Citigroup Global Markets Inc. Investment Advisory Products

This brochure provides clients with information about Citigroup Global Markets Inc. and the following investment management, consulting and monitoring programs and services it offers to clients of Citi Private Bank – a business of Citigroup Inc. that provides clients access to products and services worldwide through bank and non-bank affiliates:

- Manager Selection Program
- Citi ETF Program
- Dynamic Allocation Portfolios – UMA Program
- Consulting and Evaluation Services Program
- Fiduciary Asset Management Program
- Investment Advisory Services Program
- Legg Mason Private Portfolios Program
- Umbrella Portfolios Investment Management Program
- The Tailored Portfolios Groupsm Program

This brochure provides information about the qualifications and business practices of Citigroup Global Markets Inc. If you have any questions about the contents of this brochure, please contact us at 212-816-6000 or www.privatebank.citibank.com. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission (“SEC”) or by any state securities authority.

Additional information about Citigroup Global Markets Inc. also is available on the SEC’s website at www.adviserinfo.sec.gov.

YOU SHOULD READ AND CONSIDER CAREFULLY THE INFORMATION CONTAINED IN THIS BROCHURE BEFORE RETAINING CITIGROUP GLOBAL MARKETS INC. TO PROVIDE ANY OF THE SERVICES DESCRIBED. THIS INFORMATION HAS NOT BEEN APPROVED OR VERIFIED BY ANY GOVERNMENTAL AUTHORITY.

Where we refer to ourselves as a “registered investment adviser” or “registered”, that registration does not imply a certain level of skill or training.

© 2012 “Citi Private Bank” is a business of Citigroup Inc. (“Citigroup”) which provides its clients access to a broad array of products and services available through bank and non-bank affiliates of Citigroup. Not all products and services are provided by all affiliates or are available at all locations. In the U.S., brokerage products and services are provided by Citigroup Global Markets Inc. (“CGMI”), member SIPC. Accounts carried by Pershing LLC, member FINRA, NYSE, SIPC. CGMI and Citibank, N.A. (“Citibank”) are affiliated companies under the common control of Citigroup. Outside the U.S. brokerage products and services are provided by other Citigroup affiliates. Investment management services (including portfolio management) are available through CGMI, Citibank and other affiliated advisory businesses. Citi and Citi with Arc Design are registered service marks of Citigroup or its affiliates, and are used and registered throughout the world.

INVESTMENT PRODUCTS: NOT FDIC INSURED • NO BANK GUARANTEE • MAY LOSE VALUE

ITEM 2. MATERIAL CHANGES

Since our annual update filed on March 31, 2011, the following material changes were made to the brochure.

Item 1 (Cover Page) – We have updated our address.

Item 4A.4 and Item 6.A – We have updated the discussion on the evaluation of exchange traded funds (“ETFs”) that are available in various advisory programs. All ETFs recommended in the advisory programs described in this brochure must comply with Citigroup’s “Investment Products Risk Procedures Regarding the Solicitation of Exchange Traded Products” policy (“IPR Policy”). ETFs will not be evaluated under the CitiAccess List or CitiFocus List standards. The Manager Selection Committee will select a subset of ETFs (from the universe of screened ETFs complying with the IPR Policy) that are eligible for inclusion in the applicable advisory programs. CPB (either directly or indirectly through CGMI) will select the actual ETF for inclusion in the client portfolio. Exchange traded notes generally are not eligible.

Item 4A.4 – The Global Portfolio Committee reviews and considers asset allocations for applicable advisory programs at least on a quarterly basis. We have clarified that the Global Portfolio Committee does not generally review each client portfolio asset allocation individually.

Item 4A.4 – The Investment Advisory Services Program has been updated to provide that fees may be either asset-based or fixed, depending on the particular client. The Consulting and Evaluation Services Program has been updated to provide that CPB may recommend investment managers that employ a “self-liquidating portfolio” strategy.

Item 4A.4 and 4A.5 – In cases where Citibank acts as an overlay manager and an investment manager communicates instructions to Citibank with respect to a client account trade after the investment manager has filled the same trade order for its other clients, CPB client account may not receive as favorable price as would be the case if the trade had been made at the same time that the investment manager placed orders for its other clients. This may negatively impact the performance of CPB client account. We have clarified that CPB is beginning a process to periodically monitor an investment manager’s performance in a particular style compared to the performance of CPB accounts (managed in accordance with that manager’s instructions for that style) designed to detect material differences in performance, if any.

Item 4A.4 – *Umbrella Portfolios Investment Management Program; The Tailored Portfolios Groups Program – Tailored Discretionary Portfolios; The Tailored Portfolios Groups Program – Global Discretionary Portfolios/Plus.* For most eligible clients in these programs, assets in the alternative investment asset allocation category will be invested in a private investment fund of funds vehicle advised by an affiliate of CPB. However, in such cases, clients will not bear any additional management fee payable to the affiliated adviser.

Item 4A.5 – We have clarified that we do not provide margin loans that may increase performance (with the resulting increased risk of loss) of client’s account. “Non-Purpose Loans” are permitted. Non-Purpose Loans are loans secured by assets in client’s account but which cannot to be used to purchase, carry or trade in securities or to repay debt incurred through the purchase of securities.

Item 9A.1 – We have updated the disciplinary events for CGMI to include the following:

Pending SEC Claim Related to Collateralized Debt Obligation

On October 19, 2011, the SEC brought a civil action in the U.S. District Court for the Southern District of New York (“Court”) against CGMI in connection with the role of CGMI, along with certain of its affiliates (together “Citi”) in the structuring and marketing of a largely synthetic collateralized debt obligation (“CDO”) whose investment portfolio consisted primarily of credit default swaps referencing other CDO securities with collateral consisting primarily of residential mortgage-backed securities. The complaint alleged that the marketing materials for the CDO were materially misleading because they suggested that Citi was acting in the traditional role of an arranging bank, when in fact Citi had allegedly exercised influence over the selection of the assets and had retained a proprietary short position of the assets it had helped select, which gave Citi allegedly undisclosed economic interests adverse to those of the investors in the CDO. On October 14, 2011, the SEC

and CGMI entered into a consent agreement settling this action. The consent agreement required the issuance of an injunction against CGMI from violating Sections 17(a)(2) and (3) of the Securities Act; imposition of liability on CGMI for payment of disgorgement of \$160 million with prejudgment interest thereon in the amount of \$30 million, and a civil penalty in the amount of \$95 million; and CGMI's compliance with certain undertakings. In an order issued on October 27, 2011, the Court ordered to convene a hearing on November 9, 2011 to ascertain whether the proposed judgment is fair, reasonable, adequate, and in the public interest. The SEC and CGMI submitted memorandums responding to the questions set forth by the Court. On November 28, 2011, the Court issued an opinion and order refusing to approve the proposed consent agreement, consolidating this case with the action of an ex-employee of CGMI, and directing the parties to be ready to try the case on July 16, 2012. As of the date of preparing this disclosure statement, this matter is still pending.

FINRA Settlement Related to Municipal Securities Transactions

On November 7, 2011, without admitting or denying the allegations, CGMI consented to a fine of \$75,000, a censure, and a certain undertaking with FINRA in connection with municipal securities transactions. FINRA alleged that CGMI failed to establish and maintain a supervisory system and to adopt, maintain, and enforce written supervisory procedures reasonably designed to achieve compliance with the disclosure requirements for municipal securities transactions in violation of Municipal Securities Regulation Board Rule G-27.

FINRA Settlement Related to Email Retention

On December 2, 2011, CGMI entered into a settlement with FINRA relating to failure to retain emails during an upgrade of its email archiving system. CGMI consented to a censure and a monetary fine of \$750,000 without admitting or denying the findings. FINRA alleged that during the period from October 21, 2008 to December 26, 2009, CGMI failed (i) to retain millions of emails, including emails not retained that potentially impacted its ability to respond to email requests in FINRA investigations and other matters; and (ii) to establish and maintain appropriate systems and procedures reasonably designed to achieve compliance with the applicable recordkeeping rules and detect and remedy deficiencies in its email retention systems.

FINRA Inquiry Into to Research Disclosures

On January 18, 2012, CGMI resolved a FINRA inquiry into CGMI research disclosures. Without admitting or denying the findings contained therein, CGMI consented to a censure and a monetary fine of \$725,000. Specifically, FINRA alleged that: (a) during at least January 2007 through March 2010, largely as the result of programming and technical errors and deficiencies, CGMI failed to make required disclosures in its research reports and in connection with research analysts' public appearances; (b) CGMI had inadequate systems to determine that its disclosure management system contained all accurate and current information, including information from third-party and internal sources, necessary to formulate required disclosures; (c) CGMI's supervisory system was not reasonably designed to detect that the firm was not populating its research reports with required disclosures; and (d) CGMI was not complying with certain undertakings pursuant to an earlier NASD settlement in 2006.

FINRA Settlement Related to Non-Traditional ETFs

On May 1, 2012, CGMI entered into a settlement with FINRA regarding the sale of leveraged, inverse, and inverse-leveraged exchange-traded funds ("Non-Traditional ETFs"). FINRA alleged that, during January 2008 through June of 2009, (i) CGMI failed to establish and maintain a reasonable supervisory system, including written procedures, in connection with the sale of Non-Traditional ETFs and to provide adequate formal training and guidance to its registered representatives and supervisors regarding Non-Traditional ETFs; and (ii) certain registered representatives made unsuitable recommendations of Non-Traditional ETFs to certain customers with a conservative investment objective or risk file. Without an adjudication of any issues of law or fact and without admitting or denying the findings, CGMI consented to a censure, a fine of \$2 million, and a restitution of \$146,431.

FINRA Settlement Related to Inaccurate Performance Data

On May 22, 2012, CGMI entered into a settlement with FINRA relating to CGMI's role in the provision of performance data related to mortgage securitizations. FINRA alleged that from January 2006 through October 2007, CGMI posted inaccurate performance data and static pool information to the Reg AB website of Citigroup Inc. (an indirect 100% owner of CGMI) in connection with numerous securitizations, and CGMI failed to establish and maintain effective supervisory and operational policies and procedures regarding these

issues. FINRA further alleged that inaccurate data remained on the Citigroup Reg AB website through May 2012. In addition, FINRA alleged that during July through September 2007, CGMI failed (a) to establish and maintain sufficient supervisory policies and procedures addressing independent price verification of Level 3 collateralized debt obligation securities, and to document price verification for such securities; (b) to include certain securities for which no price change had occurred over several days on an internal “stale price report”; (c) to supervise and sufficiently document certain re-pricings of securities held on margin that led to revised margin calls; and (d) to supervise and sufficiently document the application of “margin haircuts” to collateral outside of haircut ranges reflected in CGMI’s guidance. CGMI, without admitting or denying the findings, consented to a censure and a fine in the amount of \$3,500,000.

Massachusetts Settlement Related to Research

On October 26, 2012, CGMI entered into a settlement with the Commonwealth of Massachusetts Securities Division (“MSD”). As part of that settlement, CGMI consented to an order, with allegations and findings that it neither admitted nor denied, that it violated Massachusetts laws by failing to: (i) prevent or detect the written disclosure of material, non-public research information in a restricted period prior to the Facebook initial public offering; (ii) detect prohibited research analyst disclosures via emails; and (iii) prevent or detect written disclosure of material non-public research. As part of the order, CGMI agreed to permanently cease and desist from violating the laws of the State of Massachusetts, be censured by the MSD, pay a civil penalty in the amount of \$2,000,000, and perform undertakings involving the review written supervisory policies and procedures related to Citigroup Investment Research (“CIR”) electronic surveillance program and enhance training provided to certain CIR personnel.

Item 9B.3 – We have added the following disclosure regarding payment for order flow.

The SEC requires that all registered broker-dealers disclose their policies regarding receipt of “payment for order flow.” The SEC defines “payment for order flow” as “any monetary payment, service, property, or other benefit that results in remuneration, compensation or consideration to a broker or dealer from any broker or dealer, national securities exchange, registered securities association or exchange member in return for the routing of customer orders by such broker or dealer to any broker or dealer, national securities exchange, registered securities association or exchange member for execution, including but not limited to: research, clearance, custody, products or services; reciprocal agreements for the provision of order flow; adjustment of a broker or dealer’s unfavorable trading errors; offers to participate as underwriter in public offerings; stock loans or shared interest accrued thereon; discounts, rebates or any other reductions of or credits against any fee to, or expense or other financial obligation of, the broker or dealer routing a customer order that exceeds that fee, expenses or financial obligation.”

Pursuant to certain arrangements entered into with Clearing Firm, it is contemplated that Clearing Firm may route certain customer order flow to CGMI. When CGMI executes orders, CGMI may receive payment for order flow from one or more of the New York, American, Boston, Pacific and Philadelphia Stock Exchanges; unaffiliated specialist units on certain of these exchanges; the National Association of Securities Dealers Automated Quotation System (“Nasdaq”), Nasdaq market makers and Electronic Communications Networks. These payments may take the form of rebates, volume discounts or reciprocal agreements to provide order flow.

CGMI performs regular reviews of the execution quality of the market centers that are available to receive customer order flow. When executing trades routed to it by Clearing Firm or for customers who do not specify the particular market center on which they want their trade executed, such orders are systemically routed to market centers that, based on this review, CGMI believes are likely to match or improve the national best bid or offer for the particular stock ordered.

Clearing Firm maintains its own policy regarding payment for order flow, which can be found on the back of the periodic customer statements sent by Clearing Firm.

Part 2B: Brochure Supplements – We have updated the brochure supplements of supervised persons who have discretionary authority over client assets even if they do not have direct client contact in connection with the investment advisory programs they service. The update reflects mainly personnel changes.

ITEM 4. SERVICES, FEES & COMPENSATION

A.1. Introduction

Citigroup Global Markets Inc. (“CGMI”) provides a variety of services designed to meet the varying investment advisory and related needs of individual and institutional clients. Each program described in this brochure is offered to clients of Citi Private Bank (“CPB”), a business of Citibank, N.A. (“Citibank”) and an affiliate of CGMI that provides clients access to products and services worldwide through bank and non-bank affiliates. Citibank is a national banking association supervised and examined by the Office of the Comptroller of the Currency and exempt from registration as an investment adviser under the Investment Advisers Act of 1940, as amended (the “Advisers Act”), and its overseas branches and subsidiaries are also subject to supervision and examination by the U.S. Federal Reserve and the UK Financial Services Authority and other local regulators. Citibank and CGMI are subsidiaries of Citigroup Inc. (“Citigroup”). Each program described in this brochure offers some or all of the following services: selection of, or assistance in selecting, investment manager(s); ongoing evaluation and review of certain investment manager(s); ongoing evaluation and review of certain mutual funds and exchange traded funds or notes; evaluation and review of the composition of selected portfolios; discretionary portfolio management; custody; execution; implementation services; and reports of activity in a client’s account.

In certain programs, clients may have their assets managed by one or more investment managers. Information about each investment manager is in a separate investment manager brochure either provided to the client or available upon request through a client’s CPB adviser who is an Investment Advisor Representative of CGMI (“Private Banker”).

Clients should read and consider carefully the information contained in both this brochure and any relevant investment manager brochure. While CGMI believes that its professional investment advice can work to benefit many clients, there is no assurance that the objectives of any client in any of the programs described will be achieved.

A.2. CGMI’s Advisory Services

CPB offers single-style accounts and multiple-styles within one account. CPB recommends and employs various investment strategies in providing investment management services, depending upon the services to be rendered and the objectives and guidelines of the client. The investment strategies may involve long-term or short-term purchases, trading, and margin transactions. Not all of these strategies are appropriate for all clients, however, and only those strategies believed to be suitable will be used in any given client account or advisory program. Each portfolio is personalized but there may be a substantial degree of uniformity in client portfolios as a result of the common investment objectives of the clients participating in the various programs.

Each of CPB’s and its affiliates’ advisory programs may be based on different methodology, and as a result, asset allocation or investment recommendations may differ among programs.

CPB’s investment management services generally rely on fundamental analysis with supplemental technical analysis, which may include charting or cyclical review. Computer technology may be employed to more readily display these factors to portfolio managers. Information is derived from many sources. Personnel involved in providing investment advisory services have access to CGMI’s research facilities as well as CGMI’s and its affiliates’ economists and specialists in all major industry groups. Information may be obtained from various other sources including financial publications (including newspapers, research reports, the internet and magazines); industrial manuals and publications; inspections of corporate activities; direct contact with and press releases and other reports released by companies; annual reports, prospectuses and filings made with the Securities and Exchange Commission (“SEC”); research materials prepared by others; governmental reports; timing services; and corporate rating services. CPB and its affiliates at times may not be free to divulge such information to investment advisory clients or act upon it on their behalf.

Additionally, CPB and its affiliates provide certain advisory services for compensation to various collective funds available to clients of its affiliated trust companies.

A.3. Clearing and Custody Services

Pershing LLC together with certain of its affiliates (“Pershing” or “Clearing Firm”) acts as clearing firm in connection with certain of the advisory programs described herein. In its capacity as clearing firm, Pershing may provide a variety of services for your advisory program, which may include, but are not limited to, performing certain custody services, settling transactions, sending trade confirmations, account statements and tax reporting documentation, and providing other operational account-related services. Clearing Firm will not, however, provide (and should not be construed as providing) you with any investment advice for any reason in connection with your advisory program. In connection with certain advisory programs described herein, Citibank, as a qualified custodian will maintain custody of client assets. In limited circumstances, an unaffiliated third-party qualified custodian may maintain custody of client assets.

CGMI and CPB reserve the right at any time, and without notice to clients, to terminate the delegation of some or all of these services and to assume the performance of some or all of these services itself in place of Clearing Firm.

A.4. Types of Advisory Services Offered

An investment in any program described in this brochure is speculative and involves the risk of loss of capital. No guarantee or representation is made that any such program or any underlying investment purchased in connection with such program will achieve its investment objectives or be able to avoid losses. The past performance of a program or any underlying investment purchased in connection with such program is not necessarily indicative of future performance. Neither CPB nor any of its affiliates makes any representations or warranties in this brochure with respect to the present or future level of risk or volatility in any program or investment, or any program's or investment's future performance or activities.

Manager Selection Program

In Manager Selection Program ("MSP"), CPB (acting either directly or through CGMI or an affiliate) retains investment managers to manage client accounts within a certain investment strategy. Citibank maintains custody of assets with respect to client accounts, but will generally open an account with Clearing Firm on behalf of each client, whereby Clearing Firm will provide certain of the custody services. Both CGMI and Clearing Firm provide trade execution and related services.

Within MSP, clients may generally invest in equity, balanced and multi-style portfolios, or fixed income portfolios. The minimum account size for clients investing in MSP is generally \$500,000. However, certain investment managers, firms and investment styles may require different minimums. Many of the investment managers CPB (acting either directly or through CGMI or an affiliate) may retain for MSP clients are otherwise available only to clients with significantly greater assets to invest.

Services Provided

In MSP, Clients work with their Private Banker to establish the investment objectives for each of their accounts. As part of this process, an investment suitability form is completed with respect to each client. CPB analyzes a client's investment objectives and retains (either directly or through CGMI or an affiliate) on the client's behalf one or more investment managers to manage assets in accordance with those objectives. Each investment manager would be responsible for a separate account. The client enters into an investment advisory agreement with CPB whereby the client (i) provides CPB with the discretion to retain one or more investment managers on the client's behalf and (ii) appoints any such investment manager retained by CPB as an investment adviser to the client with discretion to select securities and investments for the client. In the investment advisory agreement, the client authorizes each investment manager, as investment adviser to the client, to exercise the foregoing discretion by either (i) implementing investment decisions directly or (ii) in certain circumstances that are reviewed by CPB, retaining another investment adviser (a registered investment adviser or bank, both affiliated and non-affiliated) to implement the investment decisions. CPB (or an affiliate) separately contracts with each investment manager participating in MSP as to the terms of such investment manager's participation in MSP.

Although clients are not prohibited from directly contacting an investment manager retained by CPB to manage client accounts, clients are encouraged to use their Private Banker as their primary contact.

Evaluation and Selection of Investment Managers

CPB will recommend one or more investment managers to serve as investment advisers of client accounts, based on each client's objectives and circumstances. The actual selection of an investment manager is entirely up to the client. CPB recommends only investment managers that have been evaluated and reviewed by CGMI or an affiliate (or a third party retained by CGMI or an affiliate), as described in "Item 6A—Research in Advisory Programs," and in the multi-style product, only investment managers who are capable of managing blended portfolios within a single account.

Investment managers must be reviewed and evaluated, meeting either the "CitiFocus List" or "CitiAccess List" standard (as defined in "Item 6A—Research in Advisory Programs"), to be eligible to be an investment manager in MSP.

In the event of a Downgrade (as defined in "Item 6A—Research in Advisory Programs"), where an investment manager no longer meets the CitiFocus List or CitiAccess List standards, either (i) a replacement manager will be selected by client (or, if client fails to select a replacement manager, by CPB) from recommendations provided by CGMI, or (ii) client's investment advisory agreement with CPB will automatically terminate upon a date selected by CPB and communicated to client with reasonable advance notice. In the event client wishes to continue to retain an investment manager subject to a Downgrade, CPB will (a) make no further representations concerning such investment manager, (b) not assume any further liability for any loss, claim, damage or expense attributable to client's determination and (c) not continue to evaluate or make any representations regarding the competence of such investment manager.

CGMI also maintains a “Watch” policy for investment managers in MSP. CGMI’s Watch policy is more fully described in “Item 6A–Research in Advisory Programs.” A Watch status may, but is not certain to, result in a Downgrade of the investment manager’s recommended status.

Account Information

CPB (either directly, through Clearing Firm or a third party vendor) confirms all transactions executed through CGMI or Clearing Firm and provides account statements at least quarterly. Clients also receive periodically a “Performance Review,” which is a statistical review and analysis of the account. Clients may elect to waive the receipt of trade confirmations after the completion of each trade in favor of incorporation into client account statements. Clients may also receive mutual fund prospectuses, where appropriate.

In MSP, a client may request in writing that certain specified securities or a category of securities not be purchased or sold for an account. CPB may reject any restriction it believes it may not be able to effectively implement or monitor. This will impact the performance of the account relative to an account that is fully invested in securities. Such request will be communicated to each investment manager, and each investment manager will determine in its sole discretion the specific securities that will be treated as falling within the restricted category. In making this determination, the investment managers may rely on outside sources, such as standard industry codes and research furnished by independent service providers.

Fees

MSP is available only on the basis of an asset-based fee paid to CPB. The fee includes fees or charges of CPB and its affiliates and Clearing Firm (including brokerage commissions, investment manager fees and custodial charges), except for (i) fees or charges for services provided by CPB, its affiliates, Clearing Firm or third parties which are outside the scope of MSP, (ii) charges, taxes, legal and other expenses associated with MSP and client accounts arising under the laws of any relevant jurisdiction, (iii) brokerage commissions and other fees and charges imposed because an investment manager chooses to effect securities transactions with or through a broker-dealer other than CGMI or Clearing Firm, and (iv) certain other fees and charges described herein (see “Item 4C–Additional Information Regarding Fees and Charges”). Transactions in fixed income and certain other securities generally involve the payment of mark-ups or mark-downs or other charges to dealers other than CGMI or Clearing Firm in addition to the asset-based fees. The standard annual fees are as follows:

Manager Selection Program

Equity, Balanced and Multi-Style Accounts

Assets	Annual Fee
First \$500,000	3.00%
Next \$500,000	2.20%
Next \$1 million	1.90%
Over \$2 million	1.70%

Fixed Income Accounts

Assets	Annual Fee
First \$500,000	1.25%
Next \$500,000	1.00%
Next \$1 million	0.85%
Over \$2 million	0.75%

CPB will be entitled to a minimum annual fee of \$1,500 for equity, balanced and multi-style portfolios, and \$1,250 for fixed income portfolios. In addition, the client will bear a proportionate share of the fees and expenses incurred by any mutual funds in which the client is invested. The prospectus of each of these mutual funds describes these internal fees and expenses in detail. For more information relating to fees, see “Item 4C–Additional Information Regarding Fees and Charges” and “Item 9B.1–Compensation from Funds.”

