This Brochure provides information about the qualifications and business practices of Horwitz and Associates, Inc. (“Horwitz and Associates” or “Horwitz”). If you have any questions about the contents of this Brochure, please contact us at 224-632-4600, via email at info@horwitzco.com, or visit our website at www.horwitzco.com. The information in this Brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

Horwitz and Associates is a registered investment adviser. Registration of an Investment Adviser does not imply any level of skill or training. The oral and written communications of an Adviser are intended to provide you with information about which you determine to hire or retain an Adviser.

Additional information about Horwitz and Associates is also available on the SEC’s website at www.adviserinfo.sec.gov.

Item 2 – Material Changes

Effective June 6, 2012, Penson Financial Services (Penson Financial) transferred correspondent and customer accounts to newly-formed Apex Clearing (Apex). For all intents and purposes, Apex Clearing provides nearly the same clearing, execution and settlement services that Penson Financial previously provided.

Horwitz & Associates, Inc. (Horwitz) no longer utilizes Mesirow Financial for execution of orders nor custody of client assets.

No other material changes occurred between July 1, 2011 – June 30, 2012.

In the past we have offered or delivered information about our qualifications and business practices to clients on at least an annual basis. Pursuant to new SEC Rules, we will ensure that you receive a summary of any materials changes to this and subsequent Brochures within 120 days of the close of our business' fiscal year, which is June 30. We may further provide other ongoing disclosure information about material changes as necessary.

We will further provide you with a new Brochure or Supplements as necessary based on material changes or new information, at any time, without charge.

Currently, our Brochure may be requested by contacting Joseph Lasquite at 224-632-4600. Our Brochure is also available on our web site www.horwitzco.com, also free of charge.

Additional information about Horwitz and Associates is also available via the SEC's web site www.adviserinfo.sec.gov. The SEC's web site also provides information about any persons affiliated with Horwitz and Associates who are registered, or are required to be registered, as investment adviser representatives of Horwitz and Associates.

Item 4 – Advisory Business

Horwitz & Associates Investment Management

Established in 1971, Horwitz & Associates provides investment advice and portfolio management services on a continuing basis - including an appropriate allocation of managed assets among cash money market funds, equity, and bonds - with the selection of specific securities, which will provide proper diversification and help meet the client's stated investment objectives. Gerald Horwitz and Roberta Horwitz each own over 25% of Horwitz and Associates through its parent company, Raffaello Inc.

These services include the evaluation, design, construction, implementation, and monitoring of investment portfolios. Assets are allocated among appropriate investment categories in accordance with the client's financial objectives, liquidity constraints, expected time horizon, risk tolerance, and tax considerations as well as prevailing economic conditions and any other relevant factors. Existing assets are evaluated and appropriate hold or sell recommendations are made.

Horwitz maintains a Limited Power of Attorney and/or Trading Authority for all discretionary accounts for the purposes of directing and/or otherwise effecting investments on behalf of the managed account as well as for the direct payment of Horwitz's fees and/or payment of commissions, custodial fees and/or other charges incurred by the managed account.

Clients receive consolidated reports periodically (monthly, quarterly, or annually, depending on client's preference) that illustrate investment performance, current market values, and asset allocation. Clients may also receive upon request monthly, quarterly, semi-annual or annual personal review of their portfolio. Monthly statements are also archived and available online through the firm's website (www.horwitzco.com) As of June 1, 2012, Horwitz and Associates in its' Wrap program, has approximately \$104,000,000 under management.

Horwitz and Associates also offers comprehensive fee-based financial planning. The planning process involves six steps:

- Identifying and Prioritizing Objectives
- Gathering Information
- Analyzing Information
- Developing a Plan which includes Proposing Recommendations
- Implementing the Plan
- Tracking Plan Progress

Item 5 – Fees and Compensation

Fees for ongoing asset monitoring are generated based on a percentage range of 1.00% to 2.0% of portfolio assets. Fees are calculated by multiplying the assets under management by the relevant percent and dividing such product by four (4). The extent of monitoring services and all fees are agreed upon in writing prior to engagement. Monitoring fees are payable quarterly, in advance and such fees may be deducted from client's account(s). All fees may be negotiable under certain circumstances. Monitoring services may be terminated by either party at any time for any reason.

