March 27, 2014

This Brochure provides information about the qualifications and business practices of Kennet Partners LLC (the “Adviser”). If you have any questions about the contents of this Brochure, please contact Neil Cooper by e-mail at ncooper@kennet.com. The information in this Brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority, and references in this Brochure to the Adviser as a “registered investment adviser” are not intended to imply a certain level of skill or training.

Additional information about the Adviser is also available on the SEC’s website at www.adviserinfo.sec.gov.

ITEM 2 – MATERIAL CHANGES

There have been no material changes to this Brochure since the last annual update filed on March 28, 2013.

In the future, this section will discuss specific material changes that have been made to the Brochure since the last annual update and provide clients with a summary of those changes.

ITEM 4 – ADVISORY BUSINESS

Kennet Partners LLC (“Kennet Partners” or the “Adviser”), a limited liability company formed in Delaware in 2001, and its affiliates, Kennet Capital Management (Jersey) Ltd and Kennet Partners Limited (together, the “Affiliated Advisers” and with Kennet Partners, “Kennet”), provide discretionary investment advisory services to the following private investment funds:

- Kennet II L.P.
- King Street Partners LP (together with Kennet II L.P., “Kennet II”)
- Kennet III A L.P.
- Kennet III B L.P. (together with Kennet III A L.P., “Kennet III”)

(together, the “Funds” or the “Kennet Funds”). The Funds are principally focused on growth equity investing in the technology industry. The Affiliated Advisers were formed in 1996 and 1997.

At this point, both Kennet II and Kennet III are outside of their investment period, and thus are not making new investments. Both Kennet II and Kennet III are making select follow-on investments in to the existing portfolio. The Funds have limited terms of existence, at the conclusion of which, final distributions are paid to Investors.

King Street Partners LP is a co-investment fund which has been established for investment by Kennet employees and which invests alongside Kennet II L.P, at the same time and at terms no more favorable than Kennet II L.P.

Kennet II GP Ltd and Kennet III GP Ltd, affiliates of Kennet, serve as the general partners to Kennet II and Kennet III, respectively (the “Affiliated General Partners”).

Kennet Partners is indirectly but beneficially owned by Michael Elias, David Carratt and Javier Rojas (the “Principal Owners”).

Kennet’s investment advice is principally related to growth equity investments in the technology industry. In advising the Funds, Kennet has generally targeted equity investments of between €3 million and €20 million, but may make larger investments. Kennet typically seeks significant minority positions or majority control in portfolio companies (“Portfolio Companies”), with board representation and customary shareholder rights. Kennet II and Kennet III can invest up to 30% of their capital commitments in the U.S., with the remaining commitments to be invested in Europe.

Kennet does not tailor its advisory services to the individual needs of Investors, and Investors may not directly impose restrictions on investing in certain securities or types of investments. The PPMs and LPAs set forth the Funds’ investment strategies, including guidelines regarding the types of securities the Funds will invest in and portfolio limits, including any restrictions that were negotiated at the time of an Investor’s commitment.

The Funds have entered into side-letter agreements or other similar agreements with one or more Investors that provide such Investors with terms additional to or different from those set forth in the Funds’ PPMs and LPAs. However, each Investor is notified of the side-letter agreements and has the option to be party to the additional terms.

Kennet does not participate in wrap fee programs. As of December 31, 2013, Kennet managed approximately \$566,122,000 of client assets, all on a discretionary basis.

ITEM 5 – FEES AND COMPENSATION

Asset Management Fee:

For Kennet III, the Affiliated General Partner receives an annual fee equal to 2.5% of Total Commitments until the end of the Investment Period (5 years from the first closing date). Thereafter and until the termination of the Fund (10 years from the original closing date), the Affiliated General Partner's share will be 2.5% of the acquisition costs of all investments less the acquisition costs of realized investments. The Affiliated General Partner's Share, or non-refundable drawings on account thereof, are calculated and paid quarterly in advance. Asset Management Fees are generally called from Fund Investors' capital commitments quarterly in advance. The proceeds of realized investments are usually applied as soon as practicable towards repaying the Outstanding Commitments drawn down and distributing capital gains, although proceeds can be retained for 'recycling' in accordance with the LPAs.

The life of Kennet II L.P. was extended by and additional two years to 7 December 2015. In this extension period, Kennet II L.P. does not pay an annual management fee.

