This brochure provides information about the qualifications and business practices of Archambo Financial Advisors, Inc.. If you have any questions about the contents of this brochure, please contact us at 918-336-2222 or mark@archambofinancial.com. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

Additional information about Archambo Financial Advisors, Inc. also is available on the SEC's website at www.adviserinfo.sec.gov. You can search this site by a unique identifying number, known as a CRD number. Our firm's CRD number is 129927.

Item 2 Material Changes

The SEC adopted "Amendments to Form ADV" in July, 2010. This Firm Brochure, dated 12/31/2011, is our new disclosure document prepared according to the SEC's new requirements and rules. As you will see, this document is a narrative that is substantially different in form and content, and includes some new information that we were not previously required to disclose.

After our initial filing of this Brochure, this item will be used to provide our clients with a summary of new and/or updated information. We will inform you of the revision(s) based on the nature of the updated information.

Consistent with the new rules, we will ensure that you receive a summary of any material changes to this and subsequent Brochures within 120 days of the close of our business' fiscal year. Furthermore, we will provide you with other interim disclosures about material changes as necessary.

Item 19	Requirements for State-Registered Advisers	21

Archambo Financial Advisors, Inc. (AFA) is an investment adviser registered with the Oklahoma Department of Securities, with its principal place of business located in Oklahoma. Archambo Financial Advisors, Inc. began conducting business in 2004.

Listed below are the firm's principal shareholders (i.e., those individuals and/or entities controlling 25% or more of this company).

- Mark W Archambo, President

Archambo Financial Advisors, Inc. offers the following advisory services to our clients:

**INVESTMENT SUPERVISORY SERVICES ("ISS")
INDIVIDUAL PORTFOLIO MANAGEMENT**

Our firm provides continuous advice to a client regarding the investment of client funds based on the individual needs of the client. Through personal discussions in which goals and objectives based on a client's particular circumstances are established, we develop a client's personal investment policy and create and manage a portfolio based on that policy. During our data-gathering process, we determine the client's individual objectives, time horizons, risk tolerance, and liquidity needs. As appropriate, we also review and discuss a client's prior investment history, as well as family composition and background.

We manage these advisory accounts on a discretionary or non-discretionary basis. Account supervision is guided by the client's stated objectives (i.e., maximum capital appreciation, growth, income, or growth and income), as well as tax considerations.

Clients may impose reasonable restrictions on investing in certain securities, types of securities, or industry sectors.

Our investment recommendations are not limited to any specific product or service offered by a broker-dealer or insurance company and will generally include advice regarding the following securities:

- Exchange-listed securities
- Securities traded over-the-counter
- Foreign issuers
- Warrants
- Corporate debt securities (other than commercial paper)
- Commercial paper
- Certificates of deposit
- Municipal securities

- Variable life insurance
- Variable annuities
- Mutual fund shares
- United States governmental securities
- Options contracts on securities
- Interests in partnerships investing in real estate
- Interests in partnerships investing in oil and gas interests

Because some types of investments involve certain additional degrees of risk, they will only be implemented/recommended when consistent with the client's stated investment objectives, tolerance for risk, liquidity and suitability.

FINANCIAL PLANNING

We provide financial planning services. Financial planning is a comprehensive evaluation of a client's current and future financial state by using currently known variables to project future cash flows, asset values and withdrawal plans. Through the financial planning process, all questions, information and analysis are considered as they impact and are impacted by the entire financial and life situation of the client. Clients purchasing this service receive a written report which provides the client with a detailed financial plan designed to assist the client to achieve his or her financial goals and objectives.

In general, the financial plan can address any or all of the following areas:

- **PERSONAL:** We review family records, budgeting, personal liability, estate information and financial goals.
- **TAX & CASH FLOW:** We analyze the client's income tax and spending and planning for past, current and future years; then illustrate the impact of various investments on the client's current income tax and future tax liability.
- **INVESTMENTS:** We analyze investment alternatives and their effect on the client's portfolio.
- **INSURANCE:** We review existing policies to ensure proper coverage for life, health, disability, long-term care, liability, home and automobile.
- **RETIREMENT:** We analyze current strategies and investment plans to help the client

achieve his or her retirement goals.

- **DEATH & DISABILITY:** We review the client's cash needs at death, income needs of surviving dependents, estate planning and disability income.
- **ESTATE:** We assist the client in assessing and developing long-term strategies, including as appropriate, living trusts, wills, estate tax, powers of attorney, asset protection plans, nursing homes, Medicaid and elder law.