Any unearned fees are refunded on a pro-rate basis less reasonable startup costs.

In addition to the wrap fee, the client may be charged incidental fees by the custodian.

To the extent mutual funds are selected by the sub-manager to fill components of the overall investment strategy, the annual advisory fee set forth above does not include the customary fees and expenses associated with investing in mutual funds or other costs of establishing and maintaining an account with mutual funds including Rule 12b-1 fees and expenses. The client is advised that, in addition to the annual

advisory fee set forth above, each mutual fund in which assets are invested will incur separate investment advisory fees and other expenses for which Client will bear a proportionate share.

The relationship between the parties may be terminated by either party upon 30 days written notice. Notwithstanding the above, if the appropriate disclosure statement was not delivered to the client at least 48 hours prior to the client entering into any written or oral advisory contract with this investment adviser, then the client has the right to terminate the contract, without a penalty, within five (5) business days after entering into the contract.

In other cases, clients may opt to pay a fixed fee for review of their account, rebalancing, tax and estate planning. These services are performed on a non-discretionary basis. The fee for selection and monitoring services will be one of the following:

1. Hourly charge between \$100 to \$250 per hour as mutually agreed upon with the client.
2. Fixed fee as mutually agreed upon with client. The fee will be based on a number of factors including scope of services and other relevant factors. Fees for these services are payable quarterly in advance. Charges for fee-based financial planning range from \$500-\$2,000, depending on the complexity of the case.

Item 6 – Performance-Based Fees and Side-By-Side Management

Horwitz and Associates does not charge performance-based fees.

Item 7 – Types of Clients

Horwitz and Associates may provide portfolio management services to individuals, high net worth individuals, trusts, corporate pension and profit-sharing plans, Taft-Hartley plans, charitable institutions, foundations, endowments, municipalities, banking institutions, registered mutual funds, private investment funds, trust programs, and other institutions.

Item 8 – Methods of Analysis, Investment Strategies and Risk of Loss

Horwitz and Associates may use Charting, as well as Fundamental, Technical and Cyclical analysis. Investing in securities involves risk of loss that clients should be prepared to bear.

Horwitz and Associates runs two portfolios:

Horwitz & Associates, Inc. Growth Portfolio and Horwitz & Associates Conservative Portfolio

Horwitz & Associates, Inc., designs Growth Portfolios for investors who are willing to take on risk to achieve a potentially higher rate of return, by diversifying into companies that are considered in the forefront of their industry. The portfolio is comprised of a mixture between stocks, bonds, cash or money market funds. A typical portfolio may have a high-percentage of weight in stocks depending on the client's risk tolerance, market conditions, and other factors. When appropriate, covered call options are written on the equities in the portfolio and other put and call option strategies may be utilized. Our focus and area of expertise is in community bank and financial stocks. The remainder of the equity portion is invested in companies with historically consistent earnings growth in expanding industries. The focus of the equity portion is on companies that have a unique "niche" and/or have market leadership. A portion of the portfolio may be comprised of high-grade and/or situational bonds.

Horwitz & Associates, Inc., designs Conservative Portfolios structured for investors desiring a goal for preservation of capital with relatively lower risk. The portfolio is comprised of a mixture between stocks, bonds, cash or money market funds. A typical portfolio is balanced between stocks and bonds based on a client's risk tolerance, market conditions, and other factors. When appropriate, covered call options are

written on the equities in the portfolio. Our focus and area of expertise is in community bank and financial stocks. The remainder of the equity portion is invested in companies with historically consistent earnings growth and dividends; the fixed income portion of the portfolio may be comprised of high-grade and/or situational bonds.

