This brochure provides information about the qualifications and business practices of Montrusco Bolton Investments, Inc. (hereinafter “Montrusco Bolton” or “the firm,” “us” or “we”). If you have any questions about the contents of this brochure, please contact us at (514) 282-2928 or at ayottejc@montruscobolton.com. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority. Montrusco Bolton is a registered investment adviser. Registration does not imply any particular level of skill or training.

Additional information about Montrusco Bolton is available on the SEC’s website at www.adviserinfo.sec.gov. You can search this site by a unique identifying number, known as a CRD number. The CRD number for Montrusco Bolton is 154475.

Item 2 MATERIAL CHANGES

Since our last filing of the Form ADV, Part 2A Disclosure Brochure, we have amended Item 5 to discuss the varying fee structures of certain Montrusco Bolton Funds.

Item 4. ADVISORY BUSINESS

Montrusco Bolton is an SEC-registered investment adviser with its principal place of business in Montreal Canada, Quebec province. Montrusco Bolton was founded in 1946 and began providing advisory services as an SEC registered adviser in 2010. Montrusco Bolton is wholly owned by MBI Acquisition Corporation, a holding company which, in turn, is owned in part by AMG Canada, Inc. and *Fonds de solidarité des travailleurs du Québec* (FTQ).

AMG Canada Inc. is a Canadian-based subsidiary of Asset Managers Group, Inc., a global asset management company based in Boston with equity investments in leading boutique investment management firms. AMG provides centralized assistance to its Affiliates in strategic matters, marketing, distribution, product development and operations. FTQ is a venture capital fund which seeks to invest in all sectors of the Québec economy. FTQ is registered with the Autorité des Marchés Financiers du Québec (AMF).

Montrusco Bolton offers the following advisory services to our clients.

Portfolio Management Services

Montrusco Bolton offers Portfolio Management Services to clients defined as the provision of continuous advice to a client, or making investment decisions for a client, regarding investment of the client's assets, based on the individual needs of the client.

Through a specific mandate or personal discussions, Montrusco Bolton develops (or obtains) a client's personal investment policy and creates and manages a portfolio based on that policy. Montrusco Bolton will manage US-based advisory client accounts on a discretionary basis only. Account supervision is guided by the stated objectives of the client (e.g., maximum capital appreciation, growth, income, or growth and income).

Montrusco Bolton will create a portfolio consisting primarily of interests in one or more of the *Montrusco Bolton Funds* (described below), but may also include:

- individual equities,
- exchange traded funds (ETFs),
- bonds, and
- cash or cash equivalents.

Montrusco Bolton Funds. Montrusco Bolton acts as investment manager to a number of private investment funds including the Montrusco Bolton Funds (hereinafter collectively, "the Funds"). The Funds are not required to register as investment companies under the Investment Company Act of 1940, nor are interests in the Funds required to be registered under the Securities Act of 1933, in reliance upon certain exemptions available to funds whose securities are not publicly offered. Montrusco Bolton manages the Funds in accordance with the terms and conditions of each Fund's offering and organizational documents.

Montrusco Bolton will allocate the client's assets among the Funds and other investments, as appropriate, taking into consideration the overall management style selected by the client. The Funds will be selected on the basis of investment objectives and strategy.

Portfolio weighting among Funds and other investments will be determined by each client's individual needs and circumstances. Investment in any of the Funds will be permitted only after the client has been pre-screened to determine eligibility, has received the Fund's offering memorandum and disclosures, has had ample opportunity to review such documentation and to ask questions, if necessary, and has submitted the requisite subscription documents which Montrusco Bolton has determined to accept. Based on client needs or preferences, and subject to Montrusco Bolton's sole discretion, the firm may construct a portfolio or a portion of a portfolio modeled after one or more of the Funds without investing in the Funds themselves. Under these circumstances, the client will retain an undivided, individual ownership interest in all portfolio securities.

When appropriate to the needs of the client, Montrusco Bolton may recommend the use of trading (securities sold within 30 days), short sales, margin transactions or option writing. Because these investment strategies involve certain additional degrees of risk, they will only be recommended when consistent with the client's stated tolerance for risk.

Subadviser: Montrusco Bolton has conducted due diligence on, and entered into a sub-advisory arrangement with Focus Investment Management Ltd as sub-adviser to the Montrusco Bolton Focus Global Fund Ltd.

Assets: As of December 31, 2011, we were managing approximately \$5.0 billion of client assets on a discretionary basis. Montrusco Bolton does not manage any U.S. assets on a non-discretionary basis.

