#### **4. ADVISORY BUSINESS**

##### **A. OWNERSHIP/ADVISOR HISTORY**

Tanager Wealth Management LLP (“Tanager” or the “Firm”) is a limited liability partnership domiciled in the United Kingdom. It was established in July 2012. It subsequently became a registered investment adviser with the Securities and Exchange Commission. Its partners are Kristopher Heck and Jeffery Hedges.

##### **B. ADVISORY SERVICES OFFERED**

Prior to the Adviser-Client relationship, Tanager may offer a complimentary general consultation to discuss services available, to give a prospective client time to review services desired, and to determine the possibility of a potential relationship. Investment advisory services begin only after the client and Tanager formalize the relationship by setting forth the terms and conditions under which Tanager renders its services with a properly executed client Agreement (collectively the “Agreement”).

Tanager offers the following services:

##### **i. PORTFOLIO MANAGEMENT SERVICES**

At the beginning of the relationship Tanager will hold a meeting(s) with the client to collect pertinent data, identify goals, objectives, financial concerns and potential solutions. The result of these meetings will be a written financial plan that typically focuses on one or more specific areas such as financial and cash management, risk management, retirement planning, goal setting, wealth management, or other needs identified by the client or by our review of the client’s financial circumstances. At the conclusion of the meetings, Tanager may make recommendations regarding implementation of the financial strategies discussed.

After receiving the financial plan, Tanager and the client will create a customized portfolio that Tanager will manage for the client. Similar to the unique written financial plan, Tanager will work with the client to formulate an individualized portfolio based upon his/her objectives, time frame, risk parameters and other investment considerations. The portfolio may contain stocks, bonds, mutual funds, exchange traded funds or other investment products that are agreed up by the client. Tanager will actively management and review all clients accounts, which means he review the accounts on a quarterly basis.

##### **ii. RECOMMENDATION OF INDEPENDENT MANAGERS**

Tanager may recommend that clients authorize the active discretionary management of all or a portion of their assets by and/or among certain independent investment managers (“Independent Managers”), based upon the stated investment objectives of the client. The terms and conditions under which the client engages the Independent Managers are set forth in a separate written agreement between Tanager or the client and the designated Independent Managers. Tanager generally renders services to the client relative to the discretionary selection of Independent

Managers, and continues to monitor and review the client's account performance and investment objectives. Tanager receives its annual advisory fee which is based upon a percentage of the market value of the assets being managed both directly by Tanager and by the designated Independent Managers.

When selecting an Independent Manager for a client, Tanager reviews information about the Independent Manager such as its disclosure brochure and/or material supplied by the Independent Manager or independent third parties for a description of the Independent Manager's investment strategies, past performance and risk results to the extent available. Factors that Tanager considers in recommending an Independent Manager include the client's stated investment objectives, management style, performance, reputation, financial strength, reporting, pricing, and research. The investment management fees charged by the designated Independent Managers, together with the fees charged by the corresponding designated broker-dealer/custodian of the client's assets, are generally exclusive of, and in addition to, Tanager's investment advisory fee. The client may incur additional fees than those charged by Tanager, the designated Independent Managers, and corresponding broker-dealer and custodian.

In addition to Tanager's written disclosure brochure, the client also receives the written disclosure brochure of the designated Independent Managers

#### **C. TAILORED SERVICES**

As described above, Tanager's services are individualized to each client. As a result, clients may impose reasonable restrictions on the creation of the financial plan or the portfolio management, i.e. to avoid certain securities, asset classes or industries. All restriction requests must be provided in writing.

#### **D. WRAP PROGRAM**

Tanager does not sponsor in a wrap program. However, Tanager may recommend a wrap program sponsored by an Independent Management.

#### **E. CLIENT ASSETS MANAGED**

As of December 18, 2012, Tanager does not manage any client assets on a discretionary or non-discretionary basis.

### **5. FEES AND COMPENSATION**

#### **A. FEES**

The annual fee for Tanager's management services is:

<b>Custodian Reported Value</b>	<b>Annual Fee</b>
\$0 to \$750,000	1.25%
\$750,001 to \$3,000,000	1.00%
\$3,000,001 to \$7,500,000	.80%
\$7,500,001 to \$10,000,000	.70%

\$10,000,001 to \$15,000,000	.60%
\$15,000,001 to \$20,000,000	.50%
Above \$20,000,000	\$100,000 + .10%

There is a minimum annual fee of \$10,000 for all accounts.

