For purposes of determining value, securities and other instruments traded on a market for which actual transaction prices are publicly reported are valued at the last reported sale price on the principal market in which they are traded (or, if there are no sales on that date, then at the mean between the closing bid and asked prices on that date). Other readily marketable securities are priced using a pricing service or through quotations from one or more dealers. All other assets are valued at fair value by EWW, whose determination shall be conclusive. We may modify the terms in this section with at least 30 days prior written notice. Notwithstanding the above, fees are generally negotiable.

Minimum Account Size

EWW does not have an account minimum. However, we may decline to accept clients with smaller portfolios.

Compensation for our services will be calculated in accordance with the Schedule A of the Investment Advisory Agreement. We may modify the terms of the Investment Advisory Agreement with at least 30 days prior written notice.

5b: Selection of Other Advisors' Fees

EWW does not select other advisors.

5c: Fee Payment Options

Investment Management Fees

EWWM fees are paid from your account by the custodian when we submit an invoice to them. The invoice we submit shows the amount of fees, the value of your assets on which the fees are based, and the specific manner in which the fees are calculated. If there is insufficient cash in your account, securities may be sold. In addition to our fees, there may be custodial, mutual fund or similar third party management fees and charges.

EWWM fees are paid quarterly in advance. Our fee is equal to the agreed upon rate per annum, times the market value of the account, divided by four (4). The market value is the sum of the values of all assets in the account, not adjusted by any margin debit. Fees for partial quarters at the commencement or termination of Wealth Management Agreement will be billed or refunded on a pro-rated basis contingent on the number of days the account was open during the quarter. Quarterly fee adjustments for additional assets received into the account during a quarter or for partial withdrawals will also be provided on the above pro rata basis.

5.c.1: Termination

Either EWWM or our clients can terminate our agreement upon receipt of written notice to the other party.

When an agreement is terminated, we will refund any pre-paid, unearned wealth management fees based on the number of days remaining in the quarter after termination. Refunds will be made within 30 calendar days of the effective date of termination.

When an agreement is terminated, all assets may need to be transferred from the current custodian. You will be responsible for paying all fees including full quarterly custodial administrative fees, account closure fees, mutual fund fees and all trading costs due to the termination. Custodian may assess additional fees for transfer of illiquid investments. If there is insufficient cash in the account, the liquidation of some securities may be used to pay the fees. Prior to termination of an agreement, we can provide a good-faith estimate of these fees.

5d: Third Party Fees

You are responsible for the payment of all third party fees (i.e. custodian fees, mutual fund fees, transaction fees, etc.). Those fees are separate and distinct from the fees we charge.

All brokerage commissions, stock transfer fees, and other similar charges incurred in connection with transactions for the account will be paid out of the assets in the account and are in addition to the investment management fees paid to us. You bear the responsibility for verifying the accuracy of fee calculations.

ITEM 6 – PERFORMANCE-BASED FEES AND SIDE-BY-SIDE MANAGEMENT

Asset management – Portfolio Planning

Core U.S. Equity

Our core equity strategy is tax aware and based on fundamental analysis of companies with free cash flow, growing markets and strong balance sheets. Our approach is long term with low turnover, as we consider ourselves “Investors” not “Traders”. We also consider Macro themes such as economic analysis and global trends.

Active Fixed Income Management

Our fixed income approach is characterized by finding high quality issues on the most attractive part of the yield curve. We are active in yield curve (duration) management as well as cash flow management. We will also strategically use exchange-traded fixed income index funds.

International ETF Portfolio

We utilize low cost exchange traded index funds (ETF's) to build inexpensive and liquid global portfolios.

- ETF's are inexpensive – The expenses incurred in managing a fund directly impact the fund's performance. The lower the expense ratio, the less drag on a fund's performance. Low expense ratios are one of the screens we use in selecting our ETF's; our weighted average expense ratio is roughly 24 basis points.
- ETF's are liquid – Because our strategy calls for periodic rebalancing among asset classes, it is important that the instrument we use be liquid and easily tradable. ETF's trade actively on an exchange (the American) just like shares of common stock.
- ETF's provide diversification – Global diversification and asset allocation can be achieved in a very cost effective manner for smaller portfolios as compared to individual securities.

Satellite Strategies

We have strategic relationships with other world class managers to offer satellite strategies that complement our core discipline in emerging markets, international small cap, commodities, real estate emerging market debt high yield debt and alternative investments.

