This brochure provides information about the qualifications and business practices of Savant Capital, LLC dba Savant Capital Management. If you have any questions about the contents of this brochure, please contact us at info@savantcapital.com. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority. Registration with the SEC or state regulatory authority does not imply a certain level of skill or expertise.

Additional information about Savant Capital, LLC is also available on the SEC's website at www.adviserinfo.sec.gov.

Item 2. Material Changes

This Firm Brochure is our disclosure document prepared according to regulatory requirements and rules. Consistent with the rules, we will ensure that you receive a summary of any material changes to this and subsequent Brochures within 120 days of the close of our business' fiscal year. Furthermore, we will provide you with other interim disclosures about material changes as necessary.

Material changes made to this document since our last annual amendment filing on March 25, 2014.

Item 4

E. Updated Assets Under Management

As of December 31, 2014, Savant manages \$4,089,030,755 of discretionary assets and \$30,975,975 of non-discretionary assets. Of that total, the WFAS Sub-advised Program has \$36,785,150 of discretionary assets under Savant management.

Item 10

C.1. Added Wholly Owned Subsidiary – Green, Plagge & Shaw

Green, Plagge & Shaw ("GPS") is a wholly owned subsidiary of Savant which provides accounting, tax and payroll services to its clients. The principles of GPS and the employees providing these services are employees of Savant and leased to GPS. Savant and GPS have clients in common. Additionally, Savant may recommend GPS's services to their advisory clients and GPS may recommend Savant's services to their accounting, tax or payroll clients. This represents a potential conflict of interest. No client is obligated to engage the services of Savant or GPS based upon these recommendations.

Item 14

A.8. Added Conflict of Interest – TD Ameritrade – Advisor Panel

Brent Brodeski, CEO, serves on the TD Ameritrade Institutional Advisor Panel ("Panel"). The Panel consists of approximately thirty (30) independent investment advisors that advise TD Ameritrade Institutional ("TDA Institutional") on issues relevant to the independent advisor community. The Panel meets in person on average three to four times per year and conducts periodic conference calls on an as needed basis. Investment advisors are appointed to serve on the Panel for three-year terms by TDA Institutional senior management. An investment advisor may serve longer than three years if appointed to additional terms by TDA Institutional senior management. Brent's current term expires on December 31, 2017. At times, Panel members are provided confidential information about TDA Institutional initiatives. Therefore, Panel members are required to sign confidentiality agreements. TD Ameritrade, Inc. ("TD Ameritrade") does not compensate Panel members. However, TD Ameritrade pays or reimburses Panel members for

the travel, lodging and meal expenses they incur in attending Panel meetings. The benefits received by Savant or its personnel by serving on the Panel do not depend on the amount of brokerage transactions directed to TD Ameritrade. Clients should be aware, however, that the receipt of economic benefits by Savant or its related persons in and of itself creates a potential conflict of interest and may indirectly influence Savant's recommendation of TD Ameritrade for custody and brokerage services.

A.10 Added Client Benefit – Centre for Fiduciary Excellence (CEFEX)

CEFEX has provided Savant with a purchase credit of \$1500 against the annual renewal fee for their Steward CEFEX certification in consideration for Savant creating a brochure detailing the benefits of being a CEFEX certified Steward. Savant and CEFEX are not affiliated entities and this is not a referral relationship. Savant will not receive further compensation in regard to any other companies who might decide to pursue CEFEX certification as a result of our brochure and the purchase credit received is not dependent on Savant referring a certain number of companies for certification.

Item 4. Advisory Business

A. Description of Your Advisory Firm

Savant Capital, LLC ("Savant" and/or "the firm"), is a Delaware corporation doing business as Savant Capital Management. Savant Capital, LLC is owned principally by SCMI, Inc. (formerly known as Savant Capital Management, Inc.) and The Monitor Group, LLC. Savant, and its predecessor company have been offering investment advisory services since March of 1993. Savant is a fee-only investment management firm, offering asset management, financial planning, and consulting services.

A.1. Investment Committee

The asset management programs offered by and through Savant are formulated and supervised by Savant's investment committee. Savant's investment committee is comprised of certain members of the board of managers, executive lead team, functional lead team and the investment research team. All members are appointed by the CEO. Non-voting members may be appointed at the CEO's discretion and may include Savant employees or non-employee members.

Savant's investment committee formulates all investment advice to be delivered to clients through either itself or an unaffiliated third party investment adviser's financial advisor who will be available to the client for consultation.

The committee is responsible for developing and monitoring the firm's investment program.

The committee will have the following goals and responsibilities with respect to the investment practices of Savant:

- To review and approve the investment and related strategies of Savant and to evaluate and monitor appropriate risk exposures relative to policy thresholds.
- To review the performance of the investment portfolios to ensure adherence to Savant's investment philosophy.

No Savant employee is permitted to modify the investment program except as provided by investment committee resolutions.

B. Description of Advisory Services Offered

Savant is a fee-only investment management firm, offering asset management, and financial planning services as further described in Item 8 of this brochure, to third party investment advisers. Savant's business philosophy is to seek to minimize investment risk through careful diversification and selection of appropriate investment vehicles within each asset class.

B.1. Wealth Financial Advisory Services, LLC ("WFAS") Sub-advised Asset Management Services

Through Savant, WFAS financial advisors offer investment management , and financial planning services to financially established individuals, high net worth individuals, small businesses, or similar investors. Securities and strategies used that comprise Savant's asset management services are described in Item 8 of this brochure. WFAS clients are required to provide Savant with discretionary authority to manage their account as further described in Item 16 of this brochure.

Savant asset management services are intended to comply with Rule 3a-4 under the Investment Company Act of 1940. Clients' accounts are managed on the basis of their individual risk tolerance that correspond to an appropriately correlated model portfolio. Each client has the opportunity to impose reasonable restrictions on the management of the assets in the account. Clients, through their WFAS financial advisor, will be contacted annually to determine if there are any changes to their investment goals, objectives, and risk tolerance, and notified quarterly inviting them to contact WFAS for changes to their investment goals, objectives, and risk tolerance.

In order to accommodate WFAS clients, Savant offers asset management services for WFAS clients with portfolios of \$50,000 and above. Savant portfolios will utilize allocation models, consistent with the securities and investment strategies described in Item 8 of this brochure.

Investment Policy Statement

Each investment policy statement ("IPS"), if prepared by WFAS, will set forth the Savant asset allocation model that WFAS and the client have determined to be appropriate. Savant's asset allocation process is typically based on long-term investment time horizons. This is based on Savant's research, which concludes that it is generally not in the investor's best interest to attempt to determine investment security purchase or sale points based on short-term economic information and/or market timing models.

- Within the IPS, WFAS will provide important information concerning each of the following categories
- Risk tolerance
- Long-term rate-of-return objective
- Investment time horizon
- Income and liquidity needs
- Tax considerations
- Recommended asset allocation/asset class guidelines
- Frequency of investment policy re-evaluation
- Trading procedures
- Procedures for selecting and monitoring investments
- Fee arrangement
- Custody arrangements

- Description of authority delegated to Savant and WFAS
- Limitations on investment holdings

WFAS and the client will review each client portfolio periodically to determine if risk and return objectives or investment policies need revision. There is no charge for revising an IPS.

Ongoing monitoring

Savant, in its capacity as sub-advisor, will periodically rebalance the client's investment portfolio to conform to the asset allocation/asset class guidelines accepted by the client. WFAS, in consultation with the client, will periodically review each client's portfolio to determine whether risk and return objectives and investment policies need revision as a result of changes in the client's financial circumstances. If revision is necessary, then WFAS will amend the IPS with the updated information, and provide the new information to Savant to implement a new model portfolio.

Sub-Advisors

From time to time and to the extent permitted in each client's advisory agreement, Savant may engage the services of other independent advisors ("sub-advisors") to provide specialized advisory services. In such cases, Savant may collect certain financial information regarding clients and make that information available to these sub-advisors.

B.2. Financial Planning and Other Consulting Services

B.2.a. Financial Planning Services

Savant may provide non-discretionary estate, retirement, and/or financial planning advice to non-advisory clients. Advice is based on objectives communicated, either orally or in writing, by the client and/or his or her advisors. Planning advice may be provided through individual consultations and/or a written plan document. A written plan may include but is not limited to the following:

- Stock option analysis
- Insurance planning
- Education funding
- Retirement planning, which may include written estimates of cash flow and/or retirement needs and sources
- Divorce planning
- Estate planning, which may include:
 - A written description of estate and/or life-style objectives
 - An evaluation of current and/or suggested estate ownership structure
 - Diagnostic reports that identify estate ownership alternatives
 - Coordination of estate planning objectives with current/future assets/professional advisors

- A plan for monitoring the implementation of Savant's recommendations

B.3. Electronic Delivery of Documents

WFAS may provide all personal financial information, including statements, electronically through access to the advisor's website. This may include WFAS's annual offer of the Form ADV Part 2. The client must provide a valid email address for this purpose. WFAS may outsource the creation and delivery of some or all of these documents to Savant.

C. Client-Tailored Services and Client-Imposed Restrictions

Each client's account will be managed on the basis of the client's financial situation and investment objectives, and in accordance with any reasonable restrictions imposed by the client on the management of the account.

D. Wrap Fee Programs

Savant does not participate in wrap fee programs. (Wrap fee programs offer services for one all-inclusive fee.)

E. Client Assets Under Management

As of March 31, 2015, Savant manages \$4,200,866,067 of discretionary assets and \$31,111,126 of non-discretionary assets. Of that total, the WFAS Sub-advised Program has \$42,688,442 of discretionary assets under Savant management.