We gather required information through in-depth personal interviews. Information gathered includes the client's current financial status, tax status, future goals, returns objectives and attitudes towards risk. We carefully review documents supplied by the client, including a questionnaire completed by the client, and prepare a written report. Should the client choose to implement the recommendations contained in the plan, we suggest the client work closely with his/her attorney, accountant, insurance agent, and/or stockbroker. Implementation of financial plan recommendations is entirely at the client's discretion.

We also provide general non-securities advice on topics that may include tax and budgetary planning, estate planning and business planning.

Typically the financial plan is presented to the client within six months of the contract date, provided that all information needed to prepare the financial plan has been promptly provided.

Financial planning recommendations are not limited to any specific product or service offered by a broker-dealer or insurance company. All recommendations are of a generic nature.

CONSULTING SERVICES

Clients can also receive investment advice on a more focused basis. This may include advice on only an isolated area(s) of concern such as estate planning, retirement planning, or any other specific topic. We also provide specific consultation and administrative services regarding investment and financial concerns of the client.

Consulting recommendations are not limited to any specific product or service offered by a broker-dealer or insurance company. All recommendations are of a generic nature.

AMOUNT OF MANAGED ASSETS

As of 12/31/2011, we were actively managing \$61,776,809 of clients' assets on a discretionary basis plus \$8,880,216 of clients' assets on a non-discretionary basis.

Item 5 Fees and Compensation

**INVESTMENT SUPERVISORY SERVICES
INDIVIDUAL PORTFOLIO MANAGEMENT FEES**

Our annual fees for Investment Supervisory Services are based upon a percentage of assets under management and generally range from 1.4% to 0.40%.

The annualized fee for Investment Supervisory Services will be charged as a percentage of assets under management, according to the following schedule:

FEE SCHEDULE FOR PORTFOLIO ASSET MANAGEMENT

AFA FEE SCHEDULE #1

(For Accounts Under \$500,000)

.40% \$ 0 – And Over

AFA will generally utilize Class C shares when recommending mutual funds under this fee schedule. Class C shares carry an annual internal 12b1 fee (trail commission) that is paid through Dominion Investor Services, Inc. (hereinafter DOMI) to AFA representatives. Some Class C shares will incur a 1% deferred sales charge to the Client if the shares are redeemed within the first twelve (12) months after purchase. The 1% internal 12b1 fee (trail commission) is an integral component of the advisory fee structure (a fee offset system). The .40% advisory fee would be higher if AFA utilized load-waived or no-load mutual funds. Over longer periods of time the cost of ownership of Class C shares could be higher than ownership of other share classes. Client is advised to review the fee summary grid found in the respective prospectuses.

AFA TIERED FEE SCHEDULE #2

Market Value of Portfolio Annual Rate

First \$250,000	1.4%
Next \$250,000	1.2%
Next \$500,000	1.0%
Next \$1,000,000	.8%
Over \$2,000,000	.6%

Archambo Financial Advisors, Inc. imposes a minimum fee of \$500 per year.

As AFA offers recommendations for investment in mutual funds, it is sometimes necessary to

switch fund families and/or classes of funds to achieve recommended asset allocation and client objectives. There may be occasions where the Client has previously paid a sales charge or could incur a sales charge on redemption of previously purchased shares or could possibly incur sales charges when shares are purchased in another fund company.

Investors holding mutual funds in their portfolio are subject to the management fees charged by any investment company mutual funds held in their portfolio. This fee is separate and distinct from the AFA advisory fee and is paid from the mutual funds' assets directly to the fund's advisor. AFA does not receive any portion of a mutual fund's investment management fee. Investment management fees vary for each fund held by client and is fully disclosed in each fund's prospectus. Investors must factor investment management fees charged by any mutual funds held in their portfolio into their overall determination of total annual cost of their investment program.

Other fee schedules are being used with clients under agreements that were already in existence at the formation of Archambo Financial Advisors, Inc.

Limited Negotiability of Advisory Fees: Although Archambo Financial Advisors, Inc. has established the aforementioned fee schedule(s), we retain the discretion to negotiate alternative fees on a client-by-client basis. Client facts, circumstances and needs will be considered in determining the fee schedule. These include the complexity of the client circumstances, assets to be placed under management, anticipated future additional assets, related accounts, portfolio style, account composition, reports, among other factors. The specific annual fee schedule will be identified in the contract between the adviser and each client.

We may group certain related client accounts for the purposes of achieving the minimum account size requirements and determining the annualized fee.

Discounts, not generally available to our advisory clients, may be offered to family members and friends of associated persons of our firm.

