Item 4. Advisory Business

We specialize in the following types of services: comprehensive portfolio management, asset management, financial planning and consulting, pension consulting and use of third party money managers. Our assets under management are \$36,000,000 as of August 20, 2012. All material conflicts of interest under CCR Section 260.238 (k) are disclosed below regarding our firm, our representatives or our employees, which could be reasonably expected to impair the rendering of unbiased and objective advice.

A. Description of our advisory firm, including how long we have been in business and our principal owner(s).

We are dedicated to providing individuals and other types of clients with a wide array of investment advisory services. Our firm is a general partnership formed in the State of California. Our firm has been in business as an investment adviser since 2012 and is owned as follows:

James den Dulk – Fifty-percent owner

Angel Perez – Fifty-percent owner

B. Description of the types of advisory services we offer.

(i) Comprehensive Portfolio Management:

Our Comprehensive Portfolio Management service encompasses asset management as well as providing financial planning/financial consulting to clients. It is designed to assist clients in meeting their financial goals through the use of financial investments. We conduct at least one, but sometimes more than one meeting (in person if possible, otherwise via telephone conference) with clients in order to understand their current financial situation, existing resources, financial goals, and tolerance for risk. Based on what we learn, we propose an investment approach to the client. We may propose an investment portfolio, consisting of exchange traded funds, mutual funds, individual stocks or bonds, or other securities. Upon the client's agreement to the proposed investment plan, we work with the client to establish or transfer investment accounts so that we can manage the client's portfolio. Once the relevant accounts are under our management, we review such accounts on a regular basis and at least quarterly. We may periodically rebalance or adjust client accounts under our management. If the client experiences any significant changes to his/her financial or personal circumstances, the client must notify us so that we can consider such information in managing the client's investments.

We may utilize Independent Money Managers, where we may design an investment portfolio and provide ongoing corresponding comprehensive Portfolio Management services on a fee-only basis for a percentage of assets in conjunction with another investment advisory firm. Before selecting other advisers, we make sure that the other advisers are properly licensed or registered.

(ii) Asset Management:

We emphasize continuous and regular account supervision. As part of our asset management service, we generally create a portfolio, consisting of individual stocks or bonds, exchange traded funds (“ETFs”), options, mutual funds and other public and private securities or investments. The client’s individual investment strategy is tailored to their specific needs and may include some or all of the previously mentioned securities. Each portfolio will be initially designed to meet a particular investment goal, which we determine to be suitable to the client’s circumstances. Once the appropriate portfolio has been determined, we review the portfolio at least quarterly and if necessary, rebalance the portfolio based upon the client’s individual needs, stated goals and objectives. Each client has the opportunity to place reasonable restrictions on the types of investments to be held in the portfolio.

We may utilize Independent Money Managers, where we may design an investment portfolio and provide ongoing corresponding asset management services on a fee-only basis for a percentage of assets in conjunction with another investment advisory firm. Before selecting other advisers, we make sure that the other advisers are properly licensed or registered.

(iii) Pension Consulting:

We provide pension consulting services to employer plan sponsors on an ongoing basis. Generally, such pension consulting services consist of assisting employer plan sponsors in establishing, monitoring and reviewing their company’s participant-directed retirement plan. As the needs of the plan sponsor dictate, areas of advising could include: investment options, plan structure and participant education.

All pension consulting services shall be in compliance with the applicable state law(s) regulating pension consulting services. This applies to client accounts that are pension or other employee benefit plans (“Plan”) governed by the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). If the client accounts are part of a Plan, and we accept appointments to provide our services to such accounts, we acknowledge that we are a fiduciary within the meaning of Section 3(21) of ERISA (but only with respect to the provision of services described in section 1 of the Pension Consulting Agreement).

(iv) Financial Planning and Consulting:

We provide a variety of financial planning and consulting services to individuals, families, charitable organizations and other business entities regarding the management of their financial resources based upon an analysis of the client’s current situation, goals, and objectives. Generally, such financial planning services will involve preparing a financial plan or rendering a financial consultation for clients based on the client’s financial goals and objectives. This planning or consulting may encompass one or more of the following areas: Investment Planning, Retirement Planning, Estate Planning,

Charitable Planning, Education Planning, Corporate and Personal Tax Planning, Cost Segregation Study, Corporate Structure, Real Estate Analysis, Mortgage/Debt Analysis, Insurance Analysis, Lines of Credit Evaluation, Business and Personal Financial Planning.

Our written financial plans or financial consultations rendered to clients usually include general recommendations for a course of activity or specific actions to be taken by the clients. For example, recommendations may be made that the clients begin or revise investment programs, create or revise wills or trusts, obtain or revise insurance coverage, commence or alter retirement savings, or establish education or charitable giving programs. It should also be noted that we refer clients to an accountant, attorney or other specialist, as necessary for non-advisory related services. For written financial planning engagements, we provide our clients with a written summary of their financial situation, observations, and recommendations. For financial consulting engagements, we usually do not provide our clients with a written summary of our observations and recommendations as the process is less formal than our planning service. Plans or consultations are typically completed within six (6) months of the client signing a contract with us, assuming that all the information and documents we request from the client are provided to us promptly. CCR Section 260.235.2 requires that we disclose to our financial planning clients that a conflict of interest exists between us and our clients. The client is under no obligation to act upon the investment adviser's recommendation. If the client elects to act on our recommendations, the client is under no obligation to effect the transaction through us. Implementation of the recommendations will be at the discretion of the client.

(v) Use of Third Party Money Managers:

We may provide clients with a list of investment advisory services of third party professional portfolio management firms for the individual management of client accounts. As part of this process, we assist clients in identifying an appropriate third party money manager. We provide initial due diligence on third party money managers and ongoing reviews of their management of your account. Prior to referring clients to third party advisors, we will ensure that third party advisors are licensed or notice filed with the respective authorities.

