Form ADV Part 2A Brochure

March 31, 2012

This brochure provides information about the qualifications and business practices of Q3 Asset Management. If you have any questions about the contents of this brochure, please contact us at 248.566.1122 or info@q3tactical.com. The information in this brochure has not been approved or verified by the State of Michigan's Office of Financial and Insurance Regulation or the United States Securities and Exchange Commission.

Any reference to or use of the terms "registered investment adviser" or "registered," does not imply that Q3 Asset Management or any person associated with Q3 Asset Management has achieved a certain level of skill or training.

Additional information about Q3 Asset Management also is available on the SEC's Adviser Public Search website at www.adviserinfo.sec.gov.
Q3 Asset Management's CRD number is: 137829

Material Changes

This Form ADV Brochure (Parts 2A and 2B represents the March 2012 disclosure document prepared by Q3 Asset Management, Inc., (“Q3 Asset Management” or “Adviser”) in conjunction with its 2011 fiscal year end filing and its 2012 registration transition from the United States Securities and Exchange Commission (“SEC”) to the State of Michigan.

In conjunction with changes to the SEC’s Investment Advisers Act of 1940, (the “Advisers Act”), as required to implement provisions of the Dodd-Frank Wall Street Reform and Consumers Protection Act (“Dodd-Frank Act”), Q3 Asset Management transitioned its registration from the SEC to the State of Michigan. These changes require existing Registered Investment Advisers managing under \$100 million to transition to state regulation unless they are subject to other conditions which require SEC regulation. Therefore, effective with this filing, Q3 Asset Management has requested registration with the State of Michigan’s Office of Financial and Insurance Regulation.

The next change to report with this filing is the update to the firm’s fiscal year end assets under management, as of the close of business 12/31/2011. At that time, Q3 Asset Management managed \$36,338,953 in a total of 382 discretionary accounts.

Up to 10% of the Adviser’s managed assets belong to clients who meet the definition of high net worth individuals. The remaining managed assets are owned by other than high net worth individuals.

The Adviser terminated Fadi Nona and Ezra Hartsfield, Advisory Representatives effective March 2012.

Q3 Asset Management has inserted its Privacy Policy into this Brochure (end of ADV Part 2A) for our clients’ convenience. There has been no change to the Adviser’s privacy policy for 2012. The Adviser will never sell the nonpublic personal information it receives from clients or consumers. The Adviser only shares nonpublic personal information when directed by the client or as required to implement the client’s financial and/or advisory services as requested.

There are no other material changes to report in connection with the business of Q3 Asset Management. We always look forward to hearing from our clients. Therefore, if you should have any questions, please contact our office.

Thank you!

Item 4 Advisory Business

Q3 Asset Management Corporation, (“Q3 Asset Management” or “Adviser”) is headquartered in Birmingham, Michigan and was founded in 2006 and is an investment advisory firm registered with the State of Michigan’s Office of Financial and Insurance Regulation and offers professional fee-based financial and investment advisory services. The term “fee-based” means that Q3 Asset Management is only compensated in the form of advisory fees. Those persons who are engaged in providing services under the Adviser are known as Advisory Representatives and these persons may receive commission as disclosed in this Brochure, but commissions paid not through Q3AM, but through unaffiliated and affiliated entities. The Adviser is owned by Bradford Giaimo, President and Chief Compliance Officer Adam Quiring, Vice President and Fadi Nona, Shareholder.

Q3 Asset Management specializes in quantitative analysis. Our research emphasizes technical screens as opposed to fundamental screens. Most of our analysis is designed to be applied to mutual and exchange traded funds. Many of our investment strategies maintain the ability to shift to a defensive posture during certain market environments. Some of our programs may utilize inverse or leveraged mutual funds from time to time.

Q3 Asset Management offers services on three levels:

- I. Investment Management Services provided to other financial professionals and their clients.
- II. Services provided to other financial professionals and;
- III. Asset Management; Consultation and Financial Planning Services;

I. Investment Management Services Available to Other Financial Professionals and Their

Clients. Q3 Asset Management offers a service whereby it can provide investment management services via unaffiliated Advisers and their clients. Details of this arrangement can be found under the *Client Referrals and Other Compensation* section of this brochure.

II. Services Provided to Other Financial Professionals: Q3 Asset Management is available to provide trading signals (buy and sell recommendations) to other financial professionals not affiliated with us. This service is provided via a subscription services available *only* to professionals for analysis. The proprietary data is not to be released to the general public via the subscribers. Since this is a professional service not available to the investing public, detailed information about the service is not provided herein.

III. Asset Management, Consultation Financial Planning and Market Timing Services: Q3 Asset Management’s client services are primarily provided to individuals; pension and profit sharing plans; trusts, estates and charitable organizations; corporations or other business entities; and occasionally to associations or groups. See detailed description in Item 5.