Item 5. Fees and Compensation

A. Methods of Compensation and Fee Schedule

A.1. WFAS Sub-advised Asset Management Program Fees

A.1.a. Advisory Fees for the Savant Wealth Management Services Program

Savant's fee for sub-advisory asset management services is based on a percentage of the standard advisory fee WFAS charges its clients. This fee is payable, in advance, on a quarterly basis. WFAS advisory fees are based on account values as of the end of the previous quarter. Fees are also calculated on a prorated basis for deposits received during the current quarter.

Savant's fee, which is included in the WFAS advisory fee collected from WFAS's clients will not exceed 25% of WFAS's standard advisory fee. Savant has established a minimum account size of \$50,000 per account.

A.2. Fees for Financial Planning

The fee for financial planning will be based on the size, scope, and nature of each individual project, and will be determined prior to the commencement of the engagement. The typical fixed base services may range in cost from \$250 to \$5,000.

The client and Savant typically agree that the project will be billed upon completion of the project, and that the relationship will end at the time of project delivery. More complex projects may require the payment of a retainer prior to the start of the project. The initial retainer will be applied against the final invoice. Final payment is due within 30 days of receipt of the bill. However, if completion of the project is delayed (beyond 6 months) because requested information has not been provided, Savant retains the right to progress bill for work that has been performed to date.

B. Client Payment of Fees

WFAS will deduct WFAS's advisory and custodial fees directly from the client's account provided that (i) the client provides written authorization, and (ii) the qualified custodian sends the client a statement, at least quarterly, indicating all amounts disbursed from the account. Savant's fee is included in the advisory fee WFAS charges.

The client is responsible for verifying the accuracy of the fee calculation, as the client's custodian will not verify the calculation.

C. Prepayment of Client Fees

Savant requires the prepayment of fees for its sub-advisory asset management services only. Savant's fee for managing client portfolios in its asset management programs is based on its sub-advisory agreement with WFAS. This fee is payable, in advance, on a quarterly basis. WFAS advisory fees are based on account values as of the end of the previous quarter. Fees are also calculated on a prorated basis for deposits received during the current quarter. WFAS clients may terminate an advisory agreement in writing within 5 calendar days of the date of execution of the agreement and are entitled to a full refund of all fees paid. Thereafter, an advisory agreement may be terminated by either party upon 30 days' written notice. Unearned quarterly fees will be refunded to the client pro rata on the basis of the days remaining in the calendar quarter.

D. External Compensation for the Sale of Securities to Clients

Savant financial advisors are compensated solely through a salary and bonus structure. Savant financial advisors are not paid any sales, service, or administrative fees for the sale of mutual funds or any other investment products with respect to managed advisory assets.

Item 6. Performance-Based Fees and Side-by-Side Management

Savant does not charge performance-based fees and therefore has no economic incentive to manage clients' portfolios in any way other than what is in their best interests.

Item 7. Types of Clients

Savant, through WFAS, offers its investment services to various types of clients, including individuals, high-net-worth individuals, corporations or business entities, and pension and profit sharing plans. Although Savant provides investment services to the various types of clients mentioned, the asset management services are conditioned upon meeting certain minimum criteria established by Savant for each of the investment programs it offers.

For the WFAS Sub-Advised Asset Management Program, Savant requires a minimum account size of \$50,000.

Item 8. Methods of Analysis, Investment Strategies, and Risk of Loss

A. Methods of Analysis and Investment Strategies

Savant employs the use of an investment committee that is comprised of certain members of the Board of Managers, the Executive Lead team, the Functional Lead team and the research team. The members are appointed by the CEO. The investment committee is responsible for identifying and implementing the methods of analysis used by Savant in formulating investment strategies and model portfolios.

Savant uses a variety of sources of data to conduct its economic, investment and market analysis, such as financial newspapers and magazines, economic and market research materials prepared by others, conference calls hosted by mutual funds, corporate rating services, annual reports, prospectuses, and company press releases. It is important to keep in mind that there is no specific approach to investing that guarantees success or positive returns; investing in securities involves risk of loss that clients should be prepared to bear.

Savant and its investment adviser representatives are responsible for identifying and implementing the methods of analysis used in formulating investment recommendations to clients. The methods of analysis may include quantitative methods for optimizing client portfolios, computer-based risk/return analysis, technical analysis, and statistical and/or computer models utilizing long-term economic criteria.

- Optimization involves the use of mathematical algorithms to determine the appropriate mix of assets given the firm's current capital market rate assessment and a particular client's risk tolerance.
- Quantitative methods include analysis of historical data such as price and volume statistics, performance data, standard deviation and related risk metrics, how the security

performs relative to the overall stock market, earnings data, price to earnings ratios, and related data.

- Technical analysis involves charting price and volume data as reported by the exchange where the security is traded to look for price trends.
- Computer models may be used to derive the future value of a security based on assumptions of various data categories such as earnings, cash flow, profit margins, sales, and a variety of other company specific metrics.

In addition, Savant reviews research material prepared by others, as well as corporate filings, corporate rating services, and a variety of financial publications. Savant may employ outside vendors or utilize third-party software to assist in formulating investment recommendations to clients.

A.1. Mutual Funds, Exchange-Traded Funds, Individual Equity and Fixed Income Securities

A description of the criteria to be used in formulating an investment recommendation for mutual funds, exchange-traded funds, and individual securities (including fixed income securities) is set forth below.

Savant has formed a relationship with a third-party vendor that provides a technological platform for separate account management.

Savant may utilize additional independent third parties to assist it in recommending and monitoring individual securities, mutual funds, and exchange-traded funds to clients as appropriate under the circumstances.

Savant reviews certain quantitative and qualitative criteria related to funds and to formulate investment recommendations to its clients. Quantitative criteria may include:

- the performance history of a fund evaluated against that of its peers and other benchmarks
- an analysis of risk-adjusted returns
- an analysis of the fund manager's contribution to the investment return (e.g., manager's alpha), standard deviation of returns over specific time periods, sector and style analysis
- the fund's fee structure
- the relevant portfolio manager's tenure

Qualitative criteria used in recommending funds include the investment objectives and/or management style and philosophy of a fund, a fund's consistency of investment style, and employee turnover and efficiency and capacity.

Quantitative and qualitative criteria related to funds are reviewed by Savant on a quarterly basis or such other interval as determined by the investment committee. In addition, funds are reviewed to determine the extent to which their investments reflect efforts to time the market, or to evidence style drift such that their portfolios no longer accurately reflect the particular asset category attributed to the fund by Savant (both of which are negative factors in

implementing an asset allocation structure). Based on its review, Savant's investment committee will determine the recommendations made to clients regarding the retention or discharge of a fund.

A.2. Material Risks of Investment Instruments

The investment vehicles most commonly purchased for Savant clients are shares of registered open-end mutual funds, exchange-traded funds, and individual equity and fixed income securities. Many of these investments can be purchased directly by clients without utilizing the services of an advisor. Mutual funds and exchange traded funds have embedded management fee and trading expenses. These fees and expenses are detailed in each respective fund's prospectus .

Savant may effect transactions for clients in the following types of securities:

- Equity securities
- Warrants and rights
- Mutual fund securities
- Exchange-traded funds
- Corporate debt securities, commercial paper, and certificates of deposit
- Municipal securities
- U.S. government securities

A.2.a. Equity Securities

Investing in individual companies involves inherent risk. The major risks relate to the company's capitalization, quality of the company's management, quality and cost of the company's services, the company's ability to manage costs, efficiencies in the manufacturing or service delivery process, management of litigation risk, the company's ability to create shareholder value (i.e., increase the value of the company's stock price), exposure to government taxation, and domestic political risk.. Foreign securities, in addition to the general risks of equity securities, have geopolitical risk, financial transparency risk, currency risk, regulatory risk, and liquidity risk.

A.2.b. Warrants and Rights

Warrants are securities, typically issued with preferred stock or bonds that give the holder the right to purchase a given number of shares of common stock at a specified price and time. The price of the warrant usually represents a premium over the applicable market value of the common stock at the time of the warrant's issuance. Warrants have no voting rights with respect to the common stock, receive no dividends, and have no rights with respect to the assets of the issuer.

Investments in warrants and rights involve certain risks, including the possible lack of a liquid market for the resale of the warrants and rights, potential price fluctuations due to adverse market conditions or other factors, and failure of the price of the common stock to rise. If the warrant is not exercised within the specified time period, it becomes valueless.

A.2.c. Mutual Fund Securities

Investing in mutual funds carries inherent risk. The major risks of investing in a mutual fund include the quality and experience of the portfolio management team and its ability to create fund value by investing in securities that have positive growth, the amount of individual company diversification, the type and amount of industry diversification, and the type and amount of sector diversification within specific industries. In addition, mutual funds tend to be tax inefficient and therefore investors may pay capital gains taxes on fund investments while not having yet sold the fund. Savant favors index and tax managed mutual funds which tend to be more tax efficient than most actively managed mutual funds.

A.2.d. Exchange-Traded Funds (ETFs)

ETFs are investment companies whose shares are bought and sold on a securities exchange. An ETF holds a portfolio of securities designed to track a particular market segment or index. Some examples of ETFs are SPDRs[®], Powershares[®] and iShares[®]. The funds could purchase an ETF to gain exposure to a portion of the U.S. or foreign market. The funds, as a shareholder of another investment company, will bear their pro rata portion of the other investment company's advisory fee and other expenses, in addition to their own expenses.