Fees are negotiable based on a number of factors, which may result in a particular client paying a fee greater or lesser than the standard fees. Fees are generally payable quarterly in advance. The portion of the asset-based fee paid by CPB (either directly or through CGMI or an affiliate) to investment managers depends upon the asset class, the investment style and the total amount of assets allocated to the investment manager in MSP. CPB generally pays its investment managers based on the following table:

Investment Styles

All Cap, Large Cap,
Large Cap Balanced,
Convertible Securities,
Real Estate Investment Trusts (REITs)

Mid Cap

Annual MSP Fee

Between 0.34% and 0.50%

Between 0.40% and 0.55%

Multi-Style	Between 0.39% and 0.47%
Small Cap	Between 0.40% and 0.55%
Small/Mid Cap	
Fixed Income	Between 0.18% and 0.35%
Global, International or Emerging Markets, Non Diversified Portfolios	Between 0.36% and 0.48%

The investment manager fees listed herein are subject to change without notice. In the case of equity, balanced and multi-style portfolios, CPB segregates 0.45% of the fee which is charged to clients, or in the case of fixed income portfolios, 0.30% of the fee, and applies all or a portion of it to the asset-based fee paid to investment managers. When CPB's payment to an investment manager is less than the segregated amount (0.45% or 0.30%, respectively), CPB retains a larger portion of the fee charged to clients. Thus, CPB has an incentive to recommend investment managers that are paid less, because it will retain a higher fee. When CPB's payment is greater than the segregated amount, CPB supports the fee to the investment manager and in effect retains a lesser portion of the fee charged to clients. No portion of the segregated amount is paid to Private Bankers, who therefore have no direct financial incentive to recommend one investment manager over another investment manager that offers the same investment style. However, Private Bankers' compensation is directly affected by the size of the client's annual fee. Therefore Private Bankers may have an incentive to recommend equity, balanced and multi-style portfolios over fixed income portfolios since the former have higher standard annual fees than the latter.

Citi ETF Program

NOTE: This program is not currently open to new clients. Should you be interested in a managed account program with features similar to this program, please consult your Private Banker.

The Citi ETF Program ("Citi ETF") is a discretionary, multiple discipline managed account program that combines exchange traded funds ("ETFs") with active asset allocation advice. The minimum account size for a Citi ETF account is generally \$25,000.

Services Provided

CPB (either directly or through CGMI) assists the client in the establishment and/or review of investment objectives and/or risk profile and/or investment model for each client account. Based upon CPB's review and evaluation of the client's investment objectives, CPB (either directly or through CGMI) and the client shall select a portfolio. A portfolio is a multi-style investment approach that allocates assets in the account to specific investment strategies using ETFs.

The Global Portfolio Committee ("GPC") of the Tailored Portfolio Group ("TPG"), a business unit of Citibank and an affiliate of CGMI, is responsible for setting the asset allocation of each portfolio, and adjusting the asset allocation from time to time as the GPC deems appropriate. Specifically, the GPC allocates each portfolio in varying percentages among various asset allocation categories and classes. The asset allocation categories and classes utilized by the GPC are subject to change.

Each of the available portfolios will represent a different asset allocation appropriate for a different investment objective/risk tolerance. All asset allocations established from time to time for a portfolio are developed by first starting with a traditional baseline determined to be appropriate based on the relevant investment objective/risk tolerance. Then, strategic asset allocation concepts are applied by looking ahead ten (10) years to determine how each asset class should be weighted in the portfolio to reflect its long-term economic and market forecast. Finally, tactical asset allocation concepts are applied by looking ahead three (3) to twelve (12) months to determine how to shift asset allocation weightings to reflect short-term economic and market forecasts. The asset allocations established reflect many variables. CPB and its affiliates may offer other investment management and other programs which may be based on different methodologies than Citi ETF and which might result in different asset allocations, asset classes or investments than Citi ETF.

The GPC reviews and considers the asset allocations at least quarterly. In unusual market or economic circumstances, the GPC may adjust asset allocations more frequently than quarterly. If the GPC determines that the asset allocation should not be changed, the GPC may leave the asset allocation unchanged for as long as the GPC deems appropriate. Typically, the GPC will change the asset allocation several times per year. Changes in the asset allocation will likely result in transactions in a client portfolio, and these transactions could have tax consequences for a client account.

In accordance with Client's investment objectives, CPB is specifically granted investment discretion to invest and reinvest the proceeds in the portfolio in ETFs. Unless otherwise specified, Citibank will maintain custody of the assets held in an account but will open an account with Clearing Firm on client's behalf, whereby Clearing Firm will perform certain of the custody services provided in connection with Citi ETF. Both CGMI and Clearing Firm may provide execution and related

services.

The Overlay Manager provides administrative, management and/or technical services designed to implement investment decisions on clients' behalf. Such services will include investing and re-investing all of the assets in a portfolio and implementing investment decisions made by CPB (either directly or through CGMI). For further information regarding the operations of the Overlay Manager, see "Item 4A.5–*Execution of Transactions when Citibank is the Overlay Manager*," "Item 4A.5–*Citibank Role as Overlay Manager*," and "Item 4A.5–*Aggregation of Trade Orders; Trade Allocation; and Restrictions when Citibank is the Overlay Manager*."

CPB (either directly or through CGMI) may change available ETFs in a portfolio in its sole discretion at any time and for any reason. In addition, in the event of a disruption, CPB (either directly or through CGMI) may liquidate a portfolio (in whole or in part), and invest the proceeds in money market funds or other cash equivalents. This may result in tax consequences (capital gains) for the client. Before a new portfolio is selected for a client, CPB will generally attempt to notify the client orally or in writing. It is understood, however, that CPB need not seek or obtain a client's concurrence if it has been unable to obtain oral or written direction from such client regarding the change in a portfolio. Client may also request in writing or verbally that a new portfolio be selected for the client, and CPB (either directly or through CGMI) will implement that change as soon as is reasonably practicable.

Investment Product Selection

Each ETF shall be selected from the universe of ETFs that have been screened and determined to comply with Citigroup's "Investment Products Risk Procedures Regarding the Solicitation of Exchange Traded Products" policy ("IPR Policy"). See "Item 6A–*Research in Advisory Programs*".

In exercising its discretion in Citi ETF, CPB and its affiliates have established the Manager Selection Committee (the "MSC") to select (from the universe of ETFs complying with the IPR Policy) a subset of ETFs eligible for inclusion in the program. CPB (either directly or through CGMI) selects the actual ETFs for inclusion in a client's portfolio from the subset. The MSC has established various criteria that are used to screen affiliated and unaffiliated ETFs. These criteria are subject to change from time to time. In addition, the MSC may utilize the services of an independent consulting firm in the business of evaluating the capabilities of ETFs to assist in the ETF selection process.

CPB (either directly or through CGMI) may select an ETF for an asset class within a portfolio that invests in securities outside of such asset class so long as the MSC determines that such ETF's primary focus is on securities within such asset class. In terms of performance criteria, an ETF's performance generally will be assessed versus a performance benchmark for the relevant asset class and versus other ETFs in the asset class for consistency of performance and style. In terms of qualitative criteria, the MSC, in general, seeks to select ETFs that have stable investment teams, as evidenced by low staff turn-over rates and a well-defined investment management philosophy and process.

CPB (either directly or through CGMI) undertakes periodic reviews of a broad range of factors to determine whether each ETF remains appropriate for clients given their selected portfolio. Factors considered include investment performance, staffing, operational and compliance issues and financial condition. CPB (either directly or through CGMI) also considers as a factor, whether the ETF continues to satisfy the criteria that it applies in determining whether to include an ETF in a portfolio in the first instance.

Account Information

CPB (either directly, through Clearing Firm or a third party vendor) confirms all transactions executed through CGMI or Clearing Firm and provides account statements at least quarterly. Clients also receive periodically a "Performance Review," which is a statistical review and analysis of the account. Clients may elect to waive the receipt of trade confirmations after the completion of each trade in favor of incorporation into client account statements. Clients may also receive ETF and mutual fund prospectuses, where appropriate.

In Citi ETF, client may request in writing that certain specified ETFs or certain categories of ETFs not be purchased for a client portfolio. CPB may reject any restriction it believes it may not be able to effectively implement or monitor. If an ETF or category of ETFs is restricted, the portion of the account that would have been invested in the ETF or categories of ETFs will be invested in cash equivalents or short-term fixed income instruments at the discretion of CPB (either directly or through CGMI). Investment in cash equivalents or short-term fixed income instruments pursuant to such a restriction will impact the performance of the account relative to an account that is fully invested in ETFs. Because ETFs are pooled investment vehicles, it will not be possible for CPB to accommodate requests for restrictions on individual securities.

Fees

The client pays an asset-based fee to CPB, which includes fees or charges of CPB and its affiliates and Clearing Firm

(including brokerage commissions for trades executed at CGMI or Clearing Firm, compensation to any applicable Private Banker, custodial charges, and the fee services provided by the Overlay Manager), except for (i) fees or charges for services provided by CPB, its affiliates, Clearing Firm or third parties which are outside the scope of Citi ETF, (ii) charges, taxes, legal and other expenses associated with Citi ETF and client accounts arising under the laws of any relevant jurisdiction, (iii) brokerage commissions and other fees and/or charges imposed because an investment manager chooses to effect securities transactions with or through a broker-dealer other than CGMI or Clearing Firm, and (iv) certain other fees and charges described herein (see “Item 4C–Additional Information Regarding Fees and Charges”). In addition to the fee, each account will pay its proportionate share of the fees and expenses incurred by any mutual funds or ETFs in which the account is invested. See “Item 4C–Additional Information Regarding Fees and Charges.” The standard annual fee for Citi ETF is as follows:

Citi ETF Program

Assets	Annual Fee
First \$250,000	2.00%
Next \$250,000	1.75%
Next \$500,000	1.50%
Next \$1,000,000	1.25%
Next \$3,000,000	1.00%
Next \$2,500,000	0.75%
Over \$7,500,000	0.50%

Fees are negotiable based on a number of factors, which may result in a particular client paying a fee greater or less than the standard fees. Fees are generally payable quarterly in advance.

Dynamic Allocation Portfolios – UMA Program

The Dynamic Allocation Portfolios – UMA Program (“DAP”) is a “Unified Managed Account” program. In DAP, CPB acts as an investment adviser, assisting clients in establishing and/or reviewing investment objectives and selecting a portfolio. The portfolio is generally implemented by the Overlay Manager, and is comprised of some or all of the following: (i) mutual funds; (ii) ETFs; (iii) securities which the Overlay Manager shall invest in based on a model portfolio provided by one or more investment managers; and/or (iv) securities which an investment manager shall invest in based on its own investment decisions. See “Item 4A.5–Execution of Transactions when Citibank is the Overlay Manager,” “Item 4A.5–Citibank Role as Overlay Manager,” and “Item 4A.5–Aggregation of Trade Orders; Trade Allocation; and Restrictions when Citibank is the Overlay Manager” for more information on portfolio implementation and overlay services provided by the Overlay Manager. The minimum account size for DAP is generally \$25,000.

Services Provided

CPB or an affiliate, if applicable, assists the client in the establishment and/or review of investment objectives for each account through the use of a questionnaire and suitability form. Based on a review and evaluation of the client’s investment objectives, CPB or an affiliate, if applicable, and the client shall select a portfolio. A portfolio is a multi-style investment approach that allocates assets in the client account to specific investment strategies. In order to construct the portfolio, CPB or an affiliate, if applicable, and the client will select an asset allocation investment model (a “Model”). The Model will be either (i) a Model selected by the client from among investment models pre-defined by CPB or an affiliate (referred to herein as a “pre-defined” Model, where each such pre-defined Model will represent a different asset allocation appropriate for a different investment objective/risk tolerance) or (ii) a Model defined by client (referred to herein as a “custom” Model, where the Model will be comprised of one or more asset classes). With respect to portfolio construction, CPB will offer one or more of each of the following investment products for each asset class included in a Model: mutual funds, ETFs and/or investment managers (i.e., separate managed accounts for which investment managers either provide the Overlay Manager with a model portfolio or implement investment decisions directly). Citibank will maintain custody of the assets held in an account but will open an account with Clearing Firm on client’s behalf, whereby Clearing Firm will perform certain of the custody services provided in connection with DAP. Both CGMI and Clearing Firm may provide execution and related services.

Pre-Defined Model

In the event that client has selected a pre-defined Model, client may generally choose to adopt a “tactical” or “strategic” version of the Model (as described below, the “strategic” version of the Model is not available in all cases). In such an event, the GPC of TPG is responsible for setting the asset allocation of each Model, and adjusting the asset allocation from time to

time as the GPC deems appropriate. Specifically, the GPC allocates each Model in varying percentages among various asset allocation categories and classes. Currently, asset allocation categories and classes are as follows: (i) cash and short term investments, including cash equivalents, (ii) fixed income investments, including short term municipal debt, municipal bonds, U.S. bonds, high yield/emerging market debt, (iii) equity investments, including, U.S. large capitalization, U.S. mid-capitalization, U.S. small capitalization, Europe, Japan, Asia Pacific (ex-Japan), emerging markets, and (iv) alternative investments (which include only investment funds registered with the SEC). The asset allocation categories and classes utilized by the GPC are subject to change.

Each of the available pre-defined Models will represent a different asset allocation appropriate for a different investment objective/risk tolerance. All asset allocations established from time to time for a Model are developed by first starting with a traditional baseline determined to be appropriate based on the relevant investment objective/risk tolerance. Then, strategic asset allocation concepts are applied by looking ahead ten (10) years to determine how each asset class should be weighted in the Model to reflect its long-term economic and market forecast. Finally, tactical asset allocation concepts are applied by looking ahead three (3) to twelve (12) months to determine how to shift asset allocation weightings to reflect short-term economic and market forecasts. The asset allocations established reflect many variables. CGMI and its affiliates may offer other investment management and other programs which may be based on different methodologies than DAP and which might result in different asset allocations, asset classes or investments than DAP.

The GPC reviews and considers the asset allocation for each pre-defined Model at least quarterly. In unusual market or economic circumstances, the GPC may adjust a Model's asset allocation more frequently than quarterly. If the GPC determines that the asset allocation of a Model should not be changed, the GPC may leave the Model asset allocation unchanged for as long as the GPC deems appropriate. Typically, the GPC will change the asset allocation several times per year. Changes in the asset allocation will likely result in transactions in a client portfolio, and these transactions could have tax consequences for a client account.

With respect to portfolio construction, the client may elect that either (i) the client and CPB or (ii) only CPB will construct the portfolio by populating each asset class comprising the Model with one or more investments (the case where client elects that only CPB construct the portfolio being referred to herein as "Firm Discretion"). In the case where client elects Firm Discretion, client grants CPB discretion to select investments comprising the portfolio. In Firm Discretion, CPB will restrict its selection of investments to the type of investments (mutual fund, ETF or separate accounts) designated by client in its investment advisory agreement with CGMI. See "Dynamic Allocation Portfolios UMA Program—*Investment Product Selection*" for more information regarding investment product selection in Firm Discretion. If client elects Firm Discretion, only the type of investment product designated by client will be utilized to populate the asset classes comprising the Model.

Clients electing Firm Discretion may not choose to adopt the "strategic" version of the model (i.e., only the "tactical" version of the Model is available in connection with Firm Discretion).

Custom Model

In the event that client has selected a "custom" Model, client will define the Model by setting the asset allocation for the Model and adjusting the asset allocation from time to time as client deems appropriate. In this event, CPB or an affiliate will not pre-define the Model and CPB will not set or adjust the asset allocation for the Model (i.e., neither the "tactical" nor "strategic" versions of the Model are available). Client will indicate the initial asset allocation for the Model, and will advise CPB (verbally or in writing) of any change in the asset allocation for the Model desired by client. Changes in the asset allocation will likely result in transactions in a client portfolio, and these transactions could have tax consequences for a client account.

With respect to portfolio construction, the client and CPB will construct the portfolio by populating each asset class comprising the Model with one or more investments.

Clients that select a "custom" Model may not elect Firm Discretion.

Investment Managers and the Overlay Manager

Pursuant to an agreement with CPB or an affiliate, the Overlay Manager shall generally invest and re-invest the assets in each client portfolio, except that in certain strategies, investment managers may be granted responsibility by CPB to implement investment decisions directly by placing orders for the execution of transactions (such investment managers being referred to herein as "executing" investment managers). In the investment advisory agreement with CPB, a client authorizes each applicable investment manager and executing investment manager to act as investment adviser to the client. Specifically, the client authorizes each applicable investment manager, as investment adviser to the client, to exercise discretion to select securities for the client's account by either (i) implementing its investment decisions directly (in the case of executing investment managers) or (ii) delivering a model portfolio to the Overlay Manager for implementation and overlay services (in

the case of all other investment managers).

CPB (either directly or through an affiliate) and the Overlay Manager will enter into agreements with each of the investment managers to be responsible for providing a model portfolio to the Overlay Manager or for implementing investment decisions directly with respect to a designated asset class(es). Additionally, if client elects Firm Discretion, CPB (either directly or through an affiliate) may also enter into a contract with Clearing Firm or another third party that will provide administrative and/or technical services designed to assist CPB in implementing recommendations on clients' behalf under DAP with respect to mutual funds (the "Administrator"). Under such circumstances, the Administrator shall, upon the specific instruction of CPB or an affiliate (including, without limitation, the Overlay Manager), invest and re-invest mutual fund assets in each portfolio and implement mutual fund recommendations made by CPB or an investment manager. For each relevant portfolio, the Administrator will effect such transactions in the portfolio only pursuant to the instructions of CPB or an affiliate (including, without limitation, the Overlay Manager).

In the case where the Overlay Manager is providing portfolio implementation and overlay services, the Overlay Manager will seek to invest the client's portfolio in a manner consistent with the Model and investment products selected by the client and CPB (or CPB, as applicable), and the model portfolio provided by any applicable investment manager, as qualified by any client instructions accepted by the Overlay Manager. CPB may change the Overlay Manager (which change may involve CPB selecting an overlay manager that is or is not affiliated with CPB) in its sole discretion, at any time and for any reason. If there is a disruption in the services provided by the Overlay Manager for any reason, CPB or an affiliate may act as the overlay manager during the period of the disruption. This may impact account performance. In addition, in the event of a disruption, CPB may liquidate the applicable portfolio (in whole or in part), and invest the proceeds in money market funds or other cash equivalents.

Periodically, the Overlay Manager will re-balance the client's account in accordance with a re-balancing protocol specified by CGMI and agreed to by the Overlay Manager. The re-balancing of the account by the Overlay Manager could have tax consequences for a client account.

See "Item 4A.5–Execution of Transactions when Citibank is the Overlay Manager," "Item 4A.5–Citibank Role as Overlay Manager," and "Item 4A.5–Aggregation of Trade Orders; Trade Allocation; and Restrictions when Citibank is the Overlay Manager" for more information on portfolio implementation and overlay services provided by the Overlay Manager.

Investment Product Selection

Each mutual fund and investment manager (except for any mutual fund or investment manager that is an affiliate of CPB) included as an investment product in DAP shall be selected from the universe of mutual funds and investment managers with which CPB or an affiliate has entered into an agreement and for which CGMI or an affiliate (or a third party retained by CGMI or an affiliate) has performed research meeting the CitiAccess List or more rigorous CitiFocus List standard and determined that CGMI can recommend the investment product (see "Item 6A–Research in Advisory Programs"). Each ETF included as an investment product in DAP must be screened and determined to comply with the IPR Policy (see "Item 6A–Research in Advisory Programs"). In the event that CPB makes a determination that an investment product previously recommended is no longer approved for DAP, either (i) a replacement investment product shall be selected by CPB and client (or by CPB, if client elects Firm Discretion) from recommendations provided by CPB or (ii) the investment advisory agreement with CPB shall automatically terminate upon a date selected by CPB and communicated to client with reasonable advance notice. Unless client has elected Firm Discretion, before an investment product is selected or client's assets are transferred from the current investment product to another investment product, CPB or an affiliate will attempt to notify client orally or in writing and will attempt to obtain the oral or written concurrence of client. It is understood, however, that CPB or an affiliate need not seek or obtain client's concurrence if CPB has not obtained oral or written direction from client regarding the change in investment products. Additionally, notwithstanding the foregoing, if (i) the amount in an investment product or Model in a client's portfolio falls below the minimum for that investment product or Model (due to re-balancing, market activity or any other reason) or (ii) an investment manager elects to terminate its investment advisory relationship with client, CPB may (without further consent from client) transfer client's assets to another appropriate investment product or Model, which investment product or Model has a minimum investment for which the portfolio qualifies.

In the case where client elects Firm Discretion, CPB and its affiliates have established the MSC to select (from the universe of researched mutual funds and investment managers meeting the CitiAccess List or CitiFocus List standard, or in the case of ETFs complying with the IPR Policy) a subset of mutual funds, investment managers, or ETFs eligible for inclusion in the program. CPB (either directly or through CGMI) selects the actual mutual funds, investment managers, or ETFs for inclusion in a client's portfolio. The MSC has established various criteria that are used to screen affiliated and unaffiliated mutual funds, investment managers, and ETFs. These criteria are subject to change from time to time. In addition, the MSC may utilize the services of an independent consulting firm in the business of evaluating the capabilities of mutual funds, investment managers, and ETFs to assist in the selection process.

CPB (either directly or through CGMI) may select a mutual fund, ETF or investment manager for an asset class within a Model that invests in securities outside of such asset class so long as the MSC determines that such mutual fund's, ETF's or investment manager's primary focus is on securities within such asset class. In terms of performance criteria, a mutual fund's, ETF's or investment manager's performance generally will be assessed versus a performance benchmark for the relevant asset class and versus other mutual funds, ETFs and investment managers in the asset class for consistency of performance and style. In terms of qualitative criteria, the MSC, in general, seeks to select mutual funds, ETFs and investment managers that have stable investment teams, as evidenced by low staff turn-over rates and a well-defined investment management philosophy and process.

CPB (either directly or through CGMI) undertakes periodic reviews of a broad range of factors to determine whether each mutual fund, ETF and investment manager remains appropriate for clients given their selected Model. Factors considered include investment performance, staffing, operational and compliance issues and financial condition. CPB (either directly or through CGMI) also considers as a factor, whether the mutual fund, ETF or investment manager continues to satisfy the criteria that it applies in determining whether to include a mutual fund, ETF or investment manager in a portfolio in the first instance.

Account Information

CPB (either directly, through Clearing Firm or a third party vendor) confirms all transactions executed through CGMI or Clearing Firm and provides account statements at least quarterly. Clients also receive periodically a "Performance Review," which is a statistical review and analysis of the account. Clients may elect to waive the receipt of trade confirmations after the completion of each trade in favor of incorporation into client account statements. Clients may also receive mutual fund and ETF prospectuses, where appropriate.

In DAP, a client may request in writing that certain specified securities, or certain categories of securities, not be purchased for the account or sold from the account. In the event that a security or category of securities may not be purchased, the portion of the account that would have been invested in such security or category of securities will be invested in a money market fund. This will impact the performance of the account relative to an account that is fully invested in securities. In the event a category is restricted, the Overlay Manager or Administrator (if relevant) will determine in its discretion the specific securities that will be treated as falling within the restricted category; provided that the Overlay Manager or Administrator (if relevant) shall be bound only by the plain investment meaning of restrictions that it accepts and shall have no obligation to determine the legal meaning or interpretation of any restriction. In making this determination, the Overlay Manager and Administrator (if relevant) may rely on outside sources, such as standard industry codes and research furnished by independent service providers. Restrictions imposed by client on the management of the account will not apply to or affect the internal management of a mutual fund or ETF purchased for the account in accordance with the portfolio selected by client. Each mutual fund and ETF is managed in accordance with its own investment objectives and guidelines set forth in its prospectus.

Fees

The client pays an asset-based fee to CPB. The fee includes fees or charges of CPB and Clearing Firm (including brokerage commissions for trades executed at CGMI and/or Clearing Firm, compensation to any applicable Private Banker or an employee of a CPB affiliate and custodial charges), except for (i) fees or charges for services provided by CPB, its affiliates, Clearing Firm or third parties which are outside the scope of DAP, (ii) charges, taxes or legal and other expenses associated with DAP and client accounts arising under the laws of any relevant jurisdiction, (iii) brokerage commissions and other fees and charges imposed because an investment manager chooses to effect securities transactions with or through a broker-dealer other than CGMI or Clearing Firm and (iv) certain other fees and charges described herein (see "Item 4.C—Additional Information Regarding Fees and Charges"). Additionally, the client also pays additional fees to the Overlay Manager (a portion of which, to the extent relevant, will be paid to the Administrator) and the investment manager, which are separate from and in addition to the fee client pays to CPB. Finally, if a mutual fund or ETF is used as an investment product, any such fund may pay its own separate investment advisory fees and other expenses to the fund manager or other service provider (which service provider may be affiliated with CPB). These fees and expenses will be in addition to the foregoing fees paid by client.

CPB or Clearing Firm, as applicable, may receive from money market funds and their affiliates recordkeeping and sub-transfer agency fees (which include shareholder sub-accounting and networking fees) and 12b-1 fees at an annual rate of up to 0.25% of the amount of assets invested in each such fund, for recordkeeping and sub-transfer agency services provided by CPB or Clearing Firm, as applicable, to such fund or its service providers. A portion of these fees may represent revenue sharing if and to the extent that they exceed what the money market fund would otherwise have paid for such services. The amount of sub-transfer agency fees may change from time to time. Also, certain transactions in fixed income and certain

other securities may involve dealer mark-ups or mark-downs or other charges in addition to the asset-based fees, although generally CPB will not realize any additional compensation. See “Item 4C–*Additional Information Regarding Fees and Charges*” and “Item 9B.1–*Compensation from Funds*.” The standard annual fee for DAP is as follows:

DYNAMIC ALLOCATION PORTFOLIOS – UMA PROGRAM

Assets	Annual Fee
First \$250,000	2.00%
Next \$250,000	1.75%
Next \$500,000	1.50%
Next \$1 million	1.35%
Next \$3 million	1.25%
Next \$5 million	0.80%
Next \$15 million	0.40%
Next \$25 million	0.30%
Next \$50 million	0.20%
Next \$100 million	0.10%
Over \$200 million	0.05%

Fees are negotiable based on a number of factors, which may result in a particular client paying a fee greater or less than the standard fees. Fees are generally payable quarterly in advance.

