Advisory Business

Firm Description

SCF Investment Advisors, Inc. ("SCFIA") was founded in 2003.

SCFIA provides personalized confidential financial planning and investment management to individuals, pension and profit sharing plans, trusts, estates and charitable organizations. Advice is provided through consultation with the client and may include: determination of financial objectives, identification of financial problems, cash flow management, tax planning, insurance review, investment management, education funding, retirement planning, and estate planning.

SCFIA is strictly a fee-only financial planning and investment management firm. The firm does not sell annuities, insurance, stocks, bonds, mutual funds, limited partnerships, or other commissioned products. The firm is affiliated with SCF Securities, Inc. a broker/dealer that sells financial products or securities. SCFIA may, on occasion, be paid cash by or receive some economic benefit (including commissions, equipment or non-research services) from a non-client in connection with giving advice to clients. Dependent on services provided, commissions may be accepted in lieu of or in addition to advisory fees.

Investment advice is an integral part of financial planning. In addition, SCFIA advises clients regarding cash flow, college planning, retirement planning, tax planning and estate planning.

Investment advice is provided, with the client making the final decision on investment selection. SCFIA does not act as a custodian of client assets. The client always maintains asset control. SCFIA, and third party managers to whom clients are referred, may place trades for clients under a limited power of attorney.

Periodic reviews are also communicated to provide reminders of the specific courses of action that need to be taken. More frequent reviews occur but are not necessarily communicated to the client unless immediate changes are recommended.

Other professionals (e.g., lawyers, accountants, insurance agents, etc.) are engaged directly by the client on an as-needed basis. Conflicts of interest will be disclosed to the client in the unlikely event they should occur.

The initial meeting, which may be by telephone, is free of charge and is considered an exploratory interview to determine the extent to which financial planning and investment management may be beneficial to the client.

Principal Owners

SCF Holdings, Inc. is a 75% or greater stockholder; Randy L. Meadows is a 5% or less stockholder. Mark A. Townsend is a 5% or less stockholder.

Types of Advisory Services

SCFIA provides investment supervisory services, also known as asset management services; manages investment advisory accounts not involving investment supervisory services and furnishes investment advice through consultations.

On more than an occasional basis, SCFIA furnishes advice to clients on matters not involving securities, such as financial planning matters, taxation issues, and trust services that often include estate planning.

As of March 17, 2011, SCFIA manages approximately \$77.8 million in assets for approximately 747 clients. Approximately \$77.8 million is managed on a discretionary basis, and \$ 0.00 is managed on a non-discretionary basis.

Tailored Relationships

The goals and objectives for each client are documented in our client relationship management system. Clients may impose restrictions on investing in certain securities or types of securities.

Agreements may not be assigned without client consent.

Types of Agreements

The following agreements define the typical client relationships.

Financial Planning Agreement

A financial plan is designed to help the client with all aspects of financial planning without ongoing investment management after the financial plan is completed.

The financial plan may include, but is not limited to: a net worth statement; a cash flow statement; a review of investment accounts, including reviewing asset allocation and providing repositioning recommendations; strategic tax planning; a review of retirement accounts and plans including recommendations; a review of insurance policies and recommendations for changes, if necessary; one or more retirement scenarios; estate planning review and recommendations; and education planning with funding recommendations.

Detailed investment advice and specific recommendations are provided as part of a financial plan. Implementation of the recommendations is at the discretion of the client.

The fee for a financial plan is predicated upon the facts known at the start of the engagement. The financial plan fee is set at the onset of the engagement

and is negotiable. Terms of payment are also negotiable and may consist of partial payment in advance, full payment upon completion of the project or a combination thereof. Since financial planning is a discovery process, situations occur wherein the client is unaware of certain financial exposures or predicaments.

In the event that the client's situation is substantially different than disclosed at the initial meeting, a revised fee will be provided for mutual agreement. The client must approve the change of scope in advance of the additional work being performed when a fee increase is necessary.

After delivery of a financial plan, future face-to-face meetings may be scheduled as necessary for up to one month. Follow-on implementation work is billed separately at the rate of \$ 100.00 per hour.

Advisory Service Agreement

Most clients choose to have SCFIA manage their assets in order to obtain ongoing in-depth advice and life planning. All aspects of the client's financial affairs are reviewed, including those of their children. Realistic and measurable goals are set and objectives to reach those goals are defined. As goals and objectives change over time, suggestions are made and implemented on an ongoing basis.

