This document (the “Brochure”) provides information about the qualifications and business practices of Wasserstein & Co., L.P. (“W&Co.”). If you have any questions about the contents of this brochure, please contact us at (212) 702-5600. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission (“SEC”) or by any state securities authority.

Additional information about W&Co. is available on the SEC’s website at www.adviserinfo.sec.gov.

W&Co. may refer to itself as a “registered investment adviser.” Registration does not imply a certain level of skill or training.

March 2014

Item 2: Material Changes

This amendment to the Brochure, dated March 31, 2014, contains no material changes from the Firm's previous Brochure, which was filed on March 27, 2013.

Item 4: Advisory Business

- A. W&Co. provides investment advisory services to private pooled investment vehicles which are exempt from registration as investment companies. The principal owners of W&Co. are Wasserstein Capital, L.P.; Wasserstein Investments, L.L.C.; Wasserstein Family Trust, L.L.C.; and Cranberry Dune 1998 Long Term Trust. W&Co. has been in business since 2001. W&Co. has twenty-eight (28) employees, eighteen (18) of whom are investment professionals. W&Co.'s principal place of business is in New York, NY.

W&Co.'s clients are the private pooled investment vehicles it manages (the "Funds"). For the purposes of this Brochure, "clients" refers exclusively to these vehicles and "investors" refers to

those institutions and individuals that have committed capital to these vehicles.

W&Co.'s investors are generally institutions or high net worth families. W&Co. does not accept capital commitments from investors that do not meet certain thresholds of net worth or investment expertise.

W&Co. may enter into economic relationships with strategic investors that have materially different investment terms. These terms could include either a reduction in the fees paid by the investor or the sharing of the fees or performance-based compensation to which W&Co. is entitled with such strategic investor.

From its founding in 2001 through April 2013, W&Co. provided investment advisory services exclusively to pooled investment vehicles that invested in privately negotiated equity and equity-related investments in various types of businesses (the "PE Funds"). In May 2013, W&Co. launched a hedge fund focused on corporate high yield bonds and loans (the "WDO Fund").

Due to differences in investment strategy, fee structure, and investor base, among others, between the PE Funds and the WDO Fund, W&Co. has created two (2) Form ADV Part 2A brochures. This brochure describes W&Co.'s business in relation to the PE Funds while a separate brochure describes the business in relation to the WDO Fund. If you wish to receive both brochures, please contact Gia Baker, at GB@wasserco.com, to request a copy. Both brochures are also publicly available on the SEC's website at www.adviserinfo.gov.

- B. W&Co.'s investment strategy on behalf of the PE Funds is to make privately negotiated equity and related investments primarily in North American middle market companies, with a focus on the media and communications, consumer products, and water equipment and services sectors. W&Co.'s advisory services also consist of extensive due diligence prior to making an investment, monitoring investments by taking an active role in the management of the companies in which its PE Funds invest ("portfolio companies"), and realizing long term capital gains from the investments.

W&Co. is affiliated with entities that serve as the general partners to each of the PE Funds (each, a "General Partner" and, collectively, the "General Partners") and each of the PE Funds is controlled by its respective General Partner. The following is a list of each of the General Partners of the PE Funds, each of which is an affiliated investment adviser of W&Co.:

General Partners:

- Wasserstein Partners, L.P.
- Wasserstein Partners (Offshore), Ltd.
- Wasserstein Levered Venture Partners II, L.L.C.
- Wasserstein III (GP), LP
- Wasserstein Partners III (Offshore), Ltd.

The advisory services of W&Co. as they pertain to the PE Funds, and each of the General Partners of the PE Funds, as affiliated investment advisers, are described in this brochure. Each General Partner is deemed registered under the Investment Advisers Act of 1940, as amended (the "Advisers Act") pursuant to W&Co.'s registration in accordance with SEC guidance and the information set forth herein regarding the investment advisory services provided by W&Co. shall also apply in respect of the General Partners

- C. Investments are recommended to W&Co.'s PE Funds on the basis that such recommendations reflect, in W&Co.'s opinion, the most compelling private equity investments available within the strategy set forth in the applicable PE Fund's organizational documents and marketing materials. W&Co. tailors its services to the individual needs of its PE Funds. W&Co. does not provide personalized services directly to the individual needs of the PE Funds' underlying investors.
- D. W&Co. does not participate in wrap fee programs.
- E. As of December 31, 2013, W&Co. manages \$627,805,740 attributable to the PE Funds on a discretionary basis and \$25,953,150 attributable to the WDO Fund on a discretionary basis.