Item 5. FEES AND COMPENSATION

Except as set forth below, the annual fee for Portfolio Management Services will be charged as a percentage of assets under management, according to the following schedules depending on the classification of the client:

High Net-Worth Individuals:

<u>Assets Under Management</u>		<u>Annual Fee (%)</u>	<u>Minimum Annual Fee</u>
For the first	\$500,000	1.12%	\$5,600
On the second	\$500,000	1.00%	\$5,000
On the next	\$2,000,000	0.85%	\$17,000
On the next	\$2,000,000	0.40%	\$8,000
Over	\$5,000,000	0.25%	

Institutions:

<u>Assets Under Management</u>		<u>Annual Fee (%)</u>
For the first	\$5,000,000	0.50%
On the next	\$20,000,000	0.40%
On the next	\$20,000,000	0.35%
On the next	\$20,000,000	0.25%
Thereafter		0.20%

Clients will be invoiced or their account directly debited, as authorized, in advance at the beginning of each calendar quarter based upon the month-end value (market value or fair market value in the absence of market value) of the client's account for the previous three months.

Minimum annual fees are required for high net worth individual clients based on account size as provided above. This minimum annual fee requirement will typically prevent Montrusco Bolton from accepting and providing Portfolio Management Services to relatively smaller accounts. Minimum annual account fees may be negotiable under certain circumstances. Montrusco Bolton may group certain related client accounts for the purposes of determining the annualized fee. There is also a minimum required investment of \$150,000 (\$ 500,000 for the Montrusco Bolton Alpha+ Fund) per Montrusco Bolton Fund. Montrusco Bolton may waive this minimum required investment in its sole discretion.

Except as set forth below, Montrusco Bolton's fees are charged at the portfolio level with no additional management fees incurred by the Montrusco Bolton Funds. With respect to the Montrusco Bolton Focus Global Fund, Ltd and the Montrusco Bolton Alpha+ Fund, fees are charged only at the fund level. The percentage of a client's portfolio allocated to these funds are excluded from the portfolio fee calculation set forth above and are charged only at the fund level as set forth below.

With respect to the percentage of a client's portfolio allocated to the Montrusco Bolton Quantitative Canadian Equity Fund, the client will incur a fee at both the fund level and the portfolio level. This layering of fees is not readily apparent and will reduce the portfolio's overall return. Notwithstanding the above, advisory fees will always be offset for Montrusco Bolton Quantitative Canadian Equity Fund fees earned on the investment of pension, profit-sharing, 401k, IRA or other client accounts in this Fund where to do otherwise would constitute a prohibited transaction under the provisions of ERISA or the U.S. Internal Revenue Code.

For investments made in the Montrusco Bolton Focus Global Fund, Ltd the base fee is equal to an annual fee of 1.50% charged monthly in arrears. For investments made in the Montrusco Bolton Alpha+ Fund, the base fee is equal to an annual fee of 0.50% of the Class Unit Value and charged monthly in arrears.

With respect to the percentage of a client's portfolio invested in the Montrusco Bolton Quantitative Canadian Equity Fund, in addition to the portfolio level fees, the fund will charge base fees equal to an annual fee of 0.20% quarterly in arrears.

The Montrusco Bolton Focus Global Fund, Ltd, Montrusco Bolton Quantitative Canadian Equity Fund and the Montrusco Bolton Alpha+ Fund also charge fund-level performance-based fees. Please refer to the "Performance Based Fees" Section below for more information.

Performance Based Fees:

Clients investing in the Montrusco Bolton Focus Global Fund, Ltd. will also incur a performance based fee with respect to such investment. Solely with respect to the percentage of the client's account invested in the Montrusco Bolton Focus Global Fund, Ltd., Montrusco Bolton will receive a performance based fee accrued monthly and payable quarterly, in arrears, equal to 10% of the surplus in the Gross Asset Value per US\$ Share

during that Calculation Period above (i) the Gross Asset Value per US\$ Share at the time of issue of the US\$ Share or, (ii) if issued in a previous Calculation Period, above the highest Net Asset Value per US\$ Share achieved as of the end of any previous Calculation period following such date of issue. Gross Asset Value per US\$ Share is equivalent to the Net Asset Value per US\$ Share before deduction of any accrued Incentive Fees (the "Gross Asset Value per US\$ Share").

The Montrusco Bolton Alpha+ Fund is charged a performance-based fee equal to 20% of the increase in the Class Unit Value in excess of the sum of the Base Fee and Hurdle Rate if the High Water Mark of a unit-holder is surpassed (as defined in the Master Trust Agreement). The "Hurdle Rate" is the average during the month of the return of DEX 91 Day Treasury Bill Index (the "Index") calculated and published by Scotia Capital Markets or if Scotia Capital Markets ceases to publish the Index, any other reference index for 90 day Government of Canada Treasury Bills from time to time selected at the discretion of the Manager.

