The initial meeting, which may be by telephone, is free of charge and is considered an exploratory interview to determine the extent to which financial planning and investment management may be beneficial to the client.

Principal Owners

Keith McDonald is a 64.104% stockholder. Jeff Presley is a 35.896% stockholder.

Types of Advisory Services

MCDONALD PRESLEY CAPITAL MANAGEMENT, INC. provides financial advice and services through consultations and implementation. On more than an occasional basis, MCDONALD PRESLEY CAPITAL MANAGEMENT, INC. furnishes advice to clients on matters not involving securities, such as financial planning matters, taxation issues, and trust services that often include estate planning.

As of December 31, 2010, MCDONALD PRESLEY CAPITAL MANAGEMENT, INC manages approximately \$54,109,779 in assets on a discretionary basis for approximately 112 clients.

Types of Agreements

The following agreements define typical client relationships.

Financial Planning Agreement

A financial plan is designed to help the client with all aspects of financial planning without ongoing investment management after the financial plan is completed.

The financial plan may include, but is not limited to: a net worth statement; a cash flow statement; a review of investment accounts, including reviewing asset allocation and providing repositioning recommendations; strategic tax planning; a review of retirement accounts and plans including recommendations; a review of insurance policies and recommendations for changes, if necessary; one or more retirement scenarios; estate planning review and recommendations; and education planning with funding recommendations.

Detailed investment advice and specific recommendations are provided as part of a financial plan. Implementation of the recommendations is at the discretion of the client.

The fee for a financial plan is predicated upon the facts known at the start of the engagement. The fee is *NEGOTIABLE*.

Financial Services - Retainer Agreement

Most clients choose to have MCDONALD PRESLEY CAPITAL MANAGEMENT, INC. manage their assets on an ongoing basis. Under a *Retainer Agreement*, all aspects of the client's financial affairs are reviewed. Realistic and measurable goals are set and objectives to reach those goals are defined. As goals and objectives change over time, suggestions are made and implemented on an ongoing basis.

The scope of work and annual fee for a *Retainer Agreement* is provided to the client in writing prior to the start of the relationship and is *NEGOTIABLE*.

Tax planning and preparation work is performed as an integral part of the Retainer Agreement. Eligible federal and applicable state returns are filed electronically without an additional fee.

Financial Services - Investment Management Agreement

An *Investment Management Agreement* may be executed when only the ongoing management of client assets is part of the relationship. The annual

fee for an *Investment Management Agreement* is typically a percentage of the assets under management and is *NEGOTIABLE*.

Hourly Planning Engagements

MCDONALD PRESLEY CAPITAL MANAGEMENT, INC. provides hourly planning services for clients who need advice on a limited scope of work. The hourly rate for limited scope engagements is \$250.00.

Asset Management

Assets are invested primarily in individual securities, no-load mutual funds, and exchange-traded funds, usually through discount brokers or fund companies. Fund companies charge each fund shareholder an investment management fee that is disclosed in the fund prospectus. Discount brokerages may charge a transaction fee for the purchase or sale of individual securities of some funds.

MCDONALD PRESLEY CAPITAL MANAGEMENT, INC. does not receive any compensation, in any form, from fund companies or discount brokers.

Initial public offerings (IPOs) are not available through MCDONALD PRESLEY CAPITAL MANAGEMENT, INC.

Termination of Agreement

A Client may terminate any of the aforementioned agreements at any time by notifying MCDONALD PRESLEY CAPITAL MANAGEMENT, INC. in writing and paying the rate for the time spent on the investment advisory engagement prior to notification of termination.

MCDONALD PRESLEY CAPITAL MANAGEMENT, INC. may terminate any of the aforementioned agreements at any time by notifying the client in writing. Although the agreements are considered ongoing and adjustments may be required, the length of service to the client is at the client's discretion. The client or MCDONALD PRESLEY CAPITAL MANAGEMENT, INC. may terminate an agreement by written notice to the other party at any time. At termination, fees will be billed on a pro rata basis for the portion of the quarter completed. The annual retainer fee is used as the basis for any final fee computation, adjusted for the number of days engaged during the billing quarter prior to termination.

Fees and Compensation

Description

MCDONALD PRESLEY CAPITAL MANAGEMENT, INC bases its fees on an estimation of the time and level of expertise required to complete the work, the complexity of a prospective client's situation, and a comparison of other adviser's fees (e.g. what the market will bear).