Item 5: Fees and Compensation

- A. W&Co. is compensated for advisory services to the PE Funds based on a percentage of committed capital (the "management fee"). W&Co. is also compensated with a performance-based allocation (commonly known as "carried interest"), as described under Item 6 below. The carried interest is received by W&Co.'s PE Funds' General Partners, which are affiliates of W&Co. This compensation is typically negotiated separately with each of the PE Funds, although it is not negotiated separately with each investor therein. Each of W&Co.'s investors is a "qualified purchaser."

Annual management fees are calculated (i) during the investment period, as a percentage of the total committed capital of the applicable PE Fund and (ii) thereafter, as a percentage of invested capital. The management fee payable by a PE Fund is typically between 1% and 2%.

Carried interest is calculated as a percentage of profits after investors have received a preferred return. Typically carried interest payable by a PE Fund is 20%.

- B. Management fees are paid directly to W&Co. For most of the PE Funds, management fees are due quarterly in advance. Currently, one PE Fund pays management fees quarterly in arrears.
- C. W&Co.'s PE Funds generally bear the organizational costs associated with W&Co.'s investment program, up to a maximum amount agreed to by the applicable PE Fund.

W&Co.'s PE Funds will also bear all of their other expenses, which may include (but are not necessarily limited to):

- i. Expenses incurred in connection with the evaluation, acquisition or disposition of investments, including private placement fees, sales commissions and discounts, and legal, accounting, investment banking, consulting, information services and professional fees;
- ii. Expenses incurred in connection with the carrying or management of investments, including custodial, trustee, record keeping and other administration fees;
- iii. Expenses incurred in connection with the PE Fund's audited financial statements, tax returns and K-1's;
- iv. Attorneys' and accountants' fees and disbursements;
- v. Taxes and other governmental charges levied against the PE Funds;
- vi. Insurance, regulatory or litigation expenses (and damages);
- vii. Expenses incurred in connection with the winding up or liquidation of the PE Fund;
- viii. Expenses relating to defaults by investors in the payment of capital contributions;
- ix. Expenses for transactions not consummated;

- x. Expenses incurred in connection with any restructuring or amendments to the constituent documents of the PE Fund and related entities;
 - xi. Expenses incurred in connection with the formation of special purpose vehicles and alternative investment vehicles; and
 - xii. Expenses incurred in connection with distribution of proceeds to investors and in connection with any meetings with investors.
- D. PE Funds typically pay management fees in advance. In the unlikely event that an advisory contract is terminated before the end of a management fee period, W&Co. will refund the overpayment of the management fee (computed on the basis of the number of days elapsed). W&Co. deducts its performance-based allocation directly from PE Fund assets.
- E. Neither W&Co., nor any of its supervised persons, accepts compensation for the sale of securities or other investment products.

Item 6: Performance-Based Fees and Side-By-Side Management

Affiliates of W&Co., which serve as General Partners to the PE Funds, are compensated based on capital appreciation of PE Fund assets. An allocation is made to the General Partner based on capital appreciation of PE Fund assets. Each PE Fund generally makes performance-based allocations at the same level. Certain strategic investors in the PE Funds may make performance-based allocations at lower levels. These investors have no influence or control over the provision of investment advice and participate *pro rata* in investments on the same basis as all other investors.

This compensation based on capital appreciation could give W&Co. an incentive to make riskier or more speculative investments on behalf of the PE Funds than W&Co. may make otherwise. However, W&Co. performs extensive due diligence on each investment that is recommended to a PE Fund. Furthermore, each of W&Co.'s executive officers has a significant direct or indirect investment in the PE Funds.