Clients investing in the Montrusco Bolton Quantitative Canadian Equity Fund will incur a performance based fee with respect to such investment. Solely with respect to the percentage of the client's account invested in the Montrusco Bolton Quantitative Canadian Equity Fund, Montrusco Bolton will charge a monthly performance-based fee in arrears equal to 20% of the surplus of the Fund's performance compared with the S&P/TSX Composite Index. In the event of a monthly performance lower than the S&P/TSX Composite Index, no monthly performance based fee is payable, and that situation will carry forward until the cumulative performance of the fund investment, starting with the last month in which performance based fees were paid, is higher than that of the S&P/TSX Composite Index.

In measuring the client's assets for the calculation of performance-based fees, Montrusco Bolton shall include: for securities for which market quotations are readily available, the realized capital losses and unrealized capital losses of securities over the period and, if the unrealized capital appreciation of the securities over this period is included, the unrealized capital depreciation of securities over the period. Montrusco Bolton may receive increased compensation with regard to unrealized appreciation as well as unrealized gains in the client's account (if applicable).

The client must understand the proposed method of compensation and its risks prior to signing Subscription Documents for the Montrusco Bolton Quantitative Canadian Equity Fund, the Montrusco Bolton Focus Global Fund Ltd and the Montrusco Bolton Alpha+ Fund.

General Information

Personal Investments in Funds: Certain executive officers and/or other employees of Montrusco Bolton have invested or may invest a portion of their personal net worth in one or more of the Funds.

Negotiability of Fees: In certain circumstances, all fees and account minimums may be negotiable. In addition, certain family members and personal acquaintances of Montrusco Bolton's affiliated persons may receive advisory services at a discounted rate which is not available to advisory clients generally.

Termination: A client agreement may be canceled at any time, by either party, for any reason upon receipt of 30 days written notice. Upon termination of any account, any prepaid, unearned fees will be promptly refunded, and any earned, unpaid fees will be due and payable. The client has the right to terminate an agreement without penalty within five business days after entering into the agreement.

Other Expenses: Clients should also note that, although they will not incur fund-level fees on investments made in most Montrusco Bolton Fund investments, they typically will incur a pro rata share of applicable fund expenses including, but not necessarily limited to, audit, legal, trustee, transfer agent and custodian fees, as well as expenses related to the preparation of reports for and communications with investors.

In addition to fees paid to our firm clients will also be responsible for the fees and expenses charged by custodians and imposed by any broker dealer with which Montrusco Bolton effects transactions.

Please refer to Item 12 of this brochure for additional information regarding brokerage.

General: Prospective investors should refer to the appropriate Funds' offering and organizational documents for additional important information, terms, conditions and risks involved with investing in the Funds.

Item 6. PERFORMANCE-BASED FEES AND SIDE-BY-SIDE MANAGEMENT

As we disclosed in Item 5 of this brochure, certain of the Funds managed by Montrusco Bolton, in which client assets are invested, charge a performance based fee, as applicable.

Investors and prospective investors in one or more of these Funds should note that performance-based fees can create an incentive for an adviser such as Montrusco Bolton to recommend investments which may be riskier or more speculative than those which would be recommended under a different fee arrangement. Also, because the Performance Fee is calculated on a basis which includes unrealized as well as realized appreciation of assets, it may be greater than if such compensation were based solely on realized gains.

Because certain of the Funds do not charge a performance based fee, a conflict of interest is created in that we have incentive to allocate more of a client's assets to those funds charging a performance based fee. We also have an economic incentive to invest more of a client's assets into the Funds rather than other securities. In theory, when managing the Funds, we could also have incentive to favor a Fund with significantly greater assets than other of the Funds or a Fund otherwise paying higher aggregate performance-based fees than those paying less, or to favor a Fund in which the officers and employees of the firm have invested more of their personal assets over other Funds managed by the firm. Since we endeavor at all times to put the interest of our clients first as part of our fiduciary duty as a registered investment adviser, we take the following steps to address these conflicts:

- We disclose to clients and prospective clients the existence of material conflicts of interest, including the potential for our firm and its employees to earn more compensation from some clients than others;

- We collect, maintain and document accurate, complete and relevant background information from each client to ensure that investment in the subscribed Fund is appropriate for the client's financial goals, objectives and risk tolerance and that the client is qualified to invest;
- We have implemented written policies and procedures for fair and consistent allocation of investment opportunities among all Funds or other client accounts, subject to the Fund's/client's underlying strategy, cash availability, and other appropriate considerations;
- We periodically compare holdings and performance of all accounts with similar strategies to identify significant performance disparities indicative of possible favorable treatment;
- We educate our employees regarding the responsibilities of a fiduciary, including the equitable treatment of all clients, regardless of the fee arrangement.

