Item 6: Performance-Based Fees and Side-By-Side Management

ALP does not accept performance-based fees or other fees based on a share of capital gains on or capital appreciation of the assets of a client.

Item 7: Types of Clients

ALP generally provides investment advice to the following types of clients:

- ❖ Individuals

Minimum Account Size

There is no account minimum.

Item 8: Methods of Analysis, Investment Strategies, and Risk of Investment Loss

A. Methods of Analysis and Investment Strategies

Methods of Analysis

ALP's method of analysis includes fundamental analysis.

Fundamental analysis involves the analysis of financial statements, the general financial health of companies, and/or the analysis of management or competitive advantages.

Investment Strategies

ALP only provides investment advice to clients, and will not utilize specific investment strategies.

Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

B. Material Risks Involved

Methods of Analysis

Fundamental analysis concentrates on factors that determine a company's value and expected future earnings. This strategy would normally encourage equity purchases in stocks that are undervalued or priced below their perceived value. The risk assumed is that the market will fail to reach expectations of perceived value.

Investment Strategies

ALP only provides investment advice to clients, and will not utilize specific investment strategies.

Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

C. Risks of Specific Securities Utilized

ALP generally seeks investment strategies that do not involve significant or unusual risk beyond that of the general domestic and/or international equity markets. However, it will utilize short sales, margin transactions, and options writing. Short sales, margin transactions, and options writing generally hold greater risk of capital loss and clients should be aware that there is a material risk of loss using any of those strategies.

Mutual Funds: Investing in mutual funds carries the risk of capital loss. Mutual funds are not guaranteed or insured by the FDIC or any other government agency. You can lose money investing in mutual funds. All mutual funds have costs that lower investment returns. They can be of bond “fixed income” nature (lower risk) or stock “equity” nature (mentioned above).

Equity investment generally refers to buying shares of stocks by an individual or firms in return for receiving a future payment of dividends and capital gains if the value of the stock increases. There is an innate risk involved when purchasing a stock that it may decrease in value and the investment may incur a loss.

Treasury Inflation Protected/Inflation Linked Bonds: The Risk of default on these bonds is dependent upon the U.S. Treasury defaulting (extremely unlikely); however, they carry a potential risk of losing share price value, albeit rather minimal.

Fixed Income is an investment that guarantees fixed periodic payments in the future that may involve economic risks such as inflationary risk, interest rate risk, default risk, repayment of principal risk, etc.

Debt securities carry risks such as the possibility of default on the principal, fluctuation in interest rates, and counterparties being unable to meet obligations.

Stocks & Exchange Traded Funds (ETF): Investing in stocks & ETF's carries the risk of capital loss (sometimes up to a 100% loss in the case of a stock holding bankruptcy). Investments in these securities are not guaranteed or insured by the FDIC or any other government agency.

Real Estate funds face several kinds of risk that are inherent in this sector of the market. Liquidity risk, market risk and interest rate risk are just some of the factors that can influence the gain or loss that is passed on to the investor. Liquidity and market risk

tend to have a greater effect on funds that are more growth-oriented, as the sale of appreciated properties depends upon market demand. Conversely, interest rate risk impacts the amount of dividend income that is paid by income-oriented funds.

Hedge Funds are not suitable for all investors and involve a high degree of risk due to several factors that may contribute to above average gains or significant losses. Such factors include leveraging or other speculative investment practices, commodity trading, complex tax structures, a lack of transparency in the underlying investments, and generally the absence of a secondary market.

REITs have specific risks including valuation due to cash flows, dividends paid in stock rather than cash, and the payment of debt resulting in dilution of shares.

Private placements carry a substantial risk as they are largely unregulated offerings not subject to securities laws.

Precious Metal ETFs (Gold, Silver, Palladium Bullion backed “electronic shares” not physical metal): Investing in precious metal ETFs carries the risk of capital loss.

Past performance is not a guarantee of future returns. Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

Item 9: Disciplinary Information

A. Criminal or Civil Actions

There are no criminal or civil actions to report.

B. Administrative Proceedings

There are no administrative proceedings to report.

C. Self-regulatory Organization (SRO) Proceedings

There are no self-regulatory organization proceedings to report.

Item 10: Other Financial Industry Activities and Affiliations

A. Registration as a Broker/Dealer or Broker/Dealer Representative

Neither ALP nor its representatives are registered as or have pending applications to become a broker/dealer or as representatives of a broker/dealer.

B. Registration as a Futures Commission Merchant, Commodity Pool Operator, or a Commodity Trading Advisor

Neither ALP nor its representatives are registered as or have pending applications to become a Futures Commission Merchant, Commodity Pool Operator, or a Commodity Trading Advisor.

C. Registration Relationships Material to this Advisory Business and Possible Conflicts of Interests

Matthew Lawrence Winebrenner is a licensed insurance agent. From time to time, he will offer clients advice or products from those activities. Clients should be aware that these services pay a commission and involve a conflict of interest, as commissionable products conflict with the fiduciary duties of a registered investment adviser. ALP always acts in the best interest of the client; including the sale of commissionable products to advisory clients. Clients are in no way required to implement the plan through any representative of ALP in such individual's capacity as an insurance agent.

