Advisory Business

Firm Description

Alpine Capital Management, LLC, ("FIRM NAME") was founded in 2004.

Alpine Capital Management, LLC provides personalized confidential financial planning and investment management to individuals, pension and profit sharing plans, trusts, estates, charitable organizations and small businesses. Advice is provided through consultation with the client and may include: determination of financial objectives, identification of financial problems, cash flow management, tax planning, insurance review, investment management, education funding, retirement planning, and estate planning.

Alpine Capital Management, LLC is strictly a fee-only financial planning and investment management firm. The firm does not sell annuities, insurance, stocks, bonds, mutual funds, limited partnerships, or other commissioned products. The firm is not affiliated with entities that sell financial products or securities. No commissions in any form are accepted. No finder's fees are accepted.

Investment advice is provided, with the client making the final decision on investment selection. Alpine Capital Management, LLC does not act as a custodian of client assets. The client always maintains asset control. Alpine Capital Management, LLC places trades for clients under a limited power of attorney.

A written evaluation of each client's initial situation is provided to the client, often in the form of a net worth statement. Periodic reviews are also communicated to provide reminders of the specific courses of action that need to be taken. More frequent reviews occur but are not necessarily communicated to the client unless immediate changes are recommended.

Other professionals (e.g., lawyers, accountants, insurance agents, etc.) are engaged directly by the client on an as-needed basis. Conflicts of interest will be disclosed to the client in the unlikely event they should occur.

The initial meeting, which may be by telephone, is free of charge and is considered an exploratory interview to determine the extent to which financial planning and investment management may be beneficial to the client.

Principal Owners

Alpine Capital Group, LLC a 100% stockholder.

Types of Advisory Services

Alpine Capital Management, LLC provides investment supervisory services, also known as asset management services; manages investment advisory accounts not involving investment supervisory services; furnishes investment advice through consultations.

As of January 1, 2012, Alpine Capital Management, LLC manages approximately \$56,000,000 in assets for approximately 95 clients. Approximately \$56,000,000 is managed on a discretionary basis.

Tailored Relationships

The goals and objectives for each client are documented in our client relationship management system. Investment policy statements are created that reflect the stated goals and objective. Clients may impose restrictions on investing in certain securities or types of securities.

Agreements may not be assigned without client consent.

Financial Planning Agreement

A financial plan is designed to help the client with all aspects of financial planning without ongoing investment management after the financial plan is completed.

The financial plan may include, but is not limited to: a net worth statement; a cash flow statement; a review of investment accounts, including reviewing asset allocation and providing repositioning recommendations; strategic tax planning; a review of retirement accounts and plans including recommendations; if necessary; one or more retirement scenarios; estate planning review and recommendations; and education planning with funding recommendations.

Detailed investment advice and specific recommendations are provided as part of a financial plan. Implementation of the recommendations is at the discretion of the client.

The fee for a financial plan is predicated upon the facts known at the start of the engagement. The minimum fee is *0.75% to 2.00%* based on the dollar value of the account and is *NEGOTIABLE*. Since financial planning is a discovery process, situations occur wherein the client is unaware of certain financial exposures or predicaments.

In the event that the client's situation is substantially different than disclosed at the initial meeting, a revised fee will be provided for mutual agreement. The client must approve the change of scope in advance of the additional work being performed when a fee increase is necessary.

After delivery of a financial plan, future face-to-face meetings may be scheduled as necessary

Advisory Service Agreement

Most clients choose to have Alpine Capital Management, LLC manage their assets in order to obtain ongoing in-depth advice and life planning. All aspects of the client's financial affairs are reviewed, including those of their children. Realistic and measurable goals are set and objectives to reach those goals are defined. As goals and objectives change over time, suggestions are made and implemented on an ongoing basis.

The scope of work and fee for an Advisory Service Agreement is provided to the client in writing prior to the start of the relationship. An Advisory Service Agreement includes: cash flow management; insurance review; investment management (including performance reporting); education planning; retirement planning; as well as the implementation of recommendations within each area.

The annual Advisory Service Agreement fee is based on a percentage of the investable assets according to the following schedule:

1.50%	of the First	\$ 500,000
1.25%	of the Next	\$ 1,000,000
1.00%	of the Next	\$ 2,000,000
0.75%	of the Next	\$ 4,000,000
Negotiable	Over	\$ 6,000,000

The minimum annual fee is 0.75% and is *NEGOTIABLE*. Current client relationships may exist where the fees are higher or lower than the fee schedule above.

Although the Advisory Service Agreement is an ongoing agreement and constant adjustments are required, the length of service to the client is at the client's discretion. The client or the investment manager may terminate an Agreement by written notice to the other party. At termination, fees will be billed on a pro rata basis for the portion of the quarter completed. The portfolio value at the completion of the prior full billing quarter is used as the basis for the fee computation, adjusted for the number of days during the billing quarter prior to termination.

Asset Management

Alpine Capital Management, LLC requests that it be provided with written authority to determine which securities and the amounts of securities that are bought or sold. In addition, for fixed income trades in client accounts, Alpine Capital Management, LLC requests that it be provided with the discretionary authority to select the broker or dealer to be used and the commission rates to be paid. Any limitations on this discretionary authority shall be included in this written authority statement. Clients may change/amend these limitations as required. Such amendments shall be submitted in writing.