Asset Management: Q3AM offers professional management of various securities in order to meet specified investment goals for the benefit of the investors. Asset Management provides for ongoing management of a client's portfolio and services are ongoing until terminated by either party. Portfolios are reviewed monthly and the Adviser remains available to consult with the client during the Adviser's normal business hours.

Consultation: Q3AM offers the opportunity to meet with, discuss and offer advice based upon a client's particular investment needs.

Financial Planning: Q3AM works closely with our clients to determine how to best achieve their strategic goals and investment objectives

Q3 Asset Management's assets under management (as of the close of business 3/31/2012) were \$42,437,330 in a total of 400 discretionary accounts. Up to 10% of the Adviser's managed assets belong to clients who meet the definition of high net worth individuals. The remaining managed assets are owned by other than high net worth individuals.

Item 5 Fees and Compensation

Advisory fees for asset management services are agreed upon at the time of engagement. Our fees are charged quarterly in arrears and are based upon the market value of the portfolio, set forth by the client's custodian, as of the last market day of the relevant calendar month. Where services are initiated at any time other than the beginning of a calendar quarter, advisory fees will be pro-rated. Any additions of \$25,000 or more deposited to existing accounts will be pro-rated. Should you have more than one account with Q3AM, balances will be aggregated when determining fees. We reserve the right to modify fees (higher or lower) as outlined on the fee scale noted below, depending upon the nature of the engagement, complexity of services, time to be incurred, for pre-existing relationships, or other special situations and at our discretion.

<u>Portfolio Size</u>	<u>Investment Management Fee</u>
Up to \$500,000	0.625% Quarterly
\$500,000+	0.500% Quarterly

In the rare case where there is an absence of a portfolio value we will utilize at least one independent third party to assess the value of the particular holding. Q3AM reserves the right to modify the asset management fee for existing clients with 30 days' notice. This may occur when your circumstances or service needs have changed significantly. In such cases, a new or amended Client Agreement will be provided to the client to sign.

If you did not receive Q3 Asset Management's ADV 2 at least 48 hours prior to execution of the Client Agreement, you may terminate services without penalty (no fees due) within 5 business days of signing the Agreement. Alternatively, management services are ongoing until the client

receives notice of termination or renewal. Either party may terminate the agreement by providing written notice to the other. Where services are terminated prior to the conclusion of the calendar quarter, fees will be pro-rated and the client is responsible to pay fees for services rendered.

The advisory fees noted herein represent fees for our advisory services only. You may pay transaction, brokerage, commissions and other fees as well (e.g., custodial fees, account opening, maintenance, transfer, termination, cash wire transfer, retirement plan, trust fees, and all such applicable third party fees). For more information on brokerage fees please see the “*brokerage practices*” section of this brochure. The Adviser does not accept fees in excess of \$500 for services to be performed six or more months in advance.

Payment of investment management fees may be paid directly by you or payment of fees may be made through a debit directly to your account by the qualified custodian holding your funds and securities. Direct-bill payments will be due as of the date posted on the invoice. If you have more than one account, you may choose to have all fees deducted from a particular account. For fee deductions, Q3AM adheres to the following criteria in accordance with the State of Michigan’s Uniform Securities Act of 2008, as amended, when payment is made via a qualified custodian: (1) The client provides written authorization permitting the fees to be paid directly from the client’s account held by the independent and qualified custodian and the authorization is limited to withdrawing contractually agreed upon investment advisory fees; (2) The client will directly receive regular (monthly or quarterly) reports from the qualified custodian which reflect the Adviser’s fee deduction; (3) The frequency of fee withdrawal shall be specified in the written authorization/agreement; (4) The custodian of the account shall be advised in writing of the limitation on the Adviser’s access to the account; (5) The client shall be able to terminate the written billing authorization or agreement at any time.

Since custodians do not verify the accuracy of the advisory fee calculation, you should review each custodial statement and promptly contact us if any questions should arise. Clients must ensure they are receiving account statements directly from their custodial firm(s) and promptly report address changes to both Q3AM and their custodial firm(s).

Q3 Asset Management Corporation is available to provide Consultation Services or Financial Planning on an hourly basis. Advice may be provided on general or specific issues relating to such topics as financial management, risk management, asset allocation, investment research, financial issues relating to divorce or marital issues, estate planning, tax issues, retirement planning, educational funding, goal setting, or other needs as identified by the client. We may offer services regarding certain financial planning components but since we focus on Investment Management Services, we do not hold ourselves out as a comprehensive financial planning firm. Many of our investment strategies fall under the classification of Market Timing. This means that the investment strategy will be actively managed and could be out of the market, in the market, short the market, in bonds, or any combination of these.