The scope of work and fee for an Advisory Service Agreement is provided to the client in writing prior to the start of the relationship. An Advisory Service Agreement includes: cash flow management; insurance review; investment management; education planning; retirement planning; estate planning; and tax preparation, as well as the implementation of recommendations within each area.

The annual Advisory Service Agreement fee is based on a percentage of the investable assets according to the following schedules:

STANDARD ADVISORY SERVICE FEE SCHEDULE

Asset base up to \$ 500,000.....	3.00%*	per year
Asset base up to \$1,000,000.....	2.75%*	
Asset base up to \$1,500,000.....	2.50%*	
Asset base greater than \$1,500,000.....	2.00%*	

The minimum annual fee is 2.00% and is negotiable. Current client relationships may exist where the fees are higher or lower than the fee schedule above.

NON-STANDARD ADVISORY SERVICE FEE SCHEDULE

The firm provides advice to Clients on managing their assets and are provided as a “Non-Standard Advisory Services” program in that there is no charge for “ticket charges” and the annual fee is inclusive of advisory fees and commissions, assessed against assets under management ranges from 2.5% to 3.25% according to the following schedule:

Asset base up to \$ 50,000.....	3.25%* per year
\$ 50,001 to \$ 100,000.....	3.00%*
\$100,001 to \$ 250,000.....	2.75%*
\$250,000 to \$1,000,000.....	2.5%*
\$1,000,000 and up	Negotiable

*These services may be available at lower fees; all fees are negotiable

Although the Advisory Service Agreement is an ongoing agreement and constant adjustments are required, the length of service to the client is at the client’s discretion. The client or the investment manager may terminate an Agreement by written notice to the other party. At termination, fees will be billed on a pro rata basis for the portion of the quarter completed. The portfolio value at the completion of the prior full billing quarter is used as the basis for the fee computation, adjusted for the number of days during the billing quarter prior to termination.

Neither SCF Investment Advisors, Inc. nor its Advisors provide legal or tax advice. Please consult with your attorney or tax professional.

Investment Management Agreement

An *Investment Management Agreement* may be executed when financial planning is not provided as part of the relationship. The fee for an *Investment Management Agreement* is \$ 100.00 per hour and is negotiable.

Tax Preparation Agreement

Neither SCF Investment Advisors, Inc. nor its Advisors provide legal or tax advice. Please consult with your attorney or tax professional.

Hourly Planning Engagements

SCFIA provides hourly planning services for clients who need advice on a limited scope of work. The hourly rate for limited scope engagements is \$100.00 and is negotiable.

Asset Management

Assets are invested primarily in no-load or low-load mutual funds and exchange-traded funds and may also include: equities (stocks), corporate debt securities, commercial paper, certificates of deposit, municipal securities, investment company securities (variable life insurance, variable annuities, and mutual funds shares), U.S. government securities, alternative investments, options contracts and interests in partnerships. Investments are may be purchased through its affiliated broker/dealer, discount brokers or fund companies. Fund companies charge each fund shareholder an investment management fee that is disclosed in the fund prospectus. Brokerage firms may charge a transaction fee for the purchase of some funds.

Stocks and bonds may be purchased or sold through a brokerage account when appropriate. The brokerage firm charges a fee for stock and bond trades. SCFIA does not receive any compensation, in any form, from fund companies.

Initial public offerings (IPOs) are not available through SCFIA.

Termination of Agreement

A Client may terminate any of the aforementioned agreements at any time by notifying SCFIA in writing and paying the rate for the time spent on the investment advisory engagement prior to notification of termination. If the client made an advance payment, SCFIA will refund any unearned portion of the advance payment.

SCFIA may terminate any of the aforementioned agreements at any time by notifying the client in writing. If the client made an advance payment, SCFIA will refund any unearned portion of the advance payment.

Fees and Compensation

Description

SCFIA bases its fees on a percentage of assets under management, hourly charges, fixed fees (not including subscription fees), subscription fees and/or commissions.

Financial plans are priced according to the degree of complexity associated with the client's situation.

Fees are negotiable.

Fee Billing

Investment management fees are billed quarterly, or as mutually agreed upon by the client, in advance and/or arrears dependent on agreed upon terms, meaning that we invoice you either before or after the three-month billing

period has begun and/or ended. Payment in full is expected upon invoice presentation or to facilitate billing, fees may be automatically deducted from the account based on a separate client agreement. The client must consent in advance to direct debiting of their investment account.