Accounts held at Tanager's custodian but not managed by Tanager are charged at an annual rate of .25%.

#### B. HOW FEES ARE COLLECTED

The fee is calculated and collected in advance on a quarterly basis. The fee will be calculated on the Account's previous quarter-end value as reported by the Account's custodian. The fee can be negotiated at the sole discretion of Tanager.

Clients will be asked to authorize Tanager with the ability to deduct its fees directly from the clients' account. This authorization will apply to the firm's management fees only.

#### C. OTHER FEES AND EXPENSES

Tanager's fees are exclusive of brokerage commissions, transaction fees, and other related costs and expenses that are incurred by the client. Clients may incur certain charges imposed by custodians, brokers, third party investment and other third parties such as fees charged by managers, custodial fees, deferred sales charges, odd-lot differentials, transfer taxes, wire transfer and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. Mutual funds and exchange-traded funds also charge internal management fees, which are disclosed in a fund's prospectus. Such charges, fees and commissions are exclusive of and in addition to our fee and Tanager's will not receive any portion of these commissions, fees, and costs. For more information about our brokerage practice please see Item 12.A.

#### D. TERMINATION AND FEE REFUNDS

A client may cancel Tanager's management services for any reason during the first five (5) days from the date of signing the Investment Management Agreement and will receive a refund of 100% of all fees paid without cost or penalty. To cancel the Agreement, a client must notify Tanager and return any materials received to that date. After five (5) days, the Investment Management Agreement may be terminated at any time by giving ten (10) days written notice to Tanager Wealth Management LLP, Bridewell Gate, 9 Bridewell Place, London, EC4V 6AW. Because Tanager charges in advance, upon written notice of termination the client will receive a prorated refund of any unearned fees that were collected during the termination quarter.

#### E. OTHER SECURITIES COMPENSATION

One of Tanager's owners, Jeffery Hedges, is registered with Raymond James Investment Management. He can sell securities to Tanager's clients that are separate from the investment services described in Item 4, above. This causes a conflict of interest because he receives a commission from product sales through Raymond James that are separate from the investment

management fees outlined in Item 5, above. He attempts to mitigate the conflict of interest to the best of his ability by placing the client's interests ahead of his own through his fiduciary duty. Additionally, it is Tanager's policy that recommended product sales do not have to be purchased through him or any affiliate.

## **6. PERFORMANCE-BASED FEES AND SIDE BY SIDE MANAGEMENT**

Tanager does not charge any performance-based fees (fees based on a share of capital gains on or capital appreciation of the assets of a client).

## **7. TYPES OF CLIENTS**

Tanager's services are offered to individuals, high net-worth individuals, charities and pension and profit sharing plans. Tanager does not require a minimum account size. However the minimum annual fee for each account is \$4,000. Tanager reserves the right to waive this provision when aggregating accounts.

## **8. METHODS OF ANALYSIS, INVESTMENT STRATEGIES AND RISK OF LOSS**

### **A. METHODS OF ANALYSIS AND INVESTMENT STRATEGIES**

Tanager bases its financial plan on an Asset Allocation model. Asset Allocation is an investment strategy that aims to balance risk and reward by apportioning a portfolio's assets according to an individual's goals, risk tolerance and investment horizon among various asset classes. The asset classes typically include equities, fixed-income, and cash and equivalents. Each class has different levels of risk and return, so each will behave differently over time. The risk associated with asset allocation is that despite being diversified there is no guarantee an account will rise in value.

When selecting securities for a client's portfolio, Tanager uses fundamental analysis. Fundamental analysis is a technique that attempts to determine a security's value by focusing on underlying factors that affect a company's *actual* business and its future prospects. The analysis is performed on historical and present data. On a broader scope, one can perform fundamental analysis on industries or the economy as a whole. The term refers to the analysis of the economic well-being of a financial entity as opposed to only its price movements. The risk associated with fundamental analysis is that despite that appearance that a security is undervalued, it may not rise in value as predicted.

Tanager may purchase securities on margin. "Margin" is borrowing money from a client's broker to buy a stock and using the client's investment as collateral. Investors generally use margin to increase their purchasing power so that they can own more stock without fully paying for it. The more leverage employed, the more likely a substantial change will occur in the value of the accounts interests. If the securities in the account decline in value beyond a specific threshold the investor will be required to deposit more cash or selling securities.

