## *Advisory Business*

Form ADV Part 2A, Item 4

Giokas Wealth Advisors' registration was granted by the U.S. Securities and Exchange Commission on October 26, 2000. Michael Giokas (CRD Number 4365873) is President and Chief Compliance Officer of the firm. Michael Giokas owns one hundred (100%) percent of the equity of the firm. The firm is not publicly owned or traded. There are no indirect owners of the firm or intermediaries who have any ownership interest in the firm. The firm manages each client's portfolio on an individualized basis. Clients may impose restrictions on their accounts. The firm does not participate in wrap programs. As of December 31, 2011 the firm managed assets on a discretionary basis in the amount of \$30,000,000, representing 394 accounts.

Firm shall provide a series of investment advisory services on behalf of clients. Approximately eighty (80%) percent of Firm's total professional billings shall be attributable to the provision of investment supervisory services in the form of both discretionary and nondiscretionary management activities. Specifically, Firm will never possess any custody of any client funds or securities but rather will use the services of outside custodians. Firm will continuously monitor the needs, goals and objectives of each client and based on such assessment on a continuing basis, Firm will effectuate investment supervisory services. Firm will charge an asset based fee for assets under management. The fee is negotiable. Fees will generally range (but will not be limited to) anywhere from two percent to five percent of the total assets under management. Such fee shall be payable quarterly in advance. All unearned or unapplied fees will be refunded to you no later than the quarter in which the overpayment took place. Firm will usually take the asset management fee directly from the clients' accounts. However, there is no constructive custody situation created as a result of such situation in that Firm will send a statement to the client showing the amount of the fee, the value of the client's assets upon which the fee was based and the specific manner in which the fee was calculated. In addition, Firm will disclose to all clients that it is the client's responsibility to verify the accuracy of the fee calculation and that the custodian will not determine whether the fee is properly calculated. For clients whose advisory fees are debited, Firm sends a bill to the custodian indicating the amount of the fee to be paid by the custodian. Finally, Firm receives authorization of the fee paying arrangement and the custodian's obligation to send out statements to the client no less frequently than quarterly. Because mutual funds pay advisory fees to their investment advisers and such fees are therefore indirectly charged to all holders of mutual fund shares, clients with mutual funds in their portfolios are effectively paying both the Firm and the mutual fund adviser for the management of their assets. Clients who place mutual fund shares under the Firm's management are therefore subject to both the Firm's direct management fee and the indirect management fee of the mutual fund's adviser.

In addition to the foregoing, Firm will provide wealth advisory services on a fee basis to certain clients. Fees are negotiable, are not based on capital gains or capital appreciation of assets and are paid in advance. All unearned or unapplied fees will be refunded to you. Firm will charge a negotiable fee based upon the anticipated complexity of the case and the facts and circumstances of the case. Such fee shall begin at \$2500. The actual amount of the fee shall be directly dependent on the complexity of the client's financial situation and the anticipated complexity of the overall case. Investment advisory fees are negotiable.
