Item 9: Additional Information.....	10
Item 10: Requirements for State-Registered Advisers	13

Item 4: Services, Fees & Compensation

- A. Description of our services, including the types of portfolio management services, provided under each program. We must indicate the wrap fee charged for each program, or, if fees vary according to a schedule, provide such schedule. Further, we are required to indicate whether fees are negotiable and identify the portion of the total fee, or range of fees, paid to portfolio managers.

We offer wrap fee programs as described in this Wrap Fee Program Brochure. Our wrap fee accounts are managed on an individualized basis according to the client's investment objectives, financial goals, risk tolerance, etc.

(i) Wrap Comprehensive Portfolio Management:

Our comprehensive portfolio management service encompasses asset management as well as providing financial planning/financial consulting to clients. It is designed to assist clients in meeting their financial goals through the use of financial investments. We conduct at least one, but sometimes more than one meeting (in person if possible, otherwise via telephone conference) with clients in order to understand their current financial situation, existing resources, financial goals, and tolerance for risk. Based on what we learn, we propose an investment approach to the client. We may propose an investment portfolio, consisting of exchange traded funds, mutual funds, individual stocks or bonds, or other securities. Upon the client's agreement to the proposed investment plan, we work with the client to establish or transfer investment accounts so that we can manage the client's portfolio. Once the relevant accounts are under our management, we review such accounts on a regular basis and at least quarterly. We may periodically rebalance or adjust client accounts under our management. If the client experiences any significant changes to his/her financial or personal circumstances, the client must notify us so that we can consider such information in managing the client's investments.

Fee Schedule:

Assets Under Management	Annual Percentage of Assets Charge
Any Assets	Up to 1.75%

Our firm's fees are billed on a pro-rata annualized basis monthly in arrears based on the value of your account on the last day of the previous month. Our fees are generally negotiable. Fees will generally be automatically deducted from your managed account. In rare cases, we will agree to direct bill clients. As part of this process, you understand and acknowledge the following:

- a) Your independent custodian sends statements at least quarterly to you showing the market values for each security included in the Assets and all disbursements in your account including the amount of the advisory fees paid to us;
- b) You provide authorization permitting us to be directly paid by these terms;
- c) We send a copy of our invoice to the independent custodian at the same time we send the invoice to you;
- d) Our invoice includes a legend that urges the client to compare information provided in their statements with those from the qualified custodian in account opening notices and

subsequent statements sent to the client for whom the adviser opens custodial accounts with the qualified custodian.

We charge our advisory fees monthly in arrears. If you wish to terminate our services, you need to contact us in writing and state that you wish to cancel the advisory agreement. Upon receipt of your letter of termination, we will proceed to close out your account and charge you a pro-rata advisory fee(s) for services rendered up to the point of termination.

If the Client does not receive our brochure and brochure supplements at least forty-eight (48) hours prior to entering into an agreement, the Client has the right to terminate our services without penalty within five (5) business days of entering into the agreement.

- B. Explanation that a wrap fee program may cost you more or less than purchasing such services separately and description of the factors that bear upon the relative cost of the program, such as the cost of the services if provided separately and the trading activity in your account(s).

A wrap fee program allows our clients to pay a specified fee for investment advisory services and the execution of transactions. The advisory services may include portfolio management and the fee is not based directly upon transactions in your account. Your fee is bundled with our costs for executing transactions in your account(s). This results in a higher advisory fee to you. We do not charge our clients higher advisory fees based on their trading activity, but you should be aware that we may have an incentive to limit our trading activities in your account(s) because we are charged for executed trades. By participating in a wrap fee program, you may end up paying more or less than you would through a non-wrap fee program where a lower advisory fee is charged, but trade execution costs are passed directly through to you by the executing broker.

- C. Description of any fees that you may pay in addition to a wrap fee, and description of the circumstances under which you may pay these fees, including, if applicable, mutual fund expenses and mark-ups, mark-downs, or spreads paid to market makers.

You may pay custodial fees, charges imposed directly by a mutual fund, index fund, or exchange traded fund which shall be disclosed in the fund's prospectus (i.e., fund management fees and other fund expenses), mark-ups and mark-downs, spreads paid to market makers, wire transfer fees and other fees and taxes on brokerage accounts and securities transactions. These fees are not included within the wrap-fee you are charged by our firm.

