

**Supplement dated February 14, 2013
To June 2012 Form ADV Disclosure Brochure of
Legg Mason Private Portfolio Group, LLC and its Affiliated Sub-Advisers**

For Clients with Western Intermediate Corporate Bond Portfolios

This document supplements the accompanying Form ADV Disclosure Brochure of Legg Mason Private Portfolio Group, LLC (“LMPPG”) and its affiliated sub-advisers, including Western Asset Management Company (“Western Asset”). Any inconsistent disclosure in such brochure is superseded by the contents of this document.

Western Asset Intermediate Corporate Bond

The Western Asset Intermediate Corporate Bond portfolios seek to produce total returns over complete market cycles that exceed appropriate benchmark returns. As part of this total return investment approach, the portfolios also seek to preserve principal. Western Asset manages these portfolios based on analysis of specific fundamental factors. The portfolio managers are responsible for monitoring daily market activity in an attempt to provide incremental return exceeding that expected under certain buy and hold and random trading strategies. These portfolios involve investments primarily in intermediate-term, investment grade (at time of purchase) corporate bonds with varying maturities. Intermediate Corporate Bond accounts may also include investments in U.S. federal agency securities, U.S. Treasury securities and U.S. dollar-denominated fixed income securities (issued in the United States) of non-U.S. corporate issuers. Intermediate Corporate Bond portfolios typically have a duration target of within +/-20% of their benchmark’s duration.

Risks. The main risks associated with Western Asset Intermediate Corporate Bond portfolios are General Investment Risk, Credit Risk, Interest Rate Risk and Non-U.S. Investment Risk. See Appendix B for explanations of these risks.

The minimum account size for Western Asset Intermediate Corporate Bond portfolios is \$250,000 although LMPPG in its discretion may waive the minimum for any one or more clients. LMPPG’s fee for managing Western Asset Intermediate Corporate Bond portfolios is negotiated with the Sponsor Firm based upon a variety of factors, including the size of client accounts, the nature and extent of client customization requirements and the specific services to be provided by LMPPG and Western Asset. In the case of LMPPG-Implemented Programs, the Sponsor Firm generally pays LMPPG fees within the following fee rate range: .20% - .35%.

The Western Asset portfolio managers for the Western Asset Intermediate Corporate Bond strategy are: Eugene J. Kirkwood and Stephen Sibley.

For biographical information of each portfolio manager, please see Appendix C of the Brochure.