When Consultation or Financial Planning Services only focus on certain areas of client interests and needs or is otherwise limited, clients must understand that their overall financial and investment needs and objectives may not be considered as a result of time and/or service restraints placed on Q3AM's services. Clients requiring assistance on issues relating to matters outside of investment advisory topics should consult their personal tax adviser, legal counsel, or other professionals for expert opinions. When providing Plan-related services, the advice and recommendations are limited to Plan offerings and contracted service providers (e.g., custodial firms). Consultation and Financial Planning Services are not ongoing in nature unless otherwise noted in the Client Agreement. Therefore, in most cases, services are terminated upon delivery. The advice provided may include recommendations for updates and reviews. Additional or follow-up services are available as initiated by clients.

Fees for Consultation or Financial Planning are determined at the time of engagement based upon the time and effort required and/or the nature and complexity of services. Q3AM's hourly fee is \$200. The Adviser may require prepaid fees equal to ½ the proposed project fee in order to schedule services. In these cases, the project balance is due upon the delivery of services. The Adviser will not collect fees in excess of \$500 for services to be performed six months or more in advance. Should your condition change during the course of services such that new advice, recommendations or research are required or the Adviser must re-work the advice, recommendations or other services, additional fees will apply and the Adviser will require a new or amended Client Agreement. Q3AM will not engage in additional services that result in fees without the client's approval.

Under certain circumstances, the Adviser may offer their programs or strategies to other firms through a subscription fee arrangement. Under such a scenario, subscription fees will vary based upon the services provided.

One of Q3 Asset Management's Advisory Representatives, David Witkowski is dually registered as Registered Representatives of Coastal Equities, Inc. ("*Coastal Equities*"), an unaffiliated broker/dealer firm, Member FINRA/SIPC. These Representatives may suggest that advisory clients purchase products and/or place transactions through Coastal Equities. Under such circumstances, these Advisory Representative may receive normal commissions, thus a conflict of interest exists between our interests and that of our clients since there is incentive to recommend investment products based on the compensation received, rather than on client's needs. Such conflicts are disclosed to clients prior to investing. Advisory fees are generally not reduced in situations where commissions are charges. Clients are under no obligation to purchase products recommended through the Adviser, Coastal Equities, or insurance companies. Clients have the option to purchase investment products that we recommend through other brokers or agents that are not affiliated with Q3 Asset Management.

Item 6 Performance-Based Fees and Side-By-Side Management

Investment advisory fees are not "performance based" as Q3AM does not receive compensation based upon a share of capital gains or capital appreciation for any portion of

funds under an advisory contract. The Adviser does not engage in side-by-side management with other investment management firms.

Item 7 Types of Clients

Q3 Asset Management's client services are primarily provided to individuals; pension and profit sharing plans; trusts, estates and charitable organizations; corporations or other business entities; and occasionally to associations or groups. Q3 Asset Management imposes a minimum account size of \$75,000. Q3AM reserves the right to waive the minimum based upon individual circumstances, pre-existing relationships, where the minimum can be met within a specified time period, or at our sole discretion. We reserve the right to decline to provide investment advisory services to any person or firm.

If an account is subject to the Employee Retirement Income Security Act of 1974, as amended, ("ERISA"), the Adviser acknowledges that Adviser is a fiduciary within the meaning of the Act and the ERISA Client is a named fiduciary with respect to the control or management of the assets in the Account. In each instance, the Client will agree to obtain and maintain a bond satisfying the requirements of Section 412 of ERISA and to include the Adviser and the Adviser's principals, agents, and employees under those insured under that bond and will deliver to the Adviser a copy of the governing plan documents. If the Account assets for which the Adviser provides services represent only a portion of the assets of an employee benefit plan, Client will remain responsible for determining an appropriate overall diversification policy for the assets of such plan.

Item 8 Method of Analysis, Investment Strategies and Risk of Loss

Investing in securities involves risk of loss that you should be prepared to bear. Q3AM attempts to measure an investor's risk tolerance, time horizon, goals and objectives through a data-gathering process in an effort to determine an investment plan or portfolio to best fit the investor's profile. Your participation and the client's delivery of accurate and complete information are critical to this process. Investment strategies may be based upon a number of factors determined by the type of investor.

Q3 Asset Management Corporation provides advisory services for portfolios ranging from conservative to aggressive, designed to help meet the varying needs of investors. The Adviser selects the strategy combination best suited to their individual needs after clients have defined their objectives, risk tolerance and time horizons.

Portfolio holdings are generally derived through methods associated with quantitative analysis. Q3 Asset Management places more emphasis on "technical" screens rather than "fundamental" screens. Investors should not expect to remain fully invested at all times as most of the Advisers programs maintain the ability to move into "money market" or "defensive" positions. Additionally, some of the Advisers programs maintain the ability to invest in "inverse" or

“leveraged” products which may carry a higher level of risk. Many of Q3 Asset Management’s strategies may utilize short-term trading strategies in an effort to capitalize upon market trends.