All material conflicts of interest under Section 260.238 (k) of the California Corporations Code are disclosed regarding the investment adviser, its representatives or any of its employees, which could be reasonably expected to impair the rendering of unbiased and objective advice.

D. Selection of Other Advisers or Managers and How This Adviser is Compensated for Those Selections

ALP does not utilize nor select other advisers or third party managers. All assets are managed by ALP management.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

A. Code of Ethics

We have a written Code of Ethics that covers the following areas: Prohibited Purchases and Sales, Insider Trading, Personal Securities Transactions, Exempted Transactions, Prohibited Activities, Conflicts of Interest, Gifts and Entertainment, Confidentiality, Service on a Board of Directors, Compliance Procedures, Compliance with Laws and Regulations, Procedures and Reporting, Certification of Compliance, Reporting Violations, Compliance Officer Duties, Training and Education, Recordkeeping, Annual Review, and Sanctions. Our Code of Ethics is available free upon request to any client or prospective client.

B. Recommendations Involving Material Financial Interests

ALP does not recommend that clients buy or sell any security in which a related person to ALP or ALP has a material financial interest.

C. Investing Personal Money in the Same Securities as Clients

From time to time, representatives of ALP may buy or sell securities for themselves that they also recommend to clients. This may provide an opportunity for representatives of ALP to buy or sell the same securities before or after recommending the same securities to clients resulting in representatives profiting off the recommendations they provide to clients. Such transactions may create a conflict of interest. ALP will always document any transactions that could be construed as conflicts of interest and will always transact client business before their own when similar securities are being bought or sold.

D. Trading Securities At/Around the Same Time as Clients' Securities

From time to time, representatives of ALP may buy or sell securities for themselves at or around the same time as clients. This may provide an opportunity for representatives of ALP to buy or sell securities before or after recommending securities to clients resulting in representatives profiting off the recommendations they provide to clients. Such transactions may create a conflict of interest. ALP will always transact client's transactions before its own when similar securities are being bought or sold.

Item 12: Brokerage Practices

A. Factors Used to Select Custodians and/or Broker/Dealers

The firm will only be providing financial planning service. It will not be providing supervisory services and will not be directing clients to any custodian.

1. Research and Other Soft-Dollar Benefits

ALP receives no research, product, or services other than execution from a broker-dealer or third-party in connection with client securities transactions ("soft dollar benefits").

2. Brokerage for Client Referrals

ALP receives no referrals from a broker-dealer or third party in exchange for using that broker-dealer or third party.

3. Clients Directing Which Broker/Dealer/Custodian to Use

ALP allows clients to direct brokerage. ALP may be unable to achieve most favorable execution of client transactions if clients choose to direct brokerage. This may cost clients money because without the ability to direct brokerage ALP may not be able to aggregate orders to reduce transactions costs resulting in higher brokerage commissions and less favorable prices. Not all investment advisers allow their clients to direct brokerage.

B. Aggregating (Block) Trading for Multiple Client Accounts

ALP maintains the ability to block trade purchases across accounts. Block trading may benefit a large group of clients by providing ALP the ability to purchase larger blocks resulting in smaller transaction costs to the client. Declining to block trade can cause more expensive trades for clients.

Item 13: Reviews of Accounts

A. Frequency and Nature of Periodic Reviews and Who Makes Those Reviews

All financial planning accounts are reviewed upon financial plan creation and plan delivery by Matthew Lawrence Winebrenner, Chief Compliance Officer. There is only one level of review and that is the total review conducted to create the financial plan.

B. Factors That Will Trigger a Non-Periodic Review of Client Accounts

Reviews may be triggered by material market, economic or political events, or by changes in client's financial situations (such as retirement, termination of employment, physical move, or inheritance).

C. Content and Frequency of Regular Reports Provided to Clients

ALP only provides financial planning services to its clients. Each client will receive at least quarterly from the custodian, a written report that details the client's account including assets held and asset value which will come from the custodian.

Item 14: Client Referrals and Other Compensation

A. Economic Benefits Provided by Third Parties for Advice Rendered to Clients (Includes Sales Awards or Other Prizes)

ALP does not receive any economic benefit, directly or indirectly from any third party for advice rendered to ALP clients.

B. Compensation to Non - Advisory Personnel for Client Referrals

ALP does not directly or indirectly compensate any person who is not advisory personnel for client referrals.

Item 15: Custody

ALP does not take custody of client accounts at any time. Custody of client's accounts is held primarily at the custodian. Clients will receive account statements from the custodian and should carefully review those statements.

Item 16: Investment Discretion

ALP does not have discretion over client accounts at any time.

Item 17: Voting Client Securities (Proxy Voting)

ALP will not ask for, nor accept voting authority for client securities. Clients will receive proxies directly from the issuer of the security or the custodian. Clients should direct all proxy questions to the issuer of the security.

Item 18: Financial Information

A. Balance Sheet

ALP does not require nor solicit prepayment of more than \$1,200 in fees per client, six months or more in advance and therefore does not need to include a balance sheet with this brochure.

B. Financial Conditions Reasonably Likely to Impair Ability to Meet Contractual Commitments to Clients

Neither ALP nor its management have any financial conditions that are likely to reasonably impair our ability to meet contractual commitments to clients.

C. Bankruptcy Petitions in Previous Ten Years

ALP has not been the subject of a bankruptcy petition in the last ten years.