In order to assist clients in the selection of a third party money manager, we typically gather information from the client about their financial situation, investment objectives, and reasonable restrictions they can impose on the management of the account, which are often very limited. It is important to note that we do not offer advice on any specific securities or other investments in connection with this service. Investment advice and trading of securities is only offered by or through the third party money managers to clients.

We periodically review third party money managers' reports provided to the client, but no less often than on an annual basis. We contact the clients from time to time in order to review their financial situation and objectives; communicate information to third party

money managers as warranted; and, assist the client in understanding and evaluating the services provided by the third party money manager. The client will be expected to notify us of any changes in his/her financial situation, investment objectives, or account restrictions that could affect their account. The client may also directly contact the third party money manager managing the account or sponsoring the program. We have described below the majority of our third party money manager relationships, but we may have others as well.

Portfolio Management Services through LPL Financial

When appropriate we have the ability to provide advisory services through certain programs sponsored by LPL Financial. Below is a brief description of each LPL advisory program available to us. Annualized fees for participation in LPL advisory programs vary up to maximum of 3.00%. For more information regarding the LPL programs, including more information on the advisory services and fees that apply, the types of investments available in the programs and the potential conflicts of interest presented by the programs please see the LPL Financial Form ADV Part 2 or the applicable LPL program's Wrap Fee Program Brochure and the applicable LPL Financial client agreement.

Manager Access Network (MAN)

MAN enables high-net-worth investors to access a variety of institutional Portfolio Managers at significantly lower account minimums. By using separate account managers, clients can enjoy a higher level of specialization and service through the ownership of individual securities. A broad range of Portfolio Managers and multiple investment styles are available, including equity, fixed income, balanced, international, ETF, REIT and socially responsible portfolios. A minimum account value of \$100,000 is required for MAN.

Optimum Market Portfolios Program (OMP)

OMP offers clients the ability to participate in a professionally managed asset allocation program using Optimum Funds Class I shares. Under OMP, the client will authorize LPL Financial on a discretionary basis to purchase and sell Optimum Funds pursuant to investment objectives chosen by the client. We will assist the client in determining the suitability of OMP for the client and assist the client in setting an appropriate investment objective. Advisor will have discretion to select a mutual fund asset allocation portfolio designed by LPL consistent with the client's investment objective. LPL Financial will have discretion to purchase and sell Optimum Funds pursuant to the portfolio selected for the client. LPL Financial will also have authority to rebalance the account. A minimum account value of \$15,000 is required for OMP.

Personal Wealth Portfolios Program (PWP)

PWP offers clients an asset management account using asset allocation model portfolios designed by LPL Financial. We will have discretion for selecting the asset allocation

model portfolio based on client's investment objective. We will also have discretion for selecting third party money managers (PWP advisors) or mutual funds within each asset class of the model portfolio. LPL Financial will act as the overlay portfolio manager on all PWP accounts and will be authorized to purchase and sell on a discretionary basis mutual funds and equity and fixed income securities. A minimum account value of \$250,000 is required for PWP.

Model Wealth Portfolios Program (MWP)

MWP offers clients a professionally managed mutual fund asset allocation program. We will obtain the necessary financial data from the client, assist the client in determining the suitability of the MWP program and assist the client in setting an appropriate investment objective. We initiate the steps necessary to open an MWP account and have discretion to select a model portfolio designed by LPL Financial's Research Department consistent with the client's stated investment objective. LPL Financial's Research Department is responsible for selecting the mutual funds within a model portfolio and for making changes to the mutual funds selected. The client will authorize LPL Financial to act on a discretionary basis to purchase and sell mutual funds, including in certain circumstances exchange traded funds and to liquidate previously purchased securities. The client will also authorize LPL Financial to effect rebalancing for MWP accounts.

In the future, the MWP program may make available model portfolios designed by strategists other than LPL's Research Department. If such models are made available, we will have discretion to choose among the available models designed by LPL and outside strategists. A minimum account value of \$100,000 is required for MWP.

Manager Access Select Program (MAS)

Manager Access Select provides clients access to the investment advisory services of professional portfolio management firms for the individual management of client accounts. We will assist client in identifying a third party portfolio manager (Portfolio Manager) from a list of Portfolio Managers made available by LPL Financial. The Portfolio Manager manages client's assets on a discretionary basis. We will provide initial and ongoing assistance regarding the Portfolio Manager selection process. A minimum account value of \$100,000 is required for Manager Access Select, however, in certain instances, the minimum account size may be lower or higher.

C. Explanation of whether (and, if so, how) we tailor our advisory services to the individual needs of clients, whether clients may impose restrictions on investing in certain securities or types of securities.

(i) Individual Tailoring of Advice to Clients:

We offer individualized investment advice to clients utilizing the following services offered by our firm: Comprehensive Portfolio Management and Asset Management. Additionally, we offer general investment advice to clients utilizing the following

services offered by our firm: Financial Planning and Consulting, Pension Consulting and Use of Third Party Money Managers.

(ii) Ability of Clients to Impose Restrictions on Investing in Certain Securities or Types of Securities:

Each client has the opportunity to place reasonable restrictions on the types of investments to be held in the portfolio. Restrictions on investments in certain securities or types of securities may not be possible due to the level of difficulty this would entail in managing the account. Restrictions would be limited to our Comprehensive Portfolio Management and Asset Management services. We do not manage assets through our other services.

D. Participation in wrap fee programs.

We do not offer wrap fee programs.

E. Disclosure of the amount of client assets we manage on a discretionary basis and the amount of client assets we manage on a non-discretionary basis.

We manage \$35,000,000 on a discretionary basis and \$1,000,000 on a non-discretionary basis as of August 20, 2012.

Item 5. Fees and Compensation

We are required to describe our brokerage, custody, fees, and fund expenses so you will know how much you are charged and by whom for our advisory services provided to you. Our fees are generally non-negotiable. To comply with CCR Section 260.238(j), we disclose that lower fees for comparable services may be available from other sources.