Performance-Based Fee payable upon Distribution/Realization of Proceeds:

For Kennet III, and subject to a clawback, the founder partner is eligible to receive a percentage of profits on any distributions made by the Funds. All income and realization proceeds (except in the case of Short Term Investments as described below) will, after satisfying any expenses and liabilities of the Fund, be distributed as follows:

1. first, to all the Investors (pro-rata to the amount of their respective Commitments) until the Investors have been repaid their Outstanding Loans;
2. second, as to 80% to the Investors and 20% to the Founder Partner as carried interest, subject to certain retention provisions.

Income to the Fund from interest on Short Term Investments will be distributed directly to the Investors pro rata based on their Commitments.

For Kennet II L.P., the performance-based fee mechanism is similar but not identical to Kennet III.

It is important that Investors refer to the PPM and LPA for a complete understanding of how the affiliate of the Adviser is compensated for services. This is particularly true with respect to performance-based compensation. The information contained herein is a summary only and is qualified in its entirety by such documents.

Expenses:

The Funds bear their own operating costs, including establishment costs which are capped, legal and audit fees, and third party costs arising from uncompleted transactions. The Affiliated General Partner bears any establishment costs in excess of the cap. For Kennet III, Directors' fees, monitoring fees, management fees, arrangement fees, syndication fees, and transaction fees are retained by the Affiliated General Partner or Kennet and are completely off-set against the Affiliated General Partner's Asset Management Fee. If the aggregate amount of the foregoing fees exceeds the Affiliated General Partner's Asset Management Fee in any accounting period, the excess is carried forward and will reduce the Affiliated General Partner's Asset Management Fee in the following accounting period(s).

It is important that Investors refer to the PPM and LPAs for a complete understanding of the expenses that will be borne by Investors. The information contained herein is a summary only and is qualified in its entirety by such documents.

Investors may not transfer their interest in the Funds without the Affiliated General Partner's prior written consent (which may be withheld in its absolute discretion) and only if such transfer does not breach any relevant legal or regulatory restriction. Investors may not withdraw from the Funds except where this is required to avoid a plan assets violation under ERISA.

ITEM 6 – PERFORMANCE-BASED FEES AND SIDE-BY-SIDE MANAGEMENT

Subject to a clawback, Kennet or the founder partner is eligible to receive performance-based compensation from Investors upon the distribution of investment proceeds.

It should be noted that the possibility of Kennet's or the founder partner's receipt of performance-based compensation can create a potential conflict of interest in that it could be viewed as an incentive to make riskier investments or more speculative investments than in the absence of such performance-based fee. However, this incentive is mitigated by the fact that losses will reduce a Fund's performance and thus Kennet's or the founder partner's compensation. Investors are provided with clear disclosure in the PPM and LPA as to how the performance-based compensation is charged. In addition, Kennet or its affiliates may receive fees from Portfolio Companies, a portion of which may be retained by Kennet. The compensation structure is in line with industry standards.

ITEM 7 – TYPES OF CLIENTS

Kennet provides investment advice to the Funds, as described in Item 4, above. During the periods of time when the Funds were open to new investors, they were open only to investors meeting certain suitability requirements. In addition, the Funds required a significant minimum capital commitment, subject to modification by the Affiliated General Partner.

ITEM 8 – METHODS OF ANALYSIS, INVESTMENT STRATEGIES, AND RISK OF LOSS

As a general matter, Kennet utilizes the methods of analysis and investment strategies described in the Funds' offering and governing documents provided to all Investors prior to the time of an investment. The information contained herein is a summary only and Fund Investors should refer to and carefully review the respective Fund offering and governing documents for a complete overview of Kennet's methods of analysis and investment strategies.

Investment Process

As described in Item 4.B above, Kennet provides advisory services in relation to growth equity investments in the technology industry. Investment opportunities for the Funds originate from multiple sources, including proactive outbound prospecting, and from the Kennet network of industry executives and professional intermediaries. The emphasis is on maximizing proprietary deal flow, in order to generate investment opportunities which are non-competitive and can thus be obtained on more attractive terms.

With a view to seeking out capital-efficient businesses that have the potential to become market-leading companies, Kennet prioritizes its deal sourcing activities as follows:

1. *Bootstrapped companies* – Typically these businesses are majority-owned by their founder-managers, are often profitable, and they are by definition capital-efficient. These companies tend to face similar challenges in expanding internationally and in ensuring professional management is in place for the next phase of growth – both areas in which Kennet's experience is applicable.

