SoHo Capital LLC offers the following advisory services to our clients:

INVESTMENT SUPERVISORY SERVICES ("ISS") INDIVIDUAL PORTFOLIO MANAGEMENT

Our firm provides continuous advice to a client regarding the investment of client funds based on the individual needs of the client. Through personal discussions in which goals and objectives based on a client's particular circumstances are established, we develop a client's personal investment policy and create and manage a portfolio based on that policy. During our data-gathering process, we determine the client's individual objectives, time horizons, risk tolerance, and liquidity needs. As appropriate, we also review and discuss a client's prior investment history, as well as family composition and background.

We manage these advisory accounts on a discretionary basis. Account supervision is guided by the client's stated objectives (i.e., maximum capital appreciation, growth, income, or growth and income), as well as tax considerations.

Clients may impose reasonable restrictions on investing in certain securities, types of securities, or industry sectors.

Our investment recommendations are not limited to any specific product or service offered by a broker-dealer or insurance company and will generally include advice regarding the following securities:

- Exchange-listed securities
- Securities traded over-the-counter
- Foreign issuers
- Warrants
- Corporate debt securities (other than commercial paper)
- Commercial paper
- Certificates of deposit

- Municipal securities
- Mutual fund shares
- United States governmental securities
- Options contracts on securities
- Options contracts on commodities
- Futures contracts on tangibles
- Futures contracts on intangibles
- Interests in partnerships investing in real estate
- Interests in partnerships investing in oil and gas interests
- Interests in partnerships investing in other
- Other: SoHo Global value Fund L.P.

Because some types of investments involve certain additional degrees of risk, they will only be implemented/recommended when consistent with the client's stated investment objectives, tolerance for risk, liquidity and suitability.

INVESTMENT SUPERVISORY SERVICES ("ISS") MODEL PORTFOLIO MANAGEMENT

Our firm provides portfolio management services to clients using model asset allocation portfolios. Each model portfolio is designed to meet a particular investment goal.

- ***SFS Fixed Income***
- ***SFS Income***
- ***SFS Balanced***
- ***SFS Growth & Income***
- ***SFS Equity***

We manage these advisory accounts on a discretionary basis. Account supervision is guided by the client's stated objectives (i.e., maximum capital appreciation, growth, income, or growth and income), as well as tax considerations.

Through personal discussions with the client in which the client's goals and objectives are established, we determine if the model portfolio is suitable to the client's circumstances. Once we determine the suitability of the portfolio, the portfolio is managed based on the portfolio's

goal, rather than on each client's individual needs. Clients, nevertheless, have the opportunity to place reasonable restrictions on the types of investments to be held in their account. Clients retain individual ownership of all securities.

To ensure that our initial determination of an appropriate portfolio remains suitable and that the account continues to be managed in a manner consistent with the client's financial circumstances, we will:

1. send quarterly written reminders to each Model Portfolio Management Services client requesting any updated information regarding changes in the client's financial situation and investment objectives;
2. at least annually, contact each participating client to determine whether there have been any changes in the client's financial situation or investment objectives, and whether the client wishes to impose investment restrictions or modify existing restrictions;
3. be reasonably available to consult with the client; and
4. maintain client suitability information in each client's file.

MANAGER OF MANAGERS PROGRAM

SoHo Capital LLC offers advisory management services to clients through our Manager of Managers Program. We provide the client with an asset allocation strategy developed through personal discussions in which the client's goals and objectives are established based on the client's particular circumstances. This asset allocation strategy is drafted into the client's Personal Investment Policy Statement.

SoHo Capital LLC performs management searches of various registered investment advisers. Based on the client's individual circumstances and needs (as exhibited in the client's Personal Investment Policy Statement) we determine which selected registered investment adviser's ("adviser" or "asset manager") portfolio management style is appropriate for that client. Factors considered in making this determination include account size, risk tolerance, the opinion of each client and the investment philosophy of the selected asset manager. Clients should refer to the asset manager's Firm Brochure or other disclosure document for a full description of the services offered. Client meetings are available on a regular basis, or as determined by the client, to review the account.

Once we identify the most appropriate asset manager(s), our firm provides the selected adviser with the client's Personal Investment Policy Statement, who then creates and manages the client's portfolio based on that Personal Investment Policy Statement.

On an ongoing basis, we monitor the performance of the asset manager(s). If we determine that a particular adviser is not providing sufficient management services to the client, or is not managing the client's portfolio in a manner consistent with that client's Personal Investment Policy Statement, then we may move the client's portfolio to a different asset manager and/or program sponsor. Under this scenario, our firm retains the discretion to hire and fire the asset manager and/or move the client's portfolio to a different program.

At least annually, we meet with the client to review and update, as necessary, the client's Personal Investment Advisory Statement. However, should there be any material change in the client's personal and/or financial situation, we should be notified immediately to determine whether any review and/or revision of the client's Personal Investment Advisory Statement is warranted.

INDIVIDUAL PORTFOLIO MANAGEMENT

Our firm provides non-continuous asset management of client funds based on the individual needs of the client. Through personal discussions in which goals and objectives based on the client's particular circumstances are established, we develop the client's personal investment policy. We create and manage a portfolio based on that policy. During our data-gathering process, we determine the client's individual objectives, time horizons, risk tolerance, and liquidity needs. As appropriate, we may also review and discuss a client's prior investment history, as well as family composition and background.

Clients may impose reasonable restrictions on investing in certain securities, types of securities, or industry sectors.

Once the client's portfolio has been established, we review the portfolio **quarterly** and if necessary, rebalance the portfolio on an annual basis, based on the client's individual needs.

Our investment recommendations are not limited to any specific product or service offered by a broker-dealer or insurance company and will generally include advice regarding the following securities:
