Advisory Business

Form ADV Part 2A, Item 4

Description of Services and Fees

We are a registered investment adviser based in Albany, NY. We are organized as a limited liability company under the laws of the State of New York. We have been providing investment advisory services since 2002. Newkirk Products, Inc. is our principal owner. Newkirk Products, Inc. is wholly owned by DST Systems, Inc., a public company.

The following paragraphs describe our service and fees. As used in this brochure, the words "we", "our" and "us" refer to MP Advisory Service, LLC (hereinafter "MPAS") and the words "you", "your" and "client" refer to you as either a client or prospective client of our firm. Also, you may see the term Associated Person throughout this Brochure. As used in this Brochure, our Associated Persons are our firm's officers, employees, and all individuals providing investment advice on behalf of our firm.

MPAS is an Internet-based company that provides advice on asset allocation and investment selection to participants in qualified retirement plans. We do not manage assets on either a discretionary or non-discretionary basis. MPAS does not provide continuous or supervisory management to securities portfolios.

MasteryPOINT Financial Technologies (MasteryPOINT) is a provider of Internet-based software for the defined contribution market. MasteryPOINT's products will utilize MPAS data and methodologies to provide advice recommendations to qualified plan participants. MasteryPOINT's Advice Program works by having a participant enter specific information regarding age, income, years to retirement, goals, etc. Given the participant's inputs, the investments available to the participant's plan and the past and expected performance for these markets, the Advice Program will recommend the most efficient combination of investments available to and appropriate for the participant in achieving his/her goals. The Advice Program then recommends one or more funds from the participant's plan that are considered the best funds available to the participant to achieve the participant's goals.

The companies sponsoring the retirement plans will contract with MasteryPoint Financial Technologies ("MasteryPoint") to provide investment allocation and advice recommendations for their plan participants. In turn, MasteryPOINT has contracted with MPAS to conduct due diligence reviews, at least annually, of the information provided by Schlindwein Associates, LLC and to provide the actual investment advisory services. MasteryPOINT shall pay MPAS' advisory fee that consist of a \$10,000 annualized fixed fee, payable quarterly in advance, plus \$150 per hour for services rendered outside the scope of the contracted engagement. MPAS or MasteryPOINT may terminate the agreement on 90 days written notice. Fees for services are not refundable.

Types of Investments

We do not provide advice on specific types of investments. Our advice is limited to asset allocation and the selection of investment products offered within qualified retirement plans. The investment products offered within the qualified plans are primarily mutual funds.

Assets Under Management

We are an internet investment adviser; therefore, we do not have any discretionary or non-discretionary assets under management.

Fees and Compensation

Form ADV Part 2A, Item 5

Please refer to the “Advisory Business” section in this Brochure for information on our advisory fees.

Additional Fees and Expenses

As part of our investment advice to you, we may invest, or recommend that you invest, in mutual funds and exchange traded funds. The fees that you pay to our firm for investment advisory services are separate and distinct from the fees and expenses charged by mutual funds or exchange traded funds (described in each fund’s prospectus) to their shareholders. These fees will generally include a management fee and other fund expenses. You will also incur transaction charges and/or brokerage fees when purchasing or selling securities. These charges and fees are typically imposed by the broker-dealer or custodian through which your account transactions are executed. We do not share in any portion of the brokerage fees/transaction charges imposed by the broker-dealer or custodian. To fully understand the total cost you will incur, you should review all the fees charged by mutual funds, exchange traded funds, our firm, and others. For information on our brokerage practices, please refer to the “Brokerage Practices” section of this Disclosure Brochure.

Performance-Based Fees and Side-By-Side Management

Form ADV Part 2A, Item 6

We do not accept performance-based fees or participate in side-by-side management. Our fees are calculated as described in the *Advisory Business* section above, and are not charged on the basis of a share of capital gains upon, or capital appreciation of, the funds in your advisory account.

Types of Clients

Form ADV Part 2A, Item 7

We offer investment advisory services to participants in qualified retirement plans.

We do not require a minimum dollar amount to open and maintain an advisory account.

Methods of Analysis, Investment Strategies and Risk of Loss

Form ADV Part 2A, Item 8

Our Methods of Analysis and Investment Strategies

MPAS’ methodology provides for a high-level optimization of your portfolios using the International Equity, Large and Small Cap Equity, Fixed Income and Cash asset classes to determine the highest returning portfolio mix at each risk level. We divide the market into 47 styles or sectors and follow a formula-based process to select individual funds from the style categories within each of the high-level optimized asset classes. We rely on analysis provided by Schlindwein Associates, LLC (“Schlindwein”) to rank more than 19,000 mutual funds

and a limited number of non-mutual fund investments. MPAS relies on asset class forecasts that are generated using historical data from 1926 to the present.

The analysis provided by Schlindwein includes a “scoring” based upon risk-adjusted return, fund consistency, fund expense, and fund experience scores. These scores are weighted and used to determine a “Total Fund Ranking.” This Ranking is used as the basis for the recommendation of one fund over another in any given portfolio allocation. MPAS will review Schlindwein’s methodology annually for consistency and to ensure that the methodology continues to reflect generally acceptable methods for fund analysis and comparison. If changes are necessary, MPAS will ensure that a revised methodology is in place by February of the following year.

Our investment strategies and advice may vary depending upon each plan participant’s specific financial situation. As such, we determine investments and allocations based upon your predefined objectives, risk tolerance, time horizon, financial horizon, financial information, liquidity needs, and other various suitability factors. Your restrictions and guidelines may affect the composition of your portfolio.

Risk of Loss

Investing in securities involves risk of loss that you should be prepared to bear. We do not represent or guarantee that our services or methods of analysis can or will predict future results, successfully identify market tops or bottoms, or insulate clients from losses due to market corrections or declines. We cannot offer any guarantees or promises that your financial goals and objectives will be met. Past performance is in no way an indication of future performance.

Recommendation of Particular Types of Securities

As disclosed under the “Advisory Business” section in this Brochure, we primarily recommend mutual funds. You should be advised of the following risks when investing in these types of securities:

Mutual funds are professionally managed collective investment systems that pool money from many investors and invest in stocks, bonds, short-term money market instruments, other mutual funds, other securities or any combination thereof. The fund will have a manager that trades the fund’s investments in accordance with the fund’s investment objective. While mutual funds generally provide diversification, risks can be significantly increased if the fund is concentrated in a particular sector of the market, primarily invests in small cap or speculative companies, uses leverage (i.e., borrows money) to a significant degree, or concentrates in a particular type of security (i.e., equities) rather than balancing the fund with different types of securities. The returns on mutual funds can be reduced by the costs to manage the funds. Also, while some mutual funds are “no load” and charge no fee to buy into, or sell out of, the fund, other types of mutual funds do charge such fees which can also reduce returns. Mutual funds can also be “closed end” or “open end”. So-called “open end” mutual funds continue to allow in new investors indefinitely which can dilute other investors’ interests.

Our goal is to protect your interests at all times and to demonstrate our commitment to our fiduciary duties of honesty, good faith, and fair dealing with you. All of our Associated Persons are expected to adhere strictly to these guidelines. Associated Persons do not have the ability to trade ahead of you nor have priority over your account in the purchase or sale of securities. Additionally, our advisory services are offered only to participants in qualified plans. The qualified plans have ultimate authority as to the choice of investments offered within the plan(s). In many cases, it would be difficult, if not impossible, to personally transact in the same investment choices offered by the qualified plan provider.