Item 7: Types of Clients

W&Co.'s clients are private pooled investment vehicles, which are generally organized as limited partnerships of which an affiliate of W&Co. serves as the general partner. Interests in these vehicles are offered and committed to investors who meet certain standards of net worth or knowledge about investing. These interests are not registered as securities under certain exemptions in the U.S. securities laws.

In the PE Funds, W&Co. only accepts investors who meet certain high standards for net worth and/or income. Generally, W&Co.'s investors are institutions, which may include pension funds, other high net worth institutions, and high net worth families.

Item 8: Methods of Analysis, Investment Strategies and Risk of Loss

A. W&Co.'s Investment Strategy and Methods of Analysis

On behalf of the PE Funds, W&Co. makes privately negotiated equity and related investments

primarily in North American middle market companies, with a focus on the media and communications, consumer products, and water equipment and services sectors. W&Co. generally enters into transactions requiring \$20 million to \$80 million of total equity capital, with the majority of investments near the middle of the range. Given the close historical relationships of W&Co. with senior officers of larger investment banking firms and deal intermediaries, as well as with senior executives of many large strategic players in its focus areas, W&Co. frequently sees deal opportunities that may require somewhat more equity than could be invested by a PE Fund. In these cases, as it has done historically, W&Co. will seek strategic or financial co-investments, including from investors in the PE Funds. W&Co. expects to apply reasonable leverage to its investments to maximize returns for investors.

W&Co. will generally seek investments where the PE Funds acquire control or a position of significant influence, including by obtaining negative controls or contractual rights. W&Co. also may from time to time consider special situations or structured minority investments, particularly related to existing portfolio companies or sourced through W&Co.'s knowledge network, with especially compelling risk-reward profiles. Due to W&Co.'s heritage as a family office, W&Co. remains focused on risk levels in every investment and will always strive to ensure that risks assumed by the PE Funds are adequately understood, compensated for and mitigated to the extent possible.

Distinctive Value Creation Strategy

W&Co. uses a consistent and simple investment strategy across industries and economic conditions with the objective of creating value at each stage of the investment cycle: entry, ownership and exit.

First, W&Co. focuses on acquiring businesses being divested by corporate parents or sold by entrepreneurs. The close attention and best practices that W&Co. brings, together with equity participation for management, unlocks latent potential. Second, W&Co. only acquires businesses where we have a clear strategic vision: generally a limited number of actionable initiatives to grow earnings. Third, W&Co. targets businesses that it can position for sale to strategic acquirers at a premium to standalone value. Strategic acquirers typically seek scale / market position and ease of integration. W&Co. prepares its companies for these buyers by driving growth (organically or through add-on acquisitions) and bringing best practices to family-owned businesses or corporate orphans.

Strategic Vision

W&Co. targets businesses with strong prospects that are not achieving their full potential. W&Co. does not acquire companies to conduct "business as usual," but instead develops a specific strategic vision for each potential investment. The strategic vision would not include any high risk business transformation, but rather incremental changes expected to create significant value. W&Co.'s professionals immerse themselves in each business and industry, working hands-on with management to implement the strategic vision developed at the outset.

Downside Protection

To protect against external shocks and the non-achievement of W&Co.'s strategic vision, W&Co. only purchases business with inherent risk-mitigating characteristics. These include, for example, businesses with a valuable tangible asset base relative to the purchase price, or brand equity that has been built up over decades, or favorable cash flow characteristics inherent in many media and communications companies, where customer payments are made up front, capital expenditures

are low and a large portion of revenue is based on long-term contracts.

W&Co. also seeks initially to minimize risk by employing relatively conservative capital structures at portfolio companies. In many of W&Co.'s previous transactions, W&Co. declined to maximize initial leverage, preferring instead to "over-equitize" the transaction in order to ensure that the investment thesis for the particular company was fundamentally sound and proven out before adding more leverage later.