Investing in ETFs involves risk. Specifically, ETFs, depending on the underlying portfolio and its size, can have wide price (bid and ask) spreads, thus diluting or negating any upward price movement of the ETF or enhancing any downward price movement. Also, ETFs require more frequent portfolio reporting by regulators and are thereby more susceptible to actions by hedge funds that could have a negative impact on the price of the ETF. Certain ETFs may employ leverage, which creates additional volatility and price risk depending on the amount of leverage utilized, the collateral, and the liquidity of the supporting collateral.

Further, the use of leverage (i.e., employing the use of margin) generally results in additional interest costs to the ETF. Certain ETFs are highly leveraged and therefore have additional volatility and liquidity risk. Volatility and liquidity can severely and negatively impact the price of the ETF's underlying portfolio securities, thereby causing significant price fluctuations of the ETF.

A.2.e. Corporate Debt, Commercial Paper, and Certificates of Deposit

Fixed income securities carry different risks than those of equity securities described above. These risks include the company's or the government's ability to retire its debt at maturity, the current interest rate environment, the coupon interest rate promised to bondholders, legal constraints, jurisdictional risk (U.S or foreign), and currency risk. If bonds have maturities of 10 years or greater, they will likely have greater price swings when interest rates move up or down. The shorter the maturity the less volatile the price swings. Foreign bonds have liquidity and currency risk.

Commercial paper and certificates of deposit are generally considered safe instruments, although they are subject to the level of general interest rates, the credit quality of the issuing bank, and the length of maturity. With respect to certificates of deposit, depending on the

length of maturity there can be prepayment penalties if the client needs to convert the certificate of deposit to cash prior to maturity.

A.2.f. Municipal Securities

Municipal securities carry different risks than those of corporate government and bank-sponsored debt securities described above. These risks include the municipality's ability to raise additional tax revenue or other revenue (in the event the bonds are revenue bonds) to pay interest on its debt and to retire its debt at maturity. Municipal bonds are generally tax-free at the federal level, but may be taxable in individual states other than the state in which both the investor and municipal issuer are domiciled.

A.2.g. U.S. Government Securities

U.S. government securities include securities issued by the U.S. Treasury and by U.S. government agencies and instrumentalities. U.S. government securities may be supported by the full faith and credit of the United States.

A.2.h. Non-Traded Real Estate Investment Trusts ("REITs")

A REIT is a tax designation for a corporate entity which pools capital of many investors to purchase and manage real estate. Many REITs invest in income-producing properties in the office, industrial, retail, and residential real estate sectors. REITs are granted special tax considerations which can significantly reduce or eliminate corporate income taxes. In order to qualify as a REIT and for these special tax considerations, REITs are required by law to distribute 90% of their taxable income to investors. REITs can be traded on a public exchange like a stock, or be offered as a non-traded REIT. REITs, both public exchange-traded and non-traded, are subject to risks including volatile fluctuations in real estate prices, as well as fluctuations in the costs of operating or managing investment properties, which can be substantial. Many REITs obtain management and operational services from companies and service providers which are directly or indirectly related to the sponsor of the REIT, which presents a potential conflict of interest that can impact returns on investments.

Non-traded REITs include: (1) A REIT that is registered with the Securities and Exchange Commission (SEC) but is not listed on an exchange or over-the-counter market (non-exchange traded REIT); or, (2) a REIT that is sold pursuant to an exemption to registration (Private REIT). Non-traded REITs are generally blind pool investment vehicles. Blind pools are limited partnerships which do not explicitly state their future investments prior to beginning their capital-raising phase. During this period of capital-raising, non-traded REITs often pay distributions to their investors.

The risks of non-traded REITs are varied and significant. Because they are not exchange-traded investments, they are often lack a developed secondary market, thus making them illiquid investments. As blind pool investment vehicles, non-traded REITs' initial share prices are not related to the underlying value of the properties. This is because non-traded REITs begin and continue to purchase new properties as new capital is raised. Thus, one risk for non-traded REITs is the possibility that the blind pool will be unable to raise enough capital to carry out its

investment plan. After the capital raising phase is complete, non-traded REIT shares are infrequently re-valued and thus may not reflect the true net asset value of the underlying real estate investments. Non-traded REITs often offer investors a redemption program where the shares can be sold back to the sponsor, however, those redemption programs are often subject to restrictions and may be suspended at the sponsor's discretion. While non-traded REITs may pay distributions to investors at a stated target rate during the capital-raising phases, the funds used to pay such distributions may be obtained from sources other than cash flow from operations, and such financing can increase operating costs.

A.2.i. Commodities

Commodities include soft assets such as crops and coffee that are generally extracted from the ground, as well as hard assets such as minerals and metals that are mined. Investing in commodities carries significant risks, including price, credit and market risk. Many physical commodities, as well as intangible commodities (such as security or fixed income indices) serve as the underlier to commodity futures contracts.

A.3. Investment Strategies

Savant's investment committee, using proprietary research methods, has designed model portfolios ranging in risk from the Preservation Model (all fixed income) to the Capital Appreciation Plus Model (all equity) that are recommended to clients as appropriate to the client's preference, risk tolerance and personal situation. See Item 8.A.1 for the types of securities that are utilized in building our model portfolios.

Savant believes that the asset allocation decision is the key driver behind the variability in portfolio performance.

Asset allocation is the strategic combination of asset classes, such as stocks, bonds and cash, to reap the highest long-term returns given an investor's acceptable level of risk. Savant's investment committee constructs and oversees the set of investment models which diversify the assets as much as possible given the targeted risk levels. The following is a summary of the asset classes employed to construct the model portfolios. This list of asset classes is subject to change.

Fixed Income. Fixed income investments add stability and income to your portfolio while providing limited protection against extreme economic environments such as a depression or uncontrolled inflation.

- Short-Term Bonds
- Intermediate-Term Bonds
- Inflation Indexed Bonds (TIPS)
- International Bonds
- High Yield Bonds
- Long-Term Bonds
- Municipal Bonds

Equity. U.S. equities provide long-term capital growth and serve as a long-term inflation hedge. International equities also provide long-term capital growth, serve as a long-term inflation hedge, diversify currency exposure, and increasing overall portfolio diversification.

- U.S. Large Cap
- U.S. Large Value
- U.S. Small Cap
- U.S. Small Value
- International Large Cap
- International Large Value
- International Small Cap
- International Small Value
- International Emerging Markets

Alternative Investments. Alternative investments, such as global REITs and commodities, enhance overall diversification and can provide limited protection from unexpected inflation. Alternative asset classes generally have risk and return characteristics that are a hybrid of equity and fixed income characteristics.

- U.S. Real Estate (REITs)
- International Real Estate (REITs)
- Commodities

B. Additional Methods of Analysis and Material Risks

B.1. Separate Account Management Software

Savant employs software that uses statistical sampling to track an index. This investment solution manages individual U.S. equities with two primary investment objectives: (i) match the return of the U.S. equity benchmarks (minus expenses) and (ii) create tax efficiency for the investor. There is a possibility of significant tracking error to the index if the software fails to match the index. Savant mitigates this risk by reviewing and monitoring the results and rebalancing to the index as needed.

B.2. Short Selling

Savant generally does not engage in short selling but reserves the right to do so in the exercise of its sole judgment. Short selling involves the sale of a security that is borrowed rather than owned. When a short sale is effected, the investor is expecting the price of the security to decline in value so that a purchase or closeout of the short sale can be effected at a significantly lower price. The primary risks of effecting short sales are the availability to borrow the stock, the unlimited potential for loss, and the requirement to fund any difference between the short credit balance and the market value of the security.

C. Concentration Risks

Although Savant invests in a diversified portfolio of mutual funds, exchange traded funds, equity and fixed income securities, for clients who choose to have their investment portfolios heavily weighted in one security, one industry or industry sector, one geographic location, one investment manager, or one type of investment instrument (equities versus fixed income) they will experience greater risk and volatility in their portfolios. Clients who have diversified portfolios, as a general rule, incur less volatility and therefore less fluctuation in portfolio value than those who have concentrated holdings. Concentrated holdings may offer the potential for higher gain, but also offer the potential for significant loss.

Item 9. Disciplinary Information

A. Criminal or Civil Actions

There is nothing to report on this item.

B. Administrative Enforcement Proceedings

On August 15, 2006, the Illinois Securities Department initiated an investigation and found that Savant failed to file a completed Form U-4 for one of its professionals and failed to pay the required filing fee. Savant was fined \$10,000 and charged \$1,500 for the cost of the investigation. Savant paid the total amount of \$11,500 on April 21, 2008.

C. Self-Regulatory Organization Enforcement Proceedings

There is nothing to report on this item.

Item 10. Other Financial Industry Activities and Affiliations

A. Broker-Dealer or Representative Registration

Neither Savant nor its affiliates are registered broker-dealers and do not have an application to register pending.

B. Futures or Commodity Registration

Neither Savant nor its affiliates are registered as a commodity firm, futures commission merchant, commodity pool operator, or commodity trading advisor and do not have an application to register pending.

C. Material Relationships Maintained by this Advisory Business and Conflicts of Interest

C.1. Wholly owned subsidiary

Green, Plagge & Shaw ("GPS") is a wholly owned subsidiary of Savant which provides accounting, tax and payroll services to its clients. The principles of GPS and the employees providing these services are employees of Savant and leased to GPS. Savant and GPS have clients in common. Additionally, Savant may recommend GPS's services to their advisory clients and GPS may recommend Savant's services to their accounting, tax or payroll clients. This represents a potential conflict of interest. No client is obligated to engage the services of Savant or GPS based upon these recommendations.

