Advisory Business

Form ADV Part 2A, Item 4

Description of Services and Fees

Comprehensive Wealth Solutions, LLC is a registered investment adviser primarily based in Short Hills, NJ. We are organized as a limited liability company under the laws of the State of New Jersey. We have been providing investment advisory services since 2004. Gary Dennis is our principal owner. Currently, we offer the following investment advisory services, which are personalized to each individual client:

- **Financial Planning Services**
- **Portfolio Management Services**
- **Selection of Other Advisers**

The following paragraphs describe our services and fees. Please refer to the description of each investment advisory service listed below for information on how we tailor our advisory services to your individual needs. As used in this Brochure, the words “we”, “our” and “us” refer to Comprehensive Wealth Solutions and the words “you”, “your” and “client” refer to you as either a client or prospective client of our firm. Also, you may see the term Associated Person throughout this Brochure. As used in this Brochure, our Associated Persons are our firm’s officers, employees, and all individuals providing investment advice on behalf of our firm.

Financial Planning Services

We offer our clients a broad range of comprehensive financial planning and consulting services. Financial planning will typically involve providing a variety of advisory services to clients regarding the management of their financial resources based upon an analysis of their individual needs. If you retain our firm for financial planning services, we will meet with you to gather information about your financial circumstances and objectives. Once we review and analyze the information you provide to our firm, we may deliver a written plan to you, designed to help you achieve your stated financial goals and objectives.

Financial plans are based on your financial situation at the time we present the plan to you, and on the financial information you provide to our firm. You must promptly notify our firm if your financial situation, goals, objectives, or needs change.

You are under no obligation to act on our financial planning recommendations. Should you choose to act on any of our recommendations, you are not obligated to implement the financial plan through any of our other investment advisory services. Moreover, you may act on our recommendations by placing securities transactions with any brokerage firm.

We charge either a fixed fee ranging from \$5,000 to \$12,000 or an hourly fee ranging \$200 to \$300 for financial planning services. The fee is negotiable depending upon the complexity and scope of the plan, your financial situation, and your objectives. We require that you pay 50% of the fee in advance and the remaining portion upon the completion of the services rendered. We will not require prepayment of a fee more than six months in advance and in excess of \$1,200.

You may terminate the financial planning agreement by providing written notice to our firm. You will incur a pro rata charge for services rendered prior to the termination of the agreement. If you have pre-paid advisory fees that we have not yet earned, you will receive a prorated refund of those fees.

Portfolio Management Services

We offer discretionary and non-discretionary portfolio management services. Our investment advice is tailored to meet our clients’ needs and investment objectives. If you retain our firm for portfolio management services, we will meet with you to determine your investment objectives, risk tolerance, and other relevant information (the “suitability information”) at the beginning of our advisory relationship. We will use the suitability information we gather to develop a strategy that enables our firm to give you continuous and focused investment advice and/or to make investments on your behalf. Once we construct an investment portfolio for you, we will monitor

your portfolio's performance on an ongoing basis, and will rebalance the portfolio as required by changes in market conditions and in your financial circumstances.

If you participate in our discretionary portfolio management services, we require you to grant our firm discretionary authority to manage your account. Discretionary authorization will allow our firm to determine the specific securities, and the amount of securities, to be purchased or sold for your account without your approval prior to each transaction. Discretionary authority is typically granted by the investment advisory agreement you sign with our firm, a power of attorney, or trading authorization forms. You may limit our discretionary authority (for example, limiting the types of securities that can be purchased for your account) by providing our firm with your restrictions and guidelines in writing. If you enter into non-discretionary arrangements with our firm, we must obtain your approval prior to executing any transactions on behalf of your account.