2. *Traditional follow-on investments* – Kennet also considers follow-on investment rounds in venture-backed businesses if they meet certain key criteria:

- They must have demonstrated capital efficiency to date and must not be dependent on continuous capital-raising for survival; and
- Following Kennet's investment, they must have a simple capital structure, with management equity not 'under water' beneath excessive preference capital.

3. *Divestitures* – Kennet maintains an ongoing dialogue with technology investment banks and larger technology companies in order to be aware of any pending divestitures. Kennet also regularly approaches companies with regard to specific subsidiaries of interest. In looking at divestitures, a key Kennet requirement is having the right management team in place at the time of the transaction.

4. *Other transactions* – Since Kennet's primary objective is to become a significant shareholder in businesses with an opportunity of international expansion, the Kennet team is open to a variety of financial transactions that achieve this end. Kennet has proven experience with MBO and MBI bids, public-to-private transactions, as well as purchases of pure secondary stakes in companies.

Investment Strategy

Kennet's objective is to build a portfolio of investments where each can deliver a relatively low-risk base return of 3x invested capital, with upside potential in the 5–10x range. The assumption is that some companies will fail to reach their base return, while others will exceed return expectations. Every effort is made to minimise loss of capital by investing in businesses that are capital-efficient and which do not have significant preference capital from prior equity investors. In many cases the companies are either profitable or near profitability. In the event of underperformance, such portfolio companies can

potentially be sold for the value at which Kennet has invested, yielding at least a return of capital plus the return built into the protected equity instrument. This minimizes portfolio losses and can provide significant downside protection for the fund.

Risks

As a general matter, Kennet utilizes the methods of analysis and investment strategies described in the Kennet Funds' offering and governing documents provided to all Fund Investors prior to the time of an investment. The information contained herein is a summary only and Fund Investors should refer to and carefully review the respective Kennet Fund offering and governing documents for a complete overview of Kennet's methods of analysis and investment strategies and the risks associated therewith.

Fund Investors and potential investors should be aware that an investment in a Kennet Fund involves a high degree of risk. There can be no assurance that the Kennet's investment objectives will be achieved or that an investor will receive a return of its capital. The following considerations, in addition to those contained in the offering and governing documents, should be carefully evaluated before making an investment in a Kennet Fund.

Passive Investment

Fund Investors are precluded from active participation in making investment decisions. In order to protect their limited liability status, Fund Investors must rely entirely on Kennet and its affiliates to conduct and manage the affairs of the Kennet Funds.

Importance of Kennet Personnel

The success of the Kennet Funds depends substantially upon the skill and expertise of the individuals employed by Kennet. There can be no assurance that the present individuals will continue to be employed by Kennet throughout the life of the Kennet Funds.

Competition

The Kennet Funds will be competing for investments with other companies, the public equity markets and other investors. It is possible that competition for appropriate investment opportunities may increase, thus reducing the number of opportunities available and adversely affecting the terms upon which such investments can be made. Accordingly, there can be no assurance that the Kennet Funds will be able to identify and complete attractive investments in the future or that it will be able to invest fully their committed capital.

General Economic Conditions

General economic conditions may affect the Kennet Funds' activities. Interest rates, the availability of financing, the price of securities and participation by other investors in the financial markets may adversely affect the value and number of investments made by the Kennet Funds.

Lack of Liquidity

Interests in the Kennet Funds will not be registered under the US Securities Act of 1933, as amended, or any other securities laws in any jurisdiction, and interests in such Funds will not ordinarily be transferable. There is no market for such interests and none is expected to develop. Interests in the Kennet Funds are not redeemable.

Potential for Insufficient Returns

Returns generated by Funds' investments may be insufficient to compensate Fund Investors adequately for the business and financial risks that must be assumed. Fund Investors may lose all or part of their commitments to the Fund.

Past Performance

Past performance of investments managed by Kennet is not necessarily a guide to the future performance.

Leverage

The Funds' investments are not expected to include companies whose capital structures may have significant leverage, though this does not preclude the Funds' from making such investments. Kennet will seek to invest in portfolio companies whose leverage is believed to be appropriate to that company, though the leveraged capital structure of such companies may increase their exposure to adverse economic factors such as rising interest rates, downturns in the economy or deteriorations in the condition of the company or its industry.

Risk of Limited Number of Investors

The Partnership may participate in a limited number of investments and, as a consequence, the aggregate return of the Partnership may be substantially adversely affected by the unfavourable performance of even a single investment.