A. Description of how we are compensated for our advisory services provided to you.

(i) Comprehensive Portfolio Management:

<u>Assets under management</u>	<u>Annual Percentage of assets charge*:</u>
\$0 to \$1,000,000	2.15%
Over \$1,000,000	1.95 %

*Our firm's fees are billed on a pro-rata annualized basis quarterly in advance based on the value of your account on the last day of the previous quarter.

We pay compensation to Independent Managers for services rendered by these firms to our clients and our firm. This compensation is based on the value of client's account for which the Independent Manager is providing services for. The fee shall be based on the service(s) utilized by our firm.

(ii) Asset Management:

<u>Assets under management</u>	<u>Annual Percentage of assets charge*:</u>
\$0 to \$1,000,000	2.05%
Over \$1,000,000	1.90%

*Our firm's fees are billed on a pro-rata annualized basis quarterly in advance based on the value of your account on the last day of the previous quarter.

We pay compensation to Independent Managers for services rendered by these firms to our clients and our firm. This compensation is based on the value of client's account for which the Independent Manager is providing services for. The fee shall be based on the service(s) utilized by our firm.

(iii) Pension Consulting:

We charge on a flat fee basis for pension consulting services. The total estimated fee, as well as the ultimate fee that we charge you, is based on the scope and complexity of our engagement with you. Our flat fees generally range from \$750 to \$10,000. Flat fees will be charged annually for ongoing pension consulting services.

(iv) Financial Planning and Consulting:

We charge on an hourly or flat fee basis for financial planning and consulting services. The total estimated fee, as well as the ultimate fee that we charge you, is based on the scope and complexity of our engagement with you. Our hourly fees are \$350 for financial advisors, \$150 per hour for para-planners and \$75 for administrative time. Flat fees generally range from \$1,500 to \$10,000.

(v) Use of Third Party Money Managers:

We are paid by third party money managers when we use them and you decide to open a managed account with them. Third party money managers pay us a portion of the investment advisory fee that they charge you for managing your account. Fees paid to us by third party money managers are generally ongoing. All fees we receive from third party money managers and the written separate disclosures made to you regarding these fees comply with applicable state statutes and rules. The separate written disclosures you need to be provided with include a copy of the third party money manager's Form ADV Part 2, all relevant Brochures, a Solicitation Disclosure Statement detailing the exact fees we are paid and a copy of the third party money manager's privacy policy. The third party money managers we recommend will not directly charge you a higher fee than they would have charged without us introducing you to them.

B. Description of whether we deduct fees from clients' assets or bill clients for fees incurred.

(i) Comprehensive Portfolio Management:

Fees will generally be automatically deducted from your managed account*. As part of this process, you understand and acknowledge the following:

- a) LPL Financial as your custodian sends statements at least quarterly to you showing all disbursements for your account, including the amount of the advisory fees paid to us;
- b) You provide authorization permitting advisory fees to be deducted from your advisory account;
- c) LPL Financial calculates our advisory fees and deducts them from your account;
- d) Our invoice to you includes a legend that urges the client to compare information provided in their statements with those from the qualified custodian in account opening notices and subsequent statements sent to the client for whom the adviser opens custodial accounts with the qualified custodian.

*In rare cases we may agree to directly bill clients.

(ii) Asset Management:

Fees will generally be automatically deducted from your managed account*. As part of this process, you understand and acknowledge the following:

- a) LPL Financial as your custodian sends statements at least quarterly to you showing all disbursements for your account, including the amount of the advisory fees paid to us;
- b) You provide authorization permitting advisory fees to be deducted from your advisory account;
- c) LPL Financial calculates our advisory fees and deducts them from your account;
- d) Our invoice to you includes a legend that urges the client to compare information provided in their statements with those from the qualified custodian in account opening notices and subsequent statements sent to the client for whom the adviser opens custodial accounts with the qualified custodian.

*In rare cases we may agree to directly bill clients.

(iii) Pension Consulting:

The fee-paying arrangements for pension consulting service will be determined on a case-by-case basis and will be detailed in the signed Pension Consulting Agreement. The client will be invoiced directly for the fees.

(iv) Financial Planning and Consulting:

We require a retainer of fifty-percent (50%) of the ultimate financial planning or consulting fee with the remainder of the fee directly billed to you and due to us within thirty (30) days of your financial plan being delivered or consultation rendered to you. In all cases, we will not require a retainer exceeding \$500 when services cannot be rendered within 6 (six) months.

(v) Use of Third Party Money Managers:

Third party money managers establish and maintain their own separate billing processes which we have no control over. In general, they will directly bill you and describe how this works in their separate written disclosure documents.

C. Description of any other types of fees or expenses clients may pay in connection with our advisory services, such as custodian fees or mutual fund expenses.

Clients will incur transaction charges for trades executed in their accounts. These transaction fees are separate from our fees and will be disclosed by the firm that the trades are executed through. Also, clients will pay the following separately incurred expenses, which we do not receive any part of: charges imposed directly by a mutual fund, index fund, or exchange traded fund which shall be disclosed in the fund's prospectus (i.e., fund management fees and other fund expenses).

D. We must disclose if client's advisory fees are due quarterly in advance. Explain how a client may obtain a refund of a pre-paid fee if the advisory contract is terminated before the end of the billing period. Explain how you will determine the amount of the refund.

We charge our advisory fees quarterly in advance. In the event that you wish to terminate our services, we will refund the unearned portion of our advisory fee to you. You need to contact us in writing and state that you wish to terminate our services. Upon receipt of your letter of termination, we will proceed to close out your account and process a pro-rata refund of unearned advisory fees.