The fee for financial plans is predicated upon the facts known at the start of the engagement. The financial plan fee is set at the onset of the engagement and is negotiable.

Terms of payment are negotiable and may consist of partial payment in advance, full payment upon completion of the project or a combination thereof.

Other Fees

Custodians may charge transaction fees on purchases or sales of certain mutual funds and exchange-traded funds. These transaction charges are usually small and incidental to the purchase or sale of a security. The selection of the security is more important than the nominal fee that the custodian charges to buy or sell the security.

SCFIA, in its sole discretion, may waive its minimum fee and/or charge a lesser investment advisory fee based upon certain criteria (e.g., historical relationship, type of assets, anticipated future earning capacity, anticipated future additional assets, dollar amounts of assets to be managed, related accounts, account composition, negotiations with clients, etc.).

New Advisory Service Agreement fees are calculated on a formula basis and adjusted for complexity of individual situations. *The formula is based on gross income, gross assets and other financial considerations.*

Expense Ratios

Mutual funds generally charge a management fee for their services as investment managers. The management fee is called an expense ratio. For example, an expense ratio of 0.50 means that the mutual fund company charges 0.5% for their services. These fees are in addition to the fees paid by you to SCFIA.

Performance figures quoted by mutual fund companies in various publications are after their fees have been deducted.

Past Due Accounts and Termination of Agreement

SCFIA reserves the right to stop work on any account that is in arrears. In addition, SCFIA reserves the right to terminate any financial planning engagement where a client has willfully concealed or has refused to provide pertinent information about financial situations when necessary and appropriate, in SCFIA's judgment, to providing proper financial advice. Any unused portion of fees collected in advance will be refunded at account closing.

Performance-Based Fees

Sharing of Capital Gains

Fees are not based on a share of the capital gains or capital appreciation of managed securities.

SCFIA does not use a performance-based fee structure because of the potential conflict of interest. Performance-based compensation may create an incentive for the adviser to recommend an investment that may carry a higher degree of risk to the client.

Types of Clients

Description

SCFIA generally provides investment advice to individuals, pension and profit sharing plans, trusts, estates, charitable organizations and corporations or business entities.

Client relationships vary in scope and length of service.

Account Minimums

The minimum account size is \$50,000 of assets under management, which equates to an annual fee of \$ 1000.00.

SCFIA has the discretion to waive the account minimum. Accounts of less than \$ 50,000.00 may be set up when the client and the advisor anticipate the client will add additional funds to the accounts bringing the total to \$ 50,000.00 within a reasonable time. Other exceptions will apply to employees of SCFIA and their relatives, or relatives of existing clients.

Clients receiving ongoing asset management services will be assessed a \$ 1000.00 minimum annual fee. Clients with assets below the minimum account size may pay a higher percentage rate on their annual fees than the fees paid by clients with greater assets under management.

Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis

Security analysis methods may include charting, fundamental analysis, technical analysis, and cyclical analysis.

The main sources of information include financial newspapers and magazines, inspections of corporate activities, research materials prepared by others, corporate rating services, timing services, annual reports,

prospectuses, filings with the Securities and Exchange Commission, and company press releases.

Other sources of information that SCFIA may use include Morningstar Principia mutual fund information, Morningstar Principia stock information, , Advisor Intelligence, and other specialized analysis software, as well as the World Wide Web.

Investment Strategies

The primary investment strategy used on client accounts is strategic asset allocation utilizing a core and satellite approach. This means that we use passively-managed index and exchange-traded funds as the core investments, and then add actively-managed funds where there are greater opportunities to make a difference. Portfolios are globally diversified to control the risk associated with traditional markets.

The investment strategy for a specific client is based upon the objectives stated by the client during consultations. The client may change these objectives at any time.

Other strategies may include long-term purchases, short-term purchases, trading, short sales, margin transactions, and option writing including covered options.

