Item 4 – Advisory Business

Description of Advisory Services:

We organized our company with the State of Colorado on March 24, 2011 and filed our ADV to become registered as an investment adviser with the Securities and Exchange Commission (SEC) in July 2013. In November 2013, we submitted our application to become registered as a state registered investment adviser with the State of Colorado. We will withdraw our registration with the SEC upon the acceptance of our Colorado application. Our principal owner is Diana Gibson. We currently have approximately \$6.5 million in assets under active management, which we manage on a non-discretionary basis. We also provide family office services, including working with estate planners and tax advisers as requested by our clients.

We offer investment consulting services across all asset classes to family offices, including the selection of other advisers and fund managers to manage separately managed accounts for our clients. Our investment consulting services will generally follow a traditional endowment model of investing. We tailor all of our services to the individual needs of our clients based on information provided to us by our clients regarding their financial needs and objectives. Each client will be free to impose restrictions on investing in certain securities or types of securities.

We will offer our services to family offices with a total net worth of \$25 million or more. We negotiate fees on a case by case basis and will include options of a flat consulting fee, hourly fees and a percentage of assets under management.

Our consulting services will take into consideration many different aspects of your financial situation. We will work with your other professional advisers to provide a comprehensive financial strategy tailored to your needs and objectives. We will meet with you and your other advisers in person, as needed. We will typically review your portfolio monthly and will provide periodic reports to you and, if requested, your other advisers, on a customized basis. These reports will include information you request, including, for example, a consolidated schedule of accounts opened or investment advisers hired.

Description of Other Services:

Diana Gibson also provides administrative services to family offices, including assisting with tax preparation in conjunction with certified public accountants, coordinating estate planning recommendations in conjunction with estate planning counsel, and recordkeeping relating to private equity investments.

Item 5 – Fees and Compensation

Fee Schedule

As indicated in our written agreement, we will provide investment consulting services to our clients either at an hourly rate of \$400 per hour, for a fixed fee to be quoted based on the individual needs of each client, or for a percentage of the assets for which we provide investment consulting services. Our fees range from 0.25% to 1.00%. You may terminate this agreement without penalty within five days of entering into it. We will provide an invoice for our fees as described below.

You are free to obtain brokerage, custodian, legal and other services needed to implement our recommendations from any professional source you choose.

Fee Payment Options

We will bill you for our services in arrears on either a monthly or a quarterly basis, at your option, or otherwise as requested. Our invoices are due upon receipt unless otherwise agreed in writing. In the event that either party terminates our agreement, you will incur charges for all services rendered up to the effective date of the termination. Refunds of any pre-paid fees will be given on a pro rata basis.

We do not have any person associated with us who receives (directly or indirectly) any compensation from the sale of securities or investments that are purchased or sold for your account. As a result, we are a “fee only” investment adviser.

Item 6 – Performance-Based Fees and Side-By-Side Management

We will not charge fees on a share of the capital appreciation of the assets for which we provide investment consulting services (so-called performance based fees). Our fee compensation will be charged only as disclosed above in Item 5, Fees and Compensation.

Item 7 – Types of Clients

We will provide our services to family offices with a net worth of \$25 million or more.

Item 8 – Methods of Analysis, Investment Strategies and Risk of Loss

When providing investment consulting services to our clients, we utilize a traditional endowment model of investing. The endowment model generally divides a portfolio into five or six roughly equal parts and invests each in a different asset class. Central to this model is broad diversification and an equity orientation, avoiding asset classes with low expected returns. The endowment model is characterized by relatively heavy exposure to asset classes such as private equity compared to more traditional portfolios. When appropriate and depending on the needs and objectives of the client, this model allocates a significant portion of assets to non-traditional asset classes such as absolute return, private equity and real estate. This may result in less liquidity than a traditional stock and bond portfolio allocation.

We may also select other advisers and fund managers to implement our recommended allocations in separately management accounts. We will work with you to develop an investment policy statement at your request.

All recommendations provided by us are based on our professional experience and judgment. We cannot guarantee the results of any of our recommendations. Investing in securities involves risk of loss and clients should be prepared to bear investment losses.

Item 9 – Disciplinary Information

We do not have any legal, financial or other “disciplinary” item to report to you. We are obligated to disclose any disciplinary event that would be material to you when evaluating us to initiate a client/adviser relationship, or to continue a client/adviser relationship with us.

This statement applies to our firm, and every employee.