C.2. Trade Group

Savant is a member, along with several other registered investment advisers, of the Zero Alpha Group, LLC ("ZAG"). Brent R. Brodeski, Chief Executive Officer of Savant, serves as an officer of ZAG. ZAG members share a common investment philosophy based on the principles of *modern portfolio theory*, which emphasizes passive investment strategy. ZAG members are geographically diverse, and they meet periodically to share investment information, strategic and marketing plans, and research related to passive investment management. ZAG members also may negotiate with mutual fund companies and broker-dealers to obtain lower cost investment products or services on behalf of their clients.

In limited circumstances, mutual fund sponsors may underwrite educational meetings for ZAG member firms (meetings which are attended exclusively by ZAG members and their employees). There is no corresponding commitment made by any member to invest any specific amount in any sponsor's funds. Nevertheless, such contribution may present the potential for a conflict of interest.

C.3. Sub-Adviser Services Provided by Third Parties

Savant has contracted with BAM Advisor Services, LLC ("BAM") for sub-advisory services with respect to certain clients' fixed-income accounts. BAM provides fixed-income portfolio construction, trade processing, collection of management fees, record maintenance, report preparation, marketing assistance and research.

C.4. Sub-Adviser Services Provided by Savant

C.4.a. Wealth Financial Advisory Services, LLC

Wealth Financial Advisory Services, LLC ("WFAS"), an Illinois limited liability company, is a Registered Investment Advisor. Savant has entered into an agreement with WFAS to provide sub-advisory investment services to WFAS. Savant does not refer clients to WFAS and has no economic interest other than the fees that Savant receives for the services provided. The fees that Savant receives are governed by the sub-advisory agreement between Wealth Financial Advisory Services, LLC and Savant.

C.4.b. Foster Group, Inc.

Savant has contracted with Foster Group, Inc. ("Foster"), an Iowa corporation and a Registered Investment Advisor, to provide Benefit Plan Advisory Services to Foster's benefit plan clients.

Savant will be retained by the referred client as a 3(38) Fiduciary (a discretionary advisor under ERISA Section 3(38)) with full authority over investment decisions within the plan including the selection, monitoring, and replacement of investment options. In addition, Savant will act as a 3(16) Fiduciary and Plan Administrator for duties as described under ERISA Section 3(16) or as identified in the client contract. Foster will be retained as a Limited Scope 3(21) Fiduciary to the client, recommending the investment advisor, serving in a co-fiduciary capacity, sharing non-discretionary authority over the investment decisions and assisting with the monitoring and maintenance of the investment menu, as well as the education efforts of the Participants, within the scope of ERISA Section 3(21). Fees for this arrangement are governed by the sub-advisory agreement between Foster and Savant.

Foster and Savant are not affiliated and although the client's Investment Advisory Agreement covers the services of both Advisers, the client pays one fee that is shared between Foster and Savant. Although Savant and Foster strive to put their respective clients' interests first, there is an economic incentive for Foster to engage sub-advisers, such as Savant, who agree to a lower portion of the overall client fee than other similarly situated sub-advisers. The client is not obligated to utilize the services of Savant and may choose any adviser they desire, whether or not recommended by Foster.

C.4. Trust and Estate Services

C.4.a. National Advisors Trust Company, FSB

National Advisors Trust Company, FSB, a national trust company, was created to support the fiduciary needs of clients who, through their estate planning efforts, prefer to continue to maintain their relationship with their financial advisory firm. National Advisors Trust is a wholly owned subsidiary of National Advisors Holdings, Inc. ("NAH"). Savant and approximately 120 other advisory firms located in over 40 states own equity interests in NAH. Savant holds a less than 1% interest. The mission of National Advisors Trust is to support the delivery of trust and custody services to the clients of its shareholders.

Savant may recommend National Advisory Trust to its advisory clients seeking trust services. The grantor in a trust agreement would name Savant as the investment manager with discretion to manage the trust estate, and the agreement would also provide that National Advisors Trust discharge the administrative, distribution and custodial responsibilities of the trust. Savant, as a shareholder of National Advisors Trust, may benefit by realizing a profit in the form of dividends or corporate distributions from National Advisors Trust, in addition to any investment advisory fees paid under the trust agreement.

C.4.b. State Bank of Freeport

Foresight Financial Group, Inc. ("FFG") is a publicly traded, registered multi-bank holding company and the parent company of State Bank, an Illinois banking corporation. Certain

principals of Savant are individual equity owners of a small percentage of the outstanding shares of FFG.

Savant and State Bank have entered into an agreement pursuant to which Savant may recommend State Bank to their clients for trust or estate services. Savant has an economic interest to refer clients to State Bank as Savant will receive a percentage of the fee State Bank charges the referred client for the trust or estate services provided.

C.5. Professional Services Referrals

Occasionally, Savant may refer clients to other professionals for a variety of services such as accounting, tax, legal or insurance brokerage. Clients, however, are under no obligation to purchase any products through these professionals or to purchase any products recommended by these professionals. Savant may have a conflict of interest in making these recommendations because it may receive referrals from professionals it has recommended to clients. In instances where the referred professional is also a client of Savant, it may appear that Savant has an economic incentive for the referral. Savant will refer other professionals to its clients only when we believe the services provided by the professional best suit the client's needs.

D. Recommendation or Selection of Other Investment Advisors and Conflicts of Interest

D.1. State Bank Sub-Advisor Relationship

Foresight Financial Group, Inc. ("FFG"), is a publicly traded, registered multi-bank holding company and the parent company of State Bank, an Illinois banking corporation. Certain principals of Savant are individual equity owners of a small percentage of the outstanding shares of FFG.

Savant and FFG have entered into an agreement pursuant to which Savant may recommend to its clients State Bank's trust, custodial, and other banking services, and where State Bank employs Savant as a sub-advisor for trust accounts that State Bank has investment management responsibility. Savant has an economic interest to refer clients to State Bank for State Bank's trust, custodial, and other banking services because Savant is paid for Investment Management services. Compensation arrangements for sub-advisor services vary depending on whether or not Savant referred the client to State Bank and the ongoing involvement that Savant has in the relationship.

Item 11. Code of Ethics, Participation or Interest in Client Transactions, and Personal Trading

A. Code of Ethics Description

In accordance with the Advisers Act, Savant has adopted policies and procedures designed to detect and prevent insider trading. In addition, Savant has adopted a Code of Ethics (the

"Code"). The Code includes written procedures governing the conduct of Savant's advisory and access persons. The Code also imposes certain reporting obligations on persons subject to the Code. The Code and applicable securities transactions are monitored by the Chief Compliance Officer of Savant. Savant will send clients a copy of its Code of Ethics upon written request.

Savant has policies and procedures in place to ensure that the interests of its clients are given preference over those of Savant, its affiliates, and its employees. For example, there are policies in place to prevent the misappropriation of material non-public information, and such other policies and procedures reasonably designed to comply with federal and state securities laws.

B. Investment Recommendations Involving a Material Financial Interest and Conflicts of Interest

Savant does not engage in principal trading (i.e., the practice of selling stock to advisory clients from a firm's inventory or buying stocks from advisory clients into a firm's inventory). In addition, Savant does not recommend any securities to advisory clients in which it has some proprietary or ownership interest.

C. Advisory Firm Purchase of Same Securities Recommended to Clients and Conflicts of Interest

Savant, its affiliates, employees and their families, trusts, estates, charitable organizations and retirement plans established by it may purchase the same securities as are purchased for clients in accordance with its Code of Ethics policies and procedures. The personal securities transactions by advisory representatives and employees may raise potential conflicts of interest when they trade in a security that is:

- owned by the client, or
- considered for purchase or sale for the client.

Such conflict generally refers to the practice of front-running (trading ahead of the client), which Savant specifically prohibits. Savant has adopted policies and procedures that are intended to address these conflicts of interest. These policies and procedures:

- require our advisory representatives and employees to act in the client's best interest,
- prohibit front-running, and
- provide for the review of transactions to discover and correct any trades that result in an advisory representative or employee benefitting at the expense of a client.

Advisory representatives and employees must follow Savant's procedures when purchasing or selling the same securities purchased or sold for the client.

D. Client Securities Recommendations or Trades and Concurrent Advisory Firm Securities Transactions and Conflicts of Interest

Savant, its affiliates, employees and their families, trusts, estates, charitable organizations, and retirement plans established by it may effect securities transactions for their own accounts that differ from those recommended or affected for other Savant clients. Savant will make a reasonable attempt to trade securities in client accounts at or prior to trading the securities in its affiliate, corporate, employee, or employee-related accounts. Trades executed the same day will likely be subject to an average pricing calculation. It is the policy of Savant to place the clients' interests above those of Savant and its employees.

Item 12. Brokerage Practices

A. Factors Used to Select Broker-Dealers for Client Transactions

A.1. Custodian Recommendations

Savant participates in the institutional customer programs offered by the Schwab Advisor Services division of Charles Schwab & Co., Inc. ("Schwab") member FINRA/SIPC; TD Ameritrade Institutional ("TDA"), a division of TD Ameritrade, Inc. ("TD Ameritrade") member FINRA/SIPC/NFA; and Fidelity Institutional Wealth Services ("Fidelity") member FINRA/SIPC (hereinafter collectively referred to as "custodians"). The custodians are all independent, unaffiliated SEC-registered broker-dealers. Through these programs the custodians offer various services to independent investment advisors, including custody of securities, trade execution, and clearance and settlement of transactions. Savant and Savant clients receive some benefits from the custodians its participation in these programs. (Please see the disclosure below.)