As part of Q3 Asset Management’s research, we often conduct quantitative back tested simulations to see how a particular model may have performed over different market periods. It is very important that you understand that hypothetical performance results have certain inherent limitations. Unlike an actual performance record, simulated trades do not represent actual trading. Also, since the trades have not actually been executed, the results may have over or under compensated for the impact, if any, of certain market factors such as lack of liquidity. You may have done better or worse than results derived from back testing. No representation is being made that any account will or is likely to achieve profits or losses similar to those shown in any hypothetical research report.

Numerous publicly available sources of economic, financial and investment research are used by the Adviser to aid in investment decisions. Asset allocation software and historical performance modeling software may also be utilized. Q3AM clients are encouraged to discuss any questions that may arise regarding investment policies throughout the course of our engagement.

Q3AM generally does not consider tax consequences when purchasing or selling a security. The sale of investments may cause taxable gains or losses to the client. You are welcome and encouraged to consult your independent personal tax adviser about tax consequences resulting from transactions or any particular investment held in your account. The majority of Q3 Asset Management’s programs trade frequently. Frequent trading of securities may affect investment performance through increased brokerage costs and through tax implications.

Q3 Asset Management offers a number of strategies that fall under the “tactical” category. Each of these strategies maintains the ability to invest in aggressive investment vehicles including sector, inverse and leveraged funds. The performance of these strategies may not correlate with a rising stock market and may be volatile. The following strategies are included as part of this group: Cipher, Tactical 5, Xantus, QE-Aggregator and High-Yield Select. The objective of these programs is not necessarily to outperform the market each year, but to post consistent returns through both bull and bear markets. There is no assurance that objectives will be realized. Additional programs may be offered by the Advisor.

Q3AM also offers a number of strategies that fall under the “strategic allocation” category. Each of these strategies maintains the ability to revert to a defensive position during certain market environments. Such defensive positions may include a higher allocation to bonds (including but not limited to government bond funds). The following strategies are part of this group: Enhanced Allocation – 6, Strategic Allocation – 6, Global ETF Allocation and Dynamic Income. The performance of these strategies may not correlate with a rising stock market and the programs may invest in aggressive mutual funds or exchange-traded funds, including sector funds. The objective of these programs is not necessarily to outperform the market each year,

but to post consistent returns through both bull and bear markets. There is no assurance that objectives will be realized. Additional programs may be offered by the Advisor.

Q3 Asset Management generally seeks investment strategies that do not involve significant risk or unusual risk beyond that of the general domestic and / or international equity markets. No single strategy can be relied upon to outperform the market. The Adviser seeks to utilize investment strategies that are designed to capture market rates of both return and risk. Frequent trading, when done, can affect investment performance, particularly through increased brokerage and other transaction costs and taxes. Short sales, margin transactions and options writing generally hold greater risk and clients should be aware that there is a chance of material risk of loss using any of those strategies.

Bond investments involve certain risks such as (but not limited to): Interest rate, reinvestment , inflation, selection, timing, and price . Additional risks for some government agency, corporate and municipal bonds may include: Legislative risk (a change in the tax code could affect the value of taxable or tax-exempt interest income); Call risk (some corporate, municipal and agency bonds have a “call provision” entitling their issuers to redeem them at a specified price on a date prior to maturity. Declining interest rates may accelerate the redemption of a callable bond, causing an investor’s principal to be returned sooner than expected and in that scenario, investors have to reinvest the principal at the lower interest rates. If the bond is called at or close to par value, as is usually the case, investors who paid a premium for their bond also risk a loss of principal. In reality, prices of callable bonds are unlikely to move much above the call price if lower interest rates make the bond likely to be called. Additionally, there may be a liquidity risk involved if investors may have difficulty finding a buyer when they want to sell and may be forced to sell at a significant discount to market value. Liquidity risk is greater for thinly traded securities such as lower-rated bonds, bonds that were part of a small issue, bonds that have recently had their credit rating downgraded or bonds sold by an infrequent issuer. Bonds are generally the most liquid during the period right after issuance when the typical bond has the highest trading volume. Additional risks for corporate and municipal bonds may include: Credit risk; default risk; event risk and duration risk.

Item 9 Disciplinary Information

There are no legal or disciplinary events that are material to a client’s or prospective client’s evaluation of Q3 Asset Management. The Adviser and its advisory representatives have not been involved in any investment-related litigation, regulatory or self-regulatory proceedings or other disciplinary actions. The Adviser, its Officers and its advisory representatives have never been the subject of a bankruptcy, a license or registration suspension or a license or registration revocation.