E. Commissionable securities sales.

In non-advisory accounts we can offer securities for a commission because our supervised persons are registered representatives of LPL Financial Corporation, member FINRA/SIPC. Our supervised persons may accept compensation for the sale of securities or other investment products, including distribution or service ("trail") fees from the sale of mutual funds. You should be aware that if a non-advisory account is opened the practice of accepting commissions for the sale of securities:

- 1) could present a conflict of interest that may give our firm and/or our supervised persons an incentive to recommend investment products based on the compensation received, rather than on your needs. We generally address commissionable sales conflicts that arise:

- a) when explaining to clients that commissionable securities sales creates an incentive to recommend products based on the compensation we and/or our supervised persons may earn and may not necessarily be in the best interests of the client;
 - b) when recommending commissionable mutual funds, explaining that “no-load” funds are available through our firm if the client wishes to become an investment advisory client.
- 2) in no way prohibits you from purchasing investment products recommended by us through other brokers or agents which are not affiliated with us.

Item 6. Performance-Based Fees and Side-By-Side Management

We do not charge performance fees to our clients.

Item 7. Types of Clients and Account Requirements

We have the following types of clients:

- Individuals and High Net Worth Individuals;
- Trusts, Estates or Charitable Organizations; and
- Corporations, limited liability companies and/or other business types.

We do not have minimum requirements for opening and maintaining accounts or otherwise engaging us.

Item 8. Methods of Analysis, Investment Strategies and Risk of Loss

- A. Description of the methods of analysis and investment strategies we use in formulating investment advice or managing assets.

Methods of Analysis:

Fundamental Analysis. We attempt to measure the intrinsic value of a security by looking at economic and financial factors (including the overall economy, industry conditions, and the financial condition and management of the company itself) to determine if the company is underpriced (indicating it may be a good time to buy) or overpriced (indicating it may be time to sell). Fundamental analysis does not attempt to anticipate market movements. This presents a potential risk, as the price of a security can move up or down along with the overall market regardless of the economic and financial factors considered in evaluating the stock.

Investment Strategies we use:

Long-term purchases. When utilizing this strategy, we may purchase securities with the idea of holding them for a relatively long time (typically held for at least a year). A risk in a long-term purchase strategy is that by holding the security for this length of time, we may not take advantages of short-term gains that could be profitable to a client. Moreover, if our predictions are incorrect, a security may decline sharply in value before we make the decision to sell.

Please note:

Investing in securities involves risk of loss that clients should be prepared to bear. While the stock market may increase and your account(s) could enjoy a gain, it is also possible that the stock market may decrease and your account(s) could suffer a loss. It is important that you understand the risks associated with investing in the stock market, are appropriately diversified in your investments, and ask us any questions you may have.

Item 9. Disciplinary Information

We are required to disclose whether there are legal or disciplinary events that are material to a client's or prospective client's evaluation of our advisory business or the integrity of our management. There are a number of specific legal and disciplinary events that we must presume are material for this Item. If our advisory firm or a management person has been involved in one of these events, we must disclose it under this Item for ten years following the date of the event, unless (1) the event was resolved in our or the management person's favor, or was reversed, suspended or vacated, or (2) the event is not material. For purposes of calculating this ten-year period, the "date" of an event is the date that the final order, judgment, or decree was entered, or the date that any rights of appeal from preliminary orders, judgments or decrees lapsed.

The SEC and/or State Regulators have not provided us with an exclusive list of material disciplinary events, which need to be disclosed. If our advisory firm or a management person has been involved in a legal or disciplinary event that is not specifically required to be disclosed, but nonetheless is material to a client's or prospective client's evaluation of our advisory business or the integrity of our management, we must disclose the event. Similarly, even if more than ten years has passed since the date of the event, we must disclose the event if it is so serious that it remains currently material to a client's or prospective client's evaluation of our firm or management.

We have determined that our firm and management have nothing to disclose under the aforementioned standard.

Item 10. Other Financial Industry Activities and Affiliations

- A. Our firm or our management persons are registered, or have an application pending to register, as a broker-dealer or a registered representative of a broker-dealer. The details are as follows:

Our management persons are registered representatives of LPL Financial, member FINRA/SIPC. As a result of this relationship, LPL Financial may have access to certain confidential information (e.g., financial information, investment objectives, transactions and holdings) about our client, even if client does not establish any account through LPL. If you would like a copy of the LPL Financial privacy policy, please contact Jim den Dulk. As registered representatives, our management persons may offer commissionable securities products to clients for which they will earn normal commissions.

A conflict of interest may arise as these commissionable securities sales may create an incentive to recommend products based on the compensation adviser and/or our supervised persons may earn and may not necessarily be in the best interests of the client. In order to minimize this conflict of interest, our supervised persons will place client interests ahead of their own interests and adhere to our firm's Code of Ethics as well as clearly explaining this conflict when recommending any such products to our clients. Clients are informed they are not obligated to purchase these products.

- B. Our firm or our management persons are registered, or have an application pending to register, as a futures commission merchant, commodity pool operator, a commodity trading advisor, or an associated person of the foregoing entities. The details are as follows:

We have determined we have nothing to disclose in this regard.

- C. Description of any relationship or arrangement that is material to our advisory business or to our clients, that we or any of our management persons have with any related person listed below. We are required to identify the related person and if the relationship or arrangement creates a material conflict of interest with clients, describe the nature of the conflict and how we address it.

Our management persons are also licensed insurance agents and may offer insurance products and receive normal and customary fees as a result of insurance sales. A conflict of interest may arise as these insurance sales may create an incentive to recommend products based on the compensation adviser and/or our supervised persons may earn and may not necessarily be in the best interests of the client. In order to minimize this conflict of interest, our management persons will place client interests ahead of their own interests and adhere to our firm's Code of Ethics as well as clearly explaining this conflict when recommending any such products to our clients. Clients are informed they are not obligated to purchase these products.

- D. If we recommend or select other investment advisers for our clients and we receive compensation directly or indirectly from those advisers, or we have other business relationships with those advisers, we are required to describe these practices and discuss the conflicts of interest these practices create and how we address them.