In certain instances and subject to approval by Savant, Savant will recommend to clients certain other broker-dealers and/or custodians based on the needs of the individual client, taking into consideration the nature of the services required, the experience of the broker-dealer or custodian, the cost and quality of the services, and the reputation of the broker-dealer or custodian. The client recognizes that broker-dealers and/or custodians have different cost and fee structures and trade execution capabilities. As a result, there may be disparities with respect to the cost of services and/or the transaction prices for securities transactions executed on behalf of the client. These differences are disclosed to advisory clients.

A.1.a. How We Select Brokers/Custodians to Recommend

Savant seeks to recommend a custodian/broker who will hold client assets and execute transactions on terms that are overall most advantageous when compared to other available providers and their services. We consider a wide range of factors, including, among others, the following:

- combination of transaction execution services along with asset custody services (generally without a separate fee for custody)

- capability to execute, clear, and settle trades (buy and sell securities for client accounts)
- capabilities to facilitate transfers and payments to and from accounts (wire transfers, check requests, bill payment, etc.)
- breadth of investment products made available (stocks, bonds, mutual funds, exchange-traded funds (ETFs), etc.)
- availability of investment research and tools that assist us in making investment decisions
- quality of services
- competitiveness of the price of those services (commission rates, margin interest rates, other fees, etc.) and willingness to negotiate them
- reputation, financial strength, and stability of the provider
- their prior service to us and our other clients
- availability of other products and services that benefit us, as discussed below

A.1.b. TD Ameritrade

Savant participates in the institutional customer program of TD Ameritrade Institutional, a division of TD Ameritrade, Inc. ("TD Ameritrade"), member FINRA/SIPC/NFA. TD Ameritrade is an independent and unaffiliated SEC-registered broker-dealer. TD Ameritrade offers to independent investment advisers' services which include custody of securities, trade execution, clearance, and settlement of transactions. Savant receives some benefits from TD Ameritrade through its participation in the program. (Please see the disclosure under Item 14 of this Brochure.)

A.1.c. Client's Custody and Brokerage Costs

For client accounts that the firm maintains, the custodian generally does not charge clients separately for custody services but is compensated by charging commissions or other fees on trades that it executes or that settle into the custodian's accounts. For some accounts, the custodian may charge a percentage of the dollar amount of assets in the account in lieu of commissions. The custodian's commission rates and asset-based fees applicable to the firm's client accounts were negotiated based on the firm's commitment to maintain a certain minimum amount of client assets at the custodian. This commitment benefits the client because the overall commission rates and asset-based fees paid are lower than they would be if the firm had not made the commitment. In addition to commissions or asset-based fees, the custodian charges a flat dollar amount as a "prime broker" or "trade away" fee for each trade that the firm has executed by a different broker-dealer but where the securities bought or the funds from the securities sold are deposited (settled) into the client's custodian account. These fees are in addition to the commissions or other compensation the client pays the executing broker-dealer. Because of this, in order to minimize the client's trading costs, the firm has the custodian execute most trades for the account.

A.1.d. Soft Dollar Arrangements

Savant does not utilize soft dollar arrangements. Savant does not direct brokerage transactions to executing brokers for research and brokerage services.

A.1.e. Institutional Trading and Custody Services

The custodians provide Savant with access to their institutional trading and custody services, which are typically not available to the custodian's retail investors. These services generally are available to independent investment advisors on an unsolicited basis, at no charge to them so long as a certain minimum amount of the advisor's clients' assets are maintained in accounts at a particular custodian. These services are not contingent upon Savant committing to a custodian any specific amount of business (assets in custody or trading commissions). The custodian's brokerage services include the execution of securities transactions, custody, research, and access to mutual funds and other investments that are otherwise generally available only to institutional investors or would require a significantly higher minimum initial investment.

Savant investment advisory clients generally pay the custodian a flat fee for custody services and some trading costs. The custodian may also be compensated by account holders through commissions and other transaction-related or asset-based fees for securities trades that are executed through the custodian or that settle into the custodian's accounts. Depending on the size of a client account and the actual amount of trading effected, clients who pay the flat fee may be paying more than they would otherwise pay for the same amount of trading if charged a transaction-based or asset-based fee. Savant provides guidance so that client costs may be minimized.

A.1.f. Other Products and Services

The custodians also make available to Savant other products and services that benefit Savant but may not directly benefit its clients' accounts. Many of these products and services may be used to service all or some substantial number of Savant's accounts, including accounts not maintained at the custodian. The custodian may also make available to Savant software and other technology that

- provide access to client account data (such as trade confirmations and account statements)
- facilitate trade execution and allocate aggregated trade orders for multiple client accounts
- provide research, pricing and other market data
- facilitate payment of Savant's fees from its clients' accounts
- assist with back-office functions, recordkeeping and client reporting

The custodian may also offer other services intended to help Savant manage and further develop its business enterprise. These services may include:

- compliance, legal and business consulting

- publications and conferences on practice management and business succession
- access to employee benefits providers, human capital consultants and insurance providers

The custodian may also provide other benefits such as educational events or occasional business entertainment of Savant personnel. In evaluating whether to recommend that clients custody their assets at the custodian, Savant may take into account the availability of some of the foregoing products and services and other arrangements as part of the total mix of factors it considers, and not solely the nature, cost or quality of custody and brokerage services provided by the custodian, which may create a potential conflict of interest.

A.1.g. Independent Third Parties

The custodian may make available, arrange, and/or pay third-party vendors for the types of services rendered to Savant. The custodian may discount or waive fees it would otherwise charge for some of these services or all or a part of the fees of a third party providing these services to Savant.

A.1.h. Additional Compensation Received from Custodians

Savant may participate in institutional customer programs sponsored by broker-dealers or custodians. Savant may recommend these broker-dealers or custodians to clients for custody and brokerage services. There is no direct link between Savant's participation in such programs and the investment advice it gives to its clients, although Savant receives economic benefits through its participation in the programs that are typically not available to retail investors. These benefits may include the following products and services (provided without cost or at a discount):

- Receipt of duplicate client statements and confirmations
- Research-related products and tools
- Consulting services
- Access to a trading desk serving Savant participants
- Access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to client accounts)
- The ability to have advisory fees deducted directly from client accounts
- Access to an electronic communications network for client order entry and account information
- Access to mutual funds with no transaction fees and to certain institutional money managers
- Discounts on compliance, marketing, research, technology, and practice management products or services provided to Savant by third-party vendors

The custodian may also pay for business consulting and professional services received by Savant's related persons, and may pay or reimburse expenses (including travel, lodging, meals and entertainment expenses for Savant's personnel to attend conferences). Some of the

products and services made available by such custodian through its institutional customer programs may benefit Savant but may not benefit its client accounts. These products or services may assist Savant in managing and administering client accounts, including accounts not maintained at the custodian as applicable. Other services made available through the programs are intended to help Savant manage and further develop its business enterprise. The benefits received by Savant or its personnel through participation in these programs do not depend on the amount of brokerage transactions directed to the broker-dealer.

Savant also participates in similar institutional advisor programs offered by other independent broker-dealers or trust companies, and its continued participation may require Savant to maintain a predetermined level of assets at such firms. In connection with its participation in such programs, Savant will typically receive benefits similar to those listed above, including research, payments for business consulting and professional services received by Savant's related persons, and reimbursement of expenses (including travel, lodging, meals and entertainment expenses for Savant's personnel to attend conferences sponsored by the broker-dealer or trust company).

As part of its fiduciary duties to clients, Savant endeavors at all times to put the interests of its clients first. Clients should be aware, however, that the receipt of economic benefits by Savant or its related persons in and of itself creates a potential conflict of interest and may indirectly influence Savant's recommendation of broker-dealers such for custody and brokerage services.

A.1.i. The Firm's Interest in Schwab's Services

The availability of these services from the custodian benefits the firm because the firm does not have to produce or purchase them. The firm does not have to pay for the custodian's services so long as a certain minimum of client assets is kept in accounts at the custodian. These services are not contingent upon the firm committing any specific amount of business to the custodian in trading commissions or assets in custody. This minimum of client assets may give the firm an incentive to recommend that clients maintain their accounts with the custodian based on the firm's interest in receiving the custodian's services that benefit the firm's business rather than based on the client's interest in receiving the best value in custody services and the most favorable execution of client transactions. This is a potential conflict of interest. The firm believes, however, that the selection of the custodian as custodian and broker is in the best interest of clients. It is primarily supported by the scope, quality, and price of the custodian's services and not the custodian's services that benefit only the firm. By committing to maintaining a minimum number of clients, Savant is able to provide a preferential negotiated fee schedule not available to Schwab retail customers.

A.2. Brokerage for Client Referrals

Savant does not engage in the practice of directing brokerage commissions in exchange for the referral of advisory clients.

A.3. Directed Brokerage

A.3.a. Savant Recommendations

Savant typically recommends TDA, Schwab, or Fidelity as custodian for clients' funds and securities and to execute securities transactions on its clients' behalf. However, for Savant Portfolios and eSavant clients, Savant will only utilize TDA as the client's independent custodian in order to streamline procedures and gain operational efficiencies for the clients' benefit.

A.3.b. Client-Directed Brokerage

Occasionally, clients may direct Savant to use a particular broker-dealer to execute portfolio transactions for their accounts or request that certain types of securities not be purchased for their accounts. Clients who designate the use of a particular broker-dealer should be aware that they will lose any possible advantage Savant derives from aggregating transactions. Such client trades are typically effected after the trades of clients who have not directed the use of a particular broker-dealer.