Performance-based fees will only be charged in accordance with the provisions of Rule 205-3 of the Investment Advisers Act of 1940 and/or applicable state regulations.

Item 7. TYPES OF CLIENTS

Our firm provides Portfolio Management Services to individuals, including high net worth individuals, banks or thrift institutions, pension and profit sharing plans, trusts, estates, or charitable organizations, corporations or other business entities and to several private investment funds as disclosed at Item 4 of this Brochure.

Montrusco Bolton requires a minimum annual fee for accounts of high net worth individual clients, based on account size, as set forth at Item 5 of this Brochure. Minimum annual account fees may be negotiable under certain circumstances. Montrusco Bolton may group certain related client accounts for the purposes of determining the annualized fee. There is also a minimum required \$150,000 (\$ 500,000 for the Montrusco Bolton Alpha+ Fund) investment per Montrusco Bolton Pooled Fund. Montrusco Bolton may waive this minimum required investment in its sole discretion.

Depending on the exemptions relied upon by the Montrusco Bolton Pooled Funds selected as part of any client's portfolio, as applicable, clients may be required to meet certain qualification requirements prior to investment. For example, clients may be required to be "accredited investors" as defined for purposes of Regulation D under the Securities Act of 1933 and/or "qualified purchasers" for purposes of Section 3c-7 of the Investment Company Act.

Prospective investors should refer to the appropriate Fund offering documents for additional important qualifications requirements for investment.

Item 8. METHODS OF ANALYSIS, INVESTMENT STRATEGIES AND RISK OF LOSS

METHODS OF ANALYSIS

We use the following methods of analysis in formulating our investment advice and/or managing client assets:

Fundamental Analysis. We attempt to measure the intrinsic value of a security by looking at economic and financial factors (including the overall economy, industry conditions, and the financial condition and management of the company itself) to determine if the company is under priced (indicating it may be a good time to buy) or overpriced (indicating it may be time to sell).

Fundamental analysis does not attempt to anticipate market movements. This presents a potential risk, as the price of a security can move up or down along with the overall market regardless of the economic and financial factors considered in evaluating the stock.

Technical analysis. We analyze past market movements and apply that analysis to the present in an attempt to recognize recurring patterns of investor behavior and potentially predict future price movement.

Technical analysis does not consider the underlying financial condition of a company. This presents a risk in that a poorly-managed or financially unsound company may under-perform regardless of market movement.

Asset Allocation. Rather than focusing solely on securities selection, we attempt to identify an appropriate ratio of securities, fixed income, and cash suitable to the client's investment goals and risk tolerance.

A risk of asset allocation is that the client may not participate in sharp increases in a particular security, industry or market sector. Another risk is that the ratio of securities, fixed income, and cash will change over time due to stock and market movements and, if not corrected, will no longer be appropriate for the client's goals.

Subadvisers: When selecting an independent third-party investment manager to directly manage any portion of a client's assets (through a pooled investment vehicle or otherwise), we examine the experience, expertise, investment philosophies, and past performance of the manager in an attempt to determine if that manager has demonstrated an ability to invest over a period of time and in different economic conditions. We monitor the manager's underlying holdings, strategies, concentrations and leverage as part of our overall periodic risk assessment. Additionally, as part of our due-diligence process, we survey the manager's compliance and business enterprise risks. As disclosed at Item 4 of this Brochure, Montrustco Bolton have engaged Focus Investment Management Ltd. as sub-adviser to the Montrustco Bolton Focus Global Fund Ltd.

A risk of investing with a third-party manager who has been successful in the past is that the manager may not be able to replicate that success in the future. In addition, as we do not control the underlying investments in a third-party manager's portfolio, there is also a risk that a manager may deviate from the stated investment mandate or strategy of the portfolio, making it a less suitable investment for our clients. Moreover, as we do not control the manager's daily business and compliance operations, it is possible for us to miss the absence of internal controls necessary to prevent business, regulatory or reputational deficiencies.

Risks for All Forms of Securities Analysis: Our securities analysis method relies on the assumption that the companies whose securities we purchase and sell, the rating agencies that review these securities, and other publicly-available sources of information about these securities, are providing accurate and unbiased data. While we are alert to indications that

data may be incorrect, there is always a risk that our analysis may be compromised by inaccurate or misleading information.

INVESTMENT STRATEGIES

The following investment strategies may be used when managing client portfolios.

