This brochure provides information about the qualifications and business practices of Morton Wealth Management LLC. If you have any questions about the contents of this brochure, please contact us at 336-294-8585 or SMorton@MortonWM.com. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

Additional information about Morton Wealth Management LLC is also available on the SEC's website at www.adviserinfo.sec.gov. You can search this site by a unique identifying number, known as a CRD number. Our firm's CRD number is 111471.

Item 2 Material Changes

We will use this section to report material changes affecting Morton Wealth Management LLC.

- 1.** Morton Wealth Management LLC has changed the schedule for the annualized fee for Investment Supervisory Services found in Item 5 of this document. This new fee schedule will be effective January 1, 2015 for clients joining after December 31, 2014. Existing clients are not subject to this new fee schedule and will continue the fee schedule contained in their executed Client Management Agreement.

Item 4 Advisory Business

Morton Wealth Management LLC ("MWM") is a SEC-registered investment adviser with its principal place of business located in North Carolina. Our firm began conducting business in 1999.

Steven Hendrie Morton is the sole owner and managing member of MWM.

Our firm is a fee-based consulting firm providing comprehensive wealth management, financial planning and investment management services to high-net worth individuals and families. MWM also provides services to 401(k) plans through the selection and monitoring of investments.

Our firm offers the following advisory services to our clients:

INVESTMENT SUPERVISORY SERVICES ("ISS") INDIVIDUAL PORTFOLIO MANAGEMENT

MWM provides continuous advice to a client regarding the investment of client funds based on the individual needs of the client. Through personal discussions in which goals and objectives based on a client's particular circumstances are established, we develop a client's personal investment policy (Investment Policy Statement) and create and manage a portfolio based on that policy. During our data-gathering process, we determine the client's individual objectives, time horizons, risk tolerance, and liquidity needs. As appropriate, we also review and discuss a client's prior investment history, as well as family composition and background.

We manage these advisory accounts on a discretionary or non-discretionary basis, based on client preference. Account supervision is guided by the client's stated objectives (i.e. maximum capital appreciation, growth, income, or growth and income), as well as tax considerations.

Clients may impose reasonable restrictions on investing in certain securities, types of securities, or industry sectors.

Our investment recommendations are not limited to any specific product or service offered by a broker-dealer and will generally include advice regarding the following securities:

- Exchange-listed securities
- Securities traded over-the-counter
- Foreign issuers
- Corporate debt securities (other than commercial paper)

- Certificates of deposit
- Municipal securities
- Mutual fund shares
- United States governmental securities
- Options contracts on securities
- Interests in partnerships investing in real estate

Because some types of investments involve certain additional degrees of risk, they will be implemented/recommended only when consistent with the client's stated investment objectives, tolerance for risk, liquidity and suitability.

FINANCIAL PLANNING

We provide financial planning services. Financial planning is a comprehensive evaluation of a client's current and future financial state using currently known variables to predict future cash flows, asset values and withdrawal plans. Through the financial planning process, all questions, information and analysis are considered as they impact and are impacted by the entire financial and life situation of the client. Clients purchasing this service receive a written report which provides a detailed financial plan designed to assist the client in achieving his or her financial goals and objectives.

In general, the financial plan can address any or all of the following areas:

- **PERSONAL:** We review family records, budgeting, personal liability, estate information and financial goals.
- **TAX & CASH FLOW:** We analyze the client's income tax, spending and planning for past, current and future years; then illustrate the impact of various investments on the client's current income tax and future tax liability.
- **INVESTMENTS:** We analyze investment alternatives and their effect on the client's portfolio.
- **INSURANCE:** We review existing policies to ensure proper coverage for life, health, disability, long-term care, liability, home and automobile.
- **RETIREMENT:** We analyze current strategies and investment plans to help the client achieve his or her retirement goals.
- **DEATH & DISABILITY:** We review the client's cash needs at death, income needs of surviving dependents, estate planning and disability income.
- **ESTATE:** We assist the client in assessing and developing long-term strategies, including as appropriate, living trusts, wills, estate tax, powers of attorney, asset protection plans, nursing homes, Medicaid and elder law.

We gather required information through in-depth personal interviews. Information gathered includes the client's current financial status, tax status, future goals, return objectives and

attitudes toward risk. We carefully review documents supplied by the client, including a questionnaire completed by the client, and prepare a written report. Should the client choose to implement the recommendations contained in the plan, we suggest the client work closely with his/her attorney, accountant, insurance agent, and/or stockbroker. Implementation of financial plan recommendations is entirely at the client's discretion.

We also provide general non-securities advice on topics that may include tax and budgetary planning, estate planning and business planning.