The compensation paid to us by third party managers may vary, and thus, there may be a conflict of interest in recommending a manager who shares a larger portion of its advisory fees over another manager. Our firm's fees are not higher than they would have been had our client obtained services directly from the third party money manager. A potential conflict of interest in utilizing third party advisors may be an incentive to us in selecting a particular advisor over another in the form of fees or services. In order to minimize this conflict our firm will make our selections in the best interest of our clients.

Item 11. Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

- A. Brief description of our Code of Ethics adopted and offer to provide a copy of our Code of Ethics to any client or prospective client upon request.

We recognize that the personal investment transactions of members and employees of our firm demand the application of a high Code of Ethics and require that all such transactions be carried out in a way that does not endanger the interest of any client. At the same time, we believe that if investment goals are similar for clients and for members and employees of our firm, it is logical and even desirable that there be common ownership of some securities.

Therefore, in order to prevent conflicts of interest, we have in place a set of procedures (including a pre-clearing procedure) with respect to transactions effected by our members, officers and employees for their personal accounts. In order to monitor compliance with our personal trading policy, we have a quarterly securities transaction reporting system for all of our associates.

Furthermore, our firm has established a Code of Ethics which applies to all of our associated persons. An investment adviser is considered a fiduciary. As a fiduciary, it is an investment adviser's responsibility to provide fair and full disclosure of all material facts and to act solely in the best interest of each of our clients at all times. We have a fiduciary duty to all clients. Our fiduciary duty is considered the core underlying principle for our Code of Ethics which also includes Insider Trading and Personal Securities Transactions Policies and Procedures. We require all of our supervised persons to conduct business with the highest level of ethical standards and to comply with all federal and state securities laws at all times. Upon employment or affiliation and at least annually thereafter, all supervised persons will sign an acknowledgement that they have read, understand, and agree to comply with our Code of Ethics. Our firm and supervised persons must conduct business in an honest, ethical, and fair manner and avoid all circumstances that might negatively affect or appear to affect our duty of complete loyalty to all clients. This disclosure is provided to give all clients a summary of our Code of Ethics. However, if a client or a potential client wishes to review our Code of Ethics in its entirety, a copy will be provided promptly upon request.

- B. If our firm or a related person recommends to clients, or buys or sells for client accounts, securities in which our firm or a related person has a material financial interest (excluding an interest as a shareholder of an SEC-registered, open-end investment company), we must describe our practice and discuss the conflicts of interest it presents.

We have determined we have nothing to disclose in this regard.

- C. If our firm or a related person invests in the same securities (or related securities, e.g., warrants, options or futures) that our firm or a related person recommends to clients, we are required to describe our practice and discuss the conflicts of interest this presents and generally how we address the conflicts that arise in connection with personal trading.

See Item 11A of this Brochure. Related persons of our firm may buy or sell securities and other investments that are also recommended to clients. In order to minimize this conflict of interest, our related persons will place client interests ahead of their own interests and adhere to our firm's Code of Ethics, a copy of which is available upon request.

- D. If our firm or a related person recommends securities to clients, or buys or sells securities for client accounts, at or about the same time that you or a related person buys or sells the same securities for our firm's (or the related person's own) account, we are required to describe our practice and discuss the conflicts of interest it presents. We are also required to describe generally how we address conflicts that arise.

See Item 11A of this brochure. Related persons of our firm may buy or sell securities for themselves at or about the same time they buy or sell the same securities for client accounts. In order to minimize this conflict of interest, our related persons will place client interests ahead of their own interests and adhere to our firm's Code of Ethics, a copy of which is available upon request. Further, our related persons will refrain from buying or selling the same securities within 48 hours prior to buying or selling for our clients. If related persons' accounts are included in a block trade, our related persons will always trade personal accounts last.

Item 12. Brokerage Practices

- A. Description of the factors that we consider in selecting or recommending broker-dealers for client transactions and determining the reasonableness of their compensation (e.g., commissions).
1. Research and Other Soft Dollar Benefits. If we receive research or other products or services other than execution from a broker-dealer or a third party in connection with client securities transactions ("soft dollar benefits"), we are required to disclose our practices and discuss the conflicts of interest they create. Please note that we must disclose all soft dollar benefits we receive, including, in the case of research, both proprietary research (created or developed by the broker-dealer) and research created or developed by a third party.

We receive products and services provided by LPL Financial Corporation (“LPL Financial”) and other qualified broker-dealers, (collectively “Broker-Dealers”), that provides lawful and appropriate assistance to our firm in the performance of our investment decision-making responsibilities.

Where a particular service or product that a broker or dealer is willing to provide for soft dollars, our interest in making trade allocations may differ from clients’ interests in that our firm has an incentive to designate as great a portion of the cost in order to permit payment with soft dollars.

- a. Explanation of when we use client brokerage commissions (or markups or markdowns) to obtain research or other products or services, and how we receive a benefit because our firm does not have to produce or pay for the research, products or services.

When broker-dealers provide products or services in expectation of brokerage business, it generally suggests the level of business it would like to receive as compensation. In making our brokerage selections, we consider those suggestions as part of our evaluation of the factors described above. Actual transactional business received by a particular broker or dealer during any period may be less than the suggested level, but could also exceed that level. This may be in part because the total brokerage business generated by clients exceeds the aggregate amounts requested by all brokers and dealers from which we receive services and products, and in part because the brokers and dealers that provide such services and products may also provide superior execution and may therefore be the most appropriate broker-dealers for particular transactions regardless of whether or not they provided such services and products. In other cases, a broker or dealer may establish credits based on brokerage commissions paid in the past, which may be used to pay, or reimburse our firm for specified expenses.

- b. Incentive to select or recommend a broker-dealer based on our interest in receiving the research or other products or services, rather than on our clients’ interest in receiving best execution.