For fixed income trades, Alpine Capital Management, LLC will endeavor to select those brokers or dealers which will provide the best services at the lowest commission rates (or markups/markdowns) possible. The reasonableness of commissions are based on the broker's ability to provide professional services, competitive commission rates, research and other services which will help Alpine Capital Management, LLC in providing investment management services to clients.

Alpine Capital Management, LLC may, therefore, recommend (or use) the use of a broker who provides useful research and securities transaction services even though a lower commission may be charged by a broker who offers no research services and minimal securities transaction assistance. Research services may be useful in servicing all our clients, and not all of such research may be useful for the account for which the particular transaction was effected.

Brokers or dealers that Alpine Capital Management, LLC selects to execute transactions may from time to time refer clients to Alpine Capital Management, LLC. Alpine Capital Management, LLC will not make commitments to any broker or dealer to compensate that broker or dealer through brokerage or dealer transactions for client referrals; however, a potential conflict of interest may arise between the client's interest in obtaining best price and execution and Alpine Capital Management, LLC interest in receiving future referrals.

With the exception of fixed income transactions as described above, Alpine Capital Management, LLC does not have the discretion to choose the broker dealer or the commission rates to be paid. Therefore, clients must direct the use of a particular broker dealer for non-fixed income transactions. Alpine Capital Management, LLC requires that clients direct Alpine Capital Management, LLC to place all these trades through either TD Ameritrade Institutional Services, A Division of TD Ameritrade Investor Services, Inc., Member of NYSE/SIPC (hereinafter TD Ameritrade Institutional Services) or Fidelity Brokerage Services, Inc. Alpine Capital Management, LLC has evaluated TD Ameritrade Institutional Services and Fidelity Brokerage Services and believes that each will provide Alpine Capital Management, LLC clients with a blend of execution services, commission costs

and professionalism that will assist ACM in obtaining best execution for transactions. While Alpine Capital Management, LLC has reasonable belief that TD Ameritrade Institutional Services and Fidelity Brokerage Services are able to obtain best execution and competitive prices, Alpine Capital Management, LLC will not be independently seeking best execution price capability through other broker dealers. Alpine Capital Management, LLC reserves the right to decline acceptance of any client account that directs the use of a broker dealer other than TD Ameritrade Institutional Services or Fidelity Brokerage Services, if Alpine Capital Management, LLC believes that this would adversely affect Alpine Capital Management, LLC duty to obtain best execution.

Termination of Agreement

A Client agreement may terminate at any time by either party upon receipt of 30 day prior written notice and paying the rate for the time spent on the investment advisory engagement. If the client made an advance payment, Alpine Capital Management, LLC will pro-rate any unearned portion of the advance payment.

Fees and Compensation

Description

Alpine Capital Management, LLC bases its fees on a percentage of assets
Fees are *NEGOTIABLE*.

Fee Billing

Investment management fees are billed quarterly, in *ARREARS*, meaning that we invoice you *AFTER* the three-month billing period has *ENDED*. Fees are deducted from a designated client account to facilitate billing. The client must consent in advance to direct debiting of their investment account.

Types of Clients

Description

Alpine Capital Management, LLC generally provides investment advice to individuals, trusts, estates, or charitable organizations, corporations or business entities.

Client relationships vary in scope and length of service.

Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis

Security analysis methods may include charting, fundamental analysis, technical analysis, and cyclical analysis.

The main sources of information include financial newspapers and magazines, inspections of corporate activities, research materials prepared by others, corporate rating services, annual reports, prospectuses, filings with the Securities and Exchange Commission, and company press releases.

Risk of Loss

All investment programs have certain risks that are borne by the investor. Our investment approach constantly keeps the risk of loss in mind. Investors face the following investment risks:

- **Interest-rate Risk:** Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on existing bonds become less attractive, causing their market values to decline.
- **Market Risk:** The price of a security, bond, or mutual fund may drop in reaction to tangible and intangible events and conditions. This type of risk is caused by external factors independent of a security's particular underlying circumstances. For example, political, economic and social conditions may trigger market events.
- **Inflation Risk:** When any type of inflation is present, a dollar today will not buy as much as a dollar next year, because purchasing power is eroding at the rate of inflation.
- **Currency Risk:** Overseas investments are subject to fluctuations in the value of the dollar against the currency of the investment's originating country. This is also referred to as exchange rate risk.
- **Reinvestment Risk:** This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e. interest rate). This primarily relates to fixed income securities.
- **Business Risk:** These risks are associated with a particular industry or a particular company within an industry. For example, oil-drilling

companies depend on finding oil and then refining it, a lengthy process, before they can generate a profit. They carry a higher risk of profitability than an electric company, which generates its income from a steady stream of customers who buy electricity no matter what the economic environment is like.

- **Liquidity Risk:** Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are interested in a standardized product. For example, Treasury Bills are highly liquid, while real estate properties are not.
- **Financial Risk:** Excessive borrowing to finance a business' operations increases the risk of profitability, because the company must meet the terms of its obligations in good times and bad. During periods of financial stress, the inability to meet loan obligations may result in bankruptcy and/or a declining market value.