Our fee for portfolio management services is based on a percentage of your assets we manage and is set forth in the following fee schedule:

<u>PORTFOLIO</u>	<u>VALUE ANNUAL FEE</u>
up to \$250,000	0.90%
next \$250,000 (up to \$500,000)	0.85%
next \$500,000 (up to \$1,000,000)	0.80%
next \$1,000,000 (up to \$2,000,000)	0.65%
next \$3,000,000 (up to \$5,000,000)	0.50%
next \$5,000,000 (up to \$10,000,000)	0.40%
next \$10,000,000 (up to \$20,000,000)	0.30%
next \$20,000,000 (up to \$40,000,000)	0.25%
above \$40,000,000	0.20%

Our annual portfolio management fee is billed and payable quarterly in arrears based on the value of your account on the last trading day of the quarter. In some instances, we may charge quarterly in advance based on the value of your account on the last day of the previous quarter. All terms will be agreed upon and evidenced in our advisory agreement.

If the portfolio management agreement is executed at any time other than the first day of a calendar quarter, our fees will apply on a pro rata basis, which means that the advisory fee is payable in proportion to the number of days in the quarter for which you are a client. Our advisory fee is negotiable, depending on individual client circumstances.

You may make additions to and withdrawals from your account at any time, subject to our right to terminate an account. Where we charge our fees in advance, if assets are deposited into an account after the inception of a quarter that exceed \$100,000, the fee payable with respect to such assets will be prorated based on the number of days remaining in the quarter. You may withdraw account assets on notice to us, subject to the usual and customary securities settlement procedures. Where we charge our fees in advance, for partial withdrawals in excess of \$100,000 within a billing period, we will credit the unearned fee towards the next quarter's fee. However, we design our portfolios as long-term investments and assets withdrawals may impair the achievement of your investment objectives.

Additions may be in cash or securities provided that we reserve the right to liquidate any transferred securities, or decline to accept particular securities into a client's account. We may consult with you about the options and ramifications of transferring securities. However, clients are advised that when transferred securities are liquidated, they are subject to transaction fees, fees assessed at the mutual fund level (i.e. contingent deferred sales charge) and/or tax ramifications.

We will deduct our fee directly from your account through the qualified custodian holding your funds and securities. We will deduct our advisory fee only when you have given our firm written authorization permitting the fees to be paid directly from your account. Further, the qualified custodian will deliver an account statement to you at least quarterly. These account statements will show all disbursements from your account. You should

review all statements for accuracy.

We encourage you to review the statement(s) you receive from the qualified custodian. If you find any inaccurate information on the statement(s) you receive from the qualified custodian, please call our main office number located on the cover page of this Brochure.

You may terminate the portfolio management agreement upon written notice to our firm. You will incur a pro rata charge for services rendered prior to the termination of the portfolio management agreement, which means you will incur advisory fees only in proportion to the number of days in the quarter for which you are a client. If you have pre-paid advisory fees that we have not yet earned, you will receive a prorated refund of those fees.

Selection of Other Advisers

As part of our investment advisory services, we may recommend that you use the services of a third party investment adviser ("TPA") to manage your entire, or a portion of your, investment portfolio, such as Schwab, TD Ameritrade, SEI, or others. After gathering information about your financial situation and objectives, we will recommend that you engage a specific TPA or investment program. Factors that we take into consideration when making our recommendation(s) include, but are not limited to, the following: the TPA's performance, methods of analysis, fees, your financial needs, investment goals, risk tolerance, and investment objectives. We will monitor the TPA(s)' performance to ensure its management and investment style remains aligned with your investment goals and objectives.

We do charge you a separate fee for the selection of other advisers in addition to what you pay the TPA. The advisory fee you pay to the TPA is established and payable in accordance with the Brochure provided by each TPA to whom you are referred. These fees may or may not be negotiable.

You will be required to sign an agreement directly with the recommended TPA(s). You may terminate your advisory relationship with the TPA according to the terms of your agreement with the TPA. You should review each TPA's this Brochure for specific information on how you may terminate your advisory relationship with the TPA and how you may receive a refund, if applicable. You should contact the TPA directly for questions regarding your advisory agreement with the TPA.

