This Item 5A describes the management fee. The performance fee is described in Item 6 of this Brochure.

The Funds are permitted to make investments in existing Portfolio Companies after the end of the Investment Period. We refer to these types of investments as Follow-On Investments in this Brochure.

The Funds pay Chatham Credit Management III, LLC a management fee, which we refer to in this Brochure as the Management Fee.

In this Brochure, we refer to a company in which the Funds invest as a Portfolio Company and to an investment made by the Funds as a Portfolio Investment.

The Management Fee equals:

- (i) 1.5% per year of an amount equal to, as of any date,
 - (A) the total investor capital contributions, minus
 - (B) the portion of investor capital contributions attributable to Portfolio Investments disposed of by the Funds, and
- (ii) 0.9% per year of the leverage deployed by the Funds.

The Funds use leverage to enhance returns. See Item 8A of this Brochure under Leverage for a brief discussion of the use of leverage by the Funds.

- B. **Timing and Deduction of Management Fee.** The Management Fee is typically paid quarterly in advance, but in no event will be paid more than five months in advance.

The Management Fee is in addition to the obligations of investors to fund their commitments. The Management Fee is deducted from the Funds.

- C. **Other Expenses.**

Carried Interest

In general, Chatham Credit Management III, LLC is entitled to a 20% allocation of profits. This allocation is calculated after an 8% per year preferred return to the investors, and after the allocation of a catch-up amount to Chatham Credit Management III, LLC is assessed. We refer to this 20% allocation of profits as the Carried Interest in this Brochure.

The following describes the Carried Interest in more detail.

The following concepts are used in the more detailed explanation of the Carried Interest.

Available Amounts

Chatham Credit Management III, LLC determines the cash (or other assets) available for distribution to investors after:

- paying or providing for the current obligations of the Funds; and
- setting aside reasonable reserves for anticipated obligations or losses of the Funds, for permitted reinvestment or for amounts due in respect of the Management Fees or Fund Expenses.

We refer to this cash (or other assets) as Available Funds in this Brochure.

Current Net Revenue

Chatham Credit Management III, LLC also determines with respect to any period, cash (or other assets) received by the Funds that:

- was received as interest, fees or other amounts;

- was not received as a return of principal or other return of capital to the Funds; and
- was allocated to revenue for the period in question.

Chatham Credit Management III, LLC then deducts current expenses for the period in question.

We refer to this cash (or other assets) as Current Net Revenue in this Brochure.

Unreturned Contributed Capital

In this Brochure, we refer to the aggregate amount of capital that an investor has contributed to the Funds that has not previously been returned to that investor as Unreturned Contributed Capital.

Preferred Return

In this Brochure, we refer to an 8% per year return on the average Unreturned Contributed Capital as the Preferred Return.

Detailed Description of Carried Interest

The following is a more detailed description of the calculation of the Carried Interest using the terms just discussed.

Chatham Credit Management III, LLC distributes Available Amounts that are Current Net Revenue as follows:

1. first, 100% to the investors until the investors have received aggregate distributions of Unreturned Contributed Capital with respect to Management Fees and losses of capital incurred as a result of dispositions and write-downs of investments;

2. second, 100% to the investors until the investors have received aggregate distributions equal to their Preferred Return;
3. third, 100% to Chatham Credit Management III, LLC until Chatham Credit Management III, LLC (or its affiliate) has received (after giving effect to this distribution and all prior similar distributions) distributions equal to 25% of the aggregate amount of all distributions to investors with respect to the Preferred Return made on or before this distribution; and
4. thereafter, 80% to investors and 20% to Chatham Credit Management III, LLC (or its affiliate).

Chatham Credit Management III, LLC makes these distributions on a quarterly basis within 45 days of the end of the quarter in question.

Payment of Carried Interest

Chatham Credit Management III, LLC has assigned its right to receive the Carried Interest to Chatham Carried Interest III, LLC.

Item 8 **Methods of Analysis, Investment Strategies and Risk of Loss**

A. **Methods of Analysis and Investment Strategies.** The Funds focus on small and middle-market companies.

The Funds invest in junior debt, as well as provide senior debt in the small and middle markets. The Funds also occasionally make opportunistic investments in syndicated debt in the primary and secondary markets.

The Investment Period ended on December 31, 2011.

The investments the Funds have made involve a risk of loss. The Funds, and investors in the Funds, should be prepared to bear that loss.

Investment Approach

The Funds made opportunistic investments in lower and middle-market companies and selective purchases of syndicated loans. The Funds also invested in convertible debt.

Chatham Credit Management III, LLC has used a disciplined underwriting approach to identify opportunities to produce an attractive risk/return profile on senior loans and on junior debt financing. Chatham Credit Management III, LLC has emphasized a user-friendly, adaptable approach in making its investments. Chatham Credit Management III, LLC has been flexible as to the form in which capital is invested, so long as the needs of the target portfolio companies can be met using our underwriting criteria.

