Advisory Business

Firm Description

HMS FINANCIAL SERVICES, LLC, ("FIRM NAME") was founded in 1998.

HMS FINANCIAL SERVICES, LLC provides personalized confidential financial advice and investment management to individuals, pension and profit sharing plans, trusts, estates, charitable organizations and small businesses. Advice is provided through direct consultation with clients and may include: determination of financial objectives, identification of financial problems, investment management, education funding, and retirement planning.

Investment advice is an integral part of our service. In addition, HMS FINANCIAL SERVICES, LLC advises clients regarding cash flow, college planning, retirement planning, and limited tax planning.

Investment advice is provided, with the client making the final decision with respect to the appropriate investment objective(s) of his or her accounts with investment selection performed by the firm. HMS FINANCIAL SERVICES, LLC does not act as a custodian of client assets. The client always maintains asset control. HMS FINANCIAL SERVICES, LLC places trades for clients under a limited power of attorney.

A written evaluation of each client's initial situation is provided to the client, as a part of an Investment Advisory Agreement. Periodic reviews are communicated to provide reminders of the specific courses of action that need to be taken. More frequent reviews occur but are not necessarily communicated to the client unless immediate changes are recommended.

Other professionals (e.g., lawyers, accountants, insurance agents, etc.) may be engaged directly by the client on an as-needed basis. Conflicts of interest will be disclosed to the client in the unlikely event they should occur.

The initial meeting, which may be by telephone, is free of charge and is considered an exploratory interview to determine the extent to which financial advice and investment management may be beneficial to the client.

Principal Owners

Scot J. Bytnar is a 100% stockholder.

Types of Advisory Services

HMS FINANCIAL SERVICES, LLC provides investment supervisory services, also known as asset management services; manages investment advisory accounts not involving investment supervisory services; furnishes investment advice through consultations; and provides periodic narrative updates

regarding economic or market news or information that is perceived to be current or relevant to clients.

On more than an occasional basis, HMS FINANCIAL SERVICES, LLC furnishes advice to clients on matters not involving securities, such as financial planning matters, retirement planning and limited taxation issues.

As of 12/31/2011, HMS FINANCIAL SERVICES, LLC manages approximately \$65,611,788 in assets for approximately 100+ clients. Approximately \$65,400,332 is managed on a discretionary basis, and \$211,456 is managed on a non-discretionary basis.

Tailored Relationships

The goals and objectives for each client are documented in our Investment Advisory Agreement and our portfolio management system. Investment policy statements may be created that provide a more detailed description of the stated goals and objective. Clients may impose restrictions on investing in certain securities or types of securities.

Agreements may not be assigned without client consent.

Types of Agreements

The following agreements define the typical client relationships.

Advisory Service Agreement

Most clients choose to have HMS FINANCIAL SERVICES, LLC manage their assets in order to obtain ongoing in-depth financial advice and life planning. Many aspects of the client's financial affairs are reviewed, including those of their children. Realistic and measurable goals are discussed and objectives to reach those goals are defined. As goals and objectives change over time, suggestions are made and implemented on an ongoing basis.

The scope of work and fee for an Advisory Service Agreement is provided to the client in writing prior to the start of the relationship. An Advisory Service Agreement includes investment management (including performance reporting) as well as the implementation of recommendations made.

Although the Advisory Service Agreement is an ongoing agreement and constant adjustments are required, the length of service to the client is at the client's discretion. The client or the investment manager may terminate an Agreement by written notice to the other party. At termination, fees will be billed on a pro rata basis for the portion of the quarter completed. The portfolio value as of the date of termination/transfer of the account(s) is/are used as the basis for the fee computation, adjusted for the number of days during the billing quarter prior to termination.

Asset Management

Assets are invested primarily in no-load or low-load mutual funds and exchange-traded funds, usually through discount brokers or fund companies. Fund companies charge each fund shareholder an investment management fee that is disclosed in the fund prospectus. Discount brokerages may charge a transaction fee for the purchase of some funds.

Stocks and bonds may be purchased or sold through a brokerage account when appropriate. The brokerage firm charges a fee for stock and bond trades. HMS FINANCIAL SERVICES, LLC does not receive any compensation, in any form, from fund companies or brokerages.

Investments may also include: equities (stocks), warrants, corporate debt securities, commercial paper, certificates of deposit, municipal securities, investment company securities (mutual funds shares), U. S. government securities, options contracts, futures contracts, and interests in partnerships.

Initial public offerings (IPOs) are not available through HMS FINANCIAL SERVICES, LLC.

Termination of Agreement

A Client may terminate any of the aforementioned agreements at any time by notifying HMS FINANCIAL SERVICES, LLC in writing and paying the rate for the time spent on the investment advisory engagement prior to notification of termination.

HMS FINANCIAL SERVICES, LLC may terminate any of the aforementioned agreements at any time by notifying the client in writing.

Fees and Compensation

Description

HMS FINANCIAL SERVICES, LLC bases its fees on a percentage of assets under management.

The annual Advisory Service Agreement fee is based on a percentage of the investable assets in all managed accounts according to the following schedule:

- 1.00% on the first \$500,000;
- 0.75% on the next \$1,000,000 (from 500,001 to 1,500,000);
- 0.50% on the next \$1,500,000 (from 1,500,001 to 3,000,000);
- 0.35% on the next \$2,000,000 (from 3,000,001 to 5,000,000); and
- 0.10% on the assets above \$5,000,000.

The minimum annual fee is \$375 and is negotiable. Current client relationships may exist where the fees are higher or lower than the fee schedule above. Fees may be negotiable.

