A. Services

CT Financial Advisors, LLC (“CapTrust” or the “Advisor”) offers investment advisory services to individuals, high net worth individuals, trusts, estates, business and pooled investment vehicles in Pennsylvania and other states (each referred to as a “Client”).

CapTrust provides customized investment advisory solutions for its Clients. This is achieved through continuous personal Client contact and interaction while providing both non-discretionary and discretionary investment management and consulting services. CapTrust works with each Client to identify their investment goals and objectives as well as risk tolerance and financial situation in order to create a portfolio allocation. CapTrust will then construct a portfolio, consisting of individual stocks and bonds, commodities funds and securitized real estate. An allocation is designed to best meet the long-term goals of our Clients. The Advisor may also utilize United States government bonds, municipal bonds, and mutual funds to meet the needs of its Clients.

Investment Advisory Fees are paid quarterly in advance pursuant to the terms of the Investment Advisory Agreement. Investment Advisory Fees are based on the market value of assets under management at the end of each calendar quarter. Investment Advisory Fees range from .05% to 1.50% depending on the size and complexity of the Client relationship. Relationships with multiple objectives, specific reporting requirements, portfolio restrictions and other complexities may be charged a higher fee.

Investment Advisory Fees in the first quarter of service are prorated to the inception date of the account to the end of the first quarter. Fees may be negotiable at the discretion of the Advisor. The Client's fees will take into consideration the aggregate assets under management with Advisor. All securities held in accounts managed by CapTrust will be independently valued by the designated Custodian. CapTrust will not have the authority or responsibility to value portfolio securities.

B. Program Costs

Services provided under the CapTrust Wrap Program may cost the Client more or less than purchasing these types of investment management services separately. The costs of the Wrap Program varies depending on the following factors: CapTrust will pay to Fidelity the transaction/executions costs associated with equities transactions. This represents a potential conflict of interest because the Advisor has a disincentive to trade securities as it costs the Advisor money.

In addition, CapTrust may recommend that clients establish brokerage accounts with the Fidelity Institutional Wealth Services division of Fidelity Brokerage Services LLC (“Fidelity”), a registered broker-dealer, member SIPC, to maintain custody of clients’ assets and to effect trades for their accounts. The final decision to custody assets with Fidelity is at the discretion of the Advisor’s clients, including those accounts under ERISA or IRA rules and regulations, in which case the client is acting as either the plan sponsor or IRA accountholder. CapTrust is independently owned and operated and not affiliated with Fidelity. Fidelity provides CapTrust with access to its institutional trading and custody services, which are typically not available to Fidelity retail investors. These services generally are available to independent investment advisors on an unsolicited basis, at no charge to them so long as a total of at least \$25 million of the advisor’s clients’ assets are maintained in accounts at Fidelity Institutional. Fidelity’s services include brokerage services that are related to the execution of securities transactions, custody, research, including that in the form of advice, analyses and reports, and access to mutual funds and other investments that are otherwise generally available only to institutional investors or would require a significantly higher minimum initial investment.

For CapTrust client accounts maintained in its custody, Fidelity generally does not charge separately for custody services but is compensated by account holders through commissions or other transaction-related or asset-based fees for securities trades that are executed through Fidelity or that settle into Fidelity accounts.

Fidelity also makes available to CapTrust other products and services that benefit CapTrust but may not benefit its clients' accounts. These benefits may include national, regional or CapTrust's specific educational events organized and/or sponsored by Fidelity Institutional. Other potential benefits may include occasional business entertainment of personnel of CapTrust by Fidelity Advisor Services personnel, including meals, invitations to sporting events, including golf tournaments, and other forms of entertainment, some of which may accompany educational opportunities. Other of these products and services assist CapTrust in managing and administering clients' accounts. These include software and other technology (and related technological training) that provide access to client account data (such as trade confirmations and account statements), facilitate trade execution (and allocation of aggregated trade orders for multiple client accounts), provide research, pricing information and other market data, facilitate payment of CapTrust's fees from its clients' accounts, and assist with back-office training and support functions, recordkeeping and client reporting. Many of these services generally may be used to service all or some substantial number of CapTrust's accounts, including accounts not maintained at Fidelity Institutional. Fidelity Institutional also makes available to CapTrust other services intended to help CapTrust manage and further develop its business enterprise. These services may include professional compliance, legal and business consulting, publications and conferences on practice management, information technology, business succession, regulatory compliance, employee benefits providers, human capital consultants, insurance and marketing. In addition, Fidelity may make available, arrange and/or pay vendors for these types of services rendered to CapTrust by independent third parties. Fidelity Institutional may discount or waive fees it would otherwise charge for some of these services or pay all or a part of the fees of a third-party providing these services to CapTrust. While, as a fiduciary, CapTrust endeavors to act in its clients' best interests, CapTrust's recommendation / requirement that clients maintain their assets in accounts at Fidelity may be based in part on the benefit to CapTrust of the availability of some of the foregoing products and services and other arrangements and not solely on the nature, cost or quality of custody and brokerage services provided by Fidelity, which may create a potential conflict of interest.

C. Fees

The wrap fee paid by the Client covers the investment advice, portfolio management and includes the transactions costs charged by Fidelity. The Advisor will pay to Fidelity the transaction/executions costs associated with equities transactions. Generally, the Advisor will also pay any mark-ups, mark-downs or spreads paid to market makers, as well as SEC fees.