Types of Investments

We offer advice on equity securities, warrants, corporate debt securities, commercial paper, certificates of deposit, municipal securities, investment company securities, and US Government securities.

Additionally, we may advise you on any type of investment that we deem appropriate based on your stated goals and objectives. We may also provide advice on any type of investment held in your portfolio at the inception of our advisory relationship.

You may request that we refrain from investing in particular securities or certain types of securities. You must provide these restrictions to our firm in writing.

Assets Under Management

As of December 31, 2010, we manage approximately \$122,845,414 in client assets on a discretionary basis. We currently do not have any assets under management on a non-discretionary basis.

Fees and Compensation

Form ADV Part 2A, Item 5

Please refer to the “Advisory Business” section in this Brochure for information on our advisory fees, fee deduction arrangements, and refund policy according to each service we offer.

Additional Fees and Expenses

As part of our investment advisory services to you, we may invest, or recommend that you invest, in mutual funds and exchange traded funds. The fees that you pay to our firm for investment advisory services are separate and distinct from the fees and expenses charged by mutual funds or exchange traded funds (described in each fund’s prospectus) to their shareholders. These fees will generally include a management fee and other fund expenses. You will also incur transaction charges and/or brokerage fees when purchasing or selling securities. These charges and fees are typically imposed by the broker-dealer or custodian through whom your account transactions are executed. We do not share in any portion of the brokerage fees/transaction charges imposed by the broker-dealer or custodian. To fully understand the total cost you will incur, you should review all the fees charged by mutual funds, exchange traded funds, our firm, and others. For information on our brokerage practices, please refer to the “Brokerage Practices” section of this Brochure.

Compensation for the Sale of Investment Products

Persons providing investment advice on behalf of our firm are licensed as independent insurance agents. These persons will earn commission-based compensation for selling insurance products, including insurance products they sell to you. Insurance commissions earned by these persons are separate and in addition to our advisory fees. This practice presents a conflict of interest because persons providing investment advice on behalf of our firm who are insurance agents have an incentive to recommend insurance products to you for the purpose of generating commissions rather than solely based on your needs. However, you are under no obligation, contractually or otherwise, to purchase insurance products through any person affiliated with our firm.

Performance-Based Fees and Side-By-Side Management

Form ADV Part 2A, Item 6

We do not accept performance-based fees or participate in side-by-side management. Side-by-side management refers to the practice of managing accounts that are charged performance-based fees while at the same time managing accounts that are not charged performance-based fees. Performance-based fees are fees that are based on a share of capital gains or capital appreciation of a client’s account. Our fees are calculated as described in the *Advisory Business* section above, and are not charged on the basis of a share of capital gains upon, or capital appreciation of, the funds in your advisory account.

Types of Clients

Form ADV Part 2A, Item 7

We offer investment advisory services to individuals, pension and profit sharing plans, trusts, estates, charitable organizations, corporations, and other business entities.

We do not impose a minimum portfolio size or minimum annual fee. However, certain TPAs (third party advisors) may, however, impose more restrictive account requirements and varying billing practices. In such instances, we may alter our corresponding account requirements and/or billing practices to accommodate those of the *TPA*.

Methods of Analysis, Investment Strategies and Risk of Loss

Form ADV Part 2A, Item 8

Our Methods of Analysis and Investment Strategies

We may use one or more of the following methods of analysis or investment strategies when providing investment advice to you:

- Fundamental Analysis – involves analyzing individual companies and their industry groups, such as a company's financial statements, details regarding the company's product line, the experience and expertise of the company's management, and the outlook for the company's industry. The resulting data is used to measure the true value of the company's stock compared to the current market value.
- Long Term Purchases – securities purchased with the expectation that the value of those securities will grow over a relatively long period of time, generally greater than one year.
- Short Term Purchases – securities purchased with the expectation that they will be sold within a relatively short period of time, generally less than one year, to take advantage of the securities' short-term price fluctuations.

