Item 4: Advisory Business

L.K. Benson & Company, P.C. (LKB) is an investment adviser. LKB was founded in 1994 and is owned by Lyle K. Benson, Jr.

LKB provides a diverse range of financial services to individuals and families. These services may include advice and implementation support for issues associated with investments, the selection of other advisers, cash management, estate planning, and personal risk management, as well as income tax planning and preparation.

Investment Advisory Services

Investment Advisory Services may include developing written investment policy statements (identifying investible assets, expected cash flows, and projected tax liabilities, assessing risk tolerances, and determining an appropriate allocation of assets), assisting with the selection of third party investment advisers and mutual funds, and monitoring performance of third party investment advisers and mutual funds.

Financial Planning, Tax Planning and Preparation Services

Financial Planning Service may include a wide variety of personal financial planning, including retirement planning, estate planning, education funding, cash flow analysis, risk management, tax planning and tax preparation.

Use of Independent Managers

As mentioned above, LKB may recommend that certain clients authorize the active discretionary management of a portion of their assets by and/or among certain independent investment manager(s) (Independent Manager(s)), based upon the stated investment objectives of the client. The terms and conditions under which the client shall engage the Independent Manager(s) shall be set forth in separate written agreements between (1) the client and LKB and (2) LKB or client and the designated Independent Manager(s). LKB shall continue to render services to the client relative to the discretionary selection of Independent Manager(s) as well as the monitoring and review of account performance and client investment objectives, for which LKB shall receive an annual advisory fee which is based upon a percentage of the market value of the assets being managed by the designated Independent Manager(s).

When selecting an Independent Manager for a client, LKB shall review information about the Independent Manager(s) such as its disclosure statement and/or material supplied by the Independent Manager(s) or independent third parties for a description of the Independent Manager's investment strategies, past performance and risk results to the extent available.

Factors that LKB shall consider in selecting Independent Manager(s) include the client's stated investment objective(s), management style, performance, reputation, financial strength, reporting, pricing, and research. The investment management fees charged by

the designated Independent Manager(s), together with the fees charged by the wrap fee program sponsor and corresponding designated broker-dealer/custodian of the client's assets, may be exclusive of, and in addition to, LKB's investment advisory fee set forth above. As discussed above, the client may incur additional fees to those charged by LKB, the designated Independent Manager(s), wrap fee program sponsor (if applicable), and corresponding broker-dealer and custodian.

In addition to LKB's written disclosure statement (ADV 2), the client shall also receive the written disclosure statement of the designated Independent Manager(s) and wrap fee program sponsor (if applicable). Certain Independent Manager(s) may impose more restrictive account requirements and varying billing practices than LKB. In such instances, LKB may alter its corresponding account requirements and/or billing practices to accommodate those of the Independent Manager(s) or wrap fee program sponsor.

If LKB refers a client to certain Independent Manager(s) where LKB's compensation is included in the advisory fee charged by such Independent Manager(s) and the client engages those Independent Manager(s), LKB shall be compensated for its services by receipt of a fee to be paid directly by the Independent Manager(s) to LKB in accordance with the requirements of Rule 206(4)-3 of the Investment Advisers Act of 1940, as amended, and any corresponding state securities laws, rules, regulations, or requirements. Any such fee shall be paid solely from the Independent Manager(s) investment management fee or the program fee of the wrap fee program (as appropriate), and shall not result in any additional charge to the client.

Tailored Relationships

LKB tailors investment advisory services to the individual needs of the client. Clients are allowed to impose restrictions on the investments in their account. All limitations and restrictions placed on accounts must be presented to LKB in writing. Clients will retain individual ownership of all securities.

Wrap Fee Programs

LKB does not participate in a Wrap Fee Program.

Client Assets

As of December 31, 2013, LKB managed approximately \$201.2 million in assets; all assets are managed on a non-discretionary basis.

Item 5: Fees and Compensation

Overview

LKB is a fee-only investment monitoring and financial planning firm, and is compensated only by clients.