Targeted Investment Sectors

While W&Co. will seek the best risk-adjusted investments available across all industry sectors, W&Co. anticipates investing with a focus generally on the media and communications, consumer products, and water equipment and services sectors and on opportunities arising from W&Co.'s knowledge network.

These sectors are expected to remain core areas of focus for the PE Funds. In both sectors, W&Co.'s senior management have extensive expertise, both from an investing as well as operational standpoint. W&Co. believes that it benefits from industry insight and expertise comparable to a "strategic" investor in these sectors due to its considerable experience owning, operating and overseeing these businesses; its ability to understand and exploit both apparent and obscured growth opportunities; and its experience and ability in understanding and diligencing complicated corporate challenges and opportunities in these sectors. W&Co. has also developed a compelling investment strategy for middle market companies that support the distribution, treatment, measurement and conservation of water and share the risk-mitigating attributes and operational characteristics of its other target companies. W&Co. expects the experience and reputation of its Managing Director Dr. Rengarajan Ramesh within the water equipment and services, and related, sectors to similarly allow the PE Funds to be perceived as a "strategic" investor in a variety of areas relating to industrial process controls. In addition, W&Co. may pursue other types of sector investments within its "knowledge network," where it has unique access or insight arising out of personal relationships, a specific strategic or competitive advantage developed through industry or other professional relationships or special knowledge concerning the company or its industry, including trends and industry dynamics.

Due Diligence

W&Co. will devote substantial resources to the due diligence effort. The due diligence process will be conducted by a team led by one or two members of W&Co.'s senior management and will often involve outside professionals with expertise in technology, intellectual property, operations, marketing, information systems, law, accounting, tax, insurance, environmental regulation and other areas, to the extent appropriate.

B. Risks Relating to W&Co.'s Investment Strategy and Methods of Analysis

Some risks relating to W&Co.'s investment strategy and methods of analysis are set forth below. Please refer to the limited partnership agreement and the offering memorandum of the PE Fund in which you are considering or have made an investment for a full list of potential risks involved in an investment in a PE Fund.

Dependence on Investment Professionals

The success of W&Co.'s investment strategy will be highly dependent on the expertise and performance of its senior investment professionals. The loss of one or more of these individuals could have a material adverse effect on the performance of the PE Funds. Additionally, investment

professionals are not required to devote all of their time to the PE Funds' affairs. None of W&Co.'s investment professionals are under any contractual obligation to remain with W&Co. for all or any portion of the term of the PE Funds.

Lack of Diversification

Although no more than 20% of any PE Fund's capital commitments will be invested in any one portfolio company, diversification is not an objective of W&Co.'s investment strategy. Each PE Fund's portfolio will generally include a small number of large positions. Therefore, adverse change in one or more such portfolio companies could have a material adverse effect on an investment with the PE Funds.

Difficulty of Locating Suitable Investments

Identification of attractive investment opportunities is difficult and involves a high degree of uncertainty. Furthermore, the availability of investment opportunities generally will be subject to market conditions as well as, in some cases, the prevailing regulatory or political climate. Competition for such opportunities is expected to be substantial, and there can be no assurance that W&Co. will be able to locate and complete a sufficient number of suitable opportunities to enable it to invest all of the PE Funds' commitments in opportunities that satisfy the PE Funds' investment objectives.

Follow-On Investments

The PE Funds may be called upon to provide follow-on funding for certain portfolio companies or have the opportunity to increase its investment in portfolio companies. There can be no assurance that the PE Funds will be able to make follow-on investments or have sufficient funds to do so. Any decision not to make a follow-on investment may have a substantial negative impact on a portfolio company in need of such an investment or may diminish W&Co.'s ability to influence the portfolio company's development.

Risk Arising from Provision of Managerial Assistance and Control

W&Co. will typically participate substantially in and influence substantially the conduct of the management of the majority of the PE Funds' portfolio companies. W&Co. typically will designate directors to serve on the boards of directors of portfolio companies. The designation of directors and other measures contemplated could expose the assets of the PE Funds to claims by portfolio companies, their other security holders and their creditors. While W&Co. intends to manage the PE Funds in a way that will minimize exposure to these risks, the possibility of successful claims cannot be precluded.

