Advice is provided through consultation with the client and may include: determination of financial objectives, identification of financial problems, cash flow management, tax planning, insurance review, investment management, education funding, retirement planning, and estate planning.

TILLMAN HARTLEY LLC is a fee-only financial planning and investment management firm. The firm does not sell annuities, insurance, stocks, bonds, mutual funds, limited partnerships, or other commissioned products. The firm is not affiliated with entities that sell financial products or securities. No commissions in any form are accepted. No finder's fees are accepted.

TILLMAN HARTLEY LLC provides Investment advice as an integral part of financial planning. TILLMAN HARTLEY LLC advises clients regarding cash flow management, charitable giving, and college, retirement, tax, and estate planning.

Each client's initial situation is evaluated and documented. Periodic reviews are provided. More frequent reviews occur but are not necessarily communicated to the client unless immediate changes are recommended. Other professionals (e.g., lawyers, accountants, insurance agents, etc.) are engaged directly by the client on an as-needed basis. Conflicts of interest will be disclosed to the client in the event they should occur.

TILLMAN HARTLEY LLC provides *Family Board of Directors™* services which it pioneered and trademarked. *Family Board of Directors™* services are recommended when a family's assets and family related entities (such as charitable trusts and foundations) reach a level of complexity where a team of professionals are helpful. TILLMAN HARTLEY LLC arranges a Team of professionals that meet (in person or by teleconference) on a quarterly basis with the client and invited family members.

Principal Owners

MICHAEL TILLMAN is the principal owner and Member of TILLMAN HARTLEY LLC. Michael D. Lambert, Gary W. Lutes, Jr., and Kevin R. Schwall are Members (shareholders) of TILLMAN HARTLEY LLC.

Types of Advisory Services

TILLMAN HARTLEY LLC provides investment supervisory services, also known as asset management services; manages investment advisory accounts not involving investment supervisory services; and furnishes investment advice through consultations.

On more than an occasional basis, TILLMAN HARTLEY LLC furnishes advice to clients on matters not involving securities, such as financial planning matters, taxation issues, and trust services that may include estate planning.

TILLMAN HARTLEY LLC classifies assets it manages as Assets under Management and Assets under Advisement. As of December 31, 2011, TILLMAN HARTLEY LLC managed approximately \$295,500,000 in Assets under Management and approximately \$101,600,000 in Assets under Advisement. Approximately \$260,500,000 is managed on a discretionary basis.

Tailored Relationships

The goals and objectives for each client are documented in our client relationship management system. Investment policy statements are created that reflect the stated goals and objective. Clients may impose restrictions on investing in certain securities or types of securities.

Types of Agreements

The following agreements define the typical client relationships.

Investment Advisor Agreement

Most clients choose to have TILLMAN HARTLEY LLC manage their assets. The client's financial affairs are reviewed in depth. Realistic and measurable goals are set and objectives to reach those goals are defined. As goals and objectives change over time, suggestions are made and implemented. A written Investment Policy Statement is prepared, reviewed with client, agreed changes made, and signed by the client. The client's accounts are monitored quarterly for adherence to the Investment Policy Statement, and at least annually the Investment Policy Statements are reviewed and clients are given the opportunity to update any changes.

The scope of work and fees for an Investment Advisor Agreement is provided to the client in writing prior to the start of the relationship.

The annual Investment Advisor Agreement fee is based on a percentage of the Assets under Management and Assets under Advisement and ranges from 0.35% to 1.0%. TILLMAN HARTLEY LLC does not accept compensation from the sale of securities or other investment products.

Fee Agreements may not be assigned without client consent.

Family Board of Directors™ Agreement

A *Family Board of Directors™ Agreement* is used when a family's assets and family related entities (such as charitable trusts and foundations) reach a level of complexity where a team of professionals are helpful. TILLMAN HARTLEY LLC arranges a Team of professionals that meet (in person or by teleconference) on a quarterly basis with the client and invited family members.

The scope of work and fees for a *Family Board of Directors™ Agreement* is provided to the client in writing prior to the start of the relationship.

The annual *Family Board of Directors™ Agreement* fee is negotiated on a client by client basis according to the level of service required. The fee is based on a percentage of the Assets under Management and Assets under Advisement and ranges from 0.35% to 1.0%. TILLMAN HARTLEY LLC usually shares some of the fees with other professionals who serve on the *Family Board of Directors™*. Fee sharing is fully disclosed to client and a signed disclosure agreement is signed by all parties. TILLMAN HARTLEY LLC does not accept compensation from the sale of securities or other investment products.

Fee Agreements may not be assigned without client consent.

Asset Management

Assets are invested primarily in no-load mutual funds and exchange-traded funds through broker-custodians. Fund companies charge each fund shareholder an investment management fee that is disclosed in the fund prospectus. Broker-custodians usually charge a transaction fee for the purchase of funds.

Stocks and bonds may be purchased or sold through a broker-custodian account when appropriate. The brokerage firm usually charges a fee for stock and bond trades. TILLMAN HARTLEY LLC does not receive any compensation, in any form, from fund companies or broker-custodians.