FINANCIAL PLANNING FEES

Archambo Financial Advisors, Inc.'s financial planning fee will be determined based on the nature of the services being provided and the complexity of each client's circumstances. All fees are agreed upon prior to entering into a contract with any client.

Our financial planning fees are calculated and charged on an hourly basis, ranging from \$125 to \$200 per hour. Although the length of time it will take to provide a Financial Plan will depend on each client's personal situation, we will provide an estimate for the total hours at the start of the advisory relationship.

We may request a retainer upon completion of our initial fact-finding session with the client; however, advance payment will never exceed \$500 for work that will not be completed within six months. The balance is due upon completion of the plan.

Fees Offset By Commissions: If a Financial Planning client executes recommended securities transactions through associated persons of our firm in their separate capacities as registered representatives of a broker dealer, these individuals will earn commissions which are separate and distinct from fees charged for advisory services. In some instances, depending on the size of the transaction, advisory fees will be discounted, at our discretion, for commissions or future advisory fees earned. Commissions will not be credited towards future advisory fees.

The client will be billed quarterly in advance based on our total estimated Financial Planning fees.

CONSULTING SERVICES FEES

Archambo Financial Advisors, Inc.'s Consulting Services fee will be determined based on the nature of the services being provided and the complexity of each client's circumstances. All fees are agreed upon prior to entering into a contract with any client.

Our Consulting Services fees are calculated and charged on an hourly basis, ranging from \$125 to \$200 per hour. An estimate for the total hours is determined at the start of the advisory relationship.

Management personnel and other related persons of our firm are licensed as registered representatives of a broker-dealer and/or licensed as insurance agents or brokers. In their separate capacity(ies), these individuals are able to implement investment recommendations for advisory clients for separate and typical compensation (i.e., commissions, 12b-1 fees or other sales-related forms of compensation). This presents a conflict of interest to the extent that these individuals recommend that a client invest in a security which results in a commission being paid to the individuals. Clients are not under any obligation to engage these individuals when considering implementation of advisory recommendations. The implementation of any or all recommendations is solely at the discretion of the client.

GENERAL INFORMATION

Termination of the Advisory Relationship: A client agreement may be canceled at any time, by either party, for any reason upon receipt of 30 days written notice. As disclosed above, certain fees are paid in advance of services provided. Upon termination of any account, any prepaid, unearned fees will be promptly refunded. In calculating a client's reimbursement of fees, we will pro rate the reimbursement according to the number of days remaining in the billing period.

Mutual Fund Fees: All fees paid to Archambo Financial Advisors, Inc. for investment advisory services are separate and distinct from the fees and expenses charged by mutual funds and/or ETFs to their shareholders. These fees and expenses are described in each fund's prospectus. These fees will generally include a management fee, other fund expenses,

and a possible distribution fee. If the fund also imposes sales charges, a client may pay an initial or deferred sales charge. A client could invest in a mutual fund directly, without our services. In that case, the client would not receive the services provided by our firm which are designed, among other things, to assist the client in determining which mutual fund or funds are most appropriate to each client's financial condition and objectives. Accordingly, the client should review both the fees charged by the funds and our fees to fully understand the total amount of fees to be paid by the client and to thereby evaluate the advisory services being provided.

Wrap Fee Programs and Separately Managed Account Fees: Clients participating in separately managed account programs may be charged various program fees in addition to the advisory fee charged by our firm. Such fees may include the investment advisory fees of the independent advisers, which may be charged as part of a wrap fee arrangement. In a wrap fee arrangement, clients pay a single fee for advisory, brokerage and custodial services. Client's portfolio transactions may be executed without commission charge in a wrap fee arrangement. In evaluating such an arrangement, the client should also consider that, depending upon the level of the wrap fee charged by the broker-dealer, the amount of portfolio activity in the client's account, and other factors, the wrap fee may or may not exceed the aggregate cost of such services if they were to be provided separately. We will review with clients any separate program fees that may be charged to clients.

Additional Fees and Expenses: In addition to our advisory fees, clients are also responsible for the fees and expenses charged by custodians and imposed by broker dealers, including, but not limited to, any transaction charges imposed by a broker dealer with which an independent investment manager effects transactions for the client's account(s). Please refer to the "Brokerage Practices" section (Item 12) of this Form ADV for additional information.

Grandfathering of Minimum Account Requirements: Pre-existing advisory clients are subject to Archambo Financial Advisors, Inc.'s minimum account requirements and advisory fees in effect at the time the client entered into the advisory relationship. Therefore, our firm's minimum account requirements will differ among clients.

