Item 4: Advisory Business

Description of our Firm:

Founded in 2010, F-Squared Retirement Solutions, LLC (hereinafter F-Squared) is an index manager and SEC registered boutique investment management firm located in Newton, Massachusetts, that provides investment advisory and portfolio management services for a wide range of Clients.

F-Squared Retirement Solutions is a wholly owned subsidiary of F-Squared Investment Management, LLC. F-Squared Investment Management, LLC is a privately owned company with no individual shareholder owning more than 25% of the company.

Types of Advisory Services We Offer:

F-Squared provides active index solutions and offers investment management services to a wide range of Clients. We offer investment solutions using our AlphaSector™ Strategies:

- AlphaSector™ Strategies: Investment portfolios designed to create long-term value by seeking to limit losses in down markets, while participating when markets are positive. These portfolios track our family of AlphaSector Indexes, and are actively offered to Advisors, Brokers, Wealth Managers, Family Offices, Trust Companies, and Institutional Investors. Individual investors can access the strategies through one of our sub-advised mutual funds or our many distribution partners. Investment portfolios are delivered in multiple formats and through many operational means to meet the needs of our Clients.

Separately Managed Accounts, Model Portfolios, and Institutional Separate Accounts

F-Squared creates multiple investment strategies eligible for sale as Separately Managed Accounts (SMAs), Institutional Separate Accounts, or Model Portfolios. These strategies typically track one of our AlphaSector Indexes.

Sub-Advisory Services

F-Squared offers sub-advisory services for collective trust funds eligible to qualified group retirement plans, as well as mutual funds targeting the Defined Contribution marketplace. In addition, F-Squared creates multiple investment strategies eligible for sale as sub-advisory solutions to exchange traded funds (ETFs) and variable annuities (VAs). The fees charged by F-Squared for sub-advisory solutions for use within commingled vehicles are negotiated.

Information concerning the Sub-Advisory relationship, including a description of the services provided by management and the fees charged for those services, is generally contained in each investment vehicle's prospectus.

The minimum investment for these services is \$25 million.

AlphaSector Indexes

F-Squared has created a suite of investments that are designed to meet the REAL needs of investors: relative performance in rising markets, and significant risk controls in declining markets. Limiting losses has been proven to both improve wealth creation and increase the success rate of systematic withdrawal programs for either individual or Institutional Investors.

All of the AlphaSector Indexes utilize exchange traded funds (ETFs) with all security decisions made with the intent of limiting losses during market declines, in particular during significant market declines. In periods of extreme market distress, a partial or complete allocation to short-term bonds (a “cash equivalent” investment) is allowed. A cash equivalent is viewed as the safe haven in times of significant bear markets. There are currently over 30 standard and/or customized AlphaSector Indexes.

Tailored Advisory Services:

F-Squared is an index provider and model manager, offering investment strategies that track our AlphaSector. Although our primary business is that of index provider and model manager, F-Squared may offer custom advisory services to Institutional Investors. As the majority of our investment services involve model management, we generally do not allow Clients to impose restrictions on investing in certain securities or types of securities.

Wrap Fee Programs:

F-Squared does not currently participate in any wrap fee programs by providing portfolio management services.

Assets under Management or Advisement:

As of 12/31/2012, the total assets under management or advisement for F-Squared are as follows:

<i>Discretionary:</i>	\$711,259,040
<i>Non-Discretionary:</i>	\$ 0
<i>Total:</i>	\$711,259,040

Item 5: Fees and Compensation

Fee Schedule:

F-Squared receives an investment management fee for its advisory services based on the market value of the assets under advisement. The most typical pricing options for providing SMAs or Model Portfolios, excluding operational costs, are as follows (although fees may be subject to negotiation):

<u>ASSET LEVEL</u>	<u>ALPHASECTOR STRATEGIES (MONTHLY)</u>
Firm asset levels up to \$25 million:	40bp (0.40%)
Firm asset levels > \$25 million and < \$100 million:	35bp (0.35%)
Firm asset levels > \$100 million:	30bp (0.30%)

ASSET LEVEL

Firm asset levels up to \$100 million:

Firm asset levels > \$100 million:

ALPHA SECTOR PREMIUM STRATEGIES (WEEKLY)

60bp (0.60%)

55bp (0.55%)

The fees charged by F-Squared for the BetaHedge™ Overlay strategy is typically 10bp (0.10%).