Typically the financial plan is presented to the client within six months of the contract date, provided that all information needed to prepare the financial plan has been promptly provided.

Financial Planning recommendations are not limited to any specific product or service offered by a broker-dealer or insurance company. All recommendations are of a generic nature.

RETIREMENT PLAN SERVICES

MWM provides investment advisory services to employee-directed pension, profit sharing and 401(k) plans through platforms provided by First Mercantile Trust Company. These services consist of the following:

- *Selection of Investment Vehicles:* Our firm will review various financial products including mutual funds and/or money managers to determine which of these are appropriate to implement the client's retirement plan needs. The number of funds/money managers to be recommended will be determined by the client based upon our firm's recommendation.
- *Monitoring of Investment Performance:* Funds and money managers will be monitored continuously by First Mercantile Trust Company. Although MWM will not be involved in any way in the purchase or sale of investments managed by money managers, our firm will supervise the client's available money managers and will make recommendations to the client as market factors and the client's needs dictate.
- *Employee Communications:* MWM provides educational support and investment workshops designed for the retirement plan participants. The nature of the topics to be covered will be determined by our firm and the client under the guidelines established in ERISA Section 404(c). The educational support and investment workshops will not provide Plan participants with individualized, tailored investment advice or individualized, tailored asset allocation recommendations.

SEMINARS

Our firm occasionally sponsors educational seminars on various investment topics. The investment information provided under this service does not purport to meet the objectives or needs of each individual client. The seminars will provide participants with discussions on asset allocation strategies, estate and retirement planning, and general educational topics. Our seminars may be open to the public.

GENERAL

When multiple services (investment supervisory services, or plan implementation and financial planning services) are offered, there is a potential conflict of interest since there is an incentive to recommend products or services for which the advisor, or a related party, may receive compensation. However, clients are under no obligation to act upon any recommendations of our firm or to effect any transactions through MWM if they decide to follow the recommendations.

AMOUNT OF MANAGED ASSETS

As of 12/31/2013, we were actively managing \$285,000,000 of clients' assets on a discretionary basis plus \$5,400,000 of clients' assets on a non-discretionary basis.

Item 5 Fees and Compensation

INVESTMENT SUPERVISORY SERVICES ("ISS") INDIVIDUAL PORTFOLIO MANAGEMENT FEES

The annualized fee for Investment Supervisory Services is charged as a percentage of assets under management, according to the following schedule:

<u>Assets Under Management</u>	<u>Annual Fee</u>
On first \$1,000,000	1.00%
On next \$1,000,000	0.75%
On next \$2,000,000	0.65%
On next \$3,000,000	0.45%
On next \$4,000,000	0.30%
On next \$9,000,000	0.25%
Over \$20,000,000	0.20%

A minimum annual fee of \$1,000 is required for this service. Our firm's advisory fees are not negotiable. However, some clients' fee schedules may be based on prior contractual arrangements and/or historical fee schedules that differ from the schedule above.

Fees Billed in Advance or Arrears: Our advisory fees are charged in one of two ways as agreed upon with the client:

- *In advance:* Advisory fees are billed in advance at the beginning of each calendar quarter based upon the asset value (market or fair market value in the absence of market value, plus any credit balance or minus any debit balance) of the client's account equity at the end of the previous quarter.
- *In arrears:* Advisory fees are billed in arrears at the end of each calendar quarter based upon the asset value (market or fair market value in the absence of market value) of the client's account at quarter-end.

When authorized by the client, fees are debited from the account in accordance with the terms set forth in the Client Management Agreement.

FINANCIAL PLANNING FEES

Our firm's Financial Planning fee is determined based on the nature of the services being provided and the complexity of each client's circumstances. All fees are agreed upon prior to entering into a contract with any client.

Our Financial Planning fees are calculated and charged on a fixed fee basis, typically ranging from \$1,500 to \$5,000, depending on the complexity of the client's personal and business financial situation.

The actual fee is either fixed at the time of the initial meeting or based on actual hours, depending on the financial planning contract. The fee is due when the financial plan is complete, and all analyses and recommendations have been presented to the client.

If outside consultants are required for additional analysis and advice, the resulting cost will increase the amounts disclosed in the above fee schedule and will be payable directly to those outside consultants.

RETIREMENT PLAN SERVICES FEES

MWM establishes the fees charged by the platform companies and is paid directly by them as part of a plan servicing fee. These fees are disclosed by the platform companies and vary depending upon the size of plan assets

Our Retirement Plan Services fees are charged as a percentage of assets under advisement by our firm, typically ranging from .40% to .80%.

Fees are charged directly from participant accounts and are accrued daily and paid monthly, in arrears.