Fees are dependent upon the client's choice of the previously mentioned services.

Hourly fees are based on the hourly rates for each staff member and range from \$50 to \$400 per hour.

For clients to whom LKB provides investment-monitoring services, these services are generally charged a quarterly retainer, payable in advance. This fee covers not only the investment monitoring services, but also advice on other financial planning areas.

Investment Monitoring Services Fee

Fees for Investment Monitoring Services are typically billed quarterly, in advance. The quarterly fee established for non-hourly investment monitoring services is confirmed in the client's engagement letter. Some clients, who are using only mutual fund managers, are charged based on the assets monitored as follows:

Assets	Annual Fee
\$100,000 - \$250,000	1.00%
\$250,000 - \$500,000	0.80% of Assets
Over \$500,000	0.75% of Assets

Occasionally, LKB may charge on an hourly basis for investment monitoring services; fees range from \$50 to \$400 depending on the individual providing the advice. Fees are due monthly in arrears.

Investment Monitoring fees shall not be prorated for each capital contribution and withdrawal made during the applicable calendar quarter. Accounts initiated or terminated during a calendar quarter will be charged a prorated fee. Upon termination of any account, any prepaid, unearned fees will be promptly refunded, and any earned, unpaid fees will be due and payable.

Financial Planning Services Fee

Fees for Financial Planning Services are billed at an hourly rate with a range from \$50 - \$400 per hour, depending on the level of the individual performing the service. Fees are due monthly in arrears. These fees are negotiable and are established as stated in the client's engagement letter.

Agreement Terms and Termination

A client may terminate its engagement with written notice to LKB and will be effective upon receipt. Upon termination, fees paid in advance will be prorated and any unearned portion will be returned to the client. The refund will be calculated based on the number of days remaining in the billing period after the date of termination. Fees paid in arrears will be pro-rated and any earned portion will be due to LKB. The fee will

be calculated based on the number of days during the billing period that the account was managed before the date of termination.

Other Fees

LKB's fees are exclusive of brokerage commissions, transaction fees, and other related costs and expenses which shall be incurred by the client. Clients may incur certain charges imposed by custodians, brokers, third party investment and other third parties such as fees charged by managers, custodial fees, deferred sales charges, odd-lot differentials, transfer taxes, wire transfer and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. Mutual funds and exchange traded funds also charge internal management fees, which are disclosed in a fund's prospectus.

Such charges, fees and commissions are exclusive of and in addition to LKB's fee, and LKB shall not receive any portion of these commissions, fees, and costs.

General Information on Compensation

In certain circumstances, fees and payment terms are negotiable depending on client's unique situation. Certain clients may pay more or less than others depending on the amount of assets, type of portfolio, or the time involved, the degree of responsibility assumed, complexity of the engagement, special skills needed to solve problems, the application of experience and knowledge of the client's situation.

Clients should note that similar advisory services may (or may not) be available from other registered investment advisers for similar or lower fees.

Item 6: Performance-Based Fees and Side-by-Side Management

Neither LKB nor any of its Supervised Persons (employees) accepts performance-based fees (fees based on a share of capital gains on or capital appreciation of the assets of a client).

LKB does not use a performance-based fee structure because of the potential conflict of interest. Performance-based compensation may create an incentive for the adviser to recommend an investment that may carry a higher degree of risk to the client.

Item 7: Types of Clients

As described in Item 4, LKB's clients include individuals and families.

Account Minimums

Lyle K. Benson & Company has no contractual minimum investment size for clients.

Item 8: Methods of Analysis, Investment Strategies and Risk of Loss

Clients typically have a number of money managers, stockbrokers, and mutual funds, and often come to LKB without an overall strategy for their investments. LKB helps develop an investment policy statement discussing in detail their risk tolerance and return requirements to reach their goals. LKB believes that asset allocation among a wide variety of asset classes is an important element of investment success. Once a basic strategy is in place, the regular monitoring of the performance of investments and asset allocation begins. LKB also assists clients with money manager or mutual fund selection. LKB does not act as money managers, but serve as objective advisors for clients, often taking on the role of coordinator of their various investment advisors. In a declining market, asset allocations employed by LKB do not assure profit or protection against loss.