It is F-Squared policy not to take custody of Clients' securities, other than for a limited number of related "Friends and Family" accounts. As such, F-Squared is generally not granted access to our Clients' accounts and does not have permission to withdraw, transfer, or otherwise move funds or cash from any Client account. In a limited number of institutional accounts, where requested, a negotiated fee of up to 10 bps and/or a minimum fee of \$10,000 will be paid to F-Squared in order to perform trade execution on the portfolio.

How Fees are Paid:

F-Squared provides investment advisory services in the form of model portfolios or indices. Such arrangements are not uniform and fees are separately negotiated

Generally, firms are billed at the end of each quarter on any assets under management that utilize our investment strategies. Firms that utilize our investment strategies may choose different billing methods for applying fees to the underlying investors.

Other Types of Fees or Expenses:

In addition to the advisory fees charged by F-Squared Clients may also incur fees and expenses charged by custodians and imposed by financial intermediaries, including but not limited to any transaction charges imposed by a broker dealer with which an independent investment manager effects transactions for the Client's account(s). See item 12 which describes our brokerage practices and details the process for reviewing and recommending a broker dealer for Clients' transactions in applicable situations.

Costs of trading and operations for the SMA, Sub-Advisory and Model Portfolio are determined by the SMA or Sub-Advisory platform sponsor or trading platform. Fee collection schedules are typically assigned by the platform sponsor. These fees may be negotiable based on operational support and expected future asset growth.

All fees paid to F-Squared are for investment advisory services and are separate and distinct from the fees and expenses charged by the underlying Exchange Traded Funds used in our models. Sub-Advisory expenses are described in each vehicle's prospectus. Individuals should review these documents to fully understand the total amount of fees to be paid and evaluate the advisory services being provided.

Accordingly, Clients should review both the fees charged by the ETF's and the fees charged by F-Squared to fully understand the total amount of fees to be paid and evaluate the advisory services being provided.

Although F-Squared bills its Clients in arrears, some SMA Platforms or investment advisors that utilize our investment strategies may choose to bill the underlying investor in advance. Investors should refer to their investment advisor or SMA Platform provider for information on billing practices, and where applicable, their policy on refunds for "fees in advance" payment structures.

Neither F-Squared nor any of its supervised employees receive additional compensation for the sale of securities or other investment products to our Clients.

Item 6: Performance-Based Fees

F-Squared does not charge performance-based fees, other than for Clients utilizing the AlphaSector Hedged Portfolio Index strategy. The typical performance based fee is 20% of the quarterly return of the AlphaSector Hedge Portfolio Index above 2%.

Item 7: Types of Clients

F-Squared provides investment advisory services to a number of Clients including wealth management and investment advisory firms, registered investment companies, pensions, endowments, trusts, other business entities and bank collective trusts.

There are minimums for accounts, varying by account type.

Although the minimum relationship for F-Squared to enter into an agreement with an Institutional Account or an SMA provider is \$10,000,000, the minimums for the end Client are typically determined by the SMA platform sponsor or operational provider, and can range from \$50,000 to \$250,000 for individual accounts. Costs of trading and operations for the SMA and Model Portfolio are determined by the SMA platform sponsor or trading platform. Fee collection schedules are typically determined by the platform sponsor. These fees may be negotiable based on operational support and expected future asset growth.

F-Squared creates multiple investment strategies eligible for sale as sub-advisory solutions to collective trusts, mutual funds, exchange traded funds (ETFs) and variable annuities (VAs). The fees charged by F-Squared for sub-advisory solutions for use within commingled vehicles are negotiated. The minimums for these services are \$25 million.

F-Squared may waive any and all minimum account requirements at their sole discretion.

