Item 5 Fees and Compensation

Fees to Plan Sponsors or Participants

We offer our services as a percentage of assets under management, through annual fixed fees and through annual participant-based fees or a combination of a percentage of assets under management and annual fixed fees and annual participant-based fees. These fees range as listed below, and the actual fee(s) paid by a plan sponsor or participant vary based upon the size of the plan, the quantity of participants and the services selected.

- Annual fixed fees range from \$500 to \$10,000.
- Annual participant based fees range from \$25 to \$300 per participant

- Annual Asset Based fees range from .1% to 1%

Asset-based fees are calculated at the end of each billing period which may be monthly, quarterly, or annually. The asset-based fee is based on the asset value as of the last day of the billing period and is charged in arrears.

Fees billed and or assessed may be offset by any type of service related revenue received by or for the plan from investment/fund companies where all or part of the plan's assets are invested.

Fees for Sub-Advice

For our subadvisory services, we receive a portion of the fee charged to clients of the third party advisor. This fee is typically 30% of the fee charged by the third party advisors.

Information about Fees

All fees paid to us for investment advisory services are separate and distinct from the fees and expenses charged by mutual funds to their shareholders. These fees and expenses are described in each fund's prospectus. Such fees will generally include a management fee, other fund expenses and a possible distribution fee.

You could invest in a mutual fund directly, without our services. In that case, you would not receive the other services we provide, which are designed, among other things, to assist you in determining which mutual fund or funds are most appropriate to your financial condition and objectives. Accordingly, you should review both the fees charged by the funds and the fees we charged to fully understand the total amount of fees you will pay and to thereby evaluate the advisory services being provided.

Upon receiving your written authorization, fees will be automatically deducted from the account. You are provided a quarterly statement reflecting the deduction of the advisory fee.

You can terminate, without penalty, our Advisory Agreement within five business days. Thereafter, either of us can serve written notice of termination.

If you terminate our services in the middle of a quarter, you will owe us a pro-rated amount of fees. The pro-rated fees will depend upon actual services and termination costs incurred up to and at the time of termination of the Adviser's services.

Item 6 Performance-Based Fees and Side-by-Side Management

We do not accept performance-based fees.

Item 7 Types of Clients

We typically work with small and mid-sized plan sponsors with from 1 to 500 employees. We also give advice to individuals.

We have no minimum account size.

Item 8 Methods of Analysis, Sources of Information and Risk of Loss

All investing involves risk that you should be prepared to bear. You may lose some or all of your money.

We use the following methods of security analysis:

- Charting - (analysis performed using patterns to identify current trends and trend reversals to forecast the direction of prices)
- Fundamental - (analysis performed on historical and present data, with the goal of making financial forecasts)
- Technical – (analysis performed on historical and present data, focusing on price and trade volume, to forecast the direction of prices)

We use the following investment strategies when implementing investment advice given to clients:

- Long Term Purchases (securities held at least a year)

There are no unusual risks associated with our investment strategies or methods of analysis other than those associated with investing in general. All investments are subject to market risk. Market risk is the risk that your investments will be worth less than when you originally invested. Markets fluctuate, causing the value of your investments to fluctuate.

Item 9 Disciplinary Information

Neither the Firm nor any of our management persons have been involved in any events that are material to a client's or prospective client's evaluation of the Firm or the integrity of its management.

Item 10 Other Financial Industry Activities and Affiliations

We have no other financial industry activities or affiliations.

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Associated persons may buy or sell for their own accounts the same securities recommended to you. They may do so at the same time as they, or a related person, buy or sell the same securities for their own account. Associated persons seek to ensure that they do not personally benefit from the short-term market effects of their recommendations to you. We request information about all of our associate's transactions and monitor them for any wrongdoing.

Associated persons are aware of the rules regarding material non-public information and insider trading. Associated persons may also buy or sell a specific security for their own account based on personal investment considerations, which the Advisor does not deem appropriate to buy or sell for clients.

We have adopted a Code of Ethics to instruct our personnel in their ethical obligations and to provide rules for their personal securities transactions. The Firm and our personnel owe a duty of loyalty, fairness and good faith to their clients, and the obligation to adhere not only to the specific provisions of the code but also to the general principles that guide the Code. The Code covers a range of topics including general ethical principles, reporting personal securities trading, exceptions to reporting securities trading, reportable securities, initial public offerings and private placements, reporting ethical violations, distribution of the Code, review and enforcement processes, amendments to Form ADV and supervisory procedures. We will provide a copy of the Code to any client or prospective Client upon request.

Item 12 Brokerage Practices

We do not receive any research or other products or services other than execution from a broker-dealer or third party in connection with your securities transactions. Nor do we receive any client referrals from a broker-dealer or third party.

Due to the nature of our service, as an ordinary course of business, seldom do any trading.

We typically recommend MG Trust Company as a Custodian. This firm was chosen on the basis of it being conducive to conducting investment advisory business, its low trading costs and access to the desired variety of products and research services. Another important factor in selecting MG Trust Company is that it has over 40 years of trust and fiduciary experience and currently services more than 20,000 plan accounts with more than \$15 Billion in aggregate plan assets.