We benefit from our relationship with LPL Financial. Because our expenses would likely increase considerably without this relationship with LPL Financial, this relationship might be considered a “soft dollar” relationship. Under Section 28(e) of the Securities and Exchange Act of 1934, an investment adviser’s use of client commission dollars to acquire research and brokerage products and services is not a breach of an investment adviser’s fiduciary duty to clients – even if the brokerage commissions paid are higher than the lowest available as long as (among certain other requirements) the investment adviser determines that the commissions are reasonable compensation for both the brokerage services and the research acquired.

LPL Financial may suggest a level of future business in order to continue this relationship. Our execution of securities transactions through LPL Financial may be less than the suggested level but can and often does exceed that level. This relationship may

create an incentive for our firm to cause you to effect more transactions through LPL Financial than we might otherwise do in order to meet suggested levels.

- c. Causing clients to pay commissions (or markups or markdowns) higher than those charged by other broker-dealers in return for soft dollar benefits (known as paying-up).

Our firm's Investment Advisors are registered representatives of LPL. As a result of the individual association of our representatives with LPL, we are generally required to utilize the brokerage/custodial services of LPL for investment advisory accounts. We may however utilize other qualified custodians.

- d. Disclosure of whether we use soft dollar benefits to service all of our clients' accounts or only those that paid for the benefits, as well as whether we seek to allocate soft dollar benefits to client accounts proportionately to the soft dollar credits the accounts generate.

We use soft dollar benefits to service all of our client accounts, not just those which may have paid for the benefits. Due to the time and complexity involved, we have chosen not to allocate soft dollar benefits proportionately to client accounts generating soft dollar credits.

- e. Description of the types of products and services our firm or any of our related persons acquired with client brokerage commissions (or markups or markdowns) within our last fiscal year.

We are required to specifically describe to our clients the types of products or services that we are acquiring and to permit them to evaluate possible conflicts of interest. Our description must be more detailed for products or services that do not qualify for the safe harbor in Section 28(e) of the Securities Exchange Act of 1934, such as those services that do not aid in investment decision-making or trade execution. Merely disclosing that we obtain various research reports and products is not specific enough.

Our Broker-Dealers also make available to our firm other products and services that benefit us, but may not benefit our clients' accounts. These benefits may include national, regional or investment adviser specific educational events organized and/or sponsored by Broker-Dealers. Other potential benefits may include occasional business entertainment of personnel of our firm by Broker-Dealers personnel, including meals, invitations to sporting events, including golf tournaments, and other forms of entertainment, some of which may accompany educational opportunities. Some of these products and services assist our firm in managing and administering clients' accounts. These services may include professional compliance, legal and business consulting, publications and conferences on practice management, information technology, business succession, regulatory compliance, employee benefits providers, human capital consultants, insurance, and marketing. In addition, Broker-Dealers may make available, arrange and/or pay vendors for these types of

services rendered to our firm by independent third parties. Broker-Dealers may discount or waive fees it would otherwise charge for some of these services or pay all or a part of the fees of a third-party providing these services to our firm. While, as a fiduciary, our firm endeavors to act in its clients' best interests, Adviser's recommendation/requirement that clients maintain their assets in accounts at Broker-Dealers may be based in part on the benefit to our firm of the availability of some of the foregoing products and services and other arrangements and not solely on the nature, cost, or quality of custody and brokerage services provided by Broker-Dealers, which may create a potential conflict of interest.

We would have to obtain the aforementioned services and products for cash if we did not have soft dollars available to pay for them. As a result of receiving such products and services for no cost, we may have an incentive to continue to place client trades through broker-dealers that offer soft dollar arrangements. This interest conflicts with the clients' interest of obtaining the lowest commission rate available. Therefore, we must determine in good faith, based on the best execution policy stated above that such commissions are reasonable in relation to the value of the services provided by such executing broker-dealers.

- f. Explanation of the procedures we used during our last fiscal year to direct client transactions to a particular broker-dealer in return for soft dollar benefits we received.

All soft dollars arrangements must be approved in writing by our Chief Compliance Officer. A brief description of the purpose of the soft dollar arrangement outlining the benefits received by our firm and clients along with any noted concerns about increased costs to our clients and how such concerns were alleviated will be maintained on file. Our Chief Compliance Officer undertakes a review of parties which propose to pay our firm in soft dollars and analyzes a number of criteria. Our Chief Compliance Officer also annually reviews all our soft dollar relationships for appropriateness, benefits to our clients, etc.

As a fiduciary, we have an obligation to obtain "best execution" of clients' transactions under the circumstances of the particular transaction. Consequently, notwithstanding the safe harbor provided under Section 28(e), no allocation for soft dollar payments shall be made unless best execution of the transaction is reasonably expected to be obtained.

- 2) Brokerage for Client Referrals. If we consider, in selecting or recommending broker-dealers, whether our firm or a related person receives client referrals from a broker-dealer or third party, we are required to disclose this practice and discuss the conflicts of interest it create.

Our firm does not receive brokerage for client referrals.

3) Directed Brokerage.

- a. If we routinely recommend, request or require that a client directs us to execute transactions through a specified broker-dealer, we are required to describe our practice or policy. Further, we must explain that not all advisers require their clients to direct brokerage. If our firm and the broker-dealer are affiliates or have another economic relationship that creates a material conflict of interest, we are further required to describe the relationship and discuss the conflicts of interest it presents by explaining that through the direction of brokerage we may be unable to achieve best execution of client transactions, and that this practice may cost our clients more money.

We do not exercise discretion over which broker-dealer is to be used or the commission rates to be paid. We do recommend broker-dealers to clients and the broker-dealer determines the commission rates to be paid.

- b. If we permit a client to direct brokerage, we are required to describe our practice. If applicable, we must also explain that we may be unable to achieve best execution of your transactions. Directed brokerage may cost clients more money. For example, in a directed brokerage account, you may pay higher brokerage commissions because we may not be able to aggregate orders to reduce transaction costs, or you may receive less favorable prices on transactions.