Item 8: Method of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis:

The AlphaSector Strategies use a purely technical analysis model that seeks to modestly outperform its assigned benchmark in growth markets and seeks to significantly outperform its benchmark during bear markets. The model is based on three primary components:

- Historical Price Return
- Volatility
- Changing Levels of Volatility

F-Squared Investments employs disciplined, quantitative models to deliver the AlphaSector series of investment strategies. The AlphaSector models cover several major long-only asset classes: US Equity, International, Fixed Income, and Real Assets (Gold and Real Estate), plus asset allocation strategies that combine various combinations of these core asset classes. F-Squared also delivers a wide variety of customized or hybrid investment solutions. The goal of the strategies is to seek to provide a “full market solution with embedded downside risk management.” During neutral and bull markets, the strategies seek to provide exposure to the target asset class, delivering participation in market returns. The embedded downside risk management engages in periods of dangerous or declining markets. When a serious market decline

occurs, the strategies have the ability to move partly or wholly to cash or a cash equivalent. This flexibility to move to cash as a means of de-risking investment portfolios is critical to delivering downside protection.

To drive the decision and portfolio process, the algorithm analyzes data on price trends and volatility in the relevant sectors, asset classes or countries. These investments are defined by exchange traded funds (“ETFs”). The algorithm assesses ETF for potential risk of loss. The inputs and rules are customized for each asset class, but the investment philosophy is consistent.

Outside Providers:

F-Squared also receives data input into the process from outside investment firms, data providers, or consultant firms for our AlphaSector Indexes. These firms include Morningstar, Standard & Poors, New Found Research, Santangelo Research Investment Management and Active Index Solutions.

Investment Strategies:

F-Squared primarily offers investment solutions through the AlphaSector strategies.

AlphaSector Indexes' core philosophy and methodology behind our AlphaSector strategies and Indexes are to meet the REAL needs of individual and wealth investors: relative performance in rising markets, and significant risk controls in declining markets. Limiting losses has been proven to both improve wealth creation and increase the success rate of systematic withdrawal programs for either individual or Institutional Investors.

All of the AlphaSector Indexes utilize exchange traded funds (ETFs) with all security decisions made with the intent of limiting losses during market declines, in particular during significant market declines. In periods of extreme market distress, a partial or complete allocation to short-term bonds (a "cash equivalent" investment) is allowed. A cash equivalent is viewed as the safe haven in times of significant bear markets. There are currently over 70 standard and/or customized AlphaSector Indexes.

This approach to investing is taken for two reasons. First, losses have an exponentially negative impact on long-term returns (a 50% loss requires a subsequent 100% gain to return to breakeven). Second, when comparing the frequency and extent of extreme losses versus extreme gains of most equity asset classes, the extreme losses are both much more frequent and cumulatively greater than the extreme gains. Focusing all decisions on limiting losses creates an "odds-in-your-favor" approach to investing.

The investment models, portfolio design, and ETFs within the portfolio for our flagship US equity versions of the Indexes have been used to manage actual Clients assets since April, 2001 (primarily in the form of SMAs), and are therefore stress-tested across two bear markets and a bull market.

AlphaSector strategies seek to provide downside risk management, especially in weak markets. They represent a powerful but simple story, and use NO derivatives, leverage, or shorting (other than with the AlphaSector Hedged Portfolio Index and/or the Dynamic AlphaSector Index strategy).

Portfolio Construction and Design

All AlphaSector Index portfolios are reviewed monthly and all AlphaSector Premium Index portfolios are reviewed weekly for reconstitution and rebalancing.

The following is a summary of the core AlphaSector strategies. F-Squared also offers a number of custom strategies to meet Client needs.

The AlphaSector US equity strategies (AlphaSector Rotation Index and AlphaSector Premium Index) model utilizes exchange traded funds (ETFs) representing the 9 sectors of the S&P 500 or short-term Treasuries. The implementation of the strategy is most often through ETFs, which are low cost, highly liquid index-linked vehicles tracking the performance of each respective sector. The ETFs most often used are published by industry leading ETF providers representing the nine sectors of the S&P 500 and an ETF tracking short term Treasury securities as the proxy for a cash equivalent. As such, there are a maximum number of 9 securities in the portfolio at any one time, resulting in operational ease and lower transaction costs.

