## Item 4: Advisory Business

### A. Description of the Advisory Firm

Gold Investment Management Ltd. is a Corporation organized in Alberta, Canada.

This firm has been in business since August 9, 2007, and the principal owner is Gold Investment Holdings Ltd., which is owned by Jonathan Andrew Lewis Goldenstein, CFA and Christine Ruth Gold.

### B. Types of Advisory Services

Gold Investment Management Ltd. (hereinafter "GIM") offers the following services to advisory clients:

#### *Investment Supervisory Services*

GIM offers ongoing portfolio management services based on the individual goals, objectives, time horizon, and risk tolerance of each client. GIM creates an Investment Policy Statement for each client, which outlines the client's current situation (income, tax levels, and risk tolerance levels) and then constructs a plan (the Investment Policy Statement) to aid in the selection of a portfolio that matches each client's specific situation. Investment Supervisory Services include, but are not limited to, the following:

- Investment strategy
- Asset allocation
- Risk tolerance
- Personal investment policy
- Asset selection
- Regular portfolio monitoring

GIM evaluates the current investments of each client with respect to their risk tolerance levels and time horizon. GIM will request discretionary authority from clients in order to select securities and execute transactions without permission from the client prior to each transaction. Risk tolerance levels are documented in the Investment Policy Statement, which is given to each client.

#### *Services Limited to Specific Types of Investments*

GIM generally limits its money management to mutual funds, equities, bonds, fixed income, debt securities, ETFs, REITs, and government securities. GIM may use other securities as well to help diversify a portfolio when applicable.

### **C. Client Tailored Services and Client Imposed Restrictions**

GIM offers the same suite of services to all of its clients. However, specific client financial plans and their implementation are dependent upon the client Investment Policy Statement which outlines each client's current situation (income, tax levels, and risk tolerance levels) and is used to construct a client specific plan to aid in the selection of a portfolio that matches restrictions, needs, and targets.

Clients may impose restrictions in investing in certain securities or types of securities in accordance with their values or beliefs. However, if the restrictions prevent GIM from properly servicing the client account, or if the restrictions would require GIM to deviate from its standard suite of services, GIM reserves the right to end the relationship.

### **D. Wrap Fee Programs**

A wrap fee program is an investment program where the investor pays one stated fee that includes management fees, transaction costs, fund expenses, and any other administrative fees. GIM DOES NOT participate in any wrap fee programs.

### **E. Amounts Under Management**

GIM has the following assets under management:

<b>Discretionary Amounts:</b>	<b>Non-discretionary Amounts:</b>	<b>Date Calculated:</b>
\$258,600.00*	\$0.00	12/31/2012

\* Amounts in Canadian dollars, but the US\$ was par with the CAD\$, so this total therefore also represents US\$Equivalent.

## **Item 5: Fees and Compensation**

### **A. Fee Schedule**

#### ***Investment Supervisory Services Fees***

<b>Total Assets Under Management</b>	<b>Annual Fee</b>
\$1 - \$100,000	2.25%
\$100,001 - \$500,000	1.50%
\$500,001 - \$1,000,000	1.25%
\$1,000,001 - \$5,000,000	1.00%
Above \$5,000,000	0.75%

These fees are negotiable depending upon the needs of the client and complexity of the situation, and the final fee schedule is attached as Exhibit II of the Investment Advisory Contract. Fees are paid monthly in arrears, and clients may terminate their contracts with thirty days' written notice. Because fees are charged in arrears, no refund policy is necessary. Clients may terminate their accounts without penalty within 5 business days of signing the advisory contract.

Advisory fees are withdrawn directly from the client's accounts with client written authorization.

### **B. Payment of Fees**

#### ***Payment of Investment Supervisory Fees***

Advisory fees are withdrawn directly from the client's accounts with client written authorization. Fees are paid monthly in arrears.

### **C. Clients Are Responsible For Third Party Fees**

Clients are responsible for the payment of all third party fees (i.e. custodian fees, brokerage fees, mutual fund fees, transaction fees, etc.). Those fees are separate and distinct from the fees and expenses charged by GIM. Please see Item 12 of this brochure regarding broker/custodian.