B. Trading Practices

B.1. Best Execution

Savant may recommend that clients establish brokerage accounts with a qualified custodian to maintain custody of clients' assets and to effect trades for their accounts. Such accounts will be prime broker eligible so that if and when the need arises to effect securities transactions at broker-dealers ("executing brokers") other than with the client's custodian, such custodian will accept delivery or deliver the applicable security from/to the executing broker. The custodian charges a "trade away" fee (trade effected at another broker), which is charged against the client account for each trade away occurrence. Other custodians have their own policies concerning prime broker accounts and trade away fees. Clients should consult their current custodian for policies and fees or they can always ask their Savant advisor for a description of costs.

Savant, pursuant to the terms of its investment advisory agreement with clients, has discretionary authority to determine which securities are to be bought and sold, the amount of such securities, the executing broker, and the commission rates to be paid to effect such transactions. Savant recognizes that the analysis of execution quality involves a number of factors, both qualitative and quantitative. Savant will follow a process in an attempt to ensure that it is seeking to obtain the most favorable execution under the prevailing circumstances when placing client orders. These factors include but are not limited to the following:

- The financial strength, reputation, and stability of the broker
- The efficiency with which the transaction is effected
- The ability to effect prompt and reliable executions at favorable prices (including the applicable dealer spread or commission, if any) or zero on mutual funds

- The availability of the broker to stand ready to effect transactions of varying degrees of difficulty in the future
- The efficiency of error resolution, clearance, and settlement
- Block trading and positioning capabilities
- Performance measurement
- Online access to computerized data regarding customer accounts
- Availability, comprehensiveness, and frequency of brokerage and research services
- Commission rates
- The economic benefit to the client
- Related matters involved in the receipt of brokerage services

Consistent with its fiduciary responsibilities, Savant seeks to ensure that clients receive best execution with respect to their client's transactions by blocking client trades to reduce commissions and transaction costs. To the best of Savant's knowledge, these custodians provide high-quality mutual fund execution, and Savant's clients do not pay higher transaction costs in return for such execution.

Commission rates and securities transaction fees charged to effect such transactions are established by the client's independent custodian and/or broker-dealer. Based upon its own knowledge of the securities industry, Savant believes that such commission rates are competitive within the securities industry. Lower commissions or better execution may be able to be achieved elsewhere.

B.2. Security Allocation

Since Savant may be managing accounts with similar investment objectives, Savant may aggregate orders for securities for such accounts. In such event, allocation of the securities so purchased or sold, as well as expenses incurred in the transaction, is made by Savant in the manner it considers to be the most equitable and consistent with its fiduciary obligations to such accounts.

Savant's allocation procedures seek to allocate investment opportunities among clients in the fairest possible way, taking into account the clients' best interests. Savant will follow procedures to ensure that allocations do not involve a practice of favoring or discriminating against any client or group of clients. Account performance is never a factor in trade allocations.

Savant's advice to certain clients and entities and the action of Savant for those and other clients are frequently premised not only on the merits of a particular investment but also on the suitability of that investment for the particular client in light of his or her applicable investment objectives, guidelines, and circumstances. Thus, any action of Savant with respect to a particular investment may, for a particular client, differ or be opposed to the recommendation, advice, or actions of Savant to or on behalf of other clients.

B.3. Trading Frequency

Savant typically executes portfolio transactions on a daily basis, regardless of the type of transaction (withdrawals, allocation changes, rebalancing, or general trading). The occurrence of additional trading depends on the client's selection of custodian, the size and timing of client deposits, and other factors Savant deems important. As a result, clients may incur a delay from the time that cash is deposited and the time that their funds are invested.

B.4. Order Aggregation

Orders for the same security entered on behalf of more than one client may be aggregated (i.e., blocked or bunched) subject to the aggregation being in the best interests of all participating clients. Subsequent orders for the same security entered during the same trading day may be aggregated with any previously unfilled orders. Subsequent orders may also be aggregated with filled orders if the market price for the security has not materially changed and the aggregation does not cause any unintended duration exposure. All clients participating in each aggregated order will receive the average price and, subject to minimum ticket charges and possible step outs, pay a pro rata portion of commissions.

To minimize performance dispersion, "strategy" trades should be aggregated and average priced. However, when a trade is to be executed for an individual account and the trade is not in the best interests of other accounts, then the trade will only be performed for that account. This is true even if Savant believes that a larger size block trade would lead to best overall price for the security being transacted.

B.5. Allocation of Trades

All trade allocations will be made prior to the close of business on the trade date. In the event an order is "partially filled," the allocation will be made in the best interests of all the clients in the order, taking into account all relevant factors including, but not limited to, the size of each client's allocation, clients' liquidity needs, and previous allocations. In most cases, accounts will get a pro forma allocation based on the initial allocation. This policy also applies if an order is "over-filled."

Savant acts in accordance with its duty to seek best price and execution and will not continue any arrangements if Savant determines that such arrangements are no longer in the best interest of its clients.

B.6. Trading Errors

In the event of a trading error, Savant's policy is to put the portfolio in the same position as if the error had not occurred. If the error is the responsibility of Savant, the client transaction(s) will be corrected and Savant will reimburse the client for losses resulting from correcting the error. The custodian may determine how reimbursement for any loss is handled. Savant will also reimburse the client for expenses incurred by the client as a result of the error (i.e., wire transfer fee, overdraft charge).

The treatment of any gains resulting from error corrections is dependent on which custodian is processing the trade. For Schwab accounts, any gain generated in the correction of a trade error is retained by Schwab and donated to charity.

Trading errors occurring in TD Ameritrade accounts are processed through Savant's Errors and Omissions account. Gains greater than \$100 will be dispersed to Savant's Donor Advised Fund and donated to a charity selected by Savant. Gains under \$100 are retained in this account and will be netted against losses until such time that the net gain exceeds \$100. At that time the gain will be dispersed to Savant's Donor Advised Fund and donated to a charity selected by Savant.

Trading errors resulting in gains that occur in Fidelity accounts are retained by Savant. This error activity will be reviewed at year end and an amount equal to the total gain for the calendar year will be transferred to Savant's Donor Advised Fund and donated to a charity of Savant's choice.

Item 13. Review of Accounts

A. Schedule for Periodic Review of Client Accounts or Financial Plans and Advisory Persons Involved

WFAS, at its discretion, may prepare a customized written investment policy statement ("IPS") for the client, and share that IPS with Savant. Each client account is reviewed periodically by WFAS, as clients request, or as specified in the client's IPS. Reviews include an inspection of portfolio holdings, change in account values, and actual allocation of the account as compared to the recommended allocation. Reviews may be conducted by any of WFAS's financial advisors.

Quarterly

Savant's investment research team will review at least quarterly:

- Compliance of portfolios with investment policy and philosophy

- Performance of funds in models relative to benchmarks

- Performance of funds vs. peer groups

- Qualitative and quantitative factors described in *Savant Investment Policy Manual - Fund Selection Process*, including a fiduciary review

The investment research team will present to the investment committee a quarterly "Fiduciary Review", which will include details regarding the risk/return and investment expense profiles for the preceding 90-day period.

A designated representative of the investment research team will report to the investment committee at least quarterly or as deemed necessary. The report will encompass the qualifications and status of the current custodians, internal trading process, internal transfer process, and state of the portfolio accounting system.

Annually

Savant's investment research team will review at least annually:

- Investment management companies that manage funds in the portfolio

- Proxy-voting policy at Savant and investment management companies

- The mix of assets

- The investment universe to ensure the best funds that meet Savant's selection criteria are utilized in portfolio construction

No Savant employee is permitted to modify the investment program except as provided by investment committee resolutions.

B. Review of Client Accounts on Non-Periodic Basis

Savant may perform *ad hoc* reviews on an as-needed basis if notified by WFAS that there have been material changes in the client's investment objectives, risk tolerance, at client's request, or if there has been a material change in how Savant formulates investment advice.

C. Content of Client-Provided Reports and Frequency

WFAS will provide written reports to clients on a quarterly basis. These reports include:

- changes in market values

- current and historical time-weighted performance statistics

- comparison to an appropriate benchmark index

- disclosure of all fees billed to the client's account by WFAS

WFAS may outsource the preparation and delivery of these reports.

The client's independent custodian provides regular account statements directly to the client. The custodian's statement is the official record of the client's securities account and supersedes any statements or reports created on behalf of the client by WFAS. Clients are encouraged to cross reference security holdings as shown on the advisor's reports with the custodian's statement for the same period.

Item 14. Client Referrals and Other Compensation

A. Economic Benefits Provided to the Advisory Firm from External Sources and Conflicts of Interest

A.1. Other Products and Services

The custodians also make available to Savant other products and services that benefit Savant but may not directly benefit all of Savant's clients' accounts. Many of these products and services may be used to service all or some substantial number of Savant's accounts, including

accounts not maintained at such custodians. Some of these other products and services assist Savant in managing and administering clients' accounts. These include software and other technology that

- provide access to client account data (such as trade confirmations and account statements)
- facilitate trade execution (and allocation of aggregated trade orders for multiple client accounts)
- provide research, securities pricing information, and other market data
- facilitate payment of Savant's fees from its clients' accounts
- assist with back-office functions, recordkeeping, and client reporting

Many of these services may generally be used to service all or a substantial number of Savant's accounts, including accounts not maintained at such custodians. These custodians also make available to Savant other services intended to help Savant manage and further develop its business enterprise and client relationships. These services may include

- consulting
- publications and conferences on practice management
- information technology
- business succession
- regulatory compliance
- marketing

A.2. Independent Third Parties

Custodians may make available, arrange, and/or pay for these types of services rendered to Savant by independent third parties. These custodians may discount or waive fees they would otherwise charge for some of these services, or pay all or a part of the fees of a third party providing these services to Savant. As a fiduciary, Savant endeavors to act in its clients' best interests. Savant's recommendation that clients maintain their assets in accounts at one of these custodians may be based in part on the benefit to Savant of the availability of some of the foregoing products and services, and not solely on the nature, cost, or quality of custody and brokerage services provided by these various custodians, which may create a potential conflict of interest.