As indicated above, the mutual fund, ETF, Overlay Manager and investment manager fees are separate from the client fee charged by CPB. The Overlay Manager fee is a 0.10% asset-based annual fee. The investment manager fees are also asset-based annual fees that generally range from 0.20% to 0.75% (depending on the investment manager and the investment strategy of the investment manager). For certain investment styles there may be a mutual fund and separate managed account offered by the same investment manager and, therefore, the underlying investments in the mutual fund and separate managed account may be substantially identical. Because the underlying expenses and fees of the separately managed account are generally lower and the performance of a separately managed account is generally higher than the comparable mutual fund, if the client meets the minimum level of investment for the separate managed account, the client may have a financial benefit to select the separate managed account as the investment product.

Consulting and Evaluation Services Program

In the Consulting and Evaluation Services Program (“CES”), CPB assists clients in selecting one or more investment managers to manage their accounts. In CES, the client typically enters into an investment advisory contract directly with the investment manager as well as with CPB (“dual contract program”), although in limited cases, the client enters into an investment advisory contract with only CPB and not with the investment manager (“single contract program”). The minimum account size for clients investing in CES is generally \$1,000,000, but for clients investing in a self-liquidating portfolio strategy described below (which is only available in the single contract program), the minimum account size is generally \$5,000,000. Certain investment managers may require different minimums. Many investment managers available through CES are otherwise available only to clients with significantly greater assets to invest.

Services Provided

In CES, CPB analyzes a client’s investment objectives and recommends one or more investment management firms in light of those objectives. CPB does not exercise discretion for CES clients as to the retention of an investment manager; instead, CPB makes recommendations, which the client may or may not follow. Typically, CES is a dual contract program where the client enters into a separate investment advisory contract with the investment manager, but in limited cases, it is a single contract program where the client does not enter into a separate investment advisory contract with the investment manager. The investment manager is responsible for the implementation of any restrictions placed by the client on the account. There are no restrictions on the client’s ability to contact and consult directly with an investment manager, although clients are encouraged to discuss their accounts with their Private Bankers. Citibank will maintain custody of the assets held in an account but will open an account with Clearing Firm on client’s behalf, whereby Clearing Firm will perform certain of the custody services provided in connection with CES. Both CGMI and Clearing Firm may provide execution and related services.

Evaluation and Recommendation of Investment Managers

CPB will recommend one or more investment managers to serve as investment advisers of client accounts, based on each

client's objectives and circumstances. The actual selection of an investment manager is entirely up to the client. CPB recommends only investment managers that have been evaluated and reviewed by CPB or an affiliate (or a third party retained by CGMI or an affiliate), as described in "Item 6A—Research in Advisory Programs."

CPB may recommend investment managers that employ a "self-liquidating portfolio" strategy. A self-liquidating portfolio strategy is generally designed with a "buy and hold-to-maturity" approach, where fixed income investments are purchased with the goal of providing income from coupon payments, as well as the repayment of principal as the investments mature. The fixed income investments are not replaced after they mature, and any proceeds from coupon payments or the repayment of principal are generally transferred to a money market. Fixed income investments may be replaced, though, at the discretion of the investment manager. In a self-liquidating portfolio strategy, the number of fixed income investments is expected to become smaller as the fixed income investments mature. A self-liquidating portfolio strategy is not a diversified strategy, and becomes less diversified as the fixed income investments in an account mature. A self-liquidating portfolio strategy is only available in the single contract program.

Investment managers must be reviewed and evaluated, either meeting the CitiFocus List or CitiAccess List standard (as defined in "Item 6A—Research in Advisory Programs"), to be eligible to be an investment manager in CES.

In the event of a Downgrade (as defined in "Item 6A—Research in Advisory Programs"), where an investment manager no longer meets the CitiFocus List or CitiAccess List standards and CPB determines that it is advisable and in the best interest of a client, CPB will notify client of the Downgrade. It will be client's option to change or retain the investment manager. If the client wishes to continue to retain an investment manager subject to a Downgrade, CPB will (i) make no further representations concerning such investment manager, (ii) not assume any further liability for any loss, claim, damage or expense attributable to client's determination and (iii) not continue to profile, review or make any recommendations regarding such investment manager. However, the client will continue to pay CPB the fee described below.

CGMI also maintains a "Watch" policy for investment managers in CES. CGMI's Watch policy is more fully described in "Item 6A—Research in Advisory Programs." A Watch status may, but is not certain to, result in a downgrade of the investment manager's recommended status.

Account Information

CPB (either directly, through Clearing Firm or a third party vendor) confirms all transactions executed through CGMI or Clearing Firm and provides account statements at least quarterly. Clients also receive periodically a "Performance Review," which is a statistical review and analysis of the account. Clients may elect to waive the receipt of trade confirmations after the completion of each trade in favor of incorporation into client account statements. Clients may also receive mutual fund prospectuses, where appropriate.

Fees

In CES, client pays CPB an annual asset-based fee. The fee includes all fees or charges of CPB and its affiliates and Clearing Firm (including brokerage commissions and custodial charges), except for (i) fees or charges for services provided by CPB, its affiliates, Clearing Firm or third parties which are outside the scope of CES, (ii) charges, taxes, legal and other expenses associated with CES and client accounts arising under the laws of any relevant jurisdiction, (iii) brokerage commissions and other fees and charges imposed because an investment manager chooses to effect securities transactions with or through a broker-dealer other than CGMI or Clearing Firm, and (iv) certain other fees and charges described herein (see "Item 4C—Additional Information Regarding Fees and Charges"). Additionally, the fee does not include any fees or charges of any investment manager (other than CPB). Transactions in fixed income and certain other securities generally involve the payment of mark-ups or mark-downs or other charges to dealers other than CGMI or Clearing Firm in addition to the asset-based fees. The standard annual fees paid to CPB are as follows:

Consulting and Evaluation Services Program

Equity and Balanced Accounts

Assets	Annual Fee
First \$500,000	2.20%
Next \$500,000	1.70%
Next \$1 million	1.20%
Next \$3 million	0.65%
Next \$5 million	0.60%

Fixed Income Accounts (Other Than Self-Liquidating Portfolio)

Assets	Annual Fee
First \$500,000	0.75%
Next \$500,000	0.55%
Next \$1 million	0.40%
Next \$3 million	0.25%
Next \$5 million	0.20%

Self-Liquidating Portfolio Accounts

Assets	Annual Fee,
Any \$	0.30%

Fees are negotiable based on the level of services provided, types of securities traded, and the investment strategy employed by investment managers, which may result in a particular client paying a fee either greater than or less than the standard fees. For accounts larger than \$10 million, fees generally are arranged separately on the basis of services provided. Fees generally are payable quarterly in advance. As stated above, the fee does not include any fees or charges of any investment manager (other than CPB). In single contract program accounts, the fee for the investment manager is specified in the investment advisory contract with CPB. In dual contract program accounts, the fee for the investment manager is specified in the investment advisory contract with the investment manager. As an accommodation to the client, however, the investment manager's fees may be payable through CPB (i.e., CPB will debit the client's account and remit the advisory fee to the relevant investment manager) but CPB will not verify the rate, or compute the investment manager fees or the value of the account. The investment manager fees are also asset-based annual fees that generally range from 0.15% to 0.40% for fixed income investments and from 0.36% to 0.75% for equity securities, and that will generally be 0.30% for a self-liquidating portfolio strategy.

Fiduciary Asset Management Program

NOTE: This program is not currently open to new clients. Should you be interested in a managed account program with features similar to this program, please consult your Private Banker.

The Fiduciary Asset Management Program ("FAM") is generally for institutional and high net worth clients. In FAM, a client appoints CPB (either directly or through CGMI) as the discretionary investment manager, relative to the selection of investment managers to manage the client's accounts. CGMI and Clearing Firm also provide custodial, execution and related services for a single asset-based fee. FAM is designed to manage the overall investment management process, including trading decisions to implement investment policies, asset and investment style allocation decisions, investment manager selection and review, and comprehensive monitoring of each client's investment portfolios. FAM is operated as a "manager of managers" program. The minimum account size is generally \$25,000,000.

Services Provided

In FAM, CPB (either directly or through CGMI) manages the client's portfolio on a discretionary basis. CPB will implement all investment strategies through the selection, approval and ongoing monitoring of independent investment managers. CPB also assumes full discretion over asset allocation decisions as well as decisions to terminate any investment manager relationships, and provides to the client ongoing financial-management services such as investment-performance reporting, administration, trade execution and custody. Based on a client's long-term strategic policy allocation parameters and other investment constraints, FAM looks for opportunities in asset classes or investment styles with above average expected rates of return while managing overall portfolio risk in accordance with the client's investment policy. As a "manager of managers," CPB assumes full responsibility for the ongoing operation of a comprehensive investment-management program in order to:

- Establish fund objectives
- Assist client in the formulation of investment policies
- Allocate assets
- Select investment managers
- Recordkeeping and reporting
- Control portfolio expenses
- Maintain custody
- Where applicable, manage obligations under the Employee Retirement Income Security Act of 1974, as amended

In order to assess the appropriateness of the underlying assets of the current portfolio, CPB conducts a review of the investment policy, asset allocation, and fund assets, which follows these key steps:

- **Investment Policy Statement:** The preparation of an investment policy statement ("IPS") is crucial in the evaluation of the client's risk tolerance and investment objectives. Through FAM, CPB will assist in the determination of the client's absolute needs for liquidity, income, growth of income, growth of principal, and preservation of capital. Helping client's develop an IPS assists them in selecting and developing an investment strategy designed to optimize the probability of achieving their objectives. In addition, the IPS provides a framework that enables the

investment manager to properly execute their fiduciary duty.

- **Current Portfolio Analysis:** CPB will complete a thorough due diligence evaluation of the client's current investment programs, including investment structure, individual components of each fund, the fee structure, manager selection process, possible conflicts of interest, peer universe comparison within appropriate asset classes, and ongoing evaluation procedures. The analysis will culminate in a business evaluation of all contracts, custodial documents, performance monitors, and possible on-site visits with your current service providers.
- **Asset Allocation Analysis:** In addition to the evaluation of the current portfolio structure, CPB will complete a detailed analysis of asset allocation and the basis for the asset-allocation decisions. The analysis will assist the client to understand and evaluate the modeling process. The asset allocation input estimates the frequency and basis for their updates. This is a key component in CPB's risk management evaluation for investment portfolios.

Account Information

CPB (either directly, through Clearing Firm or a third party vendor) confirms all transactions executed through CGMI or Clearing Firm and provides account statements at least quarterly. Clients also receive periodically a "Performance Review," which is a statistical review and analysis of the account. Clients may elect to waive the receipt of trade confirmations after the completion of each trade in favor of incorporation into client account statements. Clients may also receive mutual fund prospectuses, where appropriate.

In FAM, a client may request in writing that certain specified securities not be purchased for his or her account. Also, a client generally may specify that certain categories of securities not be purchased. In this event, CPB will determine in its sole discretion whether a security will be treated as within the restricted category. In making this determination, CPB may rely on outside sources, such as standard industry codes and research furnished by independent service providers. CPB may reject any restriction it believes it may not be able to effectively implement or monitor.

Fees

The client pays an asset-based fee to CPB, which covers investment advisory services, the investment manager's fee, custody of securities, trade execution with or through CGMI or Clearing Firm, as well as compensation to any Private Banker. Clients bear the cost of commissions or other transaction charges for securities trades directed by the investment manager to firms other than CGMI or Clearing Firm for execution. Transactions in fixed income and certain other securities may involve dealer mark-ups or mark-downs or other charges in addition to the asset-based fees, although generally CPB will not realize any additional compensation. See "Item 4C—Additional Information Regarding Fees and Charges." The maximum annual fee for FAM is the sum of the "Annual Fee" and the "Investment Manager Fee" as follows:

Fiduciary Asset Management Program

Assets	Annual Fee	Investment Manager Fee Equity & Balanced	Investment Manager Fee Fixed Income
First \$5,000,000	1.350%	0.55%	0.35%
Next \$5,000,000	0.800%	0.55%	0.35%
Next \$15,000,000	0.400%	0.55%	0.35%
Next \$25,000,000	0.300%	0.55%	0.35%
Next \$50,000,000	0.200%	0.55%	0.35%
Next \$100,000,000	0.100%	0.55%	0.35%

The client will bear a proportionate share of the fees and expenses incurred by any mutual funds in which the client is invested. The prospectus of each of these funds describes these internal fees and expenses in detail. For more information relating to fees, see "Item 4C—Additional Information Regarding Fees and Charges" and "Item 9B.1—Compensation from Funds."

Fees are negotiable based on a number of factors, which may result in a particular client paying a fee greater or less than the standard fees. Fees are generally payable quarterly in advance. CPB (either directly or through CGMI) pays investment managers up to 0.50% for equity, balanced and multi-style accounts and 0.35% for fixed income accounts. The portion of such asset-based fee paid by CPB on to investment managers depends upon the asset class, the investment style and the total amount of assets allocated to the investment manager in FAM.

Investment Advisory Services Program

Through the Investment Advisory Services Program ("IAS"), CGMI will act as an advisor to clients to provide non-

discretionary investment advisory services to ultra high net worth clients (including, but not limited to, multi-family offices, corporations, trusts, endowments, foundations and similar clients) by assisting in the development of investment policies and guidelines, asset allocation, investment manager and investment selection and evaluation, performance measurement, and portfolio analysis and attribution. For certain clients, CGMI may also provide information and advice regarding alternative investment managers. In providing these services, CGMI will use the universe of approved investment products for which CGMI or an affiliate (or a third party retained by CGMI or an affiliate) has performed research meeting the CitiAccess List standard or, if applicable, more rigorous CitiFocus List standard and has determined that CGMI can recommend the investment product. Please see “Item 6A–*Research in Advisory Programs*” for additional information on the evaluation and selection of investment products. The services provided pursuant to IAS are tailored to the specific needs of each client and are combined under an asset-based fee arrangement. In addition to these non-discretionary investment advisory services, CGMI may also offer custody and execution services to IAS clients.

The key elements of IAS are as follows:

1. Assistance in the Preparation of Investment Objectives and Policies (If Requested by the Client): Working with the Citi Private Bank Investment Lab (the “Investment Lab”), the client’s Investment Counselor (“IC”) will assist the client in reviewing its investment goals, policies and objectives as well as its standards for performance review (to help ensure alignment with its investment goals, policies and objectives), and in preparing, monitoring and updating its IPS. The Investment Lab is only responsible for performing this service if requested by the client (which will generally be in situations where the client does not already have an IPS).
2. Asset Allocation: Working with the Investment Lab, the IC will provide initial and continuing asset allocation recommendations in accordance with the IPS of the client.
3. Investment Manager Search: Working with the Investment Lab, the IC will assist the client in identifying and selecting appropriate investment managers. With the exception of affiliated investment managers, recommendations may only be made from the universe of investment managers approved for recommendation pursuant to the research protocols described herein. Please see “Item 6A–*Research in Advisory Programs*” for additional information on the evaluation and selection of investment products.
4. Mutual Funds, Exchanged Traded Funds and Index Funds Search: Working with the Investment Lab, the IC will assist the client in identifying and selecting appropriate mutual fund, ETF and index fund investments. Recommendations may only be made from the universe of investments approved for recommendation pursuant to the applicable research or risk protocols described herein. The IPR Policy applies to each ETF. Please see “Item 6A–*Research in Advisory Programs*” for additional information on the evaluation and selection of investment products.
5. Alternative Investment Manager Search: If requested by the client, working with the Investment Lab, the IC will assist the client in identifying and selecting appropriate alternative investment managers. The Investment Lab will work together with the TPG Alternative Solutions Team to provide advice to ICs and clients as part of the implementation. Recommendations may only be made from the universe of alternative investment managers approved for recommendation pursuant to the research protocols described herein. Please see “Item 6A–*Research in Advisory Programs*” for additional information on the evaluation and selection of investment products.
6. Performance Measurement: CGMI provides clients with system-generated written performance reports, as well as custom performance reports (depending upon client reporting needs). The reports may include comparisons to recognized benchmarks and appropriate market segments. The Investment Analysts within Citi Private Bank North America Investments (“Investment Analysts”) prepare any custom reports using pre-approved performance and asset allocation review templates, system-generated performance reports, and custody statements. Each client receiving services pursuant to IAS will have an agreed benchmark and risk assignment from which a periodic assessment of their investment performance will be provided.
7. Ongoing Review, Custody and Trade Execution: CGMI will provide or arrange for portfolio rebalancing, investment policy monitoring, support with third-party providers and custodial and execution services. Transactions in fixed income and certain other securities (including equities) may involve dealer mark-ups or mark-downs or other charges in addition to the asset-based fees. To the extent investment managers direct trades in such securities to CGMI for execution, CGMI may realize profits or losses in connection with such trades that are separate from or additional to the fees paid by IAS clients, but CGMI will not charge such clients any mark-up or mark-down.
8. Daily Oversight and Control Structure: Using a systematic monitoring system, the Citi Private Bank Fiduciary Oversight Group (“FOG”) is responsible for the daily monitoring of the client portfolio relative to its IPS. The TPG

portfolio officer will provide day-to-day oversight in support of the IC, in coordination with the independent monitoring capabilities of FOG. The TPG portfolio officer will provide support to the IC, regardless of whether TPG is one of the selected investment managers for a client portfolio. The TPG portfolio officer will be responsible for addressing any alerts communicated by FOG and recommending changes in accordance with the IPS.

Investment Counselors

CGMI has a team of dedicated ICs that work with financial professionals in the prospecting and servicing of IAS clients. In order to participate in IAS, each IC is required to hold the Series 7 and Series 66 (or Series 7 and Series 63/65) licenses.

Investment Lab

In addition to the team of ICs, IAS is supported by the analytical capabilities of the Investment Lab. The Investment Lab serves as an in-house think-tank, providing innovative investment ideas and analytics. The Investment Lab incorporates analysis, modeling and advice, including its proprietary strategic asset allocation methodology, to create integrated wealth management strategies for clients. The asset allocation methodology addresses how to allocate assets among available asset classes. The process enables the combination of traditional asset classes, such as equities, fixed income and cash, with certain alternative investments, like hedge funds, taking into account a client's risk and liquidity objectives. The Investment Lab leverages the strategic and tactical allocation models developed by Citi Private Bank's Global Investment Committee ("GIC") and incorporates these models and the related strategic return estimates in its analyses. Strategic models are employed for those clients with a long term (10-years plus) investment horizon, while tactical models are employed for those clients looking to take advantage of short-term (12-18 months) market movements. As the GIC further develops its approach to asset allocation, the Investment Lab will continue to leverage and incorporate the results in its client output and analytical framework.

For portfolio construction, the Investment Lab employs a combination of in-house analytical tools and industry expertise to select the most appropriate managers and strategies from the universe of recommended managers and investments approved for recommendation pursuant to the research protocols described herein. The Investment Lab considers not only each individual manager and strategy, but how they will work together to help meet a client's overall investment goals. During the portfolio construction process, the Investment Lab addresses key concepts such as passive versus active management, risk and return considerations and identifying and executing tactical opportunities within asset classes and managers. The Investment Lab will monitor the managers and investments and select from the universe of approved managers and investments approved for recommendation pursuant to the research protocols described herein. Please see "Item 6A—Research in Advisory Programs" for additional information on the evaluation and selection of investment products.

Fees

The fees for IAS accounts are negotiable, vary based upon the complexity of the client relationship and are subject to a minimum fee per relationship. The minimum client net worth is \$25 million for IAS qualification. The fees for IAS accounts cover the following services: (1) assistance in the development or review of the client's investment objectives and policies, if required; (2) investment performance measurement reports; (3) if requested, investment manager searches; (4) if requested, custody; (5) asset allocation advice; (6) a periodic report containing an analysis of the client's portfolio, on no less than an annual basis; and (7) if requested, execution of transactions by CGMI or Clearing Firm. Any investment manager fees (including in connection with alternative investments) are separate from the fees charged by CGMI in connection with IAS.

Fees are charged monthly or quarterly, in arrears or in advance, and are based upon a number of factors, including the specific services to be provided, which may result in a particular client paying a fee greater than the standard fees. Fees may also be either asset-based or fixed, depending on the particular client.

To the extent that an asset-based fee is used in connection with IAS, the standard fee schedule is as follows:

Investment Advisory Services Program

Assets subject to IAS Agreement	Annual IAS Fee to Client ⁽¹⁾
First \$25MM	0.90%
Next \$25MM	0.55%
Next \$50MM	0.45%
Next \$100MM	0.35%

Over \$200MM	Negotiable
Minimum Annual Fee	\$115,000

Note:

(1) Represents CGMI fee for IAS only (any investment manager fees are not included).

Fees are negotiable based on a number of factors, which may result in a particular client paying a fee greater or less than the standard fees. The minimum account size for IAS is generally \$25,000,000.

Legg Mason Private Portfolios Program

NOTE: This program is not currently open to new clients. Should you be interested in a managed account program with features similar to this program, please consult your Private Banker.

The Legg Mason Private Portfolios Program (“LMPP”) enables CPB clients to invest in investment portfolios offered by Legg Mason Private Portfolio Group, LLC (“LMPPG”). The Overlay Manager (as defined in “Item 4A.5–*Citibank Role as Overlay Manager*”) provides certain portfolio implementation and overlay services in connection with LMPP. See “Item 4A.5–*Execution of Transactions when Citibank is the Overlay Manager*,” “Item 4A.5–*Citibank Role as Overlay Manager*,” and “Item 4A.5–*Aggregation of Trade Orders; Trade Allocation; and Restrictions when Citibank is the Overlay Manager*” for more information on portfolio implementation and overlay services provided by the Overlay Manager. Citibank will maintain custody of the assets held in an account but will open an account with Clearing Firm on client’s behalf, whereby Clearing Firm will perform certain of the custody services provided in connection with LMPP. The minimum account size for accounts in LMPP is generally \$500,000, although certain portfolio managers may establish different minimums.

Services Provided

LMPP enables CPB clients to invest in investment management portfolios offered by LMPPG. CPB facilitates the retention, on the client’s behalf, of one or more investment managers that serve as subadvisers to LMPPG and provide portfolio management services. Some of the subadvisers are affiliated with LMPPG. CPB (either directly or through CGMI) and LMPPG may agree from time to time to make additional subadvisers available for new accounts in LMPP, including subadvisers that are affiliated with LMPPG and those that are not. Which subadvisers(s) are involved in managing a client’s account will depend on the investment management portfolio selected by the client.

In LMPP, CPB has the discretion to retain LMPPG on the client’s behalf and delegate certain of its investment management authority to LMPPG or an affiliate. LMPPG, in turn, has the discretion to retain one or more subadvisers on the client’s behalf and delegate certain of its investment management authority to such subadvisers. The subadvisers determine and instruct CPB and/or LMPPG, as applicable, on investments to be purchased for the client’s investment management portfolio. Neither CPB nor LMPPG will review or make any independent determination as to the merits of a subadviser’s investment instructions and the decisions reflected therein.

The Overlay Manager (in the case of Multiple Discipline Accounts) and LMPPG (in all other cases) will invest and reinvest the securities, cash and/or other investments held in a client account in accordance with the investment instructions of the relevant subadviser. For more information on portfolio implementation and overlay services provided by the Overlay Manager, see “Item 4A.5–*Execution of Transactions when Citibank is the Overlay Manager*,” “Item 4A.5–*Citibank Role as Overlay Manager*,” and “Item 4A.5–*Aggregation of Trade Orders; Trade Allocation; and Restrictions when Citibank is the Overlay Manager*.” For more information on portfolio implementation and overlay services provided by LMPPG, please see the Legg Mason Brochure, which is available upon request through a client’s Private Banker. CPB and/or LMPPG and a subadviser involved in managing a client account may agree that the subadviser will be responsible for executing certain transactions on behalf of the account (e.g., purchases and sales resulting from a change in the subadviser’s model or investment instructions). CPB and/or LMPPG, as applicable, will determine the securities to be purchased or sold for the account on the basis of investment instructions given to CPB or LMPPG by the subadviser and communicate such information to the subadviser for execution.