AlphaSector Global Index is a blend of two indices, the AlphaSector U.S. equity strategy and the AlphaSector International strategy. The AlphaSector International Index includes five ETFs reflecting the key world economic regions outside the U.S. as well as a Short-term Treasury ETF used as a proxy for a cash equivalent.

Alpha Sector INFIinity (the fixed income strategy) is a diversified multi-sector, inflation neutral fixed income offering which includes ETFs tracking six bond sectors and one short-term treasury ETF as a cash equivalent.

AlphaSector Allocator strategy is a diversified portfolio of the US Equity, International and Fixed Income strategies adding in ETFs tracking “alternative” asset classes such as gold and REITs.

AlphaSector Hedge Portfolio strategy represents an investment “overlay” applied to the live investment signals of the AlphaSector U.S. equity index. The overlay represents the application of leverage and short exposure and is generated through the use of a backtested, rules-based, quantitative model.

AlphaSector Target Risk Portfolio strategies represent a series of risk-based portfolios ranging from Conservative through Aggressive leveraging the diversification of the AlphaSector Allocator strategy as its foundation.

Default “position” within each Index is typically to have all available ETFs (other than cash equivalents) invested and equally weighted within that index or sleeve at the time of rebalancing. Decisions to remove a sector or asset class from the portfolio at any time are based on a probabilistic determination that that sector or asset class is viewed as likely to lose money on a forward looking basis.

For more information about the philosophy, methodology and construction of any individual AlphaSector Index, please see our website at www.f2inv.com.

Risk of Loss:

All investments in securities include a risk of loss that Clients should be prepared to bear. This includes the risk of capital (invested amount) and any profits that have not been realized. Stock and bond markets may fluctuate substantially over time, and performance of any investment is not guaranteed.

Our investment strategies may not achieve their objectives, and they are not intended to be a complete investment program.

The principal risks of our strategies are:

- **Market Risk:** The risk that the value of the securities in which the strategies invest may drop in reaction to tangible and intangible events and conditions, independent of a security’s particular underlying circumstances. For example, political, economic, and social conditions may cause a change in the value of the securities. Price changes may be temporary or may last for extended periods.
- **Equity Securities Risk:** The risk that events or circumstances at a particular industry, or a particular company within an industry will impact the value of the stocks and ETF’s held by the strategy and thus, the value of your investment over short or extended periods.
- **Interest-Rate Risk:** The risk that fluctuations in interest rates may cause investment prices to fluctuate and impact the value of Fixed Income securities or ETF’s held by the strategy. For example, when interest rates rise, yields on existing bonds become less attractive causing their market values to decline.

