Item 4 - Advisory Business

Firm Description

Henney Wealth Management Inc. (HWM) is a registered investment advisor providing investment advice to individuals, trusts & estates, and businesses. HWM was founded in 2010. Client relationships & assets were previously managed while David Henney was a principal with FFR Advisory LLC. David Henney has been an investment advisor since 1992, and Andrew Mutzabaugh, a portfolio manager, has worked in that capacity since 1997 both previously with FFR Advisory and now HWM.

The Firm’s primary compensation is from fees paid by clients. The firm receives commissions if the client chooses to purchase a financial product that pays a sales commission.

Assets managed by HWM are held by independent “third party” custodians, namely Charles Schwab, under the client’s name. Further transparency is achieved by performance reporting produced by yet another independent entity. HWM has NO vested interest in the custodian or the performance reporting provider. Conflicts of interest are avoided to the best interest of the client.

Principal Owners

David Henney is the Principal owner of Henney Wealth Management.

Types of Advisory Services

HWM currently provides discretionary investment management services.

Discretionary Investment Management:

The tactical Strategy has a dual objective of managing risk and producing positive returns. This strategy was started in January of 2003, and has a GIPS verified performance record.

Managed Assets

As of December 31, 2011, the firm managed approximately \$77,000,000. All of which is discretionary.

Item 5 - Fees and Compensations

Description

HWM is compensated by an asset-based fee according to the following schedule:

<i>First \$3,000,000</i>	<i>1.25% of asset value</i>
--------------------------	-----------------------------

<i>Next \$3,000,000</i>	<i>.85% of asset value</i>
<i>Next \$4,000,000</i>	<i>.60% of asset value</i>
<i>Next \$10,000,000</i>	<i>.50% of asset value</i>
<i>Over \$20,000,000</i>	<i>Fees are negotiable</i>
<i>Accounts under \$250,000</i>	<i>1.50% of asset value</i>

Fees are generally not negotiable, but certain exceptions are made for accounts over \$5,000,000.

Fee Billing

Clients may choose to be billed directly via invoice or have fees deducted from their investment accounts.

Other Fees

Clients are responsible for paying custodian transaction fees and mutual fund management fees. These fees are not shared by HWM.

Fee Payment

Clients are charged advisory fees in arrears, quarterly.

Compensation for Sales of Investment Products

Commissions are paid to advisor if client chooses to invest in a product that pays a commission.

In California, unless a client has received the firm's disclosure brochure at least 48 hours prior to signing the investment advisory contract, the investment advisory contract may be terminated by the client within five (5) business days of signing the contract without incurring any advisory fees.

Item 6 - Performance-Based Fees

HWM does not accept performance based fee arrangements. Through our asset-based fee arrangement, our interests are aligned with our clients.

Item 7 - Types of Clients

Clients served by Henney Wealth Management include individuals, trusts, and pension plans.

Item 8 - Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis

- Global Macro Trend Analysis (Economic Growth, Inflation and Interest rates, Fiscal/Capital Flow trends)
- Broad Asset Class Valuation (Equities, Bonds, Commodities, Currencies)
- Technical Analysis and Sentiment Indicators
- Sector/Style Momentum & Relative Strength Analysis
- Manager Analysis – Mutual Funds
- Securities Analysis – Individual Stocks

This analysis relies heavily on a diverse pool of independent research at a significant cost borne by the advisor.

Investment Strategies

The primary investment strategy offered to clients is our Tactical Strategy. This is our proprietary method of strategic asset allocation using no-load mutual funds, closed end funds, ETFs, and individual stocks. This strategy's primary goals are risk management and positive real returns while diversification and income are secondary considerations.

Recently, a discretionary Bond Strategy has been developed and implemented for clients. The strategy uses mutual funds, and to a lesser extent, ETFs.

Non-discretionary flexible balanced portfolios are constructed using the same analysis & research, but are more diversified and income focused.

Risk of Loss

All investment strategies exhibit different degrees of associated risk. Our strategies employ risk management, but common investment risks include loss of principal risk, interest rate risk, market risk, inflation risk, currency risk, reinvestment risk, business risk, liquidity risk and financial risk.

Item 9 - Disciplinary Information

No reportable actions.

Item 10 - Other Financial Industry Activities and Affiliations

Activities:

Discretionary Authority for Trading

HWM has discretionary authority to manage investment accounts on behalf of clients. We determine without specific client consent, the securities to be bought or sold, and the amount.