All fees are *NEGOTIABLE* within the parameters of the Fee Schedule below.

Fee Schedule as of June 1, 2011

Hourly Engagements: Services are subject to an Hourly Engagement Agreement with fees billed at \$250.00 an hour.

Financial Planning Engagements: Services are subject to a Financial Planning Engagement Agreement with fees billed at a specified fixed amount ranging from \$750.00 to \$5,000.00.

Ongoing Retainer Engagements

-Fixed Fee: Services are subject to a Financial Services Engagement Agreement with annual ongoing fees billed at a specified fixed amount ranging from \$1,000.00 to \$25,000.00.

-Percentage of Assets Under Management: Services are subject to a Financial Services Engagement Agreement with quarterly ongoing fees billed at a specified percentage of the assets under management with the percentage being fixed at .25 percent of assets under management quarterly and in arrears.

Fee Billing

Investment management fees are billed quarterly, in *arrears*, meaning that we invoice you *after* the three-month billing period has *ended*. Fees are usually deducted from a designated client account to facilitate billing. The client must consent in advance to direct debiting of their investment account.

Fees for financial plans are billed 50 percent in advance, with the balance due upon delivery of the financial plan.

Other Fees

Custodians may charge transaction fees on purchases or sales of certain mutual funds and exchange-traded funds. These transaction charges are usually small and incidental to the purchase or sale of a security. The selection of the security is more important than the nominal fee that the custodian charges to buy or sell the security.

Expense Ratios

Mutual funds generally charge a management fee for their services as investment managers. The management fee is called an expense ratio. For example, an expense ratio of 0.50 means that the mutual fund company charges 0.5% for their services. These fees are in addition to the fees paid by you to MCDONALD PRESLEY CAPITAL MANAGEMENT, INC.

Performance figures quoted by mutual fund companies in various publications are after their fees have been deducted.

Types of Clients

Description

MCDONALD PRESLEY CAPITAL MANAGEMENT, INC generally provides investment advice to individuals, trusts, estates, or charitable organizations.

Client relationships vary in scope and length of service.

Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis

Security analysis methods may include fundamental analysis and cyclical analysis.

The main sources of information include financial newspapers and magazines, inspections of corporate activities, research materials prepared by others, corporate rating services, timing services, annual reports, prospectuses, filings with the Securities and Exchange Commission, and company press releases.

Other sources of information that MCDONALD PRESLEY CAPITAL MANAGEMENT, INC. may use include Morningstar Principia mutual fund information, Morningstar Principia stock information, Charles Schwab & Company's "SchwabLink" service, Advisor Intelligence, and the World Wide Web.

Investment Strategies

The investment strategy for a specific client is based upon the objectives stated by the client during consultations. The client may change these objectives at any time. Each *Retainer* and *Investment Management* client executes an Investment Policy Statement that documents their objectives and their desired investment strategy.

Risk of Loss

All investment programs have certain risks that are borne by the investor. Our investment approach constantly keeps the risk of loss in mind. Investors face the following investment risks:

- **Interest-rate Risk:** Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on existing bonds become less attractive, causing their market values to decline.
- **Market Risk:** The price of a security, bond, or mutual fund may drop in reaction to tangible and intangible events and conditions. This type of risk is caused by external factors independent of a security's particular underlying circumstances. For example, political, economic and social conditions may trigger market events.
- **Inflation Risk:** When any type of inflation is present, a dollar today will not buy as much as a dollar next year, because purchasing power is eroding at the rate of inflation.
- **Currency Risk:** Overseas investments are subject to fluctuations in the value of the dollar against the currency of the investment's originating country. This is also referred to as exchange rate risk.
- **Reinvestment Risk:** This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e. interest rate). This primarily relates to fixed income securities.
- **Business Risk:** These risks are associated with a particular industry or a particular company within an industry. For example, oil-drilling companies depend on finding oil and then refining it, a lengthy process, before they can generate a profit. They carry a higher risk of profitability than an electric company, which generates its income from a steady stream of customers who buy electricity no matter what the economic environment is like.
- **Liquidity Risk:** Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are interested in a standardized product. For example, Treasury Bills are highly liquid, while real estate properties are not.
- **Financial Risk:** Excessive borrowing to finance a business' operations increases the risk of profitability, because the company must meet the terms of its obligations in good times and bad. During periods of financial stress, the inability to meet loan obligations may result in bankruptcy and/or a declining market value.