Advisory Fees in General: Clients should note that similar advisory services may (or may not) be available from other registered (or unregistered) investment advisers for similar or lower fees.

Limited Prepayment of Fees: Under no circumstances do we require or solicit payment of fees in excess of \$1200 more than six months in advance of services rendered.

Item 6 Performance-Based Fees and Side-By-Side Management

Archambo Financial Advisors, Inc. does not charge performance-based fees.

Item 7 Types of Clients

Archambo Financial Advisors, Inc. provides advisory services to the following types of clients:

- Individuals (other than high net worth individuals)
- High net worth individuals
- Trusts, estates, or charitable organizations
- Corporations or business entities other than those listed above

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

METHODS OF ANALYSIS

We use the following methods of analysis in formulating our investment advice and/or managing client assets:

Charting. In this type of technical analysis, we review charts of market and security activity in an attempt to identify when the market is moving up or down and to predict how long the trend may last and when that trend might reverse.

Fundamental Analysis. We attempt to measure the intrinsic value of a security by looking at economic and financial factors (including the overall economy, industry conditions, and the financial condition and management of the company itself) to determine if the company is underpriced (indicating it may be a good time to buy) or overpriced (indicating it may be time to sell).

Fundamental analysis does not attempt to anticipate market movements. This presents a potential risk, as the price of a security can move up or down along with the overall market regardless of the economic and financial factors considered in evaluating the stock.

Technical Analysis. We analyze past market movements and apply that analysis to the present in an attempt to recognize recurring patterns of investor behavior and potentially predict future price movement.

Technical analysis does not consider the underlying financial condition of a company. This presents a risk in that a poorly-managed or financially unsound company may underperform regardless of market movement.

Asset Allocation. Rather than focusing primarily on securities selection, we attempt to identify an appropriate ratio of securities, fixed income, and cash suitable to the client's investment goals and risk tolerance.

A risk of asset allocation is that the client may not participate in sharp increases in a particular security, industry or market sector. Another risk is that the ratio of securities, fixed income, and cash will change over time due to stock and market movements and, if not corrected, will no longer be appropriate for the client's goals.

Mutual Fund and/or ETF Analysis. We look at the experience and track record of the manager of the mutual fund or ETF in an attempt to determine if that manager has demonstrated an ability to invest over a period of time and in different economic conditions. We also look at the underlying assets in a mutual fund or ETF in an attempt to determine if there is significant overlap in the underlying investments held in another fund(s) in the client's portfolio. We also monitor the funds or ETFs in an attempt to determine if they are continuing to follow their stated investment strategy.

A risk of mutual fund and/or ETF analysis is that, as in all securities investments, past performance does not guarantee future results. A manager who has been successful may not be able to replicate that success in the future. In addition, as we do not control the underlying investments in a fund or ETF, managers of different funds held by the client may purchase the same security, increasing the risk to the client if that security were to fall in value. There is also a risk that a manager may deviate from the stated investment mandate or strategy of the fund or ETF, which could make the holding(s) less suitable for the client's portfolio.

Third-Party Money Manager Analysis. We examine the experience, expertise, investment philosophies, and past performance of independent third-party investment managers in an attempt to determine if that manager has demonstrated an ability to invest over a period of time and in different economic conditions. We monitor the manager's underlying holdings, strategies, concentrations and leverage as part of our overall periodic risk assessment. Additionally, as part of our due-diligence process, we survey the manager's compliance and business enterprise risks.

A risk of investing with a third-party manager who has been successful in the past is that he/she may not be able to replicate that success in the future. In addition, as we do not control the underlying investments in a third-party manager's portfolio, there is also a risk that a manager may deviate from the stated investment mandate or strategy of the portfolio, making it a less suitable investment for our clients. Moreover, as we do not control the manager's daily business and compliance operations, we may be unaware of the lack of internal controls necessary to prevent business, regulatory or reputational deficiencies.

Risks for all forms of analysis. Our securities analysis methods rely on the assumption that the companies whose securities we purchase and sell, the rating agencies that review these securities, and other publicly-available sources of information about these securities, are providing accurate and unbiased data. While we are alert to indications that data may be incorrect, there is always a risk that our analysis may be compromised by inaccurate or misleading information.

Other: Archambo Financial Advisors, Inc. will utilize, when appropriate, Frank Russell Company proprietary asset allocation models in conjunction with the Russell Investment Management Company (RIMCO) and the Russell Investment Company (RIC) Funds. RIMCO, from time to time, also provides other investment research. The firm will also use other investment models and research from various sources.