Risk of Loss

Investing in securities involves risk of loss that clients should be prepared to bear. ***All investment programs have certain risks that are borne by the investor.*** LKB's investment approach constantly keeps the risk of loss in mind. Investors face the following investment risks:

- **Interest-rate Risk:** Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on existing bonds become less attractive, causing their market values to decline.
- **Market Risk:** The price of a security, bond, or mutual fund may drop in reaction to tangible and intangible events and conditions. This type of risk is caused by external factors independent of a security's particular underlying circumstances. For example, political, economic and social conditions may trigger market events.
- **Inflation Risk:** When any type of inflation is present, a dollar next year will not buy as much as a dollar today, because purchasing power is eroding at the rate of inflation.
- **Currency Risk:** Overseas investments are subject to fluctuations in the value of the dollar against the currency of the investment's originating country. This is also referred to as exchange rate risk.
- **Reinvestment Risk:** This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e. interest rate). This primarily relates to fixed income securities.
- **Business Risk:** These risks are associated with a particular industry or a particular company within an industry. For example, oil-drilling companies depend on finding oil and then refining it, a lengthy process, before they can generate a profit. They carry a higher risk of profitability than an electric company, which generates its income from a steady stream of customers who buy electricity no matter what the economic environment is like.
- **Liquidity Risk:** Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are interested in a

standardized product. For example, Treasury Bills are highly liquid, while real estate properties are not.

- **Financial Risk:** Excessive borrowing to finance a business' operations increases the risk of profitability, because the company must meet the terms of its obligations in good times and bad. During periods of financial stress, the inability to meet loan obligations may result in bankruptcy and/or a declining market value.

LKB reserves the right to advise clients on any other type of investment that it deems appropriate based on the client's stated goals and objectives. LKB may also provide advice on any type of investment held in a client's portfolio at the inception of the advisory relationship or on any investment on which the client requests advice.

Item 9: Disciplinary Information

Registered investment advisers are required to disclose all material facts regarding any legal or disciplinary events that would be material to your evaluation of LKB or the integrity of LKB's management. LKB and its management persons have never had any legal or disciplinary disclosures.

Item 10: Other Financial Industry Activities and Affiliations

Financial Industry Activities – Broker-Dealers

LKB is not registered as a broker-dealer, and none of its management persons are registered representatives of a broker-dealer.

Financial Industry Activities – Futures and Commodities

Neither LKB nor any of its management persons is registered as (or associated with) a futures commissions merchant, commodity pool operator, or a commodity trading advisor.

Financial Industry Activities and Affiliations – Accountant or Accounting Firm

Both Lyle K. Benson, Jr. and Christopher D. Benson are Certified Public Accountants, and all tax and accounting services are provided through L.K. Benson & Company.

Other Investment Advisors

LKB regularly recommends third party advisors to manage portions of client's portfolios. LKB selects these advisors based upon many factors including: their expertise in certain asset classes, knowledge of the investment issues and environment, reasonable fee structures for their services, the ability to communicate with our clients, and historical performance compared to the relevant benchmarks. LKB maintains regular contact with these managers and talk specifically about the client portfolios to prepare periodic

reporting to clients. LKB also schedules an annual meeting or conference call to formally review the manager. In this discussion LKB addresses the following points:

- Review current client portfolios
- Discuss performance relative to benchmarks
- Discuss staffing and personnel of manager
- Review fee structure
- Gather any additional information that is relevant to our clients' portfolios

LKB does not receive any referral fees or compensation from these third party advisers.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

LKB employees recognize the fiduciary duty to clients and understand the obligation of firm personnel to uphold that fundamental duty. Employees must comply with a Code of Ethics and Statement for Insider Trading. The Code describes LKB's high standard of business conduct, and fiduciary duty to its clients.