Investments may also include: equities (stocks), warrants, corporate debt securities, commercial paper, certificates of deposit, municipal securities, investment company securities, variable life insurance, U. S. government securities, options contracts, futures contracts, and interests in partnerships.

Initial public offerings (IPOs) are not available through TILLMAN HARTLEY LLC.

Termination of Agreement

The client or TILLMAN HARTLEY LLC may terminate an Agreement by written notice to the other party. Fees are billed in advance. At termination, fees will be refunded on a pro rata basis for the portion of the quarter after termination. The portfolio value at the completion of the prior full billing

quarter is used as the basis for the fee computation, adjusted for the number of days during the billing quarter prior to termination.

Fees and Compensation

Description

TILLMAN HARTLEY LLC's fees are based on a percentage of the client's assets. TILLMAN HARTLEY LLC's fees do not include any management or other fees charged by mutual fund companies. Brokerage fees may or may not be included in our fee. The S.E.C. charges minor transaction fees on certain security sales - these fees are deducted directly from sales proceeds. TILLMAN HARTLEY LLC may charge a set minimum fee if the percentage fee on assets is insufficient to cover the scope of the work.

In most cases there are no additional expenses. If however, extraordinary services are required, a set or hourly fee may be charged.

Fees are billed in advance each calendar quarter at 1/4 of the annual rate. The annual rate is usually between 0.35% and 1%. The rate is applied to client assets under management as follows:

- January 1st fee based on ending value of assets on September 30th of previous year
- April 1st fee is based on ending value of assets on December 31st of previous year
- July 1st fee is based on ending value of assets on March 31st of current year
- October 1st fee is based on ending value of assets on June 30th of current year

When the account opens, it is billed on a pro-rata basis on the portion of the calendar quarter billing period remaining. The first two billings are based on the initial client assets under management. Upon cancellation of agreements, any unused prepaid fees are refunded pro-rata. TILLMAN HARTLEY LLC may share fees with registered "sub-advisors" for services rendered.

TILLMAN HARTLEY LLC furnishes investment advice through consultations not involving investment supervisory services. TILLMAN HARTLEY LLC uses the processes described above to provide investment advice on a fixed fee basis. The fixed fee is determined on a case by case basis taking into account the scope of the work. The fixed fee is payable at the time the service is provided. Refunds are made based on the amount of the work remaining to be completed.

On more than an occasional basis, TILLMAN HARTLEY LLC furnishes advice on matters not involving securities. This happens primarily with Client families on which an employee of TILLMAN HARTLEY LLC is a member of

the Client's Family Board of Directors™ which may consider a myriad of issues affecting the family not involving securities. Fees for this advice are included in the fees charged for investment supervisory services.

TILLMAN HARTLEY LLC does not accept compensation from the sale of securities or other investment products.

TILLMAN HARTLEY LLC may charge an additional investment management fee based on a percentage of assets in a variable life insurance policy under a written fee agreement with client.

Fee Billing

Investment management fees are billed quarterly, in advance, meaning that we invoice the client when the three-month billing period begins. Fees are typically deducted from a designated client account to facilitate billing. The client must consent in advance to direct debiting of their investment account.

Other Fees

Custodians may charge transaction fees on purchases or sales of certain mutual funds and exchange-traded funds. These transaction charges are usually small and incidental to the purchase or sale of a security.

TILLMAN HARTLEY LLC, in its sole discretion, may waive its minimum fee and/or charge a lesser investment advisory fee based upon certain criteria (e.g., historical relationship, type of assets, anticipated future earning capacity, anticipated future additional assets, dollar amounts of assets to be managed, related accounts, account composition, negotiations with clients, etc.).

Expense Ratios

Mutual funds generally charge a management fee for their services as investment managers. The management fee is called an expense ratio. For example, an expense ratio of 0.50 means that the mutual fund company charges 0.5% annually for their services. These fees are in addition to the fees paid by the client to TILLMAN HARTLEY LLC.

Performance figures quoted by mutual fund companies in various publications are after their fees have been deducted.

Termination of Agreement

TILLMAN HARTLEY LLC reserves the right to terminate any financial planning engagement where a client has willfully concealed or has refused to provide pertinent information about financial situations when necessary and appropriate, in TILLMAN HARTLEY LLC's judgment, to providing proper financial advice. Any unused portion of fees collected in advance will be refunded within 30 days.

Performance-Based Fees

Sharing of Capital Gains

Fees are not based on a share of the capital gains or capital appreciation of managed securities.

TILLMAN HARTLEY LLC does not use a performance-based fee structure because of the potential conflict of interest. Performance-based compensation may create an incentive for the adviser to recommend an investment that may carry a higher degree of risk to the client.

Types of Clients

Description

TILLMAN HARTLEY LLC generally provides investment advice to individuals, families, pension and profit sharing plans, trusts, estates, or charitable organizations, corporations or business entities.

Client relationships vary in scope and length of service.

Account Minimums

For Family Board of Directors™ clients TILLMAN HARTLEY LLC generally imposes a minimum dollar amount of \$40,000,000 of assets under management.