Risk of Certain Investments in Portfolio Companies

The securities of portfolio companies and the ability of such companies to pay debts could be adversely affected by interest rate movements, changes in the general economic or political climate, or the economic factors affecting a particular industry, changes in tax law or specific developments within such companies. Most of the Funds' investments will not have a readily available public market, and disposition of such investments may require a lengthy time period or may result in distributions in kind to Fund Investors. Kennet has a limited ability to extend the term of the Funds, therefore the Funds may have to sell, distribute or otherwise dispose of investments at a disadvantageous time as a result of dissolution.

Non-controlling Investments

The Funds may hold a non-controlling interest in certain portfolio companies and, therefore may have a limited ability to protect its position in such portfolio companies, although as a condition of investment in a portfolio company, it is expected that appropriate shareholder rights generally will be sought to protect the Fund Investor's interests. Kennet also seeks to secure board representation at the time of making an investment. The Funds may co-invest with third parties through joint ventures or other entities. Such investments may involve risks in connection with such third-party involvement, including the possibility that a co-investor may have financial difficulties that negatively impact such investment. Further, a co-investor may have economic or business interests that are inconsistent with those of the Fund, or may be in a position to take action in a manner contrary to the Fund's investment objectives.

Contingent Liabilities on Disposition of Investments

In connection with the disposition of an investment in a portfolio company, the Funds may be required to make representations about the business and financial affairs of such company typical of those made in connection with the sale of a business. The Funds also may be required to indemnify the purchasers of such investment to the extent that any such representations are inaccurate. These arrangements may result in the incurrence of contingent liabilities for which reserves or escrow accounts may be established.

Investors and prospective Investors are provided with investment offering documents that contain a detailed description of the risks related to an investment in the Fund and are advised to carefully review all risk factors set forth in the relevant offering documents.

ITEM 9 –DISCIPLINARY INFORMATION

Not applicable to the Adviser.

ITEM 10 – OTHER FINANCIAL INDUSTRY ACTIVITIES AND AFFILIATIONS

The Adviser, in conjunction with affiliates, serves as investment adviser to the Funds. The Principal Owners and affiliates of the Adviser also invest directly or indirectly in the Funds, and some employees of the Adviser or its affiliates also invest directly or indirectly in the Funds (through an affiliate). The fact that the Principal Owners and affiliates have financial ownership interests in the Funds can create a potential conflict in that it could cause Kennet to make different investment decisions than if such parties did not have such financial ownership interests.

Kennet seeks to address this potential conflict through a variety of mechanisms. All of Kennet's employees agree to abide by the terms of Kennet's Code of Ethics (the "Code") which, as described in Item 11, sets forth Kennet's status as a fiduciary and requires employees to act in the best interest of the Funds and to place the interests of the Funds ahead of their own and those of the Adviser, and all employees are required to acknowledge their receipt and understanding of the Code. In addition, the Principal Owners are all equally incentivized by way of Performance-Based Fees as described in Item 5, and therefore have a vested interest to maximize value in the Funds.

ITEM 11 – CODE OF ETHICS, PARTICIPATION OR INTEREST IN CLIENT TRANSACTIONS AND PERSONAL TRADING

The Adviser's Code of Ethics (the "Code") is designed to meet the requirements of Rule 204A-1 of the Investment Advisers Act of 1940 (the "Advisers Act"). The Code applies to the Adviser's "Access Persons." Access Persons include, generally, any partner, officer or director of the Adviser and any employee or other supervised person of the Adviser (or an affiliate) who, in relation to the Fund, (1) has access to non-public information regarding any purchase or sale of securities, or non-public information regarding securities holdings or (2) is involved in making securities recommendations, executing securities recommendations, or has access to such recommendations that are non-public. All employees of certain affiliates of the Adviser are deemed to be Access Persons.

The Code sets forth a standard of business conduct that takes into account the Adviser's status as a fiduciary and requires Access Persons to place the interests of the Fund and Investors above their own interests and the interests of the Adviser and its affiliates. The Code requires Access Persons to comply with applicable federal securities laws. Further, Access Persons are required to promptly bring violations of the Code to the attention of the Adviser's Chief Compliance Officer (the "Chief Compliance Officer"). All Access Persons are provided with a copy of the Code and are required to acknowledge receipt of the Code upon hire and on at least an annual basis thereafter.

The Code also sets forth certain reporting and pre-clearance requirements with respect to personal trading by Access Persons. Access Persons must provide the Adviser's Chief Compliance Officer with a list of their personal accounts and an initial holdings report within 10 days of becoming an Access Person. In addition, the Adviser's Access Persons must provide annual holdings reports and quarterly transaction reports in accordance with Advisers Act Rule 204A-1. Further, Kennet maintains a "Restricted List" with the names of issuers of securities about which Kennet or its affiliates (including Access Persons) have learned material, non-public information. Access Persons are strictly prohibited from trading securities on the Restricted List.