Fee Billing

Investment management fees are billed quarterly, in *arrears*, meaning that we invoice you after the three-month billing period has ended. Payment in full is expected upon invoice presentation. Fees may be deducted from a designated client account to facilitate billing. The client must consent in advance to direct debiting of their investment account.

Other Fees

Custodians may charge transaction fees on purchases or sales of certain mutual funds, stocks, and exchange-traded funds. These transaction charges are usually small and incidental to the purchase or sale of a security. The selection of the security is more important than the nominal fee that the custodian charges to buy or sell the security.

HMS FINANCIAL SERVICES, LLC, in its sole discretion, may waive its minimum fee and/or charge a lesser investment advisory fee based upon certain criteria (e.g., historical relationship, type of assets, anticipated future earning capacity, anticipated future additional assets, dollar amounts of assets to be managed, related accounts, account composition, negotiations with clients, etc.).

Expense Ratios

Mutual funds generally charge a management fee for their services as investment managers. The management fee is called an expense ratio. For example, an expense ratio of 0.50 means that the mutual fund company charges 0.5% for their services. These fees are in addition to the fees paid by you to HMS FINANCIAL SERVICES, LLC.

However please note that the performance figures quoted by mutual fund companies in various publications are after their fees have been deducted.

Past Due Accounts and Termination of Agreement

HMS FINANCIAL SERVICES, LLC reserves the right to stop work on any account or directly debit certain client accounts that are more than 30 days overdue. In addition, HMS FINANCIAL SERVICES, LLC reserves the right to terminate any financial planning engagement where a client has willfully concealed or has refused to provide pertinent information about financial situations when necessary and appropriate, in HMS FINANCIAL SERVICES, LLC's judgment, to providing proper financial advice.

Performance-Based Fees

Sharing of Capital Gains

Fees are not based on a share of the capital gains or capital appreciation of managed securities.

HMS FINANCIAL SERVICES, LLC does not use a performance-based fee structure because of the potential conflict of interest. Performance-based compensation may create an incentive for the adviser to recommend an investment that may carry a higher degree of risk to the client.

Types of Clients

Description

HMS FINANCIAL SERVICES, LLC generally provides investment advice to individuals, pension and profit sharing plans, trusts, estates, or charitable organizations, corporations or business entities.

Client relationships vary in scope and length of service.

Account Minimums

HMS FINANCIAL SERVICES, LLC, does not maintain an account minimum but we reserve the right to refuse to provide services for accounts representing a minimally invested relationship with our firm.

In general, when an account falls below \$37,500 in value, the minimum annual fee of \$375 is charged, however this may be waived or lowered depending upon the type of client or account.

HMS FINANCIAL SERVICES, LLC has the discretion to waive the account minimum. Accounts of less than \$37,500 may be set up when the client and the advisor anticipate that the client will add additional funds to the accounts or have the intention of expanding the investment management relationship over a reasonable amount of time. Other exceptions will apply to employees of HMS FINANCIAL SERVICES, LLC and their relatives, or relatives of existing clients.

Unless otherwise stipulated to with respect to new client accounts or relationships, clients receiving ongoing asset management services will be assessed a \$375 minimum annual fee. Clients with assets below the minimum account size may pay a higher percentage rate on their annual fees than the fees paid by clients with greater assets under management.

Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis

Security analysis methods may include charting, fundamental analysis, technical analysis, and cyclical analysis.

The main sources of information include financial newspapers and magazines, inspections of corporate activities, research materials prepared by others, corporate rating services, annual reports, prospectuses, filings with the Securities and Exchange Commission, and company press releases.

Other sources of information that HMS FINANCIAL SERVICES, LLC may use include Morningstar Principia mutual fund information, Morningstar Principia stock information, Fidelity Investments research, proprietary mutual fund company literature, and the World Wide Web.

Investment Strategies

The primary investment strategy used on client accounts is strategic asset allocation. In general, portfolios are created utilizing a number of no-load or waived load mutual funds, stocks, ETFs, etc., representing the various asset classes desired in the overall allocation. Portfolios are globally diversified to control the risk associated with traditional markets.

The investment strategy for a specific client is based upon the objectives stated by the client during consultations. The client may change these objectives at any time. Each client executes an Investment Advisory Agreement that documents their objectives and their desired investment strategy.

Risk of Loss

All investment programs have certain risks that are borne by the investor. Our investment approach constantly keeps the risk of loss in mind. Investors face the following investment risks:

- **Interest-rate Risk:** Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on existing bonds become less attractive, causing their market values to decline.
- **Market Risk:** The price of a security, bond, or mutual fund may drop in reaction to tangible and intangible events and conditions. This type of risk is caused by external factors independent of a security's particular underlying circumstances. For example, political, economic and social conditions may trigger market events.
- **Inflation Risk:** When any type of inflation is present, a dollar today will not buy as much as a dollar next year, because purchasing power is eroding at the rate of inflation.
- **Currency Risk:** Overseas investments are subject to fluctuations in the value of the dollar against the currency of the investment's originating country. This is also referred to as exchange rate risk.
- **Reinvestment Risk:** This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e. interest rate). This primarily relates to fixed income securities.

- **Business Risk:** These risks are associated with a particular industry or a particular company within an industry. For example, oil-drilling companies depend on finding oil and then refining it, a lengthy process, before they can generate a profit. They carry a higher risk of profitability than an electric company, which generates its income from a steady stream of customers who buy electricity no matter what the economic environment is like.
- **Liquidity Risk:** Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are interested in a standardized product. For example, Treasury Bills are highly liquid, while real estate properties are not.
- **Financial Risk:** Excessive borrowing to finance a business' operations increases the risk of profitability, because the company must meet the terms of its obligations in good times and bad. During periods of financial stress, the inability to meet loan obligations may result in bankruptcy and/or a declining market value.
