Item 4 – Advisory Services

A. Firm Information

Global Access Investment Advisor, LLC (“Global Access” or the “Advisor”) is a Registered Investment Advisor with the State of New York, which is organized as a Limited Liability Company (“LLC”) under the laws of the State of New York. Global Access was founded in 1999 and commenced activities as a registered investment advisor in 2011. Global Access is owned and operated by Raquel Borges, President. This Disclosure Brochure provides information regarding the qualifications, business practices, and the advisory services provided by Global Access.

B. Advisory Services Offered

Global Access offers investment advisory services to several types of clients including individuals, high net worth individuals, trusts, estates, businesses and private funds. Clients are located in New York, other U.S. states and outside the U.S. (each referred to as a “Client”).

Account Portfolio Management

Global Access provides customized investment advisory solutions for its Clients. This is achieved through continuous personal Client contact and interaction while providing discretionary investment management and consulting services. Global Access works with each Client to identify their investment goals and objectives as well as risk tolerance and financial situation in order to create a portfolio allocation. Global Access will then construct a portfolio, consisting exchange-listed securities, real estate investment trusts, limited partnerships, and options. The Advisor may also utilize individual stocks and bonds to meet the needs of its Clients.

Global Access’s investment strategy is primarily long-term focused, but the Advisor may buy, sell or re-allocate positions that have been held less than one year to meet the objectives of the Client or due to market conditions. Global Access will construct, implement and monitor the portfolio to ensure it meets the goals, objectives, circumstances, and risk tolerance agreed to by the Client. Each Client will have the opportunity to place reasonable restrictions on the types of investments to be held in their respective portfolio, subject to the acceptance by the Advisor.

Global Access evaluates and selects investments for inclusion in Client portfolios only after applying their internal due diligence process. Global Access may recommend, on occasion, redistributing investment allocations to diversify the portfolio. Global Access may recommend specific positions to increase sector or asset class weightings. The Advisor may recommend employing cash positions as a possible hedge against market movement, which may adversely affect the portfolio. Global Access may recommend selling positions for reasons that include, but are not limited to, harvesting capital gains or losses, business or sector risk exposure to a specific security or class of securities, overvaluation or overweighting of the position[s] in the portfolio, change in risk tolerance of Client, generating cash to meet Client needs, or any risk deemed unacceptable for the Client’s risk tolerance.

Prior to rendering investment advisory services, Global Access will ascertain, in conjunction with the Client, the Client’s financial situation, risk tolerance, and investment objective[s].

Global Access will provide investment advisory services and portfolio management services and will not provide securities custodial or other administrative services. At no time will Global Access accept or maintain custody of a Client’s funds or securities. All Client assets will be managed within their designated brokerage account or pension account, pursuant to the Client Investment Advisory Agreement.

Selection of Other Advisors

Global Access may periodically recommend and refer clients to unaffiliated money managers or investment advisors at Global Access’s discretion or Client’s request. Through this arrangement, the Client will then enter into an advisory agreement with that sub-advisor to which that sub-advisor will assist and advise the Client in establishing investment objectives and develop an investment strategy to meet those objectives by identifying

appropriate investments and monitoring such investments. In consideration for such sub-advisor services, the sub-advisor will receive an investment advisory fee, billed based on the fee schedule the Client establishes with the unaffiliated money manager[s] or investment advisor[s].

Selection of Other Advisors - continued

Global Access will receive a portion of the investment advisory fee for the solicitation and referral of the Client to the sub-advisor, and may assist the Client in completing their Client questionnaire and account opening paperwork. Global Access may also assist in the development of the initial policy recommendations and managing the ongoing Client relationship.

The Client, prior to entering into an agreement with unaffiliated money manager[s] or investment advisor[s], will be provided with the advisor's Form ADV 2 (or a brochure that makes the appropriate disclosures).

C. Client Account Management

Prior to engaging Global Access to provide investment advisory services, each Client is required to enter into an Investment Advisory Agreement with the Advisor that defines the terms, conditions, authority and responsibilities of the Advisor and the Client. These services may include:

- Establishing an Investment Policy Statement – Global Access, in connection with the Client, may develop a statement that summarizes the Client's investment goals and objectives along with the broad strategy[ies] to be employed to meet the objectives.
- Asset Allocation – Global Access will develop a strategic asset allocation that is targeted to meet the investment objectives, time horizon, financial situation and tolerance for risk for each Client.
- Portfolio Construction – Global Access will develop a portfolio for the Client that is intended to meet the stated goals and objectives of the Client.
- Investment Management and Supervision – Global Access will provide investment management and ongoing oversight of the Client's portfolio and overall account.