Process

Every financial advisor has an investment process, but not every investment process is as unique as ours. At Horwitz & Associates, Inc. our process is everything: creating a balanced portfolio and following a proven investment strategy. Our process can produce more dependable results for investors over the long term. We know because we have been investing this way over 40 years—for our customers and clients as well as for ourselves.

Ideas

We differ from other investment advisers. We do not follow hundreds of stocks or buy the “flavor of the month”. We do not buy stocks or bonds that we do not intend to keep. We INVEST. There is a limited universe of companies we know intimately; some companies we call and talk to their upper management. At Horwitz & Associates, we examine things you won’t find on a spreadsheet—intangibles such as solid management, a promising product launch, key personnel changes and business trends—to name a few.

Analysis

We evaluate each opportunity from the bottom up and from the top down. When practical, we tour a business’ operations. We understand what they do. We ask the hard questions. And we get those questions answered by top management. Then, we determine a stock’s suitability for inclusion in the Horwitz & Associates, Inc. Growth or Conservative portfolio.

Selection

Horwitz & Associates, Inc. Growth Portfolio looks to determine a firm’s growth potential: companies with predictable revenue streams, growing and defensible margins, and improving efficiencies. The Horwitz & Associates, Inc. Conservative Portfolio considers factors such as a company’s ongoing and/or increasing dividends, stability, and sustainability of revenue streams. Essentially, we buy what we know works. We build our portfolios from a universe of approximately 50 stocks. A model portfolio would be managed with fixed income plus a portion in equities. Up to 20% of the equity portion is typically invested in banks or financial-related companies. The remainder of the equity portion is invested in stocks with more recognizable brand names. We write covered call options against those positions, helping to mitigate risk and to generate cash flow. Each portfolio’s fixed income portion consists of top-rated and/or situational bonds. In unique circumstances, we construct hybrid portfolios: customized portfolios that may include securities you already own.

Portfolio Construction

Investment decisions that we make take into consideration how a particular security will affect the overall portfolio. We assess its potential for growth and/or income, the security’s impact on overall portfolio risk, and possible tax consequences. We may sell a security because a company’s fundamentals have changed. But our investment process never ends with a decision to sell—or to buy. Whether we own, sell, or choose not to purchase a particular investment in our limited universe of stocks and bonds, we keep the equities we know on our radar screen.

Investing for the Long Term

At Horwitz & Associates, Inc. our focus is always on you, the investor. We believe in the creation and growth of long-term relationships. And our approach to investing uses that same perspective.

Horwitz & Associates Rules of Investing:

- Buy and hold good stocks and quality bonds
- Use options to mitigate risk

-
- Do the research to uncover hidden opportunities
 - Rigorously analyze and discern the “big picture”
 - Assess each investment’s potential for growth and/or income, overall impact on portfolio risk, and possible tax consequences
 - Continuity and commitment to our strategy
 - Maintain a long-term perspective
 - Keep costs among the lowest and provide best-in-class wealth management services

A significant part of our strategy may involve covered call writing. A covered call is a financial market transaction in which the seller of call options owns the corresponding amount of the underlying instrument, such as shares of a stock or other securities. Writing a call generates income in the form of the premium paid by the option buyer. If the stock price remains stable or increases, then the writer will be able to keep this income as a profit, although the profit may have been higher if no call were written. The risk of stock ownership is not eliminated. If the stock price declines, then the net position will likely lose money.

Item 9 – Disciplinary Information

Horwitz and Associates has no information applicable to this Item.

Item 10 – Other Financial Industry Activities and Affiliations

Principal Business Activities of Horwitz & Associates, Inc.

Horwitz and Associates (Horwitz) is registered as a broker/dealer with the U.S. Securities & Exchange Commission and various state jurisdictions, and is a member of the Financial Industry Regulatory Authority and the Municipal Securities Rulemaking Board. As such, Horwitz may execute trades on behalf of the client's advisory account.

