Item 4 – Advisory Services

A. Firm Information

CT Financial Advisors, LLC (“CapTrust” or the “Advisor”) is a Registered Investment Advisor with the U.S. Securities and Exchange Commission, which is organized as a Limited Liability Company (LLC) under the laws of the State of Pennsylvania. CapTrust was founded in November 2011, and is owned and operated by Principal, Mark J. Manning. This Disclosure Brochure provides information regarding the qualifications, business practices, and the advisory services provided by CapTrust.

B. Advisory Services Offered

CapTrust offers investment advisory services to [individuals, high net worth individuals, trusts, estates, business and pooled investment vehicles in Pennsylvania and other states (each referred to as a “Client”).

Account Portfolio Management

CapTrust provides customized investment advisory solutions for its Clients. This is achieved through continuous personal Client contact and interaction while providing both non-discretionary and discretionary investment management and consulting services. CapTrust works with each Client to identify their investment goals and objectives as well as risk tolerance and financial situation in order to create a portfolio allocation. CapTrust will then construct a portfolio, consisting of individual stocks and bonds, commodities funds and securitized real estate. An allocation is designed to best meet the long-term goals of our Clients. The Advisor may also utilize United States government bonds, municipal bonds, and mutual funds to meet the needs of its Clients.

Generally, the Advisor manages assets on a non-discretionary basis. In these instances the Clients must provide verbal or written approval to the Advisor prior to trade execution. In addition, the Advisor may manage certain assets on a discretionary basis, in which the Advisor has permission to execute trades without obtaining approval from Clients. CAPTRUST will explain each option to the Client and assist the Client in selecting the appropriate service based on the individual needs.

CapTrust’s investment strategy is primarily long-term focused, but the Advisor may buy, sell or re-allocate positions that have been held less than one year to meet the objectives of the Client or due to market conditions. Generally the Advisor monitors the allocations and rebalances the portfolio back to target allocations quarterly. CapTrust will construct, implement and monitor the portfolio to ensure it meets the goals, objectives, circumstances, and risk tolerance agreed to by the Client. Each Client will have the opportunity to place reasonable restrictions on the types of investments to be held in their respective portfolio, subject to the acceptance by the Advisor.

CapTrust evaluates and selects investments for inclusion in Client portfolios only after applying their internal due diligence process. CapTrust may recommend, on occasion, redistributing investment allocations to diversify the portfolio. CapTrust may recommend specific positions to increase sector or asset class weightings. The Advisor may recommend employing cash positions as a possible hedge against market movement, which may adversely affect the portfolio. CapTrust may recommend selling positions for reasons that include, but are not limited to, harvesting capital gains or losses, business or sector risk exposure to a specific security or class of securities, overvaluation or overweighting of the position[s] in the portfolio, change in risk tolerance of Client, generating cash to meet Client needs, or any risk deemed unacceptable for the Client’s risk tolerance.

Prior to rendering investment advisory services, CapTrust will ascertain, in conjunction with the Client, the Client’s financial situation, risk tolerance, and investment objective[s].

CapTrust will provide investment advisory services and portfolio management services and will not provide securities custodial or other administrative services. At no time will CapTrust accept or maintain custody of a Client’s funds or securities. All Client assets will be managed within their designated brokerage account or pension account, pursuant to the Client Investment Advisory Agreement.

A. Fees for Advisory Services

Account Portfolio Management

Investment Advisory Fees are paid quarterly in advance pursuant to the terms of the Investment Advisory Agreement. Investment Advisory Fees are based on the market value of assets under management at the end of each calendar quarter. Investment Advisory Fees range from .05% to 1.50% depending on the size and complexity of the Client relationship. Relationships with multiple objectives, specific reporting requirements, portfolio restrictions and other complexities may be charged a higher fee.

Investment Advisory Fees in the first quarter of service are prorated to the inception date of the account to the end of the first quarter. Fees may be negotiable at the discretion of the Advisor. The Client's fees will take into consideration the aggregate assets under management with Advisor. All securities held in accounts managed by CapTrust will be independently valued by the designated Custodian. CapTrust will not have the authority or responsibility to value portfolio securities.

B. Fee Billing

Account Portfolio Management

Investment Advisory Fees will be automatically deducted from the Client Account by the Custodian. The Advisor shall send an invoice to the Custodian indicating the amount of the fees to be deducted from the Client Account at the respective quarter end date. The amount due is calculated by applying the quarterly rate (annual rate divided by 4) to the total assets under management with CapTrust at the end of each quarter. Clients will be provided with a statement, at least quarterly, from the Custodian reflecting deduction of the Investment Advisory Fee. In addition,

the Advisor will provide the Client a report itemizing the fee, including the calculation period covered by the fee, the account value and the methodology used to calculate the fee. It is the responsibility of the Client to verify the accuracy of these fees as listed on the custodian's brokerage statement as the Custodian does not assume this responsibility. The Client is responsible for all custodial and securities execution fees charged by the custodian and executing broker-dealer. The Investment Advisory Fee charged by CapTrust is separate and distinct from these custodian and execution fees. In some instances, the Advisor may rebate ticket charges back to Clients. In these instances the Client will pay the ticket charges and will be rebated at the end of the quarter prior to the Advisor withdrawing the periods management fee.