D. Wrap Fee Programs

Global Access does not manage or place Client assets into a wrap fee program. Investment management services are provided directly by Global Access.

E. Assets Under Management

Global Access is a newly established advisor. Assets under management shall be reported following the Advisor's December 31, 2011 fiscal year end. Clients may request more current information at any time by contacting the Advisor.

Item 5 – Fees and Compensation

The following paragraphs detail the fee structure and compensation methodology for investment management. Each Client shall sign an Investment Advisory Agreement that details the responsibilities of Global Access and the Client.

A. Fees for Advisory Services

Account Portfolio Management

Investment Advisory Fees are paid quarterly in advance pursuant to the terms of the Investment Advisory Agreement. Investment Advisory Fees are based on the market value of assets under management at the end of each calendar quarter. Investment Advisory Fees range from 2.00% to 0.50% depending on the size and complexity of the Client relationship. Relationships with multiple objectives, specific reporting requirements, portfolio restrictions and other complexities may be charged a higher fee.

Investment Advisory Fees in the first quarter of service are prorated to the inception date of the account to the end of the first quarter. Fees may be negotiable at the discretion of the Advisor. The Client's fees will take into

consideration the aggregate assets under management with Advisor. All securities held in accounts managed by Global Access will be independently valued by the designated Custodian. Global Access will not have the authority or responsibility to value portfolio securities.

Selection of Other Advisors

For Clients referred to an unaffiliated investment advisor, the Client's fee will be deducted from the Client's account[s] with the respective manager and a portion of the investment advisory fee will be provided to Global Access. Please see Item 14 for additional details.

B. Fee Billing

Account Portfolio Management

Investment Advisory Fees will be automatically deducted from the Client Account by the Custodian. The Advisor shall send an invoice to the Custodian indicating the amount of the fees to be deducted from the Client Account at the respective quarter end date. The amount due is calculated by applying the quarterly rate (annual rate divided by 4) to the total assets under management with Global Access at the end of each quarter. Clients will be provided with a statement, at least quarterly, from the Custodian reflecting deduction of the Investment Advisory Fee. In addition, the Advisor will provide the Client a report itemizing the fee, including the calculation period covered by the fee, the account value and the methodology used to calculate the fee. It is the responsibility of the Client to verify the accuracy of these fees as listed on the custodian's brokerage statement as the Custodian does not assume this responsibility. Clients provide written authorization permitting Global Access to be paid directly from their accounts held by the Custodian as part of the Investment Advisory Agreement and separate account forms provided by the Custodian.

C. Other Fees and Expenses

Clients may incur certain fees or charges imposed by third parties, other than Global Access, in connection with investment made on behalf of the Client's account[s]. The Client is responsible for all custodial and securities execution fees charged by the custodian and executing broker-dealer. The Investment Advisory Fee charged by Global Access is separate and distinct from these custodian and execution fees.

In addition, all fees paid to Global Access for investment advisory services are separate and distinct from the expenses charged by mutual funds and exchange-traded funds to their shareholders, if applicable. These fees and expenses are described in each fund's prospectus. These fees and expenses will generally be used to pay management fees for the funds, other fund expenses, account administration (e.g., custody, brokerage and account reporting), and a possible distribution fee. A Client could invest in these products directly, without the services of Global Access, but would not receive the services provided by Global Access which are designed, among other things, to assist the Client in determining which products or services are most appropriate to each Client's financial situation and objectives. Accordingly, the Client should review both the fees charged by the fund[s] and the fees charged by Global Access to fully understand the total fees to be paid.

D. Advance Payment of Fees and Termination

Account Portfolio Management

Global Access is compensated for its services in advance the quarter in which investment advisory services are rendered. Clients may request to terminate their Investment Advisory Agreement with Global Access, in whole or in part, by providing advance written notice. The Client shall be responsible for Investment Advisory Fees up to and including the effective date of termination. Upon termination, the Advisor will refund any unearned, prepaid Investment Advisory Fees from the effective date of termination to the end of the [quarter/month]. The Client's Investment Advisory Agreement with the Advisor is non-transferable without Client's written approval.

Unaffiliated Money Management

In the event that a Client should wish to terminate their relationship with an unaffiliated investment advisor, the terms for termination will be set forth in the respective agreements between the Client and those third parties. Global Access will assist the Client with the termination and transition as appropriate.

E. Compensation for Sales of Securities

Global Access does not buy or sell securities and does not receive any compensation for securities transactions in any Client account, other than the Investment Advisory Fees noted above.