Evaluation and Selection of Investment Management Portfolios

Each investment management portfolio will be selected from the universe of investment strategies for which CGMI or an affiliate (or a third party retained by CGMI or an affiliate) has performed research meeting the CitiAccess List standard or, if applicable, more rigorous CitiFocus List standard and has determined that CPB can recommend the investment management portfolio. If an investment management portfolio includes any mutual funds, those mutual funds may not have been evaluated or reviewed.

In the event of a Downgrade (as defined in “Item 6A–*Research in Advisory Programs*”), where an investment management

portfolio no longer meets the CitiFocus List or CitiAccess List standards, CPB will notify the client and either (i) a replacement investment management portfolio will be selected by CPB and the client (except in the circumstances outlined below) from recommendations provided by CPB or an affiliate (or a third party retained by CPB or an affiliate), or (ii) the investment advisory agreement will automatically terminate upon a date selected by CGMI and communicated to client with reasonable advance notice. Before a replacement investment management portfolio is selected or a client's assets are transferred from the current investment management portfolio to the replacement investment management portfolio, CPB will attempt to notify client orally or in writing and will attempt to obtain the oral or written concurrence of client. It is understood, however, that CPB need not seek or obtain client's concurrence if CPB has been unable to obtain oral or written direction from the client regarding the change in investment management portfolio.

If the client desires to continue investing in an investment management portfolio subject to a Downgrade, CPB will permit the client to do so under an alternative platform offered by CPB subject to client's completion and execution of the necessary documentation to open an account on such alternative platform. Alternatively, in the event client wishes to continue to use an investment management portfolio subject to a Downgrade, CPB may, in its sole discretion (but is not obligated to), notify the client that (i) CGMI or an affiliate (or a third party retained by CGMI or an affiliate) no longer recommends the investment management portfolio and (ii) CPB will (a) make no further representations concerning the investment management portfolio, (b) not assume any liability for any loss, claim, damage or expense attributable to client's determination to continue to use the investment management portfolio and (c) not continue to evaluate or make any representations regarding such investment management portfolio.

Account Information

CPB (either directly, through Clearing Firm or a third party vendor) confirms all transactions executed through CGMI or Clearing Firm and provides account statements at least quarterly. Clients also receive periodically a "Performance Review," which is a statistical review and analysis of the account. Clients may elect to waive the receipt of trade confirmations after the completion of each trade in favor of incorporation into client account statements. Clients may also receive mutual fund and ETF prospectuses, where appropriate.

In LMPP, client may request that certain specified securities or certain categories of securities not be purchased for an account. Such requests will be communicated by CPB to LMPPG. It is LMPPG's policy to honor reasonable limitations on its authority, which necessarily vary from client to client based upon client objectives and other factors. It will however be in LMPPG's or the subadviser's, as applicable, sole discretion to determine the reasonableness of the limitations and the specific securities that will be treated as falling within the restricted category. In making this determination, LMPPG and the subadviser may rely on outside sources, such as standard industry practices and research furnished by independent service providers. A restriction accepted by LMPPG generally applies only at the time of purchase to securities the Overlay Manager or LMPPG, as applicable, purchases for the account and does not apply to securities transferred into the account, securities already held in the account at the time the restriction is accepted, securities that first come within a restriction following purchase of such securities, and securities acquired as a result of corporate actions (e.g., stock splits, stock dividends).

Fees

LMPP is available on a fee plus commission basis (generally only for larger equity, balanced or multi-style accounts) or on an inclusive asset-based fee basis. An inclusive fee covers the services described above (including fees of the Overlay Manager, LMPPG and applicable subadvisers), as well as custody of securities and trade execution with or through CGMI and Clearing Firm. Clients bear the cost of commissions or other transaction charges for securities trades directed by the Overlay Manager, LMPPG or a subadviser to firms other than CGMI or Clearing Firm for execution. Transactions in fixed income and certain other securities generally involve payment of mark-ups or mark-downs or other charges to dealers other than CGMI or Clearing Firm in addition to the asset-based fees. See "Item 4C—Additional Information Regarding Fees and Charges."

The client will bear a proportionate share of the fees and expenses incurred by any mutual funds in which the client is invested. The prospectus of each of these funds describes these internal fees and expenses in detail. For more information relating to fees please see "Item 4C—Additional Information Regarding Fees and Charges" and "Item 9B.1—Compensation from Funds."

Legg Mason Private Portfolios Program

Inclusive Asset-Based Fee

Equity, Balanced and Multi-Style Accounts

Assets	Annual Fee
First \$500,000	3.00%
Next \$500,000	2.20%
Next \$1 million	1.90%
Over \$2 million	1.70%

Fixed Income Accounts

Assets	Annual Fee
First \$500,000	1.25%
Next \$500,000	1.00%
Next \$1 million	0.85%
Over \$2 million	0.75%

Fee Plus Commission

Equity, Balanced and Multi-Style Accounts

Assets	Annual Fee
First \$3 million	1.00%
Next \$7 million	0.75%
Over \$10 million	0.50%

Fees are negotiable based on a number of factors, which may result in a particular client paying a fee greater or less than the standard fees. Fees are generally payable quarterly in advance. Subadvisers may have a conflict of interest in the fee plus commission option since LMPPG acts as an overlay manager.

The portion of the asset-based fee paid by CPB (either directly or through CGMI or an affiliate) to LMPPG depends upon the asset class, the investment style, the total amount of assets allocated to LMPPG in LMPP and the assets in a client account. CPB generally pays LMPPG based on the following table, where the assets in the client account are less than \$5 million at account inception:

Account Type	Annual LMPPG Fee Range
Equity Large Cap/Balanced	0.45% to 0.38%
Equity Mid Cap, Multiple Discipline, Multiple Discipline (Custom)	0.45% to 0.40%
Equity Small/Mid Cap	0.45%
International	0.48% to 0.45%
Strategic, Fixed Income	0.30% to 0.23%

Different fees will apply in some circumstances. Also, LMPPG pays a portion of its fee from a client account to each subadviser involved in providing investment management services for such account.

Where the client is invested in some of the account types listed above, CPB and the subadviser retain a larger portion of the fee charged to clients than when the client is invested in other account types. The fee paid to the Private Banker does not vary depending on the account type the client is invested in, except that the Private Banker's compensation is directly affected by the size of the client's annual fee. Therefore Private Bankers may have an incentive to recommend equity, balanced and multi-style accounts over fixed income accounts since the former have higher standard annual fees than the latter.

Umbrella Portfolios Program

Services Provided

Under the Umbrella Portfolios Program ("Umbrella Portfolios"), the client selects one or more of five portfolio objectives spanning a risk spectrum, based upon the client's investment objectives, risk tolerance and investment time horizon for his/her assets, or the portion of his/her assets in each account. A separate account is established for each portfolio objective the client chooses. The five portfolio objectives available under the Umbrella Portfolios are: liquidity management and preservation of capital; income generation and capital preservation; modest capital appreciation and, secondly, preservation of capital; long-term growth of capital with moderate volatility; and maximum long-term growth of capital. Citibank will

maintain custody of the assets held in an account but will open an account with Clearing Firm on client's behalf, whereby Clearing Firm will perform certain of the custody services provided in connection with the Umbrella Portfolios.

The first two portfolio objectives, designated "Preservation Portfolios," are for clients with a three (3) to five (5) year investment horizon who are seeking to maintain purchasing power, preserve capital, meet income needs and achieve consistent real growth of wealth. The last two portfolio objectives, designated "Growth Portfolios," are for investors with a five (5) to ten (10) year investment horizon who are seeking real growth of wealth and are willing to forgo income needs and withstand more volatility in order to achieve greater potential wealth enhancement. The third portfolio objective, designated the "Growth and Preservation Portfolio," is for investors with at least a four (4) year investment horizon who are seeking modest capital appreciation, with preservation of capital as a secondary objective.

To implement the investment strategy for each portfolio objective (hereafter also referred to in this description of the Umbrella Portfolios as a "portfolio"), the GPC of TPG allocates each portfolio in varying percentages among various asset allocation categories and classes. Currently, asset allocation categories and classes are as follows: (i) cash and short term investments, including cash equivalents; (ii) fixed income investments, including short term municipal debt, municipal bonds, U.S. bonds, high yield/emerging market debt; (iii) equity investments, including, U.S. large capitalization, U.S. mid-capitalization, U.S. small capitalization, Europe, Japan, Asia Pacific (ex-Japan), emerging markets; and (iv) alternative investments, including private investment funds. The asset allocation categories and classes utilized by the GPC are subject to change. The asset allocations established from time to time for a portfolio are developed by starting with a traditional baseline determined to be appropriate based on the portfolio's investment objective and historical risk/return data for various asset classes. Then strategic asset allocation concepts are applied by looking ahead ten (10) years to determine how each asset class should be weighted in the investment portfolio to reflect its long-term economic and market forecast. Finally, tactical asset allocation concepts are applied by looking ahead three (3) to twelve (12) months to determine how to shift asset allocation weightings to reflect short-term economic and market forecasts. The asset allocations established reflect many variables. CPB and its affiliates may offer other investment management and other programs which may be based on different methodologies than the Umbrella Portfolios and which may result in different asset allocations, asset classes or investments than the Umbrella Portfolios.

The GPC reviews and considers the asset allocations at least quarterly. In unusual market or economic circumstances, the GPC may adjust a portfolio's asset allocation more frequently, subject to subscription and redemption rules applicable with respect to underlying investment funds in which the portfolio's assets are invested. The GPC is also responsible for determining whether to rebalance accounts following market movements or the out performance or underperformance of a portfolio or fund (to bring the asset allocations for accounts back into line with the applicable portfolio's then current asset allocations) and for determining the timing and manner of any such rebalancing. The asset allocation percentages currently in effect for a particular portfolio may be obtained through your Private Banker or other Citigroup representative. The minimum account size for new accounts in the Umbrella Portfolios is \$5 million.

CPB; Investment Manager and Fund Selection; Portfolio Implementation

CPB serves as the discretionary investment advisor of the assets in the Umbrella Portfolios. CPB is responsible for selecting the investment manager or fund for each asset class in a portfolio through the manager and fund selection process designated for the Umbrella Portfolios. CPB has established the MSC to select investment managers and funds, which may be affiliated or unaffiliated with Citigroup and CPB. The MSC has established various criteria that are used to screen affiliated and unaffiliated investment managers and funds. These criteria are subject to change from time to time. In addition, the MSC may utilize the services of an independent consulting firm in the business of evaluating the capabilities of investment managers and funds to assist in the manager and fund selection process (in the case of asset classes other than those in the alternative investments category).

CPB may delegate some of its rights and obligations set forth in the client investment advisory agreement to the Overlay Manager. In particular, the Overlay Manager shall be responsible for managing each account consistent with (i) the asset allocations determined by the GPC, (ii) investment manager and fund selections made by the MSC and (iii) a client's limitations. For further details regarding the operations of the Overlay Manager, see "Item 4.A.5.—Execution of Transactions when Citibank is the Overlay Manager," "Citibank Role as Overlay Manager," and "Item 4.A.5.—Aggregation of Trade Orders; Trade Allocation; and Restrictions when Citibank is the Overlay Manager."

In the case of assets to be invested in investment funds, the Overlay Manager shall be responsible for the creation and execution of orders for the purchase and sale of shares/units in registered investment funds and the creation of orders and communication of same to CPB for execution in unregistered investment funds on behalf of accounts. The assets in each asset class are generally invested on a discretionary basis with a single investment manager or in a single investment fund chosen by the MSC, although multiple investment managers or funds may be used.

CPB (directly or through CGMI) may select a fund or investment manager for an asset class that invests in securities outside of such asset class so long as the MSC determines that such fund's or investment manager's primary focus is on securities within such asset class. In terms of performance criteria, an investment manager's or fund's performance generally will be assessed versus a performance benchmark for the relevant asset class and versus other investment managers and funds in the asset class for consistency of performance and style. In terms of qualitative criteria, the MSC, in general, seeks to select investment managers and funds advised by investment managers that have stable teams, as evidenced by low staff turn-over rates and a well-defined investment management philosophy and process.

For eligible clients, assets in the alternative investments asset allocation category are invested in one or more private investment funds, available in the form of interests in private investment funds. The process for selecting funds in the alternative investments category is more qualitative in nature than is the process for selecting investment managers and funds outside of the alternative investments category. Funds in the alternative investments category typically have incentive fee arrangements. Under such an arrangement, the investment manager of the private investment fund and the advisors and managers of underlying portfolios or funds may receive compensation based on appreciation in the fund's or underlying fund's or portfolio's assets. Such incentive fees may be an incentive to make investments that are riskier or more speculative than would be the case absent an incentive fee. For most eligible clients, it is anticipated that assets in the alternative investments asset allocation category will be invested in a private investment fund of funds vehicle that is advised by an affiliate of CPB. However, in such cases, clients will not bear any additional management fee payable to the affiliated adviser.

The MSC undertakes periodic reviews of a broad range of factors to determine whether each investment manager or fund remains appropriate for clients given their objectives going forward. Factors considered include investment performance, staffing, operational and compliance issues and financial condition. The MSC also considers as a factor, whether the investment manager or fund continues to satisfy the criteria that it applies in determining whether to include an investment manager or fund in the Umbrella Portfolios in the first instance. CPB's personnel may interview each investment manager periodically to discuss these matters. If CPB determines such an action to be advisable and in the best interest of its clients, CPB may, on a discretionary basis, terminate an investment manager's or fund's participation in the Umbrella Portfolios and replace such investment manager or fund with another investment manager or fund selected by the MSC. Accounts may be uninvested or invested in cash equivalents or exchange traded funds during the transition period to a new investment manager or fund for a particular asset class, especially in the case of the alternative investments asset allocation category.

CPB and the Overlay Manager are responsible for implementing the portfolio in each account consistent with the portfolio investment objective chosen by a client and any special instructions or restrictions imposed by such client. Notwithstanding that, from time to time, a client may obtain from a Private Banker or other Citigroup representative the asset allocation percentages currently in effect for a particular portfolio and the investment manager or fund chosen for each asset class for that portfolio, the process is dynamic and the account management is fully discretionary. Therefore, any such information provided to a client is only illustrative in nature and may not represent the percentages of each asset class in a portfolio or the investment managers or funds in which the assets in an account that a client opens will be invested. In addition, CPB and/or the Overlay Manager in its sole discretion shall determine the timing of the investment of account assets, and therefore, when an account is opened, a period of time will elapse before all account assets are fully invested under the Umbrella Portfolios. There can be no assurance that the investment strategies applied by CPB in managing an account will be successful or that the investment objectives of the portfolios available under the Umbrella Portfolios will be achieved. An investment in the Umbrella Portfolios and portfolios under the Umbrella Portfolios involves risk, including possible loss of principal.

From time to time, the performance of portfolios available under the Umbrella Portfolios, as well as accounts in which they are held, may be compared to a benchmark established for the portfolios or the accounts. There can be no assurance, and no representation or warranty of any kind is made by the manager, that any portfolio or account will, over any period of time, achieve performance equal to or greater than the performance of its benchmark.

Fees

UMBRELLA PORTFOLIOS PROGRAM

Assets	Annual IM Fee	
	Level I	Level II - V
On the first \$10 million	0.75%	1.00%
On the next \$10 million	0.50%	0.75%
On the next \$30 million	0.50%	0.50%
Over \$50 million	0.50%	0.50%

- There will be a 0.50% flat fee for clients with over \$50 million of assets under management in the Umbrella Portfolios.
- The fee will be reduced but not below zero, by any trailer fee paid by a mutual fund to CPB.
- The client will bear a proportionate share of the fees and expenses incurred by any mutual funds or alternative investments included in the Umbrella Portfolios. The prospectus or offering memorandum of each of these investments describes these internal fees and expenses in detail. For more information relating to fees please see “Item 9B.1—*Compensation from Funds.*”
- Investment managers charge management and performance fees in addition to the above fee. CPB may enter into agreements with investment managers where CPB receives a percentage of such management fee and performance fee charged by the investment manager. This is in addition to the above fee. Therefore CPB may have an incentive to recommend certain investment managers over others.
- For all portfolios, there is no portfolio level performance fee, but a performance fee may be charged at both the private investment fund level, as well as at the level of any portfolio investment underlying any private investment fund.
- Fees are negotiable based on a number of factors, which may result in a particular client paying a fee greater or less than the standard fees. Fees are generally payable monthly in arrears.
- For accounts that were previously invested in the Global Managed Portfolios Program, the investment advisory fee will be grandfathered at the initial contractual rate. Thus, the fees incurred may be higher or lower than the amount stated in the above fee schedule.

The Tailored Portfolio GroupSM Program

In the Tailored Portfolio Group Program (the “TPG Program”), CPB retains an affiliated investment management team to manage client accounts and provide discretionary management services. The minimum account size ranges from \$500,000 to \$10,000,000, depending on the strategy.

Services Provided

In the TPG Program, a Private Banker analyzes a client’s investment objectives and risk tolerance, and retains TPG on the client’s behalf to manage assets in accordance with those objectives. With the assistance of a Private Banker, the client selects one or more of the investment portfolios offered by TPG (see below). In the TPG Program, the client enters into an investment advisory agreement with CPB, who has retained TPG to manage the client’s accounts and provide discretionary management services. Citibank will maintain custody of the assets held in an account.

TPG is a business unit that conducts its portfolio management activities out of Citibank, and its overseas branches and subsidiaries.

Establishment of Client Objectives

Clients work with their Private Banker to establish the investment objectives and risk tolerance for each of their accounts. As part of this process, an investment suitability form is completed with respect to each client.

Evaluation and Selection of Investment Portfolios

CPB will recommend one or more investment portfolios offered by TPG, based on each client’s investment objectives and risk tolerance. With the assistance of a Private Banker, the client selects one or more of these investment portfolios. Client

may request in writing that the investment portfolio be changed to another portfolio offered by TPG, and CPB will implement that change as soon as is reasonably practicable.

Specifically, CPB may recommend (and the client may select) one or more of the following portfolios:

TPG U.S. Large Cap Core Portfolio: Portfolio is managed through a disciplined investment process and invests in attractively valued large capitalization companies that exhibit consistent growth of revenues and earnings and whose future growth potential is not necessarily reflected in current valuation. Minimum account size: \$5 million.

TPG International Equity Portfolio: Portfolio is primarily composed of common stocks of international companies. It is designed to provide investors with long term growth of capital along with broad international diversification among high quality, non-US stocks. Minimum account size: \$2 million.

TPG International ADR Portfolio: Portfolio is primarily composed of American Depository Receipts (ADR) of high quality, medium-to-large capitalization international companies. The portfolio is designed to provide investors with long-term capital appreciation along with broad international diversification across high-quality, non-US stocks. Minimum account size: \$500,000.

TPG Europe Equity Portfolio: Portfolio is primarily composed of equities issued by European companies. It is designed to provide investors with long-term capital appreciation and broad participation in the European markets. The portfolio is available in USD, EUR or GBP and is managed by the London based TPG team. Minimum account size: \$500,000 or equivalent.

TPG Islamic Global Equity Portfolio: Individually managed portfolio composed of global equities that conform to Islamic principles and investment criteria. The portfolio seeks to provide Islamic investors with the opportunity to participate in the long-term capital appreciation potential of global equity markets. The portfolio is available with Europe custody only. Minimum account size: \$3 million or equivalent.

Global Discretionary Portfolios/Plus: A range of asset allocation strategies spanning the risk-return spectrum available in individually managed accounts. Each of the individually managed portfolios is determined through a strategic and tactical process driven by Citigroup's global financial experts. The portfolios are available in USD, EUR or GBP and are managed by the London based TPG team. Minimum account size: \$1 million or equivalent (GDP) and \$3 million or equivalent (GDP+).

Tailored Discretionary Portfolio: Is designed to meet a client's individual investment goals and circumstances. The portfolio offers not only traditional asset classes but also provide diversification through the inclusion of multicurrency and alternative investments. The portfolio is customized in line with the client's specific investment profile. The portfolio is available in USD, EUR or GBP and is managed by the London based TPG team. Minimum account size: \$5 million or equivalent.

TPG U.S. Balanced Portfolio: Portfolio is intended to enhance current returns while reducing volatility through a combination of large-cap equity securities and high quality fixed income securities. Clients can choose balanced portfolios with varying (25%/50%/60%/75%) equity portions. Minimum account size: \$5 million.

TPG U.S. Fixed Income Portfolio: Portfolio is managed in a manner intended to identify high quality issues that meet clients' individual needs for income or preservation of capital. Minimum account size: \$5 million.

TPG U.S. Enhanced Liquidity Portfolio: Individually managed short-term fixed income portfolio tailored to fit the specific needs and objectives of clients. It is suitable for clients with significant liquidity, a minimum investment horizon of one year and a low tendency for loss of principal. Minimum account size: \$10 million.

TPG Short-Term Global Bond Account: Individually managed fixed income portfolio designed to provide both income and a low level of exposure to any potential rise in interest rates. The portfolio focuses mainly on bonds with maturities between one (1) and three (3) years. The portfolio is available in USD, EUR or GBP and is managed by the London based TPG team. Minimum account size: \$1 million.

TPG Global Bond Account: Individually managed, diversified portfolio primarily investing in global fixed income instruments. The portfolio aims to provide broad participation in US and international bond markets with moderate volatility in returns. It is designed for clients seeking returns above deposit rates over a full business cycle. The portfolio is available in USD, EUR or GBP and is managed by the London based TPG team. Minimum account size: \$1 million.

TPG European Bond Account: Individually managed account primarily investing in European currency denominated fixed income securities in a range of maturities. It is designed to provide investors with broad

participation in European bond markets, with total returns that should exceed deposits. The portfolio is available in USD, EUR or GBP and is managed by the London based TPG team. Minimum account size: \$1 million.

TPG investment professionals may utilize or recommend equity securities (including ETFs), warrants, corporate debt securities, commercial paper, certificates of deposit, municipal securities, investment company securities, and U.S. Government Securities. TPG investment professionals apply a valuation-driven approach to equity investing focusing on high-quality undervalued securities with the following characteristics: high and consistent levels of return on capital, opportunities for growth, strong differentiation of products or services, shareholder-oriented management, exceptional leadership, and ability to generate strong cash flow. For US taxable portfolios, tax-efficiency is an additional consideration. TPG's proprietary Tax Aware Optimization Service (TAOS) is overlaid on the portfolio to create a tailored portfolio that attempts to balance risk, return and taxes while simultaneously meeting the unique tax needs of each client. When investing in fixed income securities, investment selection and execution is driven by determinations of relative price value, strategic compatibility, and overall portfolio objectives.

TPG investment professionals may obtain information to assist their securities analysis from a variety of sources, including, financial newspapers and magazines, news and wire services, inspections of corporate activities, proprietary and non-proprietary research reports, corporate rating services, annual reports and other public filings, and company press releases. TPG has also contracted with Batterymarch (BFM), a subsidiary of Legg Mason, Inc., to provide research inputs for the equity portfolios run by TPG.

Account Information

CPB (either directly or through Clearing Firm) confirms all transactions executed through CGMI or Clearing Firm and provides account statements at least quarterly. Clients also receive periodically a "Performance Review," which is an extensive statistical review and analysis of the account. Clients may elect to waive the receipt of trade confirmations after the completion of each trade in favor of incorporation into client account statements. Clients may also receive mutual fund prospectuses, where appropriate.

In the TPG Program, a client may request in writing that certain specified securities not be purchased for his or her account. Also, a client generally may specify that certain categories of securities not be purchased. In this event, TPG will determine in its sole discretion the specific securities that will be treated as falling within the restricted category. In making this determination, TPG may rely on outside sources, such as standard industry codes and research furnished by independent service providers. TPG may reject any restriction it believes it may not be able to effectively implement or monitor.

Best Execution and Soft-Dollars

TPG directly manages portfolios that are offered in the TPG Program. In connection with such management activities, TPG, in its sole discretion, may effect transactions on a best execution basis through or with broker-dealers, which could potentially include broker-dealers affiliated with TPG. In evaluating which broker-dealers will provide best execution, TPG may consider the full range and quality of a given broker-dealer's services, including, among other things, (i) the value of research provided, (ii) execution capability, (iii) financial responsibility, (iv) responsiveness and (v) other transaction related services (collectively, the "BD Services"). TPG may select broker-dealers that provide BD Services to TPG and may cause clients to pay such broker-dealers' commissions (such payments being commonly referred to as "soft-dollars") for effecting transactions in excess of the commission other broker-dealers may charge. To the extent permitted by law, such BD Services may be used for TPG's own account or other client accounts. TPG shall comply with the safe harbor provisions of Section 28(e) of the Securities and Exchange Act of 1934, as amended (the "Exchange Act"), in connection with the evaluation and selection of any broker-dealer and the use of soft-dollars. TPG generally seeks to use soft-dollars to obtain research and other investment services that enhance the overall investment process for its clients.

If possible, TPG will negotiate for discounted commission rates for its clients from broker-dealers. Even if such discounted commission rates were to be viewed as competitive, however, there is still the possibility that lower commissions could be obtained from broker-dealers that do not offer some or all of the BD Services.