GENERAL INFORMATION

Termination of the Advisory Relationship: A client agreement may be canceled at any time, by either party, for any reason upon receipt of written notice. As disclosed above, certain fees are paid in advance of services provided. Upon termination of any account, any prepaid, unearned fees will be promptly refunded. In calculating a client's reimbursement of fees, we will prorate the reimbursement according to the number of days remaining in the billing period. The client has the right to terminate an agreement without penalty within five business days after entering into the agreement.

Mutual Fund Fees: All fees paid to MWM for investment advisory services are separate and distinct from the fees and expenses charged by mutual funds and/or ETFs to their shareholders. These fees and expenses are described in each fund's prospectus. These fees will generally include a management fee, other fund expenses, and a possible distribution fee. If the fund also imposes sales charges, a client may pay a deferred sales fee as charged by the third party fund manager. A client could invest in a mutual fund directly, without our services. In that case, the client would not receive the services provided by our firm which are designed, among other things, to assist the client in determining which mutual fund or funds are most appropriate to each client's financial condition and objectives. Accordingly, the client should review both the fees charged by the funds and our fees to fully understand the

total amount of fees to be paid by the client and to thereby evaluate the advisory services being provided.

Additional Fees and Expenses: In addition to our advisory fees, clients are also responsible for the fees and expenses charged by custodians and imposed by broker dealers, including, but not limited to, any transaction charges imposed by a broker dealer with which an independent investment manager effects transactions for the client's account(s). Please refer to the "Brokerage Practices" section (Item 12) of this Form ADV for additional information.

ERISA Accounts: MWM is deemed to be a fiduciary to advisory clients that are employee benefit plans or individual retirement accounts (IRAs) pursuant to the Employee Retirement Income and Securities Act ("ERISA"), and regulations under the Internal Revenue Code of 1986 (the "Code"), respectively. As such, our firm is subject to specific duties and obligations under ERISA and the Internal Revenue Code that include among other things, restrictions concerning certain forms of compensation. To avoid engaging in prohibited transactions, MWM may only charge fees for investment advice about products for which our firm and/or our related persons do not receive any commissions or 12b-1 fees, or conversely, investment advice about products for which our firm and/or our related persons receive commissions or 12b-1 fees, however, only when such fees are used to offset our advisory fees.

Advisory Fees in General: Clients should note that similar advisory services may (or may not) be available from other registered (or unregistered) investment advisers for similar or lower fees.

Waiver of Financial Planning Fees: MWM may provide basic financial planning services free of charge or at a reduced fee to clients who receive investment supervisory services.

Limited Prepayment of Fees: Under no circumstances do we require or solicit payment of fees in excess of \$1,200 more than six months in advance of services rendered.

Item 6 Performance-Based Fees and Side-By-Side Management

MWM does not charge performance-based fees.

Item 7 Types of Clients

Our firm provides advisory services to the following types of clients:

- Individuals (other than high net worth individuals)
- High net worth individuals
- Pension and profit sharing plans (other than plan participants)

- Charitable organizations
- Corporations or other businesses not listed above

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

METHODS OF ANALYSIS

Investment portfolios managed by our firm generally consist of a diversified portfolio of mutual funds and exchange-traded funds (ETFs).

We use the following methods of analysis in formulating our investment advice and/or managing client assets:

Fundamental Analysis. We attempt to measure the intrinsic value of a security by looking at economic and financial factors (including the overall economy, industry conditions, and the financial condition and management of the company itself) to determine if the company is underpriced (indicating it may be a good time to buy) or overpriced (indicating it may be time to sell).

Fundamental analysis does not attempt to anticipate market movements. This presents a potential risk, as the price of a security can move up or down along with the overall market regardless of the economic and financial factors considered in evaluating the stock.

Fundamental analysis is primarily used as a method of analysis when working out of equity positions received into client accounts from other brokers.

Technical Analysis. We analyze past market movements and apply that analysis to the present in an attempt to recognize recurring patterns of investor behavior and potentially predict future price movement.

Technical analysis does not consider the underlying financial condition of a company. This presents a risk in that a poorly-managed or financially unsound company may underperform regardless of market movement.

Technical analysis is primarily used as a method of analysis when working out of equity positions received into client accounts from other brokers.

Quantitative Analysis. We use mathematical models in an attempt to obtain more accurate measurements of a company's quantifiable data, such as the value of a share price or earnings per share, and predict changes to that data.

A risk in using quantitative analysis is that the models used may be based on assumptions that prove to be incorrect.

Quantitative analysis is primarily used as a method of analysis when working out of equity positions received into client accounts from other brokers.

Qualitative Analysis. We subjectively evaluate non-quantifiable factors such as quality of management, labor relations, and strength of research and development factors not readily subject to measurement, and predict changes to share price based on that data.