Horwitz – the broker/dealer - may be used to execute portfolio transactions for investment advisory clients of Horwitz. These transactions will be conducted subject to proper, and customary, disclosure including (but not limited to) compensation received by Horwitz and its registered representatives. Compensation will be received by Horwitz, as a broker dealer, when portfolio transactions are effected on behalf of investment advisory clients. Gerald Horwitz and/or Edward Horwitz and / or other registered representatives may receive compensation as a result of acting in one or both capacities.

It is generally anticipated that Horwitz will be designated by the client as the broker-dealer for the execution of securities transactions, which are directed by Horwitz. To the extent that it is, Horwitz will seek to obtain the best combination of price and execution for such transactions; however, lower commissions or better execution may be available elsewhere, for example, by the execution of the transaction through a so called “discount broker.”

Additionally, Horwitz, as a broker-dealer, may buy securities for itself from, or sell securities it owns to clients of Horwitz, at which time commissions and or other markups/markdowns may be charged to those clients.

If an investment advisory client utilizes Horwitz as the broker-dealer, Horwitz’s selection of money market mutual funds or comparable investments in which to hold cash reserves in the client’s account will be limited to certain investments. The selection includes money market, municipal money market and government money-market funds, and the issuers of funds pay Horwitz a distribution fee in its capacity as a broker-dealer. This compensation is in addition to other fees, etc. received from client accounts. Horwitz’s registered representatives may also receive additional compensation based on client account balances being held in the money-market funds (“trailers”). Additionally, cash balances arising from the sales of securities, redemption

of debt securities, dividend and interest payments and funds received from clients may be invested/swept automatically on a daily basis. When securities are sold, funds are deposited on settlement date. Funds placed in a client's account by personal check usually will not be invested until the next business day following the day that the deposit is credited to the client's account. Where an unaffiliated broker-dealer or other entity acts as custodian of the client's account assets, Horwitz will have no control over the manner in which the cash reserves will be handled. The client and/or custodian will make that determination.

Based upon the similarity of investments among client accounts having similar investment objectives, and the fact that Horwitz may direct the purchase of securities for more than one account simultaneously, and the possible appearance of similarity in the treatment of clients, all client accounts are handled under the following basic conditions, designed to prevent pooling of assets and/or the management of accounts on a de facto pooled basis, resulting in the existence of an investment company. The custody of accounts held by the custodian on behalf of Horwitz is structured such that each client's securities are held in nominee name only for ministerial purposes and each client's account is maintained as a separate account. The client's beneficial interest in a security does not represent an undivided interest in all the securities held by the custodian, but rather represents a direct and beneficial interest in the client's securities in the account.

Further, each client retains any and all rights afforded under the federal securities laws to proceed directly against the issuer of any underlying security in the client's account. Each client may withdraw, hypothecate, vote or pledge securities in their account upon notice to Horwitz and each client has the authority to instruct Horwitz in directing the purchase of certain securities through Horwitz that might otherwise be purchased in the client's account. At least annually, customer objectives are reviewed with the client and holdings reviewed with respect to keeping in line with those objectives.

Sale of Other Products and Services – Certain associated persons of Horwitz are licensed insurance brokers, and as such, do on occasion sell insurance products to the clients of Horwitz. The amount of time spent on these activities is no more than two (2%) percent.

Item 11 – Code of Ethics

Horwitz has adopted a Code of Ethics to ensure that securities transactions by Horwitz employees are consistent with Horwitz's fiduciary duty to its clients and to ensure compliance with legal and regulatory requirements and the firm's standards of business conduct.

The principals and employees of the firm are permitted to invest in the same securities that the firm recommends to clients. They may recommend to clients or may buy and sell securities for client accounts at or about the same time that they buy or sell in their own account. This creates a conflict of interest because the principals and employees of the firm may have an incentive to execute their orders in front of client orders. To mitigate this conflict, employees are not permitted to enter buy or sell orders in the same or similar securities contemporaneously with client orders.