TPG has established a Brokerage Committee that reviews, among other things, the firm's broker-dealer selection and soft-dollar activities on a quarterly basis. The Brokerage Committee evaluates such matters as the Services provided and commission rates charged by a given broker-dealer, and monitors compliance with Section 28(e) of the Exchange Act.

Fees

The TPG Program is available only on the basis of an asset-based fee paid to CPB. This fee covers the services described above (including TPG's investment management fee), as well as custody of securities in some instances. Clients bear the cost of commissions or other transaction charges with respect to securities trades by TPG. Transactions in fixed income and

certain other securities generally involve payment of mark-ups or mark-downs or other charges to dealers other than CGMI in addition to the asset-based fees. See “GENERAL ACCOUNT INFORMATION–*Additional Information Regarding Fees and Charges.*” The standard annual fees are as follows:

TPG U.S. Enhanced Liquidity Portfolios

- 0.30% on the first \$10 million
- 0.25% on the next \$10 million
- 0.20% on the next \$30 million
- 0.15% on the remainder

TPG U.S. Fixed Income Portfolios

- 0.50% on the first \$5 million
- 0.40% on the remainder

TPG Short Term Global Bond Portfolio

- 0.60% on all assets
- 0.20% custody fee

TPG Global Bond Portfolio

- 1.20% on all assets
- 0.20% custody fee

TPG European Bond Portfolio

- 1.25% on all assets
- 0.20% custody fee

TPG U.S. Equity and Balanced Portfolios

- 1.00% on the first \$3 million
- 0.75% on the next \$2 million
- 0.50% on the remainder

TPG International Equity Portfolios

- 1.50% on the first \$2 million
- 1.25% on the remainder

TPG International ADR Portfolios

- 1.25% on the first \$2 million
- 0.75% on the remainder

TPG European Equity Portfolios

- 1.25% on all assets
- 0.20% custody fee

TPG Islamic Global Equity Portfolio

- 1.75% for \$3 to \$5 million
- 1.50% for \$5 million and above
- 0.20% custody fee

Global Discretionary Portfolios (GDP)

	\$1-3m	\$3-5m	\$5+m
Fixed Income	1.00%	0.85%	0.75%
Conservative	1.50%	1.25%	1.00%
Balanced	1.75%	1.50%	1.25%
Growth	1.75%	1.50%	1.25%
Equity	2.00%	1.75%	1.50%

- Fee will be reduced but not below zero, by any trailer fee paid by a mutual fund held in the portfolio to TPG.

Global Discretionary Portfolios Plus (GDP+)

	\$3-5m	\$5+m
Defensive	0.85%	0.75%
Conservative	1.25%	1.00%
Balanced	1.50%	1.25%
Growth	1.50%	1.25%
Aggressive	1.75%	1.50%

- Fee will be reduced but not below zero, by any trailer fee paid by a mutual fund held in the portfolio to TPG.
- There is no portfolio level performance fee, but a performance fee may be charged at both the private investment fund level, as well as at the level of any portfolio investment underlying any private investment fund.

Tailored Discretionary Portfolios (TDP)

- 1.75% on all assets
- 0.20% custody fee
- Fee will be reduced but not below zero, by any trailer fee paid by a mutual fund held in the portfolio to TPG.
- There is no portfolio level performance fee, but a performance fee may be charged at both the private investment fund level, as well as at the level of any portfolio investment underlying any private investment fund.

In addition, the client will bear a proportionate share of the fees and expenses incurred by any mutual funds in which the client is invested. The prospectus of each of these funds describes these internal fees and expenses in detail. For more information relating to fees, see “GENERAL ACCOUNT INFORMATION—*Compensation from Funds*.” Fees and minimum fees, as well as minimum account sizes, are negotiable based on a number of factors, which may result in a particular client paying a fee greater or less than the standard fees. Fees are generally payable monthly in arrears.

The portion of the asset-based fee paid by CPB to TPG is generally 50% of the client fee in the US. In Europe, CPB generally pays TPG 30 bps for fixed income portfolios and 45 bps for balanced and equity portfolios.

The TPG fees listed above are subject to change without notice.

Private Bankers’ compensation is directly affected by the amount of the client’s annual fee. Therefore Private Bankers may have an incentive to recommend equity, and balanced portfolios over fixed income portfolios since the former have higher standard annual fees than the latter.

A.5. All Programs

Compensation Paid to CGMI and CPB

CGMI, through Clearing Firm, may permit qualifying clients to obtain loans on a non-purpose basis secured by the value of eligible securities in the client’s account (such loans referred to as “Non-Purpose Loans”). A Non-Purpose loan is defined as a loan whose proceeds cannot be used to purchase, carry or trade in securities or to repay debt incurred through the purchase of securities. CGMI may earn fees and other income for services provided in connection with the Non-Purpose Loans, in addition to the asset-based fee earned on collateral (asset-based fee account assets) for the Non-Purpose Loans. Before taking out a Non-Purpose Loan, the client should consider (i) the alternative of liquidating part of the account and (ii) the possibility that the return on the collateral may be lower than the interest paid on the Non-Purpose Loan (especially, if the collateral is a low-producing asset class, such as a money market fund). The client should be aware that CGMI or Clearing Firm, acting as client’s creditor, will have the authority to liquidate all or part of the account at any time to repay any portion of the Non-Purpose Loan, even if the timing of the liquidation may be disadvantageous to the client. CGMI does not provide margin loans for the purpose of managed accounts that may increase performance (with the resulting increased risk of loss) of client’s account. Additionally, CGMI will have an interest in preserving the value of the collateral, which could be deemed to present a potential conflict of interest in connection with its management of the account.

CPB, through Citibank, may permit qualifying clients to take out bank loans that are secured by assets in the clients’ accounts. Clients can represent to Citibank how they intend to use the proceeds of the loans which may include purchasing securities. These bank loans are separate relationships from an investment advisory relationship. CPB does not solicit clients to take out bank loans in order to purchase additional assets within managed accounts. CPB may earn fees and other income for services provided in connection with the bank loans, in addition to any asset-based fees earned on managed accounts (asset-based fee account assets) which may serve as collateral for the bank loans. Before taking out a bank loan, the client should consider (i) the alternative of liquidating part of the account and (ii) the possibility that the return on the collateral may be lower than the interest paid on the bank loan (especially, if the collateral is a low-producing asset class, such as a

money market fund). The client should be aware that CPB, acting as client's creditor, will have the authority to liquidate all or part of the account at any time to repay any portion of the bank loan, even if the timing of the liquidation may be disadvantageous to the client. Additionally, Citibank will have an interest in preserving the value of the collateral, which could be deemed to present a potential conflict of interest in connection with CPB's (directly or through CGMI) management of the account.

CGMI May Be Restricted in its Ability to Trade or Provide Certain Advice

In order to comply with applicable regulatory requirements, there are time periods during which CGMI is not permitted to initiate or recommend certain types of transactions in the securities of issuers for which CGMI is performing investment banking services. In particular, when CGMI is engaged in an underwriting syndication or other distribution of corporate or municipal securities, CGMI may be prohibited from purchasing or recommending the purchase of certain securities of an issuer for its clients. Notwithstanding the circumstances described above, a client, on their own initiative, may direct CGMI to place orders for specific securities in the client's account. From time to time, restrictions are imposed by CGMI to address the potential for self-dealing by CGMI and conflicts of interest that may arise in connection with CGMI's broker-dealer and investment banking businesses. CGMI has adopted various procedures to guard against insider trading that include an "Information Barrier" procedure, pursuant to which information known within one area of CGMI (e.g., investment banking) may not be distributed to other areas (e.g., investment advisory), and use of a restricted list and various other monitoring lists. These investment banking or other activities may from time to time compel CGMI, the Overlay Manager or their affiliates to forgo trading in the securities of companies with which these relationships exist. This may adversely impact the investment performance of a client's account.

CGMI May Give Conflicting Advice or Trade Differently for Itself than Client's Accounts

CGMI and its affiliates may recommend securities in which it directly or indirectly has a financial interest and may buy and sell securities that are recommended to clients for purchase and sale. CGMI may also provide advice and take action in the performance of its duties to certain program clients which differs from advice given, or the timing and nature of action taken, for other clients' accounts. Moreover, CGMI or any of its affiliates may advise or take action for itself or themselves differently than for CGMI clients. In addition, CGMI, its affiliates and employees, including Private Bankers, may invest with any investment managers. In situations in which Private Bankers purchase or sell certain securities for their own accounts on the same day that transactions in such securities are effected for client accounts, the price paid or realized by advisory personnel generally may not be more advantageous than the price at which the client transactions are effected. If orders by advisory personnel are part of a batched client order and the entire block of securities is then not executed on the same day, no part of the order executed is permitted to be allocated to any advisory personnel. However, Private Bankers are not subject to additional personal trading restrictions, such as extended blackout periods, that are applicable to CGMI employees who are associated with an affiliated manager.

Citibank Role as Overlay Manager

Citibank (either directly or through an affiliate or business unit) provides certain portfolio implementation and overlay services in connection with certain of the advisory programs described herein (in such capacity, the "Overlay Manager").

Implementation and Coordination Services Provided

The Overlay Manager provides the following portfolio implementation and overlay services (as applicable) for client accounts invested in certain of the advisory programs described herein:

- i. implementing investment instructions furnished to Overlay Manager by investment managers concerning the securities to be purchased, held, or sold for client accounts and determining the amount of securities to be purchased or sold for client accounts in accordance with rules and procedures agreed to by Overlay Manager and the investment managers;
- ii. placing orders for and arranging for the purchase or sale of securities with broker-dealers to implement the investment instructions of the investment managers and/or, to the extent agreed between the Overlay Manager and an investment manager and at the discretion of the Overlay Manager, communicating the amount of securities to be purchased or sold for client accounts to an investment manager for execution with broker-dealers selected by the investment manager;
- iii. placing orders for the purchase, sale, or redemption of shares of mutual funds and exchange-traded funds to implement the investment instructions of clients and/or investment managers (applicable for portfolios and programs involving investment in such funds);
- iv. rebalancing client accounts among two or more investment styles (applicable for accounts with multiple investment

styles represented);

- v. coordinating a client account's non-fund holdings (applicable for accounts with multiple non-fund investment styles represented) in consultation with the applicable investment managers;
- vi. implementing reasonable restrictions imposed by a client on the management of the non-fund holdings portion of such client's account; and
- vii. managing client accounts consistent with asset allocation and non-registered fund, registered investment company or asset class selections made by clients.

Overlay Manager is directed by the applicable investment manager's instructions as to the securities to purchase and sell for client accounts, except as otherwise noted in the description of a specific program. Overlay Manager follows the instructions of the investment managers in determining the timing and extent of rebalancing among multiple investment styles in a balanced account or multiple discipline account.

In coordinating a client account's non-fund holdings, Overlay Manager may, in consultation with the applicable investment managers, eliminate or reduce portfolio overlap resulting from a particular security being recommended by more than one investment manager. Overlay Manager will also monitor an individual security's position size within a client's account based on parameters set by the applicable investment manager and, in consultation with the investment manager, reduce such position size should a security's position reach certain levels.

Execution of Transactions when Citibank is the Overlay Manager

This section describes Overlay Manager's handling of trade execution responsibilities for client accounts. Overlay Manager and an investment manager may agree that such investment manager, at the discretion of Overlay Manager, is responsible for executing all or certain transactions on behalf of client accounts. Overlay Manager has no execution responsibilities for these transactions and will not be in a position to monitor for best price and execution.

Each client (or the program sponsor of a wrap fee program in which a client participates) generally directs Overlay Manager to execute, or is generally informed that Overlay Manager will execute, securities transactions through the client's program sponsor or a broker-dealer designated by the sponsor (designated broker), subject to Overlay Manager's obligation to seek best execution. To the extent not inconsistent with such directions, disclosures and applicable agreements, Overlay Manager, in its sole discretion and in accordance with applicable law (including Overlay Manager's obligation to seek best execution), may effect transactions for accounts through or with the program sponsor, the program's designated broker-dealer or any other broker or dealer.

It is Overlay Manager's policy to seek best qualitative execution when executing transactions on behalf of clients. Best execution is not necessarily measured by the circumstances surrounding a single transaction but may be sought over time across multiple transactions. Overlay Manager may select broker-dealers, including alternative execution services (e.g., electronic communication networks and crossing networks), for trade execution which, in its best judgment, provide prompt and reliable execution at favorable security prices with reasonable commission rates and/or other transaction costs. The best net price, giving effect to brokerage commissions, commission equivalents, spreads and other costs, is an important factor in this decision, although a number of other factors may also enter into the decision. These factors may include price level; available commission rates, mark-ups, mark-downs and/or spread levels; the nature of the security being traded; the size and complexity of the transaction; the desired timing of the trade; the activity existing and expected in the market for the particular securities; confidentiality; execution, clearance and settlement capabilities; counterparty financial condition and reliability; the availability of capital commitment; and other relevant and appropriate services of the broker-dealer.

Overlay Manager may implement purchase and sale transactions in ADRs for client accounts through broker-dealers that facilitate investment in ADRs through transactions in a company's ordinary shares in non-U.S. markets and the conversion of such shares into ADRs. Such transactions typically involve foreign exchange, ADR conversion and related costs and charges which are reflected in a net price paid or received by the client. Such costs and charges are in addition to the fees and commissions payable for account management and security trade execution.

If the client is a participant in a wrap fee program, under which the client is charged an asset-based fee for portfolio management and trade execution services, the client typically will not pay any transaction-specific commissions on agency trades executed by the program sponsor or designated broker. A wrap fee program client may pay transaction-specific commissions, commission equivalents or spreads on trades Overlay Manager directs to a broker-dealer other than the program sponsor or designated broker. These fees or charges may be separately charged to the client's account or reflected in the security net price paid or received. Due to the separate fees or charges that may be incurred when Overlay Manager effects trades for a wrap fee program client with broker-dealers other than the program sponsor or designated broker, it is

expected that Overlay Manager will effect a large percentage of transactions for a client's account that are driven by activity specific to that account (e.g., additions and withdrawals) with the program sponsor or designated broker.

In the case of trades that are driven by a change in an underlying investment manager's investment model and that need to be effected for many clients, Overlay Manager generally will seek to aggregate these trades for execution through a single broker-dealer in a block trade and then to step out those trades to the applicable program sponsor for clearance and settlement in the ordinary course. Overlay Manager has established relationships with one or more broker-dealers that generally could agree to execute such block trades at no additional cost to Overlay Manager's clients. A portion of the client accounts participating in the trade typically will be accounts that have paid a wrap fee covering execution to the executing broker-dealer ("non-trade away accounts"). A portion of participating accounts will be accounts that pay a wrap fee or transaction-specific compensation to a broker-dealer other than the executing broker-dealer ("trade away accounts"). For trade away accounts, Overlay Manager directs the executing broker-dealer to allocate and deliver the portion of the trade attributable to such accounts to the client's sponsor or designated broker for clearance and settlement. While aggregating trades as indicated could be viewed as providing a benefit to trade away accounts at the expense of non-trade away accounts, it should be noted as an equitable matter that: (i) trade away clients pay transaction-related compensation to their designated broker-dealer instead of the executing broker-dealer, and (ii) it is not expected that the wrap fees paid by non-trade away clients will be affected by such block trading arrangements.

In engaging an underlying investment manager, CPB or an affiliate will seek assurances that the investment manager will communicate model changes to Overlay Manager in accordance with procedures that are designed to be fair and equitable to Overlay Manager's clients in relation to other clients of the investment manager. Such procedures could include a rotation process or the simultaneous transmission of model change information to multiple venues, including Overlay Manager and a trading desk maintained by the investment manager to effect transactions on behalf of other client accounts, or a combination of both. In the case of simultaneous transmission, it is anticipated that orders that Overlay Manager places in most cases will end up competing in the marketplace with orders placed by the investment manager's trading desk on behalf of its other clients. This competition has the potential to negatively impact all clients of the investment manager, though competition concerns are mitigated where the securities involved have significant trading volume and high liquidity. In the case of less liquid securities, an underlying investment manager may seek to mitigate competition concerns through the use of limit orders and specific price targets, among other means. In some circumstances, an investment manager may communicate instructions to the Overlay Manager with respect to an account trade after the investment manager has filled orders for the same trade for other clients of the investment manager. An account may not receive as favorable price as would be the case if the trade had been made at the time that the investment manager placed orders for its other clients. Therefore, the process may negatively impact on the performance of the account. However, CPB (directly or through affiliates) is beginning a process to periodically monitor an investment manager's performance in a particular style compared to the performance of CPB accounts (managed in accordance with that manager's instructions for that style) designed to detect material differences in performance, if any. Ultimately, it is the investment manager's responsibility to ensure that the clients are treated fairly and equitably in the transmission of model change information.

While Overlay Manager has established processes to implement model change trades promptly, an investment manager's trading desk may, notwithstanding the simultaneous transmission of model change information, be able to place certain trade orders with broker-dealers for its other client accounts prior to the time that Overlay Manager is able to do so for wrap fee program clients due to unique servicing requirements associated with such accounts. Overlay Manager's clients could be negatively impacted by such timing differences.

Aggregation of Trade Orders; Trade Allocation; and Restrictions when Citibank is the Overlay Manager

As noted in "Item 4A.5—Execution of Transactions When Citibank is the Overlay Manager," the Overlay Manager generally will seek to aggregate trades that are driven by a change in the investment model of an underlying investment manager and that need to be effected on behalf of a range of client accounts. In such event, the transaction will be allocated by the Overlay Manager according to one or more methods designed to ensure that such allocation is equitable and fair. These methods include pro rata allocation and random allocation. Pursuant to these methods, aggregated orders effected each day are averaged as to price. Under the random allocation method, a partially filled order is allocated to accounts included in the aggregated order on a random basis by the Overlay Manager's trading system. This method generally will be used by the Overlay Manager only after consulting with and seeking direction or agreement from the portfolio management team at the applicable investment manager. The random allocation method is intended for situations in which the partial execution quantity is an amount that does not allow for a pro rata allocation of securities to all accounts or does not allow for a meaningful allocation of securities to all accounts. Where an aggregated order covers clients in multiple investment manager programs, the securities generally are allocated to the investment manager programs participating in the order on a pro rata basis. The securities are then allocated to clients within each investment manager program following one of the accepted

trade allocation methods. The Overlay Manager does not consider account performance or fee structure in making investment opportunity allocation decisions. As a general rule, orders for employees will not be aggregated with orders for client accounts. However, managed accounts in which employees have an interest may be aggregated with orders for other accounts so long as the employee accounts are treated in the same manner as other accounts.

When the Overlay Manager has discretionary authorization to effect investment transactions in a managed account, the extent of and limitations on that authority are determined by agreement with the financial institution, acting on its client's behalf, or by agreement directly with the client. For example, conditions could be imposed which prohibit the purchase of specific industry groups or stocks for personal reasons or prohibit the purchase of stocks which would increase individual security or industry/economic sector holdings above a certain percentage. It is the Overlay Manager's policy to honor the limitations on authority that are agreed to, which necessarily vary from client to client based upon client objectives and other factors, but the Overlay Manager is not otherwise generally limited as to such authority. The Overlay Manager will rely on financial institutions to provide the Overlay Manager with any special instructions or limitations on authority that a financial institution client has given the financial institution in connection with the management of the client's funds.

A restriction imposed on a CGMI account (other than the investment management portfolios) is applied at the time of purchase to securities purchased by the Overlay Manager for the account and does not apply to securities transferred into the account, securities already held in the account at the time the restriction is imposed, securities that first come within a restriction following the Overlay Manager's purchase of such securities, and securities acquired as a result of corporate actions (e.g., stock splits, stock dividends). A client may direct the Overlay Manager to sell particular securities or types of securities held in the client's account by contacting his or her financial institution representative.

Types of Investments, Methods of Analysis, Sources of Information and Investment Strategies

As noted above, Overlay Manager purchases and sells securities on the basis of investment instructions furnished by investment managers to Overlay Manager for implementation. In addition, for balanced accounts and Multiple Discipline Accounts, Overlay Manager follows the instructions of the investment managers in determining the extent of rebalancing among multiple investment styles. Subject to the foregoing, Overlay Manager's investment strategies may involve long-term or short-term trading, short sales, margin transactions and option writing, and generally may extend to: exchange-listed, over-the-counter and foreign securities and rights and warrants to acquire the same; corporate, municipal, foreign and U.S. government debt securities, including those guaranteed by such governments or issued by their agencies and instrumentalities and repurchase and reverse repurchase agreements including any of the foregoing; securities options; mortgage-backed or other asset-backed securities and structured notes; certificates of deposit; certain derivative instruments; commercial paper; bankers acceptances; and mutual fund shares. Not all of these strategies are appropriate for all clients, however, and only those strategies believed to be suitable will be used in any given client account or advisory program. It is anticipated that there may be a substantial degree of uniformity in client portfolios of the same investment style as a result of the common investment objectives of the clients who have selected that style.

Overlay Manager may also invest client assets in unaffiliated ETFs. These funds are unmanaged and typically represent U.S. securities markets, industry and market capitalization sectors, non-U.S. country and regional markets, and other types of non-U.S. securities markets and market sectors (e.g., emerging markets). To the extent an ETF represents securities of non-U.S. issuers, it will involve the additional non-U.S. investment risks. Investments in securities of non-U.S. companies involve certain risks in addition to those risks ordinarily associated with investing in securities of domestic issuers. These additional risks include the potentially negative effects of fluctuations in foreign currency exchange rates, future political and economic developments, foreign taxation and differences in auditing and other financial standards. In addition to the wrap or management fees charged at the account level, a client will bear a proportionate share of the fees and expenses incurred by any unaffiliated ETF in which a portion of such client's account is invested.

Overlay Manager's investment management services, other than implementation of investment manager investment instructions, generally rely on fundamental analysis with supplemental technical analysis which may include charting or cyclical review. Computer technology may be employed to more readily display these factors to portfolio managers. Information is derived from many sources, which may include: proprietary research; financial publications (including newspapers and magazines), industrial manuals and publications; company visits; inspections of corporate activities; direct contact with and press releases and other reports released by companies; annual reports, prospectuses and filings made with the SEC; research materials prepared by other firms; governmental reports; timing services; and corporate rating services.

Mutual Funds in Advisory Programs

Mutual funds typically offer different ways to allow clients to purchase mutual fund shares. Some mutual funds will only offer one share class for a particular fund while other mutual funds offer many types of shares classes. In addition to the more broadly known retail share classes (A, B, and C shares), mutual funds have developed additional types of specialized

share classes designed for specific advisory programs. If available, clients will be converted into the share class that is required by the mutual fund company for that type of account. Depending on the circumstances, clients may be converted into a share class that has a lower or a higher operating expense.

Clients will authorize CPB (without notice to client) to convert any open end mutual fund in an account to a share class of the same fund which is a load-waived or no-load share class, such as an Institutional ("I") share, Financial Intermediary ("FI") share, or advisory program share.

Clients will authorize CPB, upon termination of the client account for any reason or the transfer of mutual fund shares out of the account into a CPB or CGMI retail account, to convert any I share(s), FI share(s) and/or advisory share(s) of any mutual fund to the corresponding mutual fund's primary or appropriate non-advisory share classes. The primary or appropriate non-advisory share class generally has higher operating expenses than the corresponding FI, I and advisory share classes, which may negatively impact investment performance.

Additional Risk Disclosure

Different classes of securities have different rights as creditor in the event the issuer files for bankruptcy or reorganization. By way of example, bondholders' rights generally are more favorable than shareholders' rights in the event of a bankruptcy or reorganization.

Special Considerations Regarding Investments in Alternatives

As further described in the offering documents, an investment in alternative investments can be highly illiquid, is speculative and not suitable for all investors. Investing in alternative investments is intended only for experienced and sophisticated investors who are willing to bear the high economic risks of the investment. Investors should carefully review and consider potential risks before investing. Certain of these risks may include loss of all or a substantial portion of the investment due to leveraging, short-selling, or other speculative practices; lack of liquidity in that there may be no secondary market for the alternative investment and none expected to develop; volatility of returns; restrictions on transferring interests in the alternative investment; potential lack of diversification and resulting higher risk due to concentration of trading authority when a single adviser is used; absence of information regarding valuations and pricing; complex tax structures and delays in tax reporting; less regulation and higher fees than mutual funds; and advisor risk. Individual alternative investments will have specific risks related to their investment programs that will vary from investment to investment.

Depending upon the specific alternative investment, such as an alternative investment that is subject to a lock-up period, client may not be able to liquidate the investment. Prior to investing, clients should review the offering materials for such illiquid investments, in particular the terms of any restrictions on the premature termination or liquidation of client's investment.

B. Cost of CPB Asset-Based Fee Programs and Services Relative to Non-Asset-Based Fee Alternatives; Relative Costs of CPB Asset-Based Fee Program Alternatives

Clients who participate in the programs or retain the services described in this brochure and who pay asset-based fees for a variety of services may pay more or less for these services than if they purchased the services separately. Factors that bear upon the cost of CPB's asset-based fee programs in relation to the cost of the same services purchased separately include, among other things, the type and size of the account, the historical and expected size or number of trades for the account, and the number and range of supplementary advisory and client related services provided to the account.