The Code's key provisions include:

- Statement of General Principles:
 - The duty to place the interest of client first;
 - Personal security transactions are conducted and reviewed to be consistent with the Code of Ethics and to avoid any actual or potential conflict of interest or any abuse of an employee's position of trust and responsibility;
 - Information concerning the identity of security holdings and financial circumstances of clients is confidential; and
 - Independence in the investment decision-making process is paramount.
- Policy on reporting of Personal Securities Transactions
- A prohibition on Insider Trading
- Restrictions on the acceptance of significant gifts
- Procedures to detect and deter misconduct and violations

Lyle K. Benson, Jr., President and Chief Compliance Officer, reviews all employee trades each quarter. These reviews ensure that personal trading does not affect the markets, and that clients of LKB receive preferential treatment.

LKB's employees must acknowledge the terms of the Code of Ethics at least annually. In addition, all employees are required to sign a non-disclosure agreement, which prohibits him or her from using confidential information for their own benefit. Any employee not in compliance with the Code of Ethics may be subject to termination.

Clients and prospective clients can obtain a copy of LKB's Code of Ethics by contacting Lyle K. Benson, Jr., President and Chief Compliance Officer.

Participation or Interest in Client Transactions – Personal Securities Transactions

LKB and its employees may buy or sell securities identical to those recommended to clients for their personal accounts. LKB's Code of Ethics is designed to assure that the personal securities transactions, activities and interests of the employees of LKB will not interfere with (i) making decisions in the best interest of advisory clients and (ii) implementing such decisions while, at the same time, allowing employees to invest for their own accounts. Under the Code certain classes of securities, primarily mutual funds, have been designated as exempt transactions, based upon a determination that these would materially not interfere with the best interest of LKB's clients. In addition, the Code requires pre-clearance of many transactions. Nonetheless, because the Code of Ethics in some circumstances would permit employees to invest in the same securities as clients, there is a possibility that employees might benefit from market activity by a client in a security held by an employee. Employee trading is continually monitored under the Code of Ethics, and designed to reasonably prevent conflicts of interest between LKB and its clients.

Participation or Interest in Client Transactions – Principal/Agency Cross

It is LKB's policy that the Firm will not affect any principal or agency cross securities transactions for client accounts. LKB will also not cross trades between client accounts.

Item 12: Brokerage Practices

Research and Other Soft Dollar Benefits

LKB does not receive formal soft dollar benefits other than execution from broker/dealers in connection with client securities transactions. See disclosure below in "Directed Brokerage – Other Economic Benefits".

Brokerage for Client Referrals

LKB does not receive client referrals from broker/dealers.

Brokerage Recommendations

LKB periodically recommends brokers or money managers to clients to manage specific aspects of their portfolio. Selection is based on the particular asset class, expertise of the broker or manager, performance and fee structure. Brokers or dealers may be recommended at a client's request. Many factors are analyzed including costs, service and support, historical performance, prior to the recommendation to determine which broker is best suited to the client's needs. LKB regularly monitors the performance of the outside brokers.

Based on LKB's current relationship with Charles Schwab & Company, LKB is able to provide its clients the benefits of:

- Low commission cost for select trades placed through the client's Schwab account.
- Access to a broad universe of mutual funds for client's accounts held at Charles Schwab
- The benefit of streamline interface with LK Benson's investment management software, which may reduce the cost associated with investment management for accounts held at Charles Schwab.