- D. If someone recommending a wrap fee program to you, receives compensation as a result of your participation in the program, we must disclose this fact. Further, we are required to explain, if applicable, that the amount of the compensation may be more than what the person would receive if you participated in our other wrap fee program or paid separately for investment advice, brokerage and other services. Finally, we must explain that someone recommending a wrap fee program may have a financial incentive to recommend the wrap fee program over other programs or services.

We do not recommend or offer the wrap program services of other providers. Our investment advisory representatives receive a portion of the advisory fee that you pay us, either directly as a percentage of your overall fee or as their salary from our firm. In cases where our investment advisory representatives are paid a percentage of your overall advisory fee, this may create an incentive to recommend that you participate in a wrap fee program rather than a non-wrap fee

program (where you would pay for trade execution costs) or brokerage account where commissions are charged. This is because, in some cases, we may stand to earn more compensation from advisory fees paid to us through a wrap fee program arrangement if your account is not actively traded.

Item 5: Account Requirements & Types of Clients

We have the following types of clients:

- Individuals and High Net Worth Individuals;
- Trusts, Estates or Charitable Organizations; and
- Pension and Profit Sharing Plans

We do not have requirements for opening and maintaining accounts or otherwise engaging us.

Item 6: Portfolio Manager Selection & Evaluation

- A. Description of how our firm selects and reviews portfolio managers, our basis for recommending or selecting portfolio managers for particular clients, and our criteria for replacing or recommending the replacement of portfolio managers for the program and for particular clients.

Our firm does not utilize outside portfolio managers. All accounts are managed by our in-house professionals.

- B. Disclosure of whether our firm or any related persons act as a portfolio manager for a wrap fee program described in the wrap fee program brochure. We must explain the conflicts of interest that we face because of this arrangement and describe how we address these conflicts of interest. Further, we must disclose whether related person portfolio managers are subject to the same selection and review as the other portfolio managers that participate in the wrap fee program. If they are not, we must describe how we select and review related person portfolio managers.

Our firm and its related persons act as portfolio manager(s) for this wrap fee program. This may create a conflict of interest in that other investment advisory firms may charge the same or lower fees than our firm for similar services. Our related person portfolio managers are not subject to the same selection and review as outside portfolio managers that participate in the wrap fee program. This is because we have chosen not to utilize outside portfolio managers.

- C. If our firm, or any of our supervised persons covered under or investment adviser registration, act as a portfolio manager for a wrap fee program described in the wrap fee program brochure, we must respond to Items 4.B, 4.C, 4.D (Advisory Business), 6 (Performance-Based Fees and Side-By-Side Management), 8.A (Methods of Analysis, Investment Strategies and Risk of Loss) and 17 (Voting Client Securities) of Part 2A of Form ADV (Firm Brochure).

Our firm and supervised persons act as portfolio manager(s) for this wrap fee program.

(1) Advisory Business:

See Item 4 for information about our wrap fee advisory program.

(2) Individual Tailoring of Advice to Clients:

We offer individualized investment advice to clients utilizing our Wrap Comprehensive Portfolio Management service.

(3) Ability of Clients to Impose Restrictions on Investing in Certain Securities or Types of Securities:

Each client has the opportunity to place reasonable restrictions on the types of investments to be held in the portfolio. Restrictions on investments in certain securities or types of securities may not be possible due to the level of difficulty this would entail in managing the account. Restrictions would be limited to our Wrap Comprehensive Portfolio Management service. We do not manage assets through our other services.

(4) Participation in Wrap Fee Programs.

Our wrap fee accounts are managed on an individualized basis according to the client's investment objectives, financial goals, risk tolerance, etc. We do not manage wrap fee accounts in a different fashion than non-wrap fee accounts.

(5) Performance-Based Fees & Side-By-Side Management.

Our firm may charge qualified clients¹ "performance fees" – that is, fees based on a share of capital gains on or capital appreciation of the managed assets of a client. We charge performance based fees as follows:

Assets Under Management	Annual Percentage of Assets Charge
Any Assets	Up to 1.75%

Our firm's fees are billed on a pro-rata annualized basis monthly in arrears based on the value of your account on the last day of the previous month. Our fees are generally negotiable.

We also charge a performance based fee quarterly in arrears at the end of each quarter as follows:

- 20% of the net profits (i.e., profits after our management fee has been deducted) achieved for the previous quarter of account management.