Horwitz requires transaction confirmation and quarterly reporting.

A written copy of Horwitz's Code of Ethics is available upon request.

Item 12 – Brokerage Practices

Horwitz and Associates does not participate in any soft dollar arrangements with any broker dealer in connection with client securities transactions.

Horwitz will supervise and direct the investments of the client accounts subject to such limitations as the client may impose in writing. Horwitz, as agent and attorney-in-fact with respect to the client's account,

without prior consultation with the client, may place orders for the execution of such securities transactions with Horwitz or other third party broker/dealers. Horwitz will allocate brokerage transactions in a manner it believes to be fair and responsible to its clients, and consistent with client objectives. Adhering to a strict formula will not be practicable given the variation in client objectives and guidelines.

Horwitz may place orders for the execution of transactions with JPMorgan Clearing Corp., Apex Clearing, or Horwitz may select another broker/dealer, and while complying with Section 28(e) of the Securities Exchange Act of 1934. Horwitz suggests that its clients utilize Horwitz whereby Horwitz clears securities transactions on a fully disclosed basis through J. P. Morgan Clearing Corp. and Apex Clearing as an introducing broker. Further, JPMorgan Clearing Corp. and Apex hold all customer funds and/or securities on behalf of Horwitz's brokerage customers for purposes of the Securities Investor Protection Act. Any research and recommendations provided by the executing and clearing broker is used to service all accounts.

Item 13 – Review of Accounts

Horwitz & Associates, Inc., as investment advisor, reviews all investment advisory accounts. Changes in market prices, interest rates, news stories, earning reports, etc., that are deemed to have an effect on a client account would initiate a review of the account. All investment advisory accounts are reviewed at least monthly by Gerald Horwitz, Chief Executive Officer, Ed Horwitz, President, or Joseph Ogrin, Chief Compliance Officer.

Clients receive statements from the custodian of assets at least quarterly, or monthly, if there is activity in the account. (See Item 15 on Custody) Clients may give written request to receive their statements and trade confirmations electronically from the custodian.

Item 14 – Client Referrals and Other Compensation

Horwitz and Associates does not have any arrangements, oral or in writing, where it is paid cash by or receives some economic benefit (including commissions, equipment or non-research services) from a non-client in connection with giving advice to clients.

Horwitz and Associates does not directly or indirectly compensate any person for client referrals.

Item 15 – Custody

All investment advisory clients receive at least one report per month that details transactions, lists all security positions, realized and unrealized gains or losses. Clients receive various performance data quarterly. These reports enable the client to review and audit the performance of their investment advisory account.

Clients receive consolidated reports from Horwitz monthly, quarterly, or annually (depending on client's preference) that illustrate investment performance, current market values, and asset allocation.

Clients will also receive statements at least quarterly from: Apex Clearing and/or JPMorgan Clearing Corp. In addition, clients have the ability to access their account information online at any time.

Horwitz and Associates urges you to carefully review such statements and compare such official custodial records to the account statements that we may provide to you. Our statements may vary from custodial statements based on accounting procedures, reporting dates, pricing sources, or valuation methodologies of certain securities.

Item 16 – Investment Discretion

Horwitz will supervise and direct the investments of the client accounts subject to such limitations as the client may impose in writing. Horwitz, as agent and attorney-in-fact with respect to the client's account, without prior consultation with the client, may, (a) direct the purchase, sell, exchange, conversion, and otherwise trade in stocks, bonds and other securities including money market instruments, (b) direct the amount of securities purchased, sold, exchanged, and otherwise traded.

Item 17 – Voting Client Securities

As a matter of firm policy and practice, Horwitz and Associates does not have any authority to and does not vote proxies on behalf of advisory clients. Clients retain the responsibility for receiving and voting proxies for any and all securities maintained in client portfolios. Horwitz and Associates may provide advice to clients regarding the clients' voting of proxies.