Client Directed Brokerage

The client may direct LKB to use a particular broker-dealer (subject to the LKB's right to decline and/or terminate the engagement) to execute some or all transactions for the client's account. In such event, the client will negotiate terms and arrangements for the account with that broker-dealer, and LKB will not seek better execution services or prices from other broker-dealers or be able to "batch" the client's transactions for execution through other broker-dealers with orders for other accounts managed by LKB. As a result, client may pay higher commissions or other transaction costs or greater spreads, or receive less favorable net prices, on transactions for the account than would otherwise be the case. In the event that transactions for client accounts are effected through a broker-dealer that refers investment management clients to the LKB, the potential for conflict of interest may arise.

Directed Brokerage – Other Economic Benefits

LKB may recommend/require that clients establish brokerage accounts with the Schwab Advisor Services division of Charles Schwab & Co., Inc. (Schwab), a FINRA registered broker-dealer, member SIPC, to maintain custody of clients' assets and to effect trades for their accounts. Although LKB may recommend/require that clients establish accounts at Schwab, it is the client's decision to custody assets with Schwab. LKB is independently owned and operated and not affiliated with Schwab.

Schwab provides LKB with access to its institutional trading and custody services, which are typically not available to Schwab retail investors. These services generally are available to independent investment advisors on an unsolicited basis, at no charge to them so long as a total of at least \$10 million of the advisor's clients' assets are maintained in accounts at Schwab Advisor Services. These services are not contingent upon LKB committing to Schwab any specific amount of business (assets in custody or trading commissions). Schwab's brokerage services include the execution of securities transactions, custody, research, and access to mutual funds and other investments that are otherwise generally available only to institutional investors or would require a significantly higher minimum initial investment.

For LKB client accounts maintained in its custody, Schwab generally does not charge separately for custody services but is compensated by account holders through commissions and other transaction-related or asset-based fees for securities trades that are executed through Schwab or that settle into Schwab accounts.

Schwab Advisor Services also makes available to LKB other products and services that benefit LKB but may not directly benefit its clients' accounts. Many of these products and services may be used to service all or some substantial number of LKB's accounts, including accounts not maintained at Schwab.

Schwab's products and services that assist LKB in managing and administering clients' accounts include software and other technology that (i) provide access to client account data (such as trade confirmations and account statements); (ii) facilitate trade execution and allocate aggregated trade orders for multiple client accounts; (iii) provide research, pricing and other market data; (iv) facilitate payment of LKB's fees from its clients' accounts; and (v) assist with back-office functions, recordkeeping and client reporting.

Schwab Advisor Services also offers other services intended to help LKB manage and further develop its business enterprise. These services may include: (i) compliance, legal and business consulting; (ii) publications and conferences on practice management and business succession; and (iii) access to employee benefits providers, human capital consultants and insurance providers. Schwab may make available, arrange and/or pay third-party vendors for the types of services rendered to LKB.

Schwab Advisor Services may discount or waive fees it would otherwise charge for some of these services or pay all or a part of the fees of a third-party providing these services to LKB. Schwab Advisor Services may also provide other benefits such as educational events or occasional business entertainment of LKB personnel. In evaluating whether to recommend or require that clients custody their assets at Schwab, LKB may take into account the availability of some of the foregoing products and services and other arrangements as part of the total mix of factors it considers and not solely on the nature, cost or quality of custody and brokerage services provided by Schwab, which may create a potential conflict of interest.

Trade Aggregation

LKB does not aggregate or block trades.

Item 13: Review of Accounts

Reviews

Lyle K. Benson, President, and Christopher D. Benson, Manager, review all accounts internally on a quarterly, semi-annual or annual basis, depending on the client's engagement letter. More frequent reviews may occur due to the client's individual circumstances, economic conditions, or general factors affecting the financial markets. LKB attempts to schedule meetings with clients at least on an annual basis or more frequently if desired by the client or if circumstances warrant.

Reporting

LKB provides each client a quarterly, semi-annual or annual report, in addition to reports received from the custodian, showing among other things, securities held, transactions in the account in the past quarter, security cost, security market value and performance returns as well as advisory fees paid to LKB. Such reports are accompanied by a performance analysis and quarterly client letter/commentary.