Investment managers may offer to the public other investment products such as mutual funds with similar investment styles and holdings as those investments offered through the CPB programs. The managers may offer these products with fees and charges that may be higher or lower than the fees imposed by CPB under an advisory program. Clients should discuss all investment options with their Private Banker.

C. Additional Information Regarding Fees and Charges

In addition to the asset-based fees and fee-plus-commission fees specified above, clients of CPB may pay additional fees or charges in connection with their accounts or certain securities transactions. These may include (but are not limited to): commissions and other charges for executing transactions (except in the case of asset-based-fee account trades executed through CGMI or Clearing Firm); interest on any debit balances; dealer mark-ups, mark-downs and spreads; auction fees; certain odd-lot differentials; exchange fees; transfer taxes; electronic fund and wire transfer fees; charges imposed by custodians other than Citibank or Clearing Firm; certain fees in connection with custodial, trustee and other services rendered by a CPB affiliate; IRA accounts can be charged a termination fee of \$50, which may be amended from time to time; SEC fees on securities trades; any other charges mandated by law; and certain fees in connection with the establishment, administration or termination of retirement or profit sharing plans or trust accounts. In addition, if CGMI is a member of the

underwriting syndicate from which a security is purchased, CPB and CGMI will benefit from such purchase. Furthermore, there may be additional fees when trading in foreign securities and ADRs.

If an open or closed end mutual fund or an ETF is used as an account investment, the client will pay its pro rata share of the fund's investment advisory fees and other expenses to the fund manager or other service provider (which service provider may be affiliated with CPB), such as distribution or servicing fees in addition to the account level fee.

For LMPP, the fees paid by the client will be offset by an estimate of the client's pro rata share of investment advisory fees, if any, to be paid to LMPPG and its affiliates for performing investment advisory services on behalf of a mutual fund (other than a money market fund) in which account assets are invested, except to the extent LMPPG and its affiliates will waive or forego, in whole or in part, such investment advisory fees. The fees paid by the client for LMPPG will not be offset by the client's pro rata share of administration fees, if any, paid to LMPPG and its affiliates for performing administrative services on behalf of a mutual fund or by other expenses of the fund.

Fees or commissions may be negotiable based upon a number of factors, including, but not limited to, the type and size of the account, the historical and/or expected size or number of trades for the account, and the number and range of supplemental advisory and client-related services to be provided to the account. Moreover, fee minimums and account minimums may vary as a result of the application of prior schedules depending upon the client account inception date. Minimum account sizes also may be waived under certain circumstances. Performance-based fees may also be charged to eligible clients, are negotiable, and will be in compliance with any applicable provisions of Rule 205-3 under the Investment Advisers Act of 1940, as amended (the "Advisers Act"). From time to time, the fees for certain of the advisory services described herein may be reduced for employees of CPB or its affiliates. For more information regarding the above, contact your Private Banker.

Additional assets received into an account during any billing period may be charged a pro-rata fee based on the number of days remaining in the billing period. No adjustments will be made to the fee for appreciation or depreciation in the market value of securities held in the account, or for partial withdrawals by client, during any billing period for which such fee is charged. In the event the investment advisory agreement is terminated by either party prior to the end of a billing period, a pro-rata refund of the fee will be made.

Generally, interest will be charged to a client's account should the account have a debit balance as a result of the client's activity. Any debit balance will not be deducted from the account balance for purpose of the calculation of the advisory or consulting fee due to CPB. When Citibank has custody of the client's assets, it (either directly or through Clearing Firm) credits interest and dividends to the account. All client billing for fee-based programs will be based on the statement value including the accrued interest portion of fixed income securities.

In the asset-based fee programs described in this brochure, the investment manager is obligated to seek the best net results (price, research, and execution) for securities trades undertaken for each client. In seeking best execution for equity securities and other instruments traded in the "agency" markets (typically those executed through an exchange, to which orders are directed by a broker-dealer acting as agent for a client), such investment manager may direct orders to CGMI or Clearing Firm. In connection with these trades, client will not pay CGMI or Clearing Firm any commissions. Alternatively, the investment manager in its discretion may determine to direct agency trades to other broker-dealers that are unaffiliated with CGMI or Clearing Firm. In such instances the client will bear the cost of any commissions charged by the executing broker-dealer. These other broker-dealers may charge a commission for these trades, and may "step-out" the trades to CGMI or Clearing Firm for clearance and settlement. Investment managers in the asset-based fee programs described above are likely to execute a substantial percentage of such transactions for clients with CGMI or Clearing Firm.

The investment manager (including the investment managers in LMPP) may act as investment manager for other investment management programs ("Other Programs"). The investment manager may have arrangements with one or more broker-dealers that are not affiliated with the investment manager, CGMI or Clearing Firm (the "Step-Out Broker"), pursuant to which the investment manager may direct a block of trades (which block may include trades for a CPB program described herein as well as for Other Programs) to the Step-Out Broker. In these arrangements, the Step-Out Broker may execute these blocks of trades at no commission, and "step-out" the program trades to CGMI or Clearing Firm for clearance and settlement. Similarly, the investment manager may direct a block of trades (which block may include trades for a CPB program described herein as well as for Other Programs) to CGMI or Clearing Firm for execution, in which event CGMI or Clearing Firm may execute these blocks of trades at no commission and "step-out" the Other Program trades to other broker-dealers for clearance and settlement. Although the Step-Out Broker, CGMI and Clearing Firm may execute these trades at no commission, they may obtain a benefit from executing the block trades, as a result of the increased trading volume attributable to these blocks.

The investment manager may place these block trades at or about the same time the investment manager (or any subadviser responsible for the underlying investment decision) places block or other trades for the same securities on behalf of mutual

funds, institutional separate accounts or other investment management clients of such investment manager or subadviser, and that may result in a market impact for the securities traded. The investment manager will engage in these “step-out” transactions, but only where the investment manager has determined that doing so is consistent with its obligation to seek best execution for clients. Where the client has elected to pay CPB on a fee plus commission basis at an agreed upon commission rate, the commission rate charged by CPB to the client will generally be at the agreed upon rate, whether the trade is executed by CGMI or Clearing Firm or is executed by another broker-dealer and “stepped-out” to CGMI or Clearing Firm for clearance and settlement as described above. This is so whether the other broker-dealer executes the trade at no commission or charges the client a commission on the trade (in addition to the commission charged to the client by CPB). The investment manager will not consider the agreed upon commission rate for fee plus commission accounts in determining whether execution is “best execution”.

Certain securities, such as over-the-counter (including NASDAQ-traded) stocks and fixed income securities, are primarily traded in “dealer” markets. In such markets, securities are directly purchased from or sold to a financial institution acting as a dealer or “principal.” Principal trades are executed on a “net” basis, with the net price paid or received by the client reflecting any trading profit retained or loss incurred by the dealer executing the transaction as well as any mark-up or mark-down over or under the reported execution price.

In the case of clients in LMPP that pay on a fee plus commission basis, the client pays the investment manager directly for its fee and pays CPB for its services on the basis of transactions sent by the investment manager to CGMI or Clearing Firm for execution. The compensation earned by CPB from such transactions is in lieu of a fee for its services. The client agrees to furnish the investment manager with a letter informing the investment manager of client’s compensation arrangement with CPB and instructing the investment manager to use CGMI or Clearing Firm for executing transactions for client’s account so long as such use is not inconsistent with the investment manager’s obligation to seek best execution for its clients. The commissions charged by CGMI may exceed those that other broker-dealers may charge. Generally, the commission rates payable by a client are negotiated between the client and his or her Private Banker, except as specifically provided herein. A client may negotiate a commission rate that exceeds that rate paid by other clients and the rate that the client’s investment manager may be able to obtain from other broker-dealers. There is no minimum or maximum total amount of compensation CPB and its Private Bankers may receive from the investment manager’s decision to execute transactions for the account at CGMI or Clearing Firm. The investment manager’s decision to use CGMI or Clearing Firm to execute transactions for the client’s account may result in executions that may not be as favorable as otherwise would be the case, and the client may forego other benefits, such as the ability to participate in block trades. Less favorable execution or the inability to participate in block trades may result in poorer investment performance.

D. Compensation

Private Bankers earn a salary and may earn a bonus. The amount of any bonus is based on a pre-determined scorecard that includes both financial and non-financial criteria. A portion of the fees and/or brokerage charges for the programs offered herein are paid to Private Bankers or employees of CGMI affiliates who introduce accounts and provide other services. CPB may make these payments for the duration of client accounts. The amount of the fees received by CPB, Private Bankers and employees of CPB affiliates may be greater, depending upon (among other factors) (i) whether the client participates in an asset-based fee program instead of paying separately for investment advice, brokerage and other services, (ii) whether the client’s portfolio is managed by an investment manager affiliated with CPB rather than an unaffiliated investment manager and/or (iii) the asset-based fee program selected by the client. In addition, CPB and its affiliates retain a larger portion of the fee when an affiliated investment manager is used, since no part of the fee is shared with an outside manager. Because of these factors, CPB, Private Bankers and employees of CPB affiliates may have a financial incentive to recommend certain alternative methods of paying program fees and charges (such as asset-based fees) over another alternative (such as fee plus commission), or one program (such as a CPB program using a CPB-affiliated investment manager) over another program (such as a CPB program using an unaffiliated or third-party investment manager).

Block Trades May Benefit CGMI or its Affiliates

As explained in “Item 4C–Additional Information Regarding Fees and Charges,” an investment manager may direct some block trades to CGMI or Clearing Firm for execution, which block may include trades for a CGMI program described herein as well as for Other Programs. Although CGMI and Clearing Firm executes these block trades at no commission, CGMI may obtain a benefit from executing these block trades, as a result of the increased trading volume attributable to these blocks.

ITEM 5. ACCOUNT REQUIREMENTS AND TYPES OF CLIENTS

Detailed below are the general account minimums by program; account minimums may vary depending on certain investment managers, firms and investment styles:

Manager Selection Program - \$500,000

Citi ETF Program - \$25,000 - not currently open to new clients

Dynamic Allocation Portfolios – UMA Program - \$25,000

Consulting and Evaluation Services Program - \$1,000,000

Fiduciary Asset Management Program - \$25,000,000 - not currently open to new clients

Investment Advisory Services program - \$25,000,000

Legg Mason Private Portfolios Program - \$500,000 - not currently open to new clients

Umbrella Portfolios Investment Management Program - \$5,000,000

The Tailored Portfolio Group Program - \$500,000 to \$10,000,000 (depending on the strategy)

Private Bankers may have discretion to waive certain account minimums listed above. Portfolio manager minimums may vary at the discretion of the manager.

Clients include individuals, banking and thrift institutions, investment companies, pension and profit sharing plans, other pooled investment vehicles, charitable organizations, corporations or other businesses, and state and municipal government entities.

ITEM 6. PORTFOLIO MANAGER SELECTION AND EVALUATION

A. Research in Advisory Programs

CGMI and its affiliates (or a third party retained by CGMI or an affiliate) use(s) two methods -- CitiAccess List or CitiFocus List -- to evaluate investment managers, mutual funds, and other types of products (other than ETFs) in the advisory programs described herein. All such products are collectively referred to as “Program Investment Products.” Each ETF in the advisory programs must be screened and determined to comply with the IPR Policy.

In general, “CitiFocus List” entails a more rigorous and thorough evaluation of a Program Investment Product than CitiAccess List and fewer investment options will qualify under the CitiFocus List standard than the CitiAccess List standard. Program Investment Products that meet the CitiFocus List standard may be described as being on the CitiFocus List. Program Investment Products that meet the CitiAccess List standard may be described as being on the CitiAccess List. It is important to note that not all Program Investment Products available in CGMI’s advisory programs were approved or evaluated under CitiFocus List or CitiAccess List. The specific advisory programs that limit Program Investment Products only to those that have been approved through CitiFocus List or CitiAccess List are described herein or in the separate sales and disclosure materials related to those programs.

In general the IPR Policy is a Citigroup policy that describes the criteria for screening exchange traded products, including ETFs, that may be recommended to clients.

CitiFocus List

In the more in-depth “CitiFocus List” process, CGMI evaluates various qualitative and quantitative factors of each Program Investment Product. Relevant documentation on the Program Investment Product(s) being evaluated may include biographies of key investment personnel, the Program Investment Product(s) investment philosophy and process as well as sample portfolios for various time periods, asset allocation histories, its Form ADV (the adviser registration form), past performance information and marketing literature. For verification purposes, the review process may include a comparison of the Program Investment Product’s reported performance with the performance of a cross-section of actual accounts as computed by Clearing Firm. CGMI personnel also may interview the investment manager and its key personnel and examine its operations. Program Investment Products are presented to the Global Investment Manager Research Committee for approval, and Program Investment Products that are approved under the CitiFocus List process may be described as being on CGMI’s Focus List.

The appropriateness of the continued retention of a Program Investment Product as meeting the criteria for CitiFocus List is reviewed on a periodic basis. In conducting these reviews, CGMI considers a broad range of qualitative and quantitative factors including investment performance, staffing, operational issues and financial condition. Among other things, CGMI personnel interview each investment manager periodically to discuss these matters. For Program Investment Products with whom CGMI is familiar through repeated reviews, CGMI has increasingly emphasized quantitative analysis and interviews in other venues instead of in person meetings. In addition, CGMI may review the collective performance of a composite of

the CGMI accounts being managed by a particular investment manager and compare this information to overall performance data quoted by the manager and investigate any material deviations.

CitiAccess List

The less comprehensive “CitiAccess List” process generally uses a rules-based approach that reviews various qualitative and quantitative factors and ranks each investment option contained in a third-party database to evaluate various qualitative and quantitative factors of Program Investment Products under consideration for CitiAccess List. The factors which may be considered in determining whether a particular investment option will be approved under CitiAccess List include personnel depth, turnover and experience; business and organization characteristics; and investment past performance. Not all Program Investment Products reviewed under CitiAccess List will use this rules-based approach. When a Program Investment Product is processed under this approach, analysts review the information contained in the output to gauge the completeness and consistency of the data and then follow-up with the Program Investment Product’s manager or sponsor with additional information requests. The ultimate result of this effort is a conclusion by CGMI that the Program Investment Product either meets the CitiAccess List standard or does not. Program Investment Products that are approved under the CitiAccess List process may be described as being on CGMI’s Access List. Program Investment Products that meet the CitiAccess List standard also are reviewed periodically by CGMI to evaluate whether they continue to meet CGMI’s standard to be listed as approved. However, data and information provided by Program Investment Products in connection with the review process are not independently verified by CGMI.

In light of the differing research methodology and standards under CitiFocus List and CitiAccess List, CGMI may determine that a Program Investment Product no longer meets the criteria for CitiFocus List, or will no longer be reviewed under the criteria for CitiFocus List, but in either case does meet the criteria for CitiAccess List, in which case CGMI will generally notify the clients regarding such status changes on a quarterly basis. In addition, CGMI may determine that a Program Investment Product no longer meets the criteria under either research process and therefore in the future, the investment option will no longer be made available in CGMI’s advisory programs (a “Downgrade”) and the client will generally be notified of such Downgrade. The manner of notification will vary depending on the CGMI advisory program.

Investment Products Risk Procedures Regarding the Solicitation of Exchange Traded Products Policy

The IPR Policy is a Citigroup policy that describes the criteria for screening exchange traded products, including ETFs, that may be recommended to clients. The criteria for complying with the IPR Policy includes meeting certain standards which consider market value, lack of leverage, and the ETF provider’s amount of assets under management and experience in managing ETFs. Certain ETFs that do not meet these criteria may be approved subject to certain procedures.

Watch Policy

CGMI has a “Watch” policy for covered Program Investment Products. This status indicates that, in the course of its review of a given Program Investment Product, CGMI has identified specific areas of the investment manager’s business that (a) merit further evaluation by CGMI and (b) may, but are not certain to, result in a Downgrade in the future. Putting a Program Investment Product on Watch status does not signify an actual change in CGMI opinion nor is it a guarantee that a Downgrade will necessarily occur. The duration of a Watch status will vary according to the length of time necessary for CGMI to conduct its evaluation and for the Program Investment Product’s firm to address any areas of concern identified by CGMI. For additional information, clients should ask their Private Banker for a copy of CGMI’s Watch policy.

Portfolio Manager Performance

CPB does not use any industry standards, such as GIPS, to calculate performance of Managers. Funds calculate their own performance.

Review of Performance Information

Neither CPB nor any third party reviews Manager or Fund performance information to determine or verify its accuracy or its compliance with presentation standards.

Review of Portfolio Manager Performance

Although CPB screens past performance, it does not audit this data to verify either its accuracy or that each investment adviser has calculated past performance in a manner that is consistent with industry standards or the methodology used by other investment advisers. Further, CPB may make available for selection Managers and Funds that have no prior performance in particular styles. In such cases, CPB screens these candidates for all other applicable criteria described above and may evaluate past performance achieved in other styles as a consideration for inclusion in the Program.

B. Portfolio Manager for Wrap Fee Programs

The amount of the fees received by CPB and its affiliates may be greater, depending upon (among other factors) whether the client's portfolio is managed by an affiliated investment manager rather than an unaffiliated investment manager. In addition, CPB and its affiliates retain a larger portion of the fee when an affiliated investment manager is used, since no part of the fee is shared with an outside manager. Because of these factors, CPB may have a financial incentive to recommend an affiliated investment manager over an unaffiliated investment manager. Additionally, based purely on its status as an affiliate of the affiliated investment manager, CPB may have an incentive to treat such affiliated investment manager more favorably than an unaffiliated investment manager, resulting in CPB recommending the affiliated investment manager more frequently than an unaffiliated investment manager. CPB addresses these conflicts through disclosure in this brochure, client agreements, or both.

Affiliated investment managers are not required to meet the same standards as unaffiliated investment managers (see "Item 6A—Research in Advisory Programs"). Accordingly, affiliated investment managers will not be subject to any formal review process of any kind by CPB, its affiliates, or a third party (including, without limitation, a review of an affiliated investment manager's investment performance, staffing, operational issues and financial condition).

C. Additional Information Related to Wrap Fee Programs

Advisory Business

CPB and supervised persons of CPB act as a portfolio manager in connection with the following advisory programs: Umbrella Portfolios, TPG Program, Citi ETF, DAP (Firm Discretion only) and FAM. Additionally, in connection with MSP, CPB may select a replacement manager if client fails to select a replacement manager. Please see Item 4A.4—*Types of Advisory Services Offered* for a full description of each of these advisory programs.

Performance-Based Fees and Side-By-Side Management

None of Umbrella Portfolios, TPG Program, Citi ETF, DAP, FAM or MSP charge performance-based fees.

Methods of Analysis, Investment Strategies and Risk of Loss

Please see "Item 6A—Research in Advisory Programs" for a description of the methods of analysis and investment strategies used in connection with Umbrella Portfolios, TPG Program, Citi ETF, DAP, FAM and MSP.

Investing in securities and other financial instruments involves risks that may affect the value of the securities held in client accounts and result in losses to clients, including the potential loss of the principal amount invested. Potential risks include, among others, losses caused by adverse market conditions, market volatility, limited liquidity and other market action. Clients should be aware that neither CGMI nor any of its affiliates will be responsible for losses in value in client accounts, or for acting or failing to act with respect to client accounts, so long as CGMI acts in good faith.

Voting Client Securities

When investing in FAM, clients generally have the option to elect to have the investment manager vote proxies on the client's behalf. If a client elects this option, the investment manager will vote proxies related to all securities held in the managed account, including the discretionary assets invested by the investment manager held in the managed account.

When investing in the Umbrella Portfolios, TPG Program or Citi ETF, clients generally have the option to delegate all proxy voting rights to CPB (or an affiliate) and authorize CPB to further delegate all proxy voting rights to Institutional Shareholder Services ("ISS") or another proxy voting service (the "Proxy Voting Service") satisfactory to CPB. If a client elects this option, CPB or its designee, as applicable, will vote proxies related to all securities held in the managed account, including the discretionary assets invested by CPB and/or investment manager held in the managed account.

When investing in DAP, clients generally have the option to elect to have the Overlay Manager vote proxies on the client's behalf and instruct the Overlay Manager to follow the recommendations of the Proxy Voting Service. If a client elects this option, the Overlay Manager will vote proxies related to all securities held in the managed account, including the discretionary assets invested by CPB and/or investment manager held in the managed account. If the Proxy Voting Service does not have a recommendation for any proxy vote, the client directs the Overlay Manager to vote all proxies in proportion to the votes of the other holders of the security for which the proxy vote is requested.

In providing the above services, the investment manager, CPB, its designee or the Overlay Manager, as applicable, will vote proxies in accordance with applicable fiduciary obligations and proxy voting policies and procedures. These proxy voting policies and procedures (i) contain general guidelines that each party will follow to ensure that they vote proxies in a manner consistent with the best interests of clients and (ii) are designed to ensure that material conflicts of interest are avoided and/or

resolved in a manner that is consistent with fiduciary obligations. A copy of CPB and Overlay Manager proxy voting policies and procedures is available from your Private Banker, upon request. A client may also obtain information regarding how CPB, its designee or the Overlay Manager, as applicable, voted a specific proxy on behalf of a client's account by submitting a written request to their Private Banker.

If a client no longer wishes to have the investment manager, CPB, its designee or the Overlay Manager vote proxies for the assets in a managed account, the client may cancel the proxy waiver election immediately by contacting their Private Banker, in which case, the investment manager, CPB, its designee or the Overlay Manager, as applicable, will no longer be in a position to vote proxies for any securities in the client's managed account, including securities over which the investment manager or CPB has investment discretion. In this case, all such proxies will be delivered directly to the client for consideration. If a client no longer wishes to have the investment manager, CPB, its designee or the Overlay Manager vote proxies for the non-managed assets in the managed account, but would like the investment manager, CPB, its designee or the Overlay Manager to continue voting the proxies for the discretionary assets in the managed account, the client should contact the Private Banker and arrange to transfer the non-managed assets to another non-managed account.

ITEM 7. CLIENT INFORMATION PROVIDED TO PORTFOLIO MANAGERS

In connection with various advisory programs described herein, CPB or an affiliate may provide a client's completed questionnaire and client information form to the investment manager selected to manage the account. Clients may update or change information at any time by contacting the client's Private Banker. Any changed information will be transmitted promptly to the investment manager selected to manage the client's account.

ITEM 8. CLIENT CONTACT WITH PORTFOLIO MANAGERS

There are no restrictions on a clients' ability to contact and consult with their portfolio managers. However, as a general matter, the client usually contacts the banker or financial advisor to facilitate any discussions with the portfolio managers.

ITEM 9. ADDITIONAL INFORMATION

A.1 Disciplinary Information

Below are summaries of certain legal and disciplinary events that may be material to clients and prospective clients. Additional information about legal and disciplinary events is available in Item 11 of our Form ADV, Part 1A, available at www.adviserinfo.sec.gov.

SEC Administrative Proceeding Against Citigroup Global Markets Inc and Smith Barney Fund Management LLC

On May 31, 2005, the SEC issued an order in connection with the settlement of an administrative proceeding against CGMI and Smith Barney Fund Management LLC ("SBFM") relating to the appointment of an affiliated transfer agent for the Smith Barney family of mutual funds (the "Smith Barney Funds"). SBFM was an affiliate of CGMI during the relevant period.

The SEC order finds that SBFM and CGMI willfully violated Section 206(1) of the Advisers Act. Specifically, the order finds that SBFM and CGMI knowingly or recklessly failed to disclose to the Boards of the Smith Barney Funds in 1999 when proposing a new transfer agent arrangement with an affiliated transfer agent that: First Data Investors Service Group ("First Data"), the Smith Barney Funds' then-existing transfer agent, had offered to continue as transfer agent and do the same work for substantially less money than before; and that Citigroup Asset management ("CAM"), the Citigroup business unit that includes the Smith Barney Funds' investment manager and other investment advisory companies, had entered into a side letter with First Data under which CAM agreed to recommend the appointment of First Data as sub-transfer agent to the affiliated transfer agent in exchange, among other things, for a guarantee by First Data of specified amounts of asset management and investment banking fees to CAM and CGMI. The order also finds that SBFM and CGMI willfully violated Section 206(2) of the Advisers Act by virtue of the omissions discussed above and other misrepresentations and omissions in the material provided to the Smith Barney Fund's Boards, including the failure to make clear that the affiliated transfer agent would earn a high profit for performing limited functions while First Data continued to perform almost all of the transfer agent functions, and the suggestion that the proposed arrangement was in the Smith Barney Funds' best interest and that no viable alternatives existed. SBFM and CGMI do not admit or deny any wrongdoing or liability. The settlement does not establish wrongdoing or liability for purposes of any proceeding.