The firm will also use information gathered from financial newspapers and magazines, research materials prepared by others, corporate rating services, annual reports, prospectuses, filings with the Securities and Exchange Commission and company press releases.

INVESTMENT STRATEGIES

We use the following strategy(ies) in managing client accounts, provided that such strategy(ies) are appropriate to the needs of the client and consistent with the client's investment objectives, risk tolerance, and time horizons, among other considerations:

Long-term purchases. We purchase securities with the idea of holding them in the client's account for a year or longer. Typically we employ this strategy when:

- we believe the securities to be currently undervalued, and/or
- we want exposure to a particular asset class over time, regardless of the current projection for this class.

A risk in a long-term purchase strategy is that by holding the security for this length of time, we may not take advantages of short-term gains that could be profitable to a client. Moreover, if our predictions are incorrect, a security may decline sharply in value before we make the decision to sell.

Short-term purchases. When utilizing this strategy, we purchase securities with the idea of selling them within a relatively short time (typically a year or less). We do this in an attempt to take advantage of conditions that we believe will soon result in a price swing in the securities we purchase.

Risk of Loss. Securities investments are not guaranteed and you may lose money on your investments. We ask that you work with us to help us understand your tolerance for risk.

Item 9 Disciplinary Information

We are required to disclose any legal or disciplinary events that are material to a client's or prospective client's evaluation of our advisory business or the integrity of our management.

Our firm and our management personnel have no reportable disciplinary events to disclose.

Item 10 Other Financial Industry Activities and Affiliations

Management personnel of Archambo Financial Advisors, Inc. are separately licensed as registered representatives of **Dominion Investor Services, Inc. (DOMI)**, an **affiliated broker-dealer**. These individuals, in their separate capacity, can effect securities transactions for which they will receive separate, yet customary compensation.

Archambo Financial Advisors, Inc. officers and applicable employees are registered with DOMI as licensed representatives through The Financial Industry Regulatory Authority (FINRA).

AFA utilizes DOMI to provide certain services under this contract. These services include but are not limited to performance reporting, administrative support, brokerage and transaction clearing, confirmation delivery and providing monthly or quarterly brokerage account statements. DOMI receives compensation for these services.

Mark Archambo, president of AFA, owns a minority interest in and is a director for AFA's prime broker, Dominion Investor Services, Inc. (DOMI) and its parent firm Dominion Financial Services, Inc. (DFS), spending approximately 2% of his time in this capacity. Mr. Archambo receives no special compensation for this activity but may be paid dividends or distributions by DOMI/DFS from their surplus earnings proportionate to his ownership interest. AFA has negotiated special securities transaction rates for advisory client accounts that are substantially lower than DOMI's full retail commission rates.

AFA will generally discourage the use of broker/dealers other than DOMI (where AFA IAR's are also RR's) to execute client trades. DOMI is an introducing broker/dealer who has established agreements with First Southwest Company (hereinafter called FSC), a member of FINRA and SIPC, to provide execution of orders and custody of client's cash and securities.

AFA believes the conflicts of interest in recommending DOMI/FSC as their preferred broker/dealer arrangement is mitigated by improvement in transaction costs to the client, along with transaction speed, reliability, internal audit capability and general efficiency.

DOMI routinely monitors the quality of client trade executions to ensure clients are receiving the best available execution price among the competing stock exchanges and market-makers. Transaction costs paid to FSC and DOMI are fixed flat-rate fees for advisory accounts. A copy of the transactions cost schedule is provided to the client as part of the advisory contract. Profits or losses associated with managed account transaction fees are paid to and borne by DOMI, not AFA or its IAR's (this includes their separate capacity as RR's of DOMI).

AFA believes that the transaction, FSC custody and clearing costs available through the DOMI/FSC arrangement have been and remain competitive. FSC is among the few outlets that provide access to several AFA preferred products (see disclosure under Item 8C(1)).

AFA has no "soft dollar" arrangements with FSC or DOMI to provide additional goods or services (such as security research or portfolio software) in exchange for direction of the client's brokerage account. The services used by AFA are available without reservation to all

users of the FSC trading platform. As part of its fiduciary obligation to its clients, AFA will monitor transaction-related costs to its client's accounts for reasonableness with prevailing market costs.

AFA is also engaged in a retail securities business for its non-advisory clients. AFA advisory personnel, in their capacity as registered representatives (RR) of DOMI place retail securities trades for non-advisory client accounts for usual and customary commission compensation.

AFA may utilize Russell Investment Management Company proprietary asset allocation model in conjunction with the Russell Investment Management Company (hereinafter called RIMCO) funds. RIMCO, from time to time, also provides other investment research.