In charging performance fees to some of our client accounts, we face a conflict because we can potentially receive greater fees from client accounts having a performance-based compensation structure than from those accounts we only charge a fee unrelated to performance (e.g., an asset-based fee). As a result, we may have an incentive to direct the best investment ideas to, or to allocate or sequence trades in favor of, the account that pays a performance fee.

¹ We are currently permitted to charge performance based fees only to clients with at least \$1,000,000 under management with our firm or a net worth of at least \$2,000,000. It is expected that the SEC will revisit this standard in the near future and tie the definition of a qualified client to inflation. It is unclear at this time whether the SEC will grandfather or exempt existing qualified clients being charged performance based fees from a greater financial threshold for meeting the qualified client standard should the definition change.

We have taken several important steps to ensure that our performance based accounts are not favored over our client's non-performance fee based accounts. These steps include:

- a) A periodic comparison of our performance based and non-performance accounts. Our comparison will entail a review of our ten most profitable and ten least profitable (including unrealized gain or loss) investment decisions based on total return of positions opened and closed for each investment strategy or mandate offered to clients. We keep track of securities ticker symbol, purchase date, sale date, percentage of gain and/or loss, and dollar amount of the gain and/or loss. In the event that we find performance based accounts are being unduly (i.e., consistently) favored over non-performance based accounts, we would take action to address the situation. This could include allowing non-performance based accounts to trade before performance based accounts to the extent practicable, or if the problem persists, not allowing new performance based accounts, waiving our performance based fees or cancelling our performance based fee arrangements altogether and in some cases, termination of firm personnel.
- b) The use of block trades and allocations made based on client's risk tolerance, investment objectives and restrictions. A periodic review of the block trade allocations to detect whether profitable trades are being disproportionately allocated to performance based accounts, while unprofitable trades are being disproportionately allocated to pure-fee based accounts with no performance fee. If our firm detects a problem in the allocation of block trades, our remedies are the same as those outlined above.

(6) Methods of Analysis, Investment Strategies & Risk of Loss

Methods of Analysis:

- Fundamental
 - We attempt to measure the intrinsic value of a security by looking at economic and financial factors (including the overall economy, industry conditions, and the financial condition and management of the company itself) to determine if the company is underpriced (indicating it may be a good time to buy) or overpriced (indicating it may be time to sell). Fundamental analysis does not attempt to anticipate market movements. This presents a potential risk, as the price of a security can move up or down along with the overall market regardless of the economic and financial factors considered in evaluating the stock.
- Technical
 - We analyze past market movements and apply that analysis to the present in an attempt to recognize recurring patterns of investor behavior and potentially predict future price movement. Technical analysis does not consider the underlying financial condition of a company. This presents a risk in that a poorly-managed or financially unsound company may underperform regardless of market movement.

Investment Strategies We Use:

- Long Term Purchases (Securities Held At Least a Year);
 - When utilizing this strategy, we may purchase securities with the idea of holding

them for a relatively long time (typically held for at least a year). A risk in a long-term purchase strategy is that by holding the security for this length of time, we may not take advantages of short-term gains that could be profitable to a client. Moreover, if our predictions are incorrect, a security may decline sharply in value before we make the decision to sell. Typically we employ this sub-strategy when we believe the securities to be well valued; and/or we want exposure to a particular asset class over time, regardless of the current projection for this class.

- Short Term Purchases (Securities Sold Within a Year);
 - When utilizing this strategy, we may also purchase securities with the idea of selling them within a relatively short time (typically a year or less). We do this in an attempt to take advantage of conditions that we believe will soon result in a price swing in the securities we purchase.
- Trading (Securities Sold Within 30 Days);
 - We purchase securities with the idea of selling them very quickly (typically within 30 days or less). We do this in an attempt to take advantage of our predictions of brief price swings.
- Short Sales;
 - We borrow shares of a stock for your portfolio from someone who owns the stock on a promise to replace the shares on a future date at a certain price. Those borrowed shares are then sold. On the agreed-upon future date, we buy the same stock and return the shares to the original owner. We engage in short selling based on our determination that the stock will go down in price after we have borrowed the shares. If we are correct and the stock price has gone down since the shares were purchased from the original owner, the client account realizes the profit.
- Margin Transactions;
 - We will purchase stocks for your portfolio with money borrowed from your brokerage account. This allows you to purchase more stock than you would be able to with your available cash, and allows us to purchase stock without selling other holdings.
- Option Writing, including Covered Options, Uncovered Options or Spreading Strategies
 - We may use options as an investment strategy. An option is a contract that gives the buyer the right, but not the obligation, to buy or sell an asset (such as a share of stock) at a specific price on or before a certain date. An option, just like a stock or bond, is a security. An option is also a derivative, because it derives its value from an underlying asset. The two types of options are calls and puts:
 - A call gives us the right to buy an asset at a certain price within a specific period of time. We will buy a call if we have determined that the stock will increase substantially before the option expires.
 - A put gives us the holder the right to sell an asset at a certain price within a specific period of time. We will buy a put if we have determined that the price of the stock will fall before the option expires.
 - We will use options to "hedge" a purchase of the underlying security; in other words, we will use an option purchase to limit the potential upside and downside of a security we have purchased for your portfolio.