- **Exchange-Traded Funds (ETFs) Risk:** The risk that the value of an ETF that the strategies invest in will be more volatile than the underlying portfolio of securities the ETF is designed to track, or that the costs to the fund of owning shares of the ETF will exceed those the fund would incur by investing in such securities directly.
- **Sector Concentration Risk:** The risk that events negatively affecting an industry or market sector in which the strategy invests will cause the overall value of the strategy to decline. To the extent that some of our investment strategies invest significant portions of their strategy in ETF's representing particular markets or sectors (such as Energy, Healthcare, Real Estate, etc.) or in an ETF representing U.S. Treasuries, the strategy is more vulnerable to conditions that negatively affect such sectors as compared to investment strategy that is not significantly invested in such sectors.
- **Turnover Risk:** The risk that frequent trading will result in increased brokerage and other transaction-related costs, as well as less favorable tax treatment of short-term capital gains that can negatively impact your overall investment as compared to investments in strategies with low turnover. Some of our investment strategies may involve frequent trading and/or turnover and investors should carefully consider the impact of taxes and brokerage costs on their investment portfolio.
- **U.S. Government Securities Risk:** The risk that U.S. Government securities in the strategy will be subject to price fluctuations, or that an agency or instrumentality will default on an obligation not backed by the full faith and credit of the United States.
- **Quantitative Risk:** The risk that the effectiveness of the quantitative model used for the strategy can dissipate over time as similar strategies are adopted and as the market becomes more efficiently priced.
- **Programming / Modeling Risk:** F-Squared's research and modeling process is extremely complex and the results of that process must then be translated into computer code. Although F-Squared seeks to hire individuals skilled in each of these functions and to provide appropriate levels of oversight, the complexity of the individual tasks, the difficulty of integrating such tasks, and the limited ability to perform "real world" testing of the end product raises the chances that the finished model may contain an error; one or more of such errors could adversely affect a Client's portfolio and likely would not constitute a trade error under F-Squared's policies.
- **System Risk:** F-Squared relies extensively on computer programs and systems in its proprietary modeling to evaluate securities, to monitor its portfolio, and to generate reports that are critical to oversight of its activities. In addition, certain systems operated by third parties, including the private fund's prime brokers and market counterparties and their sub-custodians and other service providers, may not be in a position to verify the risks or reliability of such third-party systems. These programs or systems may be subject to certain defects, failures or interruptions, including, but not limited to, those caused by computer "worms," viruses and power failures. Any such defect or failure could have a material adverse effect on F-Squared's activities. For example, such failures could cause settlement of trades to fail, lead to inaccurate accounting, recording or processing of trades, and cause inaccurate reports, which may affect F-Squared's ability to monitor its investment portfolios and its risks.
- **Operational Risk:** F-Squared has developed systems and procedures to control operational risk. Operational risks arising from mistakes made in the trading confirmation or settlement of transactions, from transactions not being properly booked, evaluated or accounted for or other similar disruption in F-Squared's operations may cause F-Squared to suffer financial loss; the disruption of its business;

liability to Clients or third parties; regulatory intervention; or reputational damage. F-Squared relies heavily on its financial, accounting and other data processing systems.

Item 9: Disciplinary Information

F-Squared has no legal or disciplinary events that are material to a Client's or prospective Client's evaluation of our advisory business or the integrity of our management.

Item 10: Other Financial Industry Activities and Affiliations

Broker-Dealer Affiliations

F-Squared, his not nor does it have any pending application to register, as a broker-dealer.

Futures/Commodities Affiliations

Neither F-Squared, nor any of its management persons are registered, or have an application pending to register, as a futures commission merchant, commodity pool operator, commodity trading advisor, or an associated person of the foregoing entities.

Investment Company Affiliations

F-Squared Investment Management, LLC and/or one of its subsidiaries maintains a relationship with Virtus Investment Partners of Hartford, Connecticut and serves as sub-advisor for several open-end mutual funds registered under the Investment Company Act of 1940. Those mutual funds are the Premium AlphaSector Fund, the Global Premium AlphaSector Fund, the Allocator Premium AlphaSector Fund and the Dynamic AlphaSector Premium Fund. F-Squared Investment Management, LLC and subsidiaries also sub-advises the Virtus Variable Annuity Trust.

F-Squared Investment Management, LLC and/or one of its subsidiaries maintains a relationship with Caldwell Trust Company of Sarasota, Florida and serves as sub-advisor for the Sector Allocation Model Fund, an open end mutual fund registered under the Investment Company Act of 1940.

F-Squared Investment Management, LLC and/or one of its subsidiaries also maintain a relationship with Risk Paradigm Group, LLC of Austin, TX and serves as sub-advisor for RPg Emerging Market Sector Rotation Fund, an open end mutual fund registered under the Investment Company Act of 1940.

F-Squared Alternative Investments, LLC's wholly owned subsidiary AlphaSector LLS GP1, LLC is the General Partner and provider of investment services to the Private Fund (F-Squared AlphaSector Leveraged Long Short, LP), as set forth in the Confidential Offering Memorandum.

Collective Investment Trust Affiliations

F-Squared maintains a relationship with Reliance Trust Company of Atlanta, GA and serves as sub-advisor for products within the Trust Advisors Portfolios Program, Series Three and Series Eight, collective trusts instituted under the State of Georgia banking regulations that are eligible for ERISA qualified retirement plan assets only.