## B. INVESTMENT RISKS

Tanager uses several types of securities in our clients' accounts. These securities may include, but are not limited to, the following: Bonds and other corporate debt instruments; Exchange Traded Funds; Mutual Funds such as Large Cap Growth, Large Cap Value, Mid Cap Growth, Mid Cap Value, Small Cap Growth, and Small Cap Value; Government Debt instruments including Treasury Bills and Municipal securities; Stocks; Preferred Stock; Money Market Funds and Cash.

All investments bear different types and degrees of risk and **investing in securities involves risk of loss that clients should be prepared to bear**. While Tanager uses investment strategies that are designed to provide appropriate investment diversification, some investments have significantly greater risks than others. Obtaining higher rates of return on investments entails accepting higher levels of risk. Recommended investment strategies seek to balance risks and rewards to achieve investment objectives. A clients needs to ask questions about risks he/she does not understand, Tanager would be pleased to discuss them.

Tanager strives to render its best judgment on behalf of our clients. Still, it cannot assure or guarantee clients that investments will be profitable or assure that no losses will occur in an investment portfolio. Past performance is an important consideration with respect to any investment or investment adviser but is not a reliable predictor of future performance. Tanager continuously strives to provide outstanding long-term investment performance, but many economic and market variables beyond its control can affect the performance of an investment portfolio.

An investment could lose money over short or even long periods. A client should expect his/her account value and returns to fluctuate within a wide range, like the fluctuations of the overall stock and bond markets. A client's account performance could be hurt by:

- **Stock market risk:** The chance that stock prices overall will decline. Stock markets tend to move in cycles, with periods of rising stock prices and periods of falling stock prices.
- **Interest rate risk:** The chance that bond prices overall will decline because of rising interest rates.
- **Manager risk:** The chance that the proportions allocated to the various securities will cause the client's account to underperform relevant to benchmarks or other accounts with a similar investment objective.
- **Liquidity Risk:** Liquidity risk exist when particular investments are difficult to purchase or sell, possibly preventing the ability to sell such illiquid securities at an advantageous time or price, or possibly requiring the client to dispose of other investments at unfavorable times or prices in order to satisfy its obligations.
- **International investing risk:** Investing in the securities of non-U.S. companies involve special risks not typically associated with investing in U.S. companies. Foreign securities

tend to be more volatile and less liquid than investments in U.S. securities, and may lose value because of adverse political, social or economic developments overseas or due to changes in the exchange rates between foreign currencies and the U.S. dollar. In addition, foreign investments are subject to settlement practices, as well as regulatory and financial reporting standards, that differ from those of the U.S.

- **Credit Risk:** There is a risk that issuers and counterparties will not make payments on securities and other investments, resulting in losses to the security or other investment. In addition, the credit quality of securities may be lowered if an issuer's financial condition changes.
- **Inflation Risk:** This is the risk that inflation will undermine the performance of your investment and/or the future purchasing power of your assets.
- **Use of Independent Managers:** Tanager may recommend the use of Independent Managers to its clients. Tanager will continue to do ongoing due diligence of such managers, but such recommendations rely, to a great extent, on the Independent Managers' ability to successfully implement their investment strategy. In addition, Tanager does not have the ability to supervise the Independent Managers on a day-to-day basis other than as previously described in response to Item 4, above.
- **Margin Interest Charges:** To the extent margin is available, such accounts must meet certain risk tolerance requirements. When margin is used to buy additional securities, the total value of the assets increases as a client's asset-based fees increase. In addition, a client may be charged margin interest on debit balances in his/her account. An increase in the asset-based fee the client pays may provide an incentive for the representative to recommend the use of margin.

## 9. DISCIPLINARY INFORMATION

Registered investment advisers are required to disclose all material facts regarding any legal or disciplinary events within the past 10-years that would be material to your evaluation of Tanager or the integrity of its management.

Tanager has no information applicable to this Item because it has not been the subject of any administrative, civil, criminal, regulatory (SEC or State) or self-regulatory proceedings.

## 10. OTHER FINANCIAL INDUSTRY ACTIVITIES AND AFFILIATIONS

### A. BROKER-DEALER AFFILIATIONS

Tanager is not affiliated with a broker-dealer. However, as described in Item 5.E, above, one of Tanager's owners, Jeffery Hedges, is registered with Raymond James Investment Management.

