Item 5 - Fees and Compensation

Gavion's fees are negotiated with each client depending upon the level of service needed, the size of the account and other service components as warranted. The specific manner in which fees are charged is clearly established in the client's written investment consulting agreement. Fees are generally quoted on a full retainer basis with no additional or add on charges. Fees are generally billed quarterly either in arrears or in advance depending upon the particular client. Gavion's fees are exclusive of other third party fees clients may incur related to investment money management, brokerage commission and/or asset custody charges.

Fees may be fixed dollar amounts or may be expressed as a percentage of assets. Gavion's fees generally range from a minimum of \$50,000 per annum and up, but in some cases may be lower as fees are negotiable.

Item 6 – Performance Based Fees

Gavion does not currently charge fees based on performance.

Item 7 - Types of Clients

Gavion generally provides investment advice to pension and profit sharing plans, charitable organizations, corporations or business entities, state or municipal government entities, high net worth individuals and families.

Client relationships vary in scope and length of service.

Item 8 - Methods of Analysis, Investment Strategies and Risk of Loss

Gavion emphasizes diversification as well as risk when evaluating investment manager strategies for inclusion in a client investment portfolio. Investment managers are evaluated upon relative performance such as peer group and market comparisons. Gavion compiles specific client information from bank custodian and brokerage statements, and utilizes this information as a component of client analysis to assist in the account review process with clients.

Gavion relies on internally and externally generated research when making investment recommendations. Internal research may be driven by Gavion's Research Advisory Board (RAB) process or by the client servicing team working in conjunction with the client. Not all of Gavion's recommendations related to client investments are driven by the RAB process as Gavion believes its clients should be able to tailor their investment portfolios to meet their needs.

Gavion focuses on strategic asset allocation and the selection of active investment managers. Portfolios are diversified to control the risk associated with traditional markets. Gavion utilizes both actively managed strategies and index-based investments in the implementation of client portfolio strategies. Gavion uses and recommends both traditional and alternative investments. In certain cases, the characteristics of these investments could be classified under multiple asset classes. In such cases, the client in consultation with Gavion will determine the most appropriate classification for performance reporting purposes. In addition, Gavion recommends a variety of vehicles to gain access to the desired investment manager or strategy (e.g. separate accounts, institutional no-load mutual funds, commingled trusts, limited partnerships, closed-end fund, other pooled investment vehicles, etc).

Investing directly in securities or investment managers that invest in securities involves risk of loss that clients should be prepared to bear. Clients should understand that certain asset classes, such as alternative investments, will inherently represent more risk to the investor. These investments may be illiquid and subject to lock-ups, may not have readily determinable market values, may not be transparent as to the underlying holdings and the ability to perform due diligence on these investments may be materially limited. Alternative investments are not subject to the same regulatory requirements as registered investment vehicles.

Item 9 - Disciplinary Information

Registered investment advisers are required to disclose all material facts regarding any legal or disciplinary events that would be material to your evaluation of Gavion or the integrity of Gavion's management. There are no legal or disciplinary events that are material to a client's or prospective client's evaluation of or the integrity of Gavion.

Item 13 - Review of Accounts

Client reviews are tailored to the desired frequency of the particular client and occur on either a monthly or quarterly basis by designated Gavion consultants as well as other designees. Account reviews are performed more frequently when market conditions or other factors dictate.

Gavion depends on its clients or the investment managers | custodians of its clients to provide the information necessary to properly evaluate the client's account. While each client's custodian sends detailed monthly or quarterly reports directly to clients, Gavion will prepare customized client reports according to the client agreement. Generally, these customized performance reports are created quarterly, but may be more frequent as dictated by the client relationship. Gavion does not audit or validate performance reports prepared for clients, but relies upon information collected from third party sources. Information is reviewed for reasonableness, but no assertion regarding the underlying validity is made by Gavion.

Generally, client reports entail a comparison of performance to market and peer group benchmarks as well as established goals and adherence to risk tolerance guidelines. Other factors subject to review may include investment manager allocation, securities overlap among investment managers, or investment style adherence.

Gavion is not authorized to move cash or securities away from a client's beneficial account and Gavion employees are not authorized to take custody of client funds. Custodial selection is approved by the client.

Item 17 - Voting Client Securities

As a matter of firm policy and practice, Gavion lacks any authority to and does not vote proxies on behalf of advisory clients. Clients retain the responsibility for receiving and voting proxies for any and all securities maintained in client portfolios. Gavion may provide advice to clients regarding the clients' voting of proxies upon request.

Item 18 - Financial Information

Gavion lacks any financial impairment that will preclude Gavion from meeting its contractual commitments to clients. Gavion has no financial commitment that impairs its ability to meet contractual and fiduciary commitments to clients, and has not been the subject of a bankruptcy proceeding.
