Chatham Credit Management III, LLC has discretionary power over the assets of the Funds. See Item 16 of this Brochure for a discussion of the limits on the discretionary power of Chatham Credit Management III, LLC.

Item 5 Fees and Compensation

A. Management Fee.

Chatham Credit Management III, LLC is entitled to a management fee and to a performance fee. These fees are provided for in the documents governing the Funds and are not negotiable.

This Item 5A describes the management fee. The performance fee is described in Item 6 of this Brochure.

The offering of interests in the Funds terminated on September 30, 2010. The period during which the Funds may make investments ended on December 31, 2012. We refer to this period as the Investment Period in this Brochure.

The Funds pay Chatham Credit Management III, LLC a management fee, which we refer to in this Brochure under the Management Fee.

The Management Fee is:

- 1.5% per year of an amount equal to, as of any date
- the total investor capital contributions, minus
- the portion of investor capital contributions attributable to investments disposed of by the Funds
- plus 0.9% per year of the leverage deployed by the Funds

In general, the Funds do not use leverage to enhance returns on investment. The Funds have a capital call line of credit. See Item 8 under Limited Use of Leverage for a description of this line of credit. Leverage created by this line of credit is included in calculating the Management Fee.

- B. **Timing and Deduction of Management Fee.** The Management Fee is typically paid quarterly in advance, but in no event will be paid more than five months in advance.

The Management Fee is in addition to the obligations of investors to fund their commitments. The Management Fee is deducted from the Funds.

- C. **Other Expenses.**

Expenses Paid by the Manager

Chatham Credit Management III, LLC pays all of its ordinary administrative and overhead expenses, including:

- the expenses of obtaining office space, supplies and its administrative and operating costs; and
- compensation of its personnel.

Expenses Paid by the Funds

The Funds pay the expenses of their activities, which we refer to in this Brochure as the Fund Expenses, such as:

- the Management Fee;
- legal, auditing, insurance, consulting, annual meeting, website, investor communication and accounting expenses;

- expenses associated with the preparation of the financial statements, tax returns and K-1s of the Funds;
- expenses related to the capital call line of credit;
- out-of-pocket expenses of investments not consummated; and
- other expenses associated with acquiring, managing, holding, marketing and disposing of investments of the Funds, including extraordinary expenses (such as litigation, if any).

Costs relating to an investment in which the Funds co-invest with other investment vehicles (other than costs associated with the use of leverage by the other investment vehicles) are shared between the Funds and the other investment vehicles to each fund's participation in the investment.

From time to time, investors may be required to make capital contributions to the Funds for their share of any Fund Expenses if the Fund has insufficient cash to pay these expenses. Investors are not required to make an additional capital contribution for Fund Expenses to the extent the contribution would exceed the unused portion of the investor's commitment except to the extent that these amounts constitute the return of distributions previously made to investors. A capital contribution by an investor to pay Fund Expenses (other than returned amounts) reduces that investor's commitment.

- D. **Advance Payment of Management Fee.** The Management Fee typically is paid quarterly in advance, but in no event will be paid more than five months in advance.

If the Funds do not have sufficient cash to pay the applicable Management Fee, the investors are required to contribute an amount equal to their share of the fee.

This contributed amount is in addition to the commitment of that investor.

- E. **No Compensation For Sales of Securities.** Neither Chatham Credit Management III, LLC, nor any of its supervised persons accepts compensation for the sale of securities or other investment products.

Performance Based Fees and Side by Side Management

Chatham Credit Management III, LLC is entitled to a performance based fee under the documents governing the Funds.

Carried Interest

In general, Chatham Credit Management III, LLC is entitled to a 20% allocation of profits. This allocation is calculated after a 7% per year preferred return to the investors and after a catch-up amount to Chatham Credit Management III, LLC.

We refer to this 20% allocation of profits as the Carried Interest in this Brochure.

The following describes the Carried Interest in more detail.

The following concepts are used in the more detailed explanation of the carried Interest.

Available Amounts

Chatham Credit Management III, LLC determines the cash (or other assets) available for distribution to investors after:

- paying or providing for the current obligations of the Funds; and
- setting aside reasonable reserves for anticipated obligations or losses of the Funds, for permitted reinvestment or for amounts due in respect of the Management Fee or Fund Expenses.

We refer to this cash (or other assets) as Available Amounts in this Brochure.

Current Net Revenue

Chatham Credit Management III, LLC also determines the cash (or other assets) received by the Funds that:

- was received as interest, fees or other amounts

- that was not received as a return of principal or other return of capital to the Funds; and
- was allocated to revenue for the period in question.

Chatham Credit Management III, LLC then deducts current expenses for the period in question.

We refer to this cash or (other assets) as Current Net Revenue in this Brochure.

Unreturned Contributed Capital

In this Brochure, we refer to the aggregate amount of capital that an investor has contributed to the Funds that has not previously been returned to that investor as the Unreturned Contributed Capital.

Preferred Return

In this Brochure, we refer to a 7% per year return on the average Unreturned Contributed Capital as the Preferred Return.

Detailed Description of Carried Interest

The following is a more detailed description of the Carried Interest using the concepts just discussed.