### B. FUTURES/COMMODITIES FIRM AFFILIATION

Tanager is not affiliated with a futures/commodities firm.

### C. OTHER INDUSTRY AFFILIATIONS

Tanager does not have any other industry affiliates.

### D. SELECTION AND MONITORING OF THIRD PARTY INVESTMENT ADVISERS

Tanager's services include recommending and monitoring third party investment advisers. A detailed description of this service can be found under Item 4 – Advisory Services and Item 5 – Fees and Compensation.

## **11. CODE OF ETHICS, PARTICIPATION OR INTEREST IN CLIENT TRANSACTIONS AND PERSONAL TRADING**

### A. DESCRIPTION

Tanager's Code of Ethics establishes ideals for ethical conduct upon fundamental principles of openness, integrity, honesty, and trust. The Code of Ethics is available free of charge upon request by any client or prospective client.

Tanager's Code of Ethics covers all supervised persons and it describes its high standard of business conduct, and fiduciary duty to its clients. The Code of Ethics includes provisions relating to the confidentiality of client information, a prohibition on insider trading, a prohibition of rumor mongering, restrictions on the acceptance of significant gifts and the reporting of certain gifts and business entertainment items, and personal securities trading procedures, among other things. All supervised persons must acknowledge the terms of the Code of Ethics annually, or as amended.

### B. MATERIAL INTEREST IN SECURITIES

Tanager does not have a material interest in any securities. Additionally, it is Tanager's policy that it will not affect any principal or agency cross securities transactions for client accounts. Tanager will also not cross trades between client accounts. Principal transactions are generally defined as transactions where an adviser, acting as principal for its own account or the account of an affiliated broker-dealer, buys from or sells any security to any advisory client. A principal transaction may also be deemed to have occurred if a security is crossed between an affiliated hedge fund and another client account. An agency cross transaction is defined as a transaction where a person acts as an investment adviser in relation to a transaction in which the investment adviser, or any person controlled by or under common control with the investment adviser, acts as broker for both the advisory client and for another person on the other side of the transaction. Agency cross transactions may arise where an adviser is dually registered as a broker-dealer or has an affiliated broker-dealer.

### C. INVESTING IN OR RECOMMENDING THE SAME SECURITIES

Tanager and its associated persons, may, from time to time, buy or sell for their own accounts securities that are the same as, similar to, or different than those that his clients purchase or sell. Differences can arise due to variations in personal goals, investment horizons, risk tolerance, and

the timing of purchases and sales. The securities traded are typically broadly traded, large-scale securities (not penny stocks) and/or mutual funds in which proprietary trades will not affect market prices. Nonetheless, client transactions will precede those orders placed for any proprietary trades. Tanager and its Associated Persons are aware of their fiduciary duty to his clients and the prohibitions against the use of any insider information. Tanager keeps records of all associates' proprietary trading activities and makes them available to regulators to review on the premises. Whenever Tanager deems that there may appear to be a conflict of interest, Tanager will inform affected clients of the holdings involved prior to placing any orders.

## **12. BROKERAGE PRACTICES**

### **A. RECOMMENDATION CRITERIA**

When Tanager recommends custodians, it will seek broker-dealers who offer competitive commission costs together with reliable services. A client's choice of another broker-dealer is acceptable if proven feasible. Tanager recognize its fiduciary responsibility in negotiating brokerage commissions, assuring best execution practices and assuring adequate investment availability/inventory on behalf of its clientele. Tanager does not receive compensation with respect to execution of these trades. In some instances, a client may incur a ticket charge for the sale or purchase of securities. Tanager will ensure all broker-dealers and custodians are properly registered in the state of where the client resides prior to making the recommendation.

#### **i. RESEARCH AND SOFT DOLLARS**

"Soft dollars" are defined as a form of payment investment firms can use to pay for goods and services such as news subscriptions or research. When an investment firm gives its business to a particular brokerage firm, the brokerage firm in return can agree to use some of its revenue to pay for these types of services. Tanager typically receives the following benefits from the brokerage firm that include assistance with practice management and assistance with the management of client accounts, including but not limited to: (a) receipt of duplicate client confirmations; (b) receipt of duplicate client statements; (c) access to a trading desk serving investment adviser firm participants exclusively, and providing research, pricing information, and other market data; (d) access to the investment advisor portion of their web sites which includes practice management articles, compliance updates, and other financial planning related information and research materials; (e) access to other vendors (such as insurance or compliance providers, or providers of research or other materials) on a discounted fee basis through discounts arranged by the custodians; (f) permitting the Adviser to access an electronic communication network for client order entry and to access a client's account information and which may otherwise assist us with our back-office functions, including recordkeeping and client reporting; (g) conferences that our associated persons may attend (with no or discounted registration and travel fees) and receive continuing education credits for attending; and (h) additional training on issues such as practice management, marketing, investment theory, financial planning, business succession, regulatory compliance, and information technology.