- We use "covered calls", in which we sell an option on security you own. In this strategy, you receive a fee for making the option available, and the person purchasing the option has the right to buy the security from you at an agreed-upon price.
- We use a "spreading strategy", in which we purchase two or more option contracts (for example, a call option that you buy and a call option that you sell) for the same underlying security. This effectively puts you on both sides of the market, but with the ability to vary price, time and other factors.

Please Note: Investing in securities involves risk of loss that clients should be prepared to bear. While the stock market may increase and your account(s) could enjoy a gain, it is also possible that the stock market may decrease and your account(s) could suffer a loss. It is important that you understand the risks associated with investing in the stock market, are appropriately diversified in your investments, and ask us any questions you may have.

(7) Voting Client Securities

We do not and will not accept the proxy authority to vote client securities. Clients will receive proxies or other solicitations directly from their custodian or a transfer agent. In the event that proxies are sent to our firm, we will forward them on to you and ask the party who sent them to mail them directly to you in the future. Clients may call, write or email us to discuss questions they may have about particular proxy votes or other solicitations.

Item 7: Client Information Provided to Portfolio Manager(s)

We are required to describe the information about you that we communicate to your portfolio manager(s), and how often or under what circumstances we provide updated information. Our firm communicates with your portfolio manager(s) on a regular basis as needed (daily, weekly, monthly, etc) to ensure your most current investment goals and objectives are understood by your portfolio manager(s). In most cases, we will communicate such information as part of our regular investment management duties. Nevertheless, we will also communicate information to your portfolio manager(s) when you ask us to, when market or economic conditions make it prudent to do so, etc.

Item 8: Client Contact with Portfolio Manager(s)

Clients are always free to directly contact their portfolio manager(s) with any questions or concerns they have about their portfolios or other matters.

Item 9: Additional Information

- A. We are required to respond to: 1. Item 9 (Disciplinary Information); and 2. Item 10 (Other Financial Industry Activities and Affiliations) of Part 2A of Form ADV.
1. We have determined that our firm and management have no disciplinary information to disclose.
 2. We have the following financial industry activities and affiliations to disclose:

Representatives of our firm are insurance agents/brokers. They may offer insurance products and receive customary fees as a result of insurance sales. A conflict of interest may arise as these insurance sales may create an incentive to recommend products based on the compensation adviser and/or our supervised persons may earn.

- B. We are required to respond to: 1. Items 11 (Code of Ethics or Interest in Client Transactions and Personal Trading); 2. Item 13 (review of Accounts); 3. Item 14 (Client Referrals and Other Compensation); and 4. Item 18 (Financial Information) of Part 2A of Form ADV, as applicable to our wrap fee clients.

1. Code of Ethics, Participation or Interest in Client Transactions & Personal Trading

We recognize that the personal investment transactions of members and employees of our firm demand the application of a high Code of Ethics and require that all such transactions be carried out in a way that does not endanger the interest of any client. At the same time, we believe that if investment goals are similar for clients and for members and employees of our firm, it is logical and even desirable that there be common ownership of some securities.

Therefore, in order to prevent conflicts of interest, we have in place a set of procedures (including a pre-clearing procedure) with respect to transactions effected by our members, officers and employees for their personal accounts². In order to monitor compliance with our personal trading policy, we have a quarterly securities transaction reporting system for all of our associates.