We use the following strategies in managing client accounts:

Long-term purchases: We purchase securities with the idea of holding them in the clients account for a year or longer. We may do this because we believe the securities to be currently undervalued. We may do this because we want exposure to a particular asset class over time, regardless of the current projection for this class.

A risk in a long-term purchase strategy is that, by holding the security for this length of time, we may not take advantages of short-term gains that could be profitable to a client. Moreover, if our predictions are incorrect, a security may decline sharply in value before we make the decision to sell.

Short-term purchases: We purchase securities with the idea of selling them within a relatively short time (typically a year or less). We do this in an attempt to take advantage of conditions that we believe will soon result in a price swing in the securities we purchase.

A risk in a short-term purchase strategy is that, should the anticipated price swing not materialize, we are left with the option of having a long-term investment in a security that was designed to be a short-term purchase, or potentially taking a loss. In addition, this strategy involves more frequent trading than does a longer-term strategy, and will result in increased brokerage and other transaction-related costs, as well as less favorable tax treatment of short-term capital gains.

Option Writing: From time to time as we deem appropriate, and in accordance with the investment mandate for the Funds, we may also use options as an investment strategy. An option is a contract that gives the buyer the right, but not the obligation, to buy or sell an asset (such as a share of stock) at a specific price on or before a certain date. An option, just like a stock or bond, is a security. An option is also a derivative, because it derives its value from an underlying asset. The two types of options are calls and puts:

A call gives us the right to buy an asset at a certain price within a specific period of time. We will buy a call if we have determined that the stock will increase substantially before the option expires.

A put gives us the holder the right to sell an asset at a certain price within a specific period of time. We will buy a put if we have determined that the price of the stock will fall before the option expires.

We will use options to speculate on the possibility of a sharp price swing. We will also use options to “hedge” a purchase of the underlying security; in other words, we will use an option purchase to limit the potential upside and downside of a security we have purchased for your portfolio.

We may use “covered calls”, in which we sell an option on security you own. In this strategy, you receive a fee for making the option available, and the person purchasing the option has the right to buy the security from you at an agreed-upon price.

A risk of covered calls is that the option buyer does not have to exercise the option, so that if we want to sell the stock prior to the end of the option agreement, we have to buy the option back from the option buyer, for a possible loss.

We use a “spreading strategy”, in which we purchase two or more option contracts (for example, a call option that you buy and a call option that you sell) for the same underlying security. This effectively puts you on both sides of the market, but with the ability to vary price, time and other factors.

A risk of spreading strategies is that the ability to fully profit from a price swing is limited.

Risks in General: Securities investments are not guaranteed and you may lose money on your investments. Investors or prospective investors should carefully review the Private Offering Memorandum for any Montrusco Bolton Fund under consideration for investment for a detailed explanation of many of the risks associated with investment.

Item 9. DISCIPLINARY INFORMATION

Neither our firm nor our management personnel have any reportable disciplinary events to disclose.

Item 10. OTHER FINANCIAL INDUSTRY ACTIVITIES AND AFFILIATIONS

Montrusco Bolton is wholly owned by MBI Acquisition Corporation, a holding company which, in turn, is owned in part by AMG Canada, Inc. and *Fonds de solidarité des travailleurs du Québec* (FTQ).

AMG Canada Inc. is a Canadian-based subsidiary of Asset Managers Group, Inc., a global asset management company based in Boston with equity investments in leading boutique investment management firms. AMG provides centralized assistance to its Affiliates in strategic matters, marketing, distribution, product development and operations. FTQ is a venture capital fund which seeks to invest in all sectors of the Québec economy. FTQ is registered with the Autorité des Marchés Financiers du Québec (AMF).

Montrusco Bolton acts as investment manager to the Montrusco Bolton Pooled Funds (the “Funds”), each a private investment pool with a distinct investment objective. The Funds are not required to register as investment companies under the Investment Company Act of 1940, nor are interests in the Funds required to be registered under the Securities Act of 1933, in reliance upon certain exemptions available to funds whose securities are not publicly offered. Montrusco Bolton manages the Funds in accordance with the terms and conditions of each Fund's offering and organizational documents. Montrusco Bolton will allocate the client's assets among the Funds and other investments, as appropriate, taking into consideration the overall management style selected by the client.

As investment manager to the Montrusco Bolton Pooled Funds from which client portfolios are constructed, Montrusco Bolton will be entitled to the management fees and, if applicable, the performance based fees charged by these funds, in addition to the advisory fee charged to the client, except where specifically offset (as set forth in Item 5 of this Brochure).