Item 10 Other Financial Industry Activities and Affiliations

Q3 Asset Management does not maintain registration relationships or legal affiliations with any of the following:

- broker-dealer, municipal securities dealer, or government securities dealer or broker
- investment company or other pooled investment vehicle (including a mutual fund, closed-end investment company, unit investment trust, private investment company or “hedge fund,” and offshore fund)
- other investment adviser or financial planner
- futures commission merchant, commodity pool operator, or commodity trading advisor
- banking or thrift institution
- accountant or accounting firm
- lawyer or law firm
- insurance company or agency
- pension consultant
- real estate broker or dealer
- sponsor or syndicator of limited partnerships.

Q3 Asset Management does not operate and does not have a material relationship with a hedge fund or other type of private pooled investment vehicle.

As previously outlined, one of Q3 Asset Management’s Advisory Representatives, David Witkowski is dually registered as Registered Representative of Coastal Equities, Inc. (“*Coastal Equities*”), an unaffiliated broker/dealer firm. This Representative may suggest that advisory clients purchase products and/or place transactions through Coastal Equities. In such cases, the representative receives normal commissions and fees from the broker/dealer firm. Clients are welcome but are never obligated to use any service provider that may be recommended and are never obligated to purchase any product or services that may be recommended. Clients are welcome to disregard advice and recommendations or may implement them in whole or in part, entirely at their discretion.

Some of Q3 Asset Management’s Advisory Representatives, (Adam Quiring, and David Witkowski) are independently licensed insurance agents with several insurance companies. The time spent on this outside business activity may vary throughout the year but generally accounts for no more than 10% of their time. Normal commissions from insurance products are earned and paid by insurance companies to this Advisory Representative when such products are placed directly with clients. Insurance products are often recommended to clients of to minimize clients’ exposure to identified risks and to meet personal and/or business needs. Although clients are under no obligation to purchase insurance products recommended, clients may do so when needs arise. Clients are always welcome to utilize the insurance provider of their choice and may implement recommendations in whole or in part, entirely at their discretion.

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

A copy of Q3AM's Code of Ethics is available upon request. We take the issue of regulatory compliance seriously and are committed to maintaining compliance with federal and applicable state securities laws. Additionally, we have a position of public trust and it is our goal to maintain that trust; provide excellent service and advice that is suitable. Q3 Asset Management Corporation places great value on ethical conduct. Therefore, *the ultimate goal of our internal policies is to challenge our staff to live up not only to the letter of the law, but also to the ideals set forth by the Adviser.*

You may, or may not, be familiar with the roles fiduciaries play in various legal situations and in certain industries. As a Registered Investment Adviser, Q3 Asset Management Corporation is a fiduciary to each and every client.

As fiduciaries, Investment Advisers owe their clients several specific duties. According to the SEC, an Investment Adviser's fiduciary duties include:

- Providing advice that is suitable;
- Providing full disclosure of material facts and potential conflicts of interest (such that the client has complete and honest disclosure in order to make an informed decision about services of the Adviser and about investment recommendations);
- The utmost and exclusive loyalty and good faith;
- Best execution of transactions under the available circumstances;
- The Adviser's reasonable care to avoid ever misleading clients;
- Only acting in the best interests of clients.

It is Q3 Asset Management's policy to protect the interests of each of our clients and to place their interests first and foremost in each and every situation. Q3 Asset Management will abide by honest and ethical business practices to include, but is not limited to:

- ❖ Q3AM will make investment decisions with reasonable grounds to believe that the decisions are suitable for the client on the basis of information furnished by the customer and we will document suitability.
- ❖ Q3AM and its Advisory Representatives will not borrow money from clients.
- ❖ Q3AM will not recommend the purchase of a security without the reasonable belief that the security is registered, or the security or transaction is exempt from registration in states where we provide investment advice and based upon information the Adviser receives.

- ❖ Q3AM will not recommend that the client place an order to purchase or sell a security through a broker/dealer or agent, or engage the services of a broker/dealer that is not licensed, based upon information available to the Adviser.
- ❖ Q3AM's staff will report all required personal securities transactions to Bradford Giaimo, President and Chief Compliance Officer of Q3 Asset Management Corporation as required. The following is a list of exempt securities at this writing:
 - Transactions effected pursuant to an automatic investment plan;
 - Securities held in accounts over which the access person has no direct or indirect influence or control;
 - Transactions/holdings in direct obligations of the US Government;
 - Money market instruments — bankers' acceptances, bank certificates of deposit, commercial paper, repurchase agreements and other high quality short-term debt instruments;
 - Shares of money market funds;
 - Transactions and holdings in shares of mutual funds are not reportable, since the Adviser does not have a material relationship with an investment company which would otherwise require reporting;
 - Transactions in units of unit investment trust are not reportable if the IUT is invested exclusively in unaffiliated mutual funds.

All applicable securities rules and regulations will be strictly enforced. Q3AM will not permit and has instituted controls against insider trading. Our representatives and administrative personnel who do not follow the Q3AM Code of Ethics or who in any way violate the rules and regulations of the SEC, or applicable rules and regulations of the state securities act, will be disciplined or terminated. Such persons could also face action by the SEC and/or a state securities regulator.