In addition, the Code seeks to ensure the protection of non-public information about the activities of the Fund, Investors and prospective investors. Investors or prospective Investors may obtain a copy of the Code by contacting the Chief Compliance Officer, Neil Cooper, at ncooper@kennet.com.

As explained in Item 10 above, the Adviser serves as investment adviser to the Funds. The Adviser recommends interests in the Funds to prospective Investors.

The Adviser, its affiliates and certain Access Persons may invest directly or indirectly in the Funds (through an affiliate).

The fact that the Adviser, its affiliates and Access Persons may each have a direct or indirect financial ownership interests in the Funds create a potential conflict in that it could cause the Adviser and its affiliates to make different investment decisions than if such parties did not have such financial ownership interests. The Adviser seeks to address such potential conflicts by the personal securities transaction pre-clearance and holding requirements described in this Item 11, as well as through regular monitoring of the Funds' portfolio and investments for consistency with the Funds' objectives, strategies, and target capacity. Further, the Adviser and its affiliates carefully consider the risks involved in any investments and provide extensive disclosure to Investors regarding the potential risks that come with an investment in the Funds. The Code requires Access Persons to place the interests of the Funds and Investors over their own or those of the Adviser, its affiliates and all Access Persons are required to acknowledge their receipt and understanding of the Code.

Further, the Adviser (or its affiliate) receives management and performance-based compensation. The management fees are payable without regard to the overall success or income earned by the Funds and, therefore, may create an incentive on the part of the Adviser to raise or otherwise increase assets under management to a higher level than would be the case if the Adviser was receiving a lower or no management fee. Performance-based fees can create an incentive for Kennet to make Investments that are riskier or more speculative than in the absence of such performance-based fee. However, this incentive is mitigated by the fact that losses will reduce a Fund's performance and thus Kennet's or the founder partner's compensation.

The Adviser's investment program does not generally involve investments in publicly traded securities. However, this is not excluded from the LPAs.

Access Persons are permitted to make securities transactions in their personal accounts. This presents potential conflicts in that an Access Person could make improper use of information regarding a Fund's holdings or future transactions or research paid for by the Funds. An Access Person could take for himself or herself an investment opportunity available to a Fund or could engage in "front-running" of a Fund's investment.

Kennet seeks to manage the potential conflicts of interest inherent in Access Person personal trading by rigorous enforcement of its Code, which contains strict pre-clearance and reporting guidelines for Access Persons. Kennet requires that Access Persons pre-clear certain securities transactions in their personal accounts, including transactions in IPOs, limited offerings, and securities of any company that operates in the industries that are within the scope of the investment activities of Kennet. Generally speaking, Access Persons are discouraged from making investments in the technology industry, in which Kennet is actively and regularly pursuing investment opportunities. Requests for pre-clearance are reviewed for potential conflicts of interest with the Funds.

ITEM 12 – BROKERAGE PRACTICES

As described in Item 4 above, Kennet is the investment adviser to private equity funds. Due to the nature of its business (being focused on private as opposed to publicly-traded securities), Kennet generally does not select or recommend broker-dealers for Fund transactions. However, under certain circumstances, such as when Funds receive distributions in the form of stock provided by underlying Portfolio Companies or when an underlying Portfolio Company completes an initial public offering, Kennet may use brokerage firms to liquidate or distribute securities that become tradable in public markets. These transactions may be done in large block transactions or in smaller trades over a period of time. Kennet would likely select any such brokers based upon a number of factors, including trading execution capabilities, commissions charged, experience handling private equity transactions, customer services capabilities and back-office support, and in accordance with best execution.

Kennet does not utilize “soft dollars.”

The Adviser recognizes that, as a fiduciary, it has a duty to seek to allocate investment opportunities among its private funds in a fair and equitable manner. It should be noted that it is generally the Adviser’s policy to raise and invest only one fund at a time. However, from time to time certain funds may have overlapping investment periods, in which case the investment will be made by the older Fund. This would be disclosed and agreed with the Investors in the new Fund. Kennet does not normally co-invest between Funds. If Kennet would be considering co-investment by the Funds, it would only make the co-investment if had consent from the respective Investor Committees of the Funds.