### **D. Prepayment of Fees**

GIM collects its fees in arrears. It does not collect fees in advance.

### **E. Outside Compensation For the Sale of Securities to Clients**

Neither GIM nor its supervised persons accept any compensation for the sale of securities or other investment products, including asset-based sales charges or services fees from the sale of mutual funds.

## **Item 6: Performance-Based Fees and Side-By-Side Management**

GIM does not accept performance-based fees or other fees based on a share of capital gains on or capital appreciation of the assets of a client.

## **Item 7: Types of Clients**

GIM generally provides management supervisory services to the following types of clients:

- ❖ Individuals
- ❖ High-Net-Worth Individuals
- ❖ Pension and Profit Sharing Plans
- ❖ Trusts, Estates, or Charitable Organizations
- ❖ Corporations or Business Entities

### ***Minimum Account Size***

There is an account minimum, \$50,000, which may be waived by the investment advisor, based on the needs of the client and the complexity of the situation.

## **Item 8: Methods of Analysis, Investment Strategies, and Risk of Investment Loss**

### **A. Methods of Analysis and Investment Strategies**

#### ***Methods of Analysis***

GIM's primary method of analysis includes fundamental analysis.

**Fundamental analysis** involves the analysis of financial statements, the general financial health of companies, and/or the analysis of management or competitive advantages.

#### ***Investment Strategies***

GIM uses long term trading, short term trading, margin transactions, and options writing (including covered options, uncovered options, or spreading strategies).

**Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.**

## **B. Material Risks Involved**

### ***Methods of Analysis***

**Fundamental analysis** concentrates on factors that determine a company's value and expected future earnings. This strategy would normally encourage equity purchases in stocks that are undervalued or priced below their perceived value. The risk assumed is that the market will fail to reach expectations of perceived value.

### ***Investment Strategies***

Long term trading is designed to capture market rates of both return and risk. Frequent trading, when done, can affect investment performance, particularly through increased brokerage and other transaction costs and taxes.

Short term trading, margin transactions, and options writing generally hold greater risk and clients should be aware that there is a material risk of loss using any of those strategies.

**Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.**

## **C. Risks of Specific Securities Utilized**

GIM generally seeks investment strategies that do not involve significant or unusual risk beyond that of the general domestic and/or international equity markets. However, it will utilize margin transactions and options writing which generally hold greater risk of capital loss and clients should be aware that there is a material risk of loss using any of those strategies.

**Mutual Funds:** Investing in mutual funds carries the risk of capital loss. Mutual funds are not guaranteed or insured by the FDIC or any other government agency. You can lose money investing in mutual funds. All mutual funds have costs that lower investment returns. They can be of bond "fixed income" nature (lower risk) or stock "equity" nature (mentioned above).

**Equity** investment generally refers to buying shares of stocks by an individual or firms in return for receiving a future payment of dividends and capital gains if the value of the stock increases. There is an innate risk involved when purchasing a stock that it may decrease in value and the investment may incur a loss.

**Treasury Inflation Protected/Inflation Linked Bonds:** The Risk of default on these bonds is dependent upon the U.S. Treasury defaulting (extremely unlikely); however, they carry a potential risk of losing share price value, albeit rather minimal.

**Fixed Income** is an investment that guarantees fixed periodic payments in the future that may involve economic risks such as inflationary risk, interest rate risk, default risk, repayment of principal risk, etc.

**Debt securities** carry risks such as the possibility of default on the principal, fluctuation in interest rates, and counterparties being unable to meet obligations.

**Stocks & Exchange Traded Funds (ETF):** Investing in stocks & ETF's carries the risk of capital loss (sometimes up to a 100% loss in the case of a stock holding bankruptcy). Investments in these securities are not guaranteed or insured by the FDIC or any other government agency.

**REITs** have specific risks including valuation due to cash flows, dividends paid in stock rather than cash, and the payment of debt resulting in dilution of shares.

**Long term trading** is designed to capture market rates of both return and risk. Due to its nature, the long-term investment strategy can expose clients to various other types of risk that will typically surface at various intervals during the time the client owns the investments. These risks include but are not limited to inflation (purchasing power) risk, interest rate risk, economic risk, market risk, and political/regulatory risk.