We have nothing to disclose to this regard.

- B. Discussion of whether, and under what conditions, we aggregate the purchase or sale of securities for various client accounts in quantities sufficient to obtain reduced transaction costs (known as bunching). If we do not bunch orders when we have the opportunity to do so, we are required to explain our practice and describe the costs to clients of not bunching.

We perform investment management services for various clients. There are occasions on which portfolio transactions may be executed as part of concurrent authorizations to purchase or sell the same security for numerous accounts served by our firm, which involve accounts with similar investment objectives. Although such concurrent authorizations potentially could be either advantageous or disadvantageous to any one or more particular accounts, they are effected only when we believe that to do so will be in the best interest of the affected accounts. When such concurrent authorizations occur, the objective is to allocate the executions in a manner which is deemed equitable to the accounts involved. In any given situation, we attempt to allocate trade executions in the most equitable manner possible, taking into consideration client objectives, current asset allocation and availability of funds using price averaging, proration and consistently non-arbitrary methods of allocation.

Item 13. Review of Accounts or Financial Plans

- A. Review of client accounts or financial plans, along with a description of the frequency and nature of our review, and the titles of our employees who conduct the review.

We review accounts on at least a weekly basis for our clients subscribing to the following services: Comprehensive Portfolio Management and Asset Management. Jim den Dulk, General Partner and Chief Compliance Officer, and Angel Perez, General Partner, conducts all reviews. Third Party Money Management clients receive at least quarterly reviews. The nature of these reviews is to learn whether clients' accounts are in line with their investment objectives, appropriately positioned based on market conditions, and investment policies, if applicable. Only our Financial Advisors or Portfolio Managers will conduct reviews.

Pension consulting clients receive reviews of their pension plans for the duration of the pension consulting service. We also provide ongoing services to pension consulting clients where we meet with such clients upon their request to discuss updates to their plans, changes in their circumstances, etc.

Financial planning clients do not receive reviews of their written plans unless they take action to schedule a financial consultation with us. We do not provide ongoing services to financial planning clients, but are willing to meet with such clients upon their request to discuss updates to their plans, changes in their circumstances, etc.

- B. Review of client accounts on other than a periodic basis, along with a description of the factors that trigger a review.

We may review client accounts more frequently than described above. Among the factors which may trigger an off-cycle review are major market or economic events, the client's life events, requests by the client, etc.

- C. Description of the content and indication of the frequency of written or verbal regular reports we provide to clients regarding their accounts.

We do not provide written reports to clients, unless asked to do so. Verbal reports to clients take place on at least an annual basis when we meet with clients who subscribe to the following services: Comprehensive Portfolio Management, Asset Management and Third Party Money Management.

As mentioned in Item 13A of this Brochure, pension clients do not receive written or verbal updated reports regarding their pension plans unless they choose to contract with us for ongoing Pension Consulting services.

As also mentioned in Item 13A of this Brochure, financial planning clients do not receive written or verbal updated reports regarding their financial plans unless they separately contract with us for a post-financial plan meeting or update to their initial written financial plan.

Item 14. Client Referrals and Other Compensation

- A. If someone who is not a client provides an economic benefit to our firm for providing investment advice or other advisory services to our clients, we must generally describe the arrangement. For purposes of this Item, economic benefits include any sales awards or other prizes.

Investment or Brokerage Discretion

We provide discretionary portfolio management services where the investment advice provided is custom tailored to meet the needs and investment objectives of each client. Accordingly, we are authorized to perform various functions, at the client's expense, without further approval from the client. Such functions include the determination of securities to be purchased/sold and the amount of securities to be purchased/sold. We do not have discretionary authority over the broker or dealer to be used.

Suggestion of Brokers to Clients

We shall recommend LPL Financial and other Broker-Dealers. LPL is the broker-dealer with which our representatives are also associated. As a result of the individual association of our representatives with LPL, we are generally required to utilize the brokerage/custodial services of LPL for investment advisory accounts. Our general policies relative to the execution of client securities brokerage transactions are as follows:

Execution of Brokerage Transactions (when applicable)

In seeking "best execution", the determinative factor is not the lowest possible commission cost, but whether the transaction represents the best qualitative execution. LPL also takes into consideration the full range of a broker-dealer's services including execution capability, commission rates, and responsiveness. Although LPL will seek competitive commission rates, it may not necessarily obtain the lowest possible commission rates for all account transactions.

Over-the-Counter (OTC) securities transactions are generally effected based on two (2) separate broker-dealers: (1) a "dealer" or "principal" acting as market-maker; and (2) the executing broker-dealer that acts in an agency capacity. Dealers executing principal transactions typically include a mark-up/down, which is included in the offer or bid price of the securities purchased or sold. In addition to the dealer mark-up/down, the client may also incur the transaction fee imposed by the executing broker-dealer. We do not receive any portion of the dealer mark-up/down or the executing broker-dealer transaction fee.

Transactions for each client account will be effected independently. We individually review each client's account and place trades accordingly. Despite being purchased or sold at approximately the same time all clients' transactions will incur individual transaction fees.

Additional Compensation

We may receive from Broker-Dealers or a mutual fund company, without cost and/or at a discount non soft-dollar support services and/or products, to assist us to better monitor and service client accounts maintained at such institutions. Included within the support services we may receive investment-related research, pricing information and market data, software and other technology that provide access to client account data, compliance and/or practice management-related publications, discounted or gratis consulting services, discounted and/or gratis attendance at conferences, meetings, and other educational and/or social events, marketing support, computer hardware and/or software and/or other products used by us to assist us in our investment advisory business operations.

Our clients do not pay more for investment transactions effected and/or assets maintained at Broker-Dealers as result of this arrangement. There is no commitment made by us to Broker-Dealers or any other institution as a result of the above arrangement.