Item 11. CODE OF ETHICS, PARTICIPATION IN CLIENT TRANSACTIONS AND PERSONAL TRADING

Our firm has adopted a Code of Ethics which sets forth high ethical standards of business conduct that we require of our employees, including compliance with applicable federal securities laws.

Montrusco Bolton Wealth and our personnel owe a duty of loyalty, fairness and good faith towards our clients, and have an obligation to adhere not only to the specific provisions of the Code of Ethics but to the general principles that guide the Code.

Our Code of Ethics includes policies and procedures for the review of quarterly securities transactions reports as well as initial and annual securities holdings reports that must be submitted by the firm's access persons. Among other things, our Code of Ethics also requires the prior approval of any acquisition of securities in a limited offering (e.g., private placement) or an initial public offering. Our code also provides for oversight, enforcement and recordkeeping provisions.

Montrusco Bolton Wealth's Code of Ethics further includes the firm's policy prohibiting the use of material non-public information. While we do not believe that we have any particular access to non-public information, all employees are reminded that such information may not be used in a personal or professional capacity.

A copy of our Code of Ethics is available to our advisory clients and prospective clients. You may request a copy by email sent to ayottejc@montruscobolton.com or by calling us at 514-282-2928.

Our Code of Ethics is designed to assure that the personal securities transactions, activities and interests of our employees will not interfere with (i) making decisions in the best interest of advisory clients and (ii) implementing such decisions while, at the same time, allowing employees to invest for their own accounts.

Our firm and/or individuals associated with our firm may buy or sell for their personal accounts securities identical to or different from those recommended to our clients. In addition, any related person(s) may have an interest or position in a certain security(ies) which may also be recommended to a client.

It is the expressed policy of our firm that no person employed by us may purchase or sell any security prior to a transaction(s) being implemented for an advisory account, thereby preventing such employee(s) from benefiting from transactions placed on behalf of advisory accounts.

Montrusco Bolton and individuals associated with our firm are prohibited from engaging in principal transactions. A principal transaction occurs when our firm or individuals associated with our firm may buy securities for the firm or for themselves from our advisory clients; or sell securities owned by the firm or the individual(s) to our advisory clients. The Investment Advisers Act of 1940 makes it unlawful for any investment adviser, directly or indirectly, acting as principal for its own account, to knowingly sell any security to, or purchase any

security from, a client without disclosing to the client in writing the capacity in which the adviser is acting and obtaining the client's consent to the transaction. This rule may apply to certain transactions involving accounts in which investment advisers have interests, such as private fund investments by the firm's owners, principals, or employees. The SEC has indicated that when an investment adviser and/or its controlling persons own more than 25% of a fund's outstanding securities, it would be effectively treated as a principal transaction if such an account were to engage in a trade with another client account or fund.

Montrusco Bolton has adopted specific policies and procedures for monitoring the level of proprietary ownership in each fund it manages and for obtaining the requisite consent before engaging in a transaction that would be considered a principal transaction under applicable SEC interpretations.

Montrusco Bolton and individuals associated with our firm are also prohibited from engaging in agency cross transactions. An agency cross transaction occurs where our firm acts as an investment adviser in relation to a transaction in which any person controlled by or under common control with our firm, acts as broker for both the advisory client and for another person on the other side of the transaction.

Item 12. BROKERAGE PRACTICES

Montrusco Bolton requires that each client provide the firm with written authority to determine which broker dealer to use for client transactions and the commission costs that will be charged to the client for these transactions. Any limitations on this discretionary authority shall be included in this written authority statement. Clients may change/amend these limitations as required. Such amendments shall be submitted in writing.

As investment manager to the Funds, Montrusco Bolton is granted the discretionary authority in the relevant organizational documents and/or agreements to determine which securities and the amounts of securities that are to be bought or sold as well as the broker dealer to use for client transactions and the commission costs that will be charged to the Funds for these transactions.

Montrusco Bolton will endeavor to select those brokers or dealers that will provide the best execution services at competitive commission rates and costs. Subject to the requirement to obtain best execution of brokerage transactions, transactions for clients may be allocated to brokers on the basis of and in consideration of such broker's provision or payment of the costs of investment research and analysis, administrative and operational services and support, bookkeeping and recordkeeping services, trading terminals or other office equipment and other trading services and products (sometimes referred to as "soft dollar" services and products) that are of benefit to clients, including the Funds, as well as to Montrusco Bolton.

Accordingly, the commission rates charged by brokers in the foregoing circumstances may be higher than those charged by other brokers who may not offer such services. Montrusco Bolton may therefore use a broker who provides soft dollar services and products even though a lower commission may be charged by a broker who does not offer the same level of products and services. Research services may be useful in servicing all of Montrusco Bolton's clients, including the Funds, and not all of such research may be useful for the client for which the particular transaction was effected.