Item 14: Client Referrals and Other Compensation

Other Compensation

LKB does not receive any formal economic benefits (other than normal compensation as described in Item 12) from any firm or individual for providing investment advice.

Compensation – Client Referrals

LKB does not make or accept referral fees or any form of remuneration from other professionals when a prospect or client is referred to them.

Item 15: Custody

Custody – Fee Debiting

Both LKB's Investment Advisory Agreement and the custodian's custodial/clearing agreement may authorize the custodian to debit the account for the amount of the LKB's investment management fee and to directly remit that management fee to LKB in accordance with required SEC procedures. Client investment assets will be held with a custodian agreed upon by the client and LKB. The custodian is advised in writing of the limitation of LKB's access to the account. The custodian sends a statement to the client, at least quarterly, indicating all amounts disbursed from the account including the amount of advisory fees paid directly to LKB.

Custody – Trusteeship/Executor/Officer

LKB or a related person acts as trustee for client trusts or as executor for client estates. This form of custody is offered on a limited basis. LKB complies with the SEC's Custody Rule with regard to the custody of the trust / estate assets; annually the Firm is subject to a Surprise Examination by an independent accountant.

Custody – Check Signing Authority/Bill Paying

LKB or a related person has check signing authority over certain client accounts only with client authority. This form of custody is offered on a very limited basis. LKB complies with the SEC's Custody Rule with regard to the check signing authority; annually the Firm is subject to a Surprise Examination by an independent accountant.

Custody – Account Statements

As described above and in Item 13, clients receive at least quarterly statements from the broker dealer, bank or other qualified custodian that holds and maintains client's investment assets. Clients are urged to carefully review such statements and compare such official custodial records to the account statements or other reports that LKB provides. LKB statements may vary from custodial statements based on accounting procedures, reporting dates, or valuation methodologies of certain securities.

Item 16: Investment Discretion

LKB may receive discretionary authority from the client at the outset of an advisory relationship to select the identity and amount of securities to be bought or sold via a Charles Schwab account. In all cases, however, such discretion is to be exercised in a manner consistent with the stated investment objectives for the particular client account and with the client's consent for each such transaction.

Item 17: Voting Client Securities

LKB does not have any authority to and does not vote proxies on behalf of clients. Clients retain the responsibility for receiving and voting proxies for securities maintained in their portfolios; clients receive proxies directly from either custodians or transfer agents.

If requested, LKB may provide advice to clients regarding proxy votes and legal proceedings. If any conflict of interest exists, it will be disclosed to the client. Clients may contact Lyle K. Benson, President and Chief Compliance Officer, at 410.494.6680 for information about proxy voting.

Item 18: Financial Information

LKB has no financial commitment that impairs its ability to meet contractual and fiduciary commitments to clients, and has not been the subject of a bankruptcy proceeding.

LKB is not required to provide a balance sheet; LKB does not require prepayment of fees of both more than \$1,200 per client, and more than six months in advance.

Certified Public Accountant/Personal Financial Specialist (CPA/PFS)
Certified Financial Planner™ (CFP®)

Professional Certifications

LKB's supervised persons maintain one or more of the following professional designations, which required the following minimum requirements:

Certified Public Accountant (CPA)

CPAs are licensed and regulated by their state boards of accountancy. While state laws and regulations vary, the education, experience and testing requirements for licensure as a CPA generally include minimum college education (typically 150 credit hours with at least a baccalaureate degree and a concentration in accounting), minimum experience levels (most states require at least one year of experience providing services that involve the use of accounting, attest, compilation, management advisory, financial advisory, tax or consulting skills, all of which must be achieved under the supervision of or verification by a CPA), and successful passage of the Uniform CPA Examination. In order to maintain a CPA license, states generally require the completion of 40 hours of continuing professional education (CPE) each year (or 80 hours over a two year period or 120 hours over a three year period). Additionally, all American Institute of Certified Public Accountants (AICPA) members are required to follow a rigorous Code of Professional Conduct which requires that they act with integrity, objectivity, due care, competence, fully disclose any conflicts of interest (and obtain client consent if a conflict exists), maintain client confidentiality, disclose to the client any commission or referral fees, and serve the public interest when providing financial services. The vast majority of state boards of accountancy have adopted the AICPA's Code of Professional Conduct within their state accountancy laws or have created their own.