Chatham Credit Management III, LLC distributes Available Amounts that are Current Net Revenue:

1. first, 100% to the investors until the investors have received aggregate distributions equal to Unreturned Contributed Capital with respect to Management Fees and losses of capital incurred as a result of dispositions and write-downs of investments;

2. second, 100% to the investors until the investors have received aggregate distributions equal to their Preferred Return;
3. third, 100% to Chatham Credit Management III, LLC until Chatham Credit Management III, LLC (or its affiliate) has received (after giving effect to this distribution and all prior similar distributions) distributions equal to 25% of the aggregate amount of all distributions to investors with respect to the Preferred Return made on or before this distribution; and
4. thereafter, 80% to investors and 20% to Chatham Credit Management III, LLC (or its affiliate).

Chatham Credit Management III, LLC makes these distributions on a quarterly basis, within 45 days of the end of the quarter in question.

Payment of Carried Interest

Chatham Credit Management III, LLC has assigned its right to receive the Carried Interest to Chatham Cascade Carried Interest III, LLC.

Item 7

Accordingly, all the clients of Chatham Credit Management III, LLC are private funds managed by Chatham Credit Management III, LLC.

Item 8 **Methods of Analysis, Investment Strategies and Risk of Loss**

- A. **Methods of Analysis and Investment Strategies.** The Funds focus on small and middle-market companies. The Funds invest in junior debt as well as provide senior debt in the small and middle markets. The Funds also occasionally make opportunistic investments in syndicated debt in the primary and secondary markets.

The Funds have participated in the overflow from Fund III and Fund IV investments in small to middle market companies and opportunistic purchases of senior debt instruments in the secondary loan market. The Fund III investment period ended on December 31, 2011 (except for follow-on investments in existing Portfolio Companies). The investment period for Fund IV will end on June 30, 2017.

The Funds reserve the right to modify their investment strategies based on market conditions.

The investments the Funds have made and propose to make involve a risk of loss. The Funds, and investors in the Funds, should be prepared to bear that loss.

Investment Approach

The Funds make opportunistic investments in lower and middle-market companies and selective purchases of syndicated loans.

Chatham Credit Management III, LLC uses a disciplined underwriting approach to identify opportunities to produce an attractive risk/return profile on senior loans and on junior debt financing.

Chatham Credit Management III, LLC emphasizes a user-friendly, adaptable approach in making its investments. Chatham Credit Management III, LLC is flexible as to the form in which capital is invested, so long as the needs of the portfolio companies can be met using our underwriting criteria.

In that context, Chatham Credit Management III, LLC is opportunistic. In certain cases the Funds may invest in convertible debt, preferred stock or common equity. However, without the approval of the Board of Advisors of the Funds (see Item 11 and Item 16 of this Brochure), the Funds will not invest more than 20% of their aggregate commitments in equity securities.

Investments may be made in profitable companies, companies in operational turnaround, leveraged buy-outs, early-stage companies and/or leveraged build-ups, among others. Companies may be in any industry, but Chatham Credit Management III, LLC has focused and intends to continue to focus on proven management teams in niche-oriented manufacturing, distribution, technology, service, retail, restaurant and health care businesses.

The Funds invest primarily in established companies. The Funds concentrate on private transactions, but in some circumstances might purchase securities of publicly held companies.

Without the approval of the Board of Advisors of the Funds (see Item 11 and Item 16 of this Brochure) each Fund may not invest more than 20% of its aggregate commitments in equity securities. Most of the investments of the Funds have involved leveraged buyouts, or acquisition financing.

Investment Process

Chatham Credit Management III, LLC uses a disciplined credit underwriting process. This process includes financial modeling and comprehensive operational, industry and management analysis. Chatham Credit Management III, LLC structures and documents investments taking this analysis into account.

Monitoring Investments

Once an investment has been made, Chatham Credit Management III, LLC monitors the performance of the Funds' Portfolio Companies using techniques similar to those used by large financial institutions. Representatives of Chatham Credit Management III, LLC receive and analyze detailed periodic financial reports and conduct regular meetings and discussions regarding Portfolio Company financial and operating performance in the context of industry developments as well as other factors such as the general state of the economy. As appropriate, Chatham Credit Management III, LLC also has regular discussions with Portfolio Company management. In most cases, the transaction documentation contains financial covenant tests to provide an early warning of performance problems. Chatham Credit Management III, LLC also has audits and consultant reviews conducted where applicable.

Chatham Credit Management III, LLC believes that this structuring methodology (including taking a secured position in most instances and having a comprehensive loan covenant package, including financial covenants) and these proactive portfolio monitoring procedures should result in enhanced recoveries in the event a Portfolio Company underperforms.

Limited Use of Leverage

In general, the Funds do not use leverage to enhance returns.

The Funds maintain a capital call line of credit. This credit line provides short term financing. This credit line is used to provide the Funds with the amounts of capital calls pending receipt of those calls from investors. This credit line is secured by unfunded investor commitments.

Chatham Credit Management III LLC can use this credit line:

- To accelerate the timetable for making a portfolio investment before the due date with respect to a capital call;
- To cover interim deal expenses before the closing of a portfolio investment; and
- To close a portfolio investment upon a default by one or more investors.

Rollover Investments

Investments made by the Funds may refinance or replace investments by other investment vehicles sponsored by the principals of Chatham Credit

Management III, LLC. These investments may involve the Funds paying the “equity kickers” and other returns due with respect to investments by other investment vehicles sponsored by the principals of Chatham Credit Management III, LLC.

The principals of Chatham Credit Management III, LLC recognize the potential for conflicts of interest in these types of investments. To protect against conflicts, the Funds may not make these types of investments unless they have been approved by a majority of the members of the Board of Advisors.