Furthermore, our firm has established a Code of Ethics which applies to all of our associated persons. An investment adviser is considered a fiduciary. As a fiduciary, it is an investment adviser's responsibility to provide fair and full disclosure of all material facts and to act solely in the best interest of each of our clients at all times. We have a fiduciary duty to all clients. Our fiduciary duty is considered the core underlying principle for our Code of Ethics which also includes Insider Trading and Personal Securities Transactions Policies and Procedures. We require all of our supervised persons to conduct business with the highest level of ethical standards and to comply with all federal and state securities laws at all times. Upon employment or affiliation and at least annually thereafter, all supervised persons will sign an acknowledgement that they have read, understand, and agree to comply with our Code of Ethics. Our firm and supervised persons must conduct business in an honest, ethical, and fair manner and avoid all circumstances that might negatively affect or appear to affect our duty of complete loyalty to all clients. This disclosure is provided to give all clients a summary of our Code of Ethics. However, if a client or a potential client wishes to review our Code of Ethics in its entirety, a copy will be provided promptly upon request.

2. Review of Accounts

We review accounts on at least a weekly basis for our clients subscribing to our Wrap Comprehensive Portfolio Management service. The nature of these reviews is to learn whether clients' accounts are in line with their investment objectives, appropriately positioned based on

² For purposes of the policy, our associate's personal account generally includes any account (a) in the name of our associate, his/her spouse, his/her minor children or other dependents residing in the same household, (b) for which our associate is a trustee or executor, or (c) which our associate controls, including our client accounts which our associate controls and/or a member of his/her household has a direct or indirect beneficial interest in.

market conditions, and investment policies, if applicable. Only Eric Pirhalla will conduct reviews.

We may review client accounts more frequently than described above. Among the factors which may trigger an off-cycle review are major market or economic events, the client's life events, requests by the client, etc.

We do not provide written reports to clients, unless asked to do so. Verbal reports to clients take place on at least an annual basis when we meet with clients who subscribe to our Wrap Comprehensive Portfolio Management service.

3. Client Referrals & Other Compensation

Advisor participates in the institutional advisor program (the "Program") offered by TD Ameritrade Institutional. TD Ameritrade Institutional is a division of TD Ameritrade Inc., member FINRA/SIPC/NFA ("TD Ameritrade"), an unaffiliated SEC-registered broker-dealer and FINRA member. TD Ameritrade offers to independent investment advisors services which include custody of securities, trade execution, clearance and settlement of transactions. Advisor receives some benefits from TD Ameritrade through its participation in the Program.

We may recommend TD Ameritrade to Clients for custody and brokerage services. There is no direct link between our firm's participation in the program and the investment advice we give to our Clients, although we receive economic benefits through our participation in the program that are typically not available to TD Ameritrade retail investors. These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate Client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving our firm's participants; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to Client accounts); the ability to have advisory fees deducted directly from Client accounts; access to an electronic communications network for Client order entry and account information; access to mutual funds with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management products or services provided to us by third party vendors. TD Ameritrade may also have paid for business consulting and professional services received by our firm's related persons. Some of the products and services made available by TD Ameritrade through the program may benefit our firm but may not benefit our Client accounts. These products or services may assist us in managing and administering Client accounts, including accounts not maintained at TD Ameritrade. Other services made available by TD Ameritrade are intended to help us manage and further develop our business enterprise. The benefits received by our firm or our personnel through participation in the program do not depend on the amount of brokerage transactions directed to TD Ameritrade. As part of our fiduciary duties to our clients, we endeavor at all times to put the interests of our clients first. Clients should be aware, however, that the receipt of economic benefits by our firm or our related persons in and of itself creates a potential conflict of interest and may indirectly influence our firm's choice of TD Ameritrade for custody and brokerage services.

We do not pay referral fees (non-commission based) to independent solicitors (non-registered representatives) for the referral of their clients to our firm in accordance with relevant state statutes and rules.

4. Financial Information

We are not required to provide financial information in this Brochure because we do not require the prepayment of more than \$500 in fees and six or more months in advance, we do not take custody of client funds or securities and we do not have a financial condition or commitment that impairs our ability to meet contractual and fiduciary obligations to clients. Our firm has never been the subject of a bankruptcy proceeding.

Item 10: Requirements for State-Registered Advisers

We are State registered and have responded to this Item in Item 9.A.2 of this Part 2A Appendix 1 of Form ADV.
