Dave founded MCS in April 2007 to provide principle protection and asset appreciation through low risk tactical investments, to RIAs, wealth advisors, endowments, foundations and institutions. In the midst of the financial crisis in 2008, the MCS strategies proved their efficacy; were positive for the year protecting MCS clients from the pain of negative returns. As noted in the firm's eight year track record, the MCS strategies have continued to grow clients' assets by adding appreciation to the accounts' value at the market's pre-crash peak in Oct 2007, rather than building on value remaining at the trough in March 2009. Because of his unique investment philosophy and the utilization of ETFs within the strategies, Mr. Schombert is a frequent panelist on risk management and ETF trading at industry conferences. David founded MCS after 11 successful years as a Vice President of Private Client Wealth Management in the Smith Barney division of CitiGroup Global Markets, Inc. Prior to Smith Barney he served as a financial risk analyst evaluating risk-reward on major contracts for numerous Fortune 500 Companies. Mr. Schombert received his B.S. in Finance from George Mason University.