Our investment strategies and advice may vary depending upon each client's specific financial situation. As such, we determine investments and allocations based upon your predefined objectives, risk tolerance, time horizon, financial horizon, financial information, liquidity needs, and other various suitability factors. Your restrictions and guidelines may affect the composition of your portfolio.

Client assets are advised using: Fundamental Analysis - The risk of fundamental analysis is that information obtained may be incorrect and the analysis may not provide an accurate estimate of earnings, which may be the basis for a stock's value. If securities prices adjust rapidly to new information, utilizing fundamental analysis may not result in favorable performance.

We will not perform quantitative or qualitative analysis of individual securities. Instead, we will advise you on how to allocate your assets among various classes of securities or third party investment advisers ("TPA"). We primarily rely on investment model portfolios and strategies developed by the TPA and their portfolio managers. We may recommend replacing a TPA if there is a significant deviation in characteristics or performance from the stated strategy and/or benchmark.

Our strategies and investments may have unique and significant tax implications. Some of our advisory clients may engage our Associated Persons, in their separate capacities as Certified Public Accountants, for tax advice. Unless we specifically agree otherwise, or you have a separate engagement with one of our

Associated Persons in their separate capacity as a Certified Public Accountant, tax implications might not be our primary consideration in the management of your assets.

Moreover, as a result of revised IRS regulations, custodians and broker-dealers will begin reporting the cost basis of equities acquired in client accounts on or after January 1, 2011. Your custodian will default to the FIFO accounting method for calculating the cost basis of your investments. You are responsible for contacting your tax advisor to determine if this accounting method is the right choice for you. If your tax advisor believes another accounting method is more advantageous, please provide written notice to our firm immediately and we will alert your account custodian of your individually selected accounting method. Please note that decisions about cost basis accounting methods will need to be made before trades settle, as the cost basis method cannot be changed after settlement.

Risk of Loss

Investing in securities involves risk of loss that you should be prepared to bear. We do not represent or guarantee that our services or methods of analysis can or will predict future results, successfully identify market tops or bottoms, or insulate clients from losses due to market corrections or declines. We cannot offer any guarantees or promises that your financial goals and objectives will be met. Past performance is in no way an indication of future performance.

Recommendation of Particular Types of Securities

As disclosed under the "Advisory Business" section in this Brochure, we recommend all types of securities and we do not necessarily recommend one particular type of security over another since each client has different needs and different tolerance for risk. Each type of security has its own unique set of risks associated with it and it would not be possible to list here all of the specific risks of every type of investment. Even within the same type of investment, risks can vary widely. However, in very general terms, the higher the anticipated return of an investment, the higher the risk of loss associated with it.

There are numerous ways of measuring the risk of equity securities (also known simply as "equities" or "stock"). In very broad terms, the value of a stock depends on the financial health of the company issuing it. However, stock prices can be affected by many other factors including, but not limited to: the class of stock (for example, preferred or common); the health of the market sector of the issuing company; and, the overall health of the economy. In general, larger, better established companies ("large cap") tend to be safer than smaller start-up companies ("small cap") but the mere size of an issuer is not, by itself, an indicator of the safety of the investment.

Corporate debt securities (or "bonds") are typically safer investments than equity securities, but their risk can also vary widely based on: the financial health of the issuer; the risk that the issuer might default; when the bond is set to mature; and, whether or not the bond can be "called" prior to maturity. When a bond is called, it may not be possible to replace it with a bond of equal character paying the same interest rate.

Municipal securities, while generally thought of as safe, can have significant risks associated with them including, but not limited to: the credit worthiness of the governmental entity that issues the bond; the stability of the revenue stream that's used to pay the dividends; when the bond is set to mature; and, whether or not the bond can be "called" prior to maturity. When a bond is called, it may not be possible to replace it with a bond of equal character paying the same dividend.