The SEC censured SBFM and CGMI and ordered them to cease and desist from violations of Section 206(1) and 206(2) of the Advisers Act. The order requires Citigroup to pay \$208.1 million, including \$109 million in disgorgement of profits, \$19.1 million in interest and a civil money penalty of \$80 million. Approximately \$24.4 million has already been paid to the

Smith Barney Funds, primarily through fee waivers. The remaining \$183.7 million, including the penalty, has been paid to the U.S Treasury and will be distributed pursuant to a plan to be prepared by Citigroup and submitted within 90 days of the entry of the order for approval by the SEC. The order also requires that transfer agency fees received from the Smith Barney funds since December 1, 2004 less certain expenses be placed in escrow and provides that a portion of such fees may be subsequently distributed in accordance with the terms of the order.

The order requires SBFM to recommend a new transfer agent contract to the Smith Barney Fund Boards within 180 days of the entry of the order. If a Citigroup affiliate submits a proposal to serve as transfer agent or sub-transfer agent, an independent monitor must be engaged at the expenses of SBFM to recommend a new transfer agent contract to the Smith Barney Fund Boards within 180 days of the entry of the order. If a Citigroup affiliate submits a proposal to serve as transfer agent or sub-transfer agent, an independent monitor must be engaged at the expense of SBFM and CGMI to oversee a competitive bidding process. Under the order, Citigroup also must comply with an amended version of a vendor policy that Citigroup instituted in August 2004. The policy, as amended, among other things, requires that when requested by a Smith Barney Fund Board, CAM will retain at its own expense an independent consulting expert to advise and assist the Board on the selection of certain service providers affiliated with Citigroup.

Revenue Sharing and Sales of Mutual Fund Class B and C Shares

In March 2005, the SEC entered an administrative and cease-and-desist order against CGMI. The SEC order found that there were two disclosure failures by CGMI in the offer and sale of mutual fund shares to its customers. The first failure related to CGMI's revenue sharing program, whereby CGMI received from advisers and distributors associated with about 75 mutual fund complexes revenue sharing payments, in exchange for which CGMI granted mutual funds access to, or increased visibility in, CGMI's Smith Barney retail distribution network. The order found that CGMI did not adequately disclose its revenue sharing program to its customers but instead relied on the participating funds' prospectuses and statements of additional information to satisfy its disclosure obligations with regard to its revenue sharing program. As a result, the order found that CGMI willfully violated Section 17(a)(2) of the Securities Act of 1933 ("Securities Act") and Rule 10b-10 under the Securities Exchange Act of 1934 ("Exchange Act"). The second disclosure failure concerned CGMI's sales of Class B mutual fund shares in amounts aggregating \$50,000 or more. The order found that CGMI failed to disclose adequately at the point of sale, in connection with recommendations to customers to buy Class B shares, that such shares were subject to higher annual fees and that those fees could have a negative impact on customer investment returns, depending on the amount invested and intended holding period. As a result, the order found that CGMI willfully violated Section 17(a)(2) of the Securities Act. Based on these findings, the SEC order censured CGMI, required CGMI to cease and desist from committing or causing violations and future violations of Securities Act Section 17(a) and Exchange Act Rule 10b-10, and required CGMI to pay a \$20 million civil money penalty.

In March 2005, NASD Inc. ("NASD") censured and fined CGMI with respect to CGMI's offer and sale of Class B and Class C mutual fund shares during 2002 and the first six months of 2003. The NASD found that CGMI either had not adequately disclosed at the point of sale, or had not adequately considered in connection with its recommendations to customers to purchase Class B and Class C shares, the differences in share classes and that an equal investment in Class A shares generally would have been more advantageous for the customers. The NASD also found that CGMI's supervisory and compliance policies and procedures regarding Class B and Class C shares had not been reasonably designed to ensure that Smith Barney ("SB") CGMI advisers consistently provided adequate disclosure of, or consideration to, the benefits of the various mutual fund share classes as they applied to individual customers. As a result, the NASD found that CGMI violated NASD Conduct Rules 2110, 2310 and 3010. Based on these findings, the NASD censured CGMI and required CGMI to pay a \$6.25 million fine.

Research and Initial Public Offerings

In 2003, Salomon Smith Barney Inc. ("SSB"), now known as Citigroup Global Markets Inc. settled civil and regulatory actions brought by the SEC, the New York Stock Exchange, Inc. ("NYSE"), the NASD, the Attorney General of the State of New York ("NYAG"), and state securities regulators, which alleged violations of certain federal and state securities laws and regulations and certain NASD and NYSE rules by SSB arising out of certain of its business practices concerning (1) sell-side research during the period 1999 through 2001, and (2) initial public offerings ("IPOs") during the period 1996 through 2000. The actions alleged, among other things, that SSB published certain fraudulent research reports, permitted inappropriate influence by investment bankers over research analysts and failed to adequately supervise the employees who engaged in those practices. It was also alleged that SSB engaged in improper "spinning" of shares to executives of investment banking clients and failed to maintain policies and procedures reasonably designed to prevent the potential misuse of material non-public information in certain circumstances.

Solely for the purpose of settling each proceeding, prior to hearing, without adjudication of any issues of law or fact, and

without admitting or denying the facts or conclusions alleged in the respective regulators' documents, SSB consented to findings that SSB violated certain federal and state securities laws and regulations and certain NASD and NYSE rules, as described above, and agreed to the sanctions described below. In settling the various civil and regulatory actions, SSB consented to the imposition of censures by NASD and NYSE, the issuance of cease and desist orders in state proceedings prohibiting it from violating certain state laws and regulations, the entry of a final judgment enjoining SSB from violating certain provisions of the federal securities laws and certain self-regulatory organization rules, and ordering it to make a total payment of \$400 million. The final judgment also ordered SSB to comply with its undertakings to implement certain structural reforms relating to the operation of its research and investment banking departments. SSB also agreed to participate in a voluntary initiative pursuant to which it will no longer make allocations of securities in hot IPOs to accounts of executive officers or directors of a U.S. public company or a public company for which a U.S. market is the principal equity trading market.

Market-Timing

On July 13, 2007, NYSE Regulation, Inc. (the "NYSE") issued a Hearing Board Decision in connection with the settlement of an enforcement proceeding brought in conjunction with the New Jersey Bureau of Securities ("NJBS") against Citigroup Global Markets Inc. ("CGMI" or "the Firm"). The decision concerned the Firm's failure to supervise adequately certain branch offices and CGMI advisers who engaged in deceptive mutual fund market timing on behalf of certain customers from January 2000 through September 2003. The decision notes that market timing occurred in the Firm's proprietary funds and in non-proprietary funds. Between 1998 and May 2000, the Firm made efforts to end market timing in its proprietary funds and its fee-based mutual fund trading programs. Market timing by CGMI advisers in proprietary funds ended by late 2001 or early 2002. Market timing in non-proprietary funds continued until September 2003. The decision noted three CGMI branches for the most serious conduct, and that six branches accounted for over 40% of all market-timing transactions. The NYSE also found that while the Firm had policies in place to address market timing, such policies were inadequate and inadequately enforced.

Without admitting or denying guilt, the Firm consented to a finding that it violated: NYSE Rule 342 by failing to reasonably supervise certain business activities and establish and maintain appropriate procedures for supervision and control with respect to trading of mutual funds and fund-like sub-accounts of variable annuities; NYSE Rules 401(a) and 476(a) by failing to prevent certain brokers from engaging in violative market timing of mutual funds, including use of deceptive practices related to market timing of funds; and Section 17(a) of Securities Exchange Act of 1934, Rules 17a-3 and 17a-4 thereunder, and NYSE Rule 440 by failing to make or preserve accurate books and records reflecting or relating to order communication and entry time for fund shares, rejection or cancellation of trades related to market timing, and orders or confirmations for transactions executed by Firm employees in variable annuity products sub-accounts held away from the Firm. The Firm consented to a penalty consisting of censure and a payment of \$50 million to be distributed as follows: (a) \$35 million to be placed in a distribution fund as disgorgement; (b) a penalty of \$10 million, half to be paid directly to NYSE Regulation and half to be paid directly to the distribution fund; and (c) a penalty of \$5 million to be paid to the State of New Jersey. The Firm also must appoint an Independent Distribution Consultant not unacceptable to the NYSE who will develop a distribution plan for the disgorgement amount, which, to the extent feasible, will go first to Firm customers who during the period January 2000 through September 2003 invested long-term in funds that were the subject of the market timing, with any funds not distributed to be returned to NYSE Regulation.

Auction Rate Securities Settlements

On December 11, 2008, the SEC filed a civil action in the federal district court for the Southern District of New York (the "Court"). The Judgment, which was entered on December 23, 2008: (i) permanently enjoined CGMI from directly or indirectly violating Section 15(c) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"); (ii) provides that, upon later motion of the SEC, the Court will determine whether it is appropriate to order that CGMI pay a civil penalty pursuant to Section 21(d)(3) of the Exchange Act, and if so, the amount of the civil penalty; and (iii) ordered that CGMI's Consent be incorporated into the Judgment and that CGMI comply with all of the undertakings and agreements set forth in the Consent, which include an offer to buy back at par certain ARS from certain customers. The SEC's Complaint alleged that: (1) CGMI misled tens of thousands of its customers regarding the fundamental nature of and risks associated with ARS that CGMI underwrote, marketed, and sold; (2) through its financial advisers, sales personnel, and marketing materials, CGMI misrepresented to customers that ARS were safe, highly liquid investments comparable to money market instruments; (3) as a result, numerous CGMI customers invested in ARS funds they needed to have available on a short-term basis; (4) in mid-February 2008, CGMI decided to stop supporting the auctions; and (5) as a result of the failed auctions, tens of thousands of CGMI customers held approximately \$45 billion of illiquid ARS, instead of the liquid short-term investments CGMI had represented ARS to be. CGMI reached substantially similar settlements with the New York Attorney General (the "NYAG") and the Texas State Securities Board (the "TSSB"), although those settlements were administrative in nature and

neither involved the filing of a civil action in state court. The settlements with the NYAG and the TSSB differed somewhat from the settlement with the SEC in that the state settlements: (1) made findings that CGMI failed to preserve certain recordings of telephone calls involving the ARS trading desk; and (2) require CGMI to refund certain underwriting fees to certain municipal issuers. As part of the settlement with New York, CGMI paid a civil penalty of \$50 million. CGMI also has agreed in principle to pay to states other than New York with which it enters into formal settlements a total of \$50 million, including \$3.59 million to Texas as part of the settlement with that state.

On Wednesday June 30, 2010, the SEC announced that CGMI, along with two other broker-dealers, had fulfilled their obligations under the 2008 ARS settlement, which required firms to, among other things, make “best efforts” to provide liquidity solutions for institutional clients who were not eligible for redemption, compensate investors who sold ARS below par, and reimburse investors for excess interest costs associated with loans taken out due to ARS illiquidity. To ensure compliance with the settlement, the firms were subject to a potential deferred penalty if the firms did not meet their settlement obligations. The SEC determined that based on the firms' compliance with their respective settlements, as well as other factors, no penalties would be pursued.

CGMI has executed settlements with, and made payments to, all but two of the eligible states/territories.

New York Stock Exchange LLC (NYSE) Hearing Board Decision Related to Prospectus and Other Delivery Failure

On October 2, 2007, without admitting or denying the allegations, CGMI consented to a censure, a fine of \$2,500,000 and an undertaking in connection with certain alleged violations. Specifically, the consent alleged violations of NYSE Rule 401(A) due to the failure to ensure delivery of prospectuses in connection with certain sales of registered securities during the time period July 1, 2003 through October 31, 2004 (the “Relevant Period”); alleged violation of NYSE Rule 1100(b) due to CGMI’s failure to deliver product descriptions to certain customers that purchased Exchange Traded Funds (ETFs) during the Relevant Period; alleged violation of Rule 10b-10 of the Securities Exchange Act of 1934 due to CGMI’s failure to provide customers with confirmations for certain securities transactions during the Relevant Period; and alleged violations by CGMI of NYSE Rule 342 by failing to provide for, establish and maintain appropriate procedures of supervision and control relating to the delivery of product descriptions and prospectuses and trade confirmations.

During the Relevant Period, the Firm allegedly failed to have appropriate policies and procedures relating to the delivery of offering documents to customers that purchased certain securities. The failure to have these policies and procedures caused CGMI to experience numerous systemic deficiencies relating to the delivery of offering documents to customers that purchased certain securities. In particular, during the Relevant Period, the Firm failed to deliver product descriptions (or any other disclosure document, such as a prospectus) to certain customers who purchased ETFs in violation of NYSE rules. In addition, during the Relevant Period, the Firm failed to deliver prospectuses to certain customers who purchased equity and debt securities and mutual funds in violation of NYSE rules and federal securities laws. Furthermore, CGMI failed to send numerous trade confirmations to certain customers that purchased securities in violation of federal securities laws and NYSE rules.

NASD Inc. (NASD) Consent Related to Alleged Use of Misleading Materials in Retirement Seminars

On June 6, 2007, without an adjudication of any issue of law or fact, and without admitting or denying the findings, CGMI consented to a \$3 million fine to settle charges relating to the alleged use of misleading materials in retirement seminars and meetings for BellSouth employees in North Carolina and South Carolina.

Specifically, the NASD found that CGMI allegedly failed to adequately supervise a team of brokers based in Charlotte, NC, who used misleading sales materials during seminars and meetings of employees of BellSouth Corporation.

Financial Industry Regulatory Authority, Inc. (“FINRA”), Direct Borrow

On April 6, 2010, CGMI finalized a settlement agreement with FINRA in which it consented to a \$650,000 fine, without admitting or denying the findings, in connection with the operation of its Direct Borrow Program. CGMI allegedly failed to adequately disclose certain material facts to customers, establish and maintain a supervisory system reasonably designed to achieve compliance with applicable laws and regulations, and distributed marketing materials that were not fair and balanced.

SEC Investigation, Hedge Fund Marketing and Accounting Treatment

ASTA/MAT and Falcon were hedge funds managed and marketed by Citigroup that performed well for many years but suffered substantial losses during the credit crisis. The SEC is investigating the marketing, management and accounting treatment of the Falcon and ASTA/MAT funds. Citigroup is cooperating fully with the SEC's inquiry.

In addition, numerous investors in Falcon and ASTA/MAT have filed lawsuits or arbitrations against Citigroup and its affiliates including, in certain cases, the funds themselves seeking recoupment of their alleged losses. Many of those investor disputes have been resolved, and the remainder are in various procedural stages.

Pending SEC Claim Related to Collateralized Debt Obligation

On October 19, 2011, the SEC brought a civil action in the U.S. District Court for the Southern District of New York (“Court”) against CGMI in connection with the role of CGMI, along with certain of its affiliates (together “Citi”) in the structuring and marketing of a largely synthetic collateralized debt obligation (“CDO”) whose investment portfolio consisted primarily of credit default swaps referencing other CDO securities with collateral consisting primarily of residential mortgage-backed securities. The complaint alleged that the marketing materials for the CDO were materially misleading because they suggested that Citi was acting in the traditional role of an arranging bank, when in fact Citi had allegedly exercised influence over the selection of the assets and had retained a proprietary short position of the assets it had helped select, which gave Citi allegedly undisclosed economic interests adverse to those of the investors in the CDO. On October 14, 2011, the SEC and CGMI entered into a consent agreement settling this action. The consent agreement required the issuance of an injunction against CGMI from violating Sections 17(a)(2) and (3) of the Securities Act; imposition of liability on CGMI for payment of disgorgement of \$160 million with prejudgment interest thereon in the amount of \$30 million, and a civil penalty in the amount of \$95 million; and CGMI’s compliance with certain undertakings. In an order issued on October 27, 2011, the Court ordered to convene a hearing on November 9, 2011 to ascertain whether the proposed judgment is fair, reasonable, adequate, and in the public interest. The SEC and CGMI submitted memorandums responding to the questions set forth by the Court. On November 28, 2011, the Court issued an opinion and order refusing to approve the proposed consent agreement, consolidating this case with the action of an ex-employee of CGMI, and directing the parties to be ready to try the case on July 16, 2012. As of the date of preparing this disclosure statement, this matter is still pending.

FINRA Settlement Related to Municipal Securities Transactions

On November 7, 2011, without admitting or denying the allegations, CGMI consented to a fine of \$75,000, a censure, and a certain undertaking with FINRA in connection with municipal securities transactions. FINRA alleged that CGMI failed to establish and maintain a supervisory system and to adopt, maintain, and enforce written supervisory procedures reasonably designed to achieve compliance with the disclosure requirements for municipal securities transactions in violation of Municipal Securities Regulation Board Rule G-27.

FINRA Settlement Related to Email Retention

On December 2, 2011, CGMI entered into a settlement with FINRA relating to failure to retain emails during an upgrade of its email archiving system. CGMI consented to a censure and a monetary fine of \$750,000 without admitting or denying the findings. FINRA alleged that during the period from October 21, 2008 to December 26, 2009, CGMI failed (i) to retain millions of emails, including emails not retained that potentially impacted its ability to respond to email requests in FINRA investigations and other matters; and (ii) to establish and maintain appropriate systems and procedures reasonably designed to achieve compliance with the applicable recordkeeping rules and detect and remedy deficiencies in its email retention systems.

FINRA Inquiry Into to Research Disclosures

On January 18, 2012, CGMI resolved a FINRA inquiry into CGMI research disclosures. Without admitting or denying the findings contained therein, CGMI consented to a censure and a monetary fine of \$725,000. Specifically, FINRA alleged that: (a) during at least January 2007 through March 2010, largely as the result of programming and technical errors and deficiencies, CGMI failed to make required disclosures in its research reports and in connection with research analysts’ public appearances; (b) CGMI had inadequate systems to determine that its disclosure management system contained all accurate and current information, including information from third-party and internal sources, necessary to formulate required disclosures; (c) CGMI’s supervisory system was not reasonably designed to detect that the firm was not populating its research reports with required disclosures; and (d) CGMI was not complying with certain undertakings pursuant to an earlier NASD settlement in 2006.

FINRA Settlement Related to Non-Traditional ETFs

On May 1, 2012, CGMI entered into a settlement with FINRA regarding the sale of leveraged, inverse, and inverse-leveraged exchange-traded funds (“Non-Traditional ETFs”). FINRA alleged that, during January 2008 through June of 2009, (i) CGMI failed to establish and maintain a reasonable supervisory system, including written procedures, in connection with the sale of Non-Traditional ETFs and to provide adequate formal training and guidance to its registered representatives and supervisors regarding Non-Traditional ETFs; and (ii) certain registered representatives made unsuitable recommendations of Non-Traditional ETFs to certain customers with a conservative investment objective or risk file. Without an adjudication of any issues of law or fact and without admitting or denying the findings, CGMI consented to a censure, a fine of \$2 million, and a restitution of \$146,431.

FINRA Settlement Related to Inaccurate Performance Data

On May 22, 2012, CGMI entered into a settlement with FINRA relating to CGMI's role in the provision of performance data related to mortgage securitizations. FINRA alleged that from January 2006 through October 2007, CGMI posted inaccurate performance data and static pool information to the Reg AB website of Citigroup Inc. (an indirect 100% owner of CGMI) in connection with numerous securitizations, and CGMI failed to establish and maintain effective supervisory and operational policies and procedures regarding these issues. FINRA further alleged that inaccurate data remained on the Citigroup Reg AB website through May 2012. In addition, FINRA alleged that during July through September 2007, CGMI failed (a) to establish and maintain sufficient supervisory policies and procedures addressing independent price verification of Level 3 collateralized debt obligation securities, and to document price verification for such securities; (b) to include certain securities for which no price change had occurred over several days on an internal "stale price report"; (c) to supervise and sufficiently document certain re-pricings of securities held on margin that led to revised margin calls; and (d) to supervise and sufficiently document the application of "margin haircuts" to collateral outside of haircut ranges reflected in CGMI's guidance. CGMI, without admitting or denying the findings, consented to a censure and a fine in the amount of \$3,500,000.

Massachusetts Settlement Related to Research

On October 26, 2012, CGMI entered into a settlement with the Commonwealth of Massachusetts Securities Division ("MSD"). As part of that settlement, CGMI consented to an order, with allegations and findings that it neither admitted nor denied, that it violated Massachusetts laws by failing to: (i) prevent or detect the written disclosure of material, non-public research information in a restricted period prior to the Facebook initial public offering; (ii) detect prohibited research analyst disclosures via emails; and (iii) prevent or detect written disclosure of material non-public research. As part of the order, CGMI agreed to permanently cease and desist from violating the laws of the State of Massachusetts, be censured by the MSD, pay a civil penalty in the amount of \$2,000,000, and perform undertakings involving the review written supervisory policies and procedures related to Citigroup Investment Research ("CIR") electronic surveillance program and enhance training provided to certain CIR personnel.

A.2. Other Financial Industry Activities and Affiliations

Registrations

CGMI is registered as a securities broker-dealer and as a futures commission merchant. Affiliates of CGMI are registered as commodity pool operators and/or commodity trading advisers. CGMI is a member of all principal securities and commodities exchanges in the United States and the Financial Industry Regulatory Authority, formerly known as National Association of Securities Dealers, Inc. In addition, it holds memberships or associate memberships on several principal foreign securities and commodities exchanges.

Material Relationships or Arrangements With Certain Related Persons.

CGMI has arrangements that are material to its advisory business or its clients with a related person who is a broker-dealer, investment company, other investment adviser and a banking or thrift institution.

As a registered broker-dealer, CGMI regularly advises clients with regard to and executes transactions in a wide variety of securities and other investments. It and its affiliates also act in a partnership capacity in a number of limited partnerships in which its clients may invest. As a futures commission merchant, CGMI also provides advice on commodities and commodity related products.

CGMI provides a wide range of research services to its clients, including reports, analyses, charts, and graphs relating to various facets of the investment spectrum in equity and fixed income products. Research services generally are provided to clients on the assumption that the services generate commission or other business for CGMI. However, certain research services may be provided on a hard-dollar, fixed-fee basis and/or, in the case of firms that may re-sell such services, on a hard-dollar, royalty-fee basis. The size of any hard-dollar fee generally is negotiable.

Through its divisions, CGMI offers a wide variety of investment advisory services and programs. CGMI's investment advisory services are available to individuals; banks or thrift institutions; retirement plans such as pension and profit sharing plans; investment companies; trusts; estates; charitable organizations; corporations or other business entities as well as governmental entities. The investment advisor divisions and affiliates of CGMI include: Citi Capital Advisors Limited; Citi Private Advisory, LLC; Citibank (Switzerland) A.G.; Citigroup Alternative Investments LLC; Citigroup Global Markets Singapore Pte Ltd.; Citigroup Venture Capital International Asia Limited; Cititrust (Bahamas) Ltd.; Cititrust (Cayman) Ltd.; Cititrust (Jersey) Ltd.; Consulting Group Advisory Services LLC; EMSO Partners HK Limited; EMSO Partners Limited; Morgan Stanley Private Wealth Management Ltd.; Morgan Stanley Smith Barney LLC; Morgan Stanley Smith Barney Private Management II LLC; Morgan Stanley Smith Barney Private Management LLC; Morgan Stanley Smith Barney

Venture Services LLC; and ZAO Citibank. Additional information on affiliates of CGMI are available on Item 7.A of our Form ADV, Part 1A, available at www.adviserinfo.sec.gov.

CGMI and its affiliates provide a variety of services for various clients, including issuers of securities that CGMI may recommend for purchase or sale by clients. CGMI performs a wide range of investment banking services for various clients, and it is likely that CGMI client holdings will include the securities of issuers for whom CGMI performs investment banking services. CGMI client portfolios may include securities in which CGMI makes a market or in which CGMI, its officers or employees have positions. CGMI and its affiliates receive compensation and fees in connection with the provision of the foregoing services. As part of an overall internal compliance program, CGMI has adopted policies and procedures imposing certain conditions and restrictions on transactions for CGMI's own account or the accounts of its employees. Such policies and procedures are designed to prevent, among other things, any improper or abusive conduct when potential conflicts of interest may exist for a customer or client. In addition, Citibank, an affiliate of CGMI, serves as a qualified custodian in certain programs. Please see "Item 4A.3 – Clearing and Custody Services" for more information on custody.

Compensation from Investment Managers

CGMI and its affiliates have trading, investment banking, prime brokerage and other business relationships with investment managers. These investment managers may include the investment adviser(s) for one of the investment advisory programs recommended to clients by Private Bankers. In addition, some Private Bankers may receive financial benefits from investment managers in the form of compensation for trade executions for the accounts of investment managers or their clients, or through their referrals of brokerage or investment advisory accounts to Private Bankers.