Investment Adviser Affiliations

F-Squared Retirement Solutions, LLC is a subsidiary of F-Squared Investment Management, LLC. Other subsidiaries of F-Squared Investment Management, LLC include F-Squared Investments, Inc., F-Squared Institutional Advisors, LLC, F-Squared Alternative Investments, LLC, and F-Squared Institutional Solutions, LLC. AlphaSector LLS GP1, LLC is a subsidiary of F-Squared Alternative Investments, LLC and Active Index Solutions,

LLC is a subsidiary of F-Squared Investments, Inc. F-Squared Capital, LLC is a newly formed adviser which is 80% owned by F-Squared Investment Management, LLC.

The relationships or arrangements described above do not create a material conflict of interests with any of our Clients.

F-Squared does not recommend or select other investment advisers for our Clients and receive compensation directly or indirectly from those Clients.

Item 11: Code of Ethics, Participation in Client Transactions and Personal Trading

F-Squared has adopted a Code of Ethics which sets forth high ethical standards of business conduct for our employees and governs a number of potential conflicts of interest that we may encounter when providing investment advisory services. This Code is based on the principle that F-Squared owes a fiduciary duty to the investors for which we serve as an adviser. In adherence with this Code, F-Squared and its employees must avoid activities, interests and relationships that might interfere or appear to interfere with making decisions in the best interests of our Advisory Clients. The Code seeks to place the interests of F-Squared Clients over the interests of the firm and any of its employees, and to comply with the applicable Federal Securities Laws and other applicable law.

F-Squared distributes the code to each employee at the time of hire and annually thereafter. Each employee is required to sign the Code acknowledging that they have read, understand, and will abide by the Code and its requirements. All employees receive training and are monitored for compliance with the Code.

F-Squared will provide a copy of our Code of Ethics to any Client or prospective Client upon request.

Our Code includes, but is not limited to the following:

- Requirements on fiduciary duty
- Prohibitions on the acceptance of gifts and entertainment that exceed our policy standards
- Prohibitions on insider trading and communication of material non-public information
- Requirements on the handling of confidential information
- Requirements for pre-clearance of employee transactions
- Identification and pre-clearance requirements on accounts where employees have beneficial interest
- Requirements for reporting applicable personal securities transactions

Personal Securities Transactions Requirements

All Access Persons must not engage, and must not permit any other person or entity to engage, in any purchase or sale of a Reportable Security in which such Access Person has, or by reason of the transaction will acquire any direct or indirect Beneficial Ownership, unless (i) the transaction is an Exempt Transaction (as set forth below) or (ii) he/she has have complied with the provisions set forth below.

Pre-clearance

Access Persons must seek to obtain pre-clearance trading approval from the Chief Compliance Officer to purchase or sell any Reportable Security which has been placed on the "Restricted List" or the "Pre-Clearance List" for which the person has or will have by reason of the trade a Beneficial Ownership and that the Adviser actively engages in trading, advisory services or performs research on such Reportable Security.

Finally, Access Persons must seek to obtain pre-clearance trading approval from the Chief Compliance Officer before directly or indirectly acquiring Beneficial Ownership in any security in an Initial Public Offering or in a Limited Offering.

In addition to Access Persons, all employees of F-Squared are required to receive pre-clearance trading approval from the Chief Compliance Officer to purchase or sell any security placed on the “Pre-Clearance List” or the “Restricted List.”

Item 12: Brokerage Practices

As a model manager, any selection or recommendation of broker-dealers for Client transaction is generally made by the SMA manager and not F-Squared.

For institutional accounts, F-Squared may from time to time recommend a broker-dealer to execute the trading of underlying securities. In those circumstances, F-Squared will use best efforts to select and recommend a broker dealer that will provide the best services at the lowest commission rates. When reviewing a brokerage firm and the services they provide, our assessment includes, but is not limited to the following:

- Reputation/Stability of brokerage firm
- Ability to execute trades in a timely and efficient manner
- Ability to interface with Client’s custodian bank
- Competitive Commission Rates

As a model manager, practices surrounding Research and Other Soft Dollar Benefits are not applicable. F-Squared does not receive research or other products or services from a broker-dealer or a third party in connection with Client securities transactions.