Leverage

In the event that W&Co. recommends an investment in a company with a leveraged capital structure, such investment will be subject to increased exposure to adverse economic factors, such as a rise in interest rates, a downturn in the economy or deterioration in the condition of such company or industry. If such a company is at any time unable to generate sufficient cash flow to meet principal and interest payments on its indebtedness, the principal amount of the PE Fund's debt investment, if any, may be at significant risk, and the value of the equity position of the PE Fund's investment in such company may be significantly reduced or eliminated.

Adverse Economic Conditions and Changes in Financial Markets

W&Co. may be materially affected by market turbulence or a prolonged economic downturn. The

PE Funds could be affected in many ways, including by reducing the value or performance of investments or undermining the ability of W&Co. to deploy new capital, each of which could negatively affect performance. In addition, to the extent W&Co. seeks financing for a portfolio company, market conditions may negatively impact the ability of W&Co. to obtain financing for PE Fund investments and increase the cost of financing if it is obtained. In addition, portfolio companies may experience decreased revenues, financial losses and increased funding costs. These companies may also have difficulty meeting their debt service obligations or other expenses as they become due, including expenses payable to the PE Funds.

C. **Risks Relating to Private Equity and Other Similar Investments**

W&Co. will make privately negotiated equity and related investments primarily in North American middle market companies. Some risks relating to investments in a PE Fund, and risks relating to investments in privately negotiated equity and related investments, are discussed below. Please refer to the limited partnership agreement and the offering memorandum of the PE Fund in which you are considering an investment for a full list of potential risks involved in an investment in a PE Fund.

Nature of Equity and Equity-Related Investments Recommended to the PE Funds

A substantial portion of the securities recommended by W&Co. will be in equity or equity-related investments that by their nature involve business, financial, market and legal risks. Such investments involve a high degree of risk that may result in substantial losses. There can be no assurance that W&Co. will correctly evaluate the nature and magnitude of the various factors that could affect the value of such investments. Prices of the PE Funds' investments may be volatile, and a variety of other factors that are inherently difficult to predict may significantly affect the results of the PE Funds' activities.

W&Co. may also recommend structured minority investments or special situation investments in companies where it may have limited formal influence. Such a company may have economic or business interests or goals that are inconsistent with those of the PE Funds; and although W&Co. will seek to obtain appropriate shareholder rights in such companies, the PE Funds may not be in a position to limit or otherwise protect the value of its investment in the company.

Illiquidity of Investments

An investment in a PE Fund requires a long-term commitment with no certainty of return. It is unlikely that there will be near-term cash flow available to investors. Many of the PE Funds' investments may be illiquid, and there can be no assurance that W&Co. will be able to realize such investments at attractive prices or otherwise be able to effect a successful realization or exit strategy. Consequently, dispositions of such investments may require a lengthy time period or may result in distributions in-kind to investors. Additionally, the PE Funds may acquire securities that cannot be sold except pursuant to a registration statement filed with the Securities and Exchange Commission or in accordance with certain private purchase rules. There can be no assurance that private purchasers can be found for the PE Funds' investments. Finally, in some cases the PE Funds may be prohibited by contract from selling securities for a period of time.

No Assurance of Investment Returns

There can be no assurance that the operation of any PE Fund will be profitable, that any PE Fund will be able to avoid losses or that cash from a PE Funds' investments will be available for distribution to investors. Each PE Fund will have no source of funds from which to provide returns

to investors other than income and gain received on its investments and the return of capital. In addition, while W&Co. intends to provide returns to investors in cash, it is possible that capital may be distributed in kind and could consist of securities for which there is no readily available public market.

Contingent Liability on Disposition of Investments

Most of the investments recommended to the PE Funds will involve private securities. In connection with the disposition of an investment in private securities, a PE Fund may be required to make representations about the business and financial affairs of the company typical of those made in connection with the sale of a business. The PE Fund may also be required to indemnify the purchasers of such investment to the extent that any such representations turn out to be inaccurate. These arrangements may result in additional liabilities that may ultimately be borne by the PE Funds.

