co, Inc, First Southwest Company, Fidelity Brokerage Services, LLC, Raymond James Financial (Members FINRA/SIPC) or other designated custodian and clearing firm as directed by you.

Account statements are sent quarterly from the custodians. You should carefully review those statements including comparison to any reports we may send to you.

Item 16 Investment Discretion

Unless otherwise negotiated, you have granted our Firm sole and absolute discretion in the management of your portfolio and periodic re-balancing to the asset class target percentages as outlined in the Advisory Agreement except with respect to payment of the Firm's Fees. In the exercise of our authority we are fully authorized and empowered to place orders to brokers, dealers, mutual funds, or other persons with respect to the purchase, sale, exchange, disposition or liquidation of any assets held in your portfolio.

We have limited authority to sell or redeem securities holdings in sufficient amounts to pay advisory fees. You may reimburse the portfolio for advisory fees paid to us.

Item 17 Voting Client Securities

We do not vote your proxies and have instructed the custodian to forward all proxy material directly to you. We shall forward to you, or to the Advisor(s) for an employee benefit plan covered by ERISA, unless the plan's trust agreement provides otherwise, any proxy materials we receive that pertain to the Assets in your Account. You can contact our office at 972-448-9277 for any questions about a particular solicitation.

Item 18 Financial Information

We do not require or solicit prepayment of more than \$1,200 in fees per client, six months or more in advance. We do not have any financial condition that is reasonably likely to impair the ability to meet contractual commitments to you.

Item 19 Requirements for State Registered Advisers

Not applicable.