Risk of Loss

All investment programs have certain risks that are borne by the investor. Our investment approach constantly keeps the risk of loss in mind. Investors face the following investment risks:

- **Interest-rate Risk:** Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on existing bonds become less attractive, causing their market values to decline.
- **Market Risk:** The price of a security, bond, or mutual fund may drop in reaction to tangible and intangible events and conditions. This type of risk is caused by external factors independent of a security's particular underlying circumstances. For example, political, economic and social conditions may trigger market events.
- **Inflation Risk:** When any type of inflation is present, a dollar today will not buy as much as a dollar next year, because purchasing power is eroding at the rate of inflation.
- **Currency Risk:** Overseas investments are subject to fluctuations in the value of the dollar against the currency of the investment's originating country. This is also referred to as exchange rate risk.
- **Reinvestment Risk:** This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of

return (i.e. interest rate). This primarily relates to fixed income securities.

- **Business Risk:** These risks are associated with a particular industry or a particular company within an industry. For example, oil-drilling companies depend on finding oil and then refining it, a lengthy process, before they can generate a profit. They carry a higher risk of profitability than an electric company, which generates its income from a steady stream of customers who buy electricity no matter what the economic environment is like.
- **Liquidity Risk:** Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are interested in a standardized product. For example, Treasury Bills are highly liquid, while real estate properties are not.
- **Financial Risk:** Excessive borrowing to finance a business' operations increases the risk of profitability, because the company must meet the terms of its obligations in good times and bad. During periods of financial stress, the inability to meet loan obligations may result in bankruptcy and/or a declining market value.

The client approves the custodian to be used and the commission rates paid to the custodian. SCFIA does not receive any portion of the transaction fees or commissions paid by the client to the custodian on certain trades.

Discretionary trading authority facilitates placing trades in your accounts on your behalf so that we may promptly implement the investment policy that you have approved in writing.

If a client terminates the advisory relationship with the Firm within the first twelve months, the Firm may impose an additional administrative fee of \$100 to offset associated termination costs. Notwithstanding the above, if the appropriate disclosure statement was not delivered to the client at least 48 hours prior to the client entering into any written or oral advisory contract with the Firm, the client has the right to terminate the fee contract without penalty,</p>

These may be the same as, similar to or the opposite of those positions that clients are invested in through the third part money managers to whom the advisor refers its clients.</p> <p>The firm’s associates’ transactions are in securities that are widely held and publicly traded; as such the firm’s activity is of negligible market effect, and the possibility of a conflict of interest between the interests of the firm and any client is also negligible.</p> <p>When applicable or appropriate, a client is informed of the firm’s positions in such investments. Item 12. B.	<p>SCF-IA manages assets for clients using a Limited Power of Attorney, by granting the firm the right to place trades in clients' accounts without obtaining prior permission from the client.</p> <p>The firm may only direct funds transferred to an account bearing the same name, with the exception of the deduction of management fees. SCF-IA at no time has custody of clients' securities or funds, and to that end, requires that the following occur in order to have its management fees deducted directly from clients' accounts.</p> <p>First, a client must provide written authorization to its custodian to withdraw management fees from the account upon receiving instructions to do so from SCF-IA.</p> <p>Secondly, the client receives an informational invoice showing the base amount upon which the fee is calculated, the calculation, and the dollar amount being deducted.</p> <p>And thirdly, the statement from the custodian to the client lists the deduction of the management fee in the transaction history for the period.</p> <p>At this time SCF-IA does not participate in a Prime Broker trading service nor do our advisors direct transactions to brokers in return for research services furnished by them to the advisor.</p> <p>At times the firm may aggregate trades for clients, trading in one "block" for the ease of execution and to obtain better pricing. When trading in one "block" where pieces are executed at different prices, an average price is given to all participants in the trade, ensuring that all clients are treated fairly.</p> <p>For discretionary accounts, SCF-IA has the limited trading authority to determine the amounts of securities to be bought and sold. These amounts are limited by the value of the funds and securities in the account, and the allocation and diversification restrictions are predetermined by the client.</p> <p>If a client does not have a broker designated for securities transactions or custody, SCF-IA will recommend a brokerage firm to the client. The recommended firm would ordinarily be a discount broker where reduced commissions could be obtained. Any recommended broker would be subject to explicit client consent.</p> <p>Recommended Brokerage: See above in Item 8. C. (1) National Financial Services, LLC. ("NFS").</p> <p>SCF-IA recommends NFS for the vast array of research tools and services it offers; the majority of which are provided free of charge to the advisor.</p> <p>The recommended broker dealer charges commissions that may be higher or lower than those a client would pay to another broker dealer offering essentially the same or very similar products and /or services.</p>