In addition, all fees paid to CapTrust for investment advisory services are separate and distinct from the expenses charged by mutual funds and exchange-traded funds to their shareholders, if applicable. These fees and expenses are described in each fund's prospectus. These fees and expenses will generally be used to pay management fees for the funds, other fund expenses, account administration (e.g., custody, brokerage and account reporting), and a possible distribution fee. A Client could invest in these products directly, without the services of CapTrust, but would not receive the services provided by CapTrust which are designed, among other things, to assist the Client in determining which products or services are most appropriate to each Client's financial situation and objectives. Accordingly, the Client should review both the fees charged by the fund[s] and the fees charged by CapTrust to fully understand the total fees to be paid.

The Client's Investment Advisory Agreement with the Advisor is non-transferable without Client's written approval.

Item 8 – Methods of Analysis, Investment Strategies and Risk of Loss

A. Methods of Analysis

CapTrust primarily employs fundamental analysis methods in developing investment strategies for its Clients. Research and analysis from CapTrust is derived from numerous sources, including financial media companies, third-party research materials, Internet sources, and review of company activities, including annual reports, prospectuses, press releases and research prepared by others.

As noted above, CapTrust generally employs a long-term investment strategy for its Clients, as consistent with their financial goals. CapTrust will typically hold all or a portion of a security for more than a year, but may hold for shorter periods for the purpose of rebalancing a portfolio or meeting the cash needs of Clients. At times, CapTrust may also buy and sell positions that are more short-term in nature, depending on the goals of the Client and/or the fundamentals of the security, sector or asset class.

B. Risk of Loss

Investing in securities involves certain investment risks. Securities may fluctuate in value or lose value. Clients should be prepared to bear the potential risk of loss. CapTrust will assist Clients in determining an appropriate strategy based on their tolerance for risk and other factors noted above. However, there is no guarantee that a Client will meet their investment goals.

Fundamental analysis utilizes economic and business indicators as investment selection criteria. These criteria are generally ratios and trends that may indicate the overall strength and financial viability of the entity being analyzed. Assets are deemed suitable if they meet certain criteria to indicate that they are a strong investment with a value discounted by the market. While this type of analysis helps the Advisor in evaluating a potential investment, it does not guarantee that the investment will increase in value. Assets meeting the investment criteria utilized in the fundamental analysis may lose value and may have negative investment performance. The Advisor monitors these economic indicators to determine if adjustments to strategic allocations are appropriate. More details on the Advisor's review process is included in Item 13.

Each Client engagement will entail a review of the Client's investment goals, financial situation, time horizon, tolerance for risk and other factors to develop an appropriate strategy for managing a Client's account. Client participation in this process, including full and accurate disclosure of requested information, is essential for the analysis of a Client's account. The Advisor shall rely on the financial and other information provided by the Client or their designees without the duty or obligation to validate the accuracy and completeness of the provided information. It is the responsibility of the Client to inform the Advisor of any changes in financial condition, goals or other factors that may affect this analysis.

The risks associated with a particular strategy are provided to each Client in advance of investing Client accounts. The Advisor will work with each Client to determine their tolerance for risk as part of the portfolio construction process.

CapTrust may use margin in Client accounts for to manage the timing of purchases and sales, as appropriate. CapTrust may employ options strategies to hedge or gain additional exposure to a particular asset class or sector. CapTrust's investment strategy encompasses active trading in concentrated portfolios. Following are some of the risks associated with certain transactions:

Clients are required to select their own custodian to retain their funds and securities and direct CapTrust to utilize that custodian for the Client's security transactions. CapTrust encourages Clients to review statements provided by account custodian. For more information about custodians and brokerage practices, see Item 12 - Brokerage Practices.

Item 16 – Investment Discretion

CapTrust generally does not have discretion over the selection and amount of securities to be bought or sold in Client accounts without obtaining prior consent or approval from the Client. For non-discretionary Clients the Advisor will contact the Client and obtain approval prior to executing trades. In addition, in certain instances, the Advisor may have discretionary authority to select the security and amount to be bought or sold without obtaining prior consent of the Client.

In both types of accounts, discretionary and non-discretionary, the purchases or sales may be subject to specified investment objectives, guidelines, or limitations previously set forth by the Client and agreed to by CapTrust. Discretionary authority will only be authorized upon full disclosure to the Client. The granting of such authority will be evidenced by the Client's execution of an Investment Advisory Agreement containing all applicable limitations to such authority. All discretionary trades made by CapTrust will be in accordance with each Client's investment objectives and goals.

Item 17 – Voting Client Securities

CapTrust does not accept proxy-voting responsibility for any Client. Clients will receive proxy statements directly from the Custodian. The Advisor will assist in answering questions relating to proxies, however, the Client retains the sole responsibility for proxy decisions and voting.