ITEM 13 – REVIEW OF ACCOUNTS

The Funds' investments are under continuous review by the investment team. The Kennet team usually meets on a weekly basis and such meetings typically include reviewing the existing investments, potential investments, investment policy, the suitability of the investments used to meet policy objectives, cash availability, and investment objectives. The investment team considers, among other things, investment performance, the investment's sensitivity to market changes, and whether anything has changed subsequent to an initial investment decision that impacts the risk or potential return.

Each of the Kennet Funds has an Investor Committee that meets at least on an annual basis to review the valuations and performance of the portfolio investments. Any matters of conflict or risk are also discussed with the Investor Committees on an as and when needed basis.

Kennet typically reports quarterly to its Investors.

The Kennet Funds also have annual investor meetings in which all Investors are invited. The purpose of these meetings is to allow Kennet to provide an update on a Fund to its Investors, and for the Investors to ask questions about the Fund.

For Kennet III, the Fund Investors receive:

- (a) annual audited accounts of the Funds together with such information as is reasonably necessary to complete their tax returns;
- (b) quarterly unaudited accounts of the Funds; and
- (c) semi-annual portfolio company summaries.

Kennet II Fund Investors receive all the documents as mentioned above, as well as quarterly portfolio company summaries.

ITEM 14 – CLIENT REFERRALS AND COMPENSATION

During the fundraising process of Kennet III, Kennet had an agreement in place with a third party for the purpose of soliciting prospective investors in the Fund. To the extent that Kennet engages with a third party for the purpose of soliciting prospective investors in the future, all such compensation will be fully disclosed to each Investor consistent with applicable law. In general, Kennet may pay third party solicitors out of the fees it receives with regard to the Kennet Funds for investor referrals. All such referral activities will be conducted in accordance with SEC Rule 206 (4)-3 under the Advisers Act, as well as relevant guidance.

ITEM 15 – CUSTODY

Kennet is deemed to have custody of the Fund assets pursuant to Advisers Act Rule 206(4)-2.

The Funds' Administrator sends capital account statements to investors on a quarterly basis.

In seeking to comply with the requirements of Advisers Act Rule 206(4)-2, Kennet provides Fund Investors with audited financial statements within 120 days of the end of the relevant Fund's fiscal year (i.e., generally by April 30). Those statements should be carefully reviewed by Investors.

Fund assets and securities (which generally consist of certificates evidencing ownership) are generally maintained with a qualified custodian. Kennet may rely on an exception from the qualified custodian requirement with respect to certain privately offered securities. The qualified custodian utilized by Kennet is Northern Trust International Fund Administration Services (Guernsey) Ltd.

ITEM 16 – INVESTMENT DISCRETION

Kennet and the Affiliated Advisors have discretionary authority to manage securities accounts on behalf of the Funds. Such parties are authorized to make transaction recommendations for the Funds. As explained in Item 4.C above, each Fund's investment strategy is set forth in detail in such Fund's prospectus and governing documents. Fund Investors do not have the ability to impose limitations on the discretionary authority of Kennet and the Affiliated Advisors. Fund Investors must execute a subscription agreement in which they make various representations, including representations regarding their suitability to invest in a high-risk investment pool.

ITEM 17 – VOTING CLIENT SECURITIES

Kennet has authority to vote client securities. Based upon Kennet's business as a private equity fund manager (and general lack of involvement in publicly-traded equities), much of Kennet's proxy voting activities derives from its investments in private Portfolio Companies, and the occurrence of corporate governance or other consent or voting matters for this type of investment.

Kennet will vote proxies or solicitations in the best interests of the relevant Fund. Prior to voting a proxy or solicitation addressed to a Fund, Kennet reviews the proxy or solicitation to determine if there are any conflicts of interest. If a conflict is identified, Kennet then makes a determination as to whether the conflict is material or not. If no material conflict is identified pursuant to these procedures, the proxy will be voted in accordance with the best interest of the relevant Fund.

If a material conflict is identified, Kennet will determine what course of action is in the best interests of the affected Fund (which may include utilizing an independent third party to vote such proxies). Further, Kennet will determine whether it is appropriate to disclose the conflict to the relevant Fund Investor Committee. Kennet may ask the Fund Investor Committee for advice regarding how to deal with the conflict.

Fund Investors do not have the ability to direct proxy or solicitation votes. Funds and Investors may obtain additional information regarding how Kennet voted proxies or solicitations and may obtain a copy of Kennet's voting policies and procedures by contacting Kennet.

ITEM 18 – FINANCIAL INFORMATION

Not applicable to the Adviser.