Services provided to clients are based, in part, with services obtained by DOMI through a contract with RIMCO, a registered investment advisor with the Securities and Exchange Commission based in Seattle, Washington. RIMCO agrees to have its subsidiary, Russell Fund Distributors, Inc., a registered broker/dealer with FINRA, distribute shares of Russell Mutual Funds and other financial services products issued by entities advised by or administered by RIMCO. This contract allows AFA to offer to its clients, products offered or supervised by RIMCO (or its affiliates) subject to AFA's fiduciary obligations to its clients.

The DOMI/RIMCO contractual arrangement allows AFA clients to be invested in financial products which use sophisticated asset allocation and multi-manager/multi-style techniques generally not available to non-institutional clients of investment advisors. AFA will not receive commissions, fees or other compensation, either directly or indirectly, from RIMCO or any of its affiliated companies in connection with managed account clients. RIMCO will receive fees directly from the investment vehicle, depending on the products used.

While Archambo Financial Advisors, Inc. and these individuals endeavor at all times to put the interest of the clients first as part of our fiduciary duty, clients should be aware that the receipt of additional compensation itself creates a conflict of interest, and may affect the judgment of these individuals when making recommendations.

A member of our firm's management is separately licensed as an investment adviser representative of **Dominion Wealth Advisors, Inc.** (DWA). In that capacity, this individual provides advisory services through **DWA**. The advisory services delivered by **DWA** are distinct from those provided by our firm and are provided for separate compensation. **DWA's** advisory services may be recommended to our clients for whom it is appropriate. There are no referral fee arrangements between our firm and **DWA**. However, a conflict of interest is created by this arrangement to the extent that this individual recommends that an Archambo Financial Advisors, Inc. client open a **DWA** account through which this individual will receive additional compensation. No Archambo Financial Advisors, Inc. client is obligated to use **DWA** or its services. Clients choosing to implement Archambo Financial Advisors, Inc.'s recommendations through **DWA's** advisory services should refer to **DWA's** Firm Brochure or other disclosure document for details regarding that firm's services and fees.

As required, affiliated investment advisers are specifically disclosed in Section 7.A. on Schedule D of Form ADV, Part 1. (Part 1 of our Form ADV can be accessed by following the directions provided on the Cover Page of this Firm Brochure.)

Management personnel of our firm is also an employee in the accounting firm of **Archambo**

& Mueggenborg, P.C., CPA'S, (A&M) where he is an individually licensed and practicing Certified Public Accountant providing accounting services for separate and typical compensation.

A&M typically recommends Archambo Financial Advisors, Inc. to accounting clients in need of advisory services. Conversely, Archambo Financial Advisors, Inc. typically recommends **A&M** to advisory clients in need of accounting services. Accounting services provided by **A&M** are separate and distinct from our advisory services, and are provided for separate and typical compensation. There are no referral fee arrangements between our firms for these recommendations. No Archambo Financial Advisors, Inc. client is obligated to use **A&M** for any accounting services and conversely, no accounting client is obligated to use the advisory services provided by us. **A&M's** accounting services do not include the authority to sign checks or otherwise disburse funds on any of our advisory client's behalf.

These individuals may spend the a portion of their time on their accounting practice.

Mark Archambo - 30-40%

Deborah Mueggenborg - 65-75%

Clients should be aware that the receipt of additional compensation by Archambo Financial Advisors, Inc. and its management persons or employees creates a conflict of interest that may impair the objectivity of our firm and these individuals when making advisory recommendations. Archambo Financial Advisors, Inc. endeavors at all times to put the interest of its clients first as part of our fiduciary duty as a registered investment adviser; we take the following steps to address this conflict:

- we disclose to clients the existence of all material conflicts of interest, including the potential for our firm and our employees to earn compensation from advisory clients in addition to our firm's advisory fees;
- we disclose to clients that they are not obligated to purchase recommended investment products from our employees or affiliated companies;
- we collect, maintain and document accurate, complete and relevant client background information, including the client's financial goals, objectives and risk tolerance;
- our firm's management conducts regular reviews of each client account to verify that all recommendations made to a client are suitable to the client's needs and circumstances;
- we require that our employees seek prior approval of any outside employment activity so that we may ensure that any conflicts of interests in such activities are properly addressed;
- we periodically monitor these outside employment activities to verify that any conflicts of interest continue to be properly addressed by our firm; and
- we educate our employees regarding the responsibilities of a fiduciary, including the need for having a reasonable and independent basis for the investment advice provided to

clients.