Investment Strategies, Methods of Analysis, and Risk of Loss

Investment Strategies

TILLMAN HARTLEY LLC provides investment supervisory services.

Clients are interviewed to determine their goals, objectives, and time horizon to major withdrawals. Clients complete a survey to measure their financial risk tolerance. Their current portfolio is analyzed if applicable. A risk profile is developed taking into account Clients' need to take risk, their capacity to take risk, and their tolerance for risk. Based on all of the above, preliminary portfolios are designed and tested with statistical and stochastic analysis. After discussion with Clients regarding the design and testing of preliminary portfolios, an Investment Policy Statement is prepared and signed outlining how the investments will be invested and managed. Following the dictates of the Investment Policy Statement, investment of the portfolio is implemented.

In implementing Client portfolios, particular attention is given to diversification and cost. TILLMAN HARTLEY LLC has no arrangement with any company or other entity to favor or recommend their investments. TILLMAN HARTLEY LLC serves as independent Investment Counsel.

TILLMAN HARTLEY LLC is approved by Dimensional Fund Advisors to use their mutual funds and separately managed accounts, which TILLMAN HARTLEY LLC often does, but is not bound to. Dimensional Fund Advisors pays no fee or commission to TILLMAN HARTLEY LLC.

Client portfolios are reviewed at least quarterly. At that time, or more frequently if there are contributions or withdrawals from the account, rebalancing is considered. Annually the Investment Policy Statement is reviewed and the portfolio re-engineered if warranted.

For families with total assets over \$40,000,000 TILLMAN HARTLEY LLC collects extensive information about the personal and business interests of the client family and develops a comprehensive multi-generational plan to accomplish the goals and objectives of the client family.

Computer modeling is used to test financial and economic strategies. A Family Board of Directors™ is created which usually consists of clients, family members, other professionals, or employees of TILLMAN HARTLEY LLC. The purpose of the Family Board of Directors™ is to maintain and monitor the plans and strategies developed for the client family. As the governing instruments are formed, TILLMAN HARTLEY LLC will monitor the terms and conditions of these instruments, including oversight of tax and information return filing. TILLMAN HARTLEY LLC provides for the development of an appropriate Investment Policy Statement. TILLMAN HARTLEY LLC organizes, implements, and administers the family financial structure in accordance with the family's unique set of values, goals, and objectives. To administer the Family Board of Directors™, TILLMAN HARTLEY LLC oversees the establishment of accounts and advisory relationships, monitors these for Investment Policy Statement compliance; establishes appropriate benchmarks for investment performance measurement and provides for adaptation to changing conditions and family objectives; and maintains documents, records, comprehensive financial information, and current information about investment strategies and tax matters.

Sources of information for TILLMAN HARTLEY LLC investment strategies include conferences and individual meetings with other investment professionals, reading financial economics research, and meetings with financial economics professors at University of Florida, University of Chicago, and Dartmouth. Other sources of information that TILLMAN HARTLEY LLC may use include financial newspapers and magazines.

As the need arises, TILLMAN HARTLEY LLC establishes relationships with other registered entities to carry out investment alternatives. TILLMAN HARTLEY LLC may have fee sharing arrangements with these other relationships. These fees can be based on a percentage of the fees collected by TILLMAN HARTLEY LLC or a flat fee for services. All of these fees are charged only after disclosure to client, and with client's consent.

Methods of Analysis

Security analysis is done primarily through fundamental analysis, including inspections of corporate activities, research materials prepared by others, corporate rating services, annual reports, prospectuses, filings with the Securities and Exchange Commission, company press releases and the World Wide Web.

Risk of Loss

All investment programs have risks that are borne by the investor. Our investment approach constantly keeps the risk of loss in mind. Investors face the following investment risks:

- **Interest-rate Risk:** Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on existing bonds become less attractive, causing their market values to decline.
- **Market Risk:** The price of a security, bond, or mutual fund may drop in reaction to tangible and intangible events and conditions. This type of risk is caused by external factors independent of a security's particular underlying circumstances. For example, political, economic and social conditions may trigger market events.
- **Inflation Risk:** When any type of inflation is present, a dollar today will not buy as much as a dollar next year, because purchasing power is eroding at the rate of inflation.
- **Currency Risk:** Overseas investments are subject to fluctuations in the value of the dollar against the currency of the investment's originating country. This is also referred to as exchange rate risk.
- **Reinvestment Risk:** This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e. interest rate). This primarily relates to fixed income securities.
- **Business Risk:** These risks are associated with a particular industry or a particular company within an industry. For example, oil-drilling companies depend on finding oil and then refining it, a lengthy process, before they can generate a profit. They carry a higher risk of profitability than an electric company, which generates its income from a steady stream of customers who buy electricity no matter what the economic environment is like.
- **Liquidity Risk:** Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are interested in a standardized product. For example, Treasury Bills are highly liquid, while real estate properties are not.

- **Financial Risk:** Excessive borrowing to finance business operations increases the risk of profitability, because the company must meet the terms of its obligations in good times and bad. During periods of financial stress, the inability to meet loan obligations may result in bankruptcy or a declining market value.
