The Company

REVIVE MY PORTFOLIO is a Registered Investment Advisory Firm specializing in actively managed client accounts that help to protect client assets and their retirement savings from inflation.

Experience

Patrick Towne Jr is supervises all of REVIVE's client accounts. Patrick began his trading experience trading in the pits on the CME while working towards his BS in Engineering at Northwestern University. After a completing his degree and have a successful run as a trader he chose to further his education at Hawaii Pacific University where he received his MBA. In 2008, upon completing the MBA program Patrick joined the hedge fund Flintrock Global before opening his own establishment REVIVE MY PORTFOLIO.

Account Security

Clients of REVIVE are able to access their secure accounts online 24 hours a day, 365 days a year. Additionally, REVIVE uses reputable outside brokers to house all client funds that are managed, REVIVE will not take custody of client money.

Investment Philosophy

The investing philosophy at REVIVE revolves around the creation of deeply liquid, income producing portfolios built to protect client assets from a loss of purchasing power. These highly liquid instruments are then combined with a combination of proprietary trading strategies in order to take advantage of short-term opportunities in the market, allowing REVIVE to generate consistent returns with little overnight exposure.

Inflation Protection

Over the last 10 years, inflation has outpaced the stock market by over 47%. At REVIVE, a variety of US Government Guaranteed, Inflation Protected securities are used to hedge client portfolios against rising inflation, and the loss of their purchasing power.

Liquidity

Access to your money is important. REVIVE carefully constructs client portfolios to insure them the highest liquidity in their long-term holdings. Additionally, positions used in short-term trading strategies are normally closed out at the end of each day. In most cases, REVIVE's portfolio construction process gives clients the ability to access the cash value of their accounts within one business day.

Active Management

REVIVE uses proven trading strategies to exploit market inefficiencies and capitalize on short-term opportunities. This "Active Management" approach takes significantly more time, effort, and knowledge of the marketplace than the traditional "buy and hold" approach, but it allows REVIVE to simultaneously generate higher returns for clients and precisely quantify the risks assumed.

Fees

Client accounts will be charged a 2% Annual account management fee Plus 20% of annual net profits