A risk in using qualitative analysis is that our subjective judgment may prove incorrect.

Qualitative analysis is primarily used as a method of analysis when working out of equity positions received into client accounts from other brokers.

Asset Allocation. Rather than focusing primarily on securities selection, we attempt to identify an appropriate ratio of securities, fixed income, and cash suitable to the client's investment goals and risk tolerance.

A risk of asset allocation is that the client may not participate in sharp increases in a particular security, industry or market sector. Another risk is that the ratio of securities, fixed income, and cash will change over time due to stock and market movements and, if not corrected, will no longer be appropriate for the client's goals.

Mutual Fund and/or ETF Analysis. We look at the experience and track record of the manager of the mutual fund or ETF in an attempt to determine if that manager has demonstrated an ability to successfully invest over a period of time and in different economic conditions. We also look at the underlying assets in a mutual fund or ETF in an attempt to determine if there is significant overlap in the underlying investments held in another fund(s) in the client's portfolio. We also monitor the funds or ETFs in an attempt to determine if they are continuing to follow their stated investment strategy.

Other factors that enter into our investment decisions include fund expenses, volatility, Modern Portfolio Theory statistics, and stewardship considerations.

A risk of mutual fund and/or ETF analysis is that, as in all securities investments, past performance does not guarantee future results. A manager who has been successful may not be able to replicate that success in the future. In addition, as we do not control the underlying investments in a fund or ETF, managers of different funds held by the client may purchase the same security, increasing the risk to the client if that security were to fall in value. There is also a risk that a manager may deviate from the stated investment mandate or strategy of the

fund or ETF, which could make the holding(s) less suitable for the client's portfolio.

Risks for all forms of analysis. Our securities analysis methods rely on the assumption that the companies whose securities we purchase and sell, the rating agencies that review these securities, and other publicly-available sources of information about these securities, are providing accurate and unbiased data. While we are alert to indications that data may be incorrect, there is always a risk that our analysis may be compromised by inaccurate or misleading information.

INVESTMENT STRATEGIES

We use the following strategy(ies) in managing client accounts, provided that such strategy(ies) are appropriate to the needs of the client and consistent with the client's investment objectives, risk tolerance, and time horizons, among other considerations:

Long-term purchases. We purchase securities with the idea of holding them in the client's account for a year or longer. Typically we employ this strategy when:

- we believe the securities to be currently undervalued, and/or
- we want exposure to a particular asset class over time, regardless of the current projection for this class.

A risk in a long-term purchase strategy is that by holding the security for this length of time, we may not take advantage of short-term gains that could be profitable to a client. Moreover, if our assessments are incorrect, a security may decline sharply in value before we make the decision to sell.

Option writing. We may use options as an investment strategy. An option is a contract that gives the buyer the right, but not the obligation, to buy or sell an asset (such as a share of stock) at a specific price on or before a certain date. An option, just like a stock or bond, is a security. An option is also a derivative, because it derives its value from an underlying asset.

The two types of options are calls and puts:

- A call gives us the right to buy an asset at a certain price within a specific period of time. We will buy a call if we have determined that the stock will increase substantially before the option expires.
- A put gives us, the holder, the right to sell an asset at a certain price within a specific period of time. We will buy a put if we have determined that the price of the stock will fall before the option expires.

We use "covered calls" in which we sell an option on a security you own. In this strategy, you receive a fee for making the option available, and the person purchasing the option has the

right to buy the security from you at an agreed-upon price.

Risk of Loss. Securities investments are not guaranteed and you may lose money on your investments. We ask that you work with us to help us understand your tolerance for risk.

Item 9 Disciplinary Information

We are required to disclose any legal or disciplinary events that are material to a client's or prospective client's evaluation of our advisory business or the integrity of our management.

Our firm and our management personnel have no reportable disciplinary events to disclose.

Item 10 Other Financial Industry Activities and Affiliations

Steven H. Morton, a principal of MWM, is a licensed insurance agent. Mr. Morton may sell insurance products to clients who wish to implement such transactions. MWM may receive separate, typical compensation in the form of insurance commissions for providing such services. This creates a potential conflict of interest because there is an incentive for him to recommend services for which he receives compensation. Clients are not obligated to follow the recommendations of Mr. Morton or implement the recommendations through him if they decide to follow the recommendations.

Jonathan W. Stoller works as a personal/business manager with clients in the entertainment industry through Transformation and Organization, Inc. (TAO). In this separate capacity, Mr. Stoller gives advice, guides clients' careers, and provides bookkeeping services. Mr. Stoller receives separate, typical compensation for providing such services. Mr. Stoller may recommend that clients of TAO use our firm's investment management and/or financial planning services. TAO clients are not obligated to use our firm's services but some choose to do so. This creates a potential conflict of interest because there is an incentive for Mr. Stoller to recommend services for which he receives compensation.