Certificates of deposit are generally the safest type of investment since they are insured by the federal government. However, because the returns are generally very low, it's possible for inflation to outpace the return. Likewise, US Government securities are backed by the full faith and credit of the United States government but it's also possible for the rate of inflation to exceed the returns.

Mutual funds and exchange traded funds (ETFs) are professionally managed collective investment systems that pool money from many investors and invest in stocks, bonds, short-term money market instruments, other mutual funds, other securities or any combination thereof. The fund will have a manager that trades the fund's investments in accordance with the fund's investment objective. While mutual funds and ETFs generally provide diversification, risks can be significantly increased if the fund is concentrated in a particular sector of

the market, primarily invests in small cap or speculative companies, uses leverage (i.e., borrows money) to a significant degree, or concentrates in a particular type of security (i.e., equities) rather than balancing the fund with different types of securities. ETFs differ from mutual funds since they can be bought and sold throughout the day like stock and their price can fluctuate throughout the day. The returns on mutual funds and ETFs can be reduced by the costs to manage the funds. Also, while some mutual funds are “no load” and charge no fee to buy into, or sell out of, the fund other types of mutual funds do charge such fees which can also reduce returns. Mutual funds can also be “closed end” or “open end”. So-called “open end” mutual funds continue to allow in new investors indefinitely which can dilute other investors’ interests.

Disciplinary Information

Form ADV Part 2A, Item 9

Comprehensive Wealth Solutions, LLC has been registered and providing investment advisory services since 2004. Neither our firm nor any of our associated persons has any reportable disciplinary information.

Other Financial Industry Activities and Affiliations

Form ADV Part 2A, Item 10

Our Associated Persons, in their individual capacities, may also be licensed insurance agents, and in such capacity, may recommend, the purchase of certain insurance products. These persons will earn commission-based compensation for selling insurance products, including insurance products they sell to you. Insurance commissions earned by these persons are separate from our advisory fees. Please see the “Fees and Compensation” section in this Brochure for more information on the compensation received by insurance agents who are affiliated with our firm.

Associated persons of our firm may also be certified public accountants. If you require accounting services, we will recommend that you use these persons for accounting and/or tax services. Our advisory services are separate and distinct from the compensation paid to these persons for their accounting and/or tax services.

Our Associated Persons, in their individual capacities, may also be affiliated with the EverBank Advisor Program offered by EverBank, a federal savings association (“EverBank”). If these persons recommend that you use EverBank for banking services, they may receive compensation. A conflict of interest exists to the extent that we recommend the purchase of banking products or services where our Associated Persons receive commissions or other additional compensation.

These referral arrangements present a conflict of interest because we may have a financial incentive to recommend these services. While we believe that compensation charged are competitive, such compensation may be higher than fees charged by other firms providing the same or similar services. You are under no obligation to use these referred services and may obtain comparable services and/or lower fees through other firms.

Recommendation of Other Advisers

We may recommend that you use a third party adviser (“TPA”) based on your needs and suitability. We do not receive compensation from the TPA for recommending that you use their services. We may, however, receive soft dollars, such as research, which presents a conflict of interest because we have a financial incentive to recommend the services of the third party adviser. You are not obligated, contractually or otherwise, to use the services of any TPA we recommend.

Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Form ADV Part 2A, Item 11

Description of Our Code of Ethics

We strive to comply with applicable laws and regulations governing our practices. Therefore, our Code of Ethics includes guidelines for professional standards of conduct for our Associated Persons. Our goal is to protect your interests at all times and to demonstrate our commitment to our fiduciary duties of honesty, good faith, and fair dealing with you. All of our Associated Persons are expected to adhere strictly to these guidelines. Our Code of Ethics also requires that certain persons associated with our firm submit reports of their personal account holdings and transactions to a qualified representative of our firm who will review these reports on a periodic basis. Persons associated with our firm are also required to report any violations of our Code of Ethics. Additionally, we maintain and enforce written policies reasonably designed to prevent the misuse or dissemination of material, non-public information about you or your account holdings by persons associated with our firm.