As previously disclosed, we recommend the services of various registered investment advisers to our clients. In exchange for this recommendation, we receive a referral fee from the selected investment adviser. The fee received by us is typically a percentage of the fee charged by that investment adviser to the referred client. The portion of the advisory fee paid to us does not increase the total advisory fee paid to the selected investment adviser by the client. We do not charge the client any fees for these referrals. We will only recommend advisers that pay us a referral fee.

We are aware of the special considerations required under Rule 206(4)-3 of the Investment Advisers Act of 1940. As such, all appropriate disclosure shall be made and all applicable Federal and State laws will be observed.

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Our firm has adopted a Code of Ethics which sets forth high ethical standards of business conduct that we require of our employees, including compliance with applicable federal securities laws.

Archambo Financial Advisors, Inc. and our personnel owe a duty of loyalty, fairness and good faith towards our clients, and have an obligation to adhere not only to the specific provisions of the Code of Ethics but to the general principles that guide the Code.

Our Code of Ethics includes policies and procedures for the review of quarterly securities transactions reports as well as initial and annual securities holdings reports that must be submitted by the firm's access persons. Among other things, our Code of Ethics also requires the prior approval of any acquisition of securities in a limited offering (e.g., private placement) or an initial public offering. Our code also provides for oversight, enforcement and recordkeeping provisions.

Archambo Financial Advisors, Inc.'s Code of Ethics further includes the firm's policy prohibiting the use of material non-public information. While we do not believe that we have any particular access to non-public information, all employees are reminded that such information may not be used in a personal or professional capacity.

A copy of our Code of Ethics is available to our advisory clients and prospective clients. You may request a copy by email sent to mark@archambofinancial.com, or by calling us at 918-336-2222.

Archambo Financial Advisors, Inc. and individuals associated with our firm are prohibited from engaging in principal transactions.

Archambo Financial Advisors, Inc. and individuals associated with our firm are prohibited from engaging in agency cross transactions.

Our Code of Ethics is designed to assure that the personal securities transactions, activities and interests of our employees will not interfere with (i) making decisions in the best interest of advisory clients and (ii) implementing such decisions while, at the same time, allowing employees to invest for their own accounts.

Our firm and/or individuals associated with our firm may buy or sell for their personal accounts securities identical to or different from those recommended to our clients. In addition, any related person(s) may have an interest or position in a certain security(ies) which may also be recommended to a client.

It is the expressed policy of our firm that no person employed by us may purchase or sell any security prior to a transaction(s) being implemented for an advisory account, thereby preventing such employee(s) from benefiting from transactions placed on behalf of advisory accounts.

As disclosed in the preceding section of this Brochure (Item 10), related persons of our firm are separately registered as **securities representatives of a broker-dealer, investment adviser representatives of another registered investment adviser, and/or licensed as an insurance agent/broker of various insurance companies**. Please refer to Item 10 for a detailed explanation of these relationships and important conflict of interest disclosures.

Item 12 Brokerage Practices

Refer to Item 10 - Other Financial Industry Activities and Affiliations for information about our practices regarding broker-dealer activities.

Archambo Financial Advisors, Inc. does not have any soft-dollar arrangements and does not receive any soft-dollar benefits.

Archambo Financial Advisors, Inc. requires that it be provided with written authority to determine the broker-dealer to use for client transactions and the commission costs that will be charged to our clients for these transactions.

Clients must include any limitations on this discretionary authority in this written authority statement. Clients may change/amend these limitations as required. Such amendments must be provided to us in writing. AFA reserves the right to refuse or terminate any client account (pursuant to the contract's termination clause) if the client imposes unreasonable restrictions as determined by AFA.

As a matter of policy and practice, Archambo Financial Advisors, Inc. does not generally block client trades and, therefore, we implement client transactions separately for each account. Consequently, certain client trades may be executed before others, at a different price and/or commission rate. Additionally, our clients may not receive volume discounts available to advisers who block client trades.

Item 13 Review of Accounts

INVESTMENT SUPERVISORY SERVICES INDIVIDUAL PORTFOLIO MANAGEMENT

REVIEWS: While the underlying securities within Individual Portfolio Management Services accounts are continually monitored, these accounts are reviewed at least **semi-annually**. Accounts are reviewed in the context of each client's stated investment objectives and guidelines. More frequent reviews may be triggered by material changes in variables such as the client's individual circumstances, or the market, political or economic environment.

Account reviews are normally performed with the client's assigned investment advisor. In addition, AFA accounts are reviewed at least monthly by AFA management to review that account holdings and activity continue to reflect the client's stated account objectives.