Item 18 – Financial Information

Registered investment advisers are required in this Item to provide you with certain financial information or disclosures about Horwitz and Associates' financial condition. Horwitz and Associates has no financial commitment that impairs its ability to meet contractual and fiduciary commitments to clients, and has not been the subject of a bankruptcy proceeding.

Part 2B of Form ADV: Brochure Supplement

Education and Business Standards

Horwitz generally requires associated persons to have a college degree or several years of related experience, all required industry licenses, high standards of morals and ethics and a commitment to providing quality investment advice.

This brochure supplements the Horwitz & Associates, Inc. Firm Brochure. You should have received a copy of that brochure. Please contact us at 224-632-4600 if you did not receive a Firm Brochure.

Part 2B of Form ADV: Brochure Supplement

Addition of Charles Schwab & Co., Inc. as Custodian (September 2012)

Horwitz & Associates (Horwitz) may recommend that clients establish brokerage accounts with the Schwab Advisor Services division of Charles Schwab & Co., Inc. (Schwab), a registered broker-dealer, member SIPC, to maintain custody of clients' assets and to execute trades for their accounts. The final decision to custody assets with Schwab is at the discretion of the Advisor's clients, including those accounts under ERISA or IRA rules and regulations, in which case the client is acting as either the plan sponsor or IRA accountholder.

Horwitz is independently owned and operated and not affiliated with Schwab. Schwab provides Horwitz with access to its institutional trading and custody services, which are typically not available to Schwab retail investors. These services generally are available to independent investment advisors on an unsolicited basis, at no charge to them so long as a total of at least \$10 million of the advisor's clients' assets are maintained in accounts at Schwab Institutional. Schwab's services include brokerage services that are related to the execution of securities transactions, custody, research, including that in the form of advice, analyses and reports, and access to mutual funds and other investments that are otherwise generally available only to institutional investors or would require a significantly higher minimum initial investment.

For Horwitz client accounts maintained in its custody, Schwab generally does not charge separately for custody services but is compensated by account holders through commissions or other transaction-related or asset-based fees for securities trades that are executed through Schwab or that settle into Schwab accounts.

Schwab also makes available to Horwitz other products and services that benefit Horwitz but may not benefit its clients' accounts. These benefits may include national, regional or Horwitz-specific educational events organized and/or sponsored by Schwab Institutional. Other potential benefits may include occasional business entertainment of personnel of Horwitz by Schwab Advisor Services personnel, some of which may accompany educational opportunities. Other of these products and services assist Horwitz in managing and administering clients' accounts. These include software and other technology (and related technological training) that provide access to client account data (such as trade confirmations and account statements), facilitate trade execution (and allocation of aggregated trade orders for multiple client accounts), provide research, pricing information and other market data, facilitate payment of Horwitz's fees from its clients' accounts, and assist with back-office training and support functions, recordkeeping and client reporting. Many of these services generally may be used to service all or some substantial number of Horwitz accounts, including accounts not maintained at Schwab Institutional. Schwab Institutional also makes available to Horwitz other services intended to help Horwitz manage and further develop its business enterprise. These services may include professional compliance, legal and business consulting, publications and conferences on practice management, information technology, business succession, regulatory compliance, employee benefits providers, human capital consultants, insurance and marketing. In addition, Schwab may make available, arrange and/or pay vendors for these types of services rendered to Horwitz by independent third parties. Schwab Institutional may discount or waive fees it would otherwise charge for some of these services or pay all or a part of the fees of a third-party providing these services to Horwitz. While, as a fiduciary, Horwitz endeavors to act in its clients' best interests, Horwitz's recommendation that clients maintain their assets in accounts at Schwab may be based in part on the benefit to Horwitz of the availability of some of the foregoing products and services and other arrangements and not solely on the nature, cost or quality of custody and brokerage services provided by Schwab, which may create a potential conflict of interest.

Please review Item 12 – Brokerage Practices, and Item 15 – Custody, of the most current Form ADV Brochure for further information pertaining to this Supplement.