Restrictions of Transfer; No Market for Interests in the PE Funds

Interests in the PE Funds will not be registered under either federal or state law and may not be transferred unless registered under applicable laws, or unless an exemption from such laws is available. No market exists for such interests, and none is expected to develop. Accordingly, interests in the PE Funds constitute illiquid investments and should only be purchased by persons that are able to bear the risk of their investment for an indefinite period of time.

Item 9: Disciplinary Information

There currently are no material legal or disciplinary events that are material to a client's or investor's evaluation of W&Co.'s advisory business or the integrity of W&Co.'s management.

Item 10: Other Financial Industry Activities and Affiliations

- A. Neither W&Co. nor any of its management persons is registered, or has an application pending to register, as a broker-dealer or a registered representative of a broker-dealer.
- B. Neither W&Co. nor any of its management persons is registered, or has an application pending to register, as a futures commission merchant, commodity pool operator, commodity trading advisor, or an associated person of the foregoing entities.
- C. The general partner to W&Co.'s PE Funds is an affiliate of W&Co. under common control. On behalf of the PE Funds, the General Partner compensates W&Co. for providing advisory services. W&Co. believes that this compensation generally reflects prevailing market terms.
- D. W&Co. does not recommend or select other investment advisers for the PE Funds.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

- A. As an investment adviser, W&Co. stands in a position of trust and confidence with respect to its

clients. W&Co. has a fiduciary duty to place the interests of its clients before its own interests of and the interests of its employees. All of W&Co.'s personnel must put the interests of the Funds before their own personal interests and must act honestly and fairly in dealings with the Funds. All of W&Co.'s personnel must also comply with all federal and other applicable securities laws. W&Co. has established a code of ethics to establish these rules of conduct for its personnel.

As part of its code of ethics, W&Co. has adopted a personal trading policy requiring all personnel to disclose all holdings in personal trading accounts and all personal securities transactions in a timely manner. W&Co. also maintains a list of companies about which a determination has been made that it is prudent to restrict trading activity by W&Co. and/or its personnel. Generally, an employee may not trade securities of a company included on this list; however, exceptions may be granted under certain circumstances if pre-clearance is granted (e.g., during a "window period" of a public company of which W&Co. is an "insider").

W&Co. has also adopted policies regarding outside activities of employees, conflicts of interest, the prevention of insider trading, certain gifts and business entertainment items, and the pre-clearance and reporting of political contributions. W&Co.'s code of ethics is designed to promote the ethical behavior of all of its personnel and to ensure compliance with applicable regulation and best practices. W&Co. will provide a copy of its code of ethics to any investor upon request.

- B. W&Co. does not generally recommend to the Funds, or buy or sell for client accounts, securities in which W&Co. or a related person has a material financial interest.
- C. As permitted in the PE Funds' organizational documents, the General Partners of the PE Funds, which are affiliated with W&Co., may co-invest alongside the PE Funds, provided that the co-investment will be made and disposed of on the same economic terms and conditions as PE Funds' investments. The terms of the applicable PE Fund's partnership agreement typically limits the portion of the investment available to the General Partner (unless the applicable PE Fund has already invested over 20% of its total committed capital in the investment, in which case any further investment opportunity may be offered to General Partner). W&Co. believes that this limitation adequately mitigates any risk of conflict of interest.
- D. As disclosed above, W&Co. or an affiliate is permitted to co-invest alongside the PE Funds, but only on the same economic terms and conditions. W&Co. generally does not allow employees to invest in the same securities recommended to the PE Funds for personal accounts.