Item 6 – Performance-Based Fees

Global Access does not charge performance-based fees for its investment advisory services. The fees charged by Global Access are as described in Item 5 – Fees and Compensation above and are not based upon the capital appreciation of the funds or securities held by any Client.

Global Access does not manage any proprietary investment funds or limited partnerships (for example, a mutual fund or a hedge fund) and has no financial incentive to recommend any particular investment options to its Clients.

Item 7 – Types of Clients

Global Access provides investment advisory services to the following types of Clients:

- Individuals, Personal Trusts and Estates – private investors, investing their personal assets
- Pension and Profit Sharing Plans – retirement plan sponsors or company plans
- Foundation and Endowments – non-profit organizations that manage a pool of assets, and distribute funds according to a mandate or mission
- Corporations and Businesses – taxable business entities, investing cash reserves
- Other Financial Service Firms – other investment advisors or private funds

The relative percentage each type of Client is available on Global Access's Form ADV Part 1. These percentages will change over time. Global Access generally requires a minimum account size of \$500,000 to effectively implement its investment process. Accounts are grouped for calculating fees and determining minimums. The Advisor may waive or reduce the minimum account size at its sole discretion.

Item 8 – Methods of Analysis, Investment Strategies and Risk of Loss

A. Methods of Analysis

Global Access primarily employs fundamental analysis methods in developing investment strategies for its Clients. Research and analysis from Global Access is derived from numerous sources, including financial media companies, third-party research materials, Internet sources, and review of company activities, including annual reports, prospectuses, press releases and research prepared by others.

As noted above, Global Access generally employs a long-term investment strategy for its Clients, as consistent with their financial goals. Global Access will typically hold all or a portion of a security for more than a year, but may hold for shorter periods for the purpose of rebalancing a portfolio or meeting the cash needs of Clients. At times, Global Access may also buy and sell positions that are more short-term in nature, depending on the goals of the Client and/or the fundamentals of the security, sector or asset class.

B. Risk of Loss

Investing in securities involves certain investment risks. Securities may fluctuate in value or lose value. Clients should be prepared to bear the potential risk of loss. Global Access will assist Clients in determining an appropriate strategy based on their tolerance for risk and other factors noted above. However, there is no guarantee that a Client will meet their investment goals.

Each Client engagement will entail a review of the Client's investment goals, financial situation, time horizon, tolerance for risk and other factors to develop an appropriate strategy for managing a Client's account. Client participation in this process, including full and accurate disclosure of requested information, is essential for the analysis of a Client's account. The Advisor shall rely on the financial and other information provided by the Client or their designees without the duty or obligation to validate the accuracy and completeness of the provided information. It is the responsibility of the Client to inform the Advisor of any changes in financial condition, goals or other factors that may affect this analysis.

B. Risk of Loss - continued

The risks associated with a particular strategy are provided to each Client in advance of investing Client accounts. The Advisor will work with each Client to determine their tolerance for risk as part of the portfolio construction process.

Global Access may use margin in Client accounts for to manage the timing of purchases and sales, as appropriate. Global Access may employ options strategies to hedge or gain additional exposure to a particular asset class or sector. Global Access 's investment strategy encompasses active trading in concentrated portfolios. Following are some of the risks associated with Options, Margin and Short-Sale transactions:

Options Contracts

Investments in options contracts have the risk of losing value in a relatively short period of time. Option contracts are leveraged instruments that allow the holder of a single contract to control many shares of an underlying stock. This leverage can compound gains or losses.

Margin Borrowings

The use of short-term margin borrowings may result in certain additional risks to a Client. For example, if securities pledged to brokers to secure a Client's margin accounts decline in value, the Client could be subject to a "margin call", pursuant to which it must either deposit additional funds with the broker or be the subject of mandatory liquidation of the pledged securities to compensate for the decline in value.

Short Sales

A short sale involves the sale of a security that the Client does not own in the hope of purchasing the same security at a later date at a lower price. To make delivery to the buyer, the Client must borrow the security and is obligated to return the security to the lender, which is accomplished by a later purchase of the security. The Client realizes a profit or a loss as a result of a short sale if the price of the security decreases or increases respectively between the date of the short sale and the date on which the Client covers its short position, i.e., purchases the security to replace the borrowed security. A short sale involves the theoretically unlimited risk of an increase in the market price of the security that would result in a theoretically unlimited loss.

Alternative Investments (Limited Partnerships)

The performance of alternative investments (limited partnerships) can be volatile and may have limited liquidity. An investor could lose all or a portion of their investment. Such investments often have concentrated positions and investments that may carry higher risks. Client should only have a portion of their assets in these investments.