Q3 Asset Management emphasizes your unrestricted right to decline to implement any advice rendered, in whole or part. Where Q3AM is granted discretionary authority (in writing) of a client's account, the client is welcome to set investment parameters and/or limitations. Such direction is followed until such time the client amends those instructions.

Q3 Asset Management Corporation, or individuals associated with Q3AM, may have similar investment goals and objectives and (as a result) may buy or sell securities for their personal accounts that may be identical to or different from those recommended to clients. Thus, at times the interests of the Adviser's or staff members' accounts may coincide with the interests of clients' accounts. However, at no time will Q3AM, or any related person receive an added benefit or advantage over our clients with respect to these transactions. Q3AM and its associated persons will not place itself in a position to have added benefit as a result of advice

given to clients. The staff of Q3AM shall not buy or sell securities for their personal portfolio(s) where their decision is substantially derived, in whole or in part, by reason of his or her employment, unless the information is also available to the investing public on reasonable inquiry.

Bradford Giaimo & Adam Quiring, Principals of Q3 Asset Management Corporation, are responsible for the monitoring of personal trading conducted by staff.

Item 12 Brokerage Practices

Consultation/Financial Planning clients are welcome to utilize the service provider(s) of their choice and are welcome to implement recommendations in whole or in part, entirely at their discretion. For clients utilizing Investment Management Services, Q3AM will generally utilize one of their preferred providers. These custodians may include Trust Company of America and TD Ameritrade. Additionally, the Advisory Representatives that are Registered Representative of Coastal Equities, Inc. may recommend this broker/dealer and variable annuity or mutual fund platforms to clients.

We believe that excellent customer service and trade execution available through its preferred services providers is superior to most non-service oriented and internet-based brokers that may otherwise be available to the general public. Q3AM's selected service providers feature a broad line of products and services for the many types of investors we work with.

At times, for accounts utilizing the preferred platforms, the custodial firm may effect clients' over-the-counter securities transactions on an agency basis. Typically, the service providers execute transactions based upon a number of factors. These factors include: Size of order, trading characteristics of the security, favorable execution prices, access to reliable data, availability of efficient transaction processing and possible price reductions. In filling these orders, the service provider may transact with a market-making broker-dealer ("market maker") on the other side of the trade. A market maker may mark-up/down the price of securities for which it makes a market, which is a cost that will be incurred by the client in addition to any agency commissions assessed by the client's service provider. Normally, best price and execution is obtained for over-the-counter securities transactions by executing directly with the market maker on a principal basis. Therefore, in some cases, clients may incur transaction costs, in addition to any commissions charged by their services provider, when trades in over-the-counter securities are effected on their behalf through that broker on an agency basis. The Adviser does not receive any portion of transaction-related fees. The Adviser's choice to utilize the service provider's platform or similarly termed service available through the selected service provider may limit or eliminate the Adviser's ability to obtain best price and execution in each case.

In certain cases, a security may be purchased through another service provider and in such cases, the security purchased is then transferred to the client account at one of our preferred providers, and a "trade away" delivery fee may be assessed to the client account. Clients are

welcome to suggest use of their preferred service provider, in which case the Adviser may not be able to provide best execution, because of limitations that may be placed on the Adviser by the client's service provider. Brokerage direction is provided via the Client Agreement. The Adviser will continue to place trades through the client's selected service provider until such time new, written direction is received.

Q3 Asset Management recognizes its duty to obtain best price and execution for its clients under the circumstances available. The decision to recommend the preferred service providers is based upon the customer service provided to investors and the services available to the Adviser and providing such recommendation is consistent with the Adviser's fiduciary duty to the client. The Adviser may also consider the following:

- ❖ Quality of overall execution services provided;
- ❖ Promptness of execution;
- ❖ Research (if any) provided;
- ❖ Promptness and accuracy of reports on execution;
- ❖ Ability and willingness to correct errors;
- ❖ Promptness and accuracy of confirmation statements;
- ❖ Ability to access various market centers;
- ❖ The broker-dealer's facilities and technology;
- ❖ The market where the security trades;
- ❖ Any expertise in executing trades for the particular type of security;
- ❖ Commission charged;
- ❖ Reliability of the broker-dealer;
- ❖ Ability to use ECNs to gain liquidity, price improvement, lower commission rates and anonymity;
- ❖ Execution and operational capabilities of the broker-dealer.
- ❖ Creditworthiness, financial condition, and business reputation of the broker-dealer;

While it is possible that clients may pay higher commissions or transaction fees through its preferred service providers, Q3AM has determined they currently offer the best overall value to the Adviser and clients for the brokerage and technology provided. Q3 Asset Management periodically reviews other alternatives that are available.