Mr. Stoller receives incentive compensation for the recommendation or introduction of potential clients to Morton Wealth Management LLC in the form of a percentage of the fees paid to MWM for investment supervisory services. Clients are under no obligation to work with MWM.

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Our firm has adopted a Code of Ethics which sets forth high ethical standards of business conduct that we require of our employees, including compliance with applicable federal securities laws.

MWM and our personnel owe a duty of loyalty, fairness and good faith towards our clients, and have an obligation to adhere not only to the specific provisions of the Code of Ethics, but also to the general principles that guide the Code.

Our Code of Ethics includes policies and procedures for the review of quarterly securities transactions reports as well as initial and annual securities holdings reports that must be submitted by the firm's access persons. Among other things, our Code of Ethics also requires the prior approval of any acquisition of securities in a limited offering (e.g., private placement) or an initial public offering. Our code also provides for oversight, enforcement and recordkeeping provisions.

Our Code of Ethics further includes the firm's policy prohibiting the use of material non-public information. While we do not believe that we have any particular access to non-public information, all employees are reminded that such information may not be used in a personal or professional capacity.

A copy of our Code of Ethics is available to our advisory clients and prospective clients. You may request a copy by email sent to SMorton@MortonWM.com, or by calling us at 336-294-8585.

Our Code of Ethics is designed to assure that the personal securities transactions, activities and interests of our employees will not interfere with (i) making decisions in the best interest of advisory clients and (ii) implementing such decisions while, at the same time, allowing employees to invest for their own accounts.

Our firm and/or individuals associated with our firm may buy or sell for their personal accounts securities identical to or different from those recommended to our clients. In addition, any related person(s) may have an interest or position in a certain security(ies) which may also be recommended to a client.

It is the expressed policy of our firm that no person employed by us may purchase or sell any security prior to a transaction(s) being implemented for an advisory account, thereby preventing such employee(s) from benefiting from transactions placed on behalf of advisory accounts.

As these situations represent actual or potential conflicts of interest to our clients, we have established the following policies and procedures for implementing our firm's Code of Ethics, to ensure our firm complies with its regulatory obligations and provides our clients and potential clients with full and fair disclosure of such conflicts of interest:

- No owner or employee of our firm may put his or her own interest above the interest of an advisory client.
- No owner or employee of our firm may buy or sell securities for his or her personal portfolio(s) where his or her decision is a result of information received as a result of his or her employment unless the information is also available to the investing public.
- It is the expressed policy of our firm that no person employed by us may purchase or sell any security prior to a transaction(s) being implemented for an advisory account. This prevents such employees from benefiting from transactions placed on behalf of advisory accounts.
- Our firm requires prior approval for any IPO or private placement investments by related persons of the firm.
- We maintain a list of all reportable securities holdings for our firm and anyone associated with this advisory practice who has access to advisory recommendations ("access person"). These holdings are reviewed on a regular basis by our firm's Chief Compliance Officer or his/her designee.
- We have established procedures for the maintenance of all required books and records.
- Clients can decline to implement any advice rendered, except in situations where our firm is granted discretionary authority.
- All of our owners and employees must act in accordance with all applicable Federal and State regulations governing registered investment advisory practices.
- We require delivery and acknowledgement of the Code of Ethics by each supervised person of our firm.
- We have established policies requiring the reporting of Code of Ethics violations to our senior management.
- Any individual who violates any of the above restrictions may be subject to termination.

Item 12 Brokerage Practices

For discretionary clients, MWM requires these clients to provide us with written authority to determine the broker dealer to use and the commission costs that will be charged to these clients for these transactions.

These clients must include any limitations on this discretionary authority in this written authority statement. Clients may change/amend these limitations as required. Such amendments must be provided to us in writing.

As a matter of policy and practice, MWM does not generally block client trades and, therefore, we implement client transactions separately for each account. Consequently, certain client trades may be executed before others, at a different price and/or commission rate. Additionally, our clients may not receive volume discounts available to advisers who block client trades.

Our firm may recommend that clients establish brokerage accounts with the Schwab Institutional division of Charles Schwab & Co., Inc. ("Schwab"), a FINRA registered broker-dealer, member SIPC, to maintain custody of clients' assets and to effect trades for their accounts. Although we recommend that clients establish accounts at Schwab, it is the client's decision to custody assets with Schwab. MWM is independently owned and operated and not affiliated with Schwab.