8c: Risk of Loss

All investments include a risk of loss. In addition, as recent global and domestic economic events have indicated, performance of any investment is not guaranteed. As a result, there is a risk of loss of the assets we manage that may be out of our control. We use our best efforts and expertise to manage your assets. However, we cannot guarantee any level of performance or that you will not experience financial loss.

EWWM will use our best judgment and good faith efforts in rendering services to you. We cannot warrant or guarantee any particular level of account performance, or that the account will be profitable over time. Not every investment decision or recommendation made by us will be profitable. You assume all market risk involved in the investment of account assets under the Investment Advisory Agreement and understand that investment decisions made for this account are subject to various market, currency, economic, political and business risks. Except as may otherwise be provided by law, we will not be liable to you for (a) any loss that you may suffer by reason of any investment decision made or other action taken or omitted in good faith by EWWM with that degree of care, skill, prudence and diligence under the circumstances that a prudent person acting in a fiduciary capacity would use; (b) any loss arising from our adherence to your instructions; or (c) any act or failure to act by a custodian of your account. Nothing in this document shall relieve us from any responsibility or liability we may have under state or federal statutes.

EWWM will always maintain full disclosure with our clients so that you can make informed decisions. We will always evaluate our activity from the view of our clients to ensure that any and all required disclosures are made. For example, we will disclose anything that would cause you to be unfairly influenced to make any decision regarding actions or inactions in your account.

ITEM 12 – BROKERAGE PRACTICES

12a: Selecting Brokerage Firms

As part of our services, EWWM will recommend a broker-dealer. We have selected our broker-dealers based on price, reliability, speed of processing, tools and “best execution” in addition to other considerations. And while you are not required to effect transactions through any broker-dealer recommended by us, we feel we have made our selections based on a totality of benefits they offer.

To avoid creating a possible conflict of interest in recommending broker-dealers, we have established the following restrictions in order to ensure its fiduciary responsibilities:

1. EWWM adheres to our Code of Ethics as outlined in Item 11 above.

13b: Review Triggers

More frequent reviews are triggered by a change in your investment objectives; tax considerations; large deposits or withdrawals; large sales or purchases; or, changes in economic climate.

All investment advisory clients receive quarterly reports on representative investments recommended specifically by EWWM. Investment advisory clients also receive standard account statements from the custodian of their accounts on a monthly basis.

ITEM 14 – CLIENT REFERRALS AND OTHER COMPENSATION

14a: Economic Benefits Provided by Third Parties for Advice Rendered to Clients

EWWM may purchase software, tools, training programs or seminar services from our broker-dealer. Additionally, broker-dealers may provide services, tools or other non-financial benefits to us as a benefit for using the broker-dealer's services. However, we endeavor at all times to put the interests of our clients first. You should be aware, however, that the receipt of the types of benefits discussed above can create a potential conflict of interest by influencing our choice of a broker-dealer.

14b: Compensation to Non-Advisory Personnel for Client Referrals

EWWM does not directly or indirectly compensate any person for client referrals

ITEM 15 – CUSTODY

EWWM clients' accounts are held by a qualified custodian. Except to withdraw fees, EWWM does not have custody of the assets in the account and shall have no liability for any loss or other harm to any property in the account. This includes harm resulting from the insolvency of the custodian or any acts of the agents or employees of the custodian. We cannot ensure that when harm is caused whether or not the full amount of loss is covered by the Securities Investor Protection Corporation ("SIPC") or any other insurance which may be carried by the custodian. SIPC provides only limited protection for the loss of property held by a broker-dealer.

ITEM 16 – INVESTMENT DISCRETION

EWWM is authorized to aggregate purchases and sales and other transactions made for your account with purchases and sales and other transactions in the same or similar securities or instruments for other clients of ours. When we aggregate transactions, the actual prices applicable to the aggregated transactions will be averaged, and the account will be deemed to have purchased or sold its proportionate share of the securities or instruments involved at the average price obtained. Stock exchange regulations may in certain instances prevent the executing broker-dealer from delivering to the account a confirmation slip with respect to its participation in the aggregated transaction and, in such event, we will advise you in writing of any purchase or disposition of instruments for the account with respect to any such aggregated transaction. We will direct that confirmations of any transactions effected for the account will be sent, in conformity with applicable law, to you.

EWWM generally want our clients to give us discretionary authority to execute transactions without our client's prior approval. These transactions may include the purchase and selling of securities, arranging for payments or generally acting on behalf of our clients in most matters necessary to the handling of the account.

In certain circumstances, we will request non-discretionary authority over our clients' accounts. Non-discretionary authority requires us to obtain your prior approval of each specific transaction prior to executing investment recommendations.
