8b: Investment Strategies

The Fund's investment advisor, Presidio Capital Investments, LLC (the "Advisor"), seeks to achieve the Fund's investment objective by investing in a globally diversified portfolio of (i) domestic and foreign equity securities, (ii) domestic and foreign government and corporate debt securities, including Exchange Traded Notes ("ETNs") and "junk bonds" and (iii) options and futures on currencies and commodities. The Fund may invest in these securities directly or indirectly through investments in other investment companies including Exchange Traded Funds ("ETFs"). The Fund's investment policy may be changed without shareholder approval upon prior written notice to shareholders.

The Advisor's methodology is based upon analysis that seeks to measure the risk and volatility of asset classes, macroeconomic factors of relative valuations between asset classes, world economies, economic sectors, and individual securities within those asset classes and industry sectors relative to the potential and expected return of those asset classes and individual securities within asset classes over comparable time periods. The Fund's portfolio is constructed using a multi-faceted analysis designed to contribute to and balance the level of risk and return of the Fund's portfolio.

8c: Risk of Loss

All investments include a risk of loss. In addition, as recent global and domestic economic events have indicated, performance of any investment is not guaranteed. Except as may otherwise be provided by law, we will not be liable for (a) any loss suffered by reason of any investment decision made or other action taken or omitted in good faith by PCI with that degree of care, skill, prudence and diligence under the circumstances that a prudent person acting in a fiduciary capacity would use; (b) any loss arising from our adherence to PMSFX instructions; or (c) any act or failure to act by a custodian of the account.