Personal Financial Specialist (PFS)

The PFS credential demonstrates that an individual has met the minimum education, experience and testing required of a CPA in addition to a minimum level of expertise in personal financial planning. To attain the PFS credential, a candidate must hold an unrevoked CPA license, fulfill 3,000 hours of personal financial planning business experience, complete 80 hours of personal financial planning CPE credits, pass a comprehensive financial planning exam and be an active member of the AICPA. A PFS credential holder is required to adhere to AICPA's Code of Professional Conduct, and is

encouraged to follow AICPA's Statement on Responsibilities in Financial Planning Practice. To maintain their PFS credential, the recipient must complete 60 hours of financial planning CPE credits every three years. The PFS credential is administered through the AICPA.

Certified Financial Planner (CFP®)

To attain the right to use the CFP® marks, an individual must satisfactorily fulfill the following requirements:

- Education – Complete an advanced college-level course of study addressing the financial planning subject areas that CFP Board's studies have determined as necessary for the competent and professional delivery of financial planning services, and attain a Bachelor's Degree from a regionally accredited United States college or university (or its equivalent from a foreign university). CFP Board's financial planning subject areas include insurance planning and risk management, employee benefits planning, investment planning, income tax planning, retirement planning, and estate planning;
- Examination – Pass the comprehensive CFP® Certification Examination. The examination, administered in 10 hours over a two-day period, includes case studies and client scenarios designed to test one's ability to correctly diagnose financial planning issues and apply one's knowledge of financial planning to real world circumstances;
- Experience – Complete at least three years of full-time financial planning-related experience (or the equivalent, measured as 2,000 hours per year); and
- Ethics – Agree to be bound by CFP Board's Standards of Professional Conduct, a set of documents outlining the ethical and practice standards for CFP® professionals.

Individuals who become certified must complete the following ongoing education and ethics requirements in order to maintain the right to continue to use the CFP® marks:

- Continuing Education – Complete 30 hours of continuing education hours every two years, including two hours on the Code of Ethics and other parts of the Standards of Professional Conduct, to maintain competence and keep up with developments in the financial planning field; and
- Ethics – Renew an agreement to be bound by the Standards of Professional Conduct. The Standards prominently require that CFP® professionals provide financial planning services at a fiduciary standard of care. This means CFP® professionals must provide financial planning services in the best interests of their clients.

Disciplinary Information

LKB and its management persons have never had any legal or disciplinary disclosures.

Other Business Activities

Disclosure on Outside Business Activities is provided in Form ADV Part 2A Item 10 – Other Financial Industry Activities and Affiliations above.

Both Lyle K. Benson, Jr. and Christopher D. Benson are Certified Public Accountants. All tax and accounting services are provided through L.K. Benson & Company.

As disclosed in Form ADV Part 2A Item 5 – Fees and Compensation, neither LKB nor any Supervised Persons receive commissions, bonuses or other compensation based on the sale of securities or other investment products.

Additional Compensation

No Supervised Person receives any economic benefit outside of regular salaries or bonuses related to amount of sales, client referrals or new accounts.

Supervision

Lyle K. Benson, Jr., President and Chief Compliance Officer, supervises all persons named in this Form ADV Part 2B Investment Adviser Brochure Supplement. Lyle K. Benson, Jr. supervises these persons by holding regular staff, investment and other ad hoc meetings. In addition, Lyle K. Benson, Jr. regularly reviews client reports, emails, and trading, as well as employees' personal securities transaction and holdings reports. Lyle K. Benson, Jr. may be reached at 410.494.6680.
