Advisory Business

Firm Description

Clark Financial Services Group, Inc. has been incorporated since April 29, 1992. Clark Financial Services Group, Inc. specializes in financial planning. Clark Financial Services Group, Inc. provides investment supervisory services, manages investment advisory accounts not involving investment supervisory services, and furnishes advice to clients on matters not involving securities.

Assets under the direct management of Clark Financial Services Group, Inc. are held by independent custodians in the client's name. Clark Financial Services Group, Inc. does not act as a custodian of client assets.

Clark Financial Services Group, Inc. may offer advice on equity securities (exchange-listed, over-the-counter, foreign issuers), warrants, corporate debt securities, commercial paper, certificates of deposit, municipal securities, investment company securities (variable life insurance, variable annuities, mutual funds), United States government securities, partnerships (real estate, oil and gas, low-income housing and equipment leasing), but not limited to these.

We may recommend other professionals (e.g., lawyers, accountants, insurance agents, real estate agents, etc.) at the request of the client. Other professionals are engaged directly by the client on an as-needed basis even when recommended by the Advisor. Conflicts of interest will be disclosed to the client and managed in the best interest of the client. No fees or commissions are shared in this arrangement.

Principal Owners

Roscoe Bowman Clark, III is the Chairman of the Board and 51% owner of the company. Prior to Clark Financial Services Group, Inc., Roscoe was a registered representative with FFP Securities since December 1986. Christopher W. Schulenburg serves as the firm's President and owns 49% of the company.

Types of Advisory Services

The primary type of advisory service offered by Clark Financial Services Group, Inc. is professional asset allocation. Most of the time, professional asset allocation is based on a financial plan. Financial plan recommendations based on the client's goals are developed using data collected from the client. In performing its services, Clark Financial Services Group, Inc. is not required to verify any information received from the client or from the client's other professionals. Each client is advised that it remains his/her responsibility to promptly notify Clark Financial Services Group, Inc. when there is any change in his/her financial situation and/or financial objectives for the purpose of reviewing, evaluating, or revising previous recommendations and/or services. Clients may request a waiver of financial planning services.

Clark Financial Services Group, Inc. employs limited discretionary authority over and upon its client's accounts. This authority is set forth in the terms of the money management agreement form signed in regards to the investment made by the client. Our overall investment strategy for individuals and families is a long-term financial plan balanced for safety, income, growth, risk and taxes. While our focus is on the long-term, in order to carryout our asset allocation strategies, shorter-term investment vehicles are used to permit flexibility of the investments. The objective is to help the client reach his/her financial goals.

Comprehensive Financial Planning service includes financial planning, implementation, and ongoing asset management/monitoring services. Financial planning may include identification of financial problems, cash flow and budget management, tax planning, risk-exposure review, investment management, education funding, retirement planning, estate planning, charitable goals, small business planning issues, fringe benefits, special-needs planning or other issues specific to the client. A written evaluation of the client's current situation and their goals is provided to the client. The engagement also includes implementation of recommendations accepted by client, unlimited telephone support, meetings as required, on-going financial planning services, reminders of the specific courses of action that need to be taken, and quarterly, semi-annual or annual written portfolio reviews as negotiated with each client. More frequent reviews may occur but are not necessarily communicated to the client unless immediate changes are recommended.

As part of a complete financial plan, the associated person may make recommendations concerning life insurance, disability insurance, taxes, and fixed annuities. Recommendations are also made, if applicable, for the client to seek the advice of an estate planning attorney, CPA or a mortgage professional.

Tailored Relationships

At Clark Financial Services Group, Inc., advisory services are tailored to the individual needs of clients. Client goals and objectives are clarified in meetings and via correspondence, and are used to determine the course of action for each individual client. Clients may impose restrictions on investing in certain securities or types of securities. This must be done in writing and be signed by the client and Clark Financial Services Group, Inc.

Managed Assets

As of December 31, 2013, Clark Financial Services Group, Inc. managed approximately \$151,398,092 in assets and had approximately \$ 10,164,525 in non-discretionary assets.

Fees and Compensation

Description

Clark Financial Services Group, Inc. offers investment advisory services and is compensated by a percentage of assets under management, hourly charges, fixed fees (not including subscription fees), commissions and/or by “other” means. “Other” refers to the service applicant affiliates may provide clients by selecting and monitoring the other money managers on the clients behalf. When applicant does so the money managers pay the applicant a portion of the fees generated by the referred clients.

Associated persons sell securities and insurance products for sales commissions. In addition, they manage clients accounts by selecting and monitoring other money managers on the client’s behalf for a percentage of the assets under their management. The annual fee ranges from 1% to 2%, depending on the size and complexity of a client’s account. Clark Financial Services Group, Inc.’s fees are 2% of account balance up to \$499,999. When the account reaches \$500,000 the fee on the entire account falls to 1 ½% up to \$999,999. When the account reaches \$1,000,000 the fee on the entire account falls to 1%. This fee structure is not negotiable, however the advisor may consider aggregating related accounts or offer a professional courtesy discount. The fee is paid quarterly or annually, at the beginning of each period. If a client cancels, any prepaid fees will be refunded on a prorated basis. TD Ameritrade accounts are charged at an annualized rate of 2.4%. The service may be discounted with a 30-day written notice, and the client’s obligation is only for time actually expended on his behalf. A prorated refund will be made for fees paid in advance. This is the typical arrangement, however, Clark Financial Services Group, Inc. reserves the right to use the following fee structure.