Fundamental Analysis

Fundamental analysis is the process of looking at economic and business indicators as investment selection criteria. These criteria are usually ratios and trends that may indicate the overall strength and financial viability of the entity being analyzed. The Advisor considers macroeconomic factors as well as issue specific factors.

Past performance is not a guarantee of future returns. Investing in securities and other investments involve a risk of loss that each Client should understand and be willing to bear. Clients are reminded to discuss these risks with the Advisor. For more information on our investment management services, please contact us at (212) 397-0555.

Item 12 – Brokerage Practices

A. Recommendation of Custodian[s]

Global Access does not have discretionary authority to select the broker-dealer/custodian for custodial and execution services or the administrator for defined contribution accounts. The Client will select the broker-dealer or custodian (herein the "custodian") to safeguard Client assets and authorize Global Access to direct

trades to this custodian as agreed in the Investment Advisory Agreement. Further, Global Access does not have the discretionary authority to negotiate commissions on behalf of our Clients on a trade-by-trade basis.

Where Global Access does not exercise discretion over the selection of the custodian, it may recommend the custodian[s] to Clients for execution and/or custodial services. Clients are not obligated to use the recommended custodian and will not incur any extra fee or cost associated with using a broker not recommended by Global Access. Global Access may recommend a custodian based on criteria such as, but not limited to, reasonableness of commissions charged to the Client, services made available to the Client, and location of the custodian's offices. Global Access does not receive research services, other products, or compensation as a result of recommending a particular broker that may result in the Client paying higher commissions than those obtainable through other brokers.

Following are additional details regarding the brokerage practices of the Advisor:

- 1. Soft Dollars** - Soft dollars are revenue programs offered by broker-dealers whereby an advisor enters into an agreement to place security trades with the broker in exchange for research and other services. **Global Access does not participate in soft dollar programs sponsored or offered by any broker-dealer.**
- 2. Brokerage Referrals** - Global Access does not receive any compensation from any third party in connection with the recommendation for establishing a brokerage account.
- 3. Directed Brokerage** - All Clients are serviced on a "directed brokerage basis", where Global Access will place trades within the established account[s] at the custodian designated by the Client. Further, all Client accounts are traded within their respective brokerage account[s]. The Advisor will not engage in any principal transactions (i.e., trade of any security from or to the Advisor's own account) or cross transactions with other Client accounts (i.e., purchase of a security into one Client account from another Client's account[s]). In selecting the custodian, Global Access will not be obligated to select competitive bids on securities transactions and does not have an obligation to seek the lowest available transaction costs. These costs are determined by the designated custodian.

B. Aggregating and Allocating Trades

The primary objective in placing orders for the purchase and sale of securities for Client accounts is to obtain the most favorable net results taking into account such factors as 1) price, 2) size of order, 3) difficulty of execution, 4) confidentiality and 5) skill required of the broker. Global Access will execute its transactions through an unaffiliated broker-dealer selected by the Client. Global Access may aggregate orders in a block trade or trades when securities are purchased or sold through the same broker-dealer for multiple (discretionary) accounts. If a block trade cannot be executed in full at the same price or time, the securities actually purchased or sold by the close of each business day must be allocated in a manner that is consistent with the initial pre-allocation or other written statement. This must be done in a way that does not consistently advantage or disadvantage particular Client accounts.

Item 13 – Review of Accounts

A. Frequency of Reviews

Accounts are monitored on a regular and continuous basis by Mr. Landi, Chief Investment Advisor of Global Access. Formal reviews are generally conducted at least annually or more or less frequently depending on the needs of the Client.

B. Causes for Reviews

In addition to the investment monitoring noted in Item 13.A., each Client account shall be reviewed at least annually. Reviews may be conducted more or less frequently at the Client's request. Accounts may be reviewed as a result of major changes in economic conditions, known changes in the Client's financial situation, and/or large deposits or withdrawals in the Client's account. The Client is encouraged to notify Global Access if changes occur in his/her personal financial situation that might adversely affect his/her investment plan. Additional reviews may be triggered by material market, economic or political events.

C. Review Reports

The Client will receive brokerage statements no less than quarterly from the trustee or custodian. These brokerage statements are sent directly from the custodian to the Client. The Client may also establish electronic access to the custodian's website so that the Client may view these reports and their account activity. Client brokerage statements will include all positions, transactions and fees relating to the Client's account[s]. The Advisor may also provide Clients with periodic reports regarding their holdings, allocations, and performance.