Schwab provides our firm with access to its institutional trading and custody services, which are typically not available to Schwab retail investors. These services generally are available to independent investment advisers on an unsolicited basis, at no charge to them so long as a total of at least \$10 million of the adviser's clients' assets are maintained in accounts at Schwab Institutional. These services are not contingent upon our firm committing to Schwab any specific amount of business (assets in custody or trading commissions). Schwab's brokerage services include the execution of securities transactions, custody, research, and access to mutual funds and other investments that are otherwise generally available only to institutional investors or would require a significantly higher minimum initial investment.

For our client accounts maintained in its custody, Schwab generally does not charge separately for custody services but is compensated by account holders through commissions and other transaction-related or asset-based fees for securities trades that are executed through Schwab or that settle into Schwab accounts.

Schwab Institutional also makes available to our firm other products and services that benefit MWM but may not directly benefit our clients' accounts. Many of these products and services may be used to service all or some substantial number of our client accounts, including accounts not maintained at Schwab.

Schwab's products and services that assist us in managing and administering our clients' accounts include software and other technology that:

- i. provide access to client account data (such as trade confirmations and account statements);
- ii. facilitate trade execution and allocate aggregated trade orders for multiple client accounts;
- iii. provide research, pricing and other market data;
- iv. facilitate payment of our fees from clients' accounts; and
- v. assist with back-office functions, recordkeeping and client reporting.

Schwab Institutional also offers other services intended to help us manage and further develop our business enterprise. These services may include:

- i. compliance, legal and business consulting;
- ii. publications and conferences on practice management and business succession; and
- iii. access to employee benefits providers, human capital consultants and insurance providers.

Schwab may make available, arrange and/or pay third-party vendors for the types of services rendered to our firm. Schwab Institutional may discount or waive fees it would otherwise charge for some of these services or pay all or a part of the fees of a third-party providing these services to our firm. Schwab Institutional may also provide other benefits such as educational events or occasional business entertainment of our personnel. In evaluating whether to recommend or require that clients custody their assets at Schwab, we may take into account the availability of some of the foregoing products and services and other arrangements as part of the total mix of factors we consider and not solely on the nature, cost or quality of custody and brokerage services provided by Schwab, which may create a potential conflict of interest.

MWM participates in the institutional advisor program (the "Program") offered by TD Ameritrade Institutional. TD Ameritrade Institutional is a division of TD Ameritrade Inc., member FINRA/SIPC/NFA ("TD Ameritrade"), an unaffiliated SEC-registered broker-dealer and FINRA member. TD Ameritrade offers to independent investment advisors services which include custody of securities, trade execution, clearance and settlement of transactions. MWM receives some benefits from TD Ameritrade through our participation in the Program.

Our firm participates in TD Ameritrade's Institutional customer program and we may recommend TD Ameritrade to our clients for custody and brokerage services. There is no direct link between our firm's participation in the program and the investment advice we give to our clients, although we receive economic benefits through our participation in the program that are typically not available to TD Ameritrade retail investors.

These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving Advisor participants; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to client accounts); the ability to have advisory fees deducted directly from client accounts; access to an electronic communications network for client order entry and account information; access to mutual funds with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management products or services provided to our firm by third party vendors. TD Ameritrade may also pay for business consulting and professional

services received by MWM related persons.

Some of the products and services made available by TD Ameritrade through the Program may benefit our firm but may not benefit our client accounts. These products or services may assist us in managing and administering client accounts, including accounts not maintained at TD Ameritrade. Other services made available by TD Ameritrade are intended to help us manage and further develop our business enterprise. The benefits received by MWM or our personnel through participation in the program do not depend on the amount of brokerage transactions directed to TD Ameritrade. As part of our fiduciary duties to clients, our firm endeavors at all times to put the interests of our clients first. Clients should be aware, however, that the receipt of economic benefits by MWM or our related persons in and of itself creates a potential conflict of interest and may indirectly influence our recommendation of TD Ameritrade for custody and brokerage services. (Please see disclosure under Item 14 below.)

OTHER ECONOMIC BENEFITS

Mutual fund companies may cover travel, lodging and meal expenses for MWM representatives to attend due diligence meetings. In addition, mutual fund companies may help cover a portion of the expenses of client events hosted by our firm. There is an incentive to review and consider mutual fund companies who cover these costs.

TRADE ERROR POLICY

From time-to-time MWM may make an error in submitting a trade order on your behalf. When this occurs, our firm may place a correcting trade with the broker-dealer which has custody of your account.