Financial Plan recommendations based on the client's goals are developed using data collected from the client. Fees may be charged for these plans, will be agreed upon at the first interview, and are based on the following schedule:

- 1) an hourly rate of \$150 to \$300 (depending upon the experience of the associated person providing service)
- 2) negotiated flat fee
- 3) as a percentage of client's net worth
- 4) as a percentage of client's income
- 5) a combination of the above.

Fees may be paid prior to or upon completion of the Plan as agreed. There is no cost for the first interview. Each associated person can waive the fees based on a case-by-case judgment of other compensation that may be received. The client may terminate the agreement with a 30-day written notice; client is obligated only for time actually expended on his behalf. Compensation is also received, if, the plan is implemented, by commissions received from life insurance companies or the

broker/dealer. Refunds, charge-backs and terminations are done on a basis of earned commissions for actual premiums paid on insurance. Commissions paid by our broker/dealer are only on earned business when they are received from various mutual funds, fixed and variable annuities, life insurance companies, limited partnerships, or clearing broker/dealers. Typically, "C" share and/or service class mutual funds pay a "Trail" fee of about 1% which serves as part of the overall compensation to Clark Financial Services for our extensive financial planning services such as, but not limited to: a written financial plan, estate planning (including meeting with the client's estate attorney), insurance analysis and recommendations, tax planning, health care cost planning for retirement, long term disability risk planning, long term care strategies, company retirement plan choice analysis.

Reviews of a client's Plan may be done, normally on an annual basis, for a fee based upon the same \$150 to \$300 per hour range, negotiated flat fee, percentage of net worth, percentage of income, or a combination of the above criteria. Fees are payable after the review is completed. Each associated person can waive the fees based on a case-by-case review and judgment of other compensation that may be received.

Advisers may charge a flat, negotiated fee ranging from \$50 to \$2,000 for researching and recommending and/or tracking no-load mutual funds (except money market funds). Clients may terminate the service at any time upon written notice, and the client's obligation is only for time actually expended on his behalf. Fees may be paid prior to or upon completion of the Plan as agreed. A prorated refund will be made for fees paid in advance. Specialized services may be provided at an hourly rate of \$150 to \$300. Fees may be paid prior to or upon completion of the service as agreed. Credits to management fees may be applied from 20% up to 100% for client referrals of \$100,000 or more at the discretion of Clark Financial Services Group, Inc.

Fee Billing

Fees are deducted from clients' assets or billed to the client directly, depending on the structure of the account. Fees are billed and deducted/due on a quarterly or annual basis. Clients may choose to pay by check or to have the fees pulled from their account.

Other Fees

Custodians may charge transaction fees on purchases or sales of certain mutual funds, stocks, bonds, and exchange-traded funds. These transaction charges are usually relatively small and are incidental to the purchase or sale of a security. In some cases, custodians also charge monthly, quarterly or annual custody fees. Fees for custody are disclosed to clients when this type of arrangement is recommended.

Mutual funds and exchange traded funds generally charge a management fee for their services as investment managers. The management fee is included in the expense ratio. Mutual fund fees also include transaction charges for the purchase or sale of securities within the fund and may charge other fees as disclosed in the fund prospectus. These fees are in addition to the fees paid by the client to Clark Financial Services Group, Inc.

Please see the section entitled “Brokerage Practices” on page 6 for more information.

Past Due Accounts and Termination of Agreement

Clark Financial Services Group, Inc. reserves the right to stop work on any account that is more than 60 days overdue. In addition, Clark Financial Services Group, Inc. reserves the right to terminate any financial planning engagement where a client has willfully concealed or has refused to provide pertinent information about financial situations when necessary and appropriate to providing proper financial advice, per the judgment of Clark Financial Services Group, Inc. Clients may terminate their agreement at any time by providing written notice.

Compensation for Sales of Investment Products

Advisor receives compensation from the sale of mutual funds and variable annuities. Compensation may be in the form of commissions and/or trails from the mutual fund companies. Additionally, the brokerage platform charges \$25 plus an \$8 service charge to purchase into a mutual fund family. Moving or selling out of a mutual fund family costs \$15 plus an \$8 service charge per fund. Buying or selling stock costs anywhere from \$28 to \$100 plus an \$8 service charge per holding. Clients have the option to purchase investment products recommended by Clark Financial Services Group, Inc. through other brokers or agents not affiliated with Clark Financial Services Group, Inc. These fees do not provide Clark Financial Services Group, Inc. primary compensation. Clark Financial Services Group, Inc.’s advisory fee is in addition to commissions or markups and does not reduce or offset commissions or markups. This practice presents a conflict of interest by offering an incentive to recommend investment products based on compensation, not necessarily on client needs.

Performance-Based Fees

Sharing of Capital Gains

Clark Financial Services Group, Inc. does not use a performance-based fee structure because of the potential conflict of interest. Performance-based compensation may create an incentive for the adviser to recommend an investment that may carry a higher degree of risk to the client. However, the nature of asset-based fees allows Clark Financial Services Group, Inc. to participate in the growth of the client's wealth. This also means that our fees can decline when the client's portfolio declines in value.

Types of Clients

Description

The only minimum required is for Money Management/Timing Services. A \$10,000 minimum is necessary to engage the product systems. The stock accounts offered have a \$100,000 minimum. These minimums are necessary to maintain the economies of scale that benefit the clients relative to fees charged.