- B. If our firm or a related person directly or indirectly compensates any person who is not our employee for client referrals, we are required to describe the arrangement and the compensation.

We do not pay referral fees (non-commission based) to independent solicitors (non-registered representatives) for the referral of their clients to our firm.

Item 15. Custody

- A. If we have custody of client funds or securities and a qualified custodian as defined in SEC rule 206(4)-2 or similar state rules (for example, a broker-dealer or bank) and do not send account statements with respect to those funds or securities directly to our clients, we must disclose that we have custody and explain the risks that you will face because of this.

State Securities Bureaus, or their equivalents, generally take the position that any arrangement under which a registered investment adviser is authorized or permitted to withdraw client funds or securities maintained with a custodian upon the adviser's instruction to the custodian is deemed to have custody of client funds and securities.

As such, we have adopted the following safeguarding procedures:

- (1) Our clients must provide us with written authorization permitting direct payment to us of our advisory fees from their account(s) maintained by a custodian who is independent of our firm;
- (2) We must send a statement to our clients showing the amount of our fee, the value of your assets upon which our fee was based, and the specific manner in which our fee was calculated;
- (3) We must disclose to you that it is your responsibility to verify the accuracy of our fee calculation, and that the custodian will not determine whether the fee is properly calculated; and

(4) Your account custodian must agree to send you a statement, at least quarterly, showing all disbursements from your account, including advisory fees.

- B. If we have custody of client funds or securities and a qualified custodian sends quarterly, or more frequent, account statements directly to our clients, we are required to explain that you will receive account statements from the broker-dealer, bank, or other qualified custodian and that you should carefully review those statements.

We encourage our clients to raise any questions with us about the custody, safety or security of their assets. The custodians we do business with will send you independent account statements listing your account balance(s), transaction history and any fee debits or other fees taken out of your account.

Item 16. Investment Discretion

If we accept discretionary authority to manage securities accounts on behalf of clients, we are required to disclose this fact and describe any limitations our clients may place on our authority. The following procedures are followed before we assume this authority:

We will accept discretionary authority. Our clients need to sign a discretionary investment advisory agreement with our firm for the management of their account. This type of agreement only applies to our Comprehensive Portfolio and Asset Management clients. We do not take or exercise discretion with respect to our other clients.

Item 17. Voting Client Securities

- A. If we have, or will accept, proxy authority to vote client securities, we must briefly describe our voting policies and procedures.

We do not and will not accept the proxy authority to vote client securities. Clients will receive proxies or other solicitations directly from their custodian or a transfer agent. In the event that proxies are sent to our firm, we will forward them on to you and ask the party who sent them to mail them directly to you in the future. Clients may call, write or email us to discuss questions they may have about particular proxy votes or other solicitations.

However, third party money managers selected or recommended by our firm may vote proxies for clients. Therefore, except in the event a third party money manager votes proxies, clients maintain exclusive responsibility for: (1) directing the manner in which proxies solicited by issuers of securities beneficially owned by the client shall be voted, and (2) making all elections relative to any mergers, acquisitions, tender offers, bankruptcy proceedings or other type events pertaining to the client's investment assets. Therefore (except for proxies that may be voted by a third party money manager), our firm and/or you shall instruct your qualified custodian to forward to you copies of all proxies and shareholder communications relating to your investment assets.

Item 18. Financial Information

- A. If we require or solicit prepayment of more than \$500 in fees per client, six months or more in advance, we must include a balance sheet for our most recent fiscal year.

We do not require nor do we solicit prepayment of more than \$500 in fees per client, six months or more in advance. Therefore we have not included a balance sheet for our most recent fiscal year.

- B. If we are a state-registered adviser and have discretionary authority or custody of client funds or securities, or we require or solicit prepayment of more than \$500 in fees per client, six months or more in advance, we must disclose any financial condition that is reasonably likely to impair our ability to meet contractual commitments to clients.

We have nothing to disclose in this regard.

- C. If we have been the subject of a bankruptcy petition at any time during the past ten years, we must disclose this fact, the date the petition was first brought, and the current status.

We have nothing to disclose in this regard.

- B. Description of any business in which we are actively engaged (other than giving investment advice) and the approximate amount of time spent on that business.

Please see Item 10 of this Firm Brochure.

- C. In addition to the description of our fees in response to Item 5 of Part 2A, if our firm or a supervised person is compensated for advisory services with performance-based fees, we must explain how these fees will be calculated. Further, we must disclose specifically that performance-based compensation may create an incentive for the adviser to recommend an investment that may carry a higher degree of risk to the client.

We do not charge performance-based fees.

- D. If our firm or a management person has been involved in one of the events listed below, we must disclose all material facts regarding the event.

1. An award or otherwise being found liable in an arbitration claim alleging damages in excess of \$2,500, involving any of the following:
 - (a) an investment or an investment-related business or activity;
 - (b) fraud, false statement(s), or omissions;
 - (c) theft, embezzlement, or other wrongful taking of property;
 - (d) bribery, forgery, counterfeiting, or extortion; or
 - (e) dishonest, unfair, or unethical practices.

We have nothing to disclose in this regard.

2. An award or otherwise being found liable in a civil, self-regulatory organization, or administrative proceeding involving any of the following:

- (a) an investment or an investment-related business or activity;
- (b) fraud, false statement(s), or omissions;
- (c) theft, embezzlement, or other wrongful taking of property;
- (d) bribery, forgery, counterfeiting, or extortion; or
- (e) dishonest, unfair, or unethical practices.

We have nothing to disclose in this regard.

E. In addition to any relationship or arrangement described in response to Item 10.C. of Part 2A, we must describe any relationship or arrangement that our firm or any of our management persons have with any issuer of securities that is not listed in Item 10.C. of Part 2A.

We have nothing to disclose in this regard.