**Short term trading** risks include liquidity, economic stability and inflation.

**Margin transactions** use leverage that is borrowed from a brokerage firm as collateral.

**Options writing** involve a contract to purchase a security at a given price, not necessarily at market value, depending on the market.

**Past performance is not a guarantee of future returns. Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.**

## **Item 9: Disciplinary Information**

### **A. Criminal or Civil Actions**

There are no criminal or civil actions to report.

### **B. Administrative Proceedings**

There are no administrative proceedings to report.

### **C. Self-regulatory Organization (SR) Proceedings**

There are no self-regulatory organization proceedings to report.

## **Item 10: Other Financial Industry Activities and Affiliations**

### **A. Registration as a Broker/Dealer or Broker/Dealer Representative**

Neither GIM nor its representatives are registered as or have pending applications to become a broker/dealer or as representatives of a broker/dealer.

### **B. Registration as a Futures Commission Merchant, Commodity Pool Operator, or a Commodity Trading Advisor**

Neither GIM nor its representatives are registered as or have pending applications to become a Futures Commission Merchant, Commodity Pool Operator, or a Commodity Trading Advisor.

### **C. Registration Relationships Material to this Advisory Business and Possible Conflicts of Interests**

Neither GIM nor its representatives have any material relationships to this advisory business that would present a possible conflict of interest.

### **D. Selection of Other Advisors or Managers and How This Adviser is Compensated for Those Selections**

GIM does not utilize nor select other advisors or third party managers. All assets are managed by GIM management.

## **Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading**

### **A. Code of Ethics**

We have a written Code of Ethics that covers the following areas: Prohibited Purchases and Sales, Insider Trading, Personal Securities Transactions, Exempted Transactions, Prohibited Activities, Conflicts of Interest, Gifts and Entertainment, Confidentiality, Service on a Board of Directors, Compliance Procedures, Compliance with Laws and Regulations, Procedures and Reporting, Certification of Compliance, Reporting Violations, Compliance Officer Duties, Training and Education, Recordkeeping, Annual Review, and Sanctions. Our Code of Ethics is available free upon request to any client or prospective client.

### **B. Recommendations Involving Material Financial Interests**

GIM does not recommend that clients buy or sell any security in which a related person to GIM or GIM has a material financial interest.

### **C. Investing Personal Money in the Same Securities as Clients**

From time to time, representatives of GIM may buy or sell securities for themselves that they also recommend to clients. This may provide an opportunity for representatives of GIM to buy or sell the same securities before or after recommending the same securities to clients resulting in representatives profiting off the recommendations they provide to clients. Such transactions may create a conflict of interest. GIM will always document any transactions that could be construed as conflicts of interest and will always transact client business before their own when similar securities are being bought or sold.

### **D. Trading Securities At/Around the Same Time as Clients' Securities**

From time to time, representatives of GIM may buy or sell securities for themselves at or around the same time as clients. This may provide an opportunity for representatives of GIM to buy or sell securities before or after recommending securities to clients resulting in representatives profiting off the recommendations they provide to clients. Such transactions may create a conflict of interest. GIM will always transact client's transactions before its own when similar securities are being bought or sold.

## **Item 12: Brokerage Practices**

### **A. Factors Used to Select Custodians and/or Broker/Dealers**

The Custodian, Trade PMR, was chosen based on their relatively low transaction fees and access to mutual funds and ETFs. GIM will never charge a premium or commission on transactions, beyond the actual cost imposed by Custodian.

#### ***1. Research and Other Soft-Dollar Benefits***

GIM receives research, products, or other services from its broker/dealer or another third-party in connection with client securities transactions ("soft dollar benefits"). There is no minimum client number or dollar number that GIM must meet in order to receive free research from the custodian or broker/dealer. There is no incentive for GIM to direct clients to this particular broker-dealer over other broker-dealers who offer the same services. However, because this firm does not have to produce or pay for services or products it has an incentive to choose a custodian that provides those services based on its interests rather than the clients' interests. The first consideration when recommending broker/dealers to clients is best execution. GIM always acts in the best interest of the client.