Soft Dollar Arrangements. With respect to brokerage decisions, as part of a broker's ability to provide "best execution," Montrusco Bolton may consider the value of "research" or additional brokerage products and services a broker-dealer has provided or may be willing to provide. This is known as paying for such services or products with "soft dollars." Because many of the products or services could be considered to provide a benefit to Montrusco Bolton and, because the "soft dollars" used to acquire them are client assets, Montrusco Bolton has a conflict of interest in allocating client brokerage business, that is, it could receive valuable benefits by selecting a particular broker over another to execute transactions for clients, including the Funds, even though the commission (or other transaction compensation) charged by that broker might not be the lowest Montrusco Bolton might otherwise be able to negotiate.

Montrusco Bolton will provide an annual report detailing the soft dollar transactions generated by the client's account. In addition, clients should note that Montrusco Bolton is subject to audit by its Canadian regulator on a regular basis with respect to its soft dollar ratios.

Montrusco Bolton's use of soft dollars is intended to comply with the requirements of Section 28(e) of the Securities Exchange Act of 1934. Section 28(e) provides a "safeharbor" for investment managers who use commissions or transaction fees paid by their advised accounts to obtain investment research services that provide lawful and appropriate assistance to the manager in performing investment decision-making responsibilities. As required by Section 28(e), Montrusco Bolton will make a good faith determination that the amount of commissions or other fees paid is reasonable in relation to the value of the brokerage and research services provided. That is, before placing orders with a particular broker, Montrusco Bolton generally determines, considering all the factors described below, that the compensation paid to the broker dealer is reasonable in relation to the value of all the brokerage and research products and services provided. In making this determination, the firm typically considers not only the particular transaction or transactions, and not only the value of brokerage and research services and products to a particular client, but also the value of those services and products in Montrusco Bolton's performance of its overall responsibilities to all of its clients. In some cases, the commissions or other transaction fees charged by the selected broker for a particular transaction or set of transactions may be greater than the amounts another broker-dealer who did not provide research services or products might charge.

Research and Brokerage Products and Services. "Research" products and services Montrusco Bolton may receive may include economic surveys, data and analysis; financial publications; recommendations or other information about particular companies and industries (through research reports and otherwise); and other products or services (e.g., computer services and equipment, including software, and data bases) that provide lawful and appropriate assistance to the firm in the performance of its investment decision-making responsibilities. Consistent with Section 28(e), brokerage products and services (beyond traditional execution services) consist primarily of computer services and software that permit Montrusco Bolton to effect securities transactions and perform functions incidental to transaction execution.

Other Uses and Products. Montrusco Bolton may use some products or services not only as "research" and as brokerage (i.e., to assist in making investment decisions for clients or to perform functions incidental to transaction execution) but also for our administrative and

other purposes as well. In these instances, Montrusco Bolton makes a reasonable allocation of the cost of the products and services so that only the portion of the cost that is attributable to making investment decisions and executing transactions is paid with commission dollars and the firm bears the cost of the balance.

Trade Aggregation

Montrusco Bolton will block trades where possible and when advantageous to clients. This blocking of trades permits the trading of aggregate blocks of securities composed of assets from multiple client accounts. Block trading may permit equity trades to be executed in a timelier and more equitable manner while allowing Montrusco Bolton to obtain an average share price for clients participating in the block.

Item 13. REVIEW OF ACCOUNTS

Reviews: While the underlying securities within Portfolio Management Services accounts are continuously monitored, these accounts are reviewed at least quarterly by a member of Montrusco Bolton's Investment Team. Accounts are reviewed in the context of each client's stated investment objectives and guidelines. More frequent reviews may be triggered by material changes in variables such as the client's individual circumstances, or the market, political or economic environment.

Reports: In addition to the statements and confirmations of transactions that Portfolio Management Services clients receive from their broker dealer, Montrusco Bolton will provide quarterly reports summarizing account performance, balances and holdings. Monthly performance reports may also be provided upon client request.

Annual audit reports and semi-annual financial statements are also provided to each investor in the Montrusco Bolton Pooled Funds. Investors in one or more of the Funds may also receive quarterly performance summaries with respect to the relevant Funds.

Item 14. CLIENT REFERRALS AND OTHER COMPENSATION

Montrusco Bolton currently has no arrangements, formal or informal, to compensate any person for client or investor referrals, nor do we or any of our affiliates receive compensation for referring clients or investors to any third party.