A.3. Additional Compensation Received from Custodians

As described in Items 12 of this brochure, Savant participates in institutional customer programs sponsored by TDA, Schwab, and Fidelity. Savant may recommend these brokers to clients for custody and brokerage services. There is no direct link between Savant's participation in such programs and the investment advice it gives to its clients, although Savant receives economic benefits through its participation in the programs that are typically not available to retail investors or other institutional advisors. These benefits may include the following products and services (provided without cost or at a discount):

- Receipt of duplicate client statements and confirmations

Research-related products and tools

Consulting services

Access to a trading desk serving Savant clients

Access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to client accounts)

The ability to have advisory fees deducted directly from client accounts

Access to an electronic communications network for client order entry and account information

Access to mutual funds with no transaction fees and to certain institutional money managers which may result in lower client expenses

Discounts on compliance, marketing, research, technology, and practice management products or services provided to Savant by third-party vendors

TDA, Schwab, and Fidelity may also pay for business consulting and professional services received by Savant's related persons, and may pay or reimburse expenses (including travel, lodging, meals, and entertainment expenses for Savant's personnel to attend conferences). Some of the products and services made available by these entities through their institutional customer programs may benefit Savant but may not benefit all or any of its client accounts. These products or services may assist Savant in managing and administering client accounts, including accounts not maintained at TDA, Schwab, or Fidelity as applicable. Other services made available through the programs are intended to help Savant manage and further develop its business enterprise and client relationships. The benefits received by Savant or its personnel through participation in these programs do not depend on the amount of brokerage transactions directed to the broker-dealer.

Savant also participates in similar institutional advisor programs offered by other independent broker-dealers or trust companies, including Schwab and Fidelity, and its continued participation may require Savant to maintain a predetermined level of assets at such firms. In connection with its participation in such programs, Savant will typically receive benefits similar to those listed above, including research, payments for business consulting, and professional services received by Savant's related persons, and reimbursement of expenses (including travel, lodging, meals, and entertainment expenses for Savant's personnel to attend conferences sponsored by the broker-dealer or trust company).

As part of its fiduciary duties to clients, Savant endeavors at all times to put the interests of its clients first. Clients should be aware, however, that the receipt of economic benefits by Savant or its related persons in and of itself creates a potential conflict of interest and may or may not, directly or indirectly, influence Savant's recommendation of broker-dealers such as TDA, Schwab, and Fidelity for custody and brokerage services.

A.4. Additional Services from TDA

Savant also receives from TDA certain additional economic benefits ("additional services") that may or may not be offered to any other independent investment advisors participating in the

program. Specifically, the additional services include payments for annual fees for Advent Axys, ByAllAccounts, Morningstar Direct, and Tamarac. TDA provides the additional services to Savant in its sole discretion and at its own expense, and Savant does not pay any fees to TDA for the additional services. Savant and TDA have entered into a separate agreement (Additional Services Addendum) to govern the terms of the provision of the additional services.

Savant's receipt of additional services raises potential conflicts of interest. In providing additional services or pricing of services to Savant, TDA most likely considers the amount and profitability to TDA of the assets in, and trades placed for, Savant's client accounts maintained with TDA. Both Savant and TDA have the right to terminate the Additional Services Addendum with Savant at their own individual discretion, provided certain conditions are met.

Consequently, in order to continue to obtain the additional services from TDA, Savant may have an incentive to recommend to its clients that the assets under management by Savant be held in custody with TDA and to place transactions for client accounts with TDA. Savant's receipt of additional services does not diminish its duty to act in the best interests of its clients, including to seek best execution of trades for client accounts.

A.5. Client Benefit from TD Ameritrade - iRebal

In addition to the above, TDA waives its licensing fees for the iRebal Software, a research tool offered by TDA and used by Savant, to the extent that Savant maintains at least \$750 million of client assets at TDA. As a result, Savant has incentive to continue recommending TDA to its clients. Savant presently holds over \$1BB in client assets with TDA, well in excess of the minimum required.

Savant considers a number of factors in recommending brokers and custodians to clients including, but not limited to, execution capability, experience and financial stability, reputation and the quality of services provided. In selecting TDA as one of the broker-dealers and custodians for certain of its client accounts, Savant takes into consideration its arrangement with TDA to obtain TDA's automatic portfolio rebalancing service for advisors known as "iRebal" at no charge, due to this arrangement with TDA.

The standard iRebal annual license fee applicable to Savant is \$50,000. That fee is subject to specified reductions (and even complete waiver) if specified amounts of clients' taxable assets are either already on the TDA platform or are committed to be placed on it. Specified taxable client assets either maintained on or committed to the TDA platform will bring fee reductions of up to \$50,000 per year.

The non-taxable assets excluded from the maintenance and commitment levels described above are those that constitute "plan assets" of plans subject to Title 1 of the Employee Retirement Income Security Act of 1974, amended, or of plans as defined in Section 4975 of the Internal Revenue Code (which include IRAs).

If Savant does not maintain the relevant level of taxable assets on the TDA platform, Savant may be required to make a fee payment to TDA calculated on the basis of the shortfall.

Although Savant believes that the products and services offered by TDA are competitive in the marketplace for similar services offered by other broker-dealers or custodians, the arrangement

with TDA as to the iRebal service may affect Savant's independent judgment in selecting or maintaining TDA as the broker or custodian for client accounts.

A.6. Client Benefit from Schwab - Survey

Schwab has agreed to cover the cost quoted by Adviser Impact to perform the 2013 Client Opinion Survey for Savant. Savant typically performs a survey on a semi-annual basis to gather information from its client base regarding our services, the client's satisfaction with our service and offerings, and to inquire as to what other services clients would like us to provide or that would be of benefit to them.

This client benefit is being provided to Savant with the expectation that Savant will direct additional assets under management ("AUM") to Schwab over the next twelve months. Savant's receipt of these additional services raises a potential conflict of interest as it may be perceived that Schwab was recommended as the custodian of choice for the client because of this agreement rather than in the client's best interests. However, Savant strives to always act in the client's best interest and expects that the AUM requirement can be met without compromising client's interests.

A.7. Conflict of Interest – TD Ameritrade - Operations Panel

David Bogner, Implementation Services Supervisor, is an alumnus of the TD Ameritrade Institutional Operations Panel ("Panel") as a representative of Savant. As such, he may be called upon to participate in Panels as an alternate. The Panel consists of approximately 30 investment advisors that advise TD Ameritrade Institutional ("TDA Institutional") on issues relevant to the independent advisor and their experience with TD Ameritrade's service, technology and products. The Panel meets in person periodically throughout the year and conducts periodic conference calls on an as-needed basis. Investment advisors are appointed to serve on the Panel for a three year term by TDA Institutional sales, service and senior management. An investment advisor may serve longer than three years if appointed to additional terms by TDA Institutional senior management after which they are conferred alumni status.

At times, Panel members are provided confidential information about TDA Institutional initiatives. Panel members are required to sign confidentiality agreements. TD Ameritrade, Inc. ("TD Ameritrade") does not compensate Panel members. However, TD Ameritrade pays or reimburses Savant for the travel, lodging and meal expenses Savant incurs in attending Panel meetings. The benefits received by Savant or its personnel by serving on the Panel do not depend on the amount of brokerage transactions directed to TD Ameritrade. Clients should be aware, however, that the receipt of economic or reimbursement benefits by Savant or its related persons in and of itself creates a potential conflict of interest and may indirectly influence Savant's recommendation of TD Ameritrade for custody and brokerage services.

A.8. Conflict of Interest – TD Ameritrade – Advisor Panel

Brent Brodeski, CEO, serves on the TD Ameritrade Institutional Advisor Panel ("Panel"). The Panel consists of approximately thirty (30) independent investment advisors that advise TD Ameritrade Institutional ("TDA Institutional") on issues relevant to the independent advisor

community. The Panel meets in person on average three to four times per year and conducts periodic conference calls on an as needed basis. Investment advisors are appointed to serve on the Panel for three-year terms by TDA Institutional senior management. An investment advisor may serve longer than three years if appointed to additional terms by TDA Institutional senior management. Brent's current term expires on December 31, 2017. At times, Panel members are provided confidential information about TDA Institutional initiatives. Therefore, Panel members are required to sign confidentiality agreements. TD Ameritrade, Inc. ("TD Ameritrade") does not compensate Panel members. However, TD Ameritrade pays or reimburses Panel members for the travel, lodging and meal expenses they incur in attending Panel meetings. The benefits received by Savant or its personnel by serving on the Panel do not depend on the amount of brokerage transactions directed to TD Ameritrade. Clients should be aware, however, that the receipt of economic benefits by Savant or its related persons in and of itself creates a potential conflict of interest and may indirectly influence Savant's recommendation of TD Ameritrade for custody and brokerage services.