#### ***2. Brokerage for Client Referrals***

GIM receives no referrals from a broker-dealer or third party in exchange for using that broker-dealer or third party.

### **3. *Clients Directing Which Broker/Dealer/Custodian to Use***

GIM will not allow clients to direct GIM to use a specific broker-dealer to execute transactions. Clients must use GIM recommended custodian (broker-dealer).

#### **B. Aggregating (Block) Trading for Multiple Client Accounts**

GIM maintains the ability to block trade purchases across accounts. Block trading may benefit a large group of clients by providing GIM the ability to purchase larger blocks resulting in smaller transaction costs to the client. Declining to block trade can cause more expensive trades for clients.

## **Item 13: Reviews of Accounts**

#### **A. Frequency and Nature of Periodic Reviews and Who Makes Those Reviews**

A cursory review of each client account occurs every morning and an in depth review occurs monthly by Jonathan Andrew Lewis Goldenstein, President. Jonathan Andrew Lewis Goldenstein is the chief advisor and is instructed to review clients' accounts with regards to their investment policies and risk tolerance levels. All accounts at GIM are assigned to this reviewer.

#### **B. Factors That Will Trigger a Non-Periodic Review of Client Accounts**

Reviews may be triggered by material market, economic or political events, or by changes in client's financial situations (such as retirement, termination of employment, physical move, or inheritance).

#### **C. Content and Frequency of Regular Reports Provided to Clients**

Each client will receive at least quarterly from the custodian, a written report that details the client's account including assets held and asset value which will come from the custodian.

## **Item 14: Client Referrals and Other Compensation**

### **A. Economic Benefits Provided by Third Parties for Advice Rendered to Clients (Includes Sales Awards or Other Prizes)**

GIM does not receive any economic benefit, directly or indirectly from any third party for advice rendered to GIM clients.

### **B. Compensation to Non – Advisory Personnel for Client Referrals**

GIM may compensate referrals with up to a 50% referral fee for directing clients to GIM.

## **Item 15: Custody**

GIM, with client written authority, has limited custody of client's assets through direct fee deduction of GIM's Fees only. If the client chooses to be billed directly by Trade PMR, GIM would have constructive custody over that account and must have written authorization from the client to do so. Clients will receive all required account statements and billing invoices that are required in each jurisdiction, and they should carefully review those statements for accuracy.

## **Item 16: Investment Discretion**

For those client accounts where GIM provides ongoing supervision, the client has given GIM written discretionary authority over the client's accounts with respect to securities to be bought or sold and the amount of securities to be bought or sold. Details of this relationship are fully disclosed to the client before any advisory relationship has commenced. The client provides GIM discretionary authority via a limited power of attorney in the Investment Advisory Contract and in the contract between the client and the custodian.

## **Item 17: Voting Client Securities (Proxy Voting)**

GIM will accept voting authority for client securities in certain cases. When GIM does accept voting authority for client securities, it will always seek to vote in the best interests of its clients. GIM does not maintain preapproved voting guidelines but relies on the investment committee to determine the appropriate course of action in voting client securities that is in the best interest of the client. Clients may direct GIM on how to vote client securities by communicating their wishes in writing or electronically to GIM. When voting client proxies the investment committee will always hold the interests of the clients above its own interests. Clients of GIM may obtain the voting record of GIM on client securities by contacting GIM at phone number or e-mail address listed on the cover page of this brochure. Clients may obtain a copy of GIM's proxy voting policies and procedures upon request.

## **Item 18: Financial Information**

### **A. Balance Sheet**

GIM does not require nor solicit prepayment of more than \$1,200 in fees per client, six months or more in advance and therefore does not need to include a balance sheet with this brochure.

### **B. Financial Conditions Reasonably Likely to Impair Ability to Meet Contractual Commitments to Clients**

Neither GIM nor its management have any financial conditions that are likely to reasonably impair our ability to meet contractual commitments to clients.

### **C. Bankruptcy Petitions in Previous Ten Years**

GIM has not been the subject of a bankruptcy petition in the last ten years.