In accounts custodied at Schwab, if an investment gain results from the correcting trade, the gain will remain in your account unless the same error involved other client account(s) that should have received the gain, it is not permissible for you to retain the gain, or we confer with you and you decide to forego the gain (e.g., due to tax reasons). If the gain does not remain in your account and Schwab is the custodian, Schwab will donate the amount of any gain \$100 and over to charity. If a loss occurs greater than \$100, our firm will pay for the loss. Schwab will maintain the loss or gain (if such gain is not retained in your account) if it is under \$100 to minimize and offset its administrative time and expense. Generally, if related trade errors result in both gains and losses in your account, they may be netted. In accounts custodied at TD Ameritrade, any trade correction costs will be charged to the Advisor.

Item 13 Review of Accounts

INVESTMENT SUPERVISORY SERVICES ("ISS") INDIVIDUAL PORTFOLIO MANAGEMENT

REVIEWS: While the underlying securities within Individual Portfolio Management Services accounts are continually monitored, these accounts are reviewed at least semi-annually. Accounts are reviewed in the context of each client's stated investment objectives and guidelines. More frequent reviews may be triggered by material changes in variables such as the client's individual circumstances, or the market, political or economic environment. These accounts are reviewed by: Steven H. Morton, CPA, CFP.

REPORTS: In addition to the monthly statements and confirmations of transactions that clients receive from their broker-dealer, we provide quarterly reports summarizing positions held and current values by asset categories. Performance reporting is provided semi-annually.

FINANCIAL PLANNING SERVICES

REVIEWS: While reviews may occur at different stages depending on the nature and terms of the specific engagement, typically no formal reviews will be conducted for Financial Planning clients unless otherwise contracted for.

REPORTS: Financial Planning clients will receive a completed financial plan. Additional reports will not typically be provided unless otherwise contracted for.

RETIREMENT PLAN SERVICES

REVIEWS: MWM conducts periodic reviews of fund managers and performance. In addition, our firm periodically provides educational support and investment workshops for plan participants.

REPORTS: MWM provides no reports to plan participants. Reports are provided by First Mercantile Trust Company.

Item 14 Client Referrals and Other Compensation

As disclosed under Item 12 above, MWM may receive client referrals from TD Ameritrade through our participation in TD Ameritrade AdvisorDirect. In addition to meeting the minimum eligibility criteria for participation in AdvisorDirect, our firm may have been selected to participate in AdvisorDirect based on the amount and profitability to TD

Ameritrade of the assets in, and trades placed for, client accounts maintained with TD Ameritrade. TD Ameritrade is a discount broker-dealer independent of and unaffiliated with MWM and there is no employee or agency relationship between them. TD Ameritrade has established AdvisorDirect as a means of referring its brokerage customers and other investors seeking fee-based personal investment management services or financial planning services to independent investment advisors.

TD Ameritrade does not supervise our firm and has no responsibility for our management of client portfolios or other advice or services. MWM pays TD Ameritrade an on-going fee for each successful client referral. This fee is usually a percentage (not to exceed 25%) of the advisory fee that the client pays to our firm ("Solicitation Fee"). MWM will also pay TD Ameritrade the Solicitation Fee on any advisory fees received by our firm from any of a referred client's family members, including a spouse, child or any other immediate family member who resides with the referred client and hired our firm on the recommendation of such referred client. MWM will not charge clients referred through AdvisorDirect any fees or costs higher than our standard fee schedule offered to our clients or otherwise pass Solicitation Fees paid to TD Ameritrade to our clients. For information regarding additional or other fees paid directly or indirectly to TD Ameritrade, please refer to the TD Ameritrade AdvisorDirect Disclosure and Acknowledgement Form.

Our firm's participation in AdvisorDirect raises potential conflicts of interest. TD Ameritrade will most likely refer clients through AdvisorDirect to investment advisors that encourage their clients to custody their assets at TD Ameritrade and whose client accounts are profitable to TD Ameritrade. Consequently, in order to obtain client referrals from TD Ameritrade, our firm may have an incentive to recommend to clients that the assets under management by our firm be held in custody with TD Ameritrade and to place transactions for client accounts with TD Ameritrade. In addition, MWM has agreed not to solicit clients referred to it through AdvisorDirect to transfer their accounts from TD Ameritrade or to establish brokerage or custody accounts at other custodians, except when our fiduciary duties require doing so. Our firm's participation in AdvisorDirect does not diminish our duty to seek best execution of trades for client accounts.

It is our firm's policy not to accept or allow our related persons to accept any form of compensation, including cash, sales awards or other prizes, from a non-client in conjunction with the advisory services we provide to our clients.

Item 15 Custody

We previously disclosed in the "Fees and Compensation" section (Item 5) of this Brochure that our firm directly debits advisory fees from client accounts.

As part of this billing process, the client's custodian is advised of the amount of the fee to be deducted from that client's account. On at least a quarterly basis, the custodian is required to send to the client a statement showing all transactions within the account during the reporting period.