Service providers make available certain account trading software to Advisers. Additionally, the Adviser may receive traditional "non-cash benefits" from service providers such as customized statements; receipt of duplicate client confirmations and bundled duplicate statements; access to a trading desks servicing Adviser participants exclusively; access to block trading which provides the ability to aggregate securities transactions and then allocate the appropriate shares to client accounts; ability to have investment advisory fees conveniently deducted directly from client accounts; access to an electronic communication network for client order entry and account information; access to mutual funds which generally require significantly high minimum initial investments or those that are otherwise only generally available to

institutional investors; reporting features; receipt of regulatory compliance communications; and perhaps discounts or free access to business-related seminars and/or products. While the Adviser's preferred service providers do not directly provide any research, it may offer discounts on general products. Any general research received is used for the benefit of all clients. The value of products, research and services given if any, is negligible and not a material factor. The benefits received through participation in the advisory programs of service providers may depend upon the amount of transactions directed to, or amount of assets custodied by these two firms. The Adviser has no written or verbal arrangements whereby it receives soft dollars, however, if client brokerage commissions were used to obtain research or other products or services Q3 Asset Management would be receiving a benefit since we would not have to produce or pay for the research, products or services.

Unaffiliated third party vendors may offer considerations such as invitations to attend industry-related conferences, seminars or workshops. The Adviser would generally not receive any considerations above paid admission and customary meals. The Adviser's President and Chief Compliance Officer, Bradford Giaimo, is responsible for monitoring and recording considerations received by the Adviser as well as given.

Item 13 Review of Accounts

Investment Management involves continuous and ongoing services and provides for the monitoring and internal review of portfolio assets. Underlying investments are generally reviewed at least monthly.

Some individual strategies are reviewed as frequently as daily. Individual portfolios as a whole are generally reviewed no less than quarterly. Portfolio reviews could occur more frequently, depending upon activity, at the time of new deposits or significant withdrawals, reported material changes in client conditions, at the Adviser's discretion or according to client's stated direction. Reviews entail the analysis of securities, sensitivity to overall markets, economic changes, investment results to ensure the investment strategy and expectations are structured to continue to meet clients' stated objectives. Accounts utilizing the same investment strategy may be reviewed as a group. Reviews are performed by Advisory Representatives under the supervision of the Chief Compliance Officer, Bradford Giaimo. Each quarter clients will receive a detailed account statement directly from their custodian. Additionally, Q3 Asset Management may provide quarterly written market updates to clients.

Item 14 Client Referrals and Other Compensation

Professional advisers utilizing Q3AM to provide Investment Management Services on behalf of their clients will receive a solicitor fee typically amounting to 50% of the total advisory fee. Such advisers will ensure Q3 Asset Management's Form ADV 2 is delivered to their clients at the time of their recommendation. Additionally, these investors will also receive an Investment

Management Agreement which outlines the services to be provided by Q3 Asset Management, the fees for services and a compensation disclosure. These services will be separate and distinct from the personalized services provided by the investor's private adviser. Q3 Asset Management reserves the right to engage or deny services to any investment adviser, financial intermediary or investor for any reason.

In order to initiate services, the investor executes an Investment Management Agreement with Q3AM to engage the Adviser as an Independent Manager. The Investment Management Services provided will be based upon the investor's primary advisers data-gathering with their client and the directives provided to Q3AM.

Investors utilizing these services must understand that they are accessing the Investment Management Services of Q3AM through an unaffiliated personal investment adviser or financial intermediary who will provide the investor with ongoing discretionary or non-discretionary advisory services. The investor's personal adviser or intermediary is responsible for evaluating Investor's situation, gaining an understanding of investor's objectives, time horizon and risk tolerance; providing the investor with education on investment concepts; recommending an appropriate portfolio to investor; communicating necessary directions relating to the portfolio management and changes desired within investor's accounts to Q3AM; and consulting with the investor periodically to ensure that the recommended portfolio is suitable for the investor based on information Investor provides. The investors' personal adviser or financial intermediary is also responsible for the performance reviews of the investor's account, the review of Q3AM's performance of services, for explaining portfolio strategies and transactions, and to remain available to answer investor questions.

In providing these independent Investment Management Services, Q3AM will manage investor funds in accordance with a model portfolio or other investment plan selected by the investor and the investor's personal investment adviser or financial intermediary. Thereafter, the Adviser will provide ongoing monitoring and rebalancing of the portfolio in accordance with the directives provided.

Every investor is obligated to promptly notify their personal investment adviser or financial intermediary of any changes of a personal or financial nature that may materially affect investor's risk profile and consequently, the investment strategy and/or decisions employed in the managed portfolio. The investor's personal investment adviser or financial intermediary will evaluate such information and is obligated to promptly communicate directions to Q3 Asset Management in accordance with the terms of the agreement between Q3AM and the investor's personal investment adviser or financial intermediary.