Item 15. CUSTODY

As previously disclosed in the "Fees and Compensation" section (Item 5) of this Brochure, our firm directly debits advisory fees from client accounts (except for the Montrusco Bolton Alpha+ Fund where fees are directly charged at the Fund level). As part of this billing process, the client's custodian is advised of the amount of the fee to be deducted from that client's account. On at least a quarterly basis, the custodian is required to send to the client a statement showing all transactions within the account during the reporting period.

Because the custodian does not calculate the amount of the fee to be deducted, it is

important for clients to carefully review their custodial statements to verify the accuracy of the calculation, among other things. Clients should contact us directly if they believe that there may be an error in their statement.

In addition to the periodic statements that clients receive directly from their custodians, we also send account statements directly to our clients on a quarterly basis.

We urge our clients to carefully compare the information provided on these statements to ensure that all account transactions, holdings and values are correct and current.

As disclosed at Item 4 of this Brochure, we act as investment manager to the Montrusco Bolton Pooled Funds. Each of the Funds is formed as a trust and has appointed a trustee which is unaffiliated with us. As each trustee is unrelated to Montrusco Bolton, neither we, nor any of our related persons, possess the legal ownership of or access to the Funds' assets or securities necessary to be deemed to have custody of the Funds' assets under Rule 206(4)-2 of the Investment Advisers Act of 1940. Nevertheless, Montrusco Bolton has adopted procedures similar to those required of advisers to private funds that are deemed to have custody. These include requiring that each of the Funds be audited on an annual basis by an independent public accountant that is both registered with and subject to regular inspection by the Public Company Accounting Oversight Board (PCAOB) and seeking to send these audited financials to each Fund investor, as appropriate, within 90 days of the applicable Fund's fiscal year end.

Item 16. INVESTMENT DISCRETION

As disclosed at Item 4 of this Brochure, Montrusco Bolton provides Portfolio Management Services on a discretionary basis only.

Our discretionary authority includes the ability to do the following without contacting the client:

- determine the security to buy or sell; and/or
- determine the amount of the security to buy or sell

Clients give us discretionary authority when they sign a discretionary agreement with our firm, and may limit this authority by giving us written instructions. Clients may also change/amend such limitations by once again providing us with written instructions.

As investment adviser to the Funds, Montrusco Bolton is granted the discretionary authority in the relevant organizational documents and/or advisory agreements to determine which securities and the amounts of securities that are bought or sold for the Funds.

Item 17. VOTING CLIENT SECURITIES

Montrusco Bolton maintains a written Proxy Policy & Procedures which reflect the firm's duty as a fiduciary to vote proxies in the best interests of our clients. Montrusco Bolton has retained an unaffiliated third party service provider to vote client proxies in accordance with Montrusco Bolton's written Proxy Voting Policy and Procedures. For ERISA plan clients, proxies are voted solely in the best interests of the plan participants and beneficiaries. With

respect to ERISA accounts, Montrusco Bolton will vote proxies unless the plan documents specifically reserve the right to vote proxies to the plan sponsor or another fiduciary.

Certain clients may expressly retain proxy-voting authority and in such instances, Montrusco Bolton will have no proxy voting responsibility and may not take any action regarding such clients' proxies.

In the event of any actual or potential conflicts of interests in the voting of any client proxies, Montrusco Bolton will make appropriate disclosures to clients and either request that the client vote the proxy(s), abstain from voting or vote the client proxies, depending on the circumstances.

Montrusco Bolton maintains relevant and appropriate proxy records as part of the firm's Proxy Policy & Procedures. Our Proxy Policy & Procedures and information about the voting of a client's proxies, where Montrusco Bolton has proxy voting responsibility, are available to a client upon written request sent to the address set forth on the cover page of this Brochure or by calling (514) 282-2928.

Class Actions, Bankruptcies and Other Legal Proceedings: Montrusco Bolton will neither advise nor act on behalf of the client in legal proceedings involving companies whose securities are held in the client's account(s), including, but not limited to, the filing of "Proofs of Claim" in class action settlements. If desired, clients may direct Montrusco Bolton to transmit copies of class action notices to the client or a third party. Upon such direction, Montrusco Bolton will make commercially reasonable efforts to forward such notices in a timely manner.

Item 18. FINANCIAL INFORMATION

Under no circumstances will we earn fees in excess of \$1,200 more than six months in advance of services rendered.

As an advisory firm that both has investment discretion and is deemed to have custody of certain client accounts (see Item 15 of this Brochure for additional information), we are required to disclose any financial condition that is reasonably likely to impair our ability to meet our contractual obligations. We have no adverse financial circumstances to report.

Montrusco Bolton has not been the subject of a bankruptcy petition at any time during the past ten years.
