The Manager does not charge any performance-based fees.

Item 7 – Types of Clients

The sole client of Manager is the FEG Private Opportunities Fund, L.P.; a Delaware limited partnership designed for sophisticated investors.

Item 8 – Methods of Analysis, Investment Strategies and Risk of Loss

Investment Strategy

The Manager seeks to build a diversified portfolio of between approximately 15 and 20 private investment funds across three broad private capital sectors, global private equity, special situations, and real assets.

Methods of Analysis

The manager incorporates a research process for investment funds that has been developed and refined by FEG's research department over the past 20 years. The process for sourcing, screening, and selecting private investment funds was created using this research platform and has been further refined over the past 12 years.

The research process is collaborative in that the Manager and FEG's research department share thoughts and ideas regarding potential investment funds and address any questions or concerns throughout the process. In addition to weekly research meetings, which are attended by the entire research department, the Manager meets on a regular basis for a focused review of current investment opportunities, work flow, and relevant issues.

Investment funds that meet a minimum quality threshold on organizational structure, personnel, investment philosophy, and performance must also demonstrate six key attributes to be recommended for the Company. The research department uses a combination of on-site meetings, in-office interviews, and conference calls to assess each manager.

The Manager, with oversight from the Company's Investment Policy Committee, manages the entire manager review process, including pre-investment sourcing, due diligence, and post-investment monitoring. The research process occurs in conjunction with the portfolio construction process, in which the Manager selects the appropriate mix of investment opportunities for the Company.

Risk Factors

The purchase of interests in private equity funds involves certain risks and is suitable only for persons of substantial financial means who have no need for liquidity in their investment, and who can bear the risk of the potential loss of their entire investment. No guarantee or representation is made that the investment program of the Company or any investment fund will be successful, that the various investment funds selected will produce positive returns, or that the Company will achieve its investment objectives.

Investors in the Company should refer to the applicable Private Placement Memorandum and Offering Documents for further information concerning risks.