Chatham Credit Management III, LLC has focused on proven management teams in niche-oriented manufacturing, distribution, technology, service, retail, restaurant and health care businesses.

The Funds have invested primarily in established companies. The Funds have concentrated on private transactions, but in some circumstances have purchased securities of publicly held companies.

Without the approval of the Board of Advisors of the Funds (see Item 11 and Item 16 of this Brochure), each Fund may not invest more than 20% of its aggregate commitments in equity securities. The Funds have made very limited investments in equity securities. Most of the investments by the Funds have involved leveraged buy-outs or acquisition financing.

Investment Process

Chatham Credit Management III, LLC has used a disciplined underwriting process to perform credit underwriting, including financial modeling and comprehensive operational, industry and management analysis. Chatham Credit Management III, LLC structured and documented investments taking this analysis into account.

Chatham Credit Management III, LLC monitors the performance of Portfolio Companies of the Funds using techniques similar to those used by large financial institutions. Representatives of Chatham Credit Management III, LLC receive and analyze detailed periodic financial reports, and conduct regular meetings and discussions regarding Portfolio Company financial and operating performance in the context of industry developments, as well as other factors such as the general state of the economy. Regular discussions with Portfolio Company management, as appropriate, also occur. In most cases, the transaction documentation contains

financial covenant tests to provide an early warning of performance problems. Chatham Credit Management III, LLC has audits and consultant reviews conducted where applicable.

See Item 13A of this Brochure for a discussion of the investment review process of Chatham Credit Management III, LLC. See Item 13B of this Brochure for a discussion of the review process for specific Portfolio Investments.

Use of Leverage

The Funds use leverage to enhance returns to investors.

The governing documents of the Funds permit the Funds to incur indebtedness. Not more than 70% of total capital deployed by the Funds, including indebtedness, may be indebtedness incurred by the Funds.

The Funds maintained a capital call line of credit during the Investment Period. This capital call line of credit was secured by unfunded investor commitments, but has been terminated.

The Funds also maintain a warehouse facility which previously provided up to \$100 million of financing as of December 31, 2012. This credit facility is secured by the investments of the Funds. The facility ended the revolving period on December 31, 2012 and availability was capped at the current loan balance of \$47MM. The balance will amortize over the next 2 years in equal quarterly payments and will be fully repaid by its maturity date in 2014.

B.C.&D. **Conflicts of Interest.** Affiliates of Chatham Credit Management III, LLC are engaged in a variety of activities within industries in which the Funds have invested. These affiliates engage in activities in the ordinary course of their respective businesses, which may conflict with the interests of the Funds.

These affiliates manage the activities of other investment vehicles they have sponsored, which may include significant involvement with the existing portfolio companies of those investment vehicles.

Chatham Credit Management III, LLC, on behalf of the Funds, has discretion in determining which investments will be made by the Funds.

The Funds and Cascade have co-invested in Portfolio Companies. These co-investments have been made on the same terms for the Funds and for Cascade. The Funds invested in several portfolio companies of other investment vehicles sponsored by affiliates of Chatham Credit Management III, LLC. These investments carried the risk that the capital of the Funds was used to satisfy the additional capital needs of portfolio companies into which other investment vehicles sponsored by affiliates of Chatham Credit Management III, LLC were unable or unwilling to invest further monies. The investment risk to those other investment vehicles in those circumstances was defrayed or ameliorated by capital from the Funds.

The documents governing the Funds provide that neither Chatham Credit Management III, LLC nor any of its affiliates will engage in, or cause or permit any other senior debt or mezzanine fund with a similar strategy organized by any of them, to engage in the business of the Funds before the earlier of:

- (i) the expiration of the Investment Period of the Funds; or
- (ii) such date upon which 60% of the aggregate investor commitments have been contributed to the Funds, including as contributed capital:
 - (A) the amount of any borrowings or other obligations that may be incurred with potential for recourse to the aggregate investor commitments,
 - (B) amounts set forth in call notices that have not yet been funded, and

(C) amounts the Funds are legally obligated to fund with respect to follow-on investments or the Fund Expenses, but have not yet been the subject of a call notice or otherwise committed for investment.

Cascade was formed after this 60% test was satisfied with respect to the Funds.

Rollover Investments

A significant number of the investments of the Funds result from relationships that the principals of Chatham Credit Management III, LLC bring to the activities of the Funds, including those developed through previous investment vehicles they have sponsored. The Funds have invested in several companies that constitute portfolio companies of other investment vehicles sponsored by affiliates of Chatham Credit Management III, LLC. In addition, the Funds have refinanced or replaced investments by other investment vehicles sponsored by affiliates of Chatham Credit Management III, LLC.

- Any other matter submitted to the Board of Advisors by Chatham Credit Management III, LLC.

The Board of Advisors acts by a majority vote. Determinations by the Board of Advisors are binding on the investors.

A determination by the Board of Advisors concerning a transaction involving a potential conflict of interest needs to be approved by a majority of the members of the Board of Advisors not having an interest in the transaction (other than their investment in the Funds).