Our Code of Ethics is available to clients and prospective clients upon request. You may obtain a copy of our Code of Ethics by calling our main number located on the cover of this Brochure.

Participation or Interest in Client Transactions

Neither our firm nor any of our Associated Persons has any material financial interest in client transactions beyond the provision of investment advisory services as disclosed in this Brochure.

Personal Trading Practices

Our firm or persons associated with our firm may buy or sell the same securities that we recommend to you or securities in which you are already invested. A conflict of interest exists in such cases because we have the ability to trade ahead of you and potentially receive more favorable prices than you will receive. To mitigate this conflict of interest, it is our policy that neither our Associated Persons nor we shall have priority over your account in the purchase or sale of securities.

Brokerage Practices

Form ADV Part 2A, Item 12

We maintain relationships with several broker-dealers; however, we will not make a specific brokerage recommendation to our clients. Where we provide independent asset management services, we will endeavor to assist clients in selecting those brokers or dealers that will provide the best services at the lowest commission rates possible. The reasonableness of commissions is based on several factors, including the broker's ability to provide professional services, competitive commission rates, volume discounts, execution price negotiations, the broker's reputation, experience and financial stability of the broker or dealer, and the quality of service rendered by the broker or dealer in other transactions.

Best execution is not measured solely by reference to commission rates. Paying a broker a higher commission rate than another broker might charge is permissible if the difference in cost is reasonably justified by the quality of the brokerage services offered. We do not obligate ourselves to seek the lowest transaction charges in all cases except to the extent that it contributes to the overall goal of obtaining the best results for your account. It is expected that our firm will receive some economic benefits, for example, research and access to investment consultants, from various full service and discount brokers in connection with utilizing their brokerage services.

Directed Brokerage

We routinely recommend that you direct our firm to execute transactions through a particular broker-dealer. As such, we may be unable to achieve the most favorable execution of your transactions and you may pay higher brokerage commissions than you might otherwise pay through another broker-dealer that offers the same types of services. Not all advisers require their clients to direct brokerage.

In limited circumstances, and at our discretion, some clients may instruct our firm to use one or more particular brokers for the transactions in their accounts. This practice may prevent our firm from obtaining favorable net price and execution. Thus, when directing brokerage business, you should consider whether the commission expenses, execution, clearance, and settlement capabilities that you will obtain through your broker are adequately favorable in comparison to those that we would otherwise obtain for you.

Block Trades

We do not combine multiple orders for shares of the same securities purchased for advisory accounts we manage (the practice of combining multiple orders for shares of the same securities is commonly referred to as "block trading"). Accordingly, you may pay different prices for the same securities transactions than other clients pay. Furthermore, we may not be able to buy and sell the same quantities of securities for you and you may pay higher commissions, fees, and/or transaction costs than other clients.

Review of Accounts

Form ADV Part 2A, Item 13

We monitor your accounts on a periodic basis and will conduct account reviews at least annually to ensure the advisory services provided to you are consistent with your stated investment needs and objectives. Additional reviews may be conducted based on various circumstances, including, but not limited to:

- contributions and withdrawals,
- year-end tax planning,
- market moving events,
- security specific events, and/or,
- changes in your risk/return objectives.

Such reviews are typically conducted by our principal owner, Gary L. Dennis. In some cases, Mr. Dennis may delegate this responsibility to an Associated Person to review your account. All investment advisory clients are encouraged to discuss their needs, goals, and objectives with us and to keep us informed of any changes. We contact ongoing investment advisory clients at least annually to review our previous services and/or recommendations and to discuss the impact resulting from any changes in your financial situation and/or investment objectives.

We will not provide you with additional or regular written reports in conjunction with account reviews.