Generally, many of these services are used to service all or a substantial number of client's accounts. Educational, research, or other services provided by custodian or mutual fund companies may benefit all of our clients, or only some.

The receipt of soft dollars creates a conflict of interest because it gives Tanager an incentive to recommend a broker-dealer based on its interest in receiving the research, products and services rather than on its clients' interests in receiving favorable execution. Tanager attempts to mitigate the conflict of interest by using the benefits of the research, products and services received with all of its clients. Additionally, Tanager attempts to mitigate the conflict of interest to the best of its ability by placing the client's interests ahead of its own through its fiduciary duty.

ii. BROKERAGE FOR CLIENT REFERRALS

Tanager does not receive client referrals from brokers.

iii. DIRECTED BROKERAGE

Some clients may direct Tanager to a specific broker-dealer to execute securities transactions for their accounts. When so directed, Tanager may not be able to effectively negotiate lower brokerage commissions or achieve best execution on clients' transactions. This can result in substantially higher fees, charges or dealer concessions in one or more transactions for the clients' account because Tanager cannot negotiate favorable prices.

B. TRADING POLICIES

On occasions when selling the same security for multiple accounts, Tanager may aggregate orders to a single block order against an average price account. The average price account will allocate proportionate shares to each client's account.

**13. REVIEW OF ACCOUNTS**

A. PERIODIC REVIEWS

Each investment adviser representative reviews the asset allocations of their clients' accounts on a quarterly basis. They also meet (either in person or by telephone) with clients to discuss their accounts on an annual basis.

B. OTHER REVIEWS

Additional reviews are conducted periodically depending on market conditions, economic or political events, or by changes in a client's financial situation (such as retirement, termination of employment, physical move or inheritance).

C. REPORTS

All clients will receive at least quarterly statements from their custodian. Tanager urges clients to carefully review such statements.

## **14. CLIENT REFERRALS AND OTHER COMPENSATION**

### **A. OTHER COMPENSATION**

Tanager does not receive extra compensation or any other economic benefit for providing investment advice or other advisory services to clients.

### **B. CLIENT REFERRALS**

Tanager does not pay for client referrals or use solicitors.

## **15. CUSTODY**

All client funds, securities and accounts are held at third-party custodians. Tanager does not take possession of a client's securities. Clients should receive quarterly statements from the broker dealer, bank or other qualified custodian that holds and maintains client's investment assets. Tanager urges clients to carefully review such statements.

## **16. INVESTMENT DISCRETION**

Tanager also offers nondiscretionary management services. A non-discretionary investment account means the client retains full discretion to supervise, manage, and direct the assets of the account. The client maintains full power and authority to purchase, sell, invest, reinvest, exchange, convert, and trade the assets in the Account in any manner deemed appropriate and to place all orders for the purchase and sale of Account assets with or through brokers, dealers, or issuers selected by the client. The client is free to manage the account with or without the recommendation of Tanager and all with or without prior consultation with Tanager.

## **17. VOTING CLIENT SECURITIES**

Tanager will not be responsible for responding to proxies for securities held in clients' accounts. Proxy solicitation materials will be forwarded to clients for response and voting. In the event a client has a question about a proxy solicitation, the client should contact his/her investment adviser representative.

## **18. FINANCIAL INFORMATION**

### **A. BALANCE SHEET**

Tanager does not require or solicit prepayment of more than \$1,200 in fees per client, six months or more in advance. Therefore, this section is not applicable.

### **B. FINANCIAL CONDITION**

Registered investment advisers are required in this Item to provide you with certain financial information or disclosures about our financial condition when it is impaired. Tanager does not have a financial commitment that impairs its ability to service its clients.

### **C. BANKRUPTCY**

Tanager has not been the subject of a bankruptcy proceeding.