These accounts are reviewed by: Mark Archambo, President.

REPORTS: AFA clients will receive a monthly statement from their custodian if there is activity in the account, otherwise they will minimally receive a quarterly statement. Statements will reflect securities owned, transactions, current market values, and any applicable investment management fees deducted.

Clients under an Investment Advisory Agreement will receive an Investment Performance Report on a semi-annual basis from AFA.

FINANCIAL PLANNING SERVICES

REVIEWS: While reviews may occur at different stages depending on the nature and terms of the specific engagement, typically no formal reviews will be conducted for Financial Planning clients unless otherwise contracted for.

REPORTS: Financial Planning clients will receive a completed financial plan. Additional reports will not typically be provided unless otherwise contracted for.

CONSULTING SERVICES

REVIEWS: While reviews may occur at different stages depending on the nature and terms of the specific engagement, typically no formal reviews will be conducted for Consulting Services clients unless otherwise contracted for. Such reviews will be conducted by the client's account representative.

REPORTS: Consulting Services clients will not typically receive reports due to the nature of the service.

Item 14 Client Referrals and Other Compensation

It is Archambo Financial Advisors, Inc.'s policy not to engage solicitors or to pay related or

non-related persons for referring potential clients to our firm.

It is Archambo Financial Advisors, Inc.'s policy not to accept or allow our related persons to accept any form of compensation, including cash, sales awards or other prizes, from a non-client in conjunction with the advisory services we provide to our clients.

Item 15 Custody

We previously disclosed in the "Fees and Compensation" section (Item 5) of this Brochure that our firm directly debits advisory fees from client accounts.

As part of this billing process, the client's custodian is advised of the amount of the fee to be deducted from that client's account. On at least a quarterly basis, the custodian is required to send to the client a statement showing all transactions within the account during the reporting period.

Because the custodian does not calculate the amount of the fee to be deducted, it is important for clients to carefully review their custodial statements to verify the accuracy of the calculation, among other things. Clients should contact us directly if they believe that there may be an error in their statement.

Our firm does not have actual or constructive custody of client accounts.

Item 16 Investment Discretion

Clients may hire us to provide discretionary asset management services, in which case we place trades in a client's account without contacting the client prior to each trade to obtain the client's permission.

Our discretionary authority includes the ability to do the following without contacting the client:

- Determine the security to buy or sell; and/or
- Determine the amount of the security to buy or sell

Clients give us discretionary authority when they sign a discretionary agreement with our firm, and may limit this authority by giving us written instructions. Clients may also change/amend such limitations by once again providing us with written instructions.

Item 17 Voting Client Securities

As a matter of firm policy, we do not vote proxies on behalf of clients. Therefore, although our firm may provide investment advisory services relative to client investment assets, clients maintain exclusive responsibility for: (1) directing the manner in which proxies solicited by issuers of securities beneficially owned by the client shall be voted, and (2) making all

elections relative to any mergers, acquisitions, tender offers, bankruptcy proceedings or other type events pertaining to the client's investment assets. Clients are responsible for instructing each custodian of the assets, to forward to the client copies of all proxies and shareholder communications relating to the client's investment assets.

We may provide clients with consulting assistance regarding proxy issues if they contact us with questions at our principal place of business.

Item 18 Financial Information

Archambo Financial Advisors, Inc. has no additional financial circumstances to report.

Under no circumstances do we require or solicit payment of fees in excess of \$500 per client more than six months in advance of services rendered. Therefore, we are not required to include a financial statement.

Archambo Financial Advisors, Inc. has not been the subject of a bankruptcy petition at any time during the past ten years.

Item 19 - Requirements for State-Registered Advisers

Mark Archambo is the President of AFA and received his education at Bethany Nazarene College and University of Tulsa, majoring in Accounting. He has been a CPA and is a Certified Financial Planner and has been involved in financial services since 1987.

Aaron Archambo is the Vice-President of AFA and received his education at Southern Nazarene University, majoring in Accounting. He is a Certified Financial Planner and has been involved in financial services since 1996.

Please refer to ADV Part 2B, Part 4B for Mark Archambo and Deborah Mueggenborg for involvement in non-investment related activities.

AFA or any of its representatives are compensated with performance based fees.

AFA or any management personnel have not been involved in an award or found liable in an arbitration claim alleging damages in excess of \$2,500, a civil, self-regulatory organization, or administrative proceeding.

There has been no relationship or arrangement by AFA or its management personnel with any issuer of securities not listed in Item 10.