Item 12: Brokerage Practices

- A. Due to the nature of the PE Funds' investment strategy, W&Co. expects substantially all investments in the PE Funds to be privately negotiated directly with the counterparty. As such, W&Co. does not anticipate utilizing brokers or dealers regularly in connection with the PE Funds. In rare cases where W&Co. determines to utilize a broker or a dealer to transact on behalf of a PE Fund, W&Co. shall evaluate such broker or dealer based on a range of factors, including without limitation commission price, willingness to commit capital, ability to execute the desired transaction and other factors.
- B. W&Co. may employ a parallel fund structure for tax or other purposes in which a single investment program consists of multiple PE Funds that invest side by side. If this is the case, all PE Funds

participating in the same investment program will make investments on an aggregated basis. These investments will then be allocated *pro rata* based on committed capital.

Item 13: Review of Accounts

- A. W&Co.'s President, along with other members of senior management, is continuously aware of the PE Funds' holdings and reviews the PE Funds' holdings on an ongoing basis. W&Co. is also closely involved in the management of its portfolio companies, including generally holding seats on their boards of directors. This involvement allows W&Co. to continuously review the progress of its various investments.

In addition, the Investment Committee, which consists of the senior officers of W&Co., meets frequently to discuss the status of W&Co.'s investments.

- B. Each investment will be reviewed generally on a continuous basis regarding all factors that may affect the portfolio company or its exit options. In these reviews, W&Co. will re-examine its strategic vision, update forecasts of portfolio company performance and project the investment's return opportunity before deciding the timing for realization.
- C. W&Co. provides each investor with information regarding the applicable PE Fund and its portfolio companies, as well as unaudited financial statements for the applicable PE Fund, on a quarterly basis. W&Co. provides each investor with audited financial statements on an annual basis. W&Co. provides investors with PE Fund and portfolio company updates on a regular basis.

Item 14: Referrals and Other Compensation

- A. Only clients compensate W&Co. and its employees for providing investment advice to clients.
- B. As disclosed more fully in Form ADV, Part 1, W&Co. compensates third parties for the referral of investors. Fees paid by investors to placement agents generally reduce the management fees paid by such investors.

Item 15: Custody

W&Co. is deemed to have custody of the PE Funds' cash and securities because an affiliate serves as the General Partner to each of the PE Funds.

When W&Co. identifies an investment that is suitable for its PE Funds, the General Partner issues a capital call to investors for the capital necessary to make the investment. This capital will be held with a qualified custodian until the investment is made, and account statements will be sent to the PE Funds by this qualified custodian directly for any periods when cash is custodied by W&Co.

Though the investments recommended by W&Co. will generally be investments in private companies, W&Co.'s PE Funds may from time to time receive publicly traded equity securities or other certificated shares in connection with their investments. W&Co. shall maintain all publicly traded equity securities with a qualified custodian.

Additionally, W&Co. shall deliver to investors independently audited financial statements of its PE

Funds prepared in accordance with generally accepted accounting principles to its PE Funds' investors no less frequently than annually, within 90 days of fiscal year end.

Item 16: Investment Discretion

W&Co. or an affiliate has discretionary authority over any cash or securities accounts that it may establish for the purpose of custodialing PE Fund assets. W&Co. or an affiliate is granted power of attorney over such assets and the discretionary authority to make any investments deemed suitable for the PE Funds and within the investment objectives of the PE Funds.

Item 17: Voting Client Securities

W&Co. has full authority to vote the PE Funds' securities. Due to the PE Funds' investment strategy and the nature of interests generally recommended by W&Co., W&Co. does not anticipate frequently holding public securities with voting authority on behalf of its PE Funds.

If the PE Funds do hold public securities with voting authority, W&Co. shall determine to vote in the best interests of the PE Funds. W&Co. expects to frequently take an active role in the management of its portfolio companies. Therefore, W&Co. will generally vote with management. However, in certain situations (e.g., a special situation in which W&Co. does not have a majority stake), W&Co. may vote against management. W&Co. will maintain a log of all proxies received, how W&Co. voted and the rationale for the vote. Any investors with questions regarding W&Co.'s proxy voting policy or how W&Co. voted in a specific instance should contact W&Co. directly.

Item 18: Financial Information

W&Co. does not require or solicit prepayment of more than \$1,200 in fees per client, six months or more in advance. W&Co. has not been subject of a bankruptcy petition at any time during the past ten years