Item 15 Custody

Q3 Asset Management does not take custody of client funds or securities. Client assets are typically held at one of our preferred custodians which include Trust Company of America and TD Ameritrade. Client funds are held separately in the name of each client.

Item 16 Investment Discretion

Q3 Asset Management accepts discretionary authority when managing securities accounts on behalf of clients. We emphasize the unrestricted right of clients to decline to implement any advice rendered, in whole or part. Where Q3AM is granted discretionary authority of the client's accounts, clients are welcome to request investment parameters and/or limitations in writing. Prior to assuming discretionary authority, clients must complete our Investment Management Agreement and acknowledge receipt of our Form ADV 2.

Item 17 Voting Client Securities

Q3AM does not have authority to vote client securities. Clients retain the authority to vote proxies and are responsible for ensuring that proxy materials are sent directly to them or the third-party they may assign. The Adviser will not entertain questions regarding a particular solicitation.

Item 18 Financial Information

Q3AM does not require prepayment of more than \$500 in fees per client, six months or more in advance. As previously noted, the Adviser does not maintain custody of client funds or securities. Therefore, a balance sheet is not required to accompany this disclosure.

Item 19 Requirements for State Registered Advisors

The Adviser's Officers and its advisory representatives have not been involved in any investment-related litigation, regulatory or self-regulatory proceedings or other disciplinary actions. The Officers and advisory representatives have never been the subject of a bankruptcy, a license or registration suspension or a license or registration revocation.

The principal executive officers and management personnel of Q3AM are Bradford Giaimo and Adam Quiring. While Bradford Giaimo serves as the Chief Compliance Officer of the firm, Adam Quiring may assist in certain compliance related tasks. Detailed educational and business background is provided in the Form ADV Part 2B.

Privacy Policy

As a state regulated Registered Investment Adviser, Q3 Asset Management is covered under the definition of a “financial institution” in the Federal Gramm-Leach-Bliley Act (the “Act”) and state privacy rules. The Adviser is therefore subject to Act as well as the rules of privacy imposed on Investment Advisers and other financial services firms. The Adviser is also subject to the Privacy Rules established by the State of Michigan.

Privacy of nonpublic personal information is an issue that the staff of Q3 Asset Management takes seriously.

To maintain compliance with Privacy Rules, every broker, dealer, investment company and investment adviser is required to adopt policies and procedures reasonably designed to safeguard customer and consumer records and information. Q3 Asset Management has adopted a Privacy Policy to protect clients and consumers.

In its role as Investment Adviser, Q3 Asset Management routinely collects nonpublic personal information from clients and prospective clients. This information generally will include but is not limited to:

- Information provided from applications, forms and other information provided to us either verbally or in writing, and include but are not limited to your name, address, phone number, account information, social security number, assets, employment, income and debt;
- Information about your transactions, accounts, trading activity and parties to transactions; health and beneficiary information (such as may pertain to investment planning issues);
- Information from other outside sources;
- Any other data that is deemed to be nonpublic personal information as defined by the Act and state privacy rules.

Q3 Asset Management values our clients’ trust and confidence. We will never sell the nonpublic personal information we obtain from consumers or clients.

All information provided by clients or prospective clients to Q3 Asset Management, (including the Adviser’s personnel), and information and advice furnished by the Adviser to clients, shall be treated as confidential and shall not be disclosed to unaffiliated third parties, except as directed by clients with written authorization, by application to facilitate the investment advisory services offered by the Adviser via an affiliated or unaffiliated financial services provider (such as the client’s custodial firm or

broker/dealer), or as required by any rule, regulation or law to which the Adviser or its staff may be subject.

Q3 Asset Management maintains clients records in a controlled environment and records (electronic and otherwise) are only available to authorized persons of the Adviser who have a need to access client information in order to deliver advisory services, provide administrative support, or to respond to client requests. The Adviser has made reasonable efforts and conducts periodic tests to ensure that its electronic network is hack-proof.

Q3 Asset Management' position on protecting non-public personal information extends beyond the life of the Advisory Agreement. Client information is retained in a protected manner for the time period required by regulators (five years from the data of last use) and thereafter is safely destroyed via in-house shredding or a contracted secure shredding service.

Consumers (who are not clients) who provide information during an initial consultation or for other purposes but do not go on to become clients of the Adviser also receive privacy protection. Original information will be promptly returned in person or via the mail if the Adviser's services are not engaged. Alternatively, if nonpublic personal information is contained in copies of documents, notes or some other media, this information will be securely filed for a period of up to one year (depending upon likelihood of engagement) before being shredded in-house or via our secure shredding service. Clients are encouraged to discuss any questions regarding Q3 Asset Management's privacy policies and procedures with Bradford Giaimo, President and Chief Compliance Officer.