As a model manager, practices surrounding aggregation of purchase or sale of securities for Client accounts are not applicable. Any aggregation of orders would be done by the SMA Platform Manager.

Item 13: Review of Accounts

As a model manager, F-Squared generally does not have access to Client accounts. In limited circumstances, F-Squared will manage a number of separate accounts for institutional Clients. These accounts are reviewed quarterly to ensure that all transactions are in accordance with model instructions and that any tracking error to the index is within a reasonably acceptable threshold. All institutional accounts are also reviewed post any trading activity to ensure proper trade execution and settlement. The Custodian and or SMA Platform for these accounts will provide confirmation of activity reports post any trading activity and send account statements on a quarterly and annual basis. These reports are provided by the custodian or SMA Platform provider that administers the account.

Item 14: Client Referrals and Other Compensation

Other Compensation

F-Squared does not have any compensation agreements where we receive cash or other economic benefit from someone who is not a Client of ours in connection with providing services to our Clients.

Client Referrals

F-Squared does not directly or indirectly compensate any person for referrals of individual person accounts. If an Institutional Client or model manager relationship is introduced to F-Squared by an unaffiliated or an affiliated solicitor, F-Squared may pay that solicitor a referral fee. Any such referral fee shall be paid solely from F-Squared's revenue and shall not result in any additional charge to the Client. If the Client is introduced to F-Squared by an unaffiliated solicitor, the solicitor shall provide the Client with a copy of F-Squared's ADV Part 2 Brochure and a summary of the solicitation arrangement including compensation.

Item 15: Custody

It is our policy not to take custody of Clients' securities. As such, F-Squared is not granted access to its Clients' accounts and does not have permission to withdraw, transfer, or otherwise move funds or cash from any Client account. Custodians are typically selected by the investment advisor or the institutional Client.

F-Squared does not send out any statements to Clients.

Item 16: Investment Discretion

F-Squared serves as a model manager and as policy does not typically accept discretion over individual Clients' accounts. F-Squared does have limited investment discretion over a small number of institutional accounts and the collective trust assets that it sub-advises. This discretion is limited to advising on the trade allocations within the institutional account and collective trust funds to match our investment models as outlined in the agreements with the institutional account and the investment company.

Item 17: Voting Client Securities

F-Squared typically serves as a model manager and as a matter of firm policy and practice, does not accept authority to vote proxies on behalf of Clients. Clients may receive a copy of our proxy voting policy and procedure upon request.

As a model manager, underlying securities are held in the name of the Client and under this structure they will retain the responsibility for receiving and voting proxies for any and all securities maintained in Client portfolios. Generally, proxies or other solicitations will be received by the Client directly from the custodian or transfer agent. Clients are encouraged to contact their Collective Trust Provider, Investment Adviser, or Custodian with questions related to proxies and solicitations. If Clients need further assistance with this process, they may contact F-Squared at 866-288-7657 with any questions related.

Item 18: Financial Information

Not applicable.

F-Squared has never been the subject of a bankruptcy petition.

The CRD number for F-Squared Retirement Solutions, LLC is 157639.

Item 2: Educational Background and Business Experience

Howard B. Present – Chief Executive Officer

Year of Birth: 1961

Education:

- Masters of Business Administration, Emory University
- Bachelors of Science Petroleum Engineering, University of Texas at Austin

Business Background:

Prior to F-Squared Investments, Mr. Present was Founder and President of Helicon Partners LLC, a boutique management firm specializing in new business development within the financial services industry.

Previously, Mr. Present was Managing Director at Evergreen Investments where he was a member of Executive Committee. Mr. Present ran global product management and strategy for the firm, led the successful multi-billion dollar business launch into closed end funds, and was business owner of the Alternative Investments, Managed Accounts, and 529 businesses. He was also a lead participant in the firm's M&A efforts.
