Advisory Business

Description of Services and Fees

Thomas Jackson Family Office, Inc. is a registered investment adviser based in Omaha, Nebraska. We are organized as a sub-Chapter S corporation under the laws of the State of Nebraska. We have been providing investment advisory services since 2003. Thomas C. Jackson is our principal owner.

The following paragraphs describe our services and fees. Please refer to the description of each investment advisory service listed below for information on how we tailor our advisory services to your individual needs. As used in this brochure, the words "we", "our" and "us" refer to Thomas Jackson Family Office, Inc., and the words "you", "your" and "client" refer to you as either a client or prospective client of our firm. Also, you may see the term Associated Person throughout this brochure. As used in this brochure, our Associated Persons are our firm's officers, employees, and all individuals providing investment advice on behalf of our firm.

We are in the business of providing non-discretionary advisory services on a continuous basis to individuals, trusts, estates, and charitable organizations through third party professional advisers ("TPA"), including Fifth Third Bank ("FTB"), among other registered investment advisers. As part of our services, we will offer our clients access to a network of TPAs for portfolio management services. As part of this service, we will gather information from you about your financial situation, investment objectives, and reasonable restrictions you may wish to impose on the management of your account. We will then assist you in selecting a particular TPA for management of your account. Thereafter, we will monitor the TPA's performance; review reports provided to you by the TPA; communicate information to the TPA as warranted; conduct periodic reviews of your account; and assist you in understanding and evaluating the services provided by the TPA. Our primary objective is to align you with the appropriate adviser to allow you to capitalize on opportunities that will strengthen or enhance your personal portfolio. We may enter into similar arrangements with other third party institutions or professional TPAs in the future.

The TPA will actively manage your equity portfolio and will assume investment discretionary and trading authority over the managed account. We will not manage or obtain investment discretion or trading authority over the assets in your managed account. However, we will assume discretionary authority to hire and fire TPAs and reallocate your assets to other TPAs, where such action is deemed to be in your best interests.

We receive compensation pursuant to our agreements with TPAs for introducing you to the TPAs, and for certain ongoing services provided to you. This compensation consists of a percentage of the investment advisory fee, charged by TPAs, generally payable quarterly in arrears. However, the amount of the fee and the payment arrangement may vary depending upon the TPA selected. For example, it may be the case that we are compensated quarterly in advance depending on the TPA selected. Since the TPAs pay us the fee for our investment advisory services, the fees paid to us are not negotiable. Fees paid by you to TPAs are established and payable in accordance with the Form ADV Part 2, or other equivalent disclosure provided by TPAs. Such fees may or may not be negotiable, as described in the disclosure documents of TPAs. Where such fees are negotiable, we will assist you in possibly negotiating a reduced fee. Under such circumstances, we will continue to receive a percentage of the investment advisory fee charged by the TPA. However, you will not be charged higher fees due to our fee sharing arrangements with the TPAs.

You will receive full disclosure information, including services rendered and fee schedules, at the time of the referral by delivery of a copy of the TPA's relevant Form ADV Part 2, or equivalent disclosure document.

For extraordinary services rendered outside the scope of the management agreement, we will assess an hourly rate that ranges between \$180 and \$300. Applicable fees are negotiated on a case-by-case basis, and are predicated on the complexity and scope of the requested services. Such services will generally consist of an analysis of potential investments in specific securities or classes of securities listed on public exchanges, securities that are not actively traded, or interests in investments that are unconventional in nature. We will also require that you reimburse us for all 'out of pocket' expenses e.g. travel, meals, and materials, in addition to the negotiated hourly rate.

You will sign an advisory agreement with us and the relevant TPA(s) selected. In accordance with the provisions of those agreements, any party to the agreement may terminate the advisory relationship. In the event compensation is payable in advance, you will typically receive a pro rata refund of any prepaid advisory fees upon termination of an advisory agreement.

Assets Under Management

As of December 31, 2010, we manage \$34,000,000 in assets under management with TPAs.

Fees and Compensation

In return for client referrals, third party advisers compensate our firm with a cash referral fee based upon a percentage of all the investment advisory fees actually received from you. Please refer to the "Advisory Business" section in this Brochure for information on our receipt of compensation.

Performance-Based Fees and Side-By-Side Management

We do not accept performance-based fees or participate in side-by-side management. Side-by-side management refers to the practice of managing accounts that are charged performance-based fees while at the same time managing accounts that are not charged performance-based fees. Performance-based fees are fees that are based on a share of capital gains or capital appreciation of a client's account. Our fees are calculated as described in the *Advisory Business* section above, and are not charged on the basis of a share of capital gains upon, or capital appreciation of, the funds in your advisory account.

Types of Clients

We offer investment advisory services to individuals, trusts, estates, and charitable organizations.

In general, we require a minimum of \$250,000 to open and maintain an advisory account. At our discretion, we may waive this minimum account size. For example, we may waive the minimum if you appear to have significant potential for increasing your assets under our management. We may also combine account values for you and your minor children, joint accounts with your spouse, and other types of related accounts to meet the stated minimum.

Methods of Analysis, Investment Strategies and Risk of Loss

Our Methods of Analysis and Investment Strategies

Our firm may refer you to third party advisers who will provide advice to you in accordance with the relevant program provided by the third party adviser. We will assist you in selecting third party advisers whose investment programs and strategies we have reviewed and determined may be appropriate for you based on your individual circumstances and investment goals. We will not recommend particular securities or manage your assets.

Risk of Loss

Investing in securities involves risk of loss that you should be prepared to bear. We do not represent or guarantee that our services or methods of analysis can or will predict future results, successfully identify market tops or bottoms, or insulate clients from losses due to market corrections or declines. We cannot offer any guarantees or promises that your financial goals and objectives will be met. Past performance is in no way an indication of future performance.