In addition, all fees paid to CapTrust for investment advisory services are separate and distinct from the expenses charged by mutual funds and exchange-traded funds to their shareholders, if applicable. These fees and expenses are described in each fund's prospectus. These fees and expenses will generally be used to pay management fees for the funds, other fund expenses, account administration (e.g., custody, brokerage and account reporting), and a possible distribution fee. A Client could invest in these products directly, without the services of CapTrust, but would not receive the services provided by CapTrust which are designed, among other things, to assist the Client in determining which products or services are most appropriate to each Client's financial condition and objectives. Accordingly, the Client should review both the fees charged by the fund(s) and the fees charged by CapTrust to fully understand the total fees to be paid.

Clients may also incur certain fees or charges imposed by other third-parties, other than CapTrust, in connection with investment made on behalf of the Client's account[s]. Other non-ordinary fees or fees incurred at the direction of the Client shall be paid by the Client. The Client shall be responsible for any such fees relating to their account(s).

D. Compensation

CapTrust is the portfolio manager of the Wrap Fee Program. The only compensation CapTrust receives are the advisory fees paid by Clients for participating in the program.

Item 5 – Account Requirements and Types of Clients

CapTrust offers investment advisory services to individuals, high net worth individuals, trusts, estates, business and pooled investment vehicles. CapTrust generally does not impose a minimum account size for establishing a relationship.

Item 6 – Portfolio Manager Selection and Evaluation

B. Related Persons

Advisory Services Offered

CapTrust offers investment advisory services to individuals, high net worth individuals, trusts, estates, business and pooled investment vehicles. This section provides information regarding the qualifications, business practices, and the advisory services provided by CapTrust.

Investment Management

Generally, the Advisor manages assets on a non-discretionary basis. In these instances the Clients must provide verbal or written approval to the Advisor prior to trade execution. In addition, the Advisor may manage certain assets on a discretionary basis, in which the Advisor has permission to execute trades without obtaining approval from Clients. CFTA will explain each option to the Client and assist the Client in selecting the appropriate service based on the individual needs.

CapTrust's investment strategy is primarily long-term focused, but the Advisor may buy, sell or re-allocate positions that have been held less than one year to meet the objectives of the Client or due to market conditions. Generally the Advisor monitors the allocations and rebalances the portfolio back to target allocations quarterly. CapTrust will construct, implement and monitor the portfolio to ensure it meets the goals, objectives, circumstances, and risk tolerance agreed to by the Client. Each Client will have the opportunity to place reasonable restrictions on the types of investments to be held in their respective portfolio, subject to the acceptance by the Advisor.

CapTrust evaluates and selects investments for inclusion in Client portfolios only after applying their internal due diligence process. CapTrust may recommend, on occasion, redistributing investment allocations to diversify the portfolio. CapTrust may recommend specific positions to increase sector or asset class weightings. The Advisor may recommend employing cash positions as a possible hedge against market movement, which may adversely affect the portfolio. CapTrust may recommend selling positions for reasons that include, but are not limited to, harvesting capital gains or losses, business or sector risk exposure to a specific security or class of securities, overvaluation or overweighting of the position[s] in the portfolio, change in risk tolerance of Client, generating cash to meet Client needs, or any risk deemed unacceptable for the Client's risk tolerance.

Prior to rendering investment advisory services, CapTrust will ascertain, in conjunction with the Client, the Client's financial situation, risk tolerance, and investment objective[s].

strategy based on their tolerance for risk and other factors noted above. However, there is no guarantee that a Client will meet their investment goals.

Fundamental analysis utilizes economic and business indicators as investment selection criteria. These criteria are generally ratios and trends that may indicate the overall strength and financial viability of the entity being analyzed. Assets are deemed suitable if they meet certain criteria to indicate that they are a strong investment with a value discounted by the market. While this type of analysis helps the Advisor in evaluating a potential investment, it does not guarantee that the investment will increase in value. Assets meeting the investment criteria utilized in the fundamental analysis may lose value and may have negative investment performance. The Advisor monitors these economic indicators to determine if adjustments to strategic allocations are appropriate. More details on the Advisor's review process are included in Item 13.

Each Client engagement will entail a review of the Client's investment goals, financial situation, time horizon, tolerance for risk and other factors to develop an appropriate strategy for managing a Client's account. Client participation in this process, including full and accurate disclosure of requested information, is essential for the analysis of a Client's account. The Advisor shall rely on the financial and other information provided by the Client or their designees without the duty or obligation to validate the accuracy and completeness of the provided information. It is the responsibility of the Client to inform the Advisor of any changes in financial condition, goals or other factors that may affect this analysis.

The risks associated with a particular strategy are provided to each Client in advance of investing Client accounts. The Advisor will work with each Client to determine their tolerance for risk as part of the portfolio construction process.

CapTrust may use margin in Client accounts for to manage the timing of purchases and sales, as appropriate. CapTrust may employ options strategies to hedge or gain additional exposure to a particular asset class or sector. CapTrust's investment strategy encompasses active trading in concentrated portfolios. Following are some of the risks associated with certain transactions:

Past performance is not a guarantee of future returns. Investing in securities and other investments involve a risk of loss that each Client should understand and be willing to bear.