We will review your investment account(s) or your financial plan only at your request. Otherwise, we do not review or monitor your investment account(s), review your financial plan, or review statements you receive from your third-party money manager or account custodian. At your request, we may meet with you and/or your third-party money manager(s) to discuss asset allocation, but we will not make recommendations regarding specific investments or provide any regular written reports to you.

Client Referrals and Other Compensation

Form ADV Part 2A, Item 14

We do not receive any compensation from any third party in connection with providing investment advice to you nor do we compensate any individual or firm for client referrals.

Please refer to the *Brokerage Practices* section above for disclosures on research and other benefits we may receive resulting from our relationship with the Custodian of your account.

Associated Persons who provide investment advice on behalf of our firm may also be licensed insurance agents. These individuals will receive commission based income on the sale of insurance related products. For information on the conflicts of interest this presents, and how we address these conflicts, please refer to the *Fees and Compensation* section above.

Custody

Form ADV Part 2A, Item 15

We directly debit your account(s) for the payment of our advisory fees. This ability to deduct our advisory fees from your accounts causes our firm to exercise limited custody over your funds or securities. We do not have physical custody of any of your funds and/or securities. Your funds and securities will be held with a bank, broker-dealer, or other independent, qualified custodian. You will receive account statements from the independent, qualified custodian(s) holding your funds and securities at least quarterly. The account statements from your custodian(s) will indicate the amount of our advisory fees deducted from your account(s) each billing period. You should carefully review account statements for accuracy.

Investment Discretion

Form ADV Part 2A, Item 16

Before we can buy or sell securities on your behalf, you must first sign our discretionary management agreement.

You may grant our firm discretion over the selection and amount of securities to be purchased or sold for your account(s) without obtaining your consent or approval prior to each transaction. You may specify investment objectives, guidelines, and/or impose certain conditions or investment parameters for your account(s). For example, you may specify that the investment in any particular stock or industry should not exceed specified percentages of the value of the portfolio and/or restrictions or prohibitions of transactions in the securities of a specific industry or security. Please refer to the "Advisory Business" section in this Brochure for more information on our discretionary management services.

If you enter into non-discretionary arrangements with our firm, we will obtain your approval prior to the execution of any transactions for your account(s).

Voting Client Securities

Form ADV Part 2A, Item 17

Without exception, we will not vote proxies on behalf of your advisory accounts. At your request, we may offer you advice regarding corporate actions and the exercise of your proxy voting rights.

Financial Information

Form ADV Part 2A, Item 18

We are not required to provide financial information to our clients because we do not:

- require the prepayment of more than \$1,200 in fees and six or more months in advance, or
- take custody of client funds or securities, or
- have a financial condition that is reasonably likely to impair our ability to meet our commitments to you.

Additional Information

Your Privacy

We view protecting your private information as a top priority. Pursuant to applicable privacy requirements, we have instituted policies and procedures to ensure that we keep your personal information private and secure.

We do not disclose any nonpublic personal information about you to any nonaffiliated third parties, except as permitted by law. In the course of servicing your account, we may share some information with our service providers, such as transfer agents, custodians, broker-dealers, accountants, consultants, and attorneys.

We restrict internal access to nonpublic personal information about you to employees, who need that information in order to provide products or services to you. We maintain physical and procedural safeguards that comply with regulatory standards to guard your nonpublic personal information and to ensure our integrity and confidentiality. We will not sell information about you or your accounts to anyone. We do not share your information unless it is required to process a transaction, at your request, or required by law.

You will receive a copy of our privacy notice prior to or at the time you sign an advisory agreement with our firm. Thereafter, we will deliver a copy of the current privacy policy notice to you on an annual basis. Please contact us if you have any questions regarding this policy.

Trade Errors

In the event a trading error occurs in your account, our policy is to restore your account to the position it should have been in had the trading error not occurred. Depending on the circumstances, corrective actions may include canceling the trade, adjusting an allocation, and/or reimbursing the account.