In determining an investment manager's eligibility for its investment advisory programs, CGMI does not consider the extent to which an investment manager directs or is expected to direct trades to CGMI for execution, including whether such investment manager is a prime brokerage client of CGMI or its affiliates. Such direction is left to the discretion of the investment manager retained by the client or by CGMI on client's behalf, which, absent client direction to the contrary, is obligated at all times to seek best execution. Nonetheless, investment managers retained by clients or by CGMI on client's behalf may perceive a potential conflict of interest between their obligations to seek best execution and their interest in receiving client referrals pursuant to the investment advisory programs. For a client who chooses the commission-based option in the those advisory programs in which it is available, CPB and its Private Bankers could have a financial incentive to recommend an investment manager that trades actively thereby receiving more income from commissions.

B.1 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

General

CPB and CGMI have adopted a code of ethics and related policies and procedures (collectively, the "Code of Ethics") imposing standards of business conduct, including requirements to put client interests first and not to take inappropriate advantage of employment-related information. The Code of Ethics also restricts employee personal securities transactions and accounts. Such restrictions include, for all employees, prohibitions on trading in securities while in possession of related material, nonpublic information and, for certain CPB and CGMI employees, including Private Bankers, minimum holding periods in certain situations, and reporting of personal securities accounts, transactions and/or holdings to the Compliance Department or supervisory business personnel. The purposes of the Codes of Ethics include minimizing potential conflicts of interests between employees and investment advisory clients and assuring compliance with applicable laws and regulations. Existing and prospective clients may obtain copies of the applicable Code of Ethics by mailing a written request for such document to:

Citigroup Global Markets Inc.
153 East 53rd Street, 25th Floor
New York, NY 10022
Attention: Philip W. Gallo

A copy of CGMI's Code of Ethics will be provided to any client or prospective client upon request.

Each supervised person of CPB and CGMI receives a copy of the Code of Ethics upon being designated as a supervised person and annually thereafter. They must sign an attestation that indicates that they have read and understand such Code of Ethics. In conjunction with this attestation, all supervised persons are required to report any violation or potential violation of which they might become aware.

From time to time, CPB and CGMI impose restrictions to address the potential for self-dealing by CPB and CGMI and conflicts of interest that may arise in connection with CGMI's broker-dealer and investment banking businesses. CPB and

CGMI has adopted various procedures to guard against insider trading that include an “Information Barrier” procedure, pursuant to which information known within one area of CGMI (e.g., investment banking) may not be distributed to other areas (e.g., investment advisory), and use of a restricted list and various other monitoring lists. These investment banking or other activities may from time to time compel CPB, CGMI, Overlay Manager or their affiliates to forgo trading in the securities of companies with which these relationships exist. This may adversely impact the investment performance of a client’s account.

Participation and Interest in Client Transactions

CPB and its affiliates may recommend securities in which they directly or indirectly have a financial interest and may buy and sell securities that are recommended to clients for purchase and sale. They also may provide advice and take action in the performance of their duties to clients which differs from advice given, or the timing and nature of action taken, for other clients’ accounts. Moreover, CGMI or any of its affiliates may advise or take action for itself or themselves differently than with respect to clients. In addition, CGMI, its affiliates, and employees, including Private Bankers, may invest with any investment manager.

Principal Transactions

CGMI does not generally act as principal in executing trades for clients for which an investment manager affiliated with CGMI provides the client with portfolio management services (i.e., determines which securities are to be bought and sold for the client) or in MSP (although CGMI may do so in rare cases if certain regulatory conditions are met, including, among other things, obtaining client consent prior to completion of the trade). If CGMI receives trade orders for securities traded in the dealer markets for such clients, it normally executes those orders as agent through a dealer unaffiliated with CGMI. CGMI receives no commissions or other compensation in connection with such trades, although the client bears the cost (including any mark-up or mark-down) imposed by the unaffiliated dealer.

CGMI may execute trades as principal in orders received from investment managers unaffiliated with CGMI that provide portfolio management services to clients in CES. This will result in CGMI realizing customary dealer profits or losses on the trades. Any profit or loss on principal trades would be separate from or additional to, and would not reduce or otherwise offset, compensation received by CPB in its capacity as sponsor of CES. Investment managers in these programs also may direct principal trades to dealers unaffiliated with CGMI. When this is done, the dealer to which the trade is directed (not CGMI) will realize a dealer profit or loss on each trade and may also charge a mark-up or mark-down. CGMI deals with this conflict by providing appropriate disclosure to clients.

Outside of the asset-based fee programs described in this brochure, the price paid or proceeds received by CGMI clients in connection with principal trades executed by CGMI typically includes a mark-up or mark-down that is included in the net price of the trade, which is used to compensate the Private Banker. Any principal trade executed for CES clients will not include any such mark-up or mark-down; instead, Private Bankers are compensated only out of the client’s asset-based fee.

Agency Cross Transactions

Agency cross transactions (i.e., transactions in which CGMI or an affiliate acts as broker for the parties on both sides of the transaction) may be effected for customer accounts to the extent permitted by law. CGMI may receive compensation from parties on both sides of such transactions (the amount of which may vary) and as such, CGMI will have a potentially conflicting division of loyalties and responsibilities. Client consent to agency cross transactions may be revoked at any time by written notice to CGMI.

Acting as Adviser to Funds

CGMI affiliates act or may act as investment adviser to an open-end investment company comprising several mutual funds, and act or may act as an administrator for a wide range of open-end and closed-end investment companies registered under the Investment Company Act of 1940, as amended. CGMI and its affiliates may also serve as investment advisers to a number of investment funds domiciled and sold outside the United States.

Compensation from Funds

Certain mutual funds and mutual funds’ affiliates available through the CPB programs described herein may offer additional compensation to CPB in the form of 12b-1 fees, management and administrative fees, transfer agency fees, revenue sharing compensation, record keeping fees, shareholder servicing fees or any other fund related fees (collectively referred to as “Fund Fees”). However, in each of these CPB programs, CGMI will not seek or retain any Fund Fees from participating mutual funds and will credit the client’s account in the amount of any such fees received by CPB. Accordingly, in these programs the aggregate fees received by CPB will not vary depending on the eligible assets in which the client invests. Any fees credited to a client’s account will be reported to such client as additional income if the client account is taxable.

Notwithstanding the foregoing, in the event non-retirement account cash balances in any of the CPB programs described herein are invested in money market funds, CPB or Clearing Firm, as applicable, may receive and retain Fund Fees from those money market funds or those money market funds' affiliates as described further herein.

Personal Trading

Certain representatives within CPB are considered covered employees under the firm's Employee Trading Policy ("ETP"). This policy governs the manner in which the covered employee trading account information is made available to the firm's compliance department and defines instances where pre-clearance or supervisory pre-approval may be appropriate. Covered employees are subject to a number of restrictions including 1) prohibition on conduct of personal trades in securities for which they are in possession of material, non-public information; 2) Prohibition on securities noted on the Firm's Restricted List. And 3) prohibition on trading in securities where new and material research has been published. Other restrictions exist with respect to New Issue/Public offerings and trading of Citi shares.

Covered employees are further prohibited from engaging in market timing strategies with respect to mutual fund transactions in covered accounts.

Certain supervisory staff are responsible for reviewing all personal trading activity of their covered employees for indications of improper trading activity and insider trading.

When Private Bankers purchase or sell certain securities for their own accounts on the same day that transactions in these securities are effected for client accounts, the price paid or realized by advisory personnel generally may not be more advantageous than the price at which the client transactions are effected. If orders by advisory personnel are part of a batched client order and the entire block of securities is then not executed on the same day, no part of the order executed is permitted to be allocated to any advisory personnel. However, Private Bankers are not subject to additional personal trading restrictions, such as extended blackout periods, that are applicable to CPB employees who are associated with an affiliated manager.

B.2 Review of Accounts

Generally accounts are monitored on an on-going basis by the portfolio manager or Private Bankers and are subject to supervision (either by the branch or a supervisory principal). The portfolio manager's review of discretionary accounts includes a review of each purchase or sale, as well as monthly position reports. Clients also receive periodically a written Performance Review, which is a statistical review and analysis of the account. In connection with certain programs, the Performance Review is also available to clients whose assets are not in Clearing Firm's custody, and a fee may be charged for this service.

B.3 Client Referrals and other Compensation

CGMI, its Affiliates and its Employees May Receive Additional Compensation from the Investment Managers They Recommend

CGMI and its affiliates have trading, investment banking, prime brokerage and other business relationships with investment managers which are discussed in "Item 9A.2—Compensation from Investment Managers."

Investment managers participating in a CPB program may make payments to CPB for marketing, promotional and related expenses; for expenses incurred in connection with training or educational seminars with Private Bankers and other CPB personnel; or for expenses incurred in connection with client or prospective client meetings relating to a CPB program. In addition, investment managers and their affiliates may provide Private Bankers and clients (existing and prospective) with related items and benefits. These expenses, items and benefits may include, without limitation, training meeting costs for Private Bankers or other personnel, including payments for travel, lodging and meals for attendees; payments of costs for client/prospect meetings at which the investment managers' or their affiliates' services or investment products are discussed, including meals for attendees, room rental costs and meeting-related presentation materials; occasional meals and leisure/entertainment outings; *de minimis* gifts; and nominal value promotional items.

The amount of such payments and the value of such items and benefits may or may not be substantial, and will be determined at the discretion of CPB. Although these payments, items and benefits will not be pre-conditioned on sales targets and levels, they nevertheless could give CPB and Private Bankers incentives to favor one investment manager over another investment manager that does not provide the same items, payments and benefits. However, such payments, items and benefits are subject to CGMI's policy that addresses and, in some cases, limits such payments, items and benefits with the overall aim to avoid compromising advice or recommendations given to clients by special incentives or compensation arrangements.

Citigroup Global Transaction Services, an affiliate of CGMI, and various other affiliated business units of Citigroup's

Markets & Banking division, receive compensation for providing administrative, custody, transfer agent, prime brokerage and back office services to investment managers, mutual funds and hedge funds. These investment managers may include investment managers recommended in the investment advisory programs described herein.

Payment for Order Flow

The SEC requires that all registered broker-dealers disclose their policies regarding receipt of “payment for order flow.” The SEC defines “payment for order flow” as “any monetary payment, service, property, or other benefit that results in remuneration, compensation or consideration to a broker or dealer from any broker or dealer, national securities exchange, registered securities association or exchange member in return for the routing of customer orders by such broker or dealer to any broker or dealer, national securities exchange, registered securities association or exchange member for execution, including but not limited to: research, clearance, custody, products or services; reciprocal agreements for the provision of order flow; adjustment of a broker or dealer’s unfavorable trading errors; offers to participate as underwriter in public offerings; stock loans or shared interest accrued thereon; discounts, rebates or any other reductions of or credits against any fee to, or expense or other financial obligation of, the broker or dealer routing a customer order that exceeds that fee, expenses or financial obligation.”

Pursuant to certain arrangements entered into with Clearing Firm, it is contemplated that Clearing Firm may route certain customer order flow to CGMI. When CGMI executes orders, CGMI may receive payment for order flow from one or more of the New York, American, Boston, Pacific and Philadelphia Stock Exchanges; unaffiliated specialist units on certain of these exchanges; the National Association of Securities Dealers Automated Quotation System (“Nasdaq”), Nasdaq market makers and Electronic Communications Networks. These payments may take the form of rebates, volume discounts or reciprocal agreements to provide order flow.

CGMI performs regular reviews of the execution quality of the market centers that are available to receive customer order flow. When executing trades routed to it by Clearing Firm or for customers who do not specify the particular market center on which they want their trade executed, such orders are systemically routed to market centers that, based on this review, CGMI believes are likely to match or improve the national best bid or offer for the particular stock ordered.

Clearing Firm maintains its own policy regarding payment for order flow, which can be found on the back of the periodic customer statements sent by Clearing Firm.

CGMI and Affiliates Maintain Business Relationships with Companies that May Be Selected or Recommended for Your Portfolio

Portfolio selection decisions made under the CGMI advisory programs may be based in large measure on the fundamental research opinions of CGMI. CGMI does and seeks to do business with companies covered by its research and, as a result, CGMI may have a conflict of interest that could affect the objectivity of its research reports. If such objectivity is affected, it might impact the underlying fundamental opinion upon which investment management decisions are made. In addition, CGMI usually provides bids and offers and may act as principal market maker in connection with transactions in the same securities that may appear in a client’s portfolio. CGMI is a regular issuer of traded financial instruments linked to securities that may be purchased. CGMI may hold a trading position (long or short) in the shares of the securities in a client’s portfolio or in the shares of companies subject to its research.

As noted previously in this brochure, in selecting investment managers for participation in certain of the investment advisor programs described herein, CGMI uses two methods to evaluate investment managers: CitiFocus List and CitiAccess List. Please see “Item 6A—Research in Advisory Programs” for additional details as to CGMI’s research process in selecting investment managers for participation in these investment advisory programs and the conflicts of interest that may arise pertaining to CGMI’s research process.

CGMI and its affiliates provide a variety of services for various clients, including issuers of securities that CGMI may recommend for purchase or sale by clients. CGMI performs a wide range of investment banking services for various clients, and it is likely that CGMI client holdings will include the securities of issuers for whom CGMI performs investment banking services. CGMI client portfolios may include securities in which CGMI makes a market or in which CGMI, its officers or employees have positions. CGMI and its affiliates receive compensation and fees in connection with the provision of the foregoing services. As part of an overall internal compliance program, CGMI has adopted policies and procedures imposing certain conditions and restrictions on transactions for CGMI’s own account or the accounts of its employees. Such policies and procedures are designed to prevent, among other things, any improper or abusive conduct when potential conflicts of interest may exist with a customer or client.

CGMI may enter into agreements with third parties who solicit clients for CGMI’s investment management products. Under such agreements, third parties may refer or solicit clients and receive compensation for such services. As a result of these

arrangements, fees paid by clients may differ from the prevailing retail rate, but in every arrangement with a third party solicitor, the structure of the third party solicitation agreement, including the compensation payable to the solicitor, will be disclosed fully to the client as required by applicable law.

CGMI may use client lists when soliciting new clients provided that the existing clients included on such lists have not expressly requested confidentiality, whether in a contract or by written or oral request.

B.4. Financial Information

CGMI does not require or solicit prepayment of more than \$1,200 in fees per client six months or more in advance. Therefore, CGMI has not included a balance sheet of its most recent fiscal year. CGMI is not aware of any financial condition that is reasonably likely to impair its ability meet its contractual commitments to clients, nor has CGMI been the subject of a bankruptcy petition at any time during the past ten years.

Other Information

CGMI and Overlay Manager have adopted error policies aimed at ensuring the prompt and proper detection, reporting and correction of errors involving the accounts of CPB clients. The requirements of the error policies apply to the extent that CGMI or Overlay Manager has control of resolving errors for client accounts. The correction method used by CGMI or Overlay Manager for an error must put the client in the same position the client would have been in had the error not occurred (i.e., the client must be made whole for any error-related losses and costs suffered). Any gain resulting from an error generally will be left in the client's account or, if realized outside the client's account, offered directly to the client. CGMI will not offer or give error-related gains to any person or firm other than the applicable client.

If an investment manager erroneously purchases a particular security for a client account and the error is discovered prior to settlement of the transaction, then, at no cost to the client, the erroneously purchased security may be placed into a separate CGMI error account and CGMI may realize a profit (or loss) on the erroneously purchased security. Profits arising from post-settlement error corrections are not retained by CGMI and generally are credited to the client's account. Losses arising from post-settlement error corrections generally are closed out at no expense to the client.

Form ADV Part 2B Brochure Supplements

This section provides the brochure supplements of supervised persons who have discretionary authority over client assets even if they do not have direct client contact in connection with various investment advisory programs they service. These individuals are identified below under the names of their respective investment advisory programs.

The individual brochure supplements are provided at the end of this section in an alphabetical order.

Manager Selection Program. The following individuals are members of the research team who may influence the selection of replacement managers for this program:

- Stephen M. Hagan
- Donald T. Marchesiello
- Alex Marshall-Tate
- Evan Ratnow

Citi ETF Program. The Global Portfolio Committee (the “Global Portfolio Committee”) of the Tailored Portfolio Group, a business unit of Citibank and an affiliate of CGMI, is responsible for setting and adjusting the asset allocation for each portfolio of this program.

The following individuals serve on the Global Portfolio Committee:

- David Bailin
- Francesco Bertoni
- Alexander Godwin
- Eric Siegel
- Gregory van Inwegen

In addition, the following person is responsible for the selection of applicable ETFs for the Citi ETF program.

- Gregory van Inwegen

Dynamic Allocation Portfolios – UMA Program. The Global Portfolio Committee is responsible for setting and adjusting the asset allocation for each portfolio of this program. The members of the Global Portfolio Committee are listed above under *Citi ETF Program*.

The following person is responsible for the selection of applicable investment managers for the Dynamic Allocation Portfolios - UMA program when the client has chosen the Firm Discretion option:

- Gregory van Inwegen

In addition, the members of the research team listed above under *Manager Selection Program* may influence the selection of replacement managers for the Dynamic Allocation Portfolios - UMA program when the client has chosen the Non-Firm Discretion option.

Fiduciary Asset Management Program. The Global Portfolio Committee is responsible for setting and adjusting the asset allocation for each portfolio of this program. The members of the Global Portfolio Committee are listed above under *Citi ETF Program*. In addition, the following person is responsible for the selection of applicable investment managers for this program:

- Philip Johanson

Umbrella Portfolios Investment Management Program. The Global Portfolio Committee is responsible for setting and adjusting the asset allocation for each portfolio of this program. The members of the Global Portfolio Committee are listed above under *Citi ETF Program*. In addition, the following person is responsible for the selection of applicable investment managers for this program:

- Philip Johanson

The Tailored Portfolios Group Program. The individual portfolio managers of the following portfolios are identified below.

TPG U.S. Large Cap Core Portfolio:

- George Case
- Tom Connelly
- William J. (Michael) Minsch
- Frances Root

TPG International Equity Portfolio:

- Sameer Khale

TPG International ADR Portfolio:

- Sameer Khale

TPG Europe Equity Portfolio:

- James Balkwill

TPG Islamic Global Equity Portfolio:

- Sameer Khale

Global Discretionary Portfolios/Plus:

- James Balkwill
- Inmaculada Ballester Garcia
- Ramakrishnan Venkatakrishna

Tailored Discretionary Portfolio:

- James Balkwill
- Inmaculada Ballester Garcia
- Atul Bansal
- Jashpal Gulliani
- James Oliver Leighton
- Ramakrishnan Venkatakrishna

TPG U.S. Balanced Portfolio:

- George Case
- Tom Connelly
- William J. (Michael) Minsch
- Frances Root

TPG U.S. Fixed Income Portfolio:

- Scott Edmonds
- Takuya Kisaka
- Ethan Madson
- Scott Ulaszek

TPG U.S. Enhanced Liquidity Portfolio:

- Scott Edmonds
- Takuya Kisaka
- Ethan Madson
- Scott Ulaszek

TPG Short-Term Global Bond Account:

- Jashpal Gulliani
- James Oliver Leighton

TPG Global Bond Account:

- Jashpal Gulliani
- James Oliver Leighton

TPG European Bond Account:

- Jashpal Gulliani
- James Oliver Leighton

If the individual is registered as investment adviser representative in one or more states, additional information about the representative is available on the SEC's website at www.adviserinfo.sec.gov by entering his or her name into the investment adviser representative search. Additional information on other legal and disciplinary events and other business activities of the representative may be found at FINRA BrokerCheck®, www.finra.org/Investors/ToolsCalculators/BrokerCheck/ by clicking the option to get a detailed report on the representative.

If you have any questions about the contents of the brochure supplements, please contact Robin Anello at (212) 783-7104.

David Bailin
200 First Stamford Place
Stamford, CT 06902
(212) 559-3639
Citigroup Global Markets Inc. ("CGMI") – Citi Private Bank
March 30, 2012

David Bailin is the chairperson of the Global Portfolio Committee of the Tailored Portfolio Group. The Global Portfolio Committee is responsible for setting and adjusting the asset allocation for the following programs:

- *Citi ETF Program*
- *Dynamic Allocation Portfolios – UMA Program*
- *Fiduciary Asset Management Program*
- *Umbrella Portfolios Investment Management Program*

Educational Background and Business Experience

David Bailin, born 1959

Amherst College, BA
Harvard University, MBA

Managing Director/Global Head of Managed Investments, Citi Private Bank, 2009 - Present
President of Alternative Investment Solutions for Global Wealth & Investment Management, Bank of America, 2006 - 2009
Co-Founder, Martello Investment Management, LLC, 2002 - 2006

Disciplinary Information

David Bailin does not have any legal or disciplinary events required to be disclosed in this brochure supplement.

Other Business Activities

David Bailin does not have other business activities outside of employment at CGMI – Citi Private Bank that are required to be disclosed in this brochure supplement.

The representative may offer products and services other than investment advisory services. The amount of compensation the representative earns for advisory services may be more or less than compensation received for non-advisory services. This may pose a potential conflict of interest to recommend products based on the compensation received rather than your needs. When CGMI or one of its affiliates identifies an actual conflict of interest, we will strive to mitigate that conflict or disclose it to our clients. For additional information about compensation please refer to Item 4.D. Compensation.

Additional Compensation

CGMI has adopted policies that prohibit the acceptance of gifts and entertainment that may influence the investment advice provided to clients. Consistent with these policies, David Bailin is permitted to receive gifts of up to \$100 and receive ordinary and customary business entertainment, subject to a limit of \$250 per person per event to a maximum of \$1,000 of meals and entertainment expenses per person per vendor.

Supervision

David Bailin is supervised and monitored for adherence to applicable policies and procedures of CGMI - Citi Private Bank through regular reviews of client account performances and activities. The name and contact information for the person responsible for supervising David Bailin is Robin Anello at (212) 783-7104.

James Balkwill
25 Canada Square, Canary Wharf
London, GBR E14 5LB
44 (20) 7508-0180
Citigroup Global Markets Inc. ("CGMI") – Citi Private Bank
March 30, 2012

James Balkwill serves as a portfolio manager for the following investment management portfolio:

- *The Tailored Portfolios Group Program – TPG Europe Equity Portfolio*
- *The Tailored Portfolios Group Program – Global Discretionary Portfolios/Plus*
- *The Tailored Portfolios Group Program – Tailored Discretionary Portfolio*

Educational Background and Business Experience

James Balkwill, born 1978

University of Sussex, UK, BA

Senior Portfolio Manager, Tailored Portfolio Group, Citi Private Bank, 2012 - Present

Portfolio Manager, Tailored Portfolio Group, Citi Private Bank, 2007 - 2011

Portfolio Associate, Tailored Portfolio Group, Citi Private Bank, 2003 - 2006

Disciplinary Information

James Balkwill does not have any legal or disciplinary events required to be disclosed in this brochure supplement.

Other Business Activities

James Balkwill does not have other business activities outside of employment at CGMI – Citi Private Bank that are required to be disclosed in this brochure supplement.

The representative may offer products and services other than investment advisory services. The amount of compensation the representative earns for advisory services may be more or less than compensation received for non-advisory services. This may pose a potential conflict of interest to recommend products based on the compensation received rather than your needs. When CGMI or one of its affiliates identifies an actual conflict of interest, we will strive to mitigate that conflict or disclose it to our clients. For additional information about compensation please refer to Item 4.D. Compensation.

Additional Compensation

CGMI has adopted policies that prohibit the acceptance of gifts and entertainment that may influence the investment advice provided to clients. Consistent with these policies, George Case is permitted to receive gifts of up to \$100 and receive ordinary and customary business entertainment, subject to a limit of \$250 per person per event to a maximum of \$1,000 of meals and entertainment expenses per person per vendor.

Supervision

George Case is supervised and monitored for adherence to applicable policies and procedures of CGMI - Citi Private Bank through regular reviews of client account performances and activities. The name and contact information for the person responsible for supervising George Case is Robin Anello at (212) 783-7104.

Thomas Connelly
200 First Stamford Place

Alex Marshall-Tate does not have other business activities outside of employment at CGMI – Citi Private Bank that are required to be disclosed in this brochure supplement.

The representative may offer products and services other than investment advisory services. The amount of compensation the representative earns for advisory services may be more or less than compensation received for non-advisory services. This may pose a potential conflict of interest to recommend products based on the compensation received rather than your needs. When CGMI or one of its affiliates identifies an actual conflict of interest, we will strive to mitigate that conflict or disclose it to our clients. For additional information about compensation please refer to Item 4.D. Compensation.

Additional Compensation

CGMI has adopted policies that prohibit the acceptance of gifts and entertainment that may influence the investment advice provided to clients. Consistent with these policies, Alex Marshall-Tate is permitted to receive gifts of up to \$100 and receive ordinary and customary business entertainment, subject to a limit of \$250 per person per event to a maximum of \$1,000 of meals and entertainment expenses per person per vendor.

Supervision

Alex Marshall-Tate is supervised and monitored for adherence to applicable policies and procedures of CGMI - Citi Private Bank through regular reviews of client account performances and activities. The name and contact information for the person responsible for supervising Alex Marshall-Tate is Robin Anello at (212) 783-7104.

William J. (Michael) Minsch