Because the custodian does not calculate the amount of the fee to be deducted, it is important for clients to carefully review their custodial statements to verify the accuracy of the calculation, among other things. Clients should contact us directly if they believe that there may be an error in their statement.

In addition to the periodic statements that clients receive directly from their custodians, we also send account statements directly to our clients on a quarterly basis. We urge our clients to carefully compare the information provided on these statements to ensure that all account transactions, holdings and values are correct and current.

Our firm does not have actual or constructive custody of client accounts.

Item 16 Investment Discretion

Clients may hire us to provide discretionary asset management services, in which case we place trades in a client's account without contacting the client prior to each trade to obtain the client's permission. Each client's portfolio is managed according to an Investment Policy Statement (IPS), which is created from the client's risk tolerance and investor circumstances. Within the guidelines of the IPS, MWM has complete discretion as to the securities to be bought and sold within the portfolio. Our discretionary authority includes the ability to do the following without contacting the client:

- determine the security to buy or sell; and/or
- determine the amount of the security to buy or sell

Clients give us discretionary authority when they sign a discretionary agreement with our firm, and may limit this authority by giving us written instructions. The client retains the rights to (a) instruct the advisor not to invest in any particular type of security (such instruction to be given in writing), (b) exercise ownership and control over the assets in the account, and (c) add or withdraw securities or cash to or from the account at any time. Clients may also change/amend such limitations by once again providing us with written instructions.

Clients may choose to have their portfolio managed on a non-discretionary basis.

Item 17 Voting Client Securities

We generally vote proxies for our client accounts, and for securities that we have purchased for our clients or recommended for purchase. However, clients always have the right to vote proxies themselves. They can exercise this right by instructing us in writing to not vote proxies in their accounts. We may consult with clients, as requested, who choose to vote their own proxies. We generally do not vote proxies for securities that were purchased by or recommended for purchase by another broker. We also do not generally vote proxies for securities that the client chose to purchase of his/her own accord.

We will vote proxies in the best interests of our clients and in accordance with our established policies and procedures. Our firm will retain all proxy voting books and records for the requisite period of time, including a copy of each proxy statement received, a record of each vote cast, a copy of any document created by us that was material to making a decision how to vote proxies, and a copy of each written client request for information on how the adviser voted proxies. If our firm has a conflict of interest in voting a particular action, we will notify the client of the conflict and retain an independent third-party to cast a vote.

Clients may obtain a copy of our complete proxy voting policies and procedures by contacting Steven H. Morton by telephone, email, or in writing. Clients may request, in writing, information on how proxies for his/her shares were voted. If any client requests a copy of our complete proxy policies and procedures or how we voted proxies for his/her account(s), we will promptly provide such information to the client.

We will neither advise nor act on behalf of the client in legal proceedings involving companies whose securities are held in the client's account(s), including, but not limited to, the filing of "Proofs of Claim" in class action settlements. If desired, clients may direct us to transmit copies of class action notices to the client or a third party. Upon such direction, we will make commercially reasonable efforts to forward such notices in a timely manner.

With respect to ERISA accounts, we will vote proxies unless the plan documents specifically reserve the plan sponsor's right to vote proxies. To direct us to vote a proxy in a particular manner, clients should contact Steven H. Morton by telephone, email, or in writing.

For accounts and/or securities where we do not vote proxies, our firm may provide investment advisory services relative to client investment assets. Clients maintain exclusive responsibility for: (1) directing the manner in which proxies solicited by issuers of securities beneficially owned by the client shall be voted, and (2) making all elections relative to any mergers, acquisitions, tender offers, bankruptcy proceedings or other type events pertaining to the client's investment assets. Clients are responsible for instructing each custodian of the assets to forward to the client copies of all proxies and shareholder communications relating

to the client's investment assets.

We may provide clients with consulting assistance regarding proxy issues if they contact us with questions at our principal place of business.

Clients can instruct us to vote proxies according to particular criteria (for example, to always vote with management, or to vote for or against a proposal to allow a so-called "poison pill" defense against a possible takeover). These requests must be made in writing. Clients can also instruct us on how to cast your vote in a particular proxy contest by contacting us at 336-294-8585 or by emailing SMorton@MortonWM.com.

Item 18 Financial Information

Under no circumstances do we require or solicit payment of fees in excess of \$1,200 per client more than six months in advance of services rendered. Therefore, we are not required to include a financial statement.

As an advisory firm that maintains discretionary authority for client accounts, we are also required to disclose any financial condition that is reasonably likely to impair our ability to meet our contractual obligations. MWM has no additional financial circumstances to report.

Our firm has not been the subject of a bankruptcy petition at any time during the past ten years.