A.9. Conflict of Interest – Charles Schwab ("Schwab") – Advisory Board

Glenn Kautt, Vice Chairman of the Board of Savant serves on the Schwab Advisor Services Advisory Board (the "Board"). The Board consists of approximately 21 representatives of independent investment advisory firms who have been invited by Schwab management to participate in meetings and discussions of Schwab Advisor Services for independent investment advisory firms and their clients. Board members serve for two-year terms. Mr. Kautt's term ends 12/31/2016. Board members enter nondisclosure agreements with Schwab under which they agree not to disclose confidential information shared with them. This information generally does not include material nonpublic information about the Charles Schwab Corporation, whose common stock is listed for trading on the New York Stock Exchange and the NASDAQ stock market (symbol SCHW). The Board meets in person approximately twice per year and has periodic conference calls scheduled as needed. Board members are not compensated by Schwab for their service, but Schwab does pay for or reimburse Board members' travel, lodging, meals and other incidental expenses incurred in attending Board meetings.

As described under Item 12 of this Form ADV, Savant may recommend that clients establish brokerage accounts with Charles Schwab & Co., Inc. to maintain custody of the clients' assets and effect trades for their accounts. The benefits received by Savant or its personnel by serving on the Board do not depend on the amount of brokerage transactions directed to Schwab Advisor Services. Clients should be aware, however, that the receipt of economic or reimbursement benefits by Savant or its related persons in and of itself creates a potential conflict of interest and may indirectly influence Savant's recommendation of Schwab Advisor Services for custody and brokerage services.

A.10. Client Benefit – Centre for Fiduciary Excellence (CEFEX)

CEFEX has provided Savant with a purchase credit of \$1500 against the annual renewal fee for their Steward CEFEX certification in consideration for Savant creating a brochure detailing the benefits of being a CEFEX certified Steward. Savant and CEFEX are not affiliated entities and this is not a referral relationship. Savant will not receive further compensation in regard to any other companies who might decide to pursue CEFEX certification as a result of our brochure and the purchase credit received is not dependent on Savant referring a certain number of companies for certification.

B. Advisory Firm Payments for Client Referrals

B.1. Solicitor Arrangements

Savant may enter into agreements with solicitors who will refer prospective advisory clients to Savant in return for a portion of the ongoing investment advisory fee. Such arrangements will comply with the cash solicitation requirements of Rule 206(4)-3 under the Investment Advisers Act of 1940. Generally, these requirements require the solicitor to have a written agreement with Savant. The solicitor must provide each client with a disclosure document describing the fees it receives from Savant, whether those fees represent an increase in fees that Savant would otherwise charge the client, and whether an affiliation exists between Savant and the solicitor.

B.2. TD Ameritrade AdvisorDirect Program

Savant may receive client referrals from TD Ameritrade through its participation in TD Ameritrade AdvisorDirect. In addition to meeting the minimum eligibility criteria for participation in AdvisorDirect, Savant may have been selected to participate in AdvisorDirect based on the amount and profitability to TD Ameritrade of the assets in, and trades placed for, client accounts maintained with TD Ameritrade. TD Ameritrade is a discount broker-dealer independent of and unaffiliated with Savant and there is no employee or agency relationship between them. TD Ameritrade has established AdvisorDirect as a means of referring its brokerage customers and other investors seeking fee-based personal investment management services or financial planning services to independent investment advisors. TD Ameritrade does not supervise Savant and has no responsibility for Savant's management of client portfolios or Savant's other advice or services. Savant pays TD Ameritrade an on-going fee for each successful client referral. This fee is usually a percentage (not to exceed 25%) of the advisory fee that the client pays to Savant ("Solicitation Fee"). Savant will also pay TD Ameritrade the Solicitation Fee on any advisory fees received by Savant from any of a referred client's family members, including a spouse, child or any other immediate family member who resides with the referred client and hired Savant on the recommendation of such referred client. Savant will not charge clients referred through AdvisorDirect any fees or costs higher than its standard fee schedule offered to its clients or otherwise pass Solicitation Fees paid to TD Ameritrade to its clients. For information regarding additional or other fees paid directly or indirectly to TD

Ameritrade, please refer to the TD Ameritrade AdvisorDirect Disclosure and Acknowledgement Form.

Savant's participation in AdvisorDirect raises potential conflicts of interest. TD Ameritrade will most likely refer clients through AdvisorDirect to investment advisors that encourage their clients to custody their assets at TD Ameritrade and whose client accounts are profitable to TD Ameritrade. In order to obtain client referrals from TD Ameritrade, Savant may have an incentive to recommend to clients that the assets under management by Savant be held in custody with TD Ameritrade and to place transactions for client accounts with TD Ameritrade. Savant has agreed not to solicit clients referred to it through AdvisorDirect to transfer their accounts from TD Ameritrade or to establish brokerage or custody accounts at other custodians, except when its fiduciary duties require doing so. Savant's participation in AdvisorDirect does not diminish its duty to seek best execution of trades for client accounts.

B.3. Paid Advertising for Client Referrals

One or more of Savant's professionals are profiled in the Paladin Registry (www.paladinregistry.com). Investors use the Registry's online services to learn about financial advisors, to learn how to avoid bad financial advice, to learn how to select quality advisors, to search for financial advisors, and to view advisor documentation. Paladin matches our financial professionals to investors who use the Registry's Self and Custom Search services and its documentation for their credentials, ethics, business practices, and financial services. Our professionals pay fixed monthly dues to be profiled in the Registry and to receive referrals. Paladin uses the dues to provide free information and search services to investors.

Item 15. Custody

Client assets are held by a qualified custodian and it is Savant's policy not to take physical custody or possession of client funds or securities at any time except to the extent that Savant may deduct fees directly from the client's account.

However, Savant may be deemed to have custody of client assets due to employees who act as a trustee for client accounts, by Savant being able to access client accounts using client credentials on custodial or employer websites, or by forwarding checks to custodians on behalf of our clients..

If Savant is deemed to have custody of client assets, Savant will undergo an annual Surprise Audit of the related accounts as required by the Adviser's Act.

The client's independent custodian provides regular account statements directly to the client. Clients are encouraged to cross reference security holdings as shown on Savant reports with the custodian's statement for the same period.

Clients will receive at least quarterly account statements directly from their custodian containing a description of all activity, cash balances and portfolio holdings in the client's account. Clients are urged to compare billing statements provided by Savant to the custodian statement for

accuracy. Any discrepancies should be brought to the firm's attention. The custodian's statement is the official record of the account.

Item 16. Investment Discretion

WFAS clients may grant a limited power of attorney to Savant with respect to trading activity in their accounts by signing the appropriate custodian limited power of attorney form. In those cases, Savant will exercise full discretion as to the nature and type of securities to be purchased and sold, the amount of securities for such transactions, the amount, if any, of commissions to be paid, and the executing broker to be used. Investment limitations may be designated by the client as outlined in the investment advisory agreement.

Item 17. Voting Client Securities

If the WFAS client authorizes it, Savant will be responsible for voting proxies relating to the client's portfolio securities at no additional charge. Savant may vote proxies directly, or may utilize an independent third-party service provider to review proxy solicitations, make voting determinations, and actually vote proxies on behalf of Savant's clients. In case of a conflict between the interests of the client and the service provider, Savant's investment committee will typically decide on how to vote the proxy. In the alternative, Savant may request guidance from the client on how to vote the particular proxy.

Savant owes certain fiduciary duties with respect to the voting of proxies. These fiduciary duties include (i) the duty of care which is required to monitor corporate events and to vote the proxies, and (ii) the duty of loyalty which is required to vote proxies in a manner consistent with the best interests of the client and to put the client's interests before its own interests. In keeping with its fiduciary duties, Savant has adopted a Proxy Voting Policy, which sets forth policies and procedures designed to ensure that Savant votes each client's securities in the best interests of the client.

Savant will be authorized to take action and render any advice with respect to the voting of proxies for securities held in the client's account. Savant will make an independent valuation for each applicable company held in the client's account in accordance with its fiduciary obligations as detailed in this policy. Clients may contact Savant's CCO for information about how Savant voted with respect to any of the securities held in their account.

Except as required by applicable law, Savant will not be obligated to render advice or take any action on behalf of the client with respect to assets presently or formerly held in the client's account which become the subject of any legal proceedings, including bankruptcies.

As a general rule, Savant will vote all proxies relating to a particular proposal the same way for all client accounts holding the security in accordance with Savant's Proxy Voting Policy, unless a

client specifically instructs in writing to vote such client's securities otherwise. When making proxy voting decisions, Savant may seek advice or assistance from third-party consultants, such as proxy voting services or legal counsel.

Savant has contracted with Broadridge Investor Communications, Inc., for proxy voting services. Broadridge utilizes research recommendations from Glass, Lewis & Co.

A copy of Savant's proxy voting policy (including the Glass, Lewis guidelines) is available upon request without charge. A report of how proxies relating to the securities held in a client's account during the prior year were voted is available upon written request to:

Ms. Cindy Freese, CCO
Savant Capital Management
190 Buckley Drive
Rockford, IL 61107

Item 18. Financial Disclosures

A. Balance Sheet

Savant does not require the prepayment of fees of \$1,200 or more, six months or more in advance, and as such is not required to file a balance sheet.

B. Financial Conditions Reasonably Likely to Impair Advisory Firm's Ability to Meet Commitments to Clients

Savant does not have any financial issues that would impair its ability to provide services to clients.

C. Bankruptcy Petitions During the Past Ten Years

There is nothing to report on this item.
